And the assessor shall forward the application promptly, together with the premiums so collected, to the county auditor. [1913, ch. 192, § 2; 1911, ch. 23, § 2.]

§ 178. County auditor's duties. Each county auditor in the state shall file and keep the insurance applications returned to him by the several assessors, and turn all moneys collected for each month for the insurance over to the county treasurer the first of each succeeding month, taking his receipt therefor, and any party who fails to insure his crop with the assessor, as above described, may at any time up to and including the twenty-first day of August, apply to the county auditor of the county where the land is situated to have his crop insured, as provided in this article, by filling out and filing with the county auditor an application, as prescribed in section 177, and upon the payment of the premium prescribed herein to said county auditor for such insurance, which premium shall be turned over to the county treasurer as above provided.

It is further provided that said insurance shall be in force and effect from the time of filing the application in the office of the county auditor, and until the grain is cut but in no case later than September fifteenth of each year. He shall also keep a record of the time of filing such application. The county auditor shall immediately issue and mail to each applicant his policy upon the filing of said application. [1913, ch. 192, § 3; 1911, ch. 23, § 3.]

§ 179. Duplicates and abstracts. On the first day of June, July, and August, each and every county auditor within the state shall make out a list of all hail insurance applications filed in his office and forward the same at once to the department of hail insurance at Bismarck, and on or before the first day of September in each year, each and every auditor within the state shall make out in duplicate a list of all the hail insurance applications filed in his office, keeping one copy for his records, and forwarding the other

§ 180. Duty of the county treasurer. The county treasurer of each and every county in the state shall issue his receipt to the auditor for such premiums turned over to him and shall keep a separate account of all moneys collected from such hail insurance premiums, and he shall pay the same over to the state treasurer, taking his receipt therefor, not less than ten per cent at the end of each month, and the balance not later than September 1st of each year. [1913, ch. 192, § 5; 1911, ch. 23, § 5.]

§ 181. Adjusters. The county commissioners of each county shall at the April meeting of the board appoint one competent person who shall be a resident of the county to act as official adjuster of losses or damages caused by hail to any crop that has been insured under the provisions of this article. If the county commissioners fail or neglect to appoint an official adjuster as herein required, the commissioner of hail insurance shall appoint an official adjuster for such county and such official adjuster shall have all the powers and perform all the duties imposed upon official adjusters appointed by the county commissioners, according to the provisions of this article. The county auditor shall immediately, after such appointment, notify the commissioner of hail insurance of the same, and no such appointment shall be effective unless confirmed and approved by the said commissioner of hail insurance. The commissioner of hail insurance shall have power and authority to remove or discharge any such official adjuster for misconduct, incompetency or neglect of duty, and such commissioner may in his discretion direct such official adjuster to adjust losses or damages caused by hail to any crop insured under the provisions of this article in any county or counties in this state, adjacent to the county in which he was appointed. The official adjuster shall receive as compensation for his services, the sum of five dollars per day and his actual and necessary expenses while engaged in the actual and necessary performance of his duty. The official adjuster shall adjust losses or damages caused by hail to any crop that has been insured under the provisions of this article. And it is hereby made his duty to adjust all losses and damages within his county, or within any other county in the state when so directed by the commissioner of hail insurance. When any party that is insured as herein provided has sustained a loss by hail, he shall promptly thereafter notify the commissioner of insurance of such loss. The commissioner of insurance shall, as soon as possible after receiving the notice of loss direct an official adjuster to visit the place of loss and proceed to estimate and adjust such loss. In so doing, it shall be his duty to carefully inquire into the condition of the crop before the loss occurred, as to whether it was poor, medium or good, and if he deems it necessary, he shall have the power to call witnesses to testify as to the conditions of the crop before the same was damaged or destroyed, and he shall make his estimate and adjustment after ascertaining the condition of the crop before and after the loss occurred. In estimating the loss the official adjuster shall allow as damages the proportion which the crop as damaged bears to the crop if no loss had occurred. If the total value of the crop insured be less than eighty dollars per acre, then in case of total loss the insured shall receive the total value thereof; and if the loss be partial then the insured shall receive that percentage of value which the loss bears to the total value of the crop insured. If the value of the crop be more than eight dollars per acre, the insured shall receive that percentage of the maximum of eight dollars which the loss bears to the total value of the crop. Provided, however, that in no case shall more than eight dollars per acre be allowed as the maximum for wheat, flax, oats, barley, corn, rye and other grains. [1913, ch. 192, § 6; 1911, ch. 23, § 6.]

§ 182. In case no agreement. In case the party that has sustained the loss is dissatisfied with and refuses to accept the adjustment made by the official adjuster then he shall have the right to appoint one disinterested person as adjuster and the official adjuster shall appoint another person as adjuster, and the two shall elect a third disinterested person, and the three shall then proceed to adjust the loss in the same manner as specified in section 181, and the judgment of the majority shall be the judgment of said adjusters and shall be binding upon both parties as the final determination of said loss; provided, however, that if the insured does not recover a greater sum than allowed by the official in the first instance, he shall pay the expenses of the said three adjusters and their witnesses in making said adjustment, but if he receives a larger sum, then the same shall be paid by the commissioner of hail insurance out of the hail insurance fund. [1913, ch. 192, § 7; 1911, ch. 23, § 7.]

§ 183. Report of adjusters. At the final adjustment of each loss the adjuster shall then and there carefully fill out and make a report in triplicate on an adjustment blank prepared for him for that purpose stating the county, township and range, the number of the section and the quarter of the section or subdivision thereof, on which the crop was damaged or destroyed, also the number of acres and different kinds of grains estimated damaged or destroyed, being the amount allowed for each separately, and that such estimate is true and not in excess of the actual loss sustained, which said adjustment papers must be signed and sworn to by the official adjuster or all the adjusters when arbitration is resorted to, acting as adjuster, and the party whose loss has been adjusted, with the residence and post office address of both. The official adjuster shall, within a reasonable time, not to exceed five days, forward by registered mail said adjustment papers, the original to the commissioner of hail insurance at Bismarck, North Dakota, one copy to the county auditor and one copy to the insured. [1913, ch. 192, § 8; 1911, ch. 23, § 8.]

§ 184. Compensation of adjusters, itemized statement. The official adjuster shall receive as compensation for his services the amount specified in section 181 of this article. All persons called on to assist in adjusting a hail loss, whether acting as adjusters or as witnesses shall receive the sum of two dollars per day for all services so rendered. The official adjuster shall itemize said expense account for each loss or adjustment made, which account must be sworn to and forwarded to the commissioner of hail insurance, and the same shall upon being approved by the hail insurance commissioner be paid out of the state hail insurance fund, on warrants drawn by the state auditor. Provided, however, that such adjuster or adjusters shall not be entitled to receive or be paid any compensation or expenses, as herein provided, unless all adjustments by him made shall be reported to the commissioner of hail insurance, as required in this article, within ten days from the time such adjustment or adjustments were made. [1913, ch. 192, § 9; 1911, ch. 23, § 9.]

§ 185. Duties of state treasurer. The state treasurer shall keep all moneys paid by the several county treasurers from the collections of hail insurance in a separate fund to be designated and known as the hail insurance fund, and the treasurer shall pay out of said fund only upon warrants of the state auditor. [1913, ch. 192, § 10; 1911, ch. 23, § 10.]

§ 186. Duties of commissioner of hail insurance. When the several county auditors of this state shall have made complete returns showing the number of acres insured for that year the commissioner of hail insurance shall sum up the total hail insurance fund for that year; when he shall have received a complete return from all of the hail losses in the state as adjusted and allowed, he shall sum up the total of such amounts for that year. He shall sum up the expenses of his office as follows:

First: The total amount allowed for adjusting losses.

Second: The total amount estimated necessary for deputies and clerk hire in the hail insurance department for said year.

Third: The amount estimated necessary for books, blanks, stationery, postage and other expenses incident to the running and operating of the said hail insurance department, for one year, the total sum of such expense account shall first be deducted from the total amount of the hail insurance receipts for that year and paid, and if the balance remaining is sufficient, all hail losses shall be paid in full as allowed by the adjusters, but if the expenses and hail losses shall exceed the amount of hail insurance receipts for that year, the expenses shall be paid first and the losses shall be paid pro rata. However, should there in any one year after all expenses and losses have been paid, still be a surplus, then such surplus remain in the state treasury in the hail insurance fund to be drawn upon in such future years as there might be a deficiency. [1913, ch. 192, § 11; 1911, ch. 23, § 11.]

§ 187. Penalty. Any county auditor in this state who shall fail or neglect to make complete returns, statements and reports as required in this article to the commissioner of hail insurance at the times specified in any section of this article, shall forfeit the sum of ten dollars per day for each day during which he neglects to make such statements, returns or reports to the commissioner of hail insurance, and upon complaint or notice by the said commissioner to the attorney-general of the state, it shall be the duty of the attorney-general to proceed to collect the amount of such penalty from any delinquent auditor. [1913, ch. 192, § 12.]

§ 188. Payment of losses. When the commissioner of hail insurance has figured up the whole year's business, as indicated in section 187, he shall prepare and furnish to the state auditor a certified list of the loss arranged by counties, showing the names and addresses of persons who have suffered loss by hail and are entitled to compensation for such losses under the provisions of this article, the appraised losses and the amount to be paid each such person; upon receipt of this list from the commissioner of hail insurance it shall be the duty of the state auditor immediately to draw warrants for said amounts upon the state treasurer, the amounts of which shall be charged to the state hail insurance fund, in favor of each person entitled thereto and to mail such warrants forthwith to each person entitled thereto, as shown by the certified list of the state hail insurance commissioner aforesaid. It shall also be the duty of the state hail insurance commissioner to mail a copy of each such list of losses and amounts allowed to each and every person named in such list and who has suffered loss by hail during the year for which such list is made. [1913, ch. 192, § 13; 1911, ch. 23, § 12.]

The commissioner of hail insurance shall on or about the first day of December in each year issue and publish in four newspapers of general circulation within the state a concise statement of the work and condition of the hail insurance department during the preceding year. He shall also make a biennial report to the legislature. [1913, ch. 192, § 14; 1911, ch. 23, § 13.]

ARTICLE 1.—BOARD OF CONTROL.

§ 236. **Nomination. Term of office. Confirmation. Salaries. Removal. Vacancies.** The governor shall, prior to the adjournment of the twelfth legislative assembly, nominate and, with the consent of two thirds of the members of the senate in executive session, appoint three electors of the state, two of whom shall be of the political party having a plurality, and one of the political party having the next highest number of members in the legislative assembly, and no two of whom shall reside at the time of their appointment in the same congressional district, after such district shall be defined, as members of a board to be known as a "board of control of state institutions." Said members shall hold office for a term of two years. Subsequent appointment shall be made as above provided, except to fill vacancies and shall be for a period of two years. The board shall at all times be subject to the above limitations and restrictions. No nomination shall be considered by the senate until the same shall have been referred to a committee of five, not more than three of whom shall belong to the same political party, to be appointed by the president of the senate without the formality of a motion, which committee shall report to the senate in executive session, which report shall be made at any time when called by the senate. The consideration of nominations by the senate shall not be had on the same legislative day the nominations are referred. The chairman of the board for each biennial period

shall be the member whose term first expires and each member thereof shall receive a salary of three thousand dollars (\$3,000.00) per annum. The governor may remove any member of the board for malfeasance or nonfeasance in office or for any cause that renders him ineligible to appointment or incapable or unfit to discharge the duties of his office, and his removal when so made, shall be final. [1911, ch. 62, § 1.]

In approving this act the governor expressed his confident opinion that the first section violates section 211 of the constitution and part of section 20 thereof by prescribing a political test for members of the board. Governor's message, Laws 1911, p. 104, where the governor cited in support of his opinion *Attorney-General v. Board*, 58 Mich. 213; *People v. Hurlbut*, 24 Mich. 90-92; *Evanaville v. State*, 118 Ind. 426; and *Rogers v. Common Council*, 123 N. Y. 185. But he was also "of the opinion that after such portions of the act as are unconstitutional are stricken out, there will still remain a good law that can be enforced."

§ 237. Oath, bond, examination. Not excused from testifying. Each member of the board shall take the oath, and qualify, as required by section 661, and shall devote his whole time to the duties of his office. Before entering on the duties of his office, each member shall give an official bond of the sum of twenty-five thousand dollars (\$25,000.00) conditioned as provided by law, signed by sureties, to be approved by the governor as to the sufficiency of surety, and by the attorney-general as to form, and when so approved, said bond shall be filed in the office of the secretary of state. No member of the board of control shall be eligible to any other lucrative office in the state during his term of service or for one year thereafter or to any position in any state institution during the term of which he was appointed, nor within one year after his term shall have expired. The said board of control shall be subject to the examination of the state auditing board. The claim that any testimony or evidence sought to be elicited or procured on such examination may tend to criminate the person giving or producing it, or expose to public ignominy, shall not excuse him from testifying or producing evidence, documentary or otherwise; but no person shall be prosecuted or subjected to penalty or forfeiture for and on account of any matter or thing concerning which he may testify or produce such evidence, provided that he shall not be exempt from prosecution and punishment for perjury committed in so testifying. [1911, ch. 62, § 2.]

§ 238. Offices. Secretary, salary. Supplies. The board shall be provided by the proper authorities with suitably furnished offices at the seat of government, and shall employ a competent secretary, who shall receive a salary not to exceed two thousand dollars (\$2,000.00) per annum, and may also hire a stenographer and such other employes as may be necessary to properly transact the business within the duties of said board with dispatch. The board shall, by the proper authorities, be also furnished with all necessary books, blanks, stationery, printing, postage stamps, and such other office supplies as are furnished other state officers. It shall present to each legislative assembly an itemized account of its expenditures, to the end that the legislature, may, for the future, fix the maximum amount of such expenditures. [1911, ch. 62, § 3.]

As to the time of making reports to the legislative assembly and the contents of reports, see sections 95, 97, 98, 633.

§ 239. Appropriation. There is hereby appropriated from any funds in the state treasury not otherwise appropriated the sum of \$15,000.00 annually, or as much thereof as may be necessary to carry out the provisions of this act. [1911, ch. 62, § 4.]

§ 240. Traveling expenses. Governor's approval. In addition to the salaries paid the members of the board and the secretary, or other employes, they shall be entitled to the necessary traveling expenses, by the most convenient and practicable route, incurred in going from Bismarck to the different institutions, or to other places in the state, when on official business.

No expenditure for traveling expenses to other states shall be made by the board, or by any officer or agent thereof, or by any officer, employe, or agent of any state institution under the control of this board, unless the authority to make such trip is granted at a meeting of the board of control upon a written resolution, adopted by the board, which shall state the purpose of such trip and the reason the same is deemed necessary. Said resolution, if adopted, shall then be submitted to the governor for his written approval, and if he does not approve the same such trip shall not be made at the expense of the state. [1911, ch. 62, § 5.]

§ 241. Itemized statement. Before any expenses of the members of said board, any officer, or agent thereof, or before any expenses incurred by others under the direction of the board, or the expenses of any officer or any employe of any institution under the charge of the board, shall be paid, a minutely itemized statement of every item of expenditure shall be presented to the proper authority duly verified, which verification shall aver that the expense bill is just, accurate and true and is claimed for cash expenditures, or cash disbursements, truly and accurately made, or payment thereof shall not be made. The expense bills of the members of the board, the secretary and its other employes, when so verified, shall be presented to the state auditing board for their written audit, before payment is made. The salaries and such actual expenses of the board, and the secretary and other officers, and the salaries of employes, shall be paid monthly by the state treasurer, upon the warrant of the state auditor. [1911, ch. 62, § 6.]

§ 242. Official seal. The board shall have an official seal, and every commission, order or other paper executed by the board may, under its direction, be attested with its seal affixed, by the secretary, or any member of the board. [1911, ch. 62, § 7.]

