SB 2384
Senate Judiciary Committee
Submitted by Don Santer for NDAD
02/05/2025

Chairman Larson and Committee Members,

Thank you for the opportunity to provide information regarding the charitable gaming industry of North Dakota. My name is Don Santer, representing the North Dakota Association for the Disabled (NDAD). For 50 years, NDAD has been dedicated to improving the quality of life for persons with disabilities and health challenges across North Dakota. NDAD is **Opposed** to **SB 2384**.

NDAD is a non-profit, charitable organization serving individuals with health concerns and disabilities throughout the state from our six locations in Bismarck, Dickinson, Fargo, Grand Forks, Minot, and Williston. In 2024, NDAD assisted thousands of North Dakota residents with more than **\$2.23 million** in services and resources that may have been otherwise unavailable to them. We work diligently to avoid duplicating services provided by other state or local entities, making us a crucial last resort for many individuals.

In 2024, NDAD funded most of its services through charitable gaming funds, which enabled us to make a significant impact on the lives of people with health challenges and their families:

- **6,121 prescriptions for covered medications:** Ensuring individuals have access to necessary medications to manage their health conditions.
- **2,134 out-of-town medical travel trips:** Providing transportation for essential medical appointments, reducing the burden on individuals and their families.
- **8,049 accessible rides for employment, shopping, and community events:** Facilitating independence and participation in daily activities.
- **24 organizations were awarded \$100,050 in funds to assist individuals with disabilities or those otherwise at risk:** Supporting other organizations in their efforts to improve the lives of people with disabilities and health challenges.
- **328 pieces of medical equipment and 567 medical supplies purchased:** Ensuring individuals have the tools they need to manage their health and maintain their independence.
- **40-50 individuals assisted with adaptive recreational activities annually:** Promoting physical and mental well-being through inclusive recreational opportunities.
- **Healthcare Equipment Loan Program (HELP):** Serving several thousand households with 5,424 pieces of equipment, equating to a savings of more than \$664,000 for North Dakota residents.

Additionally, NDAD administers the North Dakota Transplant Fund and provides information, referral, and public awareness to North Dakota residents. Our mission is to

serve the residents of North Dakota, and it is through charitable gaming that we are able to fulfill this mission.

The services provided by NDAD are not just beneficial but essential for improving the lives of people with disabilities and health challenges. They offer the support needed to overcome barriers, achieve personal goals, and live fulfilling lives. By ensuring access to these services, we create a more inclusive and equitable society for everyone.

SB 2384 is an attempt by an out-of-state manufacturer to capture a larger share of the revenue from charitable gaming in North Dakota. Our local distributors provide essential jobs and services to charities and should not be excluded. Charities rely on these local service providers not just for bingo cards and pull tabs, but also for maintaining all gaming equipment, including electronic gaming devices. Quick service is crucial, and our local distributors offer almost 24/7 support, which an out-of-state manufacturer may not provide.

Local distributors are vital to the economy, providing jobs and services. Eliminating them will lead to job losses and negatively impact the local economy.

Proponents claim bypassing distributors will lower the price of electronic gaming devices (etabs). However, the bill lacks provisions to enforce this. Manufacturers are not obligated to reduce prices, and without competition, prices may increase. This could also lead to higher prices for other gaming products sold by distributors.

The bill could limit choices for charities, giving manufacturers more control over who can access their machines. This could force charities into long-term contracts, creating mini monopolies. Local distributors encourage market stability and maintain quality through competition.

NDAD stands behind North Dakota-based gaming distributors. SB 2384 could significantly harm local distributors and the charities they serve. It is crucial to consider these potential consequences and ensure that any changes do not harm the local economy or limit options for charities.

NDAD respectfully asks for a **Do Not Pass** recommendation on **SB 2384**.

Thank you, Madam Chairperson and members of the committee.

Respectfully,

Don Santer, NDAD
