

I am in opposition of this bill, I feel it is another detriment for those
In rural communitis, most small communitis do not have lights on their
baseball/softball fields and our children and even adults who have league
baseball/softball will not be able to play evenings before it gets to dark as
most working adults are working and unable to even start a game before 7pm.
That is just one of many reasons that this should be a No Vote! Thank You!!
