Committee Clerk Signature 			

Minutes:

Senator Nething opened hearing for Department of Corrections.

Elaine Little, Director of Corrections and Rehabilitation (DOCR), introduced members of her staff present for the hearing and in support of this bill. The increase to the budget is due to a population increase of inmates and offenders (charts attached). Major increase is due to more arrival of inmates than releases where in the past this was averaged out. The count of inmates as of 12/21/00 is 1,076. She explained the sentence lengths and reasons over years (chart attached). There is an increase in violent offenders and sex offenders has stayed same. Drug and DUI offenders has increased. Sentences violent crimes 10 years, sex offenders 11 years and drug offenders 5 years. Explaining graph (attached) showing inmate arrivals, release and net gain/losses; the crime types, with drug offenses increasing; parole reviews, granting fewer releases down 19% with probation population increasing to 100%. There are 3,265 paroled at this time.

Page 2

Senate Appropriations Committee

Bill/Resolution Number 2016

Hearing Date January 16, 2001

Senator Robinson: Looking at graph and percent paroled; does the reduction attribute to mixed crimes/sentencing to change population?

Elaine Little: Part of it; the Parole Board is more conservative, we have tougher inmates.

Senator Tomac: Can you provide a gender balance; is it constant where it is at?

Elaine Little: Female is constant at 60 to 70 last five years; had fewer previous years.

Senator Holmberg: What is your idea of the rationale rate compared past years?

Elaine Little: There were two primary groups years back; today it has changed with 19% native American, Hispanic 10% and black 5%.

Senator Holmberg: With population of the state; native American higher?

Elaine Little: No.

Senator Andrist: Have you experienced with electronic monitoring instead of incarceration?

Elaine Little: We have pulled back using them; they are not fool proof; with the ankle bracelet, violations can still be committed; not very effective in ND.

Senator Nething: Is the population of ND too small for these electric systems?

Elaine Little: Yes, they are more effective in the larger states.

Senator Robinson: Are your projections that inmate count will continue to rise?

Elaine Little: Projections are a 7% increase per year with inmates; the new biennium we are projecting a 10-15% increase which we were hoping would be more stable.

Senator Robinson: How many beds are outside the prison are those projections?

Elaine Little: We have placed 130 outside, 50 jails and 80 private prisons until the addition to 5th and 6th floors at the JRCC are completed, projection by July 1, 2001.

Senator Grindberg: Are you still transferring Federal inmates to ND?

Page 3
Senate Appropriations Committee
Bill/Resolution Number 2016
Hearing Date January 16, 2001

Elaine Little: We are no longer housing Federal inmates but are still participating in the exchange program.

Senator Holmberg: Some 20 years ago there was an issue that county jails could not house inmate for over a year; is that still true?

Elaine Little: Yes, no longer than a year; more than 50 inmates have 15-18 month sentences; once we had a prisoner who was only serving a 30 day sentence.

Senator Heitkamp: With economic times being good, shouldn't the prison count down?

Elaine Little: That is an interesting question; this does not seem to make a difference with the prison count as most prisoners money in the first place; 85% with addition problems and 25% without GED; economics has not changed the count.

Senator Heitkamp: Are you still using private companies to transfer prisoners?

Elaine Little: Recently we either use our own staff or US Marshall service.

Senator Robinson: In the course of the last number of years, with the mixture of criminals, have you noticed a change in the moral with the staff?

Elaine Little: In Bismarck there is a mixture in the types of inmate; we have more gang related around 70 to 100 inmates and this has affected management; also more mentally ill inmates.

Senator Bowman: With repeat offenders, could rehabilitation with drug users verses drug dealers make a difference

Elaine Little: This is complex; most drug users are dealers as well to support their own habit.

Senator Tomac: With increase of mentally ill, where are most of them coming from; what type of illnesses are there?

Elaine Little: Across the board, the types vary; change in communities and treatment is complex.

Senator Tomac In the past decade, people have been deinstitutionalized does this explain some mental illnesses or is it part of birth disorders? Can this be categorized?

Elaine Little: We really can't categorize it at this time; needs further studying.

Tape 1, Side A, meter 33.5

Denny Fracassi, Director Rough Rider Industries, (testimony attached), gave an overview on Rough Rider Industries. We currently have 160 inmates working each day in the industry program. This save state taxpayers several hundred thousand dollars each year. We are requesting an increase of \$3,222,616 for our budget. Approximately \$1.7 million is targeted for raw materials in anticipation of a new general issue of license plates. Some of the remaining \$1.5 million will be used to cover additional labor and overhead but the majority of these dollars is targeted toward relationships with private sector. We have done business with over 70 North Dakota businesses reaching sales of \$1.7 million and additional work for 50-60 inmates. The Prison Industry Enhancement Program (PIE) has enabled us to find common grounds for our presence with the private sector in a non-threatening manor. In this program inmates are paid minimum wages and agree to deductions of up to 80% of their gross earnings for taxes; a 5% deduction to victims reparations fund, deduction for fines, restitution, child support and institutional costs that are used to help defray the cost of incarceration. For the eighteen months ending December 31, 2000, a total of \$310,193 has been paid to inmates in the PIE Program.

Senator Nething: A couple of years ago, we looked at a PIE Program in Utah. How is that program and did we learn anything from their program?

Denny Fracassi: Utah's PIE Program had telemarketing which failed; we are currently looking at cut and sew operations in Jamestown and are currently working with three different private sector partners.

Page 5

Senate Appropriations Committee

Bill/Resolution Number 2016

Hearing Date January 16, 2001

Senator Bowman: Looking at the native American population today; is there a lack of understanding their culture in prisons?

Denny Fracassi: Their in cultural training at the prisons.

Senator Robinson: Are there other programs making products besides the cut and sew in Jamestown?

Denny Fracassi: Bismarck there is furniture, license plates, sign shop, etc. We are working much better with private sector today and it is not our intent to take jobs away from them.

Senator Holmberg: There are areas where people lack training in technology today; could there be any type of technology component to utilize with the inmates?

Denny Fracassi: Not right now; there a problems with inmates skill resources.

Senator Holmberg: It would be a good idea to look at.

Senator Thane: Is there any involvement with females at RRI?

Denny Fracassi: Yes, we have a coed shop in Jamestown which was designed with this in mind as security is good.

Senator Heitkamp: What about Irwin Jacobs?

Denny Fracassi: With World's Greatest Deals, we had a transportation problem and issues with the company; they decided to locate in Nevada instead of North Dakota.

Senator Heitkamp: DOT license costs are \$5.00 per vehicle; how much does it cost RRI to make?

Denny Fracassi: \$2.99 to DOT for a pair of plates; increase about 6-8 cents.

Senator Nething: How are the mailings done for the plates?

Denny Fracassi: DOT delivers to different districts; they want it in-house.

Page 6

Senate Appropriations Committee

Bill/Resolution Number 2016

Hearing Date January 16, 2001

Tape #1, start Side B, meter 0.0

Tim Schuetzle, Prisons Division Director, (testimony attached), stated the state prison consists of three divisions, ND State Penitentiary, Missouri River Correctional Center in Bismarek and James River Correctional Center in Jamestown. We currently have a population of 1,069 inmates and 180 in county jails. Current budget forecast is for an increase in medical costs. There was a delay with the Federal Government in providing funding from the crime bill which pushed back construction of the 5th and 6th floors at JRCC. We completed two capital projects in 1999-2000. It is more difficult to attract and retain workers at the three facilities. We have had to increase salaries for our exiting nurses, clerical personnel and addiction counselors to bring equity with what more recent hires were making as well as starting wages for new correctional officers. Our 2001-2003 governor's budget for the Prisons Division includes a \$13.2 million increase over last biennium.

Senator Solberg: Looking at line item C; explain deploying federal funds and why.

Tim Schuetzle: This is a problem which included requirements to release money and was an environmental impact shifting of funds from the Justice Department.

Senator Bowman: Increase in salaries; some raised, others base line?

Tim Schuetzle: Correct because of pay inequities; increase is needed, can't hire because of current pay.

Senator Thane: Hepatitis treatment; cost effective; vaccination program.

Tim Schuetzle: There are three forms of hepatitis; Hepatitis B can be vaccinated; was requested as a priority and is not funded in executive budget; would be cost effective. Hepatitis is a concern at the prison. Some prisoners will even pay out of their pockets for the vaccination others refuse vaccination.

Senator Thane: Why is this denied in the budget?

Tim Schuetzle: There are items considered higher priority; no reason why.

Senator Robinson: Are Chapel services provided at the prison? Is this provided by the state?

Tim Schuetzle: We have a work agreement with churches; it is not funded. Contract money is used and is not part of budget.

Tim Schuetzle: The MRCC Food Service/Multi-purpose Building \$1.983 million and women's unit at the JRCC \$3.7 million.

Senator Bowman: Do all women go to JRCC?

Tim Schuetzle: Yes, medium and security women.

Senator Robinson: Is the women's facility filling right away; will there be a need for expansion in later plans and not to remodel?

Tim Schuetzle: Yes it is filling up right away; it holds 50-75 and we now have 65 women; women prisoners has been steady for the last five years; we are able to expand to other building which is now occupied by the State Hospital.

Senator Solberg: Why are you not using 80 beds in women's building now?

Tim Schuetzle: Unfortunately because of a lawsuit in 1993; require main custody area and this is the same for men. Still a court ruling on women custody.

Senator Solberg: Maximum verses minimum?

Tim Schuetzle: Depends on ward size; mostly minimum units that are separated.

Tape 1, Side B, meter 35.0

Tim Schuetzle: Serious Mentally Ill Unit (SMI) an increase of \$2.349 million due to additional staff that are trained in this area to treat these inmate efficiently.

Senator Bowman: I'm confused; first these people were at the State Hospital then to the communities and now at the prison with the need of a new facility. Why not house them at the State Hospital?

Tim Schuetzle: The main difference as they have now committed a crime and they are now our problem. The building was built to handle illnesses which the JRCC now has and there is no space to take back.

Senator Bowman: Evidently this is not working; we need to change the system to control the environment.

Tim Schuetzle: This is true; some do go on to commit crimes so do not.

Senator Robinson: Is the issue to what extent are they moving from system to system and the process and the numbers to meet the concern?

Tim Schuetzle: Yes we are seeing this at the prison and it is at a crisis point with the mentally ill.

Senator Nething: I think this is a problem across the country.

Senator Andrist: Why provide the space and security at the prison and not contract it out with the State Hospital?

Tim Schuetzle: No competition; it benefits our staff more than the State Hospital; we could pay the State Hospital but you have to look at the time and what their priorities are.

Senator Tomac: Is the pharmacist contracted?

Tim Schuetzle: Not contracted; is a full time worker at the prison mainly for SMI facility.

Senator Tomac: The SMI Unit; it is a 24 bed unit, approximately 1/3 population under prison control; is it large enough for this population.

Tim Schuetzle: We assume so; flexibility for complete treatment; transporting back and forth to other locations.

Tim Schuetzle: External housing of inmates \$639,784 (attached testimony Section II, d.)

Tape 1, end Side B, meter 50.5

Tape 2, Side A, meter 0.0

Senator Heitkamp: On population growth; a lot of inmates don't need to be incarcerated; is this looked at?

Tim Schuetzle: Some maybe don't need to be, but which ones. Per Parole Board biggest reason of sentences now are the drug offenders.

Senator Heitkamp: Drugs are prevalent to society; change is costing money and maybe doesn't need to; are we doing the right thing?

Elaine Little: This is a shady area; research on drug rehab, the need to be there. Research show minimum custody goes up the longer the incarceration.

Tim Schuetzle: Increased medical expenses \$808,480 (attached Part II, e.); Correctional Officers starting salaries \$222,528 (attached Part II, f.); Additional positions, capital improvements \$403,000 NDSP parking lot and \$439,688 equipment. (attached Part II, g.). Future concerns (attached Part III, a., b., c., d.)

Warren Emmer, Director, Department of Corrections and Rehabilitation, appeared in support of the budget (testimony attached).

Senator Heitkamp: With past knowledge and introduction of methamphetamine; is it as bad as it looks? Is money in the right place for it?

Warren Emmer: Gave a past example of the problem; the abuse of drugs is a big problem with addiction and the right treatment which is not cheap or a short program.

Senator Bowman: The drug issue, it doesn't mean they are violent offenders but isn't the seller the violator; can we separate between the two?

Warren Emmer: Depends on the definition of the drug seller/user, there is a gray area; courts could fair it out.

Warren Emmer: Needs for 2001-2003 (see attached IV).

Senator Grindberg: How many are pre released?

Warren Emmer: Population studies; 50 moved on age, some long term, some not. There are different categories. Special request to allow to continue operations as a performance based budget. Crime Victims Reparations more are applying for exceeding budget by \$200,000. Need special funding authority to resolve.

Senator Robinson: What does CPI stand for?

Warren Emmer: Community Placed Inmates.

Tape 2, Side B, meter 38.6

Al Lick, Director Division of Juvenile Services, appeared in support of this budget (testimony attached).

Tape 2, end Side B, meter 54.4

Senator Tallackson: Where are all your regional offices?

Al Lick: In all the cities who have human service offices. The staff is there depending on the kids. Case load depends on location.

Darrell Nitschke, Superintendent ND Youth Correctional Center, appeared in support of this budget (testimony attached).

Senator Holmberg: Built in salaries for teachers; is this margin the same pay as other school teachers?

Page 11
Senate Appropriations Committee
Bill/Resolution Number 2016
Hearing Date January 16, 2001

Darrell Nitschke: Yes. He now introduced his staff appearing in support of the bill that were attending the hearing.

Senator Holmberg: Is this the state market?

Dr. Rydell: Yes.

Senator Schobinger: Reviewing the budget what is the reason for dropping the special funds?

Darrell Nitschke: Last biennium they were for capital funding and we no longer have capital improvement except that proposed.

Senator Bowman: The new facility built last Summer, was this within the budget?

Darrell Nitschke: Yes and it was occupied January 2, 2001 within the budget.

Elaine Little: Spoke on areas not covered (testimony attached) on the budget.

Tape #2, Side B, meter 24.1

Senator Solberg: On your technology plan, are you sticking close, are there any additions, does each division have a separate plan?

Elaine Little: Technology changes as our needs change; all in one plan, nothing eliminated or added.

Senator Solberg: Are the plans in the budget as is.

Elaine Little: Priority list on funding.

Hearing closed. Tape #2, Side B, meter 26.0

Page 2, replace lines 28 through 31 with:

"SECTION 4. AUTHORITY TO LEASE LAND UNDER THE JURISDICTION OF THE DEPARTMENT. The department of corrections and rehabilitation may lease land under the jurisdiction of the department for the purpose of the construction and operation of a prerelease center. Subsection 12 of section 54-23.3-04 does not apply to the lease authorized by this section. The lease expires when the leased property is no longer used for a prerelease center, when the lease operator breaches any material part of the lease, or twenty years after the date of the lease, whichever occurs first, and all rights, title, and interest in any buildings, fixtures, and improvements vest and remain with the state.

SECTION 5. CORRECTIONAL SYSTEM - LEGISLATIVE COUNCIL STUDY. During the 2001-02 Interim, the legislative council shall consider studying the correctional system in North Dakota, including its functions, responsibilities, and funding; causes for increases in the state's inmate population; types of offenders and offender programs; cost-effectiveness of programs; operation, efficiency, and effectiveness of prison industries programs; rates of recidivism; possible alternatives to incarceration which may reduce the number of inmates and reduce recidivism; and the effectiveness of sentencing laws, incarceration, and treatment. The legislative council shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the fifty-eighth legislative assembly."

This amendment replaces Section 4 of the bill with two new sections, as follows:

- Section 4, which authorizes the department to lease Penitentiary land to a private entity for the purpose of constructing a building to be used by the private entity for the operation of a "prerelease" center. The department will contract with the private entity to house and provide treatment services for up to 50 inmates who are within six months of release.
- Section 5, which directs the Legislative Council to consider a comprehensive study of the state's correctional system during the 2001-02 interim.

Senate Bill No. 2016 - DOCR - Central Office - Senate Action

Minutes:

HOUSE APPROPRIATIONS COMMITTEE OVERVIEW MEETING ON SB2016.

Rep. Timm: House Appropriations Committee was called to order and the roll was taken. This is an overview meeting on the Department of Corrections and Rehabilitation.

Elaine Little, Director of Corrections. (Followed Written Testimony) and then questions and answer period. (Tape # 104 through 2503) Tape 1, Side A

Mr. Warren Emmer, Director Field Services. (Followed Written Testimony) and then questions and answer period. (Tape # 2503 through 5588) Tape 1, Side A.

Mr. Tim Schuetzle, Prisons Division Director. (Followed Written Testimony) and then questions and answer period. (Tape # 0 through 3466) Tape 1, Side B.

Minutes: CHAIRMAN KEN SVEDJAN, VICE-CHAIRMAN JEFF DELZER,
REP. KEITH KEMPENICH, REP. JAMES KERZMAN,
REP. AMY KLINISKE, REP. JOHN M. WARNER

00-Chairman Svedjan: We will call this section to order.

Roll call: We have a quorum. We have SB 2016 before us today. We'll start with a detailed
Over View for the Department of Corrections.

228-Elaine Little: Director of Department of Corrections of Central Office: (attachment #1)

370-FTE's: 451-Salaries and Wages- 1.3 million dollars. \$933,877 is for the 8 current FTE's
salaries. 2 new FTE's. 608- We pay out 10% on sick leave. There's no maximum with sick leave.
Sick leave is accumulated by 8 hours per month.

1103-Vice-Chairman Delzer: Dave, (OMB), why did OMB not, when they made these direct
adjustments, lower that 5.4 by an equal amount?

Page 2

Human Resources Division

Bill/Resolution Number SB 2016

Hearing :MONDAY, MARCH 5, 2001

1120-Dave Krabbenhoft: Fiscal Management: I think the 5.4 is the way the process went. If we wouldn't have put that extra money into the budgets directing the ones that did have it, that 5.4 wouldn't have been higher. The amount of money that we decided to go to those issues, and those severe cases we addressed a portion of the problem in those budgets.

1158-Vice-Chairman Delzer: Was this same thing done last time and we didn't catch it, cause' there was 5.4 million two years ago too for these pay grade adjustments? The Highway Department is the only one I remember hearing of.

1283-Chairman Svedjan: Did someone go over all the Senate amendments to 2016 as part of the overview?

1296-Elaine Little: Director of Department of Corrections of Central Office: No, we haven't done that.

1298-Chairman Svedjan: OK, then we'll take them up as we go.

1304-Elaine: (refer to attachment #1) I'll go over a brief overview on the \$125,000, and how we arrived at asking for a million and a half dollars for equity adjustments. (Discussion, questions and answers follow.) **1950-** Computer, ITD, costs. **2624-** New FTE's and their duties, costs out of operating expenses, pay grade levels. **2907-Operating expenses, Data Processing, Telecommunications, costs: total of \$24,506. Travel: total of \$42,840. Management and Technology: total of \$14,508. Travel for out of State: ? 3816-** Computer requirements and needs. **4137-Information Technology/contractual Services: \$4,000. 4163- Dues and Professional Development: \$21,600.**

4203-Vice-Chairman Delzer: Back up on your contractual, how much of that is Novell support cost? **4289-** The reason I ask that is should that not be in your up grade? Should that not be part

Page 3

Human Resources Division

Bill/Resolution Number SB 2016

Hearing :MONDAY, MARCH 5, 2001

of the cost of the upgrading? Why are you paying for support on the Novell on top of your upgrade?

4315-Elaine: We'll have our information person come before the committee and answer all of our information technology questions.

4347-Vice-Chairman Delzer: In Dues and professional development, you said \$11,600 of that is due to Information Technology?

4362-Bev Johnson: Fiscal Director for the Department of Corrections: For staff training and new positions, also some training costs.

4507-Elaine: Operating Fees and Services: \$20,000. 4617- Professional Supplies and Materials: \$6,000. 4655- Other expenses: \$21,650. 4667- Postage: \$2660. Repairs: \$800. Office supplies: \$5400. Printing: \$4700. Misc. Supplies and Equipment: \$1,100. Equipment: \$80,850. Discussion and questions follow.

5628-Chairman Svedjan: We will proceed with **Juvenile Services**.

5640-Al Llok: Director of the Division of Juvenile Services: Explained and discussed this budget on FTE's, benefits, costs.

Tape 1, side B-00-Al: Explains about the CC Whip system, computers, ports, hook ups, 800-travel, mileage, transportation, trackers. There was a bill introduced on the Senate side, SB #2220, which allowed for reimbursement of travel: 51 cents for a rider, and also meals and lodging. There was a fiscal note attached to that of \$205,000. Discussion. **1405-** Also HB #1197 (**HB #1196?**), that would increase that per diem rate for mileage from .25 to .31. **2108-** Fiscal note: \$192,000. **3138-** What's double appropriated is the \$36,000. **3862-** Does not match the Juvenile Community Services. **4288-** Trackers. **4939-** Programs. **6170-** Pay centers.

Page 4

Human Resources Division

Bill/Resolution Number SB 2016

Hearing :MONDAY, MARCH 5, 2001

Tape 2, side A-00-A1: Discussion on Day treatment programs, federal funds, JAIBG dollars.

549-Carl Perkins money. **700-** Voc Rehab money. Doubling up? **1660-** JJB dollars. **2334-**

Grants. 2376- OJJDP money: Office of Juvenile Justice and Delinquency Prevention. **2643-**

JAIBG money: Juvenile Accountability and Incentive Block Grant. **2969-** Clarify the 2nd to the page in testimony on grants.

3214-Chairman Svedjan: We can proceed now with the **Youth Correction Center.**

3304-A1: Explains about the teachers, pay grades, classification, school schedules, OAR's, 9 and 12 month levels, benefits.

4437-Chairman Svedjan: Requested a list of all the OAR's. **4577-** Rates and audit. **4907-**

Estimated income adjusted. **5001-** Revenue. **5261-** Over projecting the budget. **5509-** Bureau of Prison Kids. **5891-** Divisions falling under the same line items and moving between lines. **6075-** Operating costs under all the divisions.

Tape 2, side A-34-Chairman Svedjan: Thank you Al. **Youth Correctional budget:**

56-Darrell Nitschke: Superintendent of ND Youth Correctional Center: (refer to attachment #5) Went over the budget. **209-** Auxiliary services. **698-** Temporary dollars. **1230-** Operating services and costs. **1904-** Emergency commission. **2062-** Sup plantation this time. **3355-** Fire Suppression. **4488-** State Law in 97'.

4548-Chairman Svedjan: Q? We will conclude for today. We'll take up Field Services on Tuesday.

Minutes: The section was called to order. Roll call, there was a quorum. (refer to attachment #1 which shows the divisions within this budget.) Yesterday we looked at Central Office and everything in the middle box under Juvenile Services. With the Youth Correctional Center, there are 4 area's within Juvenile Services that comprise it and then there's the Juvenile Community Services portion. Today we'll be working on the **Field Services Division**. There are 3 sections that deal with Parole that are all part of this Field Services Division and then the remainder of that, Adult Services area is the Prison's Security.

126-Warren Emmer: Director of the Department of Corrections Field Services Division:

Overview of budget. (refer to attachment #1) 285- Total budget on Field Services. 360- IOSP- Institutional Offender Services program. COSP- Community Offender Services program. VSP- Victim Services program. 493- FTE's. 866-Special lines. 902- Hire without Legislative authority. 973-Operating line, Community Offender Services line in the bill. 1148- OAR's, #28. 1171-

Page 2

Human Resources Division

Bill/Resolution Number SB 2016

Hearing Date: TUESDAY, MARCH 6, 2001

Operating base budget, it was increased by \$158,299. 1312- Rent. 1632- TRCU. 1761- Last Chance program. 2049- Chairman Svedjan asked if \$30,000 can be removed from Temporary OT line. 2170- Operating costs for the Drug Court and what it does for the system. 2318- Has the Drug Court passed yet. Fiscal note on HB 1218, Burleigh/ Morton Pilot Drug Court program. 2597- Rep. Delzer asks when this program started up? And how was it started? Authority? 2633- Mr. Emmer states that it's in the Cost program. You didn't give us authority for the Drug Court. We reallocated temporarily the ISP Officer. 2914- Rep. Delzer states that they had to catch it, otherwise it would have slipped through. 3071- Chairman Svedjan states that transferring positions from one program to another where the programs are existing is one thing, but transferring positions to a newly created program is another. And this is another example of what we saw in the Human Services also, where we termed it CREEP AGE. 3281- Elaine Little explains the history on the Drug Court program. 3420- New program started. 3612- 2 years ago we talked about the Drug Court program. 3667- Rep. Kliniske asks about the difference between Juvenile Drug Court and the Adult Drug Court, that they didn't ask for an additional FTE to do the Juvenile Drug Court? 4414- FTE. The supreme Court recommended it be in there budget. 4545- Grants. \$30,000. 4904- savings? 5601- Subjective and the number was 10% growth. 5975- Community Offenders Services program.

Tape 1, side B-00- Continued. 456- Fiscal impact coming in from the Interstate Compact. 560- HB #1270 Interstate Compact Bill. 638- Equipment, doesn't come out right. 715- Buying some computers. 748- Chairman Svedjan states that the testimony says that you're reducing it by \$41,500, and it shows only by about \$30,000. 796- Zeroed out the computer replacement, yet you're going to buy 22? 876- OAR's. 1213- Training of employees. 1470- ISOP. 1645- Pre release program. 1917- MRC. 2137- DUI program. 2504- Chairman Svedjan asks if the 2.1

Page 3

Human Resources Division

Bill/Resolution Number SB 2016

Hearing Date: TUESDAY, MARCH 6, 2001

million goes back to them to off set the cost for utilizing existing FTE's? **2531-** Mr. Emmer replies: Office management budgeted was to drag \$2.1 million out of their budget and so they reduced their request by \$2.1 million, drug it over, dropped it in our program, in general funds and then increased their Special fund line by the corresponding number. It comes to \$117.00 per day. **3012-** Rep. Delzer asks about probation. **3500-** Who's going to pay for them the 30 days up front and 30 days behind? The counties have to assume that. **3568-** The 2.139 million was taken out of the State Hospital budget. What constituted that in the State Hospital budget? **3840-** Special fund authority? Transfer of dollars. **3960-** Rep. Delzer states that the testimony from Alex, they're using 21 beds and then they want to add 25. I think the FTE is an empty one that they're going to fill.??? **4198-** Rep. Kliniske states that the confusing thing is that it appears as though that there are decreases in the budget, but there are actually general fund increases in the budget that are just disguised as special funds. **4276-** Dave from OMB explains. **4620-** Locked wing. **4730-** Not enough clientele. **4855-** Cost is \$55.00 a day to \$117.00 per day. **5230-** \$21,000 decrease, the Governor put 5 back in. **5849-** Burden of proof.

Tape 2, side A-00- Last Chance program. The new FTE's. **449-** Rep. Delzer states that if you had 1-1/2 persons before and it's doing the same thing, you have \$40,000 less on Salary, but your operating only goes down \$1,000? **467-** Mr. Emmer explains. **531-** Travel goes up by \$3,000. **600-** Grants. **716-** Comes from fees, supervision and #372, Crime Victims Special fund. **800-** All money we distribute to the sub grantees. **911-** Out of that \$2.9 million, how much goes to Domestic Violence? Three different groups. **1065-** VOCA money, all federal. **1344-** Costs. **1775-** Rehabilitated effect. **1920-** The treatment cost. **2027-** Where does the \$46.00 dollars a day come in relative to the \$23.41 per day? **2083-** actual treatment costs and time frame. **2275-** Recidivism rates. **2600-** Rep. Delzer asks, when you look at the bill, all the Adult services are

Page 4

Human Resources Division

Bill/Resolution Number SB 2016

Hearing Date: TUESDAY, MARCH 6, 2001

together in one line item? **2621-** Dave, OMB explains. **2708-** Mr. Emmer states that in HB # 1026, they're asking for special fund authority of \$250,000 to pay medical bills. **2940-** additions. **2990-** We will conclude now. We'll go to **Prison's Division, which is comprised of Programs, Security and Roughrider Industries.**

3177- Tim Schuetzle, Warden, Prisons Division Director: (attachment #4) Explains and discusses highlights. **4150-** Costs of geriatrics and medical costs. **4720-** Medicaid. **5055-** Office of management did an analysis by a private provider. **5707-** The fifth and sixth floor. **6075-** We will adjourn until 15 min. after the floor session.

Tape 2, side B-00- Called the section back to order. Tim continues about the population of inmates, and FTE's. (Page 2 of testimony.) (attachment #4) **405-** Chairman Svedjan asks, with the adjustments to Salary, did you roll up dollars for positions that weren't filled? Yes. **503-** The Prisons Division budget is coming in at \$57.7 million, 13.2 million above and beyond of what was funded in the 99'-01' biennium. **534-** Reasons. **1219-** Privacy issues. **1510-** costs. **1641-** The new Women's unit. **2643-** Pregnant inmate issue. **3500-** OAR- #11. Lock down unit with 25 beds already. Not secure. **3843-** Total FTE's for this is 28. **3970-** \$123,000 total remodeling cost. Staff costs. **4106-** External housing. **4352-** SM'. **5306-** Beds: transitional and permanent.

5667- Central personal. **5865-** Rep. Delzer asks, how much of the 5.4 mid point range adjustment that's in the OMB budget is Corrections expected to receive? **5899-** Dave, OMB answers, that would be determined by Central Personal after the agencies submit their requests to do that.

6098- Decrease the 5.4?

Tape 3, side A-00- Continued. OAR's. **79-** \$222,000? **160-** Compression, wages, and grades. FTE's. **450-** Chairman Svedjan states that all of these were in front of us last time. Tim concludes his testimony. Q?

Page 5

Human Resources Division

Bill/Resolution Number SB 2016

Hearing Date: TUESDAY, MARCH 6, 2001

1184-Dennis Fracassi: Director of Rough Rider Industries: (see attachment #6) 1295- Of

your \$10 million budget of special funds, how much is generated by selling to state agencies?

About 55% of all sales goes to state agencies. 1473- License plate. 1550- If we don't fund that,

then we need to take out the whole 3.2 million here. 1603- PIE- Prison Industry Enhancement

program. 2360-Inmate wages. 2859- FTE's. This concludes this section for now. We will close

this section.

