

I am writing to ask that you vote against any school voucher program. Voucher funding comes from the same pot of money used to fund public schools, diverting critical resources that could and should be dedicated to meeting the needs of students in public schools.

Once private schools receive public funding, they will simply raise their tuition to make it out of reach for most North Dakotan families. Public schools take any and all students, private schools do not. Please do not give public tax dollars to support private entities.