§ 243. Institutions under control. The board of control shall have full power to manage, control and govern, subject only to the limitations contained in this article, the State Hospital for the Insane, the State Penitentiary, the North Dakota Blind Asylum, the School for the Deaf and Dumb, the School for the Feeble Minded, the State Reform School, the North Dakota State Tuberculosis Sanitarium, and such other charitable and reformatory and penal institutions as have been or may hereafter be created or established according to law. The board of control so appointed and qualified shall, within ten days after their appointment, establish an office in the state capitol at Bismarck, and shall thereafter have full access to all the state institutions mentioned in this section, and to all books, accounts, vouchers, supplies and equipments of each of said institutions for the purpose of familiarizing themselves with the conditions, needs and requirements thereof; and, subject to the limitations in this article contained, the said board shall assume full control of said institutions on the first day of July, a. d. 1913; provided, however, that this article shall not apply to the Soldiers' Home. [1913, ch. 55; 1911, ch. 62, § 8.]

§ 244. Powers. Duties. Annual statement. The board of trustees and commissioners now charged with the government of the institutions named in section 243 hereof shall after the first day of July, a. d. 1911, have no further legal existence, but all trustees now in the office shall continue in office until said date. The powers possessed by the boards of trustees with reference to the management and control of the state institutions named in section eight of this act, shall on the first day of July, a. d. 1911, cease to exist in such boards of trustees and shall become vested in the board of control; and the said board of control is, on the first day of July, 1911, without further process of law, authorized and directed to assume and exercise all the powers heretofore vested in or exercised by the several boards of trustees with reference to the several institutions of the state herein named. All duties imposed on the boards of trustees or any other governing body, by statute,

to establish a uniform system of books and accounts for said state institutions, and to cause the same to be examined annually by a skilled accountant, and to annually require a settlement with the officers of each state institution, are transferred from such trustees or other governing bodies to the board of control as far as affecting the institutions herein named. Nothing herein contained shall limit the general supervisory or examining powers vested in the governor by the laws or constitution of the state, or that are vested by the governor in any committee appointed by him.

The board shall prepare annually for publication a statement of the cost for the preceding year of maintaining each of said institutions including improvements, itemized so far as practicable, and so arranged as to show the cost of the various kinds of provisions, supplies and other expenditures, separately. [1911, ch. 62, § 9.]

§ 245. Investigation. Witnesses. Contempt of court. It shall be the duty of the said board, or a committee thereof, to visit and inspect at least once in six months, the institutions named, and investigate the financial condition and management of such institutions; and in aid of any investigation the board shall have the power to summon and compel the attendance of witnesses; to examine the same under oath, which any member thereof shall have the power to administer; and shall have access to all books, accounts, papers and property, material to such investigation, and may order the production of any other books or papers material thereto. Witnesses other than those in the employ of the state shall be entitled to the same fees as in civil cases in the district court. The claim that any testimony or evidence sought to be elicited or produced on such examination may tend to criminate the person giving or producing it, or expose him to public ignominy, shall not excuse him from testifying or producing evidence, documentary or otherwise; but no person shall be prosecuted or subjected to any penalty or forfeiture for and on account of any matter or thing concerning which he may testify or produce such evidence; provided, that he shall not be exempted from prosecution and punishment for perjury committed in so testifying, and it shall be the duty of the board to cause the testimony so taken to be transcribed and filed in the office of the secretary of the board at the seat of government within ten days after the same is taken, or as soon thereafter as practicable and when so filed the same shall be open for inspection of any person. Any person failing or refusing to obey the orders of the board issued under the provisions of this section, or to give or produce evidence when required, shall be reported by the board to the district court or any judge thereof, and shall be dealt with by the court or judge as for contempt of court. [1911, ch. 62, § 10.]

If the board deem it prudent, it may appoint a woman, whose duty it shall be to visit such hospital, when directed by the board, and to report to the board, and who shall be paid three dollars (\$3.00) per diem and mileage at the rate of five cents per mile, from the funds of the institution visited, with proper audit of the bill for such services and expenses by the board, in the manner provided for payment of current expenses of institutions. [1911, ch. 62, § 11.]

§ 247. Biennial report. The board shall make its biennial reports to the governor of its observations and conclusions respecting each and all of the institutions named in section eight of this act, covering the biennial period

ending June the thirtieth, preceding the regular session of the legislative assembly. Said biennial report shall be made not later than October fifteenth in the year preceding the meeting of the legislative assembly, and shall also contain the reports which the executive officers of the several institutions are now or may be by the board required to make, also a statement of visitations to the several institutions, when and by whom made. [1911, ch. 62, § 12.]

§ 248. Books and accounts. It shall keep at its office a proper and complete system of books and accounts with each institution, which shall show every expenditure authorized and made thereat, and said book shall exhibit an account of each extraordinary or special appropriation made by the legislature, with each item of expenditure thereof. [1911, ch. 62, § 13.]

§ 249. Uniform system of records and accounts. Expert help. It shall prescribe the forms of records and the kind of accounts to be made and kept by the institutions heretofore specified. In providing for the books of accounts the said board shall establish as uniform a system as possible, compelling similar institutions to keep similar books in the financial operations of such institutions; and the board shall institute and require the keeping of a perfected system of accounts, and requisitions showing the purchase, storing and consumption of supplies for subsistence, construction or other purposes. The board shall, within six months after the passage of this article, determine the kinds and qualities of provisions and supplies for the several institutions subject to its charge. The board shall incorporate in its biennial report required by section twelve of this article, suggestions to the legislature, respecting legislation for the benefit of the several institutions, or for the dependent, defective or criminal classes of the state. The board and its secretary shall on request, attend the meetings of legislative committees to which such questions may be submitted for consideration, and furnish such committees such information in regard to its doings and the conduct of such institutions as may be demanded. [1911, ch. 62, § 16.]

§ 252. Plans and specifications. Limited to amount of appropriation. Penalty. It shall prepare plans for all betterments, improvements or buildings costing more than one thousand dollars (\$1,000.00) for which it may recommend an appropriation. In no event shall the board direct or permit an expenditure for any purpose in excess of the amount appropriated by law, or contemplated by the statute, and the members of said board, its officers and agents, are not subject to the provisions of sections 9101, 9102, 9103 and 9104, Revised Codes of 1905, but any violation of the provisions of either of the said sections of the code above named by any member of said board, its officers or agents, shall be deemed a misdemeanor and on conviction the offender shall be fined in any sum not less than two hundred dollars (\$200.00) nor

The record shall also indicate if a person is transferred from one institution to another, and to what institution; and if dead, the date and cause of death. This information shall be furnished to the board by the several institutions, and such other obtainable facts as the board may from time to time require. It is the duty of a managing officer of each institution, who shall be appointed by the board, within ten days after the commitment or entrance of a person, patient, inmate or convict to the institution, to cause a true copy of his entrance record to be made and forwarded to the office of the board of control. When a patient or inmate leaves, or is discharged, transferred, or dies in any institution, the superintendent or person in charge shall, within ten days thereafter, send such information to the office of the board, all of which information shall be furnished on forms which the board may prescribe. [1911, ch. 62, § 21.]

The board may, if deemed advisable and expedient for the best interest of the state, employ an architect who shall be skilled in the most improved methods of sanitation, and competent to prepare plans, specifications, estimates and details for the buildings, betterments, and every item or equipment which may be necessary in any of the institutions, whose duty shall be to perform the work usually done by architects in preparing plans and specifications. Said architect shall also perform such other labor as may be designated by the board, and shall receive a compensation to be by the board fixed, which, including expenses, shall in no event exceed one thousand five hundred dollars (\$1,500.00) per annum. In cases of sufficient magnitude, the board may secure the advice of a consulting architect, or secure additional skilled assistant before the adoption of the plans of the state architect, but the expense thereof shall not exceed five hundred dollars (\$500.00) in any one year. [1911, ch. 62, § 22.]

§ 258. Institution officers. Term of office. Removal. Qualifications. It shall be the duty of the board to appoint a superintendent, warden, or other chief executive officer of each institution under the control of the board. The tenure of office of said officers shall be two years from the date of their appointment, and the superintendent, warden, or other chief executive officer now in charge of the several institutions placed under the control of this board and who is now holding under an election, appointment or contract for a definite term except the local treasurers, shall continue in office until the expiration of such term or contract, all other offices shall be filled by appointment by said board. The superintendent, warden or other chief executive officer of any of the institutions named, may be removed by the board for misconduct, neglect of duty, incompetency or other proper cause, showing his inability or refusal to properly perform the duties of his office, but such removal shall be had only after an opportunity is given such person to be heard before such board upon preferred written charges, but the removal, when made, shall be final. The officers of the several institutions shall have, the qualifications and perform the duties now imposed and required by them by the statute, except as the same are modified or abrogated in this article. In case there is an alleged or seeming conflict between the powers of the superintendents or other executive officers and the board of control, the determination of such question by the board shall be final. [1911, ch. 62, § 23.]

§ 259. Power to investigate question of insanity. The board shall have the power to investigate the question of insanity and condition of any person committed to any state hospital, and shall discharge any person so committed or restrained, if, in its opinion, such person is not insane, or can be cared for after such discharge without danger to others, and with benefit to the patient, but in determining whether such patient shall be discharged, the recommendation of the superintendent of such hospital shall be secured. The granting of this power to the board to serve as a commission for the determination of the insanity of a person is merely permissive, and does not repeal or alter any statute respecting the discharge or commitment of inmates to state hospitals. [1911, ch. 62, § 24.]

§ 260. Collection of information. Bulletins. Forms. The board shall gather and present information embodying the experience of charitable, reformatory and penal institutions, in this and other countries, regarding the best and most successful methods of caring for the insane, delinquent and criminal classes. And it shall encourage and urge the scientific investigation of the treatment of insanity and epilepsy by the medical staff of the insane hospital, and the institution for the feeble minded, and shall publish, from time to time, bulletins, and reports of the scientific and clinical work now done in said institutions or which it may require to be done therein. It shall

also provide for the several institutions the forms for statistical returns to be made by them in their annual and other reports. [1911, ch. 62, § 25.]

§ 261. **Insane patients, residence unknown.** Whenever the county authorities shall send to a hospital for the insane a patient whose residence is in another state or foreign country, or whose residence is unknown, and whose maintenance is charged to the state, such county authorities shall notify the state board of control, which shall immediately inquire as to the residence of such person and the propriety of his retention in the state hospital. If the residence of said person is found to be in another state or foreign country, the board shall see that he is sent to his residence. No patient to be maintained at state expense shall be retained permanently at the state hospital without the formal order of the board of control. [1913, ch. 186; 1911, ch. 62, § 26.]

§ 262. **Questionable commitment.** The superintendents for the hospital for the insane and the institution for the feeble minded are required to immediately notify the board if there is any question as to the propriety of the commitment or detention of any person received at such institution, and said board, upon such notification, shall inquire into the matter presented, and take such action as may be deemed proper in the premises. [1911, ch. 62, § 27.]

§ 263. **Protection against fire. Means of escape.** It shall be the duty of the board to compel the superintendent, warden or other chief executive officer of each of the institutions under the control of the board, to provide at each institution, adequate and ready means of protection against fire, and to construct proper means of escape for the inmates and attendants where the same are not already constructed, and to establish and enforce rigid rules and regulations, by which the danger of fire shall be minimized, and prevent as far as possible, injury to the persons of inmates, and loss or destruction, by any cause, of the property of the state. [1911, ch. 62, § 28.]

§ 264. **Official bonds.** It shall be the duty of the board of control to require its secretary and each officer and employe of said board and of every institution under its control, who may be charged with the custody or control of any money or property belonging to the state, and who is not now required by the statute to give bond, to give an official bond, properly conditioned, and signed by sufficient sureties, in a sum to be fixed by the board, which bond shall be approved by the board, and filed in the office of the secretary of state. A like inventory shall be submitted by the proper officer of each institution to the board when the semi-annual report of said officer is submitted to the board. [1911, ch. 62, § 30.]

§ 266. **Gifts or gratuities. Penalties.** No member of the board of control, or officer, agent or employe thereof, and no superintendent, officer, manager or employe of any of the institutions under the charge and control of said board shall directly or indirectly, for himself or any other person or for any institution under the charge of said board, receive or accept any gift or gratuity from any person or persons, firm or corporation, who are dealers

in goods, merchandise or supplies which may be used in any of said institutions, or from any employe, servant or agent of such person or persons, firm or corporation. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor and upon conviction be punished as provided in section 9103, Revised Codes, 1905, and such violation shall be cause for his removal from office. [1911, ch. 62, § 31.]

R. C. 1905, § 9103 is section 9829 herein.

§ 267. Contents of biennial report, daily record. The board shall publish in its biennial report to the legislature the name and salary of every employe of said board, the name and salary of each officer and employe in the several institutions subject to its control. It shall be the further duty of the board to require the proper officer of each institution to keep in a book prepared for the purpose, a daily record, to be made each day, of the time and number of hours of service of each employe, and the monthly pay roll shall be made from such time book, and shall be in accord therewith. When an appropriation is based on the number of inmates in or persons at institution, the board shall require a daily record to be kept of the persons actually residing at and domiciled in such institutions. [1911, ch. 62, § 32.]

§ 268. Political influence or contribution prohibited. Any member or officer of the board of control, or any officer or employe of a state institution subject to this board who, by solicitation or otherwise, exerts his influence directly or indirectly, to induce other officers or employes of the state to adopt his political views, or to favor any particular person or candidate for office, or who shall in any manner contribute money or other thing of value to any person for election purposes, shall be removed from his office or position by the proper authorities. [1911, ch. 62, § 33.]

§ 269. Assistants, discharged. The superintendent, warden, or other chief executive officer of the several institutions, shall appoint all assistants, guards and employes required in the management of the institution, the number of whom shall be determined by the board. It is hereby declared a misdemeanor for the members of the board, or any officer thereof, to exert any influence, by solicitation or otherwise, on the managing officer of an institution in the selection of any employe or assistant. The said chief executive officer may at his pleasure discharge any person employed, but shall keep in the record of employes the date of such discharge, and shall place opposite his name the reason therefor. [1911, ch. 62, § 34.]

§ 270. Institutions, salaries. The board shall, prior to July 1st, 1911, and annually thereafter, fix, with the written approval of the governor, the annual or monthly salaries of all the officers and employes in the several institutions, except such as are fixed by the legislative assembly. The board shall classify the officers and employes into grades and the salaries and wages to be paid in each grade shall be uniform in similar institutions in this state. The schedule of wages so fixed shall become operative on July 1st of each year. Provided, however, that the salaries of officers and employes of said state institutions, except the local treasurers thereof, who are now holding for a definite term, and a salary fixed by law or by contract according to law, shall remain the same until the expiration of such term. The salaries and wages shall be included in the monthly estimates as hereinafter provided, and paid in the same manner as other expenses of the several institutions. Officers shall be entitled to the necessary food supplies for their families, and shall receive such allowance from the supplies of the institution, but shall not be entitled to delicacies when not in season. The word "family" shall be construed to mean only the wife and minor children of an officer. [1913, ch. 57; 1911, ch. 62, § 35.]

§ 271. Local treasurer abolished. The treasurers of the institutions placed under the management of the board of control will be relieved of their duties, and all such offices will be abolished on July first, 1911. Such local treasurers

shall account to the proper authorities, for all moneys, books, records, vouchers or other evidence of property belonging to his office, and in his possession. It shall be the duty of the state treasurer to receive all moneys and evidence of indebtedness in the hands of said treasurer, and a failure on the part of any such local treasurer to properly account to the state treasurer on July first, 1911, without further process of law, shall be by the said state treasurer immediately reported to the attorney-general for such action as may be proper in the premises. [1911, ch. 62, § 36.]

