North Dakota Suicide Overview (Data Source : NDVDRS (2019-2023))
September 2024
Last Updated

North Dakota Violent Death Reporting System (NDVDRS):
 Suicide fatality data presented in this dashboard is obtained through the North Dakota Violent Death Reporting System (NDVDRS). NDVDRS is a state-based surveillance system that collects data on all violent deaths, including suicides. Data is collected from a variety of sources including death certificates, coroner/medical examiner reports, law enforcement reports, crime laboratory reports, and toxicology results. This data is linked together to provide a clearer picture of the circumstances surrounding suicide deaths.

The numbers include all deaths where the injury occurred in ND and is not dependent on ND residency. Therefore, these numbers will not match ND Vital Records data.

Note: The years that have '*' in their suffix is preliminary data.

k (+) Individuals in crisis can call, text or chat with the 988 Suicide and Crisis

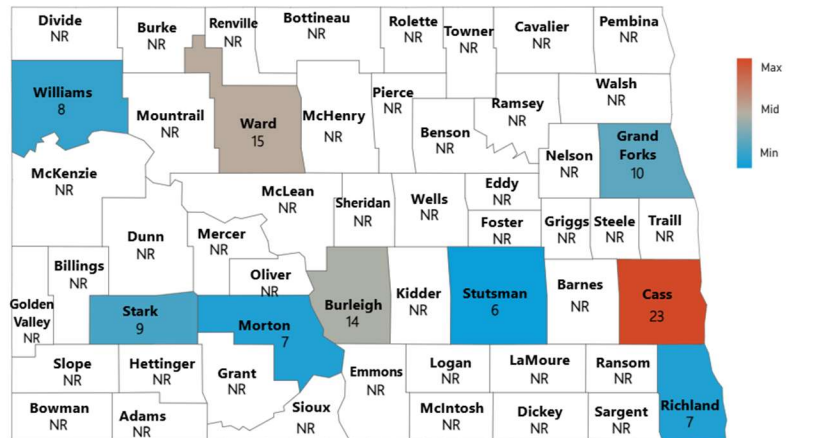

Use the dropdown box to select the year of interest or hold the Ctrl key and click to select more than one year.

Death Year
