

Hello!

I would like to weigh in on the idea of bringing back the Blue Laws, as proposed in HB 1150. I am strongly opposed to this bill for the following reasons:

- Adding these laws and restrictions removes choice. Businesses should be free to operate within whatever hours suit their business.
- Some people need Sunday mornings to do their shopping. Other times may not work.
- The state should not dictate which hours a business can operate. Employees will still have to work, regardless of businesses being open or closed to the public.
- This feels like a huge step backward for

our state by restricting choices and freedoms of the residents.
