

Do Pass Testimony for HB 1373

Dear Chairman Ruby and member of the House Human Services Committee,

Thank you for serving the citizen of North Dakota. In regards to HB. 1373, I urge the committee to vote in favor. The preborn deserve equal protection under the law. This legislation, when looked at face value, is common sense. A preborn life is a human being, all human beings deserve their God-given rights and protection, therefore the preborn should have equal protection under the law. It is that simple.

Give HB 1373 a Do Pass.

Thank you for your time,
Larrissa Chavez