Minutes: CHAIRMAN KEN SVEDJAN, VICE-CHAIRMAN JEFF DELZER,
REP. KEITH KEMPENICH, REP. JAMES KERZMAN,
REP. AMY KLINISKE, REP. JOHN M. WARNER

888-Chairman Svedjan: We will call this session to order.

Roll call: We have a quorum. We concluded the over view of the DOCR yesterday, so now we will get into working the detail.

1150-Elaine Little: Explains attachment #1, the spin down for the Central Administration of DOCR, the FTE's. The \$93,000 shows up in the appropriated budget, \$768,816, because we moved the history of the funding for the position from Prisons Division and Central Office. It's not in the projections to the end of the current biennium.

1431- Vice-Chairman Delzer: If I'm not mistaken that was also some of the contracting funds down on \$36,000 to contracting funds with the Association of Counties, is also doing the same job and that money is still in there?

1463-Elaine Little: We had originally requested 3 new positions in our IT budget. Only 2 were funded. One will go to ICC, and the other would be for MRCC, JRCC, and Field Services on the adult side. We will continue to need to contract with the Association of Counties for the division of Juvenile Services with just two positions.

1736-Chairman Svedjan: On this \$36,000, I have it in my notes that that is double appropriated.

1752-Dave: There was some confusion here. We left the contract with the Association of Counties intact.

1811-Chairman Svedjan: The contracting amount is \$83,675. \$36,000 for the counties and that was all federal money and then \$47,000 for IT contract maintenance.

1855-Al: For the next two years in our budget, there's \$36,000 for contract with the Association of Counties to help us maintain the system and then there's another in another line item, there's \$4,800 for the travel to do that. So right off the top it's \$40,800. And then there are other things in that same line item that equal the \$84,000 that you're talking about. We'll get to those in our budget.

1917-Chairman Svedjan: We'll need to address this when we get into YCC.

1936-Elaine Little: The dollars are reflected in the Division's budget. The Central Office budget we just have dollars for those two new positions. And then the contract dollars which will continue for the division of Juvenile Services, are in the DJS budget.

1975-Vice-Chairman Delzer: I'm uncomfortable with the two new FTE's.

2060-Elaine: I should remind you that currently we have a part time which often gets close to full time position at the Youth Correctional Center in Temporary Intern, and one of these positions would replace that position, so the other position would help with the Prison's Division in Field Services. Without that Intern, we really would need to place one position in YCC, and then we still wouldn't have any additional help for any of the Prison's Division. She explains how they're funding the Intern now, and about the teachers, and wages.

2348-David Hunke: Information Systems Administrator for the DOC: The Intern works about 25-30 hours a week. She does all of the maintenance and repairing equipment and keeping the PC's up and running and want to expand it more.

2385-Chairman Svedjan: I'm still not clear on that money that we said yesterday would double appropriate it.

2414-Dave: Explains about the contracts with the Association of Counties, testimony, and the executive budget.

2856-Elaine: States that on the Adult side, we need information technology help. Explains the importance and necessity of computers.

2950-Chairman Svedjan: On OAR #27, tell me what the right numbers are there.

3011-Dave: 150,765 (can't hear) totals \$171,735.

DISCUSSION ON OAR's, temporary staff:

3875-Vice-Chairman Delzer: When I look through the rest of your temporary's, I don't see anything going down. This is just basically an addition. Granted it puts it in here where you might want to use a little bit of temp. here, but it is just an enhancement to your budget.

3913-Elaine: It would be an enhancement if you would not consider that we transfer dollars that the emergency commission approved.

3936-Vice-Chairman Delzer: That money is still back there. You transferred it, but I look at the rest of these sheets, I don't see any place where your temp. is going down.

3989-Chairman Svedjan: You've indicated that you're looking at an impending retirement, but not exactly sure when. But it's that \$12,000 that would compensate the individual for crude leave. Do you pay also for crude sick time?

4022-Elaine: Under the Law, we need to pay for 10% of the crude sick leave. That \$12,000 is an accurate reflection of what's accrued.

4068-Vice-Chairman Delzer: I'd like to go through that \$125,000 again, salary equity. Is this going to people in Central Office?

4135-Elaine: No. Almost \$60,000 of it goes to the State Penitentiary employees. \$1,500 to JRCC, most of the employees are still fairly new. \$21,000 to Field Services, \$10,700 to DJS Community and \$13,848 to YCC. Total salary of \$107,000, benefits of \$18,000 equals \$125,000. None if it goes to Central Office.

4222-Vice-Chairman Delzer: But then your 222, some of that's going to the same place? For the Correctional Officers.

4251-Elaine: It wouldn't be used for the same purpose. The 222 is specifically to increase the beginning salary dollars for correctional employees. This would be because we have compression from raising the bottom. This \$125,000 was actually 1.5 million dollar request.

4356-Vice-Chairman Delzer: I want to point out that 5.4 in this current biennium, the DOCR received \$557,000.

5155-Chairman Svedjan: Discussion and questions on OAR's.

Tape 1, side B-00-Chairman Svedjan: Q? Discussion on ITD Processing and IT Telephone, ports, terminals, T1 line, PC's, unit charge and usage time. 790- Q? Travel: Travel is up due to

Page 5

Human Resources Division

Bill/Resolution Number SB 2016

Hearing Date: WEDNESDAY, MARCH 7, 2001

the 2 new positions. And also a small increase for a trainer. **IT Software and Supplies:**

Doubled, separate servers, the going rates, cost. **1532- On Postage: 1548- IT Contractual:**

increase, it's doubled. **1767- Lease Equipment:** You're doubling this too. Maintenance

agreement for copier. **1831-Lease/ Rent-Buildings and Land:** \$100.00 is for our Trainer to rent

a room. **1863-Dues and Professional:** (in attachment #1)

1878-Vice-Chairman Delzer: Why is the technology in that line? There's \$10,245 listed in that line.

1943-Elaine: Most of those are conference registration and fees for training, seminars and classes.

1994-Chairman Svedjan: Let's go to **Operating Fees and Services:** There's also training costs in here. Why would you not put all of your training in one line?

2106-Elaine: We tried based on the object code, there's travel and there's travel for a trainer.

2136-Chairman Svedjan: Q? **Repairs: Q?** **2157-Professional Services:** Is that where you retained a health professional?

2174-Elaine: Primarily that is advertising when we have a vacancy. **2187-Insurance:**

increasing. \$1206 is for Risk Management. **2210- Office Supplies: 2222- Printing:** projecting

to over spend the budget. **2296- Professional Supplies and Materials: 2315- Buildings,**

Grounds, Vehicle Maintenance: That's for Central Office, occasionally we have an inside repair that wouldn't be done by the Prison's Division.

2407-Chairman Svedjan: You indicated in your testimony under travel, that there's no charge back to the Counties for the training that you do?

2423-Elaine: Yes. Under law right now the DOC is responsible to do training of County Correctional Staff and at department costs. It's a separate bill, SB #2220.

2660-Chairman Svedjan: Misc. Supplies: Is your equipment under \$750. \$3700 is for the new positions. **2764-Equipment:** In your testimony, I'm backing up to Operating expenses, you addressed other expenses of \$21, 660. Have you lumped together postage, repairs, office supplies, printing, all into one in your testimony?

2824-Elaine: I believe you're right. We lumped a number of them together. **2848- Equipment:** that's the \$14,000 for the servers. The Intra net server is out of Central Office and it provides important programs for us. We have 8-10 servers in Central Office.

3560-Chairman Svedjan: Q? This concludes this part of our analysis. Thank you Elaine. We will proceed with **Juvenile Services. 3737- FTE's:** 1 FTE increase, and that's the one that's changing the amounts of time you have in Williston, Devil's Lake, and Dickinson.

3778-AI: (attachment #2) Correct. We can then reduce the part time temporary budget by \$20,000, because we found something in there that showed us that that was missed, and I apologize to our Analyst for bringing it up now. We should have caught that earlier.

3940-Salaries: can be reduced by another \$12,000. **4030-** There are 31-1/2 positions.

4633-Operating Expenses: We do share ports with other state agencies in the same building. Discussion on T1 lines, 56K and 28K. **5867-IT Telephone:** Calling Cards and Cell phones, because of crisis management. **6135- Misc. Fees:** under IT Telecommunications,

Tape 2, side A-00-Bey: is for one time wiring and installation fees and one time hook up charge.

89-Chairman Svedjan: Q?

262-AI: Explains Case Managers jobs and duties, placement, evaluations, hearings, treatments.

920-Chairman Svedjan: We will stop here for today.

3-21-01 SB 2016	X-1		00-6223
#2016		X-1	00-6223
#2016	X-3		649-5700
Committee Clerk Signature <i>Mickie Schmidt (cust)</i>			

Minutes: Chairman Svedjan called the section to order. Roll call: We have a quorum. We have gotten through the Central Office and Juvenile Services. Today we will focus on the Adult Services, which is the Field Service Division and the Prisons Division. We'll start with Field Services. First, let's go back to Juvenile Services. **163-** Rep. Delzer states that they were getting \$101,000 from a land repayment. I asked them to prioritize those four things, and what they said they wanted was Maple at \$62,000, and then the door replacement was the 1 and 2. The door replacement line is in number 1. **237-** I would change that to .25 cents, I think we can leave that, the 101 in there, I think we could remove the heating plan improvement and the \$42,000 for the Fire Suppression.

274- Rep. Warner requested that the Fire Suppression be listed as a separate item.

329- Rep. Delzer states that we have \$101,000 in their budget that we used for Capital Construction, but if we do not make any changes, in reference to what SB #2220 does today, they're going to have an extra \$60,000, if we don't take anything away from it. I

Page 2
Human Resources Division
Bill/Resolution Number SB 2016
Hearing Date : WEDNESDAY, MARCH 21, 2001

would request to remove the \$36,320, for the partial of the Heating plan. 476- I would reduce the Bobcat by \$4,000. 598-Q? 631- FTE's at the YCC. 740- Adult Services. 827- Rep. Delzer requested \$2,500 in Victim Services. 1052- Rep. Delzer hands out an amendment, attachment #1. 1699- Operating lines. 1777- Rep. Delzer requests that \$6000 be reduced out of the Operating line. 1949- Rep. Delzer has another amendment for Special funds, to make sure that we spend the special funds first before the general funds.

2095-Mr. Tim Dawson: Goes on to discuss Rep. Delzer amendment, (attachment 1). Q?

3362- The committee requested amendments on the Operating line. 5846-Discussion on Pre Release.

Tape 1, side B-00- Continued discussion on Pre Release. More requests. 278- Operating lines: 380- Request to adjust the general fund by \$80,000 to reflect the increase of Offenders Fee. 451- Request to take \$70,000 out of there. 472- Adjust Dues and Professional Services by \$36,313. 627- Request and questions from LC. 681- Request for the report back for DUI. 730- Rep. Delzer states that we should increase the special fund authority. 769- A separate amendment was requested to pay the Parole Board \$75.00 per day. More discussion. 981- Done with IOPS. Q? 1806- COSP, the last part of Field Services. 1899- Request. 1969- Request to take 2 of the 4. 2720- Request \$667,000 in operating expenses. 3245- Equipment. Requests and discussion. 3729- Move to the Prisons Division. 3793- Drug Court. Discussion on this. Requests for amendments. 5565- Request the amendment to remove the Women's Prison. 5646- Alternative amendment for the Women's Prison. 5708- Request to remove the Food Service at MRC.

(WENT TO SB # 2004-TAPE 2, SIDE A)

Page 3

Human Resources Division

Bill/Resolution Number SB 2016

Hearing Date : WEDNESDAY, MARCH 21, 2001

SB # 2016-Tape 3, side A-649- We will go back into Corrections. We had gotten into a discussion on the Prisons Division, we had requested the amendments for pulling the building projects out. We were in a discussion about the Drug Court and the impact on the # of beds. I just clarified by Joe that by pulling out the Women's Prison, that the amendment should also pull out all of the Operating expenses, then we would have to look at adjusting the amount that we'd have to contract for Prison beds. **900- The SMI part of it, I request that that be removed completely from the budget. There are 3 things that we have to decide on.** Discussion and requests for amendments on this. Chairman Svedjan asks if there are any questions on the requests and discussions. We're going to stop for today.

Tape 2, side A-00- Continued discussion on 2016 and the amendments. **68-** Reason is because of the 2 programs that they started in January of this year. The reason to put the budget section in there is so that they can be done. Starting new programs, taking money from an existing program to start and they want both funded. General discussion between the committee. **2057-** The chairman closed the committee work on this bill.

2001 HOUSE STANDING COMMITTEE MINUTES

BILL/RESOLUTION NO. SB 2016

House Appropriations Committee

Conference Committee

Hearing Date April 3, 2001

Tape Number	Side A	Side B	Meter #
04-03-01 tape #1	1002 - 5561		
Committee Clerk Signature <i>Kathleen Hall</i>			

Minutes:

The committee was called to order, and opened committee work on SB 2016, the Corrections budget.

Rep. Delzer: There are two sets of amendments to offer. .0206 and .0207. Explains the amendment .0206, pages 1 through 10. He goes through the amendment .0206 and explains all the changes made. The second amendment is to add a study by the legislative council that studies the overall needs of capital projects. Moves to adopt amendment .0206. Seconded by Rep. Svedjan.

(Comments and questions by the committee, regarding the women's prison in Jamestown, and the reason the study was felt necessary before building was started. Dave from OMB answered some questions regarding the pay raises of employees/teachers, and transporting of adult and juvenile prisoners. Joe from LC also answers in regard to this in that the fiscal note

states no additional cost for this. Rep. Wentz questions the cuts for the seriously mentally ill prisoners. The budget had been reduced about \$10.4 million.)

Voice vote adopts the amendment.

Rep. Delzer: Moves to adopt amendment .0207. Seconded by Rep. Svedjan.

Rep. Svedjan: Sees this study as an essential piece of this legislation. That the department of corrections needs to be studied to make better, more informed decisions in the future.

Rep. Warner: Supports the amendment, but does point out that the department has had studies internally. Does not want to ignore the information that the department has already accumulated.

Voice vote adopts the amendment.

Rep. Kerzman: Makes a motion to amend, to put back in funding for the seriously mentally ill. Thinks that corrections made the case that they need funding for this area. All inmates and corrections staff should benefit from segregating these inmates. Seconded by Rep. Gulleon.

Rep. Svedjan: Objects to the proposal, states three reasons.

Rep. Wentz: Is really torn on this amendment. She would like to see it changed, but sees the numbers and knows it is a problem. Says that the seriously mentally ill inmates is a national as well as a state problem. She sees a serious legal problems that could happen with these inmates. They could really benefit from the segregation and special treatment they would get. There is lots of information nationwide on this issue. We have just ignored the mentally ill for too long a time. She would like this to be an important part of the interim study.

Rep. Warner: Supports the amendment.

Page 3
House Appropriations Committee
Bill/Resolution Number SB 2016
Hearing Date April 3, 2001

Voice vote on the amendment failed.

Rep. Delzer: Moves DO PASS AS AMENDED. Seconded by Rep. Sved, in.

Vote on Do Pass as Amended : 17 yes, 4 no, 0 absent and not voting.

Rep. Delzer is assigned to carry this bill to the floor.

PROPOSED AMENDMENTS TO ENGROSSED SENATE BILL NO. 2016

Page 1, line 2, remove the second "and"

Page 1, line 3, after "study" insert "; to create and enact a new subsection to section 54-23.4-06 of the North Dakota Century Code, relating to crime victims compensation; and to amend and reenact subsection 1 of section 54-23.4-12 of the North Dakota Century Code, relating to subrogation"

Page 3, after line 12, insert:

"SECTION 6. A new subsection to section 54-23.4-06 of the 1999 Supplement to the North Dakota Century Code is created and enacted as follows:

Compensation may not be awarded unless the claimant pursues each available collateral source, including claim for relief unless the claim for relief would place an undue burden on the claimant.

SECTION 7. AMENDMENT. Subsection 1 of section 54-23.4-12 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

1. If compensation is awarded, the division is subrogated to all the claimant's rights to receive or recover benefits or advantages, for economic loss for which and to the extent only that compensation is awarded, from a source that is, or, if readily available to the claimant, would be, a collateral source. The division has the right of subrogation to initiate a claim for relief to recover for economic loss from a collateral source, including a tort-feasor."

Page 2, line 19, replace "110,890,730" with "105,749,200"

Page 2, remove lines 23 through 26

Page 3, after line 12, insert:

"SECTION 5. INMATE PAY AND DEDUCTIONS FROM INMATE PAY - LEGISLATIVE COUNCIL STUDY. During the 2001-02 Interim, the legislative council shall consider studying wages paid to inmates sentenced to the state correctional system and the various deductions from those wages, including methods used to determine rates of pay; actual wages paid to inmates; deductions from inmate wages; and the effect deductions for incarceration costs, facility operation costs, and capital improvement costs have on inmate payments for child support and restitution.

SECTION 6. FEDERAL FUNDING REDUCTIONS - BUDGET SECTION APPROVAL. If, during the biennium beginning July 1, 2001, and ending June 30, 2003, the federal government reduces funding below the level anticipated by the fifty-seventh legislative assembly for any programs administered by the department of corrections and rehabilitation, the department may not supplant the federal funds with general or special fund moneys without first obtaining the approval of the budget section of the legislative council. The department's budget request for the biennium beginning July 1, 2003, and ending June 30, 2005, must identify any programs for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.

SECTION 7. YOUTH CORRECTIONAL CENTER - TEACHER CONTRACTS FOR SUMMER EDUCATION PROGRAMS. The salaries and wages line item included in subdivision 2 of section 1 of this Act includes funding for teacher contracts to support the summer education program at the youth correctional center. Any moneys budgeted for teacher contracts for the summer education program but not spent for that purpose may not be used for any other purpose and must be returned to the general fund at the end of the biennium beginning July 1, 2001, and ending June 30, 2003.

SECTION 8. TRANSFERS BETWEEN LINE ITEMS AND SUBDIVISIONS - COMPUTER PURCHASES. Notwithstanding section 54-16-04, the department of corrections and rehabilitation may transfer between the various subdivisions included in section 1 of this Act and between the various line items included in subdivision 3 of section 1 of this Act for the purpose of purchasing personal computers to carry out the duties of the department.

SECTION 9. OPERATION OF "PRERELEASE" AND "DUI OFFENDER TREATMENT" PROGRAMS - REPORT TO THE FIFTY-EIGHTH LEGISLATIVE ASSEMBLY. During the biennium beginning July 1, 2001, and ending June 30, 2003, the department of corrections and rehabilitation shall monitor the operation of the programs known as the "prerelease center" and the "DUI offender treatment center" authorized by the fifty-seventh legislative assembly. The department shall present a report to the appropriations committees of the fifty-eighth legislative assembly regarding the operation of the programs, including the impact of the programs on recidivism rates; the cost-effectiveness of the programs; the success of the programs; the ability to collect fees, if any, from the participating inmates; and a comparison of the costs and benefits of the "prerelease center" and the "DUI offender treatment center" to other forms of treatment or incarceration.

SECTION 10. "PRERELEASE" PROGRAM AND INMATE CONTRACT HOUSING - USE OF MONEYS APPROPRIATED. The institutional offender services line item contained in subdivision 3 of section 1 of this Act includes funding for the operation of a "prerelease center". Any moneys budgeted for the operation of the "prerelease center" but not spent for that purpose may not be used for any other purpose except contracting for additional inmate beds at county or private correctional facilities, as determined necessary by the department. Notwithstanding section 54-16-04, the department may transfer moneys from the institutional offender services line item to the security and safety line item in subdivision 3 of section 1 of this Act as determined necessary by the department to contract for inmate housing.

SECTION 11. LEGISLATIVE INTENT - FUNDING FOR DRUG COURT PROGRAM. It is the intent of the fifty-seventh legislative assembly that the department of corrections and rehabilitation seek federal funding to support the drug court program during the biennium beginning July 1, 2001, and ending June 30, 2003. If federal funds do not become available to the department to support the program, special funds derived from other income of the department may be used to fund the program. If federal funds become available during the biennium, the department must use the federal funds, and any required matching funds to be provided from special funds, to fund the program for the remainder of the biennium before funds from any other source are used for this purpose.

SECTION 12. AMENDMENT. Section 12-59-02 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

12-59-02. Meetings - Compensation - Rules. The governor shall appoint a member of the parole board to be chairman. The chairman of the parole board shall designate three members of the parole board for each meeting of the parole board. Meetings of the parole board must be held in accordance with rules established by the parole board and must be held as often as required to properly conduct the business of the board, but in any event not less than six times per year. The parole board may only take action upon the concurrence of at least two members who participated in the same meeting. The final decision of at least two parole board members who participated in the same parole board meeting constitutes the decision of the parole board. Members are entitled to be compensated at the rate of ~~sixty-two~~ seventy-five dollars ~~and fifty cents~~ per day for each day actually and necessarily spent in the performance of their duties as board members plus the same mileage and expenses as are authorized for state officials and employees. The director of the division of parole and probation, or the director's designee, is the clerk for the parole board.

SECTION 13. A new subsection to section 54-23.4-06 of the 1999 Supplement to the North Dakota Century Code is created and enacted as follows:

Compensation may not be awarded unless the claimant pursues each available collateral source, including claim for relief unless the claim for relief would place an undue burden on the claimant.

SECTION 14. AMENDMENT. Subsection 1 of section 54-23.4-12 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

1. If compensation is awarded, the division is subrogated to all the claimant's rights to receive or recover benefits or advantages, for economic loss for which and to the extent only that compensation is awarded, from a source that is, or, if readily available to the claimant, would be, a collateral source. The division has the right of subrogation to initiate a claim for relief to recover for economic loss from a collateral source, including a tort-feasor.

Renumber accordingly

¹ Funding for the DUI offender treatment program, which will be operated on a contract basis with the State Hospital, is reduced from \$2,139,284 to \$1,600,000 to reflect a reduction in administrative cost allocation charged by the State Hospital.

² The Senate version for the Adult Services Division included funding for 47 new desktop computers budgeted at various prices ranging from \$1,914 to \$2,300 per computer and six new laptop computers budgeted at various prices ranging from \$2,500 to \$3,500 per computer. The House amendment reduces the price per computer to \$1,400 for desktop computers and \$1,750 for laptop computers.

³ The total number of new desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 108 to 77. The number of budgeted desktop computer purchases is reduced from 47 to 34 for the Adult Services Division.

⁴ Funding is removed for the proposed seriously mentally ill (SMI) unit as follows:

	FTE	GENERAL FUND	OTHER FUNDS	TOTAL
Salaries and wages	(28.00)	(\$1,859,441)		(\$1,859,441)
Operating expenses		(560,706)		(560,706)
Equipment		(17,650)		(17,650)
Total change from Senate version	(28.00)	(\$2,437,797)	\$0	(\$2,437,797)

⁵ The institutional offender services line item is adjusted for the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Operating expenses	(\$60,000)		(\$60,000)
Compensation rate increase for parole board members from \$62.50 to \$75.00 per day	2,550		2,550
Total change from Senate version	(\$57,450)	\$0	(\$57,450)

⁶ The community offender services line item is reduced to reflect the following changes:

	FTE	GENERAL FUND	OTHER FUNDS	TOTAL
Temporary salaries		(\$14,000)		(\$14,000)
Operating expenses		(607,000)		(607,000)
Funding source change (additional supervision fees)		(60,000)	\$60,000	
Remove 2 FTE parole officer II positions	(2.00)	(157,510)		(157,510)
Salaries and wages		(32,372)		(32,372)
Operating expenses

1 The Senate version included 2 FTE data processing coordinator I positions to provide information technology support for the department. The House amendment removes one of the new positions and the related operating expenses.

2 The Senate version included \$125,000 for salary adjustments, in addition to the executive budget compensation package, to address equity and salary compression issues within the department. The House amendment removes this funding.

- 3 The Senate version for the Central Office included funding for nine new desktop computers, budgeted at a cost of \$2,100 per computer. The House amendment reduces the budgeted price per computer to \$1,400.
- 4 The Senate version for the Central Office included funding to replace three computer servers, one at a price of \$25,000 and two at \$14,000. The House amendment removes funding for one of the \$14,000 servers.
- 5 The total number of desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 106 to 77. The number of budgeted desktop computer purchases is reduced from nine to seven for the Central Office.

	REDUCE NUMBER OF NEW DESKTOP COMPUTERS 6	REDUCE YOUTH CORRECTIONAL CENTER EXTRAORDINARY REPAIRS 7	REDUCE YOUTH CORRECTIONAL CENTER CAPITAL PROJECTS 8	TOTAL HOUSE CHANGES
Salaries and wages				(\$172,375)
Operating expenses				(139,475)
Equipment	(\$19,600)			(97,350)
Capital improvements		(\$36,320)	(\$38,500)	(74,820)
Grants				
Total all funds	(\$19,600)	(\$36,320)	(\$38,500)	(\$484,020)
Less estimated income	<u>(12,600)</u>			<u>(38,200)</u>
General fund	(\$7,000)	(\$36,320)	(\$38,500)	(\$445,820)
FTE	0.00	0.00	0.00	0.00

1 The Senate version included 1 FTE security officer I for the Youth Correctional Center and 1 FTE administrative assistant I for the Juvenile Community Services Division. The House amendment reduces the salaries and wages line item by \$41,000 (\$12,000 for Juvenile Community Services and \$29,000 for the Youth Correctional Center) to reflect an anticipated reduction in the need for temporary employees as a result of the new positions.

2 The Juvenile Services Division operating expenses line item is reduced to reflect the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Juvenile Community Services (JCS) Division - Various reductions	(\$55,000)		(\$55,000)
JCS Division - Juvenile transportation costs (SB 2220 with House amendments)	(41,475)		(41,475)
Youth Correctional Center (YCC) -	(13,000)		(13,000)

Auxiliary services			
YCC - Administration	(7,500)		(7,500)
YCC - Resident care	(12,500)		(12,500)
YCC - Education	(10,000)		(10,000)
Total change from Senate version	(\$139,475)	\$0	(\$139,475)

- 3 The House amendment reduces the amount appropriated to the Youth Correctional Center for "other" equipment from \$54,729 to \$20,729
- 4 The Senate version for the Juvenile Services Division included \$291,375 for salary adjustments, in addition to the executive budget compensation package, to increase teacher salaries pursuant to a composite salary schedule developed by the Central Personnel Division. The House amendment reduces this amount to \$200,000.
- 5 The Senate version for the Juvenile Services Division included funding for the purchase of 50 new desktop computers and three new laptop computers, budgeted at a price of \$2,200 per desktop and \$3,000 per laptop. The House amendment reduces the budgeted prices to \$1,400 per desktop and \$1,750 per laptop.
- 6 The total number of desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 106 to 77. The number of budgeted desktop computer purchases is reduced from 50 to 38 for the Juvenile Services Division.
- 7 Funding is removed for heating plant improvements at the Youth Correctional Center, reducing extraordinary repairs funding from \$65,320 to \$29,000.
- 8 The Senate version included \$101,000 for fire suppression systems in Brown and Maple Cottages at the Youth Correctional Center. The House amendment removes funding for fire suppression in Brown Cottage.

PROPOSED AMENDMENTS TO ENGROSSED SENATE BILL NO. 2016

Page 1, line 2, after "rehabilitation" insert "; to create and enact a new section to chapter 54-23.3 of the North Dakota Century Code, relating to the establishment of new programs by the director of the department of corrections and rehabilitation"

Page 3, after line 12, insert:

"SECTION 6. A new section to chapter 54-23.3 of the North Dakota Century Code is created and enacted as follows:

Approval of new programs. Notwithstanding the powers granted under section 54-23.3-04, the director of the department of corrections and rehabilitation may not authorize any new program that serves adult or juvenile offenders, including alternatives to conventional incarceration and programs operated on a contract basis, without specific approval of the legislative assembly or, if the legislative assembly is not in session, the budget section of the legislative council."

Renumber accordingly

STATEMENT OF PURPOSE OF AMENDMENT:

Dept. 530 - Department of Corrections and Rehabilitation - House Action

This amendment creates a new section to North Dakota Century Code Chapter 54-23.3 to require the director of the Department of Corrections and Rehabilitation to receive approval by the Legislative Assembly or the Budget Section before authorizing any new program that serves offenders.

Page 3, after line 12, insert:

"SECTION 5. INMATE PAY AND DEDUCTIONS FROM INMATE PAY - LEGISLATIVE COUNCIL STUDY. During the 2001-02 interim, the legislative council shall consider studying wages paid to inmates sentenced to the state correctional system and the various deductions from those wages, including methods used to determine rates of pay; actual wages paid to inmates; deductions from inmate wages; and the effect deductions for incarceration costs, facility operation costs, and capital improvement costs have on inmate payments for child support and restitution.

SECTION 6. FEDERAL FUNDING REDUCTIONS - BUDGET SECTION APPROVAL. If, during the biennium beginning July 1, 2001, and ending June 30, 2003, the federal government reduces funding below the level anticipated by the fifty-seventh legislative assembly for any programs administered by the department of corrections and rehabilitation, the department may not supplant the federal funds with general or special fund moneys without first obtaining the approval of the budget section of the legislative council. The department's budget request for the biennium beginning July 1, 2003, and ending June 30, 2005, must identify any programs for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.

SECTION 7. YOUTH CORRECTIONAL CENTER - TEACHER CONTRACTS FOR SUMMER EDUCATION PROGRAMS. The salaries and wages line item included in subdivision 2 of section 1 of this Act includes funding for teacher contracts to support the summer education program at the youth correctional center. Any moneys budgeted for teacher contracts for the summer education program but not spent for that purpose may not be used for any other purpose and must be returned to the general fund at the end of the biennium beginning July 1, 2001, and ending June 30, 2003.

SECTION 8. TRANSFERS BETWEEN LINE ITEMS AND SUBDIVISIONS - COMPUTER PURCHASES. Notwithstanding section 54-16-04, the department of corrections and rehabilitation may transfer between the various subdivisions included in section 1 of this Act and between the various line items included in subdivision 3 of section 1 of this Act for the purpose of purchasing personal computers to carry out the duties of the department.

SECTION 9. OPERATION OF "PRERELEASE" AND "DUI OFFENDER TREATMENT" PROGRAMS - REPORT TO THE FIFTY-EIGHTH LEGISLATIVE ASSEMBLY. During the biennium beginning July 1, 2001, and ending June 30, 2003, the department of corrections and rehabilitation shall monitor the operation of the programs known as the "prerelease center" and the "DUI offender treatment center" authorized by the fifty-seventh legislative assembly. The department shall present a report to the appropriations committees of the fifty-eighth legislative assembly regarding the operation of the programs, including the impact of the programs on recidivism rates; the cost-effectiveness of the programs; the success of the programs; the ability to collect fees, if any, from the participating inmates; and a comparison of the costs and

benefits of the "prerelease center" and the "DUI offender treatment center" to other forms of treatment or incarceration.

