I am writing in opposition of SB 2069

The Daily News and News Monitor place approximately 1,500 public notices each year in the Daily News and News Monitor. In the past five years, not one notice has been missed.

In discussion with our readers and communities they want to see the notices in our newspapers, not on government websites.

We take our responsibility for keeping citizens information seriously, including a timely publication of all notices.

We believe that the appropriate backstop for web publication of notices is ndpublicnotices.com

Thank you for your consideration of a vote no.
