MILL LEVY SUMMARY FOR 2023-2024

The following is a summary of the taxable valuation and the number of mills levied by school district and by county. Taxable valuation per enrolled student is calculated by dividing the total taxable valuation by K-12 fall enrollment. The statewide average taxable valuation per enrolled student for the current school year is \$50,959.

To determine the amount of revenue that a mill levy will raise, multiply the taxable valuation of the school district by the number of mills levied.
(Example: taxable valuation \$1,500,000 x 40 mills / 1000 = \$60,000.)

The type of General Fund levy is denoted by use of the following codes: R = regular mill levy authorized by statute and set by the school board and S = specified mill levy authorized by the electors of the school district.

Of the school districts reporting a mill levy type, 163 districts have a regular mill levy and four districts have a specified levy. Four districts did not make a levy for the 2023-2024 school year. 31 districts levied less than 60 mills for general fund purposes. Four districts made no levy for general fund purposes. The total average levy for 2023-2024 is 108.72 mills.

The county and state totals were determined by totaling the taxable valuations for the school districts and calculating the number of mills required to raise the same amount of revenue if there were only a single county or state levy for each of the funds.