SECTION 10. "PRERELEASE" PROGRAM AND INMATE CONTRACT HOUSING - USE OF MONEYS APPROPRIATED. The institutional offender services line item contained in subdivision 3 of section 1 of this Act includes funding for the operation of a "prerelease center". Any moneys budgeted for the operation of the "prerelease center" but not spent for that purpose may not be used for any other purpose except contracting for additional inmate beds at county or private correctional facilities, as determined necessary by the department. Notwithstanding section 54-16-04, the department may transfer moneys from the institutional offender services line item to the security and safety line item in subdivision 3 of section 1 of this Act as determined necessary by the department to contract for inmate housing.

SECTION 11. LEGISLATIVE INTENT - FUNDING FOR DRUG COURT PROGRAM. It is the intent of the fifty-seventh legislative assembly that the department of corrections and rehabilitation seek federal funding to support the drug court program during the biennium beginning July 1, 2001, and ending June 30, 2003. If federal funds do not become available to the department to support the program, special funds derived from other income of the department may be used to fund the program. If federal funds become available during the biennium, the department must use the federal funds, and any required matching funds to be provided from special funds, to fund the program for the remainder of the biennium before funds from any other source are used for this purpose. Special fund moneys not used for the drug court program pursuant to this section must be used in place of general fund moneys appropriated by the fifty-seventh legislative assembly for other programs operated by the department.

SECTION 12. AMENDMENT. Section 12-59-02 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

12-59-02. Meetings - Compensation - Rules. The governor shall appoint a member of the parole board to be chairman. The chairman of the parole board shall designate three members of the parole board for each meeting of the parole board. Meetings of the parole board must be held in accordance with rules established by the parole board and must be held as often as required to properly conduct the business of the board, but in any event not less than six times per year. The parole board may only take action upon the concurrence of at least two members who participated in the same meeting. The final decision of at least two parole board members who participated in the same parole board meeting constitutes the decision of the parole board. Members are entitled to be compensated at the rate of ~~sixty-two~~ seventy-five dollars and ~~fifty cents~~ per day for each day actually and necessarily spent in the performance of their duties as board members plus the same mileage and expenses as are authorized for state officials and employees. The director of the division of parole and probation, or the director's designee, is the clerk for the parole board.

SECTION 13. A new section to chapter 54-23.3 of the North Dakota Century Code is created and enacted as follows:

Approval of new programs. Notwithstanding the powers granted under section 54-23.3-04, the director of the department of corrections and rehabilitation may not authorize any new program that serves adult or juvenile offenders, including alternatives to conventional incarceration and programs operated on a contract basis, without first reporting to the legislative assembly or, if the legislative assembly is not in session, the budget section of the legislative council.

SECTION 14. A new subsection to section 54-23.4-06 of the 1999 Supplement to the North Dakota Century Code is created and enacted as follows:

Compensation may not be awarded unless the claimant pursues each available collateral source, including claim for relief unless the claim for relief would place an undue burden on the claimant.

SECTION 15. AMENDMENT. Subsection 1 of section 54-23.4-12 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

1. If compensation is awarded, the division is subrogated to all the claimant's rights to receive or recover benefits or advantages, for economic loss for which and to the extent only that compensation is awarded, from a source that is, or, if readily available to the claimant, would be, a collateral source. The division has the right of subrogation to initiate a claim for relief to recover for economic loss from a collateral source, including a tort-feasor.

Renumber accordingly

STATEMENT OF PURPOSE OF AMENDMENT:

Senate Bill No. 2016 - Summary of House Action

1 Funding for the DUI offender treatment program, which will be operated on a contract basis with the State Hospital, is reduced from \$2,139,284 to \$1,600,000 to reflect a reduction in administrative cost allocation charged by the State Hospital.

2 The Senate version for the Adult Services Division included funding for 47 new desktop computers budgeted at various prices ranging from \$1,914 to \$2,300 per computer and six new laptop computers budgeted at various prices ranging from \$2,500 to \$3,500 per computer. The House amendment reduces the price per computer to \$1,400 for desktop computers and \$1,750 for laptop computers.

3 The total number of new desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 106 to 77. The number of budgeted desktop computer purchases is reduced from 47 to 34 for the Adult Services Division.

4 Funding is removed for the proposed seriously mentally ill (SMI) unit as follows:

	FTE	GENERAL FUND	OTHER FUNDS	TOTAL
Salaries and wages	(28.00)	(\$1,859,441)		(\$1,859,441)
Operating expenses		(580,708)		(580,708)
Equipment		(17,650)		(17,650)
Total change from Senate version	(28.00)	(\$2,437,797)	\$0	(\$2,437,797)

5 The institutional offender services line item is adjusted for the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Operating expenses	(\$60,000)		(\$60,000)
Compensation rate increase for Parole Board members from \$62.50 to \$75 per day	2,550		2,550
Total change from Senate version	(\$57,450)	\$0	(\$57,450)

6 The community offender services line item is reduced to reflect the following changes:

	FTE	GENERAL FUND	OTHER FUNDS	TOTAL
Temporary salaries		(\$14,000)		(\$14,000)
Operating expenses		(407,000)		(407,000)
Funding source change (additional supervision fees)		(60,000)	\$60,000	
Remove 2 parole officer II positions				
Salaries and wages	(1.00)	(78,755)		(78,755)
Operating expenses		(32,372)		(32,372)
Total reduction relating to new positions	(1.00)	(\$111,127)		(\$111,127)
Total change from Senate version	(1.00)	(\$592,127)	\$60,000	(\$532,127)

7 The support services line item is reduced to reflect the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Temporary salaries	(\$8,000)		(\$8,000)
Information technology - Data processing	(20,000)		(20,000)
Information technology - Telecommunications	(5,000)		(5,000)
Travel	(15,000)		(15,000)
Information technology - Contractual services	(5,300)		(5,300)
Medical, dental, and optical expenses	30,000		30,000
Hepatitis B vaccinations and screening and treatment for other contagious diseases	122,800		122,800
Professional development	(10,000)		(10,000)
Office supplies	(5,000)		(5,000)
Other equipment	(100,000)		(100,000)
Capital improvements - Penitentiary parking lot	(403,118)		(403,118)
Capital improvements - Extraordinary repairs	(200,000)		(200,000)
Total change from Senate version	(\$618,618)	\$0	(\$618,618)

8 The program services line item is reduced to reflect the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Travel	(\$5,000)		(\$5,000)
Professional development	(2,000)		(2,000)
Professional services	(5,000)		(5,000)
Professional supplies	(5,000)		(5,000)
Miscellaneous supplies	(3,000)		(3,000)
Total change from Senate version	(\$20,000)	\$0	(\$20,000)

9 The security and safety line item is reduced to reflect a \$25,000 reduction in operating expenses.

10 The victims services line item is reduced to reflect a \$2,500 reduction in temporary salaries and a \$6,000 reduction in operating expenses.

11 Funding is removed for the following capital projects:

	GENERAL FUND	OTHER FUNDS	TOTAL
Missouri River Correctional Center - Food service building Women's unit	(\$1,983,000)		(\$1,983,000)
	(2,320,000)	(\$1,400,000)	(3,720,000)
Total change from Senate version	(\$4,303,000)	(\$1,400,000)	(\$5,703,000)

12 Funding is removed for the proposed women's unit as follows:

	GENERAL FUND	OTHER FUNDS	TOTAL
Salaries and wages	(\$585,457)		(\$585,457)
Operating expenses	(421,815)		(421,815)
Equipment	(33,795)		(33,795)
Total change from Senate version	(\$1,041,067)	\$0	(\$1,041,067)

13 The Senate version included \$2,452,275 for housing inmates at county or out-of-state correctional facilities. The House amendment increases that amount to \$2,648,380 based on the following adjustments to the number of contract inmate beds:

- Funding is reduced to reflect an anticipated 20 contract bed reduction each month of the biennium due to the effect of the drug court (five less contract beds per month) and House Bill No. 1364 (15 less contract beds per month), which eliminates minimum mandatory sentences for certain first-time drug offenders.
- Funding is increased to reflect an anticipated 75 contract bed increase for each of the last eight months of the biennium due to not constructing the women's unit.

¹ The Senate version included 2 FTE data processing coordinator I positions to provide information technology support for the department. The House amendment removes one of the new positions and the related operating expenses.

- 2 The Senate version included \$125,000 for salary adjustments, in addition to the executive budget compensation package, to address equity and salary compression issues within the department. The House amendment removes this funding.
- 3 The Senate version for the Central Office included funding for nine new desktop computers, budgeted at a cost of \$2,100 per computer. The House amendment reduces the budgeted price per computer to \$1,400.
- 4 The Senate version for the Central Office included funding to replace three computer servers, one at a price of \$25,000 and two at \$14,000. The House amendment removes funding for one of the \$14,000 servers.
- 5 The total number of desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 106 to 77. The number of budgeted desktop computer purchases is reduced from nine to seven for the Central Office.

Total all funds	(\$19,600)	(\$38,320)	(\$445,520)
Less estimated income	<u>(12,600)</u>		<u>(38,200)</u>
General fund	(\$7,000)	(\$38,320)	(\$407,320)
FYE	0.00	0.00	0.00

¹ The Senate version included 1 FTE security officer I for the Youth Correctional Center and 1 FTE administrative assistant I for the Juvenile Community Services Division. The House amendment reduces the salaries and wages line item by \$41,000 (\$12,000 for Juvenile Community Services and \$29,000 for the Youth Correctional Center) to reflect an anticipated reduction in the need for temporary employees as a result of the new positions.

² The Juvenile Services Division operating expenses line item is reduced to reflect the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Juvenile Community Services (JCS) Division - Various reductions	(\$55,000)		(\$55,000)
JCS Division - Juvenile transportation costs (SB 2220 with House amendments)	(41,475)		(41,475)
Youth Correctional Center (YCC) - Auxiliary services	(13,000)		(13,000)
YCC - Administration	(7,500)		(7,500)
YCC - Resident care	(12,500)		(12,500)
YCC - Education	(10,000)		(10,000)
Total change from Senate version	(\$139,475)	\$0	(\$139,475)

- 3 The House amendment reduces the amount appropriated to the Youth Correctional Center for "other" equipment from \$54,729 to \$20,729.
- 4 The Senate version for the Juvenile Services Division included \$291,375 for salary adjustments, in addition to the executive budget compensation package, to increase teacher salaries pursuant to a composite salary schedule developed by the Central Personnel Division. The House amendment reduces this amount to \$200,000.
- 5 The Senate version for the Juvenile Services Division included funding for the purchase of 50 new desktop computers and three new laptop computers, budgeted at a price of \$2,200 per desktop and \$3,000 per laptop. The House amendment reduces the budgeted prices to \$1,400 per desktop and \$1,750 per laptop.
- 6 The total number of desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 106 to 77. The number of budgeted desktop computer purchases is reduced from 50 to 36 for the Juvenile Services Division.
- 7 Funding is removed for heating plant improvements at the Youth Correctional Center, reducing extraordinary repairs funding from \$65,320 to \$29,000.

This amendment also adds the following sections:

- Section 5, which directs the Legislative Council to consider studying issues relating to inmate wages and various deductions from those wages.
- Section 6, which provides that if federal funding is reduced during the 2001-03 biennium, the department may not supplant the federal funds with general or special funds. The department must also identify any programs included in its 2003-05 biennium budget request for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.
- Section 7, which provides that any moneys budgeted by the Youth Correctional Center for teacher contracts for the summer education program but not spent for that purpose must be returned to the general fund at the end of the 2001-03 biennium.
- Section 8, which authorizes the department to transfer funds between the subdivisions and program line items included in the bill for the purpose of providing for computer purchases.
- Section 9, which directs the department to report to the Appropriations Committees of the Fifty-eighth Legislative Assembly on the effectiveness of the prerelease and DUI offender treatment programs.
- Section 10, which provides that any moneys budgeted for the operation of the prerelease center but not spent for that purpose may not be used for any other purpose except contracting for inmate housing.
- Section 11, which provides legislative intent that the department seek federal funding for the drug court program. If federal funds become available, the department must spend the federal funds in place of the special funds appropriated for the program; the special funds appropriation for the program must then be used in place of general fund moneys appropriated for other programs.
- Section 12, which amends North Dakota Century Code (NDCC) Section 12-59-02 to increase the compensation rate for Parole Board members from \$62.50 per day to \$75 per day.
- Section 13, which creates a new section to NDCC Chapter 54-23.3 to require the department to report to the Legislative Assembly or the Budget Section before establishing any new correctional program.
- Section 14, which amends NDCC Section 54-23.4-06 to require that crime victims compensation awards may not be provided to a claimant until the claimant has pursued all collateral sources of funds.

- Section 15, which amends NDCC Section 4-23.4-12 to provide that if crime victims compensation is awarded, the department has the right of subrogation to initiate a claim for relief to recover funds from a collateral source.

The amendment extends the sunset clause on the \$350 pesticide product registration fee until June 30, 2003. The product registration fee will revert to \$300 for each product registered after June 30, 2003. The amendment removes the requirement for the Department of Agriculture to generate \$100,000 revenues from collections of pesticides under Project Safe Seed. It does maintain the requirement of establishing a fee schedule for the collection of select chemicals.

MESSAGE TO THE SENATE FROM THE HOUSE (MARK L. JOHNSON, CHIEF CLERK)
MR. SPEAKER: The House has amended and subsequently passed: SB 2009, SB 2012, SB 2032, SB 2380, SB 2454.

MESSAGE TO THE SENATE FROM THE HOUSE (MARK L. JOHNSON, CHIEF CLERK)
MR. SPEAKER: The House has adopted the conference committee report and subsequently passed: HB 1245, HB 1287, HB 1457.

MESSAGE TO THE SENATE FROM THE HOUSE (MARK L. JOHNSON, CHIEF CLERK)
MR. SPEAKER: The House has passed unchanged: SB 2352.

MESSAGE TO THE SENATE FROM THE HOUSE (MARK L. JOHNSON, CHIEF CLERK)
MR. SPEAKER: The House has amended, subsequently passed, and the emergency clause carried: SB 2015, SB 2019.

MESSAGE TO THE HOUSE FROM THE SENATE (WILLIAM R. HORTON, SECRETARY)
MR. SPEAKER: The Senate does not concur in the House amendments to SB 2001, SB 2002, SB 2008, SB 2183, SB 2251, and SB 2281 and the President has appointed as a conference committee to act with a like committee from the House on:

- SB 2001: Sens. Nothing; Kingstad; Lindas
- SB 2002: Sens. Nothing; Solberg; Tallackson
- SB 2008: Sens. Homborg; Andrist; Robinson

Page 2, remove lines 23 through 26

Page 3, after line 12, insert:

SECTION 5. INMATE PAY AND DEDUCTIONS FROM INMATE PAY - LEGISLATIVE COUNCIL STUDY. During the 2001-02 interim, the legislative council shall consider studying wages paid to inmates sentenced to the state correctional system and the various deductions from those wages, including methods used to determine rates of pay; actual wages paid to inmates; deductions from inmate wages; and the effect deductions for incarceration costs, facility operation costs, and capital improvement costs have on inmate payments for child support and restitution.

SECTION 6. DEPARTMENT OF CORRECTIONS AND REHABILITATION FACILITY NEEDS - LEGISLATIVE COUNCIL STUDY. During the 2001-02 interim, the legislative council shall consider studying the facility needs of the department of corrections and rehabilitation, including the adequacy and utilization of the department's existing facilities; anticipated future facility needs considering the impact of alternative programs and trends in inmate population; the feasibility and desirability of increased utilization of county and private correctional facilities; and facilities required to address the needs of various inmate populations, including female inmates and inmates diagnosed with serious mental illness.

SECTION 7. FEDERAL FUNDING REDUCTIONS - BUDGET SECTION APPROVAL. If, during the biennium beginning July 1, 2001, and ending June 30, 2003, the federal government reduces funding below the level anticipated by the fifty-seventh legislative assembly for any programs administered by the department of corrections and rehabilitation, the department may not supplement the federal funds with general or special fund moneys without first obtaining the approval of the budget section of the legislative council. The department's budget request for the biennium beginning July 1, 2003, and ending June 30, 2005, must identify any programs for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.

SECTION 8. YOUTH CORRECTIONAL CENTER - TEACHER CONTRACTS FOR SUMMER EDUCATION PROGRAMS. The salaries and wages line item included in subsection 2 of section 1 of this Act includes funding for teacher contracts to support the summer education program at the youth correctional center. Any moneys budgeted for teacher contracts for the summer education program but not spent for that purpose may not be used for any other purpose and must be returned to the general fund at the end of the biennium beginning July 1, 2001, and ending June 30, 2003.

SECTION 9. TRANSFERS BETWEEN LINE ITEMS AND SUBDIVISIONS - COMPUTER PURCHASES. Notwithstanding section 54-16-04, the department of corrections and rehabilitation may transfer between the various subdivisions included in section 1 of this Act and between the various line items included in subsection 3 of section 1 of this Act for the purpose of purchasing personal computers to carry out the duties of the department.

SECTION 10. OPERATION OF "PRIERELEASE" AND "DUJI OFFENDER TREATMENT" PROGRAMS - REPORT TO THE FIFTY-EIGHTH LEGISLATIVE ASSEMBLY. During the biennium beginning July 1, 2001, and ending June 30, 2003, the department of corrections and rehabilitation shall monitor the operation of the programs known as the "pre-release center" and the "DUJI offender treatment center" authorized by the fifty-seventh legislative assembly. The department shall present a report to the appropriations committees of the fifty-eighth legislative assembly regarding the operation of the programs, including the impact of the programs on recidivism rates; the cost-effectiveness of the programs; the success of the programs; the ability to collect fees, if any, from the participating inmates; and a comparison of the costs and benefits of the "pre-release center" and the "DUJI offender treatment center" to other forms of treatment or incarceration.

SECTION 11. "PRIERELEASE" PROGRAM AND INMATE CONTRACT HOUSING - USE OF MONEYS APPROPRIATED. The institutional offender services line item contained in subsection 3 of section 1 of this Act includes funding for the operation of a "pre-release center". Any moneys budgeted for the operation of the "pre-release center" but not spent for that purpose may not be used for any other purpose except contracting for additional inmate beds at county or private correctional facilities, as determined necessary by the department. Notwithstanding section 54-16-04, the department may transfer moneys from the institutional offender services line item to the security and safety line item in subdivision 3 of section 1 of this Act as determined necessary by the department to contract for inmate housing.

SECTION 12. LEGISLATIVE INTENT - FUNDING FOR DRUG COURT PROGRAM. It is the intent of the fifty-seventh legislative assembly that the department of corrections and rehabilitation seek federal funding to support the drug court program during the biennium beginning July 1, 2001, and ending June 30, 2003. If federal funds do not become available to the department to support the program, special funds derived from other income of the department may be used to fund the program. If federal funds become available during the biennium, the department must use the federal funds, and any required matching funds to be provided from special funds, to fund the program for the remainder of the biennium before funds from any other source are used for this purpose. Special fund moneys not used for the drug court program pursuant to this section must be used in place of general fund moneys appropriated by the fifty-seventh legislative assembly for other programs operated by the department.

SECTION 13. AMENDMENT. Section 12-59-02 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

12-59-02. Meetings - Compensation - Rules. The governor shall appoint a member of the parole board to be chairman. The chairman of the parole board shall designate three members of the parole board for each meeting of the parole board. Meetings of the parole board must be held in accordance with rules established by the parole board and must be held as often as required to properly conduct the business of the board, but in any event not less than six times per year. The parole board may only take action upon the concurrence of at least two members who participated in the meeting. The final decision of at least two parole board members who participated in the same parole board meeting constitutes the decision of the parole board. Members are entitled to be compensated at the rate of seventy-five dollars and fifty cents per day for each day actually and necessarily spent in the performance of their duties as board members plus the same mileage and expenses as are authorized for state officials and employees. The director of the division of parole and probation, or the director's designee, is the clerk for the parole board.

SECTION 14. A new section to chapter 54-23.3 of the North Dakota Century Code is created and enacted as follows:

Approval of new programs. Notwithstanding the powers granted under section 54-23.3-04, the director of the department of corrections and rehabilitation may not authorize any new program that serves adult or juvenile offenders, including alternatives to conventional incarceration and programs operated on a contract basis, without first reporting to the legislative assembly or, if the legislative assembly is not in session, the budget section of the legislative council.

SECTION 15. A new subsection to section 54-23.4-06 of the 1999 Supplement to the North Dakota Century Code is created and enacted as follows:

Compensation may not be awarded unless the claimant pursues each available collateral source, including claim for relief, unless the claim for relief would place an undue burden on the claimant.

SECTION 16. AMENDMENT. Subsection 1 of section 54-23.4-12 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

1. If compensation is awarded, the division is subrogated to all the claimant's rights to receive or recover benefits or advantages, for economic loss for which and to the extent only that compensation is awarded, from a source that is, or, if readily available to the claimant, would be, a collateral source. The division has the right of subrogation to initiate a claim for relief to recover for economic loss from a collateral source, including a tortfeasor.

Remember accordingly

Less estimated income	(1,200,000)	(1,200,000)	0	(1,200,000)
General fund	69,661,467	69,661,467	0	69,661,467

Funding for the DUE offender treatment program, which will be operated on a contract basis with the State Hospital, is reduced from \$2,130,204 to \$1,880,000 to reflect a reduction in administrative cost allocation as agreed by the State Hospital.

The Senate version for the Adult Services Division included funding for 47 new desktop computers budgeted at various prices ranging from \$1,914 to \$2,300 per computer and six new laptop computers budgeted at various prices ranging from \$2,300 to \$3,300 per computer. The House amendment reduced this price per computer to \$1,400 for desktop computers and \$1,750 for laptop computers.

The total number of new desktop computers budgeted to be received by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 106 to 77. The number of budgeted desktop computer purchases is reduced from 47 to 34 for the Adult Services Division.

Funding is removed for the proposed annually monthly at \$240 unit as follows:

The Senate version included \$2,482,275 for building materials at county or out-of-state construction facilities. The House amendment increases that amount to \$2,942,150 based on the following adjustments to the number of contract items built:

Funding is requested to adjust an anticipated 20 contract item reduction each month of the biennium due to the effect of the drug court (five less contract items per month) and House Bill 1264 (15 less contract items per month), which eliminates minimum mandatory sentencing for certain drug court offenders.

Funding is requested to reflect an anticipated 75 contract item increase for each of the last eight months of the biennium due to not constructing the contract item.

1 The Senate version included 2 FTE data processing contractor 1 positions to provide information technology support for the department. The House amendment removes one of the two positions and the related operating expenses.

2 The Senate version included \$125,000 for salary adjustments, in addition to the various budget compensation package, to address equity and salary compression issues within the department. The House amendment removes this funding.

3 The Senate version for the Central Office included funding for one new desktop computer, funded at a cost of \$2,100 per computer. The House amendment includes the budgeted price per computer to \$1,400.

4 The Senate version for the Central Office included funding to replace three computer servers, one at a price of \$25,000 and two at \$14,000. The House amendment removes funding for one of the \$14,000 servers.

5 The total number of desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 186 to 77. The number of budgeted desktop computer purchases is reduced from one to seven for the Central Office.

- The Senate version includes 1 FTE additional staff for the Youth Correctional Center and 1 FTE administrative assistant for the Juvenile Community Services Division. The House amendment reduces the number of positions and requests the use of 247,000 (212,000 for Juvenile Community Services and 35,000 for the Youth Correctional Center) to reflect an equivalent reduction in the total for temporary employees as a result of the new program.
 - The Juvenile Services Division operating expenses line item is reduced to reflect the following changes:

GENERAL FUND	OTHER FUNDS	TOTAL
Juvenile Community Services (JCS)		
Division - Juvenile Services	(865,000)	(865,000)
JCS - Division - Juvenile Services	(41,478)	(41,478)
Juvenile Community Services (JCS) - Administrative Services	(12,000)	(12,000)
JCS - Administrative Services	(7,500)	(7,500)
JCS - Educational	(4,500)	(4,500)
JCS - Educational	(10,000)	(10,000)
Total change from Senate version	(930,478)	(930,478)

 The House amendment reduces the amount appropriated to the Youth Correctional Center for "other" equipment from \$54,728 to \$20,728.
 - The Senate version for the Juvenile Services Division includes \$291,375 for salary supplements, in addition to the executive budget compensation package, to increase teacher salaries pursuant to a complete salary schedule developed by the Central Personnel Division. The House amendment reduces this amount to \$250,000.
 - The Senate version for the Juvenile Services Division includes funding for the purchase of 50 new desktop computers and nine new laptop computers, valued at a price of \$2,200 per desktop and \$1,600 per laptop. The House amendment reduces the budgeted price to \$1,400 per desktop and \$1,200 per laptop.
 - The total number of desktop computers budgeted to be requested by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 76 to 55. The number of laptop computers purchased is reduced from 30 to 28 for the Juvenile Services Division.
 - Funding is withheld for testing print expenditures at the Youth Correctional Center, reducing video-stillery reports funding from \$65,200 to \$20,000.
- This amendment also adds the following sections:
- Section 5, which directs the Legislative Council to consider studying issues relating to inmate wages and various deductions from those wages.
 - Section 6, which directs the Legislative Council to consider studying the facility needs of the Department of Corrections and Rehabilitation.
 - Section 7, which provides that if federal funding is reduced during the 2001-03 biennium, the department may not supplement the federal funds with general or special funds. The department must also identify any programs included in its 2003-05 biennium budget request for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.
 - Section 8, which provides that any moneys budgeted by the Youth Correctional Center for teacher contracts for the summer education program but not spent for that purpose must be returned to the general fund at the end of the 2001-03 biennium.

- Section 9, which authorizes the department to transfer funds between the subdivisions and program line items included in the bill for the purpose of providing for computer purchases.
 - Section 10, which directs the department to report to the Appropriations Committee of the Fifty-eighth Legislative Assembly on the effectiveness of the prelease and DJJ offender treatment programs.
 - Section 11, which provides that any moneys budgeted for the operation of the prelease center but not spent for that purpose may not be used for any other purpose except contracting for inmate housing.
 - Section 12, which provides legislative intent that the department seek federal funding for the drug court program. If federal funds become available, the department must spend the federal funds in place of the special funds appropriated for the program; the special funds appropriation for the program must then be used in place of general fund moneys appropriated for other programs.
 - Section 13, which amends North Dakota Century Code (NDCC) Section 12-59-02 to increase the compensation rate for Parole Board members from \$62.50 per day to \$75 per day.
 - Section 14, which creates a new section to NDCC Chapter 54-23.3 to require the department to report to the Legislative Assembly or the Budget Section before establishing any new correctional program.
 - Section 15, which amends NDCC Section 54-23.4-06 to require that crime victims compensation awards may not be provided to a claimant until the claimant has pursued all collateral sources of funds.
 - Section 16, which amends NDCC Section 54-23.4-12 to provide that if crime victims compensation is awarded, the department has the right of subrogation to implead a claim for relief to recover funds from a collateral source.
- REPORT OF STANDING COMMITTEE**
 Education Committee (Rep. R. Kalach, Chairman) recommends **DO PASS AMENDMENTS AS FOLLOWS** and when so amended, recommends **DO PASS (15 YEAES, 0 NAYS, 0 ABSENT AND NOT VOTING)**. Engrossed SB 2202 was placed on the Sixth order on the calendar.
- Page 1, line 10, remove the overstrike over "seven"
 Page 1, line 11, remove "six"
 Page 1, line 14, replace "year" with "calendar"
 Page 1, line 15, replace "if a six-year-old child is in attendance at a public school kindergarten for the" with "if a person enrolls a child of age six in a public school, beginning thirty days after the date of enrollment the person shall ensure that the child is in attendance at a public school for the duration of the school calendar."
 Page 1, remove lines 16 through 18
 Page 1, line 23, remove the overstrike over "seven" and remove "six"
 Page 2, line 1, overstrike "year" and insert immediately thereafter "calendar"
 Page 2, line 3, replace "if a six-year-old child is in attendance at a public school kindergarten for the" with "if a person enrolls a child of age six in a public school, beginning thirty days after the date of enrollment the person shall ensure that the child is in attendance at a public school for the duration of the school calendar."
 Page 2, remove lines 4 through 6
 Re-number accordingly
- REPORT OF STANDING COMMITTEE**
 Government and Veterans Affairs Committee (Rep. M. Klein, Chairman) recommends **DO PASS** and **BE PLACED ON THE CONSENT CALENDAR (13 YEAES, 0 NAYS, 2 ABSENT AND NOT VOTING)**. SCR 4049 was placed on the Tenth order on the calendar.

Minutes:

Senator Nething, Chair of the SB2016 (Department of Corrections and Rehabilitation)

Conference Committee, called the meeting to order at 11:00 AM, Friday, April 13th.

Roll Call: Senator Nething, Chair; Senator Kringstad; Senator Robinson; Representative Svedjan; Representative Delzer; and Representative Warner. All present.

Senator Nething: House address their amendments (18042.0208)? Appears there are thirteen (13) new sections and some other changes-- let's start with the new sections?

Representative Delzer: Section 5 of .0208 amendment: House members wanted to make sure child support being cared for by the inmate payments; not going for capital construction or anything else. Felt study required.

Senator Nething: Problem? Did you ask Corrections?

Representative Delzer: Pretty much -- but House wanted language clearly stated.

Page 2

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 13, 2001

Representative Delzer: : Section 6, study of field service; again a legislative council study -- felt a need to be sure department's existing facilities are being used adequately and utilized appropriately.

Senator Robinson: The engrossed SB2016 did include section 5 -- as the Senate placed there -- legislative study language there -- maybe work together?

Senator Nething: Maybe same?

Representative Delzer: Felt this is what the House wanted to say.

Senator Robinson: Engrossed SB2016 is in compliance --- reasonable? Possible same?

Representative Delzer: Having 2 is better.

Representative Delzer: Section 7 -- Felt a need to identify programs when federal funding drops and program falls short.

Section 8: Regarding teachers contracts --- salary line item; amount is for 12 months --- amount is there if CY teachers are employed -- if substitutes are used -- there is a lesser wage paid, and if so, the excess dollars would be given back -- could be something like 40 thousand dollars.

