Dear Legislators:

I am writing in support of SB 2331 to create a working group to collaborate with Theodore Roosevelt National Park on managing the wild horses.

As the state is most knowledgeable about the wild horses at the Theodore Roosevelt National Park, this group would be more effective in helping the park and the horses. This group would also be able to address situations and pivot more quickly if needed.

Even though I'm based on the east coast, protecting our wild horses has always been important to me and I hope this legislation passes to continue to protect them.

Thank you in advance for your time.

Best,
Karen L
