</div><div>I am writing in response to the proposed senate bill that would restrict the placement of beehives in North Dakota. There are numerous reasons to oppose this infringement on agriculture in our state. If placement of hives is restricted to greater than one half mile from state maintained highways it would greatly impact my farm. My house and warehouse are located on a fairly busy state highway. If passed it would seem this bill would significantly impact my farming operation. I am definitely opposed to this proposed bill. </div><div>
