Attn: Senate Judiciary Committee

Please vote no on HCR 3013. This bill attacks the protection of same-sex marriage and encourages a rigid definition of which people should be allowed to join their lives with another person in a marriage.

Consenting adults should have a right to marry a partner of their choosing. There is no reason for our government to allow some adults to marry and restrict others from marriage. This freedom has been reinforced by the removal of laws that prohibited adults from marrying a person of a different color or culture.

Support your constituent's rights by voting no on this harmful bill.

Thank you,
