

I am in favor of SB2137. You can feed wildlife all you want but as soon as you hunt over the feed, they supposedly get CWD? Doesn't make sense. They won't show their proof of CWD prions, but we should trust them and their science. We own the land and yet NDGF tells us what we can and cannot do on said land. So much of this makes no sense at all. Stop the fear mongering.

Thank you,

Scott Wittmayer
