

House Energy and Natural Resources Committee Members –

As a citizen of North Dakota, I am writing to implore you to oppose HB1411. I can't entirely wrap my brain around why we would want to prohibit ERPOs, which exist only to protect the innocent. Proactively banning this type of protection seems shortsighted and just plain wrong.

Please consider ways that you as our elected officials can help ALL citizens exist in our state safely and peacefully.

Thank you –

Aleyna Leibfried
