

RE: SCR 4006

I am in favor of passing this resolution which calls for federal protection of the Wild Horse herd in TRNP, North Dakota. Of the trips I make during the year, this park is a MUST because of our wild horse heritage. My husband and I are forever in awe of the terrain and hardiness of them. We see them as a source of pride and remembrance. Because they have NO protection under the Wild and Free Roaming Wild Horse & Burro Act, we believe this bill is instrumental for the future of our TRNP wild horses. They enhance healthy vegetation within the park and can be managed successfully as proved in studies. Please hear us and ACT.