§ 272. Moneys remitted to state treasurer. All moneys belonging to the state, derived from any source at any of the institutions under the control of this board, accounted for and remitted to the state treasurer on the first day of each month, and all funds for necessary expenditures of such institutions shall be drawn from the state treasury as provided by this act. [1911, ch. 62, § 37.]

§ 273. Triplicate estimates; revisions; purchase of supplies. The superintendent, warden or other chief executive officers, as may be designated by the board of control, shall, on or before the fifteenth day of February, May, August and November, cause to be prepared triplicate estimates in minute detail, including estimates, cost of each item, of all the expenditures required for the institution for the ensuing quarterly period beginning on the first day of January, April, July and October. Such estimates shall also include a statement of the source and amount of all the revenues received by the said institution and accounted for to the state treasurer on the first day of each month. Two of the said triplicate estimates shall be sent to the officer of the board and the third shall be kept by the superintendent, warden or other chief executive officer. The board may revise the estimates for supplies of other expenditures, either as to quantity, quality or the estimated cost thereof, and shall certify that it has carefully examined the same and that the articles contained in such estimate as approved or revised by it are actually required for the use of said institution. The board shall thereupon advertise for bids for such supplies, requiring samples in every possible case, and such supplies purchased shall in all cases be at least equal in value to the sample submitted by the successful bidder. Where samples are submitted and bids are the same the firm in the state so bidding shall have the preference. This provision, however, shall not apply to the purchase of fibre for the twine plant but the board of control and the warden shall jointly purchase such necessary fibre in the manner thought to be the most economical to and for the best interests of the state. When the estimates have been so certified and revised and bids for the supplies enumerated and described therein have been received and contracts for furnishing the supplies have been let a copy of such revised estimates and the contract for furnishing the supplies enumerated and described in such revised estimates duly certified shall be sent to the institution and another copy retained by the board. The certified copy sent to the institution shall be sufficient authority to the management of the institution to purchase the supplies enumerated in said estimates at prices not to exceed those named in the contract and not otherwise. Said supplies shall be so purchased as to permit at least thirty days' time to pay therefor, and the steward, clerk or other officer of the institution designated by the board shall require itemized bills to be rendered by the person who furnished supplies, in duplicate, for all purchases whether made upon contract or otherwise, which shall be in the following form:

§ 274. Monthly statement. Affidavit. The steward, clerk or other officer, who may be designated by the board, shall prepare a monthly statement showing purchases and expenditures of every kind for the preceding month, which shall be signed by such officer, approved by the chief executive officer of the institution, and filed with the board on a day certain to be fixed by said board. Attached thereto shall be the affidavit of such steward, clerk or officer, as the case may be, stating that the goods and other articles therein specified were purchased and received by him or under his direction at the institution, and were purchased at a fair, cash market price, on credit not exceeding thirty days, and that neither he nor any person in his behalf had any pecuniary or other interest in the purchases made, or received any pecuniary or other benefit therefrom, directly or indirectly, by commission, percentage, deductions, or in any other manner whatever, and that the articles contained in such bill conformed in all respects to the invoiced goods received and ordered by him, or the samples from which the goods were purchased, both in quality and quantity. If any invoice or statement, or any part thereof, is found objectionable, the board shall endorse its disapproval thereon, with its reasons therefor, and return it to the management of the institution, and when the matter complained of is corrected, said statement and invoice shall be returned to the board. [1911, ch. 62, § 39.]

§ 275. Payroll. Triplicate abstract. State treasurer. When the monthly statement is so made, provided and verified, it shall be forwarded to the board of control, together with the original invoices of the purchases and a complete and itemized statement of every expense of said institution, including the receipted payroll, for the examination and audit of the board, which board shall fix the regular time for the auditing of the accounts of the institution for the preceding month. The monthly payroll of each institution shall show the names of each officer and employe when first employed, the monthly pay, time paid for, the amount of pay, and any deductions for the careless loss or destruction of property. This requirement shall be observed in all cases, and in no event shall a substitute be permitted to receive compensation in the name of the employe for whom he is acting. When the said accounts are audited, the secretary of the board of control shall, under the seal of the board, prepare in triplicate, an abstract showing the name, residence and amount due each claimant, and the institution and the fund thereof on account of which the payment is made. He shall deliver one

copy thereof to the state auditor, another to the state treasurer and the third shall be retained in the office of the board. Upon such certificate the state auditor shall, if the institution named has sufficient funds, issue his warrant upon the state treasurer for the gross amount as shown by such certified abstract. The state auditor, upon being furnished by the board with a certified copy of such abstract as herein provided, shall send checks on the state treasurer to the several persons for the amounts of their respective claims, as certified by the board of control. The state treasurer shall preserve in his books a record of each check and remittance in the proper manner, showing the date of the issuance of each check, the name of the person to whom it was made payable, and such other data as may be evidence for the state, showing the payment of such indebtedness. The payroll of each institution can be paid by a single check, sent to the steward, clerk or other officer designated by the board of control. If the state treasurer shall require more clerical help because of this enactment, the state auditing board may authorize him to employ an assistant. [1911, ch. 62, § 40.]

§ 276. Contingent fund. The board of control may permit a contingent fund, not to exceed in any institution three thousand dollars (\$3,000.00) to remain in the hands of the managing officer of such institution, from which expenditures may be made in case of actual emergency requiring immediate action to prevent loss or danger to the institution or the inmates thereof.

A full, minute and itemized statement of every expenditure made during the month from such fund, shall be submitted by the proper officer of said institution to the board, under such rules and regulations as may be by said board established. If necessary, the board shall make proper requisition upon the state auditor for a warrant on the state treasurer to secure the said contingent fund for each institution. [1911, ch. 62, § 41.]

§ 277. Blanks and forms. The board of control shall formulate and furnish to each institution, proper blanks and forms for all statements and accounts necessary to furnish the information required of such institution. [1911, ch. 62, § 42.]

§ 278. Duties of institution officers. The stewards of the hospitals for the insane, the clerks of the prisons and the proper officer of the other institutions who shall be designated by the board, shall have charge of and be accountable for all the supplies and stores of such institutions and shall be charged therewith at their invoice value, and shall in conjunction with the chief executive officer of each institution make or direct all purchases for such institution as may be ordered by the board, under the estimates as hereinbefore provided. Such officer shall issue all the stores upon requisition approved by the superintendent or other officer designated by the board which shall be his voucher therefor. He shall present monthly to the board of control an abstract of all expenditures, together with the accounts and payrolls for the preceding month, and shall examine and register all goods delivered, according to their amount and quality, and if found to correspond with the samples, and in good order, and correct in charge, he shall certify the bills as herein provided. He shall quarterly take an account of the subsistence, supplies and stock in his possession and under his control, and transmit a copy of such invoice, duly verified to the board, and at the close of the biennial period he shall make a consolidated report of all purchases, and all other transactions of his department, to the state board. If it shall appear that there is any shortage in the stores of the institution, the board shall appoint a committee from its number to investigate the cause thereof, and if it shall appear that the said shortage resulted from unavoidable loss, without the negligence of such steward, clerk or other designated officer, then such officer shall be credited therewith; otherwise he shall be charged with the amount thereof, and shall be required to pay the same into the state treasury within sixty days after the determination of the loss, if default

shall be made in said payment, he shall forfeit his office, and suit shall be instituted upon his official bond to recover same. [1911, ch. 62, § 43.]

§ 279. Rules. Additional duties. The board of control is authorized to make its own rules for the proper execution of its powers, and may require the performance of additional duties by the officers of the several institutions, so as to fully enforce the requirements, intents and purposes of this enactment, and particularly so much thereof as relates to the making of the estimates, and furnishing proper proofs of the expenditures or use of all stocks of subsistence and supplies. [1911, ch. 62, § 44.]

§ 280. Contracts. Contracts may be entered into under the direction of the board of control by the proper officers of one or more of the institutions for staples and other articles of supplies, as may be found feasible by the board for the institutions to purchase in bulk for use of consumption for periods longer than thirty days. Such contracts shall not, however, be made except in conformity with the provisions of this article relating to estimates. If thought advisable, such contracts may be executed by the representatives of one institution, who may be designated by the board to act for other institutions. [1911, ch. 62, § 45.]

§ 281. Purchase of supplies. It shall be the duty of the board to make specific rules and regulations respecting the manner in which supplies shall be purchased and contracts made for the several institutions, so as to insure the competition and publicity necessary to secure the economical management of each institution. Jobbers or others desirous of selling supplies to an institution, shall by filing with the chief executive officer of such institution, or with the secretary of the board, a memorandum showing their address and business, be afforded an opportunity to compete for the furnishing of the supplies under such limitations and rules as the board may prescribe. In purchasing all supplies, local dealers shall have the preference, when such can be given without loss to the state. When samples are furnished the same shall be properly marked and preserved for six months after purchase of such merchandise. [1911, ch. 62, § 46.]

§ 282. Letting of contracts, labor of inmates utilized. Contracts for the erection, repairs or improvements of buildings, grounds or properties of the institutions under charge of this board, and for which appropriations have been or may be made by the legislature, must be let for the whole or for any part of the work to be performed, by the chief executive officer of the institutions, subject, however, to the same rules and regulations as herein provided for the furnishing of estimates by said institution to, and the approval and revision thereof, by the board of control. If the cost of the erection or betterment is not in excess of one thousand dollars (\$1,000.00) the board may permit the management of the institution to construct the same by day's labor, without contracting the work. All plans or specifications for said erection, repairs and improvements, shall be prepared by the architect of the board, under the board's direction. The board shall determine to what extent and to what length of time, and by what means advertisements are to be inserted in newspapers for proposals for said erection, repairs or improvements. All contracts shall be awarded by the management of the institution to the lowest responsible bidder, subject to the provisions of this article, and the approval of the board, prior to the execution of the contract. The management of the institution has the right to reject any and all bids and to readvertise, upon the approval of the board. A preliminary deposit of money or certified check upon a solvent bank in such amount as the board may prescribe, shall be required as an evidence of good faith, upon all proposals for the construction of said buildings, repairs and improvements, which deposit or certified check shall be held by the management of the institution under the direction of the board. The provision of this section which requires all work to be let by contract, shall not be mandatory as to the labor on the construction work

at the penitentiary, but the board shall establish such rules, and enforce the provisions of this act so that the construction work at the penitentiary shall be performed in a manner agreeable thereto, with the strictest accountability exacted in the consumption of all supplies for construction purposes, and in the expenditure of the public moneys on proper representations the board is authorized to so construct the erections, betterments and improvements at other penal and charitable institutions, that the work of inmates may be utilized, if it is found to be advantageous to the state, and a substantial saving made, but the attempt to use such labor shall not permit a substantial departure from the requirements of this section; and in no case shall any expenditure be made except on estimates submitted to and approved by the board, as provided herein. No payment shall be authorized for construction purposes until satisfactory proof has been furnished to the board of control, by the proper officer or supervising architect, that the contract has been complied with by the parties; and all payments shall be made in a manner similar to that in which the current expenses of the several institutions are paid. [1911, ch. 62, § 47.]

Rights under statute requiring public contract to be awarded to lowest bidder. 26 L.R.A. 707.

§ 283. Building commission abolished. The said board shall succeed to and be vested with all the powers of any building commission and all duties thereof will be performed by said board, and all legislation affecting the powers, duties or obligations of any building commission shall, so far as applicable apply with equal force to the said board of control. All outstanding obligations of any such commission shall be executed and performed by the board of control, but this shall not prevent said board from selecting all its agents or employes in the work of construction, which shall be executed in a manner agreeable to and pursuant to the provisions of this article. [1911, ch. 62, § 48.]

§ 283a. Repealed. Existing laws relating to the institutions referred to in this article, which are not inconsistent with the provisions of this article, shall remain in force, and all acts or parts of acts in conflict with, or inconsistent with this article, are hereby repealed. [1911, ch. 62, § 49.]

§ 323. Patents, when to issue. No grant or patent for any lands sold under the provisions of this article shall issue until payment in full is made for the same and all terms of the contract of purchase are fully complied with. Provided that payments upon the contract of purchase may be made before due after the expiration of five years from the day of sale, and that if made before due they shall be made at an interest paying date and one year's interest in advance shall be paid on all moneys so paid. Provided, further, that any school or institution lands that may be required for townsite purposes may be paid for at any time and patents issued therefor. Provided further, that when a contract is not declared null and void by said board for failure to pay taxes before the time provided by law for the sale of land for delinquent taxes, any lands upon which taxes are delinquent at the time of such tax sale may be sold for delinquent taxes as other lands are sold, and the purchaser at such tax sale of any such lands so sold shall only acquire, by virtue of such purchase, such rights and interests as belong to the holder and owner of the contract of sale issued by such commissioner under the provisions of this article, and the right to be substituted in the place of such holder and owner of such contract of sale, as the assignee thereof; and upon the production to the proper officer of the tax certificate given upon such tax sale, in case such lands have not been redeemed, such tax purchaser shall have the right to make any payment of principal or interest then in default upon such contract of sale as the assignee thereof. § 337. **May lease cultivated lands.** The commissioner of university and school lands is hereby authorized and empowered to lease cultivated school

and institution lands in the several counties of the state for the period of two years for the purpose of summer-fallowing the first year and cropping the next, when in his opinion it is necessary so to do in order to clear the same of noxious weeds, said lessee to pay only one year's rent for the same. When any lands are leased as above provided the party so leasing the same, before lease is approved by the board of university and school lands, shall pay to the county treasurer of the county in which the land is situated the total amount of rent therefor. Should the lessee so renting the land as above provided fail or neglect to summer-fallow the same at the proper time, the board of university and school lands in their discretion may declare the lease cancelled and the amount paid thereon will thereby become forfeited. It shall be the duty of the board of university and school lands to equalize the appraisements so returned as to counties by adding thereto or taking therefrom such a uniform percentage as may in its judgment seem proper and fair in order to arrive at a just and equitable equalization between the several counties, and upon such valuation so fixed the board of university and school lands are authorized to fix a per cent per acre as the minimum price at which the land can be leased; provided, that the lowest price of lands leased for pasturage cannot be below one-half of one per cent of the average value in the county, and for any cultivated lands in the county the lowest price cannot be below two and one-half per cent of the appraised value of each cultivated tract. And when advertising the same for lease they shall set opposite each description the value thereof as equalized by them, which valuation shall form the basis for leasing the same. [R. C. 1905, § 204; 1893, ch. 118, § 51; R. C. 1895, § 218.]

§ 339. Selection of lands for lease. The board of university and school lands shall have the power, and it is hereby made its duty to select from the lands so appraised such tracts as in the judgment of the board can be leased with profit to the school and other permanent land funds of the state, or as the legislature may by law order to be leased, and shall at such time as in its judgment is for the best interests of the state, proceed to advertise for lease and offer for lease, in each succeeding year, such lands as have thus been selected. Such advertisement shall contain the designation or proper description of each tract or parcel of land so to be leased, the appraised value of each tract and the per cent on such valuation fixed by the board as the minimum price at which such land can be leased, and the terms of the lease. A copy of such advertisement shall also be posted in a conspicuous place at the court house of the county, and

a notice of the time and place where the said lands are to be leased shall also be published for not less than sixty days in one newspaper at the seat of government by such board of university and school lands; provided, that if in the opinion of the board there will not be sufficient of such lands situate in any county leased, to warrant the expense of advertisement in a newspaper by description of each tract or parcel, the notice may be given by general advertisement. [R. C. 1905, § 206; 1893, ch. 118, § 53; R. C. 1899, § 220; 1901, ch. 192.]

