

## *Physicians Dedicated to the Health of North Dakota*

NDMA is a professional membership organization for North Dakota physicians, residents, and medical students. NDMA maintains a database of information on individual physicians and residents for many purposes. The data is comprised of new licensure information obtained routinely from the ND Board of Medicine, health systems and other facilities, and other sources.

### Number of Physicians

As of February 4, 2025, North Dakota has an estimated 1,740 regular active physicians. This does not include retired physicians, residents, or medical students.

### UND SMHS Graduates

Of the total 1,740 physicians, 636 are UND School of Medicine & Health Sciences graduates; and 327 are primary care physicians. Primary care physicians include family medicine, internal medicine, obstetrics, and pediatrics.

### Gender and Age

Of the 1,740 total physicians, 1,157 or 66.5% are male; and 583 or 33.5% are female.

The overall average age of physicians is 50, with the breakdown by age group as follows:

Age	Number	% of Total	Age	Number	% of Total
<b>Under 31</b>	5	0.29%	<b>51-60</b>	342	19.66%
<b>31-40</b>	426	24.48%	<b>Over 60</b>	400	22.99%
<b>41-50</b>	567	32.59%	<b>Total</b>	1740	100.00%

**North Dakota Practicing Physicians by Age**

## Specialty - Primary Care

Of the 1,740 total physicians, 39% or 680 physicians are in primary care. Primary care physicians include family medicine, internal medicine, obstetrics, and pediatrics.

### Practice Location

Overall, 87.82% or 1,528 physicians practice in urban areas; and 12.18% or 212 physicians practice in rural areas.

For this purpose, the term “urban” is based on the primary locations of Bismarck-Mandan, Fargo-West Fargo, Grand Forks, and Minot.

When it comes to primary care, 77% of physicians practice in urban areas; and 23% practice in rural areas.

City	Count	%	City	Count	%	City	Count	%