Section 5 Reduce 20-15 percent --- 1400 and 1750 are more accurate cost figures.

Senator Robinson: Believe the reduction cost of computer is more accurate, in part due to some recent information we received. But the number of reductions -- done arbitrarily, with department's knowledge, input?

Representative Delzer: List we had -- department was doing 4 year replacement cycle --- we looked at other departments plans.

Senator Robinson: Replacement cycle now? Surplus -- Putting more out in the system?

Representative Delzer: Doesn't -- no change and go to surplus; more to systems -- perhaps a 6 year replacement cycle.

Page 3

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 13, 2001

Senator Robinson: Extending life of technology --- as we move to alternatives, some can be placed in a lesser used traffic area -- compounding the problem?

Representative Delzer: Section 10: report next session --- goes with control, understanding.

Section 11: Concerns about quick up and running versus quick for dollars -- contact private sources for services.

Representative Svedjan: Indication that it is appropriate to have this --- delay in getting started --- there was indication that one new program began January 1 --- using some of section 11 area dollars. House felt if dollars were not used for the original purpose -- use it for contracting inmate bed -- only. Not for new, different program.

Senator Nething: Something occur?

Representative Delzer: Understand there was a drug program - perhaps 2 that began January one of this year --- using FTE's and funds used and requested more.

Senator Nething: Wrong?

Representative Delzer: Like to know, beginning program in January -- legislative session has begun -- why not know about it before the session starts?

Representative Delzer: Section 12: district judge(s) there's a possibility of federal grant dollars --- if comes it would take the place of the special funds -- special funds back to general funds (some 30 thousand dollars).

Senator Nething: Don't they always seek federal funds when they can?

Representative Delzer: Save general dollars, use special fund budget.

Senator Nething: Don't they operate that way?

Representative Delzer: Goal is to save general fund dollars.

Representative Svedjan: We've done similar adjustments in departments of Health and Human Services --- general funds pending--- existing special funds spent first.

Senator Nething: Seen a misuse? Implication is that's not being done --- change only legislative intent?

Representative Delzer: No point, possibility of grants -- covers scenario.

Section 13: raises pay of the parole board.

Senator Nething: Same as legislatures, thought it was?

Representative Delzer: Four years ago when the legislature pay was increased -- the tie was split -- 62.50 for some, others differently --- now 100, 75 here. Some OMB language: cost of 33 thousand dollars.

Representative Svedjan: Some disparities in budgets regarding 62.50 - 75. This is an attempt to standardize --- or perhaps OMB budget should be amended to accommodate?

Senator Nething: Interim Committees --- mileage and expenses are same here?

Representative Delzer: Important that the Board be 75.

Section 14: The legislators should be giving information regarding new program that begin --- regardless of the fact they were perhaps brought before the Budget Committee, Interim Committees.

Representative Svedjan: Perhaps we could write it differently --- realize it is necessary to try new programs at times -- may even be a shot in the dark but worth pursuing , but we need to know if they are accomplishing what we need to have done --- reduction in bed utilization. Need to have some input, it's not a matter of being all knowing.

Senator Nething: No experts here either -- the experts are within the programs, they are the ones who need to know what may/may not work.

Representative Svedjan: Need to have information for legislative impact --- the bed utilization is legitimate, real --- at a significant cost.

Senator Nething: Experimental program?

Representative Svedjan: Experimental for us --- I feel primary reason for embarking on this is to take heat off demand for beds.

Senator Nething: Rehabilitation -- cuts down on having inmates coming back?

Representative Delzer: Policy and appropriation for State -- partly in conjunction with the Executive Branch --- this is to get budget and appropriations in the loop --- keeping everyone informed.

Representative Delzer: Section 15 and 16: Field service --- giving crime victims another avenue for retrieving medical costs from offenders. When the judge(s) finish the day --- there is no way to get after dollars in no proclamation by the judge(s). 80% of costs can be documented by judge(s) --- and 20 percent of that is often medical coverage --- victims should get dollars from the offender(s).

Senator Nething: Compensation for claimant? Victims must pursue? Authorizes it? How does this work?

Representative Delzer: They, or the department can go after offenders.

Representative Svedjan: The intent is to support victims. Basically, we'd like them to be awarded the money from the offenders before they approach the Crime Victim Fund --- pursue all other sources -- get as much to the victims; the fund being the court of last resort.

Representative Delzer: Crime Victim Fund is hard to sustain.

Senator Nething: Victims are usually helpless, need immediate help --- now there appears to be a delay in getting that help?

Page 6

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 13, 2001

Representative Delzer: Most help is made in direct payments to the medical institutions. Perhaps we could make the language better -- we are open to some help there.

Senator Nething: How this helps the victims? Offenders pay --- but the victim has to do it!

Representative Delzer: Sections 15 and 16 together speak to it.

Senator Nething: Did the House bring in any dollars for this?

Representative Delzer: No.

Senator Nething: Perhaps this is not such a big deal --- not a lot of work?

Representative Delzer: Might be the case -- some additional work, but not worth additional dollars.

Senator Nething: Decisions that are needed make, time?

Representative Delzer: No more than what has been done.

Senator Nething: Puzzled? See 2 sections, burden to victims

Representative Delzer: Open to new language.

Senator Robinson: Process --- if I were a victim, I'd want closure --- get it over with, this appears to prolong the situation --- makes it cumbersome. In reality hard for the victim.

Senator Nething: Section 16 --- led to believe the department needs legal help -- going through the process is something only lawyers can do --- If I'm accurate, where are the dollars for this type of assistance?

Representative Svedian: We understand the division has access to legal counsel --- not a new avenue for appropriation dollars --- other than judges.

Senator Nething: Pay already includes new duties??

Representative Svedian: Way it is now --- not sure this would consume a lot of time.

Senator Nething: New, broadening base.

Page 7

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 13, 2001

Representative Delzer: May need to change the wording --- purpose is not to victimize the victim; it's a new avenue to pursue.

Senator Nething: Making claimants go through this action --- more definition for dollars.

Representative Delzer: If that the way it's interrupted ---need to change wording.

Representative Svedjan: Alternative to spending down the Crime Victim Fund --- this is an avenue to open something up --- need to look --- go to supplement the Crime Victim Fund?

Senator Nething: It is a problem -- most of those going to the Fund are battered women.

Senator Robinson: The intent is to structure -- protect the fund? Victims need that support immediately?

Senator Nething: Unintended consequences?

Representative Svedjan: Better way -- better wording, need to get at it.

Senator Nething: We'll close the meeting, and plan to work through the various division at the next meeting--- think through the 13 sections, now that we both know what each was thinking.

Minutes:

Senator Nething, Chair of the SB2016 Conference Committee (Corrections and Rehabilitation Department), opened the meeting at 9:00 am, Tuesday, April 17th in the Harvest Room.

Roll Call showed that all members of the Conference committee were present. If we could take these the way they are presented. Start on Adult Services, and work our way through it.

Representative Svedjan, I would like to make a couple of introductory remarks before we start. This is to give the Senators a glimpse of how we reviewed this budget. We worked off of the organizational chart. The chart breaks it down into three divisions; the central office, the juvenile services division (YCC & Community services), the adult services section, and Roughrider Industries. We looked at what was being requested for FTE's, position vacancies, and tried to determine if there were vacancies, how long have they been vacant and are these positions still needed. We requested from the agencies, a spend down report, looked at the

appropriation for the current biennium, we compared spending to date in each of the line items of the budget, and compared the spend down to what they are requesting, taking into account any extraordinary circumstances. Also did the same kind of analysis when it came to equipment budgets, grants, to help us determine whether or not what was being requested was realistic. We did a detailed analysis on the request for capital construction and if it was justified. We factored in several alternatives to incarceration programs, and the impact those programs would have on additional bed space. We consulted with Judiciary to help us determine what the most appropriate projection was for the impact those programs should have on freeing up bed space. Is there a way we can afford to put money into those programs. We went into significant detail in our analysis of all of the line items in this budget.

Representative Delzer, Page 4 is where lists all the major changes. Page 5 starts to break them down. Footnotes start on Page 6. The first line on Page 5 is to reduce funding for DUI offender treatment program. The footnote on Page 6, it says we reduced it from \$2, 139,284 to \$1,600,000, to reflect a reduction in administrative costs allocation charged by the State Hospital. We compared this program to the TRCU, and the cost of the TRCU. We came up with the cost of \$77.00 per day, times the number of inmates they will have, times the 2 years.

Senator Nething, What is footnote 1. I did not see the \$77.00?

Representative Delzer, It is not in there anywhere. That is the number we came up with, and the number we used for the cost of the TRCU. The \$ 1.6 is a little over that. Footnote #2 is to reduce computer prices. Look at the explanation on Page 6, the Senate version for Adult

Services included 47. The number we changed is #3. The House amendment changes the price for the computer to \$1400 for desktops and \$1750 for laptops. Computer prices have come down considerably.

Senator Nething. Where did the number come from that you were using?

Representative Delzer. We used some actual one time quotes. It is the next footnote. Footnote #2 is the price of the computer. Footnote #3 is where we adjusted the number of computers by 27% and we actually looked at 25%.

Senator Robinson. What are we looking at when we reduced that number from 106 to 77?

Representative Delzer. One of the things happening in the Department of Corrections, we have the list of computers they want. What they are going to do with the ones they are replacing, they want to replace everything within 4 years, is what they are asking for. The problem the State has, that they are not replacing, they are taking computers and moving other ones out to other people. The actual number of computers is growing largely within that program. We have to ask what these computers are doing for us. How much is technology driving us and how much are we driving technology, and how much are we receiving for this. We did not see a validity in allowing the total growth of this.

Senator Robinson. With reference to the departments technology plan that is filed every year. The department is taking used computers and using them again and again. If you question the

number of computers, the life expectancy of that technology if we are looking at a 4 year period, we probably have computers there that are older than that, and are probably 6 years or older.

Representative Svedjan, #1 for our section to know that they want to take these replaced computers and put them in service elsewhere in the Department of Corrections, is in itself an admission that those computers are good enough to continue to be used. The tightness of the funds available in this budget,, money is short. We have asked in this budget and the Human Service budget also, that we slow the replacement cycle, because we believe there are other uses that hold priority over computer equipment budget. It is easy to take money away from programs that provide services to people to use those funds for hardware and software. For the computers that are being replaced to be put into service elsewhere in the department. 2 years from now we are going to see requests for replacements that are even greater than what we have today. Sooner or later we need to start seeing that the application of technology is befitting us not only in terms of what we do but also in terms of money we can save. We are not seeing that yet.

Senator Nething. How do you integrate, what you have told us the information that is conveyed How does that impact the purpose of the information, how do you weigh that in determining whether they need a computer or not. The computer is there for a purpose, how do impact that purpose by saying yes, you are going to have a computer, or no, you are not going to have a computer?

Representative Svedjan. My contention is if agencies were told that there would be no new computers, I think we would survive. For those computers designated to be put in service elsewhere in the corrections budget, we will play no role in deciding where those computers will be put in use. That is the departments decision, and it is also a management decision as to who gets the new ones. There are some areas that need the most current computers, and there also are areas where you don't need that capability.

Senator Nething. What do you use to make that decision with? How do you determine what they need and don't need?

Representative Svedjan. We can only go by what we were told. The numbers in terms of reduction, price etc. are our numbers. We heard in testimony that there is need in certain areas. I see this as a management process to determine where the new equipment will be placed versus getting along with what you have.

Senator Nething. When the 27% figure came up, is that what was used for the adjustment number?

Representative Svedjan. We want to slow the growth by 25%. This was our choice. Slowing the growth by 25% seemed reasonable, to go to 50% might be unreasonable. We felt the need to slow the growth to reserve funds that would otherwise go to equipment to try to use those funds to apply to programs that serve the people.

Senator Nething, If we provide information that indicated that growth factor should be bigger, would that be acceptable?

Representative Svedjun, For you to provide it, would be acceptable.

Senator Nething, Would you agree to it. What about if it should only be 15% growth factor?

Representative Svedjun, Would need to build a case. We were given a sizable packet of information. It is an aging report of equipment. There is 16-18 pages that we tried to factor into our decision.

Representative Delzer, We also got a list of which ones they are replacing now and what they are doing with the replacements. They wanted to replace all the computers in the central office and move the replaced ones out to other places. We listened to the agency testimony, asked questions, and then formed our decision. Once our decision was made, we did not go back to the department.

Senator Robinson, We are not allowing technology to drive this budget. The inmate population drive the budget. We do have situation where the inmate population is growing by leaps and bounds. We are asking this agency to respond in appropriate ways. I think technology is central to that.

Senator Nething. The dollars they are talking about is \$42 thousand. We will be revisiting this. What they are explaining is their methodology they used.

Representative Delzer. The next one is #4, which is the SMI unit. We discussed this extensively, and decided we did not believe there was sufficient return on the investment. We could not see that there was any mistreatment of inmates, granted we accepted that it would be much easier for the corrections department to have everyone put together like this. When we looked at everything, looked at the added cost of having to rent from Stutsman County for the Forensic Unit in Jamestown, we decided to remove the SMI unit for the next biennium. We think it should be part of the consideration of the study. The one we put in was mostly about the facility and where we are going with facilities. The ones the Senate put in were mostly on alternatives incarceration. They work together, but they are different studies. We also have some real concerns about the availability of personnel in the Jamestown area, because there are 28 new FTE's.

Senator Nething. What did you use to determine that? Did you get Job Service information or the job market?

Representative Delzer. The problem is if we put in the SMI inmate and say that there are personnel to cover that. We can make that step 2 years from now. If the legislature decides in 2 years that we need a new State Pen, we could not take it back.

Senator Nething. You did not talk to anybody in the local market to arrive at your decision?

Representative Delzer, We did not ask anybody from Jamestown to come in to testify.

Representative Svedjun, We do have information from an individual who was in the employ of the James River Correction Center. I know that you have to be careful taking information like that from only a handful of people. It became clear to us, that not only is there difficulty recruiting and retaining employees, but there was some question raised about management.

Senator Nething, My interest is our local community through its Job Development Corporation has spent considerable dollars trying to determine the employees that are available for a variety of work sources. I needed to know if you had talked to them.

Representative Warner, I am very uncomfortable with information that was not received in public hearings. This apparently was secret information and was not widely shared between the committee. The community of Jamestown has a long history of providing workers to the psychiatric industry. If we had been more proactive in the treatment of the mentally ill, we would not be seeing the need for so many services to the seriously mental ill and the prison population. I do not support the removing the funding for the SMI. I hope the committee will consider restoring the SMI to the budget.

Senator Nething, The Senate was convinced initially that this was a concern that this is just not happening to North Dakota, but all over the country. It is how to deal with this population. It is real, and what do we do. That is why we had left it in. We thought the program they indicated to us would be worthy of funding.

Senator Robinson. I agree with your comments and the comments of Representative Warner.

We have a need and we have a significant population and it would be a mistake to delay, to postpone an issue that we know needs to be addressed now.

Representative Delzer. Do we want to debate all these as we go through them or do we want to go through them and come back to them.

Senator Nething. We are trying to get an understanding of why you made the changes. It helps us to understand the changes that you made. Once we understand them, we will come back to you with a proposal of our changes, we think are acceptable and those that are not.

Representative Svedjun. In this case, it could not be shown clearly that #1 it is a significant problem. It is for that reason we believe that the SMI issue needs to be studied so we have a clear understanding of what the true nature and scope of that problem is. #2 is to look at this financially. For us to improve \$2.5 million for something that we are not sure the problem is serious. For it to yield no positive impact, if anything it may have a negative impact. We felt it was premature to approve this.

Senator Robinson. The Senate felt comfortable that this is not only North Dakota problem, but also a national problem, and it is only getting worse. We have significant population in correction, and it is growing. We identified this problem years back and we knew it was here 2 years ago. To say it is unfounded is not the case.

Senator Nething. Did I get the impression that you say it is not a significant problem?

Representative Svedjan. We have SMI offenders who are incarcerated, and we have had them for many years. What I referred to was that it could not be shown clearly that the SMI patient is seriously detrimental to the inmates. For that reason, we could not see putting that amount of money that would not give us some additional benefit, particularly in the area of bed space.

Senator Nething. As far as you folks were concerned, it was not demonstrated to be a significant problem.

Representative Svedjan. It would be interesting to see from the Senate side, any information you had to show that was the nature, and will still be a problem.

Representative Delzer. We were given information that it was the 3rd priority on the list and that there were 8 - 10 SMI people in crisis at any one particular time. We could not see a marked improvement in bed availability or enough of a demonstration before we decide on the total direction.

Senator Nething. Are there any more questions on why they removed the funding? Lets go on to Item #5.

Representative Delzer. We took \$60,000 out of the operating expenses, and we added the change in the Parole Board from \$62.50 to \$75.00 per day.

Representative Svedjan, I think we all understand for any adjustments made in the operating lines, they all roll up in one. So that \$60,000 by itself might look like a sizable amount of money. That amount is generated from the 12 - 14 lines in the budget.

Representative Delzer, Institutional Offender Services of \$3.8 million on that line. We looked at postage, telephone, travel to trim down.

Representative Svedjan, That is what I meant in my introductory remarks, where we took a look at their spend down, factored in extraordinary between now and the biennium and compared that to their budget request. We made adjustments where we felt were necessary, and rolled them all up for a total \$60,000 adjustment. We also adjusted the Parole Board compensation.

Representative Delzer, #6 is the community offender services line. There we did a reduction of \$14,000 in temporary salaries. Operating expenses we decreased to \$407,000. When we looked at this and took out what we thought were over expenditures or over budgeting for the next biennium.

Representative Svedjan, What Rep Delzer said about adding \$200,000 back. If you look at the operating expense line item that shows a reduction of \$407,000 under Community Offender Services, we had that initially at \$607,000. We brought it down to \$407,000.

Representative Delzer, The next line, the Funding Source Change, on Page 6, \$60,000 changes it from the general fund to the special fund. That has to do with last time when we changed the

fees for supervision from \$30.00 to \$36.00 per month, was not figured into the budget. The next change was we removed one of the Parole Officer 2 position. The salaries and wages and operating expenses, they were asking for 4 to start with and we ended up allowing 3. 2 in Fargo, 1 in Devils lake, and 1 in , don't remember where. We looked at the case loads and what they want to do, we felt that 3 was enough. We did not look at just case loads, but everything. There is support charges of \$800 per month for every office that is out there. I do not believe that this was a unanimous decision of the committee.

Representative Warner. We tried to look at the geographic dispersion of the parole officers where the need is the greatest. The parole officers have everything to do with determining if they stay out on parole, or if they return to the prison. The comfort level that they feel with the community safety issue, has an enormous effect on our bed count. When they start feeling they are marginalized, they are less comfortable.

Representative Delzer. #7 is the Support Services line, which is pretty much the State Pen. On page #6 of the amendment, we have various reductions and additions. The temporary salaries we reduced by \$8,000. All of these were done with the same methodology we used in the other lines. The total reduction was \$618,618.

Senator Nething. What would change in a study to determine if a parking lot were needed?

Representative Svedjan. #1, you need a plan. There was question 2 years ago about whether or not it was the best plan relative to the need for a parking space. That has not been clarified. The

nature of the discussion in committee was that for us to proceed with an expenditure of that amount, we need to know that we are doing it right. Until we know what would be the best plan for that, there are less expensive ways.

Senator Nething. You don't think a legislative study would put together a plan, do you?

Representative Syedjan. No. I am saying that there needs to be a plan. We have a list of all their extraordinary repairs where we asked them to prioritize. We worked from the bottom up to arrive at our number from the lower priority, moving up, to determine an amount, but we did not specify that they could not purchase those things or do those things that were at lower priority.

Senator Nething. Is this all that had been allowed for extraordinary repairs?

Representative Delzer. No, I believe it was \$484,000 or \$684,000. On the parking lot, the only thing I could see. We need to talk whether we need to replace the whole section of the pen, that may make a difference of where the parking lot should go.

Senator Nething. We are going to stop now on this item, and we will pick up on Line Item #8 at our next session, which I hope will be tomorrow morning. We will stand adjourned until subject to the call of the schedule.

Minutes:

Senator Nething, Chair of the SB2016 Conference Committee (Corrections and Rehabilitation Department), called the meeting to order at 9:00 am, Wednesday, April 18th in the Harvest Room.

Roll Call: Senator Nething, Chair; Senator Kringstad; Senator Robinson; Representative Svedjan; Representative Delzer; and Representative Warner responded. All members present.

Senator Nething: Believe we left off on item # 8 - page 5 of House amendments -- regarding Program Service ..

Representative Delzer: House reduced a total of 20 thousand dollars. Here again, we did the analytic work using the spend down documentation received from the department, and we worked in projected costs.

Senator Nething: Consistent pattern as used before with the spend-down to arrive at that figure?

Page 2

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 18, 2001

Representative Svedjan: As stated before, we used the document of spend-down to date as provided by the department, didn't just average costs --- asked during the testimonies; and each Representative (hearing the testimony, not just the three of us) kept a tally where they felt excess was budgeted. We had a collective response from the members -- which indicated there were up 6 from projections on 3 budgets.

Senator Nething: Professional services and support? Overspent?

Representative Svedjan: In the program services, a lot of the expenditures related to the law library -- we considered expenditures and projected expenses -- felt reduction would not effect productivity.

Senator Robinson: Did you involve the Department? All Committee?

Representative Svedjan: Can show the committee vote on each amendment --- we took all the testimony, input from committee members, and then we felt it our job from that point on --- We did not consult with the full committees on every instance.

Senator Nething: #9 - Security and Safety?

Representative Delzer: Reduced 25 thousand, same methodology.

Representative Svedjan: Prison has 3 divisions: 1) support, 3) program and 3) safety.

Representative Delzer: All works together -- and all rolls up to one line item.

Senator Nething: Don't feel this will jeopardize safety?

Representative Svedjan: Reduction is in operating -- 25 thousand -- can be taken from various areas -travel, professional training etc. No, it won't jeopardize the safety/security.

Senator Nething: What is the total dollar in the budget? General fund lid 19 million 20.4 all?

Representative Svedjan: Figures taken from their testimony -- 24 million; 465,778 federal funds 25,920,230, I believe.

Page 3

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 18, 2001

Senator Nething: Adult support dollars?

Joe Morrissette, Legislative Council Staff Analyst: House figure of 23 million 4577 thousand

includes contracts, all correctional offices.

Senator Nething: 25 more off that total?

Joe Morrissette: Already off the House version.

Representative Delzer: #10 Victims Services -- again, looked at the spend-down etc. We've talked about this before.

Representative Svedjan: Victim Services- Adult is part of Field Service Division.

Senator Nething: Same as we talked earlier, yes -- reason for reduction in salary - temporaries used.

Representative Delzer: Over budget for needs we felt.

Representative Svedjan: None spent on temporaries on information we received to work with; projected usage 'til year end.

Senator Nething: Ask why no spending there?

Representative Svedjan: Again, the same methodology used; some funds left there.

Senator Nething: Number one capital project prison beds?

Representative Delzer: Building (2 facilities), study in section 5 covers that -- under physical management? 75 beds contract included -- Fargo beds are available --- put off building for 2 years --- look/study.

Representative Svedjan: Looked at 3 options 1) new women's facility at Jamestown; 2) renovating facilities; and 3) combining with MRCC -- studied the impact of incarceration on bed space. We talked to personnel in the courts -- agreed that one pilot program could free of as many as 25 beds. We felt there is a need to give the alternative programs a chance -- it is not the

Page 4

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 18, 2001

time to do any building -- check how effective the new programs are. Realize the alternative programs are in uncharted waters - but need to allow them to demonstrate a bed reduction.

Senator Nething: We'll exchange numbers on the issues in #12.

Representative Delzer: Women's unit -- #13 is same -- increased cost of the unit.

Senator Nething: Cost used, per day? Asked/checked with the department?

Representative Svedjan: Daily costs in the county 35-45 per day -- believe we used 50 or 55 -- Joe, know the exact figure?

Joe Morrisette: Executive budget figures: 45 first 55 beds; 50 for each additional.

Representative Delzer: Took testimony, accepted written materials, asked questions -- then made decision based on the methodology we used throughout the budget -- all meetings were open forum. No we did not call them regarding our decision - get their viewpoint.

Representative Svedjan: We asked the department to crunch the numbers.

Senator Nething: Central office - page 7? Salary line adjustment?

Representative Delzer: Deleted one FTE-- footnote on page 8.

Senator Nething: Removed 1? The department testified there was a need - not justified in House?

Representative Delzer: 2 systems combined -- didn't feel the need for 2.

Representative Svedjan: Relates to IT costs -- included both location.

Representative Delzer: Reduction in number of computers came into play -- note the second footnote on page 8. Less computers, less people needed.

Dave Krabbenhoft, OMB Analyst: Original request was for 2 IT FTE technicians -- 1 remained.

Representative Delzer: Over budgeted in the temporary line.

Senator Nething: The 125 thousand, as the Senate was told, was to bring beginning salaries up -- starting at 1300 per month positions.

Representative Delzer: 1222 or 222 to the CEO -- the 125 adjustment for those who had started at lower wages, and were now after being there for some time, found entry personnel coming in at their same salary levels.

Senator Nething: Testimony indicated that starting at 1300 monthly -- then after 6 months went to 1600 monthly -- but that was a recruiting problem -- no one wanted that type of job at that salary.

Dave Krabbenhoft: This 125 general salary dollars for the whole agency; Senate was to correct from 1350 to 1675; department privy to how dollars should be used/where best impact made.

Senator Nething: Operating expenses -- 11 thousand reduction? Back to analysis used -- spend down, look at anticipated expenditures?

Representative Svedjan: Yes.

Representative Delzer: 3-4-5 (page 8) are all IT issues -- servers involved.

Senator Nething: Servers are an intricate part of the system?

Representative Warner: Agree, reported to us that some of the functions are performed through the current desktops -- which are getting overloaded.

Representative Svedjan: Some of the rationale is an attempt to slow the IT growth - same rationale used (as in other areas of the budgets) for the servers, computers.

Senator Nething: Why not zero servers? Computers going to a 6 year cycle?

Representative Delzer: Senate justified budget funds just because the department said it was needed?

Senator Nething: Guess we literally take them at their word. The Governor felt it was justified -- just checking if extra information was received in the House.

Page 6

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 18, 2001

Representative Svedjan: Same methodology used regarding the servers. Realize there may be some tough decisions that may have to be made -- we want the department to make those decision with no hamstrings. The vote on this amendment was 6-0.

Representative Delzer: Page 8 - temporary salary reduction.

Representative Svedjan: This request was made by the department.

Representative Delzer: Footnote 2 - operating-- used 21 cents as the base for transportation -- believe that should be adjusted to reflect new numbers.

Joe Morrisette: Fiscal note shows \$9,525 should be added to cover change there.

Senator Nething: #3 - equipment reduction -- same analysis?

Representative Delzer: Yes, figured from list of items given us -- such things as desks -- others.

Senator Nething: Summer School program reduction?

Representative Delzer: As discussed the other day, if all YCC teachers not used, and temporary teachers hired -- there would be 40 thousand less spent.

Senator Nething: #4 -- 21 teachers have 3 & 2 in budget?

Representative Delzer: Still comes to 9000 including compensation --- compared to the Mandan/Bismarck/State, the number of kids etc.

Representative Svedjan: Council did analysis for us -- factors in passage of pay increases ---some rationale used here was to balance with the teachers in the School of the Blind and Deaf, which we don't believe is of nature and scope is comparable.

Senator Nething: Risk factor -- students being taught?

Representative Svedjan: Safety/security personnel around at all times --- don't think that is a problem. Also class size is smaller.

Senator Nething: Standing in relationship to HB134'.

Page 7

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 18, 2001

Representative Delzer: Larger than average teachers will get.

Senator Nething: As it left the Senate -- increased salaries up to regional level

(Mandan-Bismarck) -- lacked 1750-1750 funds at that time.

Representative Svedjan: Council report indicated Bismarck average : 34,724, with governor's increase: 38,224; Mandan: 28,878 average, with governor's increase 32,378. YCC total dollars - now to conform in the neighborhood of 5 thousand something.

Senator Nething: all increases?

Representative Svedjan: 6238 average for 21 instructors.

Senator Robinson: Which brings higher than Mandan/region but below Bismarck.

No further discussion; Committee meeting recessed until the call of the schedulers.

Tape # 1	x		27.9 - 37.4
Committee Clerk Signature <i>Janice Pitsch</i>			

Minutes:

Senator Nething, Chair of the SB2016 Conference Committee (Corrections and Rehabilitation), opened the meeting at 10:00 am, Thursday, April 19th in the Harvest Room.

Roll Call: Senator Nething, Chair; Senator Kringstad; Senator Robinson; Representative Svedjan; Representative Delzer; and Representative Warner.

Senator Nething: Believe we begin today with #5 on page 8 of the House amendments.

Representative Delzer: 5 and 6 are computer -- same process applied by the House.

#7 the House reduced dollars by the heat plant improvement sum.

Believe Senate switched some fund to land board dollars?

Senator Nething: Gravel money.

Senator Nething: page 7 -- ask department to find area of reduction? Check the need when cutting from 65 to 19,600?

Representative Delzer: House denied the heating plant improvement.

Page 2

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 19, 2001

Senator Nething: Testimony regarding the need? Age of plant?

Representative Delzer: No information given, House felt they could get by for 2 more years. Not sure of the age. Request was to upgrade; did not indicate it was broken.

Representative Svedjan: As we recall, this is the first time it has been in the budget; first time requested.

Senator Kringstad: Is it possible that the improvement of plant would reduce the fuel costs?

Representative Delzer: No testimony to that effect. We did receive the department priority list and the heating plant was #4.

Senator Nething: Provided for the first 3?

Representative Delzer: Yes; but there was a split vote on the fire suppression.

Senator Nething: Questions regarding the Juvenile Services? No responses.

Representative Delzer: Board raised to 100 --- any talk to equalize all boards --- 75 to 100?

Senator Nething: If legislators serve on board -- their pay is same as legislative pay -- and there are legislatures on this board --- determined best to pay all board members same amount.

Representative Svedjan: Believe there are a number at 62.50- -some at 75; ours 100 -- and believe there is one at 40 -- just wondered if there was talk to standardize:

Senator Nething: Just had one at 40 -- moved to 75; another bill.

Representative Delzer: HB1012?

Senator Nething: Legislative representation -- yes.

