Minutes:

°

<u>REP. AL CARLSON, CHAIRMAN</u> Opened the hearing with one committee member absent.

ROD BACKMAN, OFFICE OF MANAGEMENT & BUDGET Stated the bill was

introduced at their request, however, they still have some work to do on the bill. They will need some amendments, so requested a delay in hearing the bill.

REP. CARLSON Granted the request in hearing the bill. The bill will be heard at a later time. **ROD BACKMAN** Explained what the bill did, stating that state law now provides a tax exemption on two pipelines in the state, it has an exemption from property tax in the five counties which the pipeline crosses. Current state law requires that the counties be reimbursed to reflect the tax which the counties have given up. It does have a fiscal impact of about three million dollars. If it were to be left in law, there would be about a million dollars added to the Page 2 House Finance and Taxation Committee Bill/Resolution Number HB 1121 Hearing Date January 10, 2001

deficiency appropriation to pay the counties in the current year, and about two million for the next biennium.

<u>REP. CARLSON</u> Recessed the hearing until a later date.

JANUARY 31, 2001 TAPE #1, SIDE A, METER #53

<u>REP. CARLSON, CHAIRMAN</u> Reopened the hearing and read the fiscal note.

ROD BACKMAN, OFFICE OF MANAGEMENT AND BUDGET, Stated that this bill

actually removed the requirement that the state reimburse local governments with tax that was for them. The purpose of the bill was to create a debate about the appropriate level of exemptions. We believe, today, that that debate is started, there are other bills in the legislature which will continue that debate. We also believe that there can very well be a study resolution introduced to study the appropriate level of exemptions in the interim. For all of those reasons, we would like to request that HB 1121 be killed.

Mr. Backman submitted a handout regarding the coal conversion tax which is in current law. See attached copy.

<u>REP. WINRICH</u> Made a motion for a DO NOT PASS.

<u>REP. DROVDAL</u> Second the motion. MOTION CARRIED.

13 Yes 0 No 2 Absent

<u>REP. GROSZ</u> Was given the floor assignment.

FISCAL NOTE

Requested by Legislative Council 01/04/2001

REVISION

Bill/Resolution No.: HB 1121

Amendment to:

1A. State fiscal effect: Identify the state fiscal effect and the fiscal effect on agency appropriations compared to funding levels and appropriations anticipated under current law.

· · · <u>م</u> مر المراجع الم	1999-2001 Biennium		2001-2003	3 Biennium	2003-2005 Biennium		
	General Fund	Other Funds	General Fund	Other Funds	General Fund	Other Funds	
Revenues		(\$2,715)		(\$6,696)		(\$5,972)	
Expenditures	(\$783,413)		(\$1,932,419)		(\$1,723,509)		
Appropriations							

1B. County, city, and school district fiscal effect: Identify the fiscal effect on the appropriate political subdivision.

1999-2001 Blennium		2001-2003 Blennium			2003-2005 Biennium			
		School			School			School
Counties	Cities	Districts	Counties	Cities	Districts	Counties	Cities	Districts
(\$216,846)		(\$499,268)	(\$534,886)		(\$1,231,528)	(\$477,061)		(\$1,098,390)

2. Narrative: Identify the aspects of the measure which cause fiscal impact and include any comments relevant to your analysis.

Because there is no effective date, this fiscal note assumes the repeal is intended to affect the 2000 taxes payable in 2001, which is consistent with the Executive Budget. The amounts shown as losses in the current biennium to other state funds (the State Medical Center), counties, and school districts will occur because the budgets and mill levies have been finalized. The amount of the losses indicated for the 2001-03 and 2003-05 biennia will be shifted to other taxpayers. The State General Fund amounts are shown as a reduction in expenditures but there is no appropriation for these payments. If this bill does not pass, an appropriation will be needed to carry out NDCC 57-06-17.2.

- 3. State fiscal effect detail: For information shown under state fiscal effect in 1A, please:
- A. Revenues: Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.
 - B. Expenditures: Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.

C. Appropriations: Explain the appropriation amounts. Provide detail, when appropriate, of the effect on the biennial appropriation for each agency and fund affected and any amounts included in the executive budget. Indicate the relationship between the amounts shown for expenditures and appropriations.

2001 TESTIMONY

HB 1121

Coal Conversion Tax

HB 11:31 Red Backman

CURRENT LAW

Imposition, Rate and Administration

The coal conversion facilities privilege tax is imposed on the operator of a coal conversion facility for the privilege of producing electricity or other products from coal conversion plants. A coal conversion facility is defined as (1) an electrical generating plant which has at least one unit with a generating capacity of 120,000 kilowatts or more of electricity, (2) a plant other than an electrical generating plant which processes or converts coal and uses or is designed to use over 500,000 tons of coal per year, or (3) a coal beneficiation plant.

The coal conversion tax is in lieu of property taxes on the plant itself, while the land on which the plant is located remains subject to property tax. The tax is paid monthly.

Electrical Generating Plants. Electrical generating plants, as defined above, are subject to two separate levies. One levy is ¼ mill times 60% of installed capacity times the number of hours in the taxable period and the other levy is ¼ mill per kwh of electricity produced for sale. Installed capacity means the rating shown on the nameplate assigned to the turbine of the power unit.

Other Coal Conversion Plants. A coal gasification plant is subject to a monthly tax measured by 7 cents per thousand cubic feet of gas produced for sale or 21/2% of gross receipts, whichever is greater. Plants converting coal to products other than gas are taxed at 21/2% of gross receipts. The tax rate for a coal beneficiation plant is 20 cents per ton of beneficiated coal produced for sale or 11/4% of gross receipts, whichever is greater.

Exemptions

Exemptions to the coal conversion tax are as follows:

- Synthetic natural gas produced in excess of 110 million cubic feet per day.
- Income from byproducts of a coal gasification plant to a maximum of 35% of gross receipts from January 1, 1997, through December 31, 2000, and to a maximum of 20% of gross receipts after December 31, 2000.

- Revenue derived from the sale and transportation of carbon dioxide for use in the enhanced recovery of oil or natural gas, retroactive to January 1, 1997.
- Beneficiated coal produced in excess of 80% of plant design capacity.
- A new coal-burning electrical generating plant is exempt from the State General Fund portion of both levies for five years. The county may grant an exemption for up to five years from the county's 35% share of the levy on installed capacity.
- All new coal conversion plants other than electrical generating plants are exempt from the State General Fund portion (65%) of the tax for five years. The county may grant a partial or complete exemption from the county's 35% share for up to five years.

Distribution of Revenue

Electrical Generating Plants. The revenue from the ¼ mill levy on production is deposited in the State General Fund. The revenue from the ¼ mill levy on installed capacity is distributed as follows:

- 65% to the State General Fund.
- 35% to the county in which the plant is located. The amount distributed to each county is apportioned as follows: 40% is deposited in the county general fund; 30% is divided among all incorporated cities in the county according to population; and 30% is divided among all school districts in the county on the basis of average daily membership.

Other Coal Conversion Plants. The revenue is distributed as follows:

- 65% to the State General Fund.
- 35% to the county in which the plant is located. The amount distributed to each county is apportioned as follows: 40% is deposited in the county general fund; 30% is divided among all incorporated cities in the county according to population; and 30% is divided among all school districts in the county on the basis of average daily membership.
