

Lanny Kenner  
District 7

Chairman Ruby and committee members, I am requesting a DO  
PASS on house concurrent resolution 3011.

Hyperbaric oxygenated Chambers are a great way to help multiple health problems. I won't get into all the many different ways hyperbaric can help people's health problems because there are so many!

I just know our veterans deserve the best healthcare available. Our veterans put everything on the line for our freedom so we should give them the best health care possible!

By the way I am writing this from inside a hyperbaric oxygenated chamber.

So I am urging you to pass HCR 3011 for the health of our veterans.

Thank you Lanny Kenner