In counties where a large number of tracts of land are to be leased the land situated in certain townships may be designated in the advertisement to be leased on certain specified days and in such case such lands shall be leased or offered for lease on such specified days, or for want of time for the leasing or offering for lease of all such designated lands, the leasing of those unoffered may be adjourned until the following day or days, when they must be the first lands offered for lease. Such lands as shall not have been specially subdivided shall be leased or offered for lease in tracts of one-quarter section each, and those so subdivided in the smallest subdivision thereof. Notice must be given when the land is offered that all bids are subject to approval by the board. At the time of offering the lands for lease the county auditor of the county shall act as clerk, and it shall be his duty to make report thereof, stating the terms of such leasing, as is prescribed in section 307 for making reports of sales. [R. C. 1905, § 209; 1893, ch. 118, § 56; R. C. 1899, § 223.]

prescribed by the board, and forward to the lessee a copy marked "duplicate," the "original" being filed in the office of the commissioner, who shall also forthwith certify to the auditor of the proper county, a list of such leases as have been approved by the board. In case any of the lands in any county may remain unleased after the date advertised for the leasing, the board shall have authority to make contracts of lease for said lands to the first applicant therefor at not less than the minimum price thereof. § 452. Local registrars to correct returns. If a certificate of birth is incomplete he shall immediately notify the informant and require him to supply the missing items if they can be obtained. He shall then number consecutively the certificates of birth and of death in two separate series, beginning with "number one" for the first birth, and the first death in each calendar year, and sign his name as registrar in attest of the date of filing in his office. He shall also make a complete and accurate copy of each birth and death certificate registered by him, upon a form identi-

In case no births or no deaths were registered during any month, the local registrar shall be entitled to be paid the sum of twenty-five cents for each report to that effect promptly made in accordance with the directions of the state registrar. All amounts payable to registrars under provisions of this section shall be paid by the county in which the registration districts are located upon certification by the state registrar, and the state registrar shall annually certify to the auditors of the several counties the number of births and deaths registered with the names of local registrars and the amounts due each at the rates fixed herein. § 458. **Board of medical examiners. How appointed. Qualifications.** The governor shall on or before the first day of August, 1911, appoint a state board of medical examiners, consisting of nine members, two of whom shall be homeopathic physicians; who shall be practicing physicians of integrity and ability, who shall be residents of and have been duly licensed to practice medicine and surgery in this state, and who shall have been graduated from medical schools of high educational requirements and standing and shall have been engaged in the active practice of their profession within this state for a period of at least five years. Three of such persons shall hold office for the term of one year from the said first day of August, 1911, three for the period of two years, and three for the period of three years from said date. Thereafter, and as the terms of office expire, all members of the board shall be appointed for the term of three years with the exception of those who may be appointed to fill unexpired terms. Until the first day of August, 1911, the members of the present state board of medical examiners shall hold office and shall enforce the provisions of this article. [1911, ch. 189, § 1; R. C. 1905, § 294; 1890, ch. 93, § 1; R. C. 1895, § 275.]

§ 459. **Officers. Meetings for examinations. Records and rules.** Such board shall elect a president and secretary-treasurer, and shall have a seal. The secretary-treasurer shall be the general administrative and prosecuting officer of said board but need not be a member thereof. The president and the secretary-treasurer shall have the power to administer oaths. The board shall hold meetings for examinations at such places, as it may designate, on the first Tuesday in January and July of each year, and such special meetings as it may from time to time appoint. The board shall keep a record of all its proceedings, and also a register of applicants for license, together with their ages, and the time spent in the study of medicine and in their studies preliminary thereto, and the nature thereof, and the name and location of all institutions, medical and otherwise, granting to such applicants degrees or certificates of attendance on lectures and classes in medicine and surgery and studies preliminary thereto. Such register shall also show whether the applicant was rejected or licensed by the board. Said books and register shall be prima facie evidence of all matters therein recorded. Said board shall from time to time adopt such rules and regulations as it may deem necessary for the performance of its duties and a schedule of minimum educational requirements which shall be without prejudice, partiality, or discrimination as to schools or systems of practice of medicine. [1911, ch. 189, § 2; R. C. 1905, § 295; 1890, ch. 93, § 2; R. C. 1895, § 276.]

§ 460. **Power to administer oaths and summon witnesses. Enforcement of powers.** Said board shall have authority to administer oaths, to summon witnesses and take testimony in all matters relating to their duty. When the board, in the transaction of any of its business, or in the conduct of any hearing or when any person interested in such business or hearing shall desire to secure the presence or testimony of any person before said board, said board or such person, may procure subpoenas from the clerk of the district court of the county wherein such business is to be transacted or conducted before said board and the clerk of such court is hereby directed to issue such subpoenas, as, in the name of the state of North Dakota, commanding the persons whose names shall be given to such clerk by said board, or by such persons so interested in such business or hearing, to appear before said board at a certain time and place fixed by said board, for the transaction of such business or conduct of such hearing and then and there testify in the matter of such business or in such hearing. If any person so commanded to appear and testify shall fail or refuse to obey such subpoena, he shall be dealt with by said district court in the same manner and to the same effect as though such subpoena had commanded such person to appear and testify in a cause

on trial in said court. Fees or other charges or payments, which may be demanded by any person so commanded to appear and testify shall be only those which may be demanded by witnesses in causes in the district court and under the same circumstances. Such subpoenas shall be served in the same manner as are subpoenas for trials in the district court, and they shall be substantially the same form. It shall be the duty of the secretary-treasurer, under the direction of the board, personally or by deputy duly authorized thereunto by said board, to aid the several district attorneys of the state in the enforcement of this article and in the prosecution of all persons who may have violated any of its provisions. [1911, ch. 189, § 3.]

§ 461. License. No person shall practice medicine in this state unless he shall have made application to said board of medical examiners, through the secretary-treasurer thereof, upon such form and in such manner as shall be adopted and prescribed by said board, for a license so to do, and shall have obtained from said board and shall possess in full force and virtue a valid license so to do; and any person who practices medicine in this state, without having made such application and without having received and without still possessing such a license, shall be deemed to have thereby violated the provisions of this article. All applicants for a license to practice medicine or for a restoration of any such license which has been revoked, shall furnish the board with satisfactory evidence of good moral character. Nothing in this article shall be taken or construed to preclude physicians and surgeons who have already been admitted to practice their professions within the state of North Dakota and under and according to the laws thereof to continue so to practice. § 463. Meaning of the term practice of medicine. Exemptions and exceptions. D., surgeon, doctor or any word or abbreviation to his name, indicating that he is engaged in the treatment or diagnosis of the diseases or injuries of human beings. Nothing in this article, however, shall be construed to affect lawfully qualified physicians in other states or countries meeting legally licensed physicians in this state for consultation or any physician residing on the border of a neighboring state and duly licensed under the laws thereof to practice medicine therein, and who does not open an office or appoint a place to meet patients or receive calls within this state; or the domestic administration of family

[1911, ch. 189, § 6.]

§ 464. Examinations. How conducted. Subjects. The manner of determining the qualifications of any person to practice medicine or surgery shall be such as shall be adopted by the state board of medical examiners. Examination of applicants for the licenses to practice medicine shall be made by said board according to the method deemed by it to be most practicable and expeditious to test the applicant's qualifications. Each applicant shall be designated by a number instead of name, so that his identity shall not be disclosed to the members of the board, until the examinations shall be graded. The subject of written, oral or clinical examinations for applicants shall be as follows:

Anatomy, physiology, chemistry, pathology, gynecology, physical diagnosis, toxicology, surgery, obstetrics, histology, bacteriology, medical jurisprudence, and preventive medicine. [1911, ch. 189, § 7; R. C. 1905, § 296; 1890, ch. 93, § 3; R. C. 1895, § 277; 1905, ch. 148, § 1.]

When convinced by an investigation of an applicant's credentials that he is qualified to practice medicine and surgery, the board may in its discretion, grant him a license without examination, upon the payment of the regular fee of twenty-five dollars, and provided further that said board upon the payment of such fee and in its discretion, may accept and register and, without further examination, issue a license to practice medicine upon any certificate which shall have been issued to an applicant by the medical examining board of the District of Columbia, or of any state or territory of the United States, provided, however, that the applicant has received a degree or diploma from a legally chartered medical school, the requirements of the medical examining board of such state, district or territory, or degree, in no particular less than those prescribed by the association of American medical colleges for that year; and provided further that the legal requirements of the medical examining board of such state, district or territory, shall have been at the time of issuing such certificate, in no degree or particular less than those of this state, at the time when such certificate shall be presented for registration and approval of the board provided for in this

[1911, ch. 189, § 9; R. C. 1905, § 296; 1890, ch. 93, § 3; R. C. 1895, § 277; 1905, ch. 148, § 1.]

ARTICLE 15.—FOR THE PROMOTION OF MEDICAL SCIENCE.

The title given to this article 15 is the caption of Laws 1890, ch. 92, which consisted of sections 472-474 herein. These three sections appeared in R. C. 1905 at the end of "Article 12.—State Board of Medical Examiners." Since, however, Laws 1911, ch. 189, constituting sections 458-471 herein, and evidently in large part superseding said article 12, contains no provision on the subject of the sections, and repeals only "all acts and parts of acts in conflict with the provisions of" that act of 1911, the three sections are here preserved.

§ 472. Certain dead bodies may be used for dissecting. It shall be lawful for any medical association, regular physician and surgeon or the professors of any medical college in this state to receive the body of any person executed pursuant to sentence of law and of all persons dying in the penitentiary or county jails while under sentence of law for crime, to be used within the state for the advancement of anatomical science, preference being given to medical colleges established by law within this state. [R. C. 1905, § 300; 1890, ch. 92, § 1; R. C. 1895, § 281.]

[R. C. 1905, § 301; 1890, ch. 92, § 2; R. C. 1895, § 282.]

No registered assistant shall conduct a pharmacy except during the temporary absence of the registered pharmacist in charge thereof. Every store or shop where drugs, medicines, or chemicals are dispensed or sold at retail, or displayed for sale at retail for medicinal purposes, or where prescriptions are compounded, shall be deemed a "pharmacy" within the meaning of this article. In every pharmacy a sign shall be posted in a conspicuous place showing the name of the registered pharmacist in charge thereof. [1907, ch. 182, § 2.]

The president and treasurer shall be chosen from the members of the board, but any suitable person whether a member of the board or not, may be chosen as secretary. Said officers shall respectively perform such duties as the board may prescribe. The secretary and treasurer shall each give a satisfactory bond to the state board of pharmacy in the sum of not less than two thousand dollars for the faithful performance of his official duties and the safe and proper care and disposal of all funds and property under his charge by the officer by and for whom the bond is given. The board shall hold at least two and not more than four meetings in each calendar year for the examination of applicants for registration, and it shall give at least thirty days' notice of the time and place of any meeting for the examination of applicants for registration, by publishing notice thereof in three pharmaceutical journals of general circulation in the state. [1907, ch. 182, § 5; R. C. 1905, § 304; 1890, ch. 108, § 5; 1893, ch. 80, § 2; R. C. 1895, § 285.]

All vacancies in such board shall be filled by appointment by the governor. No person shall be eligible to appointment on such board who is not a licensed dentist in this state. This section shall not apply to students enrolled in and regularly attending any dental college. Their acts, done under the direct supervision of a preceptor or a licensed dentist, shall not be subject to the provisions of this section, nor prohibit persons from performing merely mechanical work on inert matter in a dental office or laboratory. Nor shall this section apply to those who upon invitation of a dental society shall perform dental operations of any kind for education purposes. Nor prevent any duly licensed physician or surgeon from extracting teeth. [1911, ch. 280, § 3; R. C. 1905, § 318; 1890, ch. 58, § 7; R. C. 1895, § 297.]

§ 510. Examination. License. Revocation. Assumed name. Any person not already a licensed dentist in this state at the time of going into effect of this article, desiring to practice dentistry therein, shall apply to the secretary of the board for examination, and pay fee of twenty-five dollars for the first examination and ten dollars for each subsequent examination, which fees shall in no case be refunded. At the next regular meeting of the board held after such application is made, the applicant shall present himself for examination and produce a diploma issued to him by some dental college of good standing, of which standing the board shall be the judges. No person shall be permitted to take such examination unless he shall prove to the satisfaction of the board that he has had a preliminary general education equivalent to at least four years of study in some high school or academy in the state of North Dakota having a four-year course beyond that of an elementary school; and from and after the first day of January, 1914, every applicant for such examination shall in addition to the foregoing requirements, present to the board satisfactory evidence of having successfully completed a preliminary course of study equivalent to at least one year's work in the college of liberal arts of the University of North Dakota, provided, however, that the privileges of such examination are not denied an applicant therefor who holds a license to practice dentistry in some other state than North Dakota prior to the passage of this act. No holder of a degree or diploma from a foreign country or province which does not accept for examination the holder of a license to practice dentistry issued by the state board of dental examiners of this state shall be eligible for such examination. The board shall give the applicant such an elementary, theoretical, and practical examination as to thoroughly test his fitness for the practice of dentistry, and include therein the subjects of anatomy, physiology, chemistry, materia medica, therapeutics, metallurgy, histology, pathology, and operative, surgical and mechanical dentistry. If the applicant successfully passes the examination, he shall forthwith be registered upon the records of the board as a licensed dentist, and shall receive a certificate of registration signed by all members of the board, whereby he shall be authorized to practice dentistry in said state for a period of one year from the date of such certificate and as long as such

certificate shall be duly renewed as hereinafter provided. Provided, that any dentist who, for five years or more, has been in legal practice in another state of the United States having and maintaining a standard of laws regulating the practice of dentistry equal to that of this state and is a reputable dentist of good moral character, and is desirous of removing to this state and deposits in person with the board a certificate from the examining board of the state in which he is registered, certifying to the fact of his registration and of his good moral character and professional attainments, and from the state dental society a written recommendation that he be admitted by reciprocity, may, at the discretion of the board, upon payment of a fee of fifty dollars be granted a license to practice in this state without theoretical examination. The board upon hearing, after twenty days' notice thereof, may revoke the license of anyone who, with intent to deceive the public shall practice dentistry under an assumed name.

It shall be no defense for a person prosecuted for practicing dentistry under one name, without a license, that he shall have been licensed under a different name, unless it be shown that such practice was without intent to deceive.

Any dentist may have his license revoked or suspended by the board for any of the following causes:

(1) His conviction of a felony or misdemeanor involving moral turpitude, in which case the record of conviction, or certified copy thereof certified by the clerk of court, or by the judge in whose court the conviction is had, shall be conclusive evidence of such conviction.

(2) For unprofessional conduct, or for gross ignorance or inefficiency in his profession. Unprofessional conduct shall mean the obtaining of any fee by fraud or misrepresentation, habitual intemperance, gross immorality.

The proceedings to revoke or suspend any license under the first subdivision hereof, must be taken by the board on a receipt of a certified copy of the record of conviction. The proceedings under the second subdivision hereof may be taken upon the information of another. All accusations must be in writing, verified by some person familiar with the facts therein charged, and three copies thereof must be filed with the secretary of the board. Upon receiving the accusation, the board shall, if it deem the complaint sufficient, make an order setting the same for hearing at a specified time and place, and the secretary shall cause a copy of the order and the accusation to be served upon the accused, by delivery of the same to him personally, at least ten (10) days before the day appointed in the order for such hearing.

