

No to SB 2400

I am writing in opposition of SB 2400. I am an educator in the public school system and this bill, no matter what it is called, will hurt our students and families in public education. Here are a few reasons why:

- Public funds should remain in public schools, where they serve all students, regardless of ability, background, or financial status.
- Vouchers take critical funding away from our public school system.
- Vouchers only benefit those in metro areas across our state as most rural communities do not have non-public schools.

- Public school systems are already struggling, we should be investing any additional available money into our public schools.

Oppose this bill in order to secure the funds that public schools receive from the state to help ALL students, not the few. This is not parent choice, parents already have the choice. I implore you to do what is right for EVERYONE!

Thank You
