

In opposition to HB 1488

Stephanie Doolittle

Hazleton, ND

Reading through the text of this bill and the changes being made are sad beyond measure.

We are no longer talking about an unborn child...but a fetus. Is it to make the context more palatable? When talking about a fetus in the context of abortion, it just means one thing. A LIFE is being taken, no matter how you spin it. And, the term "Abortion Approval Committee" should have everyone wondering what has happened to us? A state that LOVES ALL LIFE and supports Moms and their precious babies is being tempted by society and the darkness of the evil one. We must continue to pray that hearts and minds are open to see the deception.

I ask you to please oppose HB 1488 and the expansion of abortion in our state.