Senator Nething: Believe we have covered all of the amendments. We understand the computer -- consistency; other changes were based on your use of the spend-down report and your instrument measurements used. Now it's a matter of having the Senate members reviewing their

Page 3

Tape Number	Side A	Side B	Meter #
Tape # 2	x		10.6 - 38.0
Committee Clerk Signature <i>Annie Pietsch</i>			

Minutes:

Senator Nething, Chair of the SB2016 Conference Committee (Department of Corrections and Rehabilitation) opened the meeting at 10:00 am on Friday, April 20th in the Harvest Room.

Roll Call: Senator Nething, Chair; Senator Kringstad; Senator Robinson; Representative Svedjan; Representative Delzer; and Representative Warner were present.

Senator Nething: All members present, couple quick announcements before we continue with our discussion on SB2016: Tomorrow (Saturday) we will have conference committee meetings on higher education at 9 and 2 (SB2003); Human Services (HB1012) at 10 and 3; and corrections (SB2016) at 11 and 3, afternoons are if needed, of course.

Senator Nething: We have talked about the youth correctional portion -- teachers salary in particular. I have had the Legislative Council prepare a memo regarding this subject - distribute at this time (a copy is attached), and will ask Joe to go through it with us.

Page 2

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 20, 2001

Joe Morrisette, Legislative Council Staff Analyst: Went though the documentation -- indicating the Youth Correctional Center provided their figures rest came from NDEA. He did respond to a question of the other day -- not included in this memo, but information obtained from YCC-- there are 5 of the 21 teachers who have master's or higher degrees .

Representative Delzer: Include 3 and 2?

Joe Morrisette: No, salary schedule that they did.

Senator Nething: Fair without 3 - 2?

Joe Morrisette: Percent applies to each position -- not sure if any teachers receive more -- not my understanding.

Representative Delzer: Question asked? Is it there -- give if they want to? All one line so they can use temporaries?

Dave Krabbenhoft, OMB Analyst: Way the Cyber program calculates -- amount to catch up -- Joe's schedule is how it's done, would be difficult. In some districts the 1750 may be only raise they will get.

Joe Morrisette: 32,706 comes from them; how 200 thousand funding would be distributed.

Senator Nething: Salary projected over based or justification of 200 thousand or that plus 3 and 2 -- seems to be the question?

Representative Svedjan: 3 and 2 there in addition to 200 thousand?

Senator Nething: We'll have Joe clarify that.

Representative Delzer: Surprised that the averages are not higher considering the first and second year raises?

Joe Morrisette: if 3000 per; would be 9000 per teacher.

Senator Nething: 21 times 9 equals 200 thousand level?

Page 3

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 20, 2001

Representative Delzer: That is 2nd year? 3000 first, 3000 second?

Joe Morrisette: YCC gave the 29,196 average -- 32,316 next year; 32,706 following year.

Representative Delzer: Need to be figured -- 3000 per biennium?

Joe Morrisette: Equity the first year; cost of living the second year.

Senator Kringstad: The last page of the handout -- refers to lanes they're in -- all YCC teachers -- indicates there 9 + masters--- need to question documentation -- what's included in the model/

Joe Morrisette: Pages preceding should give answers.

Representative Delzer: Salaries are based on 9 months -- they can work for 11 of the teachers during the summer if they wish?

Senator Robinson: Consistent with using 9 months?

Senator Nething: We'll ask Joe to get the answers.

Senator Nething: The Department has provided us with a priority list for reinstatement of cuts which I distribute at this time (a copy is attached). Let's start the discussion with #1.

Representative Svedjan: We'll need to go back for details -- we spent some time analyzing -- using the spend down methodology as we'll stated before. We tried to determine where excess dollars were -- wonders why over budgeted -- need to budget to reality; reduce dollars for turnover -- that's smart budgeting --- consistent analysis used throughout the review of the budget.

Senator Nething: Cost of medical is going u for everyone -- should be some justification of priority by department.

Representative Delzer: We took that into account -- current expenditures and anticipated expenses in the future.

Page 4

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 20, 2001

Senator Nething: Agency disagrees. Priority # 2- that's a one person shop, cut would cause problems.

Senator Robinson: Testimony we received underscored regular deficiency requests -- need to hold dollars for this type of emergency until the year end.

Representative Svedjan: This is our first look at this document -- need time to review, take each one back to our records, determine what we did and why, then come back with some concrete answers.

Senator Nething: Realize that; and know that you have indicated no conversation with the department after your decisions were made. We have gone through 23 of the priorities -- just prepared yesterday -- we have talked with department; ran out of time before we could finish list.

Representative Svedjan: We'll look them over; prepare for the am meeting.

Senator Nething: Amend the Crime victims - I have a proposed amendment to engrossed SB2016 regarding same (a copy is attached) -- like to have your review.

Representative Delzer: # 19 okayed.

Senator Nething: No further discussion, we'll adjourn until 11 tomorrow morning.

Minutes:

Senator Nething called to order the sixth conference committee on SB 2016. Roll call taken, all members present.

Senator Nething: I am distributing to you a cost analysis (attached) prepared by Legislative Council put together relating to the construction of the department of women's unit. When the bill left the Senate we had the two buildings in it, we had the Missouri River project, this women's unit project, we had the SMI unit and we had the program, not construction, but we had the parking lot. The House brought it back with amendments removing those projects. The reason I want to talk about the women's project is because this is the one that seems to me to relate to the direct costs and security of housing the prisoners. The other SMI is primarily program. The facility at Missouri River is primarily a service unit. I note that under Section 12-47.1 that the director of the Department of Correction and Rehabilitation has the authority to establish facilities at other locations throughout the state within the limits of legislative

appropriation and I don't believe there was any amendment to that section. The director did make that determination that it should be built at Jamestown and they did have the appropriation in for it. Some people have indicated through comments that this is a project that I have promoted, until the establishment of it. With that background I would like to have Joe go over the document.

Joe Morrisette, Legislative Council, explained the cost-saving for the women's until up to June 30, 2011, with a net savings of \$674,945 which savings includes the construction cost.

Senator Nething: The conclusion that I see on these estimates that from an investment point, by 6/30/11 and the dollars justify itself.

Representative Svedjan: In one of the flaws in this, that nothing is taken into account here as to what the alternatives to incarceration programs that were heavily funded and likely will be in future years. What impact those programs will have on the demand for prison bed space. I don't see that factored in here.

Senator Nething: It is factored in here by the fact that we are considering the projects will sustain itself, that the programs will be sustainable and not have prisoners returned from those programs..

Representative Svedjan: I don't see that those programs are going to remain static. If anything, if the programs for alternatives to incarceration have merit and everything we are being told that they should have merit and will produce a positive result that it is going to lessen the demand for prison beds over time, and that isn't factored in here.

Senator Nething: If you are going to factor that in then you have to determine a factor of criminal increase and you are saying that crimes committed will stay static, seems one can't remaining static, the number of people that are sentenced verses the number of people who are in

the auxiliary program equals the fact that these numbers are going to be static as well.

Representative Delzer: When you built the cost without construction or whatever you used in 94 beds, that is not how the budget was built or anything else, so what are you giving for beds in the women's unit you figure to operate? How many beds are considering the women's unit to be?

Joe Morrissette: The proposed counted the budget process as adding 75 beds to the facility, it is like 65 beds plus transitional beds, same facility.

Representative Delzer: The building has been little or no support in the House for building a new building for this biennium in Jamestown or Bismarck. That is the reason for this study. The other thing that concerns me, we have private prison who would like to look at this, we have Cass County that wants to look at this and our costs per day per prisoner is a high or higher than our costs to contract. We would like to look at this from the legislative standpoint not just the Department of Corrections, and I know they have the master plan, I am not arguing their right to put the master plan together to bring that forward. I would hope that we as a legislature would look at this very solidly during the interim and decide where the legislature would like this to go.

Senator Robinson: My concern is the cost of private verses state. You have to consider are we going to look at rehabilitation or lock up. We have to focus on rehabilitation or we will be spinning our wheels and if we don't look at that now we are being regressive and we won't catch up with the pressure on beds, this is the right thing to do.

Representative Delzer: I disagree. I think we can do them with a contract situation.

Senator Nething: I haven't seen an evidence that we could do it. The House obviously did not have this information brought to them, we passed it out 100%, everyone was in favor of it. In this conference committee you cannot disregard that. We indicated to you that there is some other things the Senate has agreed to 100%. The House has different thoughts and so we are now

ready to go half way with you. As far as studies, I have budgets and studies here and they have been studied. We are trying to bring the best information we can and to go through that information. We had access to much of that information and visited with the penitentiary and we think this makes good business sense to do it.

Representative Svedjan: Clarification, the Senate first heard this bill they saw fit to pass it out without any reductions, in contrary they added money to the executive budget request. The bill came over to the House, we went through the bill in considerable detail. Our initial offer to the Senate are the amendments that we attached to that bill. We have come into conference committee, we took the first three meetings to explain our amendments, at the fourth meeting the
End Tape #1, Side A, meter 54.6.

Senate came back with a priority list which my interpretation is merely a prioritization of all the amendments we made to the bill. Now our amendments comprise our offer to the Senate or initial offer. The Senate had only been able to get through items 1-23 on the priority list, is this counter offer or not. We don't know where you are at.

Senator Nething: That was an explanation as to where we were. I am prepared to continue with this. I am handing out to you our priority list (attached) and I want to discuss the capital projects first and we are prepared then to have you take a look at the other things we are requesting. If you need time to review this list, we will let you do that and we can discuss it at the 2:00 conference set today.

Representative Delzer: I would like time to review this.

Senator Nething: We will recess until this afternoon meeting at 2:00.

Minutes:

Senator Nething called to order the conference committee to order, 2:00 p.m. Role call taken, all committee members present.

Representative Delzer: The House side still has some concerns about the overall budget. We would really like to hold, not raise taxes with gas tax and that come into play with the overall budget if we give too much back here. We offer today 1-19 take out #10, we will add in #25, and then the \$91,375 that was in #10 to go the hepatitis B vaccine. Footnote #2, we do not agree with and footnote #3, we do not agree with, the language replacement for #15 & #16 is fine, under #44 add in \$9,375, totaling \$834,971.

Senator Nething: Talk a little about the SMI unit as what we were trying to do. Other areas that I want on the record, it is my understanding that currently we have over 300 offenders in the entire system that have a diagnosis of some type of psycho tropic medication to treat mental illness and the SMI unit was designed to provide some treatment for those chronic mentally ill,

who would receive long term treatment. Then also to provide 14 beds that would be used to treat that have the problem. The estimate on this was \$2.4 million cost and our offer was that for a 22 month program, our offer was to start this program during the second year of the biennium which would be about a \$1.2 million cost. The department has indicated to us this has become the most single most serious issue in prisons division. That is why we wanted to include in our offer of settlement. The settlement was based that we offered based on a meeting you half way in the budget process. In return you offer meets us about one twelfth of the way, or whatever the fraction is. I truly appreciate your consideration of those items 1-19 with the concern of them, the salaries issue is not acceptable to us because we believe that the teachers at Mandan, Youth Correction Center are entitled to be paid the same as other teachers in the state of North Dakota and that funding in item 10 was designed as part of reaching that goal. The women's penitentiary be in the center piece of our offer and your rejection of that leaves us with no alternative but to reject your offer.

Senator Robinson: I would agree with your comments. I might add there needs to be compromise, no question about that. We need to understand there a number of issues are not reflected on our proposal that arguable could be. The women's facility and SMI are right on target, that is a sizable population of 300 and it is growing. We can't walk away from that.

Senator Kringstad: I would agree we have to reject this also. When I look at the national level today, there are two million incarcerated people in the United States and that is going to grow to 2.4 million by 2005 and that will be a reflection on the state of North Dakota with more problems in the near future. We have 132 people under contract that are currently incarcerated in ND and I think that is far too many and this is the best way to meet that.

Representative Warner: One issue that has not been mentioned and need to seriously consider the normal replacement cycle on all of the prison system. We have a building that was built in 1910 which is way past life expectancy, second the cost of staffing the prison or part is very inefficient to staff the multiple floor buildings, a single level with control center and energy efficiency with maintenance costs. We should keep all of these in mind if we consider new construction.

Representative Svedjan: You indicated our counteroffer here you used the fraction of one twelfth. If I look at the number of items that we are willing to give back compared to the total number is something like 19 out of 24. I am adamantly opposed to the new women's unit in particularly so at the Jamestown location. I strongly believe that before we start putting more money into bricks and hardware for our prisons we need to know what these other alternative programs to incarceration are going to do for us. The position we are in right now is that we are being asked to load up those programs financially and prison facilities at the same time. If this was anybody else's money going into this, my belief is that you would have a different approach to it, you wouldn't do both. Reiterate, this is premature to start building new facilities when there are other alternative available.

Representative Delzer: I would like to add that I am also adamantly opposed to the women's prison in Jamestown. We need to look at it and make sure we know what we are doing before we do that. Sometime we need get a plan that is agreed with by the department, by the Governor's office and by the legislative branch and that hasn't been done yet. Current time this is the best we can offer.

Senator Nething: Beginning of the year you were opposed to Jamestown project. You voted two years ago against the expansion of the 5th and 6th floors, other programs we implemented. Half

Minutes:

Senator Nething called to order the conference committee on SB 2016. Role call was taken with all members present.

Senator Nething: One of the things we were taking information on and some what of a problematic area with the teacher salary equity issue. We need to get on the same page and what needs to be done to reach an objective. We gave you earlier the Youth Correction Teacher salary comparison, April, 2001, #19808. We have an average salary comparison to handout to you for review and get it explained to you (attached).

Joe Morrissette: The information you received was provided by the Youth Correction Center and he explained the different columns. Column 1 current salary contract for the current school year, average salary of \$29,200. Next columns 2 & 3 are what those would be adjusted to next biennium if teachers only received the executive compensation package of 3% and 2% increasing the average to \$30,000; columns 4 & 5 show what those amounts would be adjusted to based on

the \$291,000 that was included in the executive budget on the Senate version for additional teacher compensation composite schedule, 1st year \$33,700 and 2nd year \$34,300; Columns 6 & 7 show what the average salary amounts would be based on the \$200,000 that was included in the House version of the bill, increase to \$32,300 and \$32,700; columns 8 & 9 show those salary amounts would be if teachers received both the executive compensation of 3% and 2% and the \$200,000 in the House version of the bill. Note at the bottom says the amounts reflected in columns 8 & 9 are based on the assumption that central personnel could redo the composite schedule.

Senator Nething: Now going to that previous memo you had prepared, lets go through that again so we can figure this out.

Joe Morrisette: The \$29,196 column one on the schedule from the Youth Correction Center, the \$32,706 reflects what is shown on the YCC schedule column 7 based on the distribution of the \$200,000.

Senator Nething: Where are we with the 2 & the 3 at this point?

Joe Morrisette: That an issue that was, there wasn't a clear answer for that in discussing it with the YCC, they discussed it and their initial thought was that teacher contracts would be issued at the \$200,000. In amounts for column 4 and 5 based on the \$291,000, because that is what is reflected by the composite salary schedule based on teachers years of service and educational experience, etc. Columns 8 & 9 contracts could be issued for those amounts if the composite schedule was redone. They are saying the contracts will be issued based on what is reflected on the composite salary schedule. Right now you would take the \$291,000, at \$200,000 the 3 & 2 funding it would be provided in there as well and composite schedule to be adjusted to reflect that.

Representative Syedjan: What you aren't showing here is what the average salary would be at the \$291,000 plus the 3 and the 2.

Joe Morrissette: It is not shown on here because this came from the YCC, it wasn't there intention.

Representative Syedjan: This has been part of our question all along. The 3 and 2 is in there somewhere the question is it going to be in teachers salaries. Our contention was we took a look at this issue in our budget consideration was that the 3 and 2 would be paid with the \$200,000.

Dave Krabbenhoft: For the \$291,000, the first year-\$34,594 and second year-\$35,286. One other thing on the composite schedule at YCC and it was our understanding at the Executive branch the composite schedule would be redone with the 3 and the 2 and the \$291,000. There was a turn over with the business manager position and that has added confusion here.

Representative Delzer: I don't come up with using all the \$200,000, when I look at \$32,316 and the \$32,706, are they basing that off of the \$21,096 or \$30,072?

Joe Morrissette: From column 1, change from their current salary contract..

Representative Delzer: So that is \$2,250, or is that \$3,250?

Senator Nething: This is showing a Bismarck, Mandan comparison \$32,706 (column 7) and then we come down to the average between Bismarck and Mandan it is \$35,301 (right hand column) and before the average was \$31,801 current biennium. So with the \$200 and the composite are average would be \$32,706. What level, where should we be. In this biennium, \$1,000 below the average and but we are about \$300 or \$400 above Mandan. With the new projection about \$400 above Mandan just a little less. Those two played out as far as the dollar amount is concerned based on the funding now. My question is the 3 and the 2 dollars in the bill and the answer is

yes, so then if that is the case we should be looking at the 3 and the 2 and the \$200 in columns 8 & 9. So it actually the average salary is \$33,675 instead of \$32,706.

Representative Delzer: I would question that a little further, when you look at 6 & 7, you can take 6 and subtract the 1 and come up with \$3,120. I used \$3250 times 21, should be the total for the money for that an average increase. That would be for the first year and double it for the second year, and you have \$136,502. Then look difference between the \$32,316 and \$32,706 you do not come up with enough usage to get to the \$200,000. Where is that extra money.

Joe Morrisette: A portion of that \$200,00 would go to pay benefits.

Senator Nething: Basically in the chart we have in front of us, we really need to change those numbers, it looks like instead of \$32,706 in the upper right hand corner we should \$33,675.

Joe Morrisette: That is correct, the funding to provide that is in the bill now.

Senator Nething: Then we bring the \$32,706 to \$33,675, that is the way the money is in the bill, then we comparing to the Bismarck school at \$38,224 and the Mandan at \$32,378, so we have about a \$1,300 increase over Mandan and guessing still different but closed the gap by doing that.

Representative Svedjan: I would like to say, to compare to the Bismarck, Mandan, the only argument I have to that comparison is the location of the schools. There is differences between YCC and those two schools, class size and significantly smaller. More fair comparison would be the state wide average.

Senator Nething: So the state wide average \$34,391, we are below it at \$33,675.

Representative Delzer: We do close the gap some the way we are now.

Senator Nething: We are about \$700 difference and if we go \$33,675 and \$34,391, maybe \$600 difference. When you look at with public schools and compare YCC with the public schools

state wide average, we are just a little lower, about \$600. My question is, with no legislation for the teachers in Mandan a dollar allocation for the additional compensation package. This is the only group of teachers left isolated.

Joe Morrisette: Correct those teachers are not included in the definition of HB 1344, but they are included in the additional funding that was appropriate in HB 1013, not YCC but the Deaf School.

Senator Nething: For the House proposal and the Senate proposal, do we know what dollars would have to be put in here to bring them to the same as all teachers in the state. Can we do that?

Joe Morrisette: Yes.

Senator Nething: It is my feeling that if you look at other teachers, we should included them, bring them all into the same plain, we are doing a pretty good job here of bringing them in on a state wide average for Mandan, more gap with Bismarck.

Representative Warner: Did we ever reach a resolution on how many of the teachers have Master degrees?

Senator Nething: Five out of the 21 teachers.

Senator Kringstad: In ND 19.7% of the certified teachers in ND with master degrees.

Senator Nething: Any discussions on how to deal with the increase compensation program, the concept as they are not included in any place, discussions why to include or why not.

Representative Svedjan: We dealt with this pretty as them being isolated, if that is the right term, for good or for bad, we approached this more from the budget as it was presented and wanted to make sure that process was 3 and 2 as they were entitled to in the budget as a part of this.

Page 6

Senate Appropriations Committee

Bill/Resolution Number SB 2016

Hearing Date April 23, 2001

Senator Nething: Joe why don't you go ahead and work that up for us so we know what it takes to make that work. If the conference committee is satisfied with the \$33,192 or \$33,675, then the rest would be a mathematical addition in total dollars plus language to make it apply.

Representative Delzer: The way it is now, they are not in HB 1013.

Senator Nething: The only other two in HB 1013 are Blind/Deaf schools. We haven't had much opportunity to discuss the Sections 5,6,7,10,13 & 14, in the bill. We went over those when the House gave their overview. Section 13, is the pay raise for parole board members. Any questions about these from your notes.

Representative Warner: We did address Section 5, question inmate pay for child support/restitution. If department will dedicate more from the courts on restitution.

End Tape #1, Side A, meter 54.7

Senator Nething: I am distributing the departments reasons for the women's unit for your review and to discuss it at our next meeting.

Meeting adjourned. Tape #1, Side B, meter 0.8.

1	X		0.0-36.2
Committee Clerk Signature <i>Peter A. ...</i>			

Minutes:

Senator Nething called the conference committee to order on SB 2016. Role call taken, all members present.

Senator Nething: I am distributing to you two sheets (attached), one (#19871) Youth Correction Center-Funding for Additional Teacher Compensation Payments and ((#19808.01) Youth Correctional Center-Teacher Salary Comparison prepared by legislative council.

Joe Morrisette: Explained the two sheets and figures for teacher comparison.

Senator Nething: The footnote 3, includes salary adjustment for all public schools for \$33,675, YCC shown above does not include the \$5,250 increase is that right.

Joe Morrisette: That is correct.

Senator Nething: How close is the salary without the \$5,250? About \$700 apart? What drives that?

Joe Morrisette: The composite schedule to average the \$5,250 for public schools, some more.

Page 2

Senate Appropriations Committee

Bill/Resolution Number SB 2016

Hearing Date April 24, 2001

Dave Krabbenhoft, OMB, on the composite of \$291,000, average of eight schools selected from school district, average higher than state average, different figures on these sheets.

Senator Nething: \$5,250 is there.

Joe Morrisette: The sheet #19817, explains the figures arrived for the 18.23 FTE for teachers, total of 22 FTE with \$5,250 equaling \$115,501.

Senator Nething: If you do that, do you add this to the \$33,675?

Joe Morrisette: You add the \$3,500 to the base salary of \$33,675.

Senator Nething: Do you all understand the two sheets. Joe, is the money there for the teachers average figure, is it secured which ever way HB 1344 goes?

Joe Morrisette: There is some assumption, depends HB 1344, part of \$5,250 is from bonus/foundation aid compensation.

Senator Nething: Total dollars stay there, 70% distributed, etc. This amount to stay at \$34,391.

Joe Morrisette: It depends on the base.

Senator Nething: Representative Svedjan, staying close state average.

Representative Svedjan: I just felt it would be better to look statewide average for a comparison especially with the smaller school.

Senator Nething: Any questions on teacher salary, none. Now we will go to the offer we made, page 2, item #3, I am distributing proposed language for Sections 5, 6, and 14 (attached).

Representative Delzer: Why not keep Section 4 in there?

Senator Nething: We are amending those three.

Representative Delzer: We'll need time to look at this, for one study why not all four sections?

Senator Nething: This could be done, we are looking to rewrite Section 5 (1), Section 5 (2) and Section 14 (3) from the sheet.

Representative Syedjan: Why was the last sentence left out of Section 6?

Senator Nething: Not sure of the reason for that.

Senator Nething: Our position to the SMI unit and language in other amendments. Section 8 limiting language funding appropriation for teacher salaries, summer school moneys were returned to the general fund. Section 11 also limits funding. Your proposal already reduced, give some alternatives.

Representative Delzer: In Section 11 maybe. Section 8 line item budget for YCC for teachers to take summer jobs, if they decide not to they would get a substitute, then moneys went back to general fund.

Senator Nething: Give additional budget dollars is alternative programming.

Representative Delzer: Don't see where they can give the money back under juvenile, is there flexibility to move that.

Senator Nething: You could if amount was under \$50,000.

Representative Delzer: Can they move anything from line item without emergency clause, we could put language in if needed.

Senator Nething: Money is there, only if any if left Section 11.

Representative Delzer: We'll take a look at that and the idea behind it, in the past contract for prerelease, need to talk on this.

Senator Nething: The other amendment, questions, crime victims compensation applies to Section 15 & 16, any problem with this.

Representative Delzer: No problem if run through council. Question is on the four studies in there, could be allowed with different interim committees compared to one study, can they be split, can council do that?

Senator Nething: Hopefully they wouldn't. One interim to do all to benefits one study. While latitude is given, if they saw the benefit probably, has been done in the past.

Senator Nething: Let's go back to the SMI Unit, we tried to do an offer to bring us half way there. Based on the idea of 300 prisoners, they have been diagnosed that they need certain care, 10 beds are available at the State Hospital, it is an existing facility, with another 25-28 to rotate in and out. You had concerns on this.

Representative Svedjan: First problem, the price tag associated with it, why can't we do the same at a reduced cost, why the need for additional 28 new FTE's when we are doing this in an existing building with the same staff also being there for this type inmate. A budget of \$3 million plus alternatives to incarceration, there is available bed space, we need to give priority for the freed beds, this doe none of that with the numbers and is a significant problem shown with this type of inmate. Building appropriated two years ago allowed segregation units in Bismarck. To accomplish this type inmate to qualify for cost effectiveness is not there.

Senator Nething: What justification, did you get testimony from outside of the hearings or just questions from the hearing?

Representative Svedjan: From the hearing process, when it was in our committee, we went line item, asked questions and made our recommendations.

Senator Nething: Did you talk to mental health or any other outside department besides testimony.

Representative Svedjan: Testimony from outside mental health at hearings.

Senator Nething: You didn't view this as serious.

Representative Svedjan: Not a problem to me.

Representative Delzer: What is the ramification to the State Hospital?

Senator Nething: Looking back at disabled lawsuit in courts eye individual did not receive right services. We need to avoid this if possible, not sure of the trigger. Director of Institution states this is the single most serious issue, it is hard not to pursue this issue.

Senator Robinson: In my opinion, they are going from one division to another division, first human services now corrections, this is a national problem and a serious problem. We have identified 300 out of 1000 inmates as the SMI population, it would be an expensive lawsuit and the risk is not going down. The facility in Jamestown addresses both these needs.

Senator Kringstad: Total budget amount of \$2.4 million. I am agreeable as this is the single most serious problem with the prison division.

Representative Delzer: It shows here as the third priority for the biennium according to your sheet, does your sheet say first?

Senator Robinson: The verbal testimony was given to us and the analysis tracks the numbers.

Senator Nething: At the last meeting we distributed a memo to you on the Women's unit, any comments.

Representative Svedjan: It is none persuasive, and I have nothing more to add as previously stated.

Senator Nething: Reliance on programs, concern if program doesn't work we will have a bigger need. Programs were shared with you and the dollars are justified.

Senator Nething: All has been discussed at this meeting. Look at the amendments and your thoughts and if what is workable at our next meeting. Meeting adjourned. Tape #1, Side A, meter 36.2.

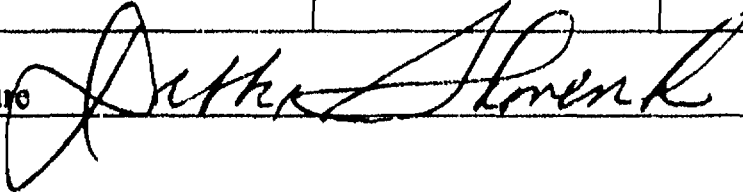

2001 SENATE CONFERENCE COMMITTEE MINUTES

BILL/RESOLUTION NO. SB 2016

Senate Appropriations Committee

Conference Committee

Hearing Date April 25, 2001

Tape Number	Side A	Side B	Meter #
1	X		0.0-25.5
Committee Clerk Signature 			

Minutes:

Senator Nething called the conference committee to order on SB2016. Role taken, all committee members present.

Senator Nething: I did receive a copy of the victim's compensation amendment, will distribute that so everybody can take a look at that (attached-#0209 proposed amendments).

Joe Morrissette, Legislative Council, it is basically the amendment that was proposed by the Department, there were some style changes by Legislative Council, so it is the same as included in the amendment that was presented by the Department.

Senator Nething: Would someone like to give us an explanation on how it works?

Elaine Little, Director of Corrections, basically what the amendment does is it takes away any responsibility by the victim having to pursue costs whether medical or whatever and gives the Department authority to recoup any costs from the perpetrators. It also asked the Court to order

Page 2

Senate Appropriations Committee

Bill/Resolution Number SB 2016

Hearing Date April 25, 2001

restitution in each of the cases. Sometimes there is no restitution ordered and this will help. On the front end it gives the Department an easier chance to recoup that restitution.

Senator Nething: House, it has been a little while since we talked about the situation you were attempting to address, I guess the question would be, are we getting closer here to satisfying what your intent was?

Representative Syedjan: This is our first look at this, just reading it and not through yet.

Representative Delzer: Just a comment, no problems with it, I think one of the things said in our hearing was that quite often they don't know what the reparations should be and I doubt if that will change that. It looks to me like the second section would allow the Department to go after it.

Senator Nething: On page 1, where we changed, may to shall, that the court shall order restitution be paid to the division of Adult Services for any benefits the division has paid or may pay, does this language help define, more descriptive, the awareness of what to do, on the court's behalf? From what the discussion we had our concern was the fact we needed to be more firm in our efforts to get this restitution made and as I recall this is what you were trying to do. Has this gone far enough? Comments from the committee, you may need some time to review it.

Representative Syedjan: I was finishing reading this, the shall, you were talking about, where is that?

Senator Nething: On page 1, at the third line from the bottom.

Senator Nething: Rep. Delzer did you get a chance to do an consideration to those amendments as we discussed the other day?

Representative Delzer: Yes we did. We asked the council to go through and redo this (attached #0210 proposed amendment) and basically it is basically the same for the exception, in the House

side we still have some questions if we want to put the reporting into the council study or into the budget section the way we have it. I would prefer it goes to the budget section, simply that is the group that works on appropriations and group the makes the difference with federal funding for the next biennium

Senator Nething: Is this Section 14 of the amendments that you are talking about?

Representative Delzer: I believe it is Section 7.

Senator Nething: That is the federal funding reductions.

Representative Delzer: Right, I don't believe these do anything with Section 14.

Senator Nething: On Section 14, the only question we had was the body talks about reporting to the legislative assembly or the budget section if they are not in session, but the title indicated approval. If we shouldn't on line 6, Section 14, the first word, change that to reporting of new programs. Is that the intent?

Representative Delzer: More in line of the wording.

Senator Nething: Any other comments or questions on the proposed amendment just discussed. Anything you want to bring forward at this time.

