

Opposition to SB2307

This bill is an unnecessary and ill concealed attempt at censorship, promoted by a predominantly conservative Christian agenda that has become prolific in our government at all levels.

3 points stand out to me:

- 1) there is no explanation of how this bill would be implemented
- 2) It would be costly to taxpayers.
- 3) The library community already has a process in place for citizens to challenge materials since the Legislature passed HB 1205 in 2023.

Oppose SB2307
