Re: In opposition to HB1488

As a mother and grandmother, I cherish the gift of life. I have mourned the loss of a premature baby and I can tell you first hand, tiny babies feel pain and they are tiny humans.

A nation or state that allows the killing of our own offspring will not go unpunished. God is a merciful God and can forgive the barbaric act of abortion if we repent and continue no more to engage in the act.

HB 1488 will expand the atrocity in a way that we do not want for our state. I implore you all to consider what will be achieved with this bill. What would be next? Killing babies at term? Or worse? Please stop the madness and let us all come to our senses.