Representative Delzer: We have a proposal (attached) pretty much what you offered to us. The House still has no desire for women's unit during this biennium but the studies, we feel there needs to be some specific studies done. We understand the concerns with SMI unit. What we are thinking of and if acceptable by the Senate, use the studies and when the study is done in September of this year, and at that time if study shows, to go ahead with the SMI unit at that time and leave funding in there. The dollar figures aren't right on this sheet for line 21, SMI 6 months. The actual figures would be \$783,347.

Senator Nething: Where the first line 21 is, \$374,225, next line \$92,874, and the last line \$316,248.

Representative Delzer: This should do it for the six months for the 28 individuals. If you look at your sheet, we left #10 out, increase #15 to \$150,000, like to see \$91,375 for #10 used for Hepatitis B, added \$250,000 contracting. Total will change, unsure of the number. If you look at the bill we would like to see #7 stay in there, we would be willing to give on #8, 9 & 11. Would like to see #12 if federal grants received.

Senator Nething: On #14 we can change the heading on reporting. Any questions from the committee, everybody understand them.

Representative Warner: Just a comment, this has been done in good faith and good effort would still like to see deletion of Section #14. They are reporting to the budget sections on the programs.

Representative Svedjan: In reaction to that it is inconceivable to me that if the Director of Department of Corrections and her staff were planning an introduction of a new program, other than incarceration, you are going to know three months ahead of time that this is what are doing. Can't imagine this provision could be too restrictive and someone to come up with a plan overnight. I would like to keep that section in the bill.

Representative Delzer: If the budget section found this unacceptable, the department would prefer to know before they start something instead of coming to the legislative assembly.

Representative Warner: Maybe we have a different concept of what this new program is. I would hate to see these be restrictive.

Representative Delzer: We are looking at different things, but what we need to consider is putting language on an amendment that significant costs that will reoccur the next biennium,

look at setting some dollar figure. Get some type of flexibility on the things that are just running. This type of program will take extra funding, one that isn't running to capacity and starting a new one and come back in next session and fund the new one, plus refund the existing one, those are the type of things we would like to know about in the budget section report.

Senator Nething: Look at the bill, so notes are accurate, looks like with the amendment #0210 from Representative Delzer, look at that, do we need Section 4 of the bill, if we adopt this amendment.

Representative Delzer: No, Section 4 is the one you put in and is part of this.

Senator Nething: Sections 4, 5 & 6 are combined, keep #7, #8 removed, #9 removed, we keep #10, remove #11, keep #12, keep #13, amend #14 to say report instead of approval, and then 15 & 16 we have that separate amendment. All mark these.

Representative Delzer: Recurring costs for the reporting on Section 14, new programs in the future.

Senator Nething: We can review that and see how it shakes out and see if there is a way to make it a little more accountable and the right word.

Representative Svedjan: For clarification, if my numbers are correct, and with changes to line 21, verify those again, \$236,576 to \$374,225; \$92,870 to \$92,874; and \$79,486 to \$316,248, that totals \$783,347 compared to what the total was before the changes of \$408,932, a difference of \$374,415. So if you add \$374,415 to the total shown there, it changes it to \$1,731,213, I am assuming my addition is right.

Senator Nething: Close to the ball park with those numbers. Anything else committee members that you would like to bring up at this time. I did receive some additional information on the

Page 6

Minutes:

Senator Nething called to order the conference committee on SB 2016. Role call taken, all members present.

Senator Nething: Handed out amendments (#0212) to committee with last meeting revisions.

The House is keen about the interim study before we proceed and SMI program and willingness after the study and if it is given the go ahead to authorize six months SMI program. We offer, to implement a study for the women's prison and if study shows the need for a women's penitentiary to go through with the same process. If the study shows the need for it to be done with this process, and to speed the process/study up to enhance the utilization for the beds with the opportunity for less costs in any delays. We would like you to look at this approach.

Representative Svedjan: Who will do the study, what kind of study will it be, will there be consultants?

Page 2

Senate Appropriations Committee

Bill/Resolution Number SB 2016

Hearing Date April 26, 2001

Senator Nething: Follow the interim study by the interim committee and have it done as soon as possible with the dollars. If a consultant is wanted this can be looked at, we need to facilitate with the best conclusion. Would like the study to be with legislators, a structure to get the best information possible.

Representative Svedjan: You not advocating a building with approval or denial, how do you envision this happening?

Senator Nething: Same as the SMI program approval or denial. The committee to appropriate the building, then the budget section will receive it and make the decision.

Representative Svedjan: In this amendment, #0212, there are three studies absent approval by anybody.

Representative Delzer: SMI can be done with study, later move it without any problems, not a big issue as the women's prison.

Senator Nething: Try to interest the two together with studies and the importance, by approval process, open for suggestions.

Representative Delzer: The last unbiased study for the prison was done in early 1980, is there any statute for the budget section for approval with this magnitude. This type of authority ever been granted.

Joe Morrissette: There is nothing in the statute governing the budget committee as long as it is appropriated.

Senator Nething: The amendment would be the authority.

Representative Svedjan: What is the extent of your counter offer?

Senator Nething: This is the only issue left with where we are right now. This is an adjustment and part of the total decision.

Page 3

Senate Appropriations Committee

Bill/Resolution Number SB 2016

Hearing Date April 26, 2001

Representative Svedjan: You are proposing a study for the women's prison and this is prior and in addition to the proposal yesterday.

Senator Nething: We are acceptable where we are now with the offer yesterday, and this study will finalize it.

Representative Svedjan: Exclusive of yesterday.

Senator Nething: Fold this in to the counter offer to settle.

Representative Svedjan: Your intent is a verbal offer and only a study for the 01-03 biennium, is this justified?

Senator Nething: This is the process.

Representative Svedjan: No, there are no numbers, need additional total price for construction.

Senator Nething: Those numbers go with part of it.

Representative Svedjan: There is no way to expend those funds.

Senator Nething: This approval with the time frame and a decision. As soon as possible and the dollars for construction.

Representative Svedjan: The study so quickly, how about last year of the biennium?

Senator Nething: Not sure how long it will take, would like to know by 2001, latest Spring 2002 on construction. My idea is as soon as possible and hope by December, 2001, and by March 2002 the meeting of the budget section.

Representative Delzer: I'm uncomfortable with the time line, have concerns having it done this biennium, the changes made with crime down and not enough time for the change for future needs. Maybe in two years. The SMI in six months, study through November with council meeting.

Senator Nething: Other studies have been earlier with alternatives. These are ideas and we respect the House with interest of the study. Try to budget the gap and to resolve our differences.

Senator Kringstad: My comment, there is a need for this with the over crowding and the study is needed as well. With the state paying \$60-\$65 a day for contracts, this would mean more long term revenue. Having inmates closer to family and friends is important. If the study is approved this will bring back 94 inmates out of the 132 now out of state.

Senator Robinson: We need to go this route. The Senate has gone as far as we can go. This is a serious problem, with the average prison sentence of 5 years and the population on the increase, this is not a short term society places in the judicial system. Also the parole board has not been flexible, we need to compromise and move on.

Representative Svedjan: The House has a very strong position on this. There were very few votes in our caucus for this. We can't consider this without it being in writing.

Senator Nething: We can get it in writing for you if it will make it easier for your consideration and to make the concept easier.

Representative Svedjan: Important that we know the nature and scope of the study and the time line, it is critical, we need to see it on paper.

Senator Nething: We will give that to you in writing.

Representative Warner: The study, an echo from Senator Robinson, language needs to be in the bill, the objective triggers two years. Need outside criteria with the study not delaying the tactic as we have a serious problem with the prison system.

Representative Delzer: I am concerned with the time line and with the issues. Most SMI programs are in Bismarck not Jamestown, and to only have a one year study to look at all the legislative involvement.

Page 5

Minutes:

Senator Nething, Chair of SB2016 Conference Committee (Department of Corrections and Rehabilitation), opened the meeting at 11:00 am, Friday April 27th in the Harvest Room.

Roll Call: Senator Nething, chair; Senator Kringstad; Senator Robinson; Representative Svedjan; Representative Delzer; and Representative Warner were present.

Senator Nething: I distributed copies of this proposed amendments (#18042.0214) yesterday; it has the mechanism to do a study. Could be in preparation for building of women's prison. As you have noticed the consulting language is not here. I assume the House has had the opportunity to review this -- and we are ready to take comments.

Representative Svedjan: We have looked it over -- recognizing there are some blanks; along with that we have some additional concerns. We requested our counter offering; but it is not ready at this time (this is not to be taken as a stalling factor) --- wonder if we could meet this afternoon at which time we would hope to have it ready?

Page 2

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 27, 2001

Senator Nething: Able to give us a genius of it?

Representative Svedjan: It is built on the concept of a study -- would prefer to have the written copy before all of us when making our case; have it as part of the discussion. Perhaps

Legislative Council can give us a better idea on timing

Joe Morrissette, Legislative Council Staff Analyst: It should be ready by the end of today's floor session --- approximately 1:30.

Senator Nething: We'll plan for 1:30; adjourned until the call of the schedulers.

Minutes:

Senator Nething, Chair of SB2016 Conference Committee (Department of Corrections and Rehabilitation), called the meeting to order at 1:30 pm on Friday, April 27th in the Harvest Room.

Roll Call: Senator Nething, Chair; Senator Kringstad; Senator Robinson; Representative Svedjan; Representative Delzer; and Representative Warner were present.

Senator Nething: All members present, believe the House has some proposed amendments.

Representative Svedjan: Just a few remarks before I distribute the amendments. The key is on the study idea. The House has given considerable thought to what we have heard in testimony, and the work we did in committees. We believe this should be done --- needs a comprehensive study of the entire prison system. There should be an analysis on the aging plant --- most of the system is old; need a facility analysis -- need to know the types of facility needs and locations --- including the location of services and the addition of facilities. The facilities plan should include

Page 2

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 27, 2001

optimal facilities and services. We need a facility utilization analysis. There is a need for the FTE employee analysis (assuring that we have the man power/woman power). Need an operational efficiency analysis --- we now have 4 plants. Should be a total programmatically analysis -- we just passed HB1393 which has minimal mandatory sentencing. The House believes this is an investment in program; the alternative programs to be included -- need time to show results; time to show the impact of beds available and needs space. There should be an analysis of trends at the level relative to bed needs and availability.

There is a need to utilize the existing county resources; consideration of the possibility of private prisons being built in North Dakota. The prospect of private facility has been discussed, and needs to be examined. There is a need to exam the necessity and availability of rehabilitation as it relates to the Department of Human Services. Review if there is a replications of services. Needs to be a professional, comprehensive study done -- using an unbiased consultant to be selected by the Legislative Council,. We are suggesting 200 thousand in 01-03, for the study purpose, have it done and results reported to the 58th Legislative Session.

The House presents amendments #18042.0216 (a copy is attached). We ask that Legislative Council personnel go through this with us.

Joe Morrissette, Legislative Council Staff Analysis: Went through the amendments.

Representative Syedjan: We like to think of this not only as an opportunity, but need. There is a need to study the fragmentation of our prison. Believe the last time a significant study was done in 79-81 or so; many years ago. The results will help us develop facilities and programs over time. Believe this is how best to serve all prisoners (women and all classes). Because of the aging plant we need to seize this opportunity to develop a plan -- over time.

Senator Nething: House had study in originally -- which the Senate had --- not sure of the variations in this new proposal. Appears it is to be done using a consultant, with in legislative council structure. But it fails to include the Senate intent that they can begin building, if the study indicates appropriate. This appears to negate out offer.

Representative Svedjan: The House recognizes that the women's prison is high on your list, an integral part of this study --- it may be highly recommended --- that's what is needed.

Senator Nething: I understand the study part, but there is no mention of construction.

Representative Svedjan: Depends on priority and recommendation of the Interim Study.

Senator Nething: Senate is strong regarding the study, but the building should be begun immediately if it's found to be needed. We recognize that the buildings are old and there is a need.

Representative Svedjan: That seems to have always been the heart of this conference.

Senator Nething: We have been able to resolve others; the authority to build the building seems to be the difference between bodies.

Representative Svedjan: Why do the study if the money is there to build?

Senator Nething: If the study says yes, they can act quickly.

Representative Svedjan: How would you purpose an unbiased study?

Senator Nething: This study could be done within a year --- Senate wants the department to be able to start at that time --- solve the bed problem --- but won't have permission!

Representative Svedjan: Seems clear to me. Need to deal with the private sector --- plan to do it, do, but do it right the first time. Be sure the facility at the appropriate location; doing it once.

Senator Nething: Not until the study says ----- the Senator position was ignored.

Representative Delzer: Year study may not be enough to see what's going on --- if we once start building --- contracting costs could be short time. Start the prison -- and we can't back away. If we appropriate the dollars --- why bother with the study. Need to push scope of study. Get information back to the Council, then to legislators next session.

Senator Nething: Problem is with housing --- there are no dollars for contracting of these services in the budget. We have a responsibility -- to protect them in corrections, not to hinder the department.

Think we have advances as best we can --- do the study but nothing will trigger the building. Construction depends upon if the study says it is okay. Perhaps we need to consider abandoning the committee --- but I want us to be able to work this out. I am merely delivering what the Governor says --- and advancing the Senate's vote.

Senator Kringstad: All statistics and articles point to the situation that's going to escalate, the prison needs to be expanded.-- The study is marvelous, but if we don't get the results until next session --- that's another 2 years -- which I'm not sure we can afford to lose.

Senator Robinson: There is a lot of data and statistics available -- this is not like starting fresh with out any information --- we know what's happened, and what is happening -- 2 years ago we knew this, and much of what the Senate has done is spun off the abundance of known documentation. No argument with going through the study, but needs the authority to build, as Senator Nething was describing. Not an absence of data --information was not thrown together haphazardly, but with much thought. Let's build if the study says what we think it will --- not the first time legislation "contingent upon" has been put in bills. We wanted SMI to start July 1 and that has been delayed for 6 months --- a compromise. We've come a long way; lost nothing if study doesn't prove a need.

Page 5

Bill/Resolution Number SB2016

Hearing Date April 27, 2001

Representative Warner: I need to say thanks to Senators Svedjan and Delzer -- for their precise, innovative and perhaps aggressive presentation. We have had numerous studies --- we have the attorney general crime study analysis -- documents from the Supreme Court ---- on and on. Not sure what we can learn that would be new. Believe the words: "he who has ears, let him hear.

Senator Nething: Issues are clear --- I'll talk to my fellow conferees - the Governor (and his staff), the Majority Leaders --- and then come back with the results of my conversations.

Representative Delzer: Is there a problem with contract amount?

Senator Nething: No idea -- need to make sure there are enough dollars ----but will get figures for you, didn't realize we would be going back there, had hoped to go forward.. Meeting is adjourned until the call of the schedulers.

Minutes:

Senator Nething called to order the conference committee on SB 2016. Role was taken, all committee members present, Senator Nething, Senator Kringstad, Senator Robinson, Representative Timm, Representative Belter, Representative Warner.

Senator Nething: I am distributing amendments (#0218-attached), disregard all previous amendments you have received on this bill. Allen Knutsen will go over these with us.

Allen Knutsen, Legislative Council, Starting explaining amendments on page 6.

Representative Timm: The first set of amendments we received on this was a difference of \$4.207 million, now different, why?

Allen Knutsen: There was an error on those amendments, this amount of \$4.208 is correct, and I will explain where that was when we get there.

Representative Timm: In Section 7, \$2.45 and it was \$2.32, why difference here?

Page 2

Senate Appropriations Committee

Bill/Resolution Number SB 2016

Hearing Date April 28, 2001

Allen Knutsen: Because the of the delay of the project and the increased construction costs, an increase of 8%.

Representative Timm: So an extra \$130,000.

Representative Belter: Did the architect give an explanation of the 8% increase.

Dave Krabbenhoft, OMB, this wasn't broken down by the architect to explain that.

Allen Knutsen: Continued explaining amendments.

Senator Robinson: Footnote #4, teacher salaries, what was left in the bill?

Joe Morrisette, Legislative Council, the \$200,000 under the composite schedule and the 3 & 2.

Allen Knutsen: Continued with amendments, explained pages 6-11 through juvenile services.

Joe Morrisette: Will explain Sections 4-14, also stated the removed sections from the engrossed bill are explained at the bottom of page 11.

Representative Timm: Sections 12 & 13, why are both of these here, aren't they the same?

Joe Morrisette: Mistake, we will amend and delete Section 12.

End Tape #1, Side A, meter 54.4

Representative Timm: What is the bottom line?

Joe Morrisette: On page 7, upper left hand corner, \$4.2 million.

Representative Timm: What the House took out and includes the women's prison.

Joe Morrisette: That is correct.

Senator Robinson moved that the House recede from the House amendments and further amend; seconded by Representative Belter. Discussion.

Senator Nething: Before we take a vote on that motion, I am handing out (attached) an explanation of the YCC teacher salary comparison for your review. Joe will explain this to you.

Page 3

Minutes:

Senator Nething, Chair of the SB2016 Conference Committee (Department of Corrections and Rehabilitation), opened the meeting at 12:15 am, April 29th in the Harvest Room.

Roll call: Senator Nething, Chair; Senator Kringstad; Senator Robinson; Representative Delzer; Representative Svedjan; and Representative Warner were present.

Senator Nething: All members are present; our report was not accepted in the House; so we are here to reconcile the differences. I distribute documentation regarding the additional dollars that would be needed for contract housing - No Women's Unit (a copy is attached). Figures were discussed; input requested from OMB analyst, Dave Krabbenhoft and Legislative Council Staff analyst Joe Morrissette. The Senate proposes the additional funding (655,535), comprehensive study with reporting back to the legislative assembly next session; section 7 is out-- believe those are the main differences?

Representative Delzer: As reflected in the governor's budget?

Page 2
Senate Appropriations Committee
Bill/Resolution Number SB2016
Hearing Date April 28, 2001

Senator Nething: Yes.

Senator Robinson: Would like to move up the effective date of SMI-- possible?

Discussion was led by Senator Nething regarding the cost of 11 months versus 6 months.

Joe Morrisette: Appears the cost for 8 months would be approximately 990,069 and 9 months 1,093,436.

Representative Delzer: House would like to see a 25 bed reduction --- figure for 5 more makes a considerable difference dollar wise?

Dave Krabbenhoft: Would take a few minutes, but will be happy to get that information for you and the rest of the committee.

Representative Delzer: House will agree to 9 months SMI if the Senate considers 5 more beds in the drug court?

Senator Nething led the discussion regarding the request - Dave Krabbenhoft explained in more detail the numbers submitted on contract information distributed earlier. He explained the computation is not done by gender -- it included vacant women's beds (unavoidable vacancies -- some 30 beds) which in essence is eating up the dollars --- behind by using 971. Further discussion regarding the subject.

Representative Svedjan: The House understands what Dave (Krabbenhoft) is saying -- but in speaking with Judge Haggerty -- there up to 25 beds --- we are asking for only 5 more -- could be up to 15 per Judge Haggerty's figures.

Dave Krabbenhoft: Also visited with Judge Haggerty -- confirmed information with the department -- only 9 people presently qualified for drug court. They move through the system.

Elaine Little, Director of Corrections and Rehabilitation was in the audience and recognized by

Senator Nething: A search of the records in the year 2000, there were 18 people in Burleigh

Page 3

Senate Appropriations Committee

Bill/Resolution Number SB2016

Hearing Date April 28, 2001

County charged with possession. The criteria for drug court: No violence involved and no dealing in drugs --- only possession. History says not all are eligible for drug court --- not even 10.

Further discussion revolved around the proposals --- Senator Kringstad thought the need was there to get the unit up and going --- would like 1 year instead of 6 months even. A suggested time only, not an offer.

Senator Nething: 655,535, 55 beds are empty --- drug court does compound the problem. Need to set some kind of programs --- 655,535 is part of the consideration --- final figures of the offer were given by Joe Morrissette -- with documentation as to how the proposed amendments would be finalized.

Representative Delzer: Language back in section 7?

Senator Nething: Yes.

Senator Nething: Hearing no further discussion, we will be at ease while the amendments are being drawn, back to full committee to review and finalize our report.

Senator Nething reopened the meeting at 3:10 am. Copies of amendments #18042.0221 were distributed. Review and discussion was led by Joe Morrissette, Legislative Council Staff Analyst. All concerns were covered and the recommendation for the House to recede from its amendments, and adopt these committee amendments was made by Senator Robinson Seconded by Senator Kringstad. Discussion; call for the vote: Roll Call Vote: 6 yes; 0 no; 0 absent and not voting.

Senator Nething: Thanked the committee and adjourned the meeting.

Proposed Language to Combine Sections 5, 6 and 14.

"SECTION 5. DEPARTMENT OF CORRECTIONS AND REHABILITATION FACILITY NEEDS, INMATE PAY DEDUCTIONS, REPORTING ON NEW PROGRAMS BY DIRECTOR – LEGISLATIVE COUNCIL STUDY. During the 2001-2002 interim, the legislative council shall consider (1) studying the facility needs of the department of corrections and rehabilitation, including the adequacy and utilization of the department's existing facilities; anticipated future facility needs considering the impact of alternative programs and trends in inmate population; and the feasibility and desirability of increased utilization of county and private correctional facilities; (2) studying wages paid to inmates sentenced to the state correctional system and the various deductions from those wages, including methods used to determine rates of pay; actual wages paid to inmates; deductions from inmate wages, and the effect deductions for incarceration costs, facility operation costs, and capital improvement costs have on inmate payments for child support and restitution; and (3) hear reports from the director of the department, prior to their implementation, on any new programs that would be provided by department staff or on a contract basis to adult or juvenile offenders.

PROPOSED AMENDMENT TO ENGROSSED SENATE BILL No. 2016

Page 1, line 2, remove the second "and"

Page 1, line 3, after "study" insert a semicolon and "and to amend and reenact Subsection 2 of Section 54-23.4-12 of the 1999 Supplement to the North Dakota Century Code relating to Crime Victims Compensation Subrogation; and to amend and reenact Subdivision 1 of Section 12.1-32-08 of the North Dakota Century Code relating to hearings for restitution, reparation, or reimbursement of indigent defense costs and expenses.

Page 3, after line 12, insert: **SECTION 6.** Subsection 2 of Section 54-23.4-12 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

2. Prior to bringing an action to recover damages related to criminally injurious conduct for which compensation is claimed or awarded, the claimant shall give the division written notice of the proposed action. If a claimant brings an action for the recovery of damages related to criminally injurious conduct for which compensation is claimed or awarded, the division is subrogated to the rights of the claimant up to the total amount the division has paid. When there has been a recovery of damages, the costs of the action, to be paid by the division from the recovery, exclusive of attorney's fees, must be prorated and adjusted on the percentage of the total subrogation interest of the division to the total recovery. If there is a recovery, the division shall pay attorney's fees to the claimant's attorney from

the recovery in the amount of twenty-five percent of the subrogation proceeds paid pursuant to a settlement, confession of judgment, or judgment of a court. The division may intervene in the action to recover compensation awarded. The division has a lien on a recovery to the extent it has paid compensation. The division shall not be liable for costs or attorneys fees when the claimant has not provided the division with prior written notice of the commencement of an action. If a claimant does not bring an action for damages within six months from the date the division awarded benefits, the division may bring an action or claim for relief in its own name and retain as its subrogation interest the full amount it has paid in compensation and benefits to a claimant. The division may bring an action within two years from the date it first awarded benefits, notwithstanding any other statute of limitation. Nothing in this section shall limit the claimant's right to bring an action to recover for other damages.

SECTION 7. Subdivision 1 of Section 12.1-32-08 of the North Dakota Century Code is hereby amended and reenacted as follows:

1. Prior to imposing restitution or reparation as a sentence or condition of probation, the court shall hold a hearing on the matter with notice to the prosecuting attorney and to the defendant as to the nature and amount thereof. The court, when sentencing a person adjudged guilty of criminal activities which have resulted in pecuniary damages, in

addition to any other sentence it may impose, shall order that the defendant make restitution to the victim or other recipient as determined by the court, unless the court states on the record, based upon the criteria in this subsection, the reason it does not order restitution or orders only partial restitution. In determining whether to order restitution, the court shall take into account:

- a. The reasonable damages sustained by the victim or victims of the criminal offense, which damages must be limited to those directly related to the criminal offense and expenses actually incurred as a direct result of the defendant's criminal action. This can include an amount equal to the cost of necessary and related professional services and devices relating to physical, psychiatric, and psychological care. The defendant may be required as part of the sentence imposed by the court to pay the prescribed treatment costs for a victim of a sexual offense as defined in chapters 12.1-20 and 12.1-27.2.
- b. The ability of the defendant to restore the fruits of the criminal action or to pay monetary reparations, or to otherwise take action to restore the victim's property.
- c. The likelihood that attaching a condition relating to restitution or reparation will serve a valid rehabilitational purpose in the case of the particular offender considered.

The court shall fix the amount of restitution or reparation, which may

not exceed an amount the defendant can or will be able to pay, and shall fix the manner of performance of any condition or conditions of probation established pursuant to this subsection. The court ~~may~~ shall order restitution be paid to the division of ~~parole and probation~~ adult services for any benefits it has paid or may pay under chapter 54-23.4 unless the court, on the record, directs otherwise. Any payments made pursuant to such order must be deducted from damages awarded in a civil action arising from the same incident. An order that a defendant make restitution or reparation as a sentence or condition of probation may, unless the court directs otherwise, be filed, transcribed, and enforced by the person entitled to the restitution or reparation or by the division of adult services in the same manner as civil judgments rendered by the courts of this state may be enforced.

PROPOSED AMENDMENTS TO ENGROSSED SENATE BILL NO. 2016

That the House recede from its amendments as printed on pages 1205-1213 of the Senate Journal and pages 1293-1301 of the House Journal and that Engrossed Senate Bill No. 2016 be amended as follows:

Page 1, line 2, after the second semicolon insert "to amend and reenact subsection 1 of section 12.1-32-08 and subsection 2 of section 54-23.4-12 of the North Dakota Century Code, relating to indigent defense costs and expenses and crime victims compensation subrogation;"

Page 3, after line 3, insert:

"SECTION 5. AMENDMENT. Subsection 1 of section 12.1-32-08 of the North Dakota Century Code is amended and reenacted as follows:

1. ~~Prior to~~ Before imposing restitution or reparation as a sentence or condition of probation, the court shall hold a hearing on the matter with notice to the prosecuting attorney and to the defendant as to the nature and amount thereof. The court, when sentencing a person adjudged guilty of criminal activities ~~which that~~ have resulted in pecuniary damages, in addition to any other sentence it may impose, shall order that the defendant make restitution to the victim or other recipient as determined by the court, unless the court states on the record, based upon the criteria in this subsection, the reason it does not order restitution or orders only partial restitution. In determining whether to order restitution, the court shall take into account:
 - a. The reasonable damages sustained by the victim or victims of the criminal offense, which damages ~~must be~~ are limited to those directly related to the criminal offense and expenses actually incurred as a direct result of the defendant's criminal action. This can include an amount equal to the cost of necessary and related professional services and devices relating to physical, psychiatric, and psychological care. The defendant may be required as part of the sentence imposed by the court to pay the prescribed treatment costs for a victim of a sexual offense as defined in chapters 12.1-20 and 12.1-27.2.
 - b. The ability of the defendant to restore the fruits of the criminal action or to pay monetary reparations, or to otherwise take action to restore the victim's property.
 - c. The likelihood that attaching a condition relating to restitution or reparation will serve a valid rehabilitational purpose in the case of the particular offender considered.

The court shall fix the amount of restitution or reparation, which may not exceed an amount the defendant can or will be able to pay, and shall fix the manner of performance of any condition or conditions of probation established pursuant to this subsection. The court ~~may~~ shall order restitution be paid to the division of ~~parole and probation~~ adult services for any benefits ~~if the division~~ the division has paid or may pay under chapter 54-23.4

unless the court, on the record, directs otherwise. Any payments made pursuant to ~~such~~ the order must be deducted from damages awarded in a civil action arising from the same incident. An order that a defendant make restitution or reparation as a sentence or condition of probation may, unless the court directs otherwise, be filed, transcribed, and enforced by the person entitled to the restitution or reparation or by the division of adult services in the same manner as civil judgments rendered by the courts of this state may be enforced.

SECTION 6. AMENDMENT. Subsection 2 of section 54-23.4-12 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

2. ~~Prior to~~ Before bringing an action to recover damages related to criminally injurious conduct for which compensation is claimed or awarded, the claimant shall give the division written notice of the proposed action. If a claimant brings an action for the recovery of damages related to criminally injurious conduct for which compensation is claimed or awarded, the division is subrogated to the rights of the claimant up to the total amount the division has paid. When there has been a recovery of damages, the costs of the action, to be paid by the division from the recovery, exclusive of attorney's fees, must be prorated and adjusted on the percentage of the total subrogation interest of the division recovered to the total recovery. If there is a recovery, the division shall pay attorney's fees to the claimant's attorney from the recovery in the amount of twenty-five percent of the subrogation interest recovered. For purposes of this section, recovery includes proceeds paid pursuant to a settlement, confession of judgment, or judgment of a court. The division may intervene in the action to recover compensation awarded. The division has a lien on a recovery to the extent it has paid compensation. The division is not liable for costs or attorney's fees when the claimant has not provided the division prior written notice of the commencement of an action. If a claimant does not bring an action for damages within six months from the date the division awarded benefits, the division may bring an action or claim for relief in the division's name and may retain as the division's subrogation interest the full amount the division has paid in compensation and benefits to a claimant. The division may bring an action within two years from the date the division first awarded benefits, notwithstanding any other statute of limitation. This section does not limit the claimant's right to bring an action to recover for other damages."

Renumber accordingly

PROPOSED AMENDMENTS TO ENGROSSED SENATE BILL NO. 2016

That the House recede from its amendments as printed on pages 1205-1213 of the Senate Journal and pages 1293-1301 of the House Journal and that Engrossed Senate Bill No. 2016 be amended as follows:

Page 3, replace lines 4 through 12 with:

"SECTION 5. DEPARTMENT OF CORRECTIONS AND REHABILITATION - LEGISLATIVE COUNCIL STUDY AND REPORTS. During the 2001-02 Interim, the legislative council shall consider studying:

1. The correctional system in North Dakota, including its functions, responsibilities, and funding; causes for increases in the state's inmate population; types of offenders and offender programs; cost-effectiveness of programs; operation, efficiency, and effectiveness of prison industry programs; rates of recidivism; possible alternatives to incarceration which may reduce the number of inmates and reduce recidivism; and the effectiveness of sentencing laws, incarceration, and treatment.
2. The facility needs of the department of corrections and rehabilitation, including the adequacy and utilization of the department's existing facilities; anticipated future facility needs considering the impact of alternative programs and trends in inmate population; the feasibility and desirability of increased utilization of county and private correctional facilities; and facilities required to address the needs of various inmate populations, including female inmates and inmates diagnosed with serious mental illness.
3. Wages paid to inmates sentenced to the state correctional system and the various deductions from those wages, including methods used to determine rates of pay; actual wages paid to inmates; deductions from inmate wages; and the effect deductions for incarceration costs, facility operation costs, and capital improvement costs have on inmate payments for child support and restitution."