The accused must appear at the time appointed in the order and answer the charges and make his defense to the same, unless for sufficient cause the board assign another day for that purpose. If he do not appear after due service upon him of the accusation and order as aforesaid, the board may proceed and determine the accusation in his absence. If the accused pleads guilty or refuses to answer the charges, or upon the hearing thereof the board shall find them or any of them, true, it may revoke his license or suspend it. The board and the accused may have the benefit of the services of counsel duly licensed to practice law in this state. The board shall have the authority to administer oaths, to summon witnesses and to take testimony, by deposition or otherwise upon its hearing, and when the board or the accused shall desire to secure the presence or testimony of any person before the board, said board or such accused may procure subpoenas from the clerk of the district court of the county wherein such hearing is to be had, and the clerk of such court is hereby directed to issue such subpoenas in the name of the state commanding the persons whose names shall be given to such clerk by the board or by such accused person, to appear before the board at a certain time and place fixed by the board for such hearing and then and there to testify upon such hearing. If any person so commanded to appear

and testify shall fail or refuse to obey such subpoena, he shall be dealt with by said district court in the same manner and to the same effect as though such subpoena had commanded such person to appear and testify in a cause on trial in said court. Such person so commanded to appear and testify shall be entitled to the same fees as witnesses in a district court, and such subpoena shall be served in the manner provided by law for the service of subpoenas for trials in said courts and shall be substantially the same in form. § 511. Record of certificate. Fees. Every holder of a certificate of registration as a dentist issued under the authority of this article, shall within ninety days after its issuance file the same for record in the office of the clerk of the district court in the county where the holder resides, and if he changes his residence to another county he shall file said certificate or a certified copy of the record thereof, in the office of the clerk of the district court of such county before practicing therein. The clerk's fee for recording a certificate or a certified copy thereof shall be fifty cents, and for issuing a certified copy one dollar. The fee of the board for issuing a duplicate certificate shall be one dollar. Every dentist in this state admitted to practice under former laws shall be subject to the provisions of this section; provided, that every such dentist must file his certificate as above provided within ninety days after this article goes into effect. [1911, ch. 280, § 5.]

§ 512. Renewal of certificate. Annual fee. Certificate as evidence. No certificate or renewal thereof shall be valid for more than one year from and after the date of its issuance or renewal, and every registered dentist shall on or before the first day in July in each year, if he desires to have his certificate renewed pay to the board a fee of two dollars for the renewal of such certificate, and thereupon the board shall issue to him a renewal thereof. The board may, upon hearing and after twenty days' notice revoke the license of any registered dentist, in case of default in the payment of such annual fee, but the payment thereof on or before the time of hearing, with such additional sum not exceeding five dollars as may be fixed by the board, shall excuse such default and entitle the holder to a renewal of his certificate. Such fee may be collected by the board by suit. All certificates and renewals thereof shall be prima facie evidence of the right of the holder to practice dentistry in this state during the period for which they were issued. Any person receiving such certificate or renewal thereof shall expose conspicuously the same in his place of business. [1911, ch. 280, § 6; R. C. 1905, § 316; 1890, ch. 58, § 4; R. C. 1895, § 295.]

Three members shall constitute a quorum, but a smaller number may adjourn from time to time. The board shall keep full and complete minutes of its proceedings and its receipts and disbursements and a full and accurate list of all persons licensed and registered by it, and such records, together with a list of licensed and registered dentists, shall be public records and shall at all reasonable times be open to public inspection. Such records or a transcript of the same, or any part thereof, under the seal of the board, duly certified by the secretary thereof, shall be competent evidence of the facts therein stated. A certificate of the secretary under the seal of the board stating that any person is or is not a registered dentist shall be prima facie evidence of such fact. [1911, ch. 280, § 7; R. C. 1905, § 315; 1890, ch. 58, § 3; R. C. 1895, § 294.]

§ 514. Unlawful to practice without license. Penalty for violation of this article. It shall be unlawful for any person to practice dentistry in this state without having a license so to do from the state board of dental examiners, evidenced by a certificate of renewal thereof as hereinbefore provided; or after the license of such a person has been revoked. Any person who shall practice dentistry in this state, either as a proprietor, employe or assistant, shall keep the annual renewal of his certificate in open view in his operating room. No dentist, proprietor, partnership, association or corporation, owning, running, operating or controlling any rooms or room, office or dental parlors, where dental work of any kind is done or provided for or contracted for, shall employ, keep or retain, contrary to the provisions of this article, any unlicensed dentist, or person doing, or attempting to do, any dental work. Any person guilty of a violation of any of the provisions of this article is guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than fifty dollars nor more than three hundred dollars or by imprisonment in the county jail not less than ten days, nor more than thirty days, or by both, in the discretion of the court. [1911, ch. 280, § 8; R. C. 1905, §§ 313, 320; 1890, ch. 58, §§ 1, 9; R. C. 1895, §§ 292, 299.]

Within thirty days after the passage of this act [sections 516-519 herein] the governor shall appoint a state board of osteopathic examiners, consisting of three practicing doctors of osteopathy, graduates of reputable schools of osteopathy and resident practitioners of the state. The members of said board shall hold their offices for a term of three years and until their successors are appointed and qualified, except the first appointees, who shall serve for one, two and three years, respectively, in the order of their appointment. All vacancies in the board shall be filled by the governor by appointment, the appointees to such vacancies to possess the qualifications above required for members of said board. [1909, ch. 172, § 1.]

The president and secretary shall have the power to administer oaths. The board shall hold regular meetings for examinations at such places as it may designate on the first Tuesdays of January

and July of each year, and such special meetings as it may from time to time appoint. The board shall by appropriate rules and regulations make provision for the payment of the expenses of its members, including per diem and mileage, but all such expenses shall be paid out of application fees. Two members of the board shall constitute a quorum and no license to practice osteopathy shall be granted except upon an affirmative vote of at least two such members. The board shall keep a record of all its proceedings and also a register of applicants for license, showing the name of each, his age, time spent in the study of osteopathy, the names and location of the institutions from which such applicant holds the degree of doctor of or diplomate in, osteopathy, together with the date of his diploma. Such register shall also show whether the applicant was licensed or rejected. Such record and register shall be prima facie evidence of the matters therein recorded. [1909, ch. 172, § 2.]

§ 518. Examinations, how conducted. Licenses, how granted and revoked. All persons before commencing the practice of osteopathy in this state shall apply to the state board of osteopathic examiners for a license so to do, and such applicant shall submit to an examination in the following subjects: Anatomy, histology, physiology, physiological chemistry, toxicology, diagnosis, pathology, obstetrics, gynecology, surgery, principles and practice of osteopathy, medical jurisprudence and such other subjects as the board may require, and shall present a diploma from a reputable school of osteopathy, wherein the course of instruction was not less than twenty months prior to the year 1907, and not less than three years of nine months each since said year. And the board shall cause such examination to be practical and scientific and sufficient to test the applicant's fitness to treat the diseases of the human body according to the theory of osteopathy, which shall not include the prescribing of internal medicine. If the applicant passes the prescribed examination by answering correctly not less than seventy-five per cent of the questions propounded to him in each subject, the board shall grant him a license to practice osteopathy in this state, which license shall be signed by the president and secretary of the board and attested by the seal thereof. The fee for such examination shall be twenty dollars, payable in advance, which shall be applied to the payment of the expenses of the board and of such examination. The board may, in its discretion, permit an unsuccessful applicant to take a second examination within one year after rejection, without the payment of an additional fee. The board may also, in its discretion, grant a license for the fee above specified, without examination, to applicants examined and licensed by the legally constituted boards of other states and territories of the United States, or the District of Columbia, maintaining standards of equal grade with those required of this article. The board may refuse or revoke a license for dishonorable, unprofessional or immoral conduct, chronic or persistent inebriety, or mental aberration, excessive use of narcotics, or the practice of criminal abortion or for violating the provisions of this section. The accused shall be furnished with a copy of the complaint and be given a hearing before the board in person, or by attorney. [1909, ch. 172, § 3.]

the applicant upon payment of five dollars, without requiring of applicant to pass the state board examination; provided, the board is satisfied as to the good character of the applicant. [1911, ch. 199; 1909, ch. 172, § 5.]

Laws 1909, ch. 172, § 9, repealed R. C. 1905, § 323, which provided as follows: "Any person having a diploma regularly issued by the American School of Osteopathy, of Kirksville, Missouri, or any other legally chartered and regularly conducted school of osteopathy, who shall have been in personal attendance as student in such school for at least four terms of not less than five months each before graduation, shall be authorized to treat diseases of the human body according to such system, after having filed such diploma for record with the clerk of the county court of the county in which such person proposes to practice, and having filed with such clerk an affidavit that the diploma is genuine, and that he or she is the person to whom the same was issued, and that all the provisions of this article were fully complied with before the issuing of such diploma; whereupon the clerk shall record such diploma in a book to be provided by him for that purpose, and shall indorse upon such diploma the date of filing and recording the same, for which he shall receive from such person a fee of one dollar. Any person who shall practice or pretend or attempt to practice the system, method or science of osteopathy in treating diseases of the human body without having complied with the provisions of this section, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in a sum of not less than fifty nor more than one hundred dollars for each offense; provided, that nothing in this section shall be construed as prohibiting any legally authorized practitioner of medicine or surgery in this state from curing or relieving disease with or without drugs, or by any manipulation by which any disease may be cured or alleviated."

§ 521. Permits. An applicant for a license may upon payment to the secretary of the fee of twenty dollars be granted a permit by the board to practice osteopathy until the next regular examination, but only one such permit shall be granted to the same applicant. [1909, ch. 172, § 6.]

§ 522. Who exempt from the provisions of this article. This act shall not apply to doctors of osteopathy in actual consultation from other states or territories, or the District of Columbia. [1909, ch. 172, § 7.]

The members of said board, before entering upon their duties shall respectively take and subscribe the oath required by other state officers, which shall be filed in the office of the secretary of state, who is hereby authorized to administer same. They shall have power to elect out of their own number a president, secretary and treasurer, and adopt such regulations for the transaction of the business of the board and the management of its affairs, as they may deem expedient. The members of such board shall receive no salary as such, except the secretary, who shall receive fifty dollars a year for services; but the actual traveling and necessary expenses of the board and its members shall be paid, but only out of the receipts as hereinafter directed. [R. C. 1905, § 341; 1905, ch. 111, § 2.]

§ 542. Meetings of board. Such board shall meet at least once a year, and may also hold special meetings as frequently as the proper and efficient discharge of its duties shall require, at a time and place to be fixed by the rules and by-laws of the board; and the rules and by-laws of the board shall provide for the giving of timely notice of all meetings to every member of the board, and to all applicants for license. Three of the members shall at any meeting constitute a quorum for the transaction of business. [R. C. 1905, § 342; 1905, ch. 111, § 3.]

And they shall adopt such rules and regulations for the disinfection of dead bodies, their bedding, clothes and surroundings, as they shall think proper, and shall cause such rules to be made known to every person engaged in the profession of embalming and the business of undertaker. And it is the intention that this board shall be an aid to the state board of health. [R. C. 1905, § 343; 1905, ch. 111, § 4.]

§ 544. License issued. When. Every person who wishes to practice the profession of embalming dead human bodies in the state of North Dakota or prepare for shipment any dead human body, shall appear before the state board of embalmers, or such member thereof designated, as hereinbefore provided, for examination on their knowledge of embalming, sanitation, preservation of the dead, disinfection of a deceased person and the apartments, bedding, clothing, excretion or anything likely to be affected in case of death from infectious or contagious disease, in accordance with the rules and regulations of the state board of health. Such examination shall be in writing and all examination papers shall be kept on record by said board of embalmers; and if the applicant be of good moral character and passes a satisfactory examination, then the said board shall issue to said applicant, on payment of the sum of five dollars to the treasurer of said board, a license to practice the profession of embalming for the term of one year:

The said notice shall set forth in what particulars it is claimed there has been a violation of the law, or for what reason the person is believed to be unfitted to longer prosecute the business of an embalmer; the said board shall in such notice definitely fix a time and place when and where it will be in session for the purpose of considering such person's case, which time shall not be less than twelve days after the service of notice upon the person. Such person shall have the right to appear before the said board at such time and place to dispute the charges made in said notice. Any member of said board shall have the right to administer oaths to witnesses. If, after considering all of the facts and circumstances the board shall have sufficient reason to believe that there has been a violation of the provisions of this act, [article] or a violation of any rule or regulation prescribed by the said board for the preparation, embalming, shipping or burial of any dead human body, or that such person is unfitted to remain a licensed embalmer in this state, it shall have the right to revoke and cancel the license theretofore granted to such person. If the applicant desires the renewal of the license, the said board shall grant it, except for cause, and the annual fee for the renewal of the license shall not exceed three dollars. [1913, ch. 158; 1909, ch. 108; R. C. 1905, § 344; 1905, ch. 111, § 6.]

All licenses shall be signed by a majority of the state board of embalmers and attested by its seal, and shall specify by name, the person to whom issued. Every such license shall be nonassignable and nontransferable, and shall be displayed by such embalmer in a conspicuous place in his or her office or place of business. [R. ARTICLE 5.—APPROPRIATIONS, GENERAL.

Laws 1913, ch. 41, appears in the authenticated volume of Sessions Laws of that year under the heading "Appropriations, General." It is termed "the so-called budget bill" in a veto message, Laws 1913, ch. 6, and constitutes sections 653a-653i herein. Its title reads as follows: "An Act to appropriate Money for the Expenses of the State Government and for Other Purposes; to Repeal Section 1737 of the Revised Codes of 1905, as Amended by Chapter 1 of the Session Laws of 1911, Chapter 73 of the Session Laws of 1909, Chapter 195 of the Session Laws of 1909, Chapter 284 of the Session Laws of 1911, and Sections 1295 and 1298 of the Revised Codes of 1905 and Section 1296 of the Revised Codes of 1905, as Amended by Chapter 31 of the Session Laws of 1909, so far as the Same Relates to Appropriations; Chapter 186 of the Session Laws of 1907; Sections 1287, 1288 and 1289 of the Revised Codes of 1905, as amended in Chapter 148 of the Session Laws of 1909; Chapter 175 of the Session Laws of 1911 and to repeal all Acts in so far as they conflict with the Provisions of This Act; Specifying the Amount and Time for Which Such Appropriations Shall be Available, and Providing the Manner in Which the Appropriations Herein Made Shall be Paid."

Apart from appropriations of stated amounts, the "budget bill" above mentioned, contains some provisions that will remain in force until the appropriations expire July 1, 1915. Some of the express repeals enumerated in section 653i, as well as in the title of the act, are not limited to appropriation provisions in the repealed laws, but are in terms absolute, as are some of the repeals in section 653e. Whether the whole or any part of some of the laws thus repealed will revive at the expiration of the period covered by the appropriations, viz., July 1, 1915, may be a debatable question. See, for example, a provision unqualifiedly repealed, that is mentioned in the note to section 582. In *Collins v. Smith*, 6 Whart. 294, 36 Am. Dec. 228, Chief Justice Gibson writing the well-con-

sidered opinion, it was held to be the rule at common law that "the expiration of a statute by its own limitation ipso facto revives a statute which had been repealed and supplied by it." See also 1 Fed. Stat. Anno. cxxv, note 3. This conclusion was deduced from "an admitted rule of the common law that the repeal of a repealing statute revives the original,"—a rule expressly abrogated, however, in section 4319, such abrogation extending perhaps to an expiring statute by virtue of the liberal construction expressly required in section 4319. On the other hand, it is to be observed that whenever such statutory provision abrogating the common-law rule appears in the Revised Codes of 1895, which is the only compilation that has been enacted by the legislative assembly, it is expressed to be the rule of construction for "this code," i. e., the "Political" or other code in which it is placed, and has never been enacted as a rule applicable to the Session Laws, and therefore the statutory rule does not explicitly apply to any Session Laws that are not by their terms assigned to any particular code. Furthermore, the section abrogating the common-law rule is omitted, possibly by inadvertence, not only in the Probate Code and the Justices' Code, but also in the Penal Code, and many provisions in the Session Laws can be as appropriately placed in the Penal Code as in the Political Code; for the chapter in the latter code which deals with "Police of the State" (sections 2496-3176 herein) teems with penal provisions.

§ 653a. Appropriation. The sums hereinafter stated, or so much thereof as may be found necessary, are hereby appropriated out of any state moneys in the treasury, for the purposes named in the following sections of this act [sections 653d-653g], to be available in such sums and for the time specified. [1913, ch. 41, § 1.]

