

February 5, 2025

Dear Congressional leaders,

I desperately urge you to be in FULL FAVOR of the SCR 4006 resolution to fully protect the wild horse herd at Theodore Roosevelt National Park in ND! As an avid horse lover and citizen who cannot even fathom why policies exist that abuse, neglect or disregard any wild animal's natural right for existence AND human respect on this beautiful earth, I beg you to please support federal regulations to protect these wild horses. Not only are these horses a living tribute to Theodore Roosevelt and help boost ND economy, but they have NO federal protection! They must have this protection to be safe and not at risk of removal. The citizens of ND and across the US want these horses protected.

Please, Vote in **FAVOR of SCR 4006** and pass the much-needed federal legislation for the majestic and symbolic horses of Theodore Roosevelt National Park!!!

Sincerely,

Julianne Allen Whittington