Re-number accordingly

STATEMENT OF PURPOSE OF AMENDMENT:

Dept. 530 - Department of Corrections and Rehabilitation - Conference Committee Action

This amendment adds a section providing for a Legislative Council study. The proposed study combines the Legislative Council studies proposed by the Senate (Section 5 of the engrossed bill) and the studies proposed by the House (Sections 5 and 6 of the engrossed bill with House amendments).

April 25, 2001

PROPOSED AMENDMENTS TO ENGROSSED SENATE BILL NO. 2016

That the House recede from its amendments as printed on pages 1205-1213 of the Senate Journal and pages 1293-1301 of the House Journal and that Engrossed Senate Bill No. 2016 be amended as follows:

Page 1, line 2, replace the second "and" with "; to provide legislative intent"

Page 1, line 3, after "study" insert "; to create and enact a new section to chapter 54-23.3 of the North Dakota Century Code, relating to the establishment of new programs by the director of the department of corrections and rehabilitation; and to amend and reenact section 12-59-02, subsection 1 of section 12.1-32-08, and subsection 2 of section 54-23.4-12 of the North Dakota Century Code, relating to compensation of parole board members, indigent defense costs and expenses, and crime victims compensation subrogation"

Page 2, remove lines 23 through 26

Page 3, replace lines 4 through 12 with:

"SECTION 4. DEPARTMENT OF CORRECTIONS AND REHABILITATION - LEGISLATIVE COUNCIL STUDY. During the 2001-02 Interim, the legislative council shall consider studying:

1. The correctional system in North Dakota, including its functions, responsibilities, and funding; causes for increases in the state's inmate population; types of offenders and offender programs; cost-effectiveness of programs; operation, efficiency, and effectiveness of prison industry programs; rates of recidivism; possible alternatives to incarceration which may reduce the number of inmates and reduce recidivism; and the effectiveness of sentencing laws, incarceration, and treatment.
2. The facility needs of the department of corrections and rehabilitation, including the adequacy and utilization of the department's existing facilities; anticipated future facility needs considering the impact of alternative programs and trends in inmate population; the feasibility and desirability of increased utilization of county and private correctional facilities; and facilities required to address the needs of various inmate populations, including female inmates and inmates diagnosed with serious mental illness.
3. Wages paid to inmates sentenced to the state correctional system and the various deductions from those wages, including methods used to determine rates of pay; actual wages paid to inmates; deductions from inmate wages; and the effect deductions for incarceration costs, facility operation costs, and capital improvement costs have on inmate payments for child support and restitution.

SECTION 5. FEDERAL FUNDING REDUCTIONS - BUDGET SECTION APPROVAL. If, during the biennium beginning July 1, 2001, and ending June 30, 2003, the federal government reduces funding below the level anticipated by the fifty-seventh legislative assembly for any programs administered by the department of

corrections and rehabilitation, the department may not supplant the federal funds with general or special fund moneys without first obtaining the approval of the budget section of the legislative council. The department's budget request for the biennium beginning July 1, 2003, and ending June 30, 2005, must identify any programs for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.

SECTION 6. OPERATION OF "PRERELEASE" AND "DUI OFFENDER TREATMENT" PROGRAMS - REPORT TO THE FIFTY-EIGHTH LEGISLATIVE ASSEMBLY. During the biennium beginning July 1, 2001, and ending June 30, 2003, the department of corrections and rehabilitation shall monitor the operation of the programs known as the "prerelease center" and the "DUI offender treatment center" authorized by the fifty-seventh legislative assembly. The department shall present a report to the appropriations committees of the fifty-eighth legislative assembly regarding the operation of the programs, including the impact of the programs on recidivism rates; the cost-effectiveness of the programs; the success of the programs; the ability to collect fees, if any, from the participating inmates; and a comparison of the costs and benefits of the "prerelease center" and the "DUI offender treatment center" to other forms of treatment or incarceration.

SECTION 7. LEGISLATIVE INTENT - FUNDING FOR DRUG COURT PROGRAM. It is the intent of the fifty-seventh legislative assembly that the department of corrections and rehabilitation seek federal funding to support the drug court program during the biennium beginning July 1, 2001, and ending June 30, 2003. If federal funds do not become available to the department to support the program, special funds derived from other income of the department may be used to fund the program. If federal funds become available during the biennium, the department must use the federal funds, and any required matching funds to be provided from special funds, to fund the program for the remainder of the biennium before funds from any other source are used for this purpose. Special fund moneys not used for the drug court program pursuant to this section must be used in place of general fund moneys appropriated by the fifty-seventh legislative assembly for other programs operated by the department.

SECTION 8. AMENDMENT. Section 12-59-02 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

12-59-02. Meetings - Compensation - Rules. The governor shall appoint a member of the parole board to be chairman. The chairman of the parole board shall designate three members of the parole board for each meeting of the parole board. Meetings of the parole board must be held in accordance with rules established by the parole board and must be held as often as required to properly conduct the business of the board, but in any event not less than six times per year. The parole board may only take action upon the concurrence of at least two members who participated in the same meeting. The final decision of at least two parole board members who participated in the same parole board meeting constitutes the decision of the parole board. Members are entitled to be compensated at the rate of ~~sixty-two~~ seventy-five dollars and ~~fifty cents~~ per day for each day actually and necessarily spent in the performance of their duties as board members plus the same mileage and expenses as are authorized for state officials and employees. The director of the division of parole and probation, or the director's designee, is the clerk for the parole board.

SECTION 9. AMENDMENT. Subsection 1 of section 12.1-32-08 of the North Dakota Century Code is amended and reenacted as follows:

1. ~~Prior to~~ Before imposing restitution or reparation as a sentence or condition of probation, the court shall hold a hearing on the matter with notice to the prosecuting attorney and to the defendant as to the nature and amount thereof. The court, when sentencing a person adjudged guilty of criminal activities ~~which~~ that have resulted in pecuniary damages, in addition to any other sentence it may impose, shall order that the defendant make

restitution to the victim or other recipient as determined by the court, unless the court states on the record, based upon the criteria in this subsection, the reason it does not order restitution or orders only partial restitution. In determining whether to order restitution, the court shall take into account:

- a. The reasonable damages sustained by the victim or victims of the criminal offense, which damages ~~must be~~ are limited to those directly related to the criminal offense and expenses actually incurred as a direct result of the defendant's criminal action. This can include an amount equal to the cost of necessary and related professional services and devices relating to physical, psychiatric, and psychological care. The defendant may be required as part of the sentence imposed by the court to pay the prescribed treatment costs for a victim of a sexual offense as defined in chapters 12.1-20 and 12.1-27.2.
- b. The ability of the defendant to restore the fruits of the criminal action or to pay monetary reparations, or to otherwise take action to restore the victim's property.
- c. The likelihood that attaching a condition relating to restitution or reparation will serve a valid rehabilitational purpose in the case of the particular offender considered.

The court shall fix the amount of restitution or reparation, which may not exceed an amount the defendant can or will be able to pay, and shall fix the manner of performance of any condition or conditions of probation established pursuant to this subsection. The court ~~may~~ shall order restitution be paid to the division of ~~parole and probation~~ adult services for any benefits ~~if the division~~ the division has paid or may pay under chapter 54-23.4 unless the court, on the record, directs otherwise. Any payments made pursuant to ~~such~~ the order must be deducted from damages awarded in a civil action arising from the same incident. An order that a defendant make restitution or reparation as a sentence or condition of probation may, unless the court directs otherwise, be filed, transcribed, and enforced by the person entitled to the restitution or reparation or by the division of adult services in the same manner as civil judgments rendered by the courts of this state may be enforced.

SECTION 10. A new section to chapter 54-23.3 of the North Dakota Century Code is created and enacted as follows:

Reports regarding new programs. Notwithstanding the powers granted under section 54-23.3-04, the director of the department of corrections and rehabilitation may not authorize any new program that serves adult or juvenile offenders, including programs that provide alternatives to conventional incarceration and programs operated on a contract basis, without first reporting to the legislative assembly or, if the legislative assembly is not in session, the budget section of the legislative council.

SECTION 11. AMENDMENT. Subsection 2 of section 54-23.4-12 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

2. ~~Prior to~~ Before bringing an action to recover damages related to criminally injurious conduct for which compensation is claimed or awarded, the claimant shall give the division written notice of the proposed action. If a claimant brings an action for the recovery of damages related to criminally injurious conduct for which compensation is claimed or awarded, the division is subrogated to the rights of the claimant up to the total amount the division has paid. When there has been a recovery of damages, the costs of the action, to be paid by the division from the recovery, exclusive

of attorney's fees, must be prorated and adjusted on the percentage of the total subrogation interest of the division recovered to the total recovery. If there is a recovery, the division shall pay attorney's fees to the claimant's attorney from the recovery in the amount of twenty-five percent of the subrogation interest recovered. For purposes of this section, recovery includes proceeds paid pursuant to a settlement, confession of judgment, or judgment of a court. The division may intervene in the action to recover compensation awarded. The division has a lien on a recovery to the extent it has paid compensation. The division is not liable for costs or attorney's fees when the claimant has not provided the division prior written notice of the commencement of an action. If a claimant does not bring an action for damages within six months from the date the division awarded benefits, the division may bring an action or claim for relief in the division's name and may retain as the division's subrogation interest the full amount the division has paid in compensation and benefits to a claimant. The division may bring an action within two years from the date the division first awarded benefits, notwithstanding any other statute of limitation. This section does not limit the claimant's right to bring an action to recover for other damages."

Renumber accordingly

STATEMENT OF PURPOSE OF AMENDMENT:

Dept. 530 - Department of Corrections and Rehabilitation - Conference Committee Action

This amendment removes the following sections included in the House amendment:

- Section 8, which provided that any moneys budgeted by the Youth Correctional Center for teacher contracts for the summer education program but not spent for that purpose must be returned to the general fund at the end of the 2001-03 biennium.
- Section 9, which authorized the department to transfer funds between the subdivisions and program line items included in the bill for the purpose of providing for computer purchases.
- Section 11, which provided that any moneys budgeted for the operation of the prerelease center but not spent for that purpose may not be used for any other purpose except contracting for inmate housing.

This amendment includes the following sections added by the House:

- Section 5, which provides that if federal funding is reduced during the 2001-03 biennium, the department may not supplant the federal funds with general or special funds. The department must also identify any programs included in its 2003-05 biennium budget request for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.
- Section 6, which directs the department to report to the Appropriations Committees of the Fifty-eighth Legislative Assembly on the effectiveness of the prerelease and DUI offender treatment programs.
- Section 7, which provides legislative intent that the department seek federal funding for the drug court program. If federal funds become available, the department must spend the federal funds in place of the special funds appropriated for the program; the special funds appropriation for the program must then be used in place of general fund moneys appropriated for other programs.
- Section 8, which amends North Dakota Century Code (NDCC) Section 12-59-02 to increase the compensation rate for Parole Board members from \$62.50 per day to \$75 per day.
- Section 10, which creates a new section to NDCC Chapter 54-23.3 to require the department to report to the Legislative Assembly or the Budget Section before establishing any new correctional program.

This amendment adds a section providing for a Legislative Council study. The proposed study combines the Legislative Council studies proposed by the Senate (Section 5 of the engrossed bill) and the studies proposed by the House (Sections 5 and 6 of the engrossed bill with House amendments).

This amendment replaces Sections 15 and 16 included in the House amendments with new Sections 9 and 11 relating to court orders for restitution and subrogation interests of the Department of Corrections and Rehabilitation in relation to crime victims compensation claims.

PROPOSED AMENDMENTS TO ENGROSSED SENATE BILL NO. 2016

That the House recede from its amendments as printed on pages 1205-1213 of the Senate Journal and pages 1293-1301 of the House Journal and that Engrossed Senate Bill No. 2016 be amended as follows:

Page 3, replace lines 4 through 12 with:

"SECTION 5. DEPARTMENT OF CORRECTIONS AND REHABILITATION - LEGISLATIVE COUNCIL STUDY AND REPORTS. During the 2001-02 interim, the legislative council shall consider studying:

1. The correctional system in North Dakota, including its functions, responsibilities, and funding; causes for increases in the state's inmate population; types of offenders and offender programs; cost-effectiveness of programs; operation, efficiency, and effectiveness of prison industry programs; rates of recidivism; possible alternatives to incarceration which may reduce the number of inmates and reduce recidivism; and the effectiveness of sentencing laws, incarceration, and treatment.
2. The facility needs of the department of corrections and rehabilitation, including the adequacy and utilization of the department's existing facilities; anticipated future facility needs considering the impact of alternative programs and trends in inmate population; the feasibility and desirability of increased utilization of county and private correctional facilities; and facilities required to address the needs of various inmate populations, including female inmates and inmates diagnosed with serious mental illness.
3. Wages paid to inmates sentenced to the state correctional system and the various deductions from those wages, including methods used to determine rates of pay; actual wages paid to inmates; deductions from inmate wages; and the effect deductions for incarceration costs, facility operation costs, and capital improvement costs have on inmate payments for child support and restitution.

SECTION 6. DEPARTMENT OF CORRECTIONS AND REHABILITATION - WOMEN'S UNIT CONSTRUCTION - LEGISLATIVE COUNCIL STUDY - BUDGET SECTION AUTHORIZATION. The total funds appropriation contained in subdivision 3 of section 1 of this Act includes \$_____ from the general fund and \$_____ from other funds for the construction of a women's unit for housing adult female offenders sentenced to the department of corrections and rehabilitation. The amounts appropriated for the construction of a women's unit may be spent if:

1. The legislative council conducts the study as provided in subsection 2 of section 5 of this Act;
2. The committee conducting the study recommends construction of a women's unit after considering the following:
 - a. The need to construct the women's unit based on:
 - (1) The anticipated trends in male and female inmate populations;

- (2) The anticipated impact of programs that provide alternatives to conventional incarceration;
 - (3) The availability and cost-effectiveness of prison beds available to the department on a contract basis in county, regional, or private correctional facilities; and
 - (4) Future capital construction needs of the department; and
- b. The most feasible and desirable location of the women's unit based on:
- (1) The availability of educational, treatment, work, and other programs;
 - (2) The availability of qualified staff to operate the women's unit and provide services to inmates; and
 - (3) Future capital construction needs of the department; and
3. The budget section of the legislative council authorizes the department to spend funds appropriated by the fifty-seventh legislative assembly for this purpose."

Renumber accordingly

STATEMENT OF PURPOSE OF AMENDMENT:

Dept. 530 - Department of Corrections and Rehabilitation - Conference Committee Action

This amendment adds a section providing for three Legislative Council studies. The proposed studies are a combination of the Legislative Council studies proposed by the Senate (Section 5 of the engrossed bill) and the studies proposed by the House (Sections 5 and 6 of the engrossed bill with House amendments).

The amendment also adds a section to provide that, if determined appropriate, the Budget Section may authorize the department to spend the moneys appropriated for construction of a new women's unit after a Legislative Council study that recommends construction of the unit.

PROPOSED AMENDMENTS TO ENGROSSED SENATE BILL NO. 2016

That the House recede from its amendments as printed on pages 1205-1213 of the Senate Journal and pages 1293-1301 of the House Journal and that Engrossed Senate Bill No. 2016 be amended as follows:

Page 3, replace lines 4 through 12 with:

"SECTION 5. DEPARTMENT OF CORRECTIONS AND REHABILITATION - LEGISLATIVE COUNCIL STUDY AND REPORTS. During the 2001-02 interim, the legislative council shall consider studying wages paid to inmates sentenced to the state correctional system and the various deductions from those wages, including methods used to determine rates of pay; actual wages paid to inmates; deductions from inmate wages; and the effect deductions for incarceration costs, facility operation costs, and capital improvement costs have on inmate payments for child support and restitution.

SECTION 6. DEPARTMENT OF CORRECTIONS AND REHABILITATION - FACILITY AND OPERATIONS - LEGISLATIVE COUNCIL STUDY. The legislative council shall study, during the 2001-02 interim, the facilities and operations of the department of corrections and rehabilitation. The study shall include the use of consultant services as determined by the legislative council. The study shall include the following:

1. An analysis and evaluation of all facilities currently used by the department of corrections and rehabilitation and all facilities currently used by the state hospital which may at some time be used by the department, including:
 - a. The age, condition, and adequacy of each facility.
 - b. The operational efficiency of each facility, including utility costs and staffing needs.
 - c. Modifications, if any, required to allow the department to meet the various needs of adult offenders.
2. An analysis and evaluation of future facility needs, including:
 - a. The types of facilities needed to serve adult offenders.
 - b. The most appropriate location for the department's various facilities, considering:
 - (1) The operational inefficiencies of maintaining multiple facilities.
 - (2) The administrative benefits of having multiple facilities in which to place offenders.
 - (3) The availability of education, treatment, and work programs for inmates.
3. An analysis and evaluation of the staffing needs of the department, including:
 - a. Current staff utilization and needs at each facility.

- b. Availability of potential employees in each region in which the department operates or may operate a correctional facility.
4. An analysis and evaluation of the anticipated need for additional prison beds, considering the following:
 - a. The impact of changes in sentencing laws.
 - b. The impact of programs that provide alternatives to conventional incarceration.
 - c. Trends in occurrence and types of crime committed in the state.
 - d. The utilization and availability of existing and proposed county or regional correctional facilities.
 - e. The utilization and availability of existing and proposed private correctional facilities.
5. A cost benefit analysis of the department's current and proposed programs, considering:
 - a. The effect on recidivism.
 - b. The necessity and effectiveness of providing rehabilitation and treatment services.
 - c. The availability of rehabilitation and treatment services which could be provided by entities or agencies other than the department, including regional human service centers.

SECTION 7. APPROPRIATION. There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$200,000, or so much of the sum as may be necessary, to the legislative council for the biennium beginning July 1, 2001, and ending June 30, 2003, for the purpose of contracting with a consultant to conduct the study as provided in section 6 of this Act."

Renumber accordingly

STATEMENT OF PURPOSE OF AMENDMENT:

Dept. 530 - Department of Corrections and Rehabilitation - Conference Committee Action

This amendment adds a section providing for two Legislative Council studies.

- Section 5 provides for a study of issues relating to the payment of inmate wages.
- Section 6 provides for a comprehensive study, to be conducted using the services of a consultant, on the state's correctional system; including its programs and facilities.
- Section 7 appropriates \$200,000 to the Legislative Council to contract with a consultant to carry out the study provided for in Section 6.

PROPOSED AMENDMENTS TO ENGROSSED SENATE BILL NO. 2016

That the House recede from its amendments as printed on pages 1205-1213 of the Senate Journal and pages 1293-1301 of the House Journal and that Engrossed Senate Bill No. 2016 be amended as follows:

Page 1, line 2, replace the second "and" with "to provide legislative intent; to provide for budget section authorization of the construction of a women's unit;"

Page 1, line 3, after "study" insert "; to create and enact a new section to chapter 54-23.3 of the North Dakota Century Code, relating to the establishment of new programs by the director of the department of corrections and rehabilitation; and to amend and reenact section 12-59-02, subsection 1 of section 12.1-32-08, and subsection 2 of section 54-23.4-12 of the North Dakota Century Code, relating to compensation of parole board members, indigent defense costs and expenses, and crime victims compensation subrogation"

Page 1, line 13, replace "1,281,357" with "1,155,357"

Page 1, line 15, replace "80,850" with "65,750"

Page 1, line 16, replace "1,533,654" with "1,392,554"

Page 1, line 18, replace "1,522,494" with "1,381,394"

Page 1, line 21, replace "10,819,873" with "10,647,498"

Page 1, line 22, replace "5,031,382" with "4,917,407"

Page 1, line 23, replace "217,050" with "148,700"

Page 2, line 2, replace "21,189,929" with "20,835,229"

Page 2, line 3, replace "7,863,275" with "7,825,075"

Page 2, line 4, replace "13,328,654" with "13,010,154"

Page 2, line 8, replace "4,460,612" with "3,863,128"

Page 2, line 9, replace "11,755,705" with "11,353,870"

Page 2, line 10, replace "28,600,319" with "25,258,666"

Page 2, line 11, replace "4,086,082" with "3,732,331"

Page 2, line 12, replace "25,092,023" with "24,163,872"

Page 2, line 13, replace "10,849,840" with "10,842,290"

Page 2, line 14, replace "88,268,147" with "82,637,723"

Page 2, line 15, replace "18,649,164" with "18,696,864"

Page 2, line 16, replace "69,618,963" with "63,940,859"

Page 2, line 17, remove "S.B. 2016" and replace "84,468,111" with "78,532,407"

Page 2, line 18, remove "S.B. 2016" and replace "26,523,619" with "26,533,099"

Page 2, line 19, remove "S.B. 2016" and replace "110,890,730" with "105,065,506"

Page 2, remove lines 23 through 26

Page 3, replace lines 4 through 12 with:

"SECTION 4. DEPARTMENT OF CORRECTIONS AND REHABILITATION - LEGISLATIVE COUNCIL STUDY AND REPORTS. During the 2001-02 interim, the legislative council shall consider studying wages paid to inmates sentenced to the state correctional system and the various deductions from those wages, including methods used to determine rates of pay; actual wages paid to inmates; deductions from inmate wages; and the effect deductions for incarceration costs, facility operation costs, and capital improvement costs have on inmate payments for child support and restitution. The legislative council shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the fifty-eighth legislative assembly.

SECTION 5. DEPARTMENT OF CORRECTIONS AND REHABILITATION - FACILITY AND OPERATIONS - LEGISLATIVE COUNCIL STUDY. The legislative council shall study, during the 2001-02 interim, the facilities and operations of the department of corrections and rehabilitation. The study must include the use of consultant services as determined by the legislative council. The study must include the following:

1. An analysis and evaluation of all facilities currently used by the department of corrections and rehabilitation and all facilities currently used by the state hospital which may at some time be used by the department, including:
 - a. The age, condition, and adequacy of each facility.
 - b. The operational efficiency of each facility, including utility costs and staffing needs.
 - c. Modifications, if any, required to allow the department to meet the various needs of adult offenders.
2. An analysis and evaluation of future facility needs, including:
 - a. The types of facilities needed to serve adult offenders.
 - b. The most appropriate location for the department's various facilities, considering:
 - (1) The operational inefficiencies of maintaining multiple facilities.
 - (2) The administrative benefits of having multiple facilities in which to place offenders.
 - (3) The availability of education, treatment, and work programs for inmates.

- 3. An analysis and evaluation of the staffing needs of the department, including:
 - a. Current staff utilization and needs at each facility.
 - b. Availability of potential employees in each region in which the department operates or may operate a correctional facility.
- 4. An analysis and evaluation of the anticipated need for additional prison beds, considering the following:
 - a. The impact of changes in sentencing laws.
 - b. The impact of programs that provide alternatives to conventional incarceration.
 - c. Trends in occurrence and types of crime committed in the state.
 - d. The utilization and availability of existing and proposed county or regional correctional facilities.
 - e. The utilization and availability of existing and proposed private correctional facilities.
- 5. A cost-benefit analysis of the department's current and proposed programs, considering:
 - a. The effect on recidivism.
 - b. The necessity and effectiveness of providing rehabilitation and treatment services.
 - c. The availability of rehabilitation and treatment services which could be provided by entities or agencies other than the department, including regional human service centers.

SECTION 6. APPROPRIATION. There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$200,000, or so much of the sum as may be necessary, to the legislative council for the biennium beginning July 1, 2001, and ending June 30, 2003, for the purpose of contracting with a consultant to conduct the study as provided in section 5 of this Act.

SECTION 7. DEPARTMENT OF CORRECTIONS AND REHABILITATION - WOMEN'S UNIT CONSTRUCTION - LEGISLATIVE COUNCIL STUDY - BUDGET SECTION AUTHORIZATION. The total funds appropriation contained in subdivision 3 of section 1 of this Act includes \$2,450,000 from the general fund and \$1,400,000 from other funds for the construction of a women's unit for housing adult female offenders sentenced to the department of corrections and rehabilitation. The amounts appropriated for the construction of a women's unit may be spent if:

- 1. The legislative council conducts the study as provided in section 5 of this Act;
- 2. The committee conducting the study recommends construction of a women's unit after considering the following:
 - a. The need to construct the women's unit based on:
 - (1) The anticipated trends in male and female inmate populations;

- (2) The anticipated impact of programs that provide alternatives to conventional incarceration;
 - (3) The availability and cost-effectiveness of prison beds available to the department on a contract basis in county, regional, or private correctional facilities; and
 - (4) Future capital construction needs of the department; and
- b. The most feasible and desirable location of the women's unit based on:
- (1) The availability of educational, treatment, work, and other programs;
 - (2) The availability of qualified staff to operate the women's unit and provide services to inmates; and
 - (3) Future capital construction needs of the department; and
3. The budget section of the legislative council authorizes the department to spend funds appropriated by the fifty-seventh legislative assembly for this purpose.

SECTION 8. FEDERAL FUNDING REDUCTIONS - BUDGET SECTION APPROVAL. If, during the biennium beginning July 1, 2001, and ending June 30, 2003, the federal government reduces funding below the level anticipated by the fifty-seventh legislative assembly for any programs administered by the department of corrections and rehabilitation, the department may not supplant the federal funds with general or special fund moneys without first obtaining the approval of the budget section of the legislative council. The department's budget request for the biennium beginning July 1, 2003, and ending June 30, 2005, must identify any programs for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.

SECTION 9. OPERATION OF "PRERELEASE" AND "DUI OFFENDER TREATMENT" PROGRAMS - REPORT TO THE FIFTY-EIGHTH LEGISLATIVE ASSEMBLY. During the biennium beginning July 1, 2001, and ending June 30, 2003, the department of corrections and rehabilitation shall monitor the operation of the programs known as the "prerelease center" and the "DUI offender treatment center" authorized by the fifty-seventh legislative assembly. The department shall present a report to the appropriations committees of the fifty-eighth legislative assembly regarding the operation of the programs, including the impact of the programs on recidivism rates; the cost-effectiveness of the programs; the success of the programs; the ability to collect fees, if any, from the participating inmates; and a comparison of the costs and benefits of the "prerelease center" and the "DUI offender treatment center" to other forms of treatment or incarceration.

SECTION 10. LEGISLATIVE INTENT - FUNDING FOR DRUG COURT PROGRAM. It is the intent of the fifty-seventh legislative assembly that the department of corrections and rehabilitation seek federal funding to support the drug court program during the biennium beginning July 1, 2001, and ending June 30, 2003. If federal funds do not become available to the department to support the program, special funds derived from other income of the department may be used to fund the program. If federal funds become available during the biennium, the department must use the federal funds, and any required matching funds to be provided from special funds, to fund the program for the remainder of the biennium before funds from any other source are used for this purpose. Special fund moneys not used for the drug court program pursuant to this section must be used in place of general fund moneys appropriated by the fifty-seventh legislative assembly for other programs operated by the department.

5 of 12

SECTION 11. AMENDMENT. Section 12-59-02 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

12-59-02. Meetings - Compensation - Rules. The governor shall appoint a member of the parole board to be chairman. The chairman of the parole board shall designate three members of the parole board for each meeting of the parole board. Meetings of the parole board must be held in accordance with rules established by the parole board and must be held as often as required to properly conduct the business of the board, but in any event not less than six times per year. The parole board may only take action upon the concurrence of at least two members who participated in the same meeting. The final decision of at least two parole board members who participated in the same parole board meeting constitutes the decision of the parole board. Members are entitled to be compensated at the rate of ~~sixty-two~~ seventy-five dollars ~~and fifty cents~~ per day for each day actually and necessarily spent in the performance of their duties as board members plus the same mileage and expenses as are authorized for state officials and employees. The director of the division of parole and probation, or the director's designee, is the clerk for the parole board.

SECTION 12. AMENDMENT. Subsection 1 of section 12.1-32-08 of the North Dakota Century Code is amended and reenacted as follows:

1. ~~Prior to~~ Before imposing restitution or reparation as a sentence or condition of probation, the court shall hold a hearing on the matter with notice to the prosecuting attorney and to the defendant as to the nature and amount thereof. The court, when sentencing a person adjudged guilty of criminal activities ~~which that~~ have resulted in pecuniary damages, in addition to any other sentence it may impose, shall order that the defendant make restitution to the victim or other recipient as determined by the court, unless the court states on the record, based upon the criteria in this subsection, the reason it does not order restitution or orders only partial restitution. In determining whether to order restitution, the court shall take into account:
 - a. The reasonable damages sustained by the victim or victims of the criminal offense, which damages ~~must be~~ are limited to those directly related to the criminal offense and expenses actually incurred as a direct result of the defendant's criminal action. This can include an amount equal to the cost of necessary and related professional services and devices relating to physical, psychiatric, and psychological care. The defendant may be required as part of the sentence imposed by the court to pay the prescribed treatment costs for a victim of a sexual offense as defined in chapters 12.1-20 and 12.1-27.2.
 - b. The ability of the defendant to restore the fruits of the criminal action or to pay monetary reparations, or to otherwise take action to restore the victim's property.
 - c. The likelihood that attaching a condition relating to restitution or reparation will serve a valid rehabilitational purpose in the case of the particular offender considered.

The court shall fix the amount of restitution or reparation, which may not exceed an amount the defendant can or will be able to pay, and shall fix the manner of performance of any condition or conditions of probation established pursuant to this subsection. The court ~~may~~ shall order restitution be paid to the division of ~~parole and probation~~ adult services for any benefits ~~if the division~~ has paid or may pay under chapter 54-23.4 unless the court, on the record, directs otherwise. Any payments made pursuant to ~~such the~~ order must be deducted from damages awarded in a civil action arising from the same incident. An order that a defendant make

restitution or reparation as a sentence or condition of probation may, unless the court directs otherwise, be filed, transcribed, and enforced by the person entitled to the restitution or reparation or by the division of adult services in the same manner as civil judgments rendered by the courts of this state may be enforced.

