

SCR 4007

TO ND Legislative Assembly

FR Mona Rindy

RE Oppose SCR 4007

Article III of the ND Constitution has protected the citizens' right to amend for over 100 years. It should not be changed at this time, and certainly not with the timing that it would go before the voters at a primary election instead of a general---that seems underhanded since it is evident that primary election turnout is much lower than general election turnout.

The citizens of ND are allowed by its constitution to amend said constitution, and the legislature should NOT try to change the existing parameters for amendment.

Thank you.
