

HB 1553

Nick Amb, elementary principal at North Border Walhalla. My testimony is my own, and does not necessarily reflect the views of my district.

I urge do pass vote here. Lets just feed our kids. They are kids.

It would be a welcome relief for many parents who might make just enough to not qualify under USDA guidelines, but are having trouble stretching the dollars.

No more letters and calls about lunch balances.

We have never to my knowledge, (at least in the time I have served here, 7 years) turned away a kid or made a fuss about this with the child. I know some districts offer a peanut butter sandwich without shaming the child, but it is still something out of the childs control.

We can do something positive for our kids and families. Lets just feed the kids.

Please vote yes!!

Nick Amb
