RE: SCR 4006

Dear Chairman Lee and Members of the Senate Energy and Natural Resources Committee,

I am in favor of providing federal protection to the Theodore Roosevelt National Park (TRNP) wild horses. They are a living historical remnant of true American freedom and draw thousands of people to the TRNP every year. Federal protection is a necessity to ensure that these living symbols of our country's resilience and strength do not become another sad, tragic footnote to our history.

Please vote to protect and preserve this iconic herd and pass SCR 4006. Thank you.

Sincerely,

Elizabeth Longman  
Tucson, Arizona
