

Dear Committee Members,

I'm writing today in strong Support of SCR 4006. My Name Is Janine Mincks. I have been a Horse Lover and advocate for our Wild horses my whole life. These horses are an important part of our heritage, our culture, our community and Family. These amazing and majestic horses need our support and protection. Here is why...

~ These Horses have coexisted with the landscape for many Generations.

~ Wild Horses Play a Role in Maintaining the Park's ecosystem, contributing to biodiversity and the land management.

~These Horses contribute to North Dakota's identity and heritage, attracting visitors, Researchers, Tourists that boots North Dakota's economy and supports local businesses!

~ These Horses Deserve Humane, science-based management rather than Mass Removal and or Elimination.

I urge you to stand with us in preserving this iconic herd for many generations to come. Thank you very much for your time and consideration.

Sincerely,

Janine Mincks