§ 653b. How appropriations shall be paid. The appropriations hereinafter named shall be paid out by the state auditor only on vouchers fully itemized and sworn to, when approved by the state auditing board, provided that the salaries of the elected officials shall be paid without requiring the filing of any voucher. [1913, ch. 41, § 2.]

§ 653c. Changes made by other laws. In any instance where another law provides, or pretends to provide, for certain expenses, it shall be stated what law is being changed, and the section or chapter shall be named, and the intended change stated. [1913, ch. 41, § 3.]

"It is well settled and very obvious that one legislature has no power to bind a subsequent legislature, even as to the form of expressions to be used in repealing or modifying a prior statute." *Baines v. Janesville*, 100 Wis. 369, 76 N. W. 481.

§ 653d. Salaries of elected officials. The following sums are appropriated for salaries of the elected officials named, for the period beginning July 1, 1913, and ending July 1, 1915:

Clerk of supreme court (repeals chapter 73, Session Laws of 1909), \$4,000.00.

Supreme court reporter (repeals section 461, Revised Codes of 1905, and salary shall cover expense of office), \$3,000.00.

Inspector rural and graded schools (as named in chapter 35, Session Laws of 1911), \$4,000.00.

[1913, ch. 41, § 5.]

In the appropriation paragraph for the high school inspector the reference to Laws 1911, ch. 46, is erroneous. Probably the reference intended is Laws 1911, ch. 267, § 2, which as amended in 1913 constitutes section 1433 herein.

§ 653f. Clerk hire for the state departments, names following. The following named amounts are hereby appropriated for clerk hire in the departments and offices specified. This clerk hire shall be paid only on sworn vouchers, approved by the heads of the departments, and approved by the state auditing board. The appropriations following are for a period of thirty (30) months, beginning with January 1, 1913, and ending July 1, 1915. This is provided for the reason that this is the first time the general appropriations bill provided in section 62 of the constitution of the state of North Dakota has been attempted, and some sections now in effect, but vague as to appropriations, have been repealed, and it is essential that there be a certain credit to take care of the payments of the year 1913. Section 1737 of the Revised Codes of 1905, as amended by chapter 1 of the Session Laws of 1911; chapter 73 of the Session Laws of 1909; chapter 195 of the Session Laws of 1909; chapter 284 of the Session Laws of 1911, and sections 1295, 1297 and 1298 of the Revised Codes of 1905, and section 1296 of the Revised Codes of 1905, as amended by chapter 31 of the Session Laws of 1909, so far as the same relates to appropriations; chapter 186 of the Session Laws of 1907; sections 1287, 1288 and 1289 of the Revised Codes of 1905, as amended by chapter 148 of the Session Laws of 1909; chapter 175 of the Session Laws of 1911, and all other acts in so far as they conflict with the provisions of this article, are hereby repealed. [1913, ch. 41, § 9.]

The complaint or charges against any such official authorized to be removed by the governor shall be entitled in the name of the state of North Dakota and shall be filed with the governor. It may be made on the relation of any five qualified electors of the county in which the person charged is an officer or the state's attorney of such county, and such complaint or charges shall be filed by the attorney-general when directed so to do by the governor. In such case the person appointed to such office ad interim shall continue until the expiration of the term for which the accused had been elected or appointed; provided, however, that in all cases where the accused person so removed deems himself aggrieved thereby, he shall be entitled to appeal from the decision of removal so made by the governor to any district court in this state upon filing a notice of appeal therefrom in the office of the secretary of state within fifteen days after the date thereof. C. 1905, § 525; 1883, ch. 72, § 8; R. C. 1899, § 452.]

§ 826. **Number of names to be always at maximum.** Such number of two hundred names shall at all times be kept full, when possible, by completing the number after each jury term of court; and at the end of each jury term of the district court the clerk shall make requisition upon the county commissioners for the furnishing of as many names as have been drawn so as to keep such list full. And at the subsequent meeting the board of county commissioners shall proceed to apportion as hereinbefore provided for making up the whole of such list, and the same proceedings shall be had as to such names so required, as are herein directed to be taken in making said list full, except that the posting of notices shall not be required, and that the board of supervisors of any township, the board of aldermen or the city council of any city, or the board of trustees of any village, need not be specially called to draw any such names, but may do so at its next regular meeting. § 957. **Ballots to be printed and distributed at public expense.** At all general or special elections for state, district, county, city, township, village or other public officers within this state, including elections in cities, towns and villages incorporated by special act, all ballots cast shall be printed and distributed at public expense, as hereinafter provided. The printing of ballots and cards of instruction for the electors in each county and the delivery of the same to the election officers as hereinafter provided shall be a county charge and for municipalities a municipal charge, the payment of which shall be provided for in the same manner as other county and municipal expenses; provided, that the provisions of this chapter shall not apply to elections for civil township or school district officers, nor to elections in incorporated cities and villages having less than three hundred legal voters as evidenced by the vote cast therein at the last preceding city or village election. [R. C. 1905, § 614; 1891, ch. 66, § 1; 1893, ch. 60, § 1; R. C. 1895, § 489.]

Ballot provision is mandatory to extent that ballot must be provided substantially meeting statutory requirements permitting elector to vote for place thereon by making cross after it. *Miller v. Norton*, 22 N. D. 196, 132 N. W. 1080.

§ 958. **Elector may write name of candidate on ticket, when.** Except as otherwise provided in this chapter it shall be the duty of the auditor of each county to provide printed ballots for every election for public officers in which the electors or any of the electors within the county participate and he shall cause to be printed on the ballots the name of each candidate whose name has been certified to or filed with him in the manner provided for in this chapter. Ballots other than those printed by the respective county auditors shall not be cast or counted in any election. Nothing in this chapter shall prevent any voter from writing or pasting on his ballot the name of any person for whom he desires to vote and such vote shall be counted the same as if printed on the ballot and marked by the voter. [R. C. 1905, § 615; 1891, ch. 66, § 15; R. C. 1899, § 490.]

Official ballot is not invalidated by addition of printed stickers. *Roberts v. Bope*, 14 N. D. 311, 103 N. W. 935.

Supreme court may, by mandamus, direct county auditor which of two sets of nominees to put on ballot. *State ex rel. Howells v. Metcalf*, 18 S. D. 393, 67 L.R.A. 331, 100 N. W. 923.

§ 959. **Ballots. How prepared.** All ballots prepared under the provisions of this chapter shall be white and of uniform quality of paper printed in black ink, and of sufficient width to contain all of the tickets to be voted for, under the appropriate party designation for each and of sufficient length to contain all the names of the candidates to be voted for at said election. On the left hand of said ticket shall be a column designating the office to be voted for, and on the same line in the column under the appropriate party designation of each, all the names of the candidates duly nominated for that office shall be printed. Where there is more than one person to be elected to an office, there shall be printed in plain type immediately under the designation of the office to be voted for, the following words, "Vote for (number)

names only; Mark X after name to be voted for and cross out names not desired. The names of the greatest number of candidates for such an office appearing in either of the two left hand columns, or if said two left hand columns have an equal number of names, then the first left hand column, and every second column to the right thereof on said ballot shall be alternated in the printing of said official ballot for each precinct by changing the position of the names in each office division as many times as there are candidates for such office." There shall be a space between the party designation at the top of each column and the names at the head of the ticket of five-eighths of an inch, in the center of which there shall be a square formed of black lines, in which the voter by his mark may declare that he voted for all names printed in that column, except such as are erased, or pasted or written over, or where the voter places a cross (X) or mark following the name of a candidate in another column, such name shall be counted in lieu of the name for the same office in the column voted for at the head of the ticket; provided, further, that where there are groups of names for a like position and a cross (X) is placed at the head of a party designation, and the voter places a cross or mark, following the name of one or more candidates in a group, in another column and fails or neglects to strike out the same number of names in the column originally voted for, the intention of the voter shall be construed to having voted for the name or names in the group so marked and the name or names in the same line on the opposite group shall not be counted. There shall also be left under the name of each candidate sufficient space to write, or paste a name therein, in lieu of the one printed on the ticket, and on the same line with the name of each candidate, and at the end of his name there shall be a space enclosed in a square of black lines, in which the voter may designate by a cross or other mark, his choice for each candidate opposite the name of such candidate. The fact that a name has been written or pasted opposite the office to be voted for shall be deemed sufficient evidence that the person depositing such ballot intended to vote for the person whose name he has written or pasted thereon, and not for the person whose name was originally printed on the ballot whether he shall make a mark or cross opposite such written or pasted name or not. The names of candidates under headings designating each official position shall be alternated on the official ballot in the printing in the manner as provided by the primary election law.

(Persons nominated by paper or by petition shall be placed in one or more columns under the designation of "Individual Nominations," on the same line with the offices for which they are nominated.)

Constitutional amendments duly certified to the auditor by the secretary of state or any question to be voted for aside from the election of public officers, shall be printed on a separate ballot and shall be deposited in a box separate from that provided to receive the ballots for public officers. The ballots must embrace the constitutional amendments in full, and there shall be printed at the bottom of the amendments the word "yes" and underneath the same word "no," and opposite each a square formed of black lines, and the elector shall designate by a cross or other mark within the square how he desires his vote recorded. If the question be other than a constitutional amendment, it shall be stated fully and fairly on such ballot, and the words "yes" and "no," shall be printed on the ballot at the close of the statement of the question in separate lines with a square formed of black lines after each in which the voter may indicate by cross or other mark how he desires to vote on the question. Where two or more amendments or questions are to be voted on they shall be printed on the same ballot. [1911, ch. 130; R. C. 1905, § 616; 1891, ch. 66, § 17; 1893, ch. 60, § 6; R. State of..... }
County of..... } ss.

I,, do solemnly swear that I am a resident of the township of....., or the village of....., or of the precinct of the ward in the city of....., residing at..... in said city, county of..... and state of North Dakota, and entitled to vote in such precinct at the next election;

Subscribed and sworn to before me this.....day of..... 19....; and I hereby certify that the affidavit [affiant] exhibited the enclosed ballots to be unmarked, that he then, in my presence and in the presence of no other person, and in such manner that I could not see his vote, marked such ballot, and enclosed and sealed the same in this envelope. That the affiant was not solicited or advised by me to vote for or against any candidate or measure.

Provided, that if the ballot enclosed is to be voted at a primary election, the affidavit shall state the name of the political party with which the absent voter is affiliated.

Note. If such absent voter is unable to sign his name, he shall make his mark (X) and the officer taking such affidavit shall sign such voter's name, and shall state the reason for such affidavit being signed in such manner in his certificate attached to such affidavit. [1913, ch. 155, § 6.]

§ 998. Manner of marking ballot. Such absent voter shall make and subscribe the said affidavit before an officer authorized by law to administer oaths and who has an official seal, and such absent voter shall thereupon, in the presence of such officer and of no other person, mark such ballot or ballots, but in such manner that such officer cannot see the vote, and such ballot or ballots shall thereupon, in the presence of such officer, be folded by such voter so that each ballot will be separate, and so as to conceal the vote, and be in the presence of such officer deposited by such envelope, and the said envelope securely sealed. Said envelope shall be mailed by such absent voter, postage prepaid. [1913, ch. 155, § 7.]

§ 999. Care of ballot by auditor. Upon receipt of such envelope, such county auditor shall forthwith enclose the same, unopened, together with the written application of such absent voter, in a larger envelope which shall be securely sealed and endorsed with the name of the proper voting precinct, the name and official title of such auditor, and the words, "This envelope contains an absent voter ballot and must be opened only on election day at the polls while the same are open," and such auditor shall thereafter safely keep the same in his office until the same is delivered by him as provided in the next section. In case the official ballots for such precinct shall have been delivered to such inspector of elections at the time of the receipt by the auditor of such absent voter ballot, such auditor shall immediately enclose such application and such ballot with the envelope containing such ballot, unopened, in a larger envelope which shall be securely sealed by him and endorsed on the front with the name, official title, name of precinct and post office address of the inspector of elections of the precinct in which such absent voter resides, and the words "This envelope contains an absent voter ballot and must be opened only on election day at the polls while the same are open," and forthwith mail the same, postage prepaid, to such inspector of elections. spector or judges of election of such precinct shall first open the outer envelope only, and compare the signature of such voter to such application with the signature to such affidavit. In case the judges find the affidavit is sufficient and that the signatures correspond, and that the applicant is then a duly qualified elector of such precinct and has not voted at such election, they shall open the absent voter envelope, in such manner as not to destroy the affidavit thereon, and take out the ballot or ballots therein contained, and without unfolding the same, or permitting the same to be opened or examined, and having endorsed the same in like manner that other ballots are endorsed, deposit the same in the proper ballot box or boxes, showing by the records of such election such elector to have voted. In case such affidavit is found to be insufficient, or that the said signatures do not correspond, or that such applicant is not then a duly qualified elector of such precinct, such vote shall not be allowed, but without opening the absent voter envelope, the election inspector or a judge of such election shall mark across the face thereof, "Rejected as defective," or "Rejected as not an elector," as the case may be. The absent voter envelope when such absent vote is voted, and the absent voter envelope with its contents, unopened, when such absent vote is rejected, shall be deposited in the ballot box containing the general or party ballots, as the case may be, retained and preserved in the manner as now by law provided for the retention and preservation of official ballot voted at such election. [1913, ch. 155, § 10.]

§ 1002. Elector may vote before leaving county. The provisions of this act shall be construed so as to permit any qualified elector of this state who is present in this (his) county after the official absent voter ballots of such county have been printed, and who has reason to believe that he will be absent from such county on election day as before provided in section 993, to vote before he leaves his county, in like manner as absent voter, and any qualified elector who has marked his ballot as hereinbefore provided, who shall unexpectedly return to his precinct before or on election day, shall be permitted to vote in person, provided his ballot has not already been deposited in the ballot box. [1913, ch. 155, § 11.]

§ 1003. Ballots furnished auditor, when. It shall be the duty of the secretary of state, county auditor, or any other officer by law required to prepare any general or primary election ballot, to prepare and have printed and delivered to the county auditor, at least fifteen days prior to the holding of such election, a sufficient number of absent voter ballots provided for in section 994, for the use of all voters likely to be absent from such county on the day of such election. [1913, ch. 155, § 12.]

§ 1004. Penalty for violations. If any person shall wilfully swear falsely to the affidavit in section 997 provided for, he shall upon conviction thereof be deemed guilty of perjury and shall be punished as in such case by law provided. If the secretary of state or any county auditor or any election officer shall refuse or neglect to perform any of the duties prescribed by this article, or shall violate any of the provisions thereof, or if any officer taking the affidavit provided for in section 997 shall make any false statement in his certificate thereto attached, he shall be deemed guilty of a misdemeanor and shall be punished by a fine not exceeding one hundred (\$100) dollars, or by imprisonment in the county jail not exceeding thirty (30) days, or by both such fine and imprisonment. [1913, ch. 155, § 13.]

ARTICLE 17.—CANVASS OF RETURNS.

§ 1005. Canvass of votes. As soon as the polls of the election shall be finally closed the inspectors shall proceed immediately to canvass publicly in the presence of all persons desiring to attend the same the votes received at such polls and continue without adjournment until the canvass is completed and the statements hereinafter required are made. They shall commence by a

comparison of the poll lists and the correction of any mistakes therein until they shall be found or made to agree. The box shall then be opened and the ballots taken out and counted by the inspectors, unopened, except so far as to ascertain whether each ballot is single; and if two or more ballots are found so folded together as to present the appearance of a single ballot they shall be laid aside until the count of the ballot is completed; and if, upon a comparison of the count and the appearance of such ballot, a majority of the inspectors shall be of the opinion that the ballots thus folded together were voted by one elector, they shall be destroyed. If the ballots in the box shall be found to exceed in number, after any such ballots folded together are destroyed, the whole number of votes on the poll lists, they shall be replaced in the box and one of the inspectors shall publicly draw therefrom by chance and without examination thereof and destroy as many ballots unopened as shall be equal to such excess. The number of ballots agreeing, or so as aforesaid being made to agree with the poll lists, the inspectors shall then proceed to open, count and ascertain the number of votes. [R. C. 1905, § 647; 1891, ch. 66, § 35; R. C. 1899, § 523.]

