

To Whom It May Concern:

The City of Medora requests your support and assistance in advancing and improving our aging infrastructure, in anticipation of unprecedented visitation.

The Theodore Roosevelt Presidential Library, large development projects by the Theodore Roosevelt Medora Foundation, and continued private development within and adjacent to our City are in various stages of planning and construction. Best estimates are that these new projects - in addition to our existing local, state, and federal attractions - will push our annual number of visitors to well over 500,000 individuals. This is welcome news, of course, but it will put a critical financial strain upon our community of approximately 125 taxpaying residents.

Any support you may be able to extend to lessen these impacts would be most welcome and appreciated. Please contact me with any questions, or for further details.

Respectfully,

Derwin Zuroff

Mayor, City of Medora
