

I was a student in public schools in a community where many of my friends were in the local Catholic elementary school connected to our church. My family could send my brother and me to the local public school. It was hard as a kid to understand why my friends from church and activities went to a different school than me, but as an adult, I now understand. My brother had needs that could not be met at a private school. I struggled with reading, and our local public school had reading specials to enhance the instruction I received in the classroom. Now, as a public-school teacher and mother believe wholeheartedly that their choice was the best for our family. Those services we received wouldn't have been as possible if public funds had gone to the private school in our area. As a kindergarten teacher, I see students start in private schools and then come into public school classrooms after their needs have not been met in those locations. As a mother, I have a child who is on an IEP for dyslexia and receives not only special education services but also reading interventions through a reading specialist. Private schools do not have to accept everyone. Private schools do not have to meet the needs of every student like public schools. Private schools do not have the same regulations and expectations as public schools. Therefore, public dollars should not be used for private education. Every parent should have a choice on what is best for their child. However, public dollars are meant for the free inappropriate education that public schools provide. I encourage you to oppose any bill that gives public dollars to private schools.

Thank you for your time