§ 1006. Ballots, when void. In the canvass of the votes, any ballot which is not indorsed as provided in this chapter by the official stamp and initials shall be void and shall not be counted, and any ballot or parts of a ballot from which it is impossible to determine the elector's choice shall be void and shall not be counted; provided, that when a ballot is sufficiently plain to gather therefrom a part of the voter's intention it shall be the duty of the judges of election to count such part. § 1007. Result of canvass to be immediately announced. The inspectors shall as soon as the count is completed publicly announce the result thereof, specifying the whole number of votes cast for each office and for each candidate respectively; also the number of votes cast for and against each proposition voted for at such election. They shall immediately prepare in duplicate a statement in writing setting forth at length, in words and figures, the whole number of votes cast for each office and the names of all the persons for whom

such votes were cast, together with the number of votes cast for each person; also the number of votes cast for and against each proposition voted upon at such election which statement they shall certify to be correct. [R. C. 1905, § 649; 1891, ch. 66, § 36; R. C. 1899, § 525.]

§ 1008. Returns, how and where made. Compensation of officers. The inspector of election or one of the judges appointed by him, shall forthwith deliver to the clerk of the town, city or village, one of such statements and one of such poll lists, together with the stamp inscribed with the words "official ballot," to be filed and preserved in his office, and shall with all convenient dispatch and within three days after the election, deliver the other statement to the county auditor, said statement having been by the judges carefully sealed up, together with the other poll lists, and with the oaths of inspectors and clerks affixed, under cover, properly directed to the county auditor, and the person delivering such returns shall receive as compensation therefor the sum of two dollars and mileage at the rate of ten cents per mile, for each mile necessarily traveled in going to and from such auditor's office, to be paid out of the county treasury on the warrant of the county auditor.

The statement and poll list aforesaid, having been duly prepared for delivery to the county auditor as aforesaid, the inspector and judges of election shall cause the ballots of each kind cast at such election to be smoothly spread upon a wrapper of strong durable paper of the same width of such ballots and of sufficient strength to permit of its being folded with the said ballots and form a complete wrapper therefor when folded. Such ballots and wrappers shall then be tightly folded together and the said wrapper securely pasted or glued at the outer end so as to completely envelope and firmly hold such roll together.

Provided, that ballots which are void shall be wrapped in a separate wrapper and so marked on said wrapper.

In the folding and sealing of the ballots as aforesaid, the various classes of ballots shall be kept separate.

The judges shall fold in two folds and lay in tiers all ballots counted by them except those which are void, and fold same securely in manilla wrappers not exceeding two hundred (200) to each wrapper, on which shall be endorsed in writing or print, the number of the precinct, date on which the election was held, and securely seal such wrappers by sealing them with sealing wax and stamping on said wax the name of the county with a metal stamp, provided for that purpose, so that said wrappers cannot be opened without breaking the seal, and return said ballots, together with those found void, to the county judge. Immediately upon receiving such ballots, the county judge shall give a receipt therefor to said judges of election, and shall place them properly arranged in the order of the precinct numbers in boxes which shall be securely locked. Said boxes shall be placed in a fire proof vault and shall be securely kept for six months, not opening or inspecting them nor allowing anyone else to do so, except upon order of court, in case of contested election, or when it shall be necessary to produce them at a trial for any offense committed at elections. At the end of six months after said election, said ballots shall be destroyed; provided, that if any contest of the election of any officer voted for at such election, or prosecution under this article shall be pending at the expiration of said time, the said ballots shall not be destroyed until such contest or prosecution be finally determined. In organized townships or in cities or villages, the inspector of elections shall deliver, if he is not himself the officer in question, the ballot boxes together with said metal stamp to the chairman of the board of supervisors of the civil township, or mayor of the city or president of the village, in which the election precinct is situated, as the case may be; and this officer shall keep in safe custody such boxes and stamp until the next election, or hand them over to his successor

in office to be safely kept by him until such time. At the following general or primary election it shall be the duty of these officers to hand the ballot boxes and said stamp over to the inspector of elections. In unorganized townships the inspector of elections shall cause the ballot boxes to be delivered to the county auditor, at the same time, by the same person returning the ballots, and no extra compensation shall be allowed for such delivery. Any person violating any of the provisions of this section is guilty of a misdemeanor.

It is the purpose of this act [section] to provide a safe place for the keeping of the ballots and to make them readily accessible for use in legal proceedings, and such ballots shall be received in evidence without further identification or foundation being laid, and any failure on the part of the election officers to comply with any of the formalities required hereby as to the return of said ballots, shall not invalidate any election or cause any ballot otherwise regular to be disregarded and any omission or irregularities in the manner of identifying or returning the ballots of any precinct may be obviated by proof under the ordinary rules of evidence. It shall be the duty of the county auditor of each county, on receipt of the returns of any election, to make out his certificate, stating therein the compensation to which the judges and clerks of election may be entitled for their services, and lay the same before the board of county commissioners at

If the county auditor is a candidate for office, he shall take no part in the canvass, but shall act as clerk of such board of canvassers, and the two officers called to the assistance of the county auditor to make such canvass, shall call to their assistance a justice of the peace, and it shall thereupon be their duty at once to attend and canvass such returns as provided by law. It shall be the duty of the school board in rural districts to provide for substantial hitching posts for each school site in the district. [1911, ch. 266, § 100; R. C. 1905, § 1039; 1901, ch. 188.]

The foregoing is Laws 1911, ch. 266, § 100, which was identical with R. C. 1905, § 1039, except that the latter required the school board "to provide four substantial hitching posts," etc., instead of "to provide for," etc. Nevertheless, the enrolled bill for section 100, above mentioned, as enacted and on file with the secretary of state reads "for" and not "four." It is "four" in session laws for 1901, ch. 188.

All books purchased in accordance with the provisions of this article shall be paid for out of the school funds of the respective districts, and it shall be the duty of school boards and boards of education to see that sufficient funds are raised and set aside for the purpose of this article. The clerk of each district shall also keep a record of all books furnished the schools in the district. [1911, ch. 266, § 286; R. C. 1905, § 1028; 1899, ch. 82; R. C. 1899, § 864.]

[1913, ch. 254.]

ARTICLE 21.—SPECIAL PROVISIONS.

The school board or board of education of any city, town or district, is authorized and required to purchase at the expense of the city, town or district, one or more flags of the United States, which shall be displayed in seasonable weather, upon the school houses or flagstaff upon the school grounds during the school hours of each day's session of school. § 1401. Superintendents, principals, teachers attending the North Dakota educational association. The board of education in special or independent districts, or the school district board in any common school district is hereby authorized to allow the superintendent, principal or teachers of the schools under its charge, to attend, without loss of salary, any meeting of the North Dakota or other educational association which may be held within this state while the schools of such district are in session. [1911, ch. 266, § 288.]

§ 1402. Free kindergartens may be established, cost, how paid, government. Duty of superintendent of public instruction. The school board of any school district in the state, upon a petition signed by a majority of the legal voters in the district, shall have the power to establish and maintain free kindergartens in connection with the public schools of said district, for the instruction of children between four and six years of age, residing in said district, and shall establish such course of training, study and discipline and such other rules and regulations governing such preparatory or kindergarten schools as said board may deem best; provided, that nothing in this act shall be construed to change the law relating to the taking of the census of the school population or of the apportionment of the state or county school funds among the several counties and districts in the state; provided, further, that the cost of establishing and maintaining such kindergartens may be paid from the school funds of said districts raised by direct taxation for such purpose, and the said kindergartens shall be a part of the public school system, and gov-

erned as far as practicable, in the same manner and by the same officers as are provided by law for the government of the other public schools of the state; provided, further, that no person shall be employed as a teacher in such kindergarten schools who has not passed a satisfactory examination in such subjects as the state examining board shall require. The state examining board shall adopt rules governing the examination of kindergarten teachers, and shall furnish county superintendents with examination questions and the examination shall be held in the manner provided by law for the examination of teachers in the public schools; provided, further, that any person who shall complete the course of training for kindergarten teachers at the state normal schools shall be entitled to teach in the kindergarten schools of this state without examinations. [1911, ch. 266, § 289; 1909, ch. 103.]

§ 1403. Health and decency. It shall be the duty of all boards of education and school boards in this state to provide suitable and convenient water closets or privies for each of the schools under their charge, at least two in number, which shall be entirely separate, each from the other, and having separate means of access; and it shall be the duty of the school officers aforesaid to keep the same in a clean, chaste and wholesome condition; and a failure to comply with the provisions of this article on the part of any board of education or school board, shall be sufficient grounds for removal from office and for withholding from any district any part of the county tuition fund.

See further as to sanitary regulation for school houses, section 415.

The foregoing section 1403 with the exception of the substitution of the words "county tuition fund" for the words "the public moneys of the state," is a re-enactment of the first part of section 1038 of the Revised Codes of 1905, in which compilation sections 1038 and 1039 constituted "Article 26.—Health and Decency in Public Schools." Section 1038 read as follows:

"*Duty of boards of education.* It shall be the duty of all boards of education and district school boards in this state to provide suitable and convenient water closets or privies for each of the schools under their charge, at least two in number, which shall be entirely separate each from the other, and having separate means of access; and it shall be the duty of the school officers aforesaid to keep the same in a clean, chaste and wholesome condition; and a failure to comply with the provisions of this article on the part of any board of education or district school board, shall be sufficient grounds for removal from office and for withholding from any district any part of the public moneys of the state. The expense incurred by the officers aforesaid in carrying out the requirements of this article shall be a charge upon the district, when such expense shall have been approved by the county superintendent of schools of the county within which the school district is located, and a tax may be levied therefor without a vote of the district."

The legislature probably intended in Laws 1911, ch. 266, expressly to repeal section 1038, just quoted, but there is a discrepancy between the title of that chapter and the express repealing section thereof (§ 310), which is more fully explained in note to section 1454. Section 1039, above mentioned, constitutes section 1207 herein.

ARTICLE 22.—CHILD LABOR.

§ 1404. Unlawful to employ children under fourteen years. No child under fourteen years of age shall be employed, permitted or suffered to work in or in connection with any mine, factory, workshop, mercantile establishment, store, business office, telegraph office, restaurant, hotel, apartment house or in the distribution or transmission of merchandise or messages. It shall be unlawful for any person, firm or corporation to employ any child under fourteen years of age in any business or service whatever, during the hours when the public schools of the district in which the child resides are in session. [1911, ch. 266, § 291; 1909, ch. 153, § 1; R. C. 1905, § 897; 1890, ch. 62, § 143; 1891, ch. 56, § 29; R. C. 1899, § 762.]

§ 1405. Employment of child under sixteen years. No child between fourteen and sixteen years of age shall be employed, permitted or suffered to

work in any mine, factory, workshop or mercantile establishment unless the person or corporation employing him procures and keeps on file, and accessible to the superintendent of schools of the city or village, if one is employed, otherwise, to the clerk of the school board or board of education, an employment certificate as hereinafter prescribed, and keeps two complete lists of all such children employed therein, one on file and one conspicuously posted near the principal entrance of the building in which such child is employed. On termination of the employment of a child so registered and whose certificate is so filed, such certificate shall be forthwith surrendered by the employer to the child or its parent, or guardian or custodian. The superintendent of schools or clerk of the school board or board of education, as the case may be, may make demand on an employer in whose factory a child apparently under the age of sixteen years is employed or permitted or suffered to work and whose employment certificate is not then filed as required by this act, that such employer shall either furnish him within ten days evidence satisfactory to him that such child is in fact over sixteen years of age, or shall cease to employ or permit or suffer such child to work in such factory. The superintendent of schools of the city or village or clerk of the school board or board of education may require from such employer the same evidence of age of such child as is required on the issuance of an employment certificate; and the employer furnishing such evidence shall not be required to furnish any further evidence of the age of the child. In case such employer shall fail to produce and deliver to the superintendent of schools of the city or village or the clerk of the school board or board of education, as the case may be, within ten days after such demand, such evidence of age herein required by him, and shall thereafter continue to employ such child or permit or suffer such child to work in such factory, proof of the giving of such notice and of such failure to produce and file such evidence shall be prima facie evidence in any prosecution brought for a violation of this act that such child is under sixteen years of age and is unlawfully employed. [1911, ch. 266, § 292; 1909, ch. 153, § 2.]

§ 1406. **Who authorized to issue employment certificates.** The superintendent of schools of the city or village, if one is employed, and if not, then the clerk of the school board or board of education, is hereby authorized to issue an employment certificate in writing, such certificate is to be issued upon the evidence prescribed in section four of this act [section 1407]; provided, that no employment certificate shall be issued for any child then in or about to enter his own employment or the employment of a firm or corporation of which he is a member, officer or employe. [1911, ch. 266, § 293; 1909, ch. 153, § 3.]

§ 1407. **Employment certificate, on what issued.** The person authorized to issue employment certificate shall not issue such certificate until he has received, examined, approved and filed the following papers duly executed:

1. The school record of such child properly filled out and signed as provided in this act.

2. A passport or duly attested transcript of the certificate of birth or baptism or other religious record, showing the date and place of birth of such child. A duly attested transcript of the birth certificate filed according to law with a registrar of vital statistics, or other officer charged with the duty of recording births, shall be conclusive evidence of the age of such child.

3. The affidavit of the parent or guardian or custodian of a child, which shall be required, however, only in case such last mentioned transcript of the certificate of birth be not produced and filed, showing the place and date of birth of such child, which affidavit must be taken before the officer issuing the employment certificate, who is hereby authorized and required to administer such oath, and who shall not demand or receive a fee therefor. Such employment certificate shall not be issued until such child has personally

appeared before and been examined by the officer issuing the certificate, and until such officer shall, after making such examination, sign and file in his office a statement that the child can read and legibly write simple sentences in the English language and that in his opinion the child is fourteen years of age or upwards, and has reached the normal development of a child of its age, and is in sound health and is physically able to perform the work which it intends to do. In doubtful cases such physical fitness shall be determined by a medical officer of the board or department of health. Every such employment certificate shall be signed, in the presence of the officer issuing the same, by the child in whose name it is issued. [1911, ch. 266, § 294; 1909, ch. 153, § 4.]

§ 1408. Contents of certificates. Such certificates shall state the date and place of birth of the child and describe the color of the hair and eyes, the height and weight and any distinguishing marks of such child, and that the papers required by the preceding section have been duly examined, approved and filed and that the child named in such certificate has appeared before the officer signing the certificate and been examined. [1911, ch. 266, § 295; 1909, ch. 153, § 5.]

§ 1409. School record, what to contain. The school record required by this act shall be signed by the principal or chief executive officer of the school which such child has attended and shall be furnished, on demand, to a child entitled thereto. It shall contain a statement certifying that the child has regularly attended the public schools or schools equivalent thereto or parochial schools for not less than one hundred and twenty days during the school year previous to his arriving at the age of fourteen years or during the year previous to applying for such school record and is able to read and write simple sentences in the English language and has received during such period instruction in reading, spelling, writing, English grammar and geography and is familiar with the fundamental operations of arithmetic up to and including fractions. Such school record shall also give the age and residence of the child as shown on the records of the school and the name of its parent, guardian or custodian. [1911, ch. 266, § 296; 1909, ch. 153, § 6.]

