Subject: Theodore Roosevelt National Park (TRNP) Federal Protection for Wild Horses

I am writing to submit testimony that I fully and strongly support and applaud the efforts to legislate federal protection and humane, science-based conservation for the Theodore Roosevelt National Park's historic herd of wild horses.

Protecting our wild lands and iconic wild horses with respect, honor and dignity preserves an important legacy that all Americans will treasure, and future generations will view with the greatest of appreciation. When we work together to honor and protect what is wild and free, we are protecting the fundamental principles of the United States of America.

Thank you for your efforts to protect our beloved wild horses of the TRNP,

Coleen Chase