§ 1410. Hours of labor. No person under the age of sixteen years shall be employed or suffered or permitted to work at any gainful occupation more than forty-eight hours in any one week, nor more than eight hours in any one day; or before the hour of seven o'clock in the morning or after the hour of seven o'clock in the evening. Every employer shall post in a conspicuous place in every room where such minors are employed a printed notice stating the hours required of them each day of the week, the hours of commencing and stopping work and the hours when the time or times allowed for dinner or for other meals begin and end. The printed form of such notice shall be furnished by the superintendent of schools of the city or village, or the clerk of the school board or board of education, and the employment of any minor for longer times in any day so stated shall be deemed a violation of this section. [1911, ch. 266, § 297; 1909, ch. 153, § 7.]

§ 1411. Peace officers to inspect places of work. Peace officers may visit mines, factories, workshops and mercantile establishments in their several towns and cities and ascertain whether any minors are employed therein contrary to the provisions of this act [sections 1404-1414]; and it shall be their duty to report any cases of such illegal employment to the school board or board of education. Such officer may require that the employment certificates and lists provided for in this act [sections 1404-1414] of minors employed in such factories, mines, workshops or mercantile establishments shall be produced for their inspection. Complaints for offenses under this act [sections 1404-1414] may be made by such peace officer or by any other person cognizant of the facts. [1911, ch. 266, § 298; 1909, ch. 153, § 8.]

§ 1412. Employments. No child under the age of sixteen years shall be employed at sewing belts, or to assist in sewing belts, in any capacity what-

[1911, ch. 266, § 299; 1909, ch. 153, § 9.]

§ 1413. **Penalty for violation of this act.** Each owner, superintendent, manager or overseer of any mine, factory, workshop or mercantile establishment, and any other person who shall employ any child contrary to the provisions of this act [sections 1404-1414] or who shall in any manner violate the provisions thereof, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined for each offense in a sum not less than twenty dollars nor more than fifty dollars and costs. [1911, ch. 264, § 2.]

§ 1453. Review by senior class, duty of superintendent. The superintendent shall, and it is hereby made his duty to cause to be reviewed by each senior class during the senior year, the full and complete course of study pursued by said class in the grammar grades. ARTICLE 5.—STATE EDUCATIONAL LIBRARY.

§ 1454. Appropriation for. There is hereby appropriated out of any funds in the state treasury the sum of three hundred dollars annually, to be paid by warrant of the state auditor on the state treasurer upon the presentation of an itemized bill in due form by the superintendent of public instruction, for the purchase of reference or pedagogical books for the state educational library in the office of such superintendent. [R. C. 1905, § 1030; 1891, ch. 32, § 1; R. C. 1899, § 866.]

This section is § 1030 of the Revised Codes of 1905. The title of Laws 1911, ch. 266 and the text of § 310 of that chapter (enumeration of repealed sections in R. C. 1905) are both identical with the enrolled bill on file in the office of the secretary of state. The title recites by numerical designation a multitude of sections in the Revised Codes of 1905 that are repealed by the chapter, and among them is § 1038, substantially re-enacted in § 290 of that chapter and constituting section 1403 in this compilation. But § 310 of chapter 266, above cited, while it manifestly purports to be the same specification of sections expressly repealed by it as found in the title, reads "1030" in the place where "1038" appears in the title, and § 1030 does not elsewhere appear in said section 310. In view of this discrepancy, it seems not to be absolutely certain whether it was § 1030 or § 1038 of the Revised Codes of 1905 that was expressly repealed. As above stated, the greater part of § 1038 of the Revised Codes of 1905 is re-enacted in section 1403 herein, and is quoted in the note to the latter section. On the other hand, § 1030 of the Revised Codes of 1905 appears to have no counterpart or substitute in Laws 1911, ch. 266, which constitutes sections 1105-1422 in this compilation.

ARTICLE 6.—COUNTY AGRICULTURAL AND TRAINING SCHOOL.

The duties of the state agricultural and training school board as defined in this article, which constituted Laws 1911, ch. 265, were transferred to the state board of education in Laws 1913, ch. 149, § 5, which is section 1427 herein.

§ 1455. General or special election to establish school. Appropriation by county commissioner. Whenever in the opinion of the citizens of any county in the state, it shall be deemed wise to establish a county school for the purpose of giving instruction in agricultural, domestic economy, manual training and for training of teachers for the rural schools and a petition containing the names of not less than three hundred freeholders is filed with the board of county commissioners, praying for the establishment of such a school such board of county commissioners shall at its next regular meeting consider such petition and in case such board of county commissioners decide in favor of establishing such school, such board of county commissioners

shall submit the question of establishing and maintaining such school to the electors of such county either at the next general election or they may order a special election for the purpose of determining whether such county shall establish such school. Such special election shall be held in the manner and upon the notice prescribed by law for other elections; but the published and posted notices of such election shall state its object and the amount of money to be appropriated for the establishing of such school. If the majority of all the votes cast at such general or special election upon the question of establishing such school are in favor of establishing such school, the board of county commissioners of such county is hereby authorized to appropriate money for the organization, equipment and maintenance of same and to levy and spread on the tax roll a sufficient sum to carry into effect the provisions of this article, but such sum shall not be less than ten thousand dollars, nor more than twenty thousand dollars, and not exceeding such sum as may be recommended by the board of trustees of the county agricultural and training school created by this article, which sum together with any gift or donation offered by any city or village desiring the location of such school shall be sufficient to purchase a building already constructed or to purchase material or labor to erect a new main building and such out-buildings as may be necessary; said sum may be all levied in one year, or the board of trustees of the county agricultural and training school created by this article may issue and sell certificates of indebtedness in an amount not to exceed said sum plus any additional amount required to pay the interest that may accrue on such certificates, which interest shall not exceed **six per cent per annum** and shall be paid annually. Such certificates shall be paid in five equal yearly payments and in case such certificates are issued and sold, it shall be the duty of the county board to levy and spread upon the tax roll a sufficient sum to pay the same as they become due together with accrued interest. [1911, ch. 265, § 1.]

See note immediately preceding this section.

See validating act, section 1471.

§ 1456. Joint maintenance by county and state. After the establishment of such a school, the maintenance thereof shall be borne jointly by such county and the state, as hereinafter provided. When satisfactory evidence of successful teaching for at least one year upon said training school certificate shall be furnished to the county superintendent, said superintendent shall remove the limitation, whereupon the training school certificate shall have the full force and effect of a teacher's certificate of the second grade for two additional years. Any school superintendent or officer authorized to grant certificates to teachers in North Dakota is hereby authorized in his discretion to accept standings obtained by the completion of studies in any county and agricultural training school in lieu of actual examination by said superintendent or examiner at any time within three years from the date of the certificate of completion of the course by the person desiring to have such standings accepted. [R. C. 1905, § 920; 1905, ch. 105, § 1.]

In estimating the value of the security, offered by any proposed depository, the capital, surplus and general credit of the bank shall be taken into consideration, as well as the bonds proposed to be given. Section 243 transfers to the board of control full power to manage, control and govern the state hospital for the insane, subject only to the limitations therein mentioned. Section 244 abolishes the board of trustees of that institution and vests the powers possessed by the board of trustees in said board of control. Section 258 makes it the duty of the board of control to appoint the superintendent, and section 269 provides for appointments and discharges by him.

Section 1755 amends and re-enacts R. C. 1905, § 1189. Amendment of the latter section was vetoed in Laws 1911, ch. 334, because it would conflict with the board of control bill passed at the same session.

He shall be the chief executive officer of the hospital and shall have the entire control of the medical, moral and dietetic treatment of the patients; he shall employ all employes and assistants necessarily connected with the institution below the grade designated as officers in section 1755, and he may discharge any such employe at will and suspend any resident officer of the hospital, except the steward, being responsible to the board for the proper exercise of that power. [R. C. 1905, § 1191; 1885, ch. 68, § 10; R. C. 1895, § 994.]

[R. C. 1905, § 1192; 1885, ch. 68, § 11; R. C. 1899, § 995.]

§ 1936. Upon filing such application and a bond executed to the supervisors of the town, or the commissioners of the county, with sufficient sureties to be approved by the justice, conditioned to pay all costs arising from such appeal (provided the determination of the supervisors or the county commissioners, as the case may be, shall be sustained) such justice shall issue a summons specifying therein a time and place for the hearing of such appeal, which summons shall be served on one or more of the supervisors (or commissioners, if a county road), at least six days before such time, and at the time and place so appointed the justice shall proceed as in other cases of trial by jury. If upon the trial it is deemed necessary by the jury, or either party in the action, that a personal examination by the jury of the road in controversy is necessary, the justice may, on motion of the jury or either party to the action, direct the jury to view and examine the highway described in the application, and consider the determination of the supervisors or commissioners in laying out, altering or discontinuing, or refusing to lay out, alter or discontinue the same, and to make return to him in writing within ten days. [R. C. 1905, § 1363; 1897, ch. 112, § 18; R. C. 1899, § 1067.]

§ 1937. Filing return. Costs, etc. The justice shall file the return of the jury in the office of the town clerk if the appeal was taken from the decision of the board of supervisors of the town, and in the office of the county auditor if the appeal was taken from the decision of the county commissioners; and if the determination of the supervisors or commissioners shall be affirmed by the jury, the party appealing shall pay all costs, but if such determination

shall be reversed or altered, or a greater amount of damages awarded, then the costs in the case shall be a charge against the town or county, as the case may be. [R. C. 1905, § 1364; 1897, ch. 112, § 19; R. C. 1899, § 1068.]

§ 1938. When appeal taken to district court. In case the amount of damages claimed exceeds one hundred dollars, appeal may be taken within thirty days to the district court of the county in which said damages are sustained, by filing in the office of the clerk of such court a bond to be approved by the judge of such district court, or the court commissioner, or the county auditor of the county, of the same nature as provided in the two preceding sections and by the service of a written or printed notice of such appeal upon the chairman of the board of supervisors or county commissioners, as the case may be, signed by the party making the appeal, or his attorney. Such appeal shall bring before the appellate court the propriety of the amount of damages and all matters referred to in such notice of appeal; unless the parties otherwise agree, the matter shall be submitted to a jury and tried as other appeal cases are tried, and the court or jury, as the case may be, shall reassess the damages aforesaid, and make the verdict conform to the justice and facts in the case; but the rule for ascertaining and fixing such judgment shall be based upon the same principles as the supervisors or commissioners were required to adopt in originally determining the same; and upon judgment being rendered the clerk of said court shall serve a certified transcript of such judgment upon the chairman on whom the notice of appeal was served as aforesaid. If the determination of the board of supervisors or commissioners appealed from be affirmed, or if the amount of damages allowed be reduced in said district court, the party appealing shall pay all costs and disbursements incurred in said court; but if the amount of damages allowed be increased, or if such determination shall be altered, modified or reversed in said district court, otherwise than as to the amount of damages, such costs and disbursements shall be paid by the town or county, as the case may be; said costs and disbursements to be taxed and adjusted as in other cases in said district court, and judgment entered therefor in like manner. [R. C. 1905, § 1365; 1897, ch. 112, § 20; R. C. 1899, § 1069.]

§ 1939. When appeal sustained. Duty of board. When an appeal shall have been taken from the determination of any board of supervisors or county commissioners, and such determination shall have been reversed or altered, the supervisors or commissioners from whose determination such appeal was taken, shall proceed to lay out, alter or discontinue such highway, in conformity with the decision of such appeal, and the proceedings thereon shall be the same as if they had originally so determined to lay out, alter or discontinue such highway. The amount of damages finally determined and awarded by the supervisors, commissioners or by the court or jury, together with all the charges of officers and other persons necessarily employed in laying out, altering or discontinuing any town or county road, shall be audited by the county commissioners or township supervisors, as the case may be, specifying the amount of charges and damages due each individual, and the respective amounts shall be certified to by said commissioners or supervisors and by them deposited with the county auditor or township clerk and paid by the county or town, as the case may be. Before any road shall be opened or used, an amount of town orders or county warrants, as the case may be, equal to the damages assessed to individuals, shall be duly issued and deposited with said county auditor or township clerk, as the case may be, for the use and benefit of said individuals, and shall be delivered to him or them on demand. The issuing and depositing of said orders or warrants shall be deemed to be sufficient security for the payment of said damages. In no case shall a town be compelled to pay any damages that may be awarded in laying out, altering or discontinuing any county road. [R. C. 1905, § 1366; 1899, ch. 97, § 21; R. C. 1899, § 1070.]

To secure the payment of taxes on bank stock or banking capital, it shall be the duty of every bank, or managing officer or officers thereof, to retain so much of any dividend or dividends belonging to such stockholders or owners as shall be necessary to pay any taxes levied upon their shares of stock or interest respectively, and the amount of such taxes shall be a lien on the dividends, the capital stock and the assets of the bank, and until it shall be made to appear to the county treasurer or to such bank or its officers that such taxes have been paid, any officer, or any such bank who shall pay over or authorize the paying over of any such dividend or a portion thereof, contrary to the provisions of this section, shall thereby become liable for such tax; and if the said tax shall not be paid, the county treasurer where said bank is located shall sell such shares or interest to pay the same, like other personal property; and in case of sale the provisions of law in regard to the transfer of stock when sold on execution shall apply to such sale. [R. C. 1905, § 1510; 1897, ch. 126, § 28; R. C. 1899, § 1205.]

§ 2118. Certain property held to belong to lessee or equitable owner. Property held under a lease for a term of years or a contract for the purchase thereof, belonging to the state (except such state lands as have been leased for pasture or grazing purposes), or to any religious, scientific or benevolent society or institution, whether incorporated or unincorporated, or to any railroad company or corporation whose property is not taxed in the same manner as other property, shall be considered for all purposes of taxation as the property of the person so holding the same. [R. C. 1905, § 1511; 1897, ch. 126, § 29; R. C. 1899, § 1206.]

§ 2119. Assessors list coal mines. When. The several assessors within the state shall list for taxation all lignite coal and minerals and all titles to coal and minerals underlying any and all lands, the ownership of which lignite coal and minerals has been severed from the ownership of the overlying strata, and assess each division of lignite coal and minerals and such title to such coal or minerals, whether known to exist or not, in the county in which it actually lies. [1911, ch. 297, § 1; 1907, ch. 214.]

§ 2120. County auditor to furnish lists to assessors. It shall be the duty of the county auditor, at the time of furnishing the assessors with books and blanks for making their assessments, to give every assessor an accurate description of all lands where the titles to the coal or minerals therein and the title or fee to the overlying strata or land are not in the same person. Such list shall accurately describe the land in which such coal or minerals reservations lie, giving the name of the holder of the title to such land; and of the holder of the reserved mineral rights thereunder; the said list shall also accurately describe, when known and when possible, the location of the

coal or minerals lying in such land and shall disclose the name of the person in whom the title to such minerals is reserved as provided herein. It shall be the duty of the register of deeds to furnish the county auditor with such information as is contained in his office, and as will enable the said auditor to prepare the lists described in sections 2119 and 2120. In determining the true and full value of real and personal property the assessor shall not adopt a lower or different standard of value because the same is to serve as a basis of taxation; nor shall he adopt as a criterion of value the price at which said property would sell at auction or at forced sale or in the aggregate with all the property in the town or district, but he shall value each article or description of property by itself and at such sum or price as he believes the same to be fairly worth in money. In assessing any tract or lot of real property the value of the land, exclusive of improvements, shall be determined; also the value of all improvements and structures thereon, and the aggregate value of the property, including all structures and other improvements, excluding the value of crops growing upon cultivated lands. In valuing any real property upon which there is a coal or other mine or stone or other quarry, the same shall be valued at such a price as such property, including the mine or quarry, would sell at a fair voluntary sale for cash. Money, whether in possession or on deposit, shall be entered in the statement at the full amount thereof. Every credit for a sum certain, payable either in money, property of any kind, labor or services, shall be valued at the full price of the same so payable; if for a specific article or a specific number or quantity of any article of property, or for a certain amount of labor, or for services of any kind, it shall be valued at the current price of such property, or for such labor or services at the place where payable.