SECTION 13. A new section to chapter 54-23.3 of the North Dakota Century Code is created and enacted as follows:

Reports regarding new programs. Notwithstanding the powers granted under section 54-23.3-04, the director of the department of corrections and rehabilitation may not authorize any new program to serve adult or juvenile offenders, including programs that provide alternatives to conventional incarceration and programs operated on a contract basis, if the program is anticipated to cost in excess of one hundred thousand dollars during the biennium in which the program is implemented or any subsequent biennium without first reporting to the legislative assembly or, if the legislative assembly is not in session, the budget section of the legislative council.

SECTION 14. AMENDMENT. Subsection 2 of section 54-23.4-12 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

2. ~~Prior to~~ Before bringing an action to recover damages related to criminally injurious conduct for which compensation is claimed or awarded, the claimant shall give the division written notice of the proposed action. If a claimant brings an action for the recovery of damages related to criminally injurious conduct for which compensation is claimed or awarded, the division is subrogated to the rights of the claimant up to the total amount the division has paid. When there has been a recovery of damages, the costs of the action, to be paid by the division from the recovery, exclusive of attorney's fees, must be prorated and adjusted on the percentage of the total subrogation interest of the division recovered to the total recovery. If there is a recovery, the division shall pay attorney's fees to the claimant's attorney from the recovery in the amount of twenty-five percent of the subrogation interest recovered. For purposes of this section, recovery includes proceeds paid pursuant to a settlement, confession of judgment, or judgment of a court. The division may intervene in the action to recover compensation awarded. The division has a lien on a recovery to the extent it has paid compensation. The division is not liable for costs or attorney's fees when the claimant has not provided the division prior written notice of the commencement of an action. If a claimant does not bring an action for damages within six months from the date the division awarded benefits, the division may bring an action or claim for relief in the division's name and may retain as the division's subrogation interest the full amount the division has paid in compensation and benefits to a claimant. The division may bring an action within two years from the date the division first awarded benefits, notwithstanding any other statute of limitation. This section does not limit the claimant's right to bring an action to recover for other damages.

Renumber accordingly

STATEMENT OF PURPOSE OF AMENDMENT:

Senate Bill No. 2016 - Summary of Conference Committee Action

- Funding for the DUI offender treatment program, which will be operated on a contract basis with the State Hospital, is reduced from \$2,139,284 to \$1,600,000 to reflect a reduction in administrative cost allocation charged by the State Hospital, the same as the House version.
- The Senate version for the Adult Services Division included funding for 47 new desktop computers budgeted at various prices ranging from \$1,914 to \$2,300 per computer and six new laptop computers budgeted at various prices ranging from \$2,500 to \$3,500 per computer. This amendment reduces the price per computer to \$1,400 for desktop computers and \$1,750 for laptop computers, the same as the House version.
- The total number of new desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 106 to 77, the same as the House version. The number of budgeted desktop computer purchases is reduced from 47 to 34 for the Adult Services Division, the same as the House version.
- Funding is provided by the Conference Committee for the proposed seriously mentally ill (SMI) unit only for the last six months of the biennium as follows:

	SENATE VERSION	HOUSE VERSION	CONFERENCE COMMITTEE VERSION
Total general fund	\$2,437,787	\$0	\$783,347
FTE	28.00	0.00	28.00

⁵ The Institutional offender services line item is adjusted for the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Operating expenses	(\$10,000)		(\$10,000)
Compensation rate increase for Parole Board members from \$62.50 to \$75 per day	2,650		2,650
Total change from Senate version	(\$7,450)	\$0	(\$7,450)

⁶ The community offender services line item is reduced to reflect the following changes:

	FTE	GENERAL FUND	OTHER FUNDS	TOTAL
Temporary salaries		(\$14,000)		(\$14,000)
Operating expenses		(257,000)		(257,000)
Funding source change (additional supervision fees)		(80,000)	\$80,000	
Remove parole officer II position				
Salaries and wages	(1.00)	(78,755)		(78,755)
Operating expenses		<u>(32,372)</u>		<u>(32,372)</u>
Total reduction relating to new positions	(1.00)	(\$111,127)		(\$111,127)
Total change from Senate version	(1.00)	(\$442,127)	\$80,000	(\$382,127)

Compared to the House version, this amendment restores \$150,000 from the general fund to this line item.

7 The support services line item is reduced to reflect the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Temporary salaries	(\$8,000)		(\$8,000)
Medical, dental, and optical expenses	30,000		30,000
Hepatitis B vaccinations and screening and treatment for other contagious diseases	91,375		91,375
Other equipment	(100,000)		(100,000)
Capital improvements - Penitentiary parking lot	(403,118)		(403,118)
Capital improvements - Extraordinary repairs	(100,000)		(100,000)
Total change from Senate version	(\$489,743)	\$0	(\$489,743)

8 The security and safety line item is reduced to reflect a \$5,000 reduction in operating expenses.

9 Funding is removed for the following capital projects:

	GENERAL FUND	OTHER FUNDS	TOTAL
Missouri River Correctional Center - Food service building	(\$1,983,000)		(\$1,983,000)
Women's unit	<u>(2,320,000)</u>	<u>(\$1,400,000)</u>	<u>(3,720,000) *</u>
Total change from Senate version	(\$4,303,000)	(\$1,400,000)	(\$5,703,000)

* Contingent funding of \$3.85 million is added for construction of the women's unit (see footnote 11 below).

10 Funding is removed for the proposed women's unit as follows:

	GENERAL FUND	OTHER FUNDS	TOTAL
Salaries and wages	(\$585,457)		(\$585,457)
Operating expenses	(421,815)		(421,815)
Equipment	<u>(33,795)</u>		<u>(33,795)</u>
Total change from Senate version	(\$1,041,067)	\$0	(\$1,041,067)

11 Funding is added for construction of a women's unit, subject to the outcome of a Legislative Council study and Budget Section approval.

12 The Senate version included \$2,452,275 for housing inmates at county or out-of-state correctional facilities. This amendment increases that amount to \$2,898,380. The House had increased the Senate version by \$198,105.

- 1 The Senate version included \$125,000 for salary adjustments, in addition to the executive budget compensation package, to address equity and salary compression issues within the department. This amendment removes this funding, the same as the House version.
- 2 The Senate version for the Central Office included funding for nine new desktop computers, budgeted at a cost of \$2,100 per computer. This amendment reduces the budgeted price per computer to \$1,400, the same as the House version.
- 3 The Senate version for the Central Office included funding to replace three computer servers, one at a price of \$25,000 and two at \$14,000. This amendment removes funding for one of the \$14,000 servers, the same as the House version.
- 4 The total number of desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 106 to 77. The number of budgeted desktop computer purchases is reduced from nine to seven for the Central Office.

Compared to the House version, this amendment restores one FTE data processing position and related operating expenses (\$87,871) and other operating expenses (\$11,000).

1 The Senate version included one FTE security officer I for the Youth Correctional Center and one FTE administrative assistant I for the Juvenile Community Services Division. This amendment reduces the salaries and wages line item by \$41,000 (\$12,000 for Juvenile Community Services and \$29,000 for the Youth Correctional Center) to reflect an anticipated reduction in the need for temporary employees as a result of the new positions, the same as the House version.

2 The Juvenile Services Division operating expenses line item is reduced to reflect the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Juvenile Community Services (JCS) Division - Various reductions	(\$55,000)		(\$55,000)
JCS Division - Juvenile transportation costs (SB 2220 with House amendments)	(41,475)		(41,475)
YCC - Administration	(7,500)		(7,500)
YCC - Education	<u>(10,000)</u>		<u>(10,000)</u>
Total change from Senate version	(\$113,975)	\$0	(\$113,975)

The House had reduced these items by \$139,475.

3 This amendment reduces the amount appropriated to the Youth Correctional Center for "other" equipment from \$54,729 to \$49,729. The House had reduced this by \$34,000.

4 The Senate version for the Juvenile Services Division included \$291,375 for salary adjustments, in addition to the executive budget compensation package, to increase teacher salaries pursuant to a composite salary schedule developed by the Central Personnel Division. This amendment reduces this amount to \$200,000, the same as the House version.

5 The Senate version for the Juvenile Services Division included funding for the purchase of 50 new desktop computers and three new laptop computers, budgeted at a price of \$2,200 per desktop and \$3,000 per laptop. This amendment reduces the budgeted prices to \$1,400 per desktop and \$1,750 per laptop, the same as the House version.

6 The total number of desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 106 to 77, the same as the House version. The number of budgeted desktop computer purchases is reduced from 50 to 36 for the Juvenile Services Division, the same as the House version.

This amendment does not reduce funding for heating plant improvements at the Youth Correctional Center. The House version had reduced this item by \$36,320 from the general fund.

This amendment removes the following sections included in the House amendment:

- The section which provided that any moneys budgeted by the Youth Correctional Center for teacher contracts for the summer education program but not spent for that purpose must be returned to the general fund at the end of the 2001-03 biennium.
- The section which authorized the department to transfer funds between the subdivisions and program line items included in the bill for the purpose of providing for computer purchases.
- The section which provided that any moneys budgeted for the operation of the prerelease center but not spent for that purpose may not be used for any other purpose except contracting for inmate housing.

This amendment also adds the following sections:

- Section 4, which directs the Legislative Council to consider studying issues relating to inmate wages and various deductions from those wages.
- Section 5, which directs the Legislative Council to consider studying the facility needs of the Department of Corrections and Rehabilitation.

- Section 6, which provides an appropriation of \$200,000 to the Legislative Council for a study.
- Section 7, which provides for the Budget Section authorization, after a study, of the women's unit.
- Section 8, which provides that if federal funding is reduced during the 2001-03 biennium, the department may not supplant the federal funds with general or special funds. The department must also identify any programs included in its 2003-05 biennium budget request for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.
- Section 9, which directs the department to report to the Appropriations Committees of the Fifty-eighth Legislative Assembly on the effectiveness of the prerelease and DUI offender treatment programs.
- Section 10, which provides legislative intent that the department seek federal funding for the drug court program. If federal funds become available, the department must spend the federal funds in place of the special funds appropriated for the program; the special funds appropriation for the program must then be used in place of general fund moneys appropriated for other programs.
- Section 11, which amends North Dakota Century Code (NDCC) Section 12-59-02 to increase the compensation rate for Parole Board members from \$62.50 per day to \$75 per day.
- Section 13, which creates a new section to NDCC Chapter 54-23.3 to require the department to report to the Legislative Assembly or the Budget Section before establishing any new correctional program.
- Sections 12 and 14, which amend NDCC Sections 12.1-32-08 and 54-23.4-12 to provide that if crime victims compensation is awarded, the department has the right of subrogation to initiate a claim for relief to recover funds from a collateral source.

PROPOSED AMENDMENTS TO ENGROSSED SENATE BILL NO. 2016

Conf. Comm. Amends an Exp. SB 2016 4-29-01

That the House recede from its amendments as printed on pages 1205-1213 of the Senate Journal and pages 1293-1301 of the House Journal and that Engrossed Senate Bill No. 2016 be amended as follows:

Page 1, line 2, replace the second "and" with "to provide legislative intent;"

Page 1, line 3, after "study" insert "; to create and enact a new section to chapter 54-23.3 of the North Dakota Century Code, relating to the establishment of new programs by the director of the department of corrections and rehabilitation; and to amend and reenact section 12-59-02, subsection 1 of section 12.1-32-08, and subsection 2 of section 54-23.4-12 of the North Dakota Century Code, relating to compensation of parole board members, indigent defense costs and expenses, and crime victims compensation subrogation"

Page 1, line 13, replace "1,281,357" with "1,155,357"

Page 1, line 15, replace "80,850" with "65,750"

Page 1, line 16, replace "1,533,654" with "1,392,554"

Page 1, line 18, replace "1,522,494" with "1,381,394"

Page 1, line 21, replace "10,819,873" with "10,647,498"

Page 1, line 22, replace "5,031,382" with "4,917,407"

Page 1, line 23, replace "217,050" with "148,700"

Page 2, line 2, replace "21,189,929" with "20,835,229"

Page 2, line 3, replace "7,863,275" with "7,825,075"

Page 2, line 4, replace "13,326,654" with "13,010,154"

Page 2, line 8, replace "4,460,612" with "3,803,128"

Page 2, line 9, replace "11,755,705" with "11,353,870"

Page 2, line 10, replace "28,600,319" with "21,514,202"

Page 2, line 11, replace "4,086,082" with "3,778,761"

Page 2, line 12, replace "25,092,023" with "24,977,530"

Page 2, line 13, replace "10,849,840" with "10,842,290"

Page 2, line 14, replace "78,268,147" with "79,753,347"

Page 2, line 15, replace "18,649,184" with "17,296,864"

2 of 11

Page 2, line 16, replace "69,618,963" with "62,456,483"

Page 2, line 17, replace "84,468,111" with "77,048,031"

Page 2, line 18, replace "20,523,619" with "25,133,099"

Page 2, line 19, replace "110,890,730" with "102,181,130"

Page 2, remove lines 23 through 26

Page 3, replace lines 4 through 12 with:

"SECTION 4. DEPARTMENT OF CORRECTIONS AND REHABILITATION - LEGISLATIVE COUNCIL STUDY AND REPORTS. During the 2001-02 interim, the legislative council shall consider studying wages paid to inmates sentenced to the state correctional system and the various deductions from those wages, including methods used to determine rates of pay; actual wages paid to inmates; deductions from inmate wages; and the effect deductions for incarceration costs, facility operation costs, and capital improvement costs have on inmate payments for child support and restitution. The legislative council shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the fifty-eighth legislative assembly.

SECTION 5. DEPARTMENT OF CORRECTIONS AND REHABILITATION - FACILITY AND OPERATIONS - LEGISLATIVE COUNCIL STUDY. The legislative council shall study, during the 2001-02 interim, the facilities and operations of the department of corrections and rehabilitation and report its findings and recommendations, together with any legislation required to implement the recommendations, to the fifty-eighth legislative assembly. The study must include the use of consultant services as determined by the legislative council. The study must include the following:

1. An analysis and evaluation of all facilities currently used by the department of corrections and rehabilitation and all facilities currently used by the state hospital which may at some time be used by the department, including:
 - a. The age, condition, and adequacy of each facility.
 - b. The operational efficiency of each facility, including utility costs and staffing needs.
 - c. Modifications, if any, required to allow the department to meet the various needs of adult offenders.
2. An analysis and evaluation of future facility needs, including:
 - a. The types of facilities needed to serve adult offenders.
 - b. The most appropriate location for the department's various facilities, considering:
 - (1) The operational inefficiencies of maintaining multiple facilities.
 - (2) The administrative benefits of having multiple facilities in which to place offenders.
 - (3) The availability of education, treatment, and work programs for inmates.

- 3. An analysis and evaluation of the staffing needs of the department, including:
 - a. Current staff utilization and needs at each facility.
 - b. Availability of potential employees in each region in which the department operates or may operate a correctional facility.
- 4. An analysis and evaluation of the anticipated need for additional prison beds, considering the following:
 - a. The impact of changes in sentencing laws.
 - b. The impact of programs that provide alternatives to conventional incarceration.
 - c. Trends in occurrence and types of crime committed in the state.
 - d. The utilization and availability of existing and proposed county or regional correctional facilities.
 - e. The utilization and availability of existing and proposed private correctional facilities.
- 5. A cost-benefit analysis of the department's current and proposed programs, considering:
 - a. The effect on recidivism.
 - b. The necessity and effectiveness of providing rehabilitation and treatment services.
 - c. The availability of rehabilitation and treatment services which could be provided by entities or agencies other than the department, including regional human service centers.

SECTION 6. APPROPRIATION. There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$200,000, or so much of the sum as may be necessary, to the legislative council for the biennium beginning July 1, 2001, and ending June 30, 2003, for the purpose of contracting with a consultant to conduct the study as provided in section 5 of this Act.

SECTION 7. FEDERAL FUNDING REDUCTIONS - BUDGET SECTION APPROVAL. If, during the biennium beginning July 1, 2001, and ending June 30, 2003, the federal government reduces funding below the level anticipated by the fifty-seventh legislative assembly for any programs administered by the department of corrections and rehabilitation, the department may not supplant the federal funds with general or special fund moneys without first obtaining the approval of the budget section of the legislative council. The department's budget request for the biennium beginning July 1, 2003, and ending June 30, 2005, must identify any programs for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.

SECTION 8. OPERATION OF "PRERELEASE" AND "DUI OFFENDER TREATMENT" PROGRAMS - REPORT TO THE FIFTY-EIGHTH LEGISLATIVE ASSEMBLY. During the biennium beginning July 1, 2001, and ending June 30, 2003, the department of corrections and rehabilitation shall monitor the operation of the programs known as the "prerelease center" and the "DUI offender treatment center" authorized by the fifty-seventh legislative assembly. The department shall present a report to the appropriations committees of the fifty-eighth legislative assembly regarding

the operation of the programs, including the impact of the programs on recidivism rates; the cost-effectiveness of the programs; the success of the programs; the ability to collect fees, if any, from the participating inmates; and a comparison of the costs and benefits of the "prerelease center" and the "DUI offender treatment center" to other forms of treatment or incarceration.

SECTION 9. LEGISLATIVE INTENT - FUNDING FOR DRUG COURT PROGRAM. It is the intent of the fifty-seventh legislative assembly that the department of corrections and rehabilitation seek federal funding to support the drug court program during the biennium beginning July 1, 2001, and ending June 30, 2003. If federal funds do not become available to the department to support the program, special funds derived from other income of the department may be used to fund the program. If federal funds become available during the biennium, the department must use the federal funds, and any required matching funds to be provided from special funds, to fund the program for the remainder of the biennium before funds from any other source are used for this purpose. Special fund moneys not used for the drug court program pursuant to this section must be used in place of general fund moneys appropriated by the fifty-seventh legislative assembly for other programs operated by the department.

SECTION 10. AMENDMENT. Section 12-59-02 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

12-59-02. Meetings - Compensation - Rules. The governor shall appoint a member of the parole board to be chairman. The chairman of the parole board shall designate three members of the parole board for each meeting of the parole board. Meetings of the parole board must be held in accordance with rules established by the parole board and must be held as often as required to properly conduct the business of the board, but in any event not less than six times per year. The parole board may only take action upon the concurrence of at least two members who participated in the same meeting. The final decision of at least two parole board members who participated in the same parole board meeting constitutes the decision of the parole board. Members are entitled to be compensated at the rate of ~~sixty-two~~ seventy-five dollars and ~~fifty cents~~ per day for each day actually and necessarily spent in the performance of their duties as board members plus the same mileage and expenses as are authorized for state officials and employees. The director of the division of parole and probation, or the director's designee, is the clerk for the parole board.

SECTION 11. AMENDMENT. Subsection 1 of section 12.1-32-08 of the North Dakota Century Code is amended and reenacted as follows:

1. ~~Prior to~~ Before imposing restitution or reparation as a sentence or condition of probation, the court shall hold a hearing on the matter with notice to the prosecuting attorney and to the defendant as to the nature and amount thereof. The court, when sentencing a person adjudged guilty of criminal activities ~~which~~ that have resulted in pecuniary damages, in addition to any other sentence it may impose, shall order that the defendant make restitution to the victim or other recipient as determined by the court, unless the court states on the record, based upon the criteria in this subsection, the reason it does not order restitution or orders only partial restitution. In determining whether to order restitution, the court shall take into account:
 - a. The reasonable damages sustained by the victim or victims of the criminal offense, which damages ~~must be~~ are limited to those directly related to the criminal offense and expenses actually incurred as a direct result of the defendant's criminal action. This can include an amount equal to the cost of necessary and related professional services and devices relating to physical, psychiatric, and psychological care. The defendant may be required as part of the sentence imposed by the court to pay the prescribed treatment costs

5011

for a victim of a sexual offense as defined in chapters 12.1-20 and 12.1-27.2.

- b. The ability of the defendant to restore the fruits of the criminal action or to pay monetary reparations, or to otherwise take action to restore the victim's property.
- c. The likelihood that attaching a condition relating to restitution or reparation will serve a valid rehabilitational purpose in the case of the particular offender considered.

The court shall fix the amount of restitution or reparation, which may not exceed an amount the defendant can or will be able to pay, and shall fix the manner of performance of any condition or conditions of probation established pursuant to this subsection. The court ~~may shall~~ order restitution be paid to the division of ~~parole and probation~~ adult services for any benefits ~~if the division~~ the division has paid or may pay under chapter 54-23.4 unless the court, on the record, directs otherwise. Any payments made pursuant to ~~such~~ the order must be deducted from damages awarded in a civil action arising from the same incident. An order that a defendant make restitution or reparation as a sentence or condition of probation may, unless the court directs otherwise, be filed, transcribed, and enforced by the person entitled to the restitution or reparation or by the division of adult services in the same manner as civil judgments rendered by the courts of this state may be enforced.

SECTION 12. A new section to chapter 54-23.3 of the North Dakota Century Code is created and enacted as follows:

Reports regarding new programs. Notwithstanding the powers granted under section 54-23.3-04, the director of the department of corrections and rehabilitation may not authorize any new program to serve adult or juvenile offenders, including programs that provide alternatives to conventional incarceration and programs operated on a contract basis. If the program is anticipated to cost in excess of one hundred thousand dollars during the biennium in which the program is implemented or any subsequent biennium without first reporting to the legislative assembly or, if the legislative assembly is not in session, the budget section of the legislative council.

SECTION 13. AMENDMENT. Subsection 2 of section 54-23.4-12 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

- 2. ~~Prior to~~ Before bringing an action to recover damages related to criminally injurious conduct for which compensation is claimed or awarded, the claimant shall give the division written notice of the proposed action. If a claimant brings an action for the recovery of damages related to criminally injurious conduct for which compensation is claimed or awarded, the division is subrogated to the rights of the claimant up to the total amount the division has paid. When there has been a recovery of damages, the costs of the action, to be paid by the division from the recovery, exclusive of attorney's fees, must be prorated and adjusted on the percentage of the total subrogation interest of the division recovered to the total recovery. If there is a recovery, the division shall pay attorney's fees to the claimant's attorney from the recovery in the amount of twenty-five percent of the subrogation interest recovered. For purposes of this section, recovery includes proceeds paid pursuant to a settlement, confession of judgment, or judgment of a court. The division may intervene in the action to recover compensation awarded. The division has a lien on a recovery to the extent it has paid compensation. The division is not liable for costs or attorney's fees when the claimant has not provided the division prior written notice of the commencement of an action. If a claimant does not bring an action for

damages within six months from the date the division awarded benefits, the division may bring an action or claim for relief in the division's name and may retain as the division's subrogation interest the full amount the division has paid in compensation and benefits to a claimant. The division may bring an action within two years from the date the division first awarded benefits, notwithstanding any other statute of limitation. This section does not limit the claimant's right to bring an action to recover for other damages.

Renumber accordingly

STATEMENT OF PURPOSE OF AMENDMENT:

- Funding for the DUI offender treatment program, which will be operated on a contract basis with the State Hospital, is reduced from \$2,139,284 to \$1,600,000 to reflect a reduction in administrative cost allocation charged by the State Hospital, the same as the House version.
- The Senate version for the Adult Services Division included funding for 47 new desktop computers budgeted at various prices ranging from \$1,914 to \$2,300 per computer and six new laptop computers budgeted at various prices ranging from \$2,500 to \$3,500 per computer. This amendment reduces the price per computer to \$1,400 for desktop computers and \$1,750 for laptop computers, the same as the House version.
- The total number of new desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 106 to 77, the same as the House version. The number of budgeted desktop computer purchases is reduced from 47 to 34 for the Adult Services Division, the same as the House version.
- Funding is provided by the Conference Committee for the proposed seriously mentally ill (SMI) unit only for the last nine months of the biennium as follows:

	SENATE VERSION	HOUSE VERSION	CONFERENCE COMMITTEE VERSION
Total general fund	\$2,437,797	\$0	\$1,093,436
FTE	28.00	0.00	28.00

5 The institutional offender services line item is adjusted for the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Operating expenses	(\$10,000)		(\$10,000)
Compensation rate increase for Parole Board members from \$62.50 to \$75 per day	2,550		2,550
Total change from Senate version	(\$7,450)	\$0	(\$7,450)

6 The community offender services line item is reduced to reflect the following changes:

	FTE	GENERAL FUND	OTHER FUNDS	TOTAL
Temporary salaries		(\$14,000)		(\$14,000)

8 of 11

Operating expenses		(267,000)		(257,000)
Funding source change (additional supervision fees)		(60,000)	\$60,000	
Remove parole officer II position				
Salaries and wages	(1.00)	(78,755)		(78,755)
Operating expenses		(32,372)		(32,372)
Total reduction relating to new positions	(1.00)	(\$111,127)		(\$111,127)
Total change from Senate version	(1.00)	(\$442,127)	\$60,000	(\$382,127)

Compared to the House version, this amendment restores \$150,000 from the general fund to this line item.

7 The support services line item is reduced to reflect the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Temporary salaries	(\$6,000)		(\$6,000)
Medical, dental, and optical expenses	30,000		30,000
Hepatitis B vaccinations and screening and treatment for other contagious diseases	91,375		91,375
Other equipment	(100,000)		(100,000)
Capital improvements - Penitentiary parking lot	(403,118)		(403,118)
Capital improvements - Extraordinary repairs	(100,000)		(100,000)
Total change from Senate version	(\$489,743)	\$0	(\$489,743)

8 The security and safety line item is reduced to reflect a \$5,000 reduction in operating expenses.

9 Funding is removed for the following capital projects:

	GENERAL FUND	OTHER FUNDS	TOTAL
Missouri River Correctional Center - Food service building	(\$1,983,000)		(\$1,983,000)
Women's unit	(2,320,000)	(\$1,400,000)	(3,720,000) *
Total change from Senate version	(\$4,303,000)	(\$1,400,000)	(\$5,703,000)

* Contingent funding of \$3.85 million is added for construction of the women's unit (see footnote 11 below).

10 Funding is removed for the proposed women's unit as follows:

	GENERAL FUND	OTHER FUNDS	TOTAL
Salaries and wages	(\$585,457)		(\$585,457)
Operating expenses	(421,815)		(421,815)
Equipment	(33,795)		(33,795)
Total change from Senate version	(\$1,041,067)	\$0	(\$1,041,067)

11 The Senate version included \$2,452,275 for housing inmates at county or out-of-state correctional facilities. This amendment increases that amount to \$3,553,915. The House had increased the Senate version by \$196,105.

- 1 The Senate version included \$125,000 for salary adjustments, in addition to the executive budget compensation package, to address equity and salary compression issues within the department. This amendment removes this funding, the same as the House version.
 - 2 The Senate version for the Central Office included funding for nine new desktop computers, budgeted at a cost of \$2,100 per computer. This amendment reduces the budgeted price per computer to \$1,400, the same as the House version.
 - 3 The Senate version for the Central Office included funding to replace three computer servers, one at a price of \$25,000 and two at \$14,000. This amendment removes funding for one of the \$14,000 servers, the same as the House version.
 - 4 The total number of desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 106 to 77. The number of budgeted desktop computer purchases is reduced from nine to seven for the Central Office.
- Compared to the House version, this amendment restores one FTE data processing position and related operating expenses (\$87,871) and other operating expenses (\$11,000).

- The Senate version included one FTE security officer I for the Youth Correctional Center and one FTE administrative assistant I for the Juvenile Community Services Division. This amendment reduces the salaries and wages line item by \$41,000 (\$12,000 for Juvenile Community Services and \$29,000 for the Youth Correctional Center) to reflect an anticipated reduction in the need for temporary employees as a result of the new positions, the same as the House version.
- The Juvenile Services Division operating expenses line item is reduced to reflect the following changes:

	GENERAL FUND	OTHER FUNDS	TOTAL
Juvenile Community Services (JCS) Division - Various reductions	(\$55,000)		(\$55,000)
JCS Division - Juvenile transpor- tation costs (SB 2220 with House amendments)	(41,475)		(41,475)
YCC - Administration	(7,500)		(7,500)
YCC - Education	(10,000)		(10,000)
Total change from Senate version	(\$113,975)	\$0	(\$113,975)

The House had reduced these items by \$139,475.

- This amendment reduces the amount appropriated to the Youth Correctional Center for "other" equipment from \$54,729 to \$49,729. The House had reduced this by \$34,000.
- The Senate version for the Juvenile Services Division included \$291,375 for salary adjustments, in addition to the executive budget compensation package, to increase teacher salaries pursuant to a composite salary schedule developed by the Central Personnel Division. This amendment reduces this amount to \$200,000, the same as the House version.
- The Senate version for the Juvenile Services Division included funding for the purchase of 50 new desktop computers and three new laptop computers, budgeted at a price of \$2,200 per desktop and \$3,000 per laptop. This amendment reduces the budgeted prices to \$1,400 per desktop and \$1,750 per laptop, the same as the House version.
- The total number of desktop computers budgeted to be replaced by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 108 to 77, the same as the House version. The number of budgeted desktop computer purchases is reduced from 50 to 38 for the Juvenile Services Division, the same as the House version.

This amendment does not reduce funding for heating plant improvements at the Youth Correctional Center. The House version had reduced this item by \$36,320 from the general fund.

This amendment removes the following sections included in the House amendment:

- The section which provided that any moneys budgeted by the Youth Correctional Center for teacher contracts for the summer education program but not spent for that purpose must be returned to the general fund at the end of the 2001-03 biennium.
- The section which authorized the department to transfer funds between the subdivisions and program line items included in the bill for the purpose of providing for computer purchases.
- The section which provided that any moneys budgeted for the operation of the prerelease center but not spent for that purpose may not be used for any other purpose except contracting for inmate housing.

This amendment also adds the following sections:

- Section 4, which directs the Legislative Council to consider studying issues relating to inmate wages and various deductions from those wages.
- Section 5, which directs the Legislative Council to consider studying the facility needs of the Department of Corrections and Rehabilitation.
- Section 6, which provides an appropriation of \$200,000 to the Legislative Council for a study.

- Section 7, which provides that if federal funding is reduced during the 2001-03 biennium, the department may not supplant the federal funds with general or special funds. The department must also identify any programs included in its 2003-05 biennium budget request for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.
- Section 8, which directs the department to report to the Appropriations Committees of the Fifty-eighth Legislative Assembly on the effectiveness of the prerelease and DUI offender treatment programs.
- Section 9, which provides legislative intent that the department seek federal funding for the drug court program. If federal funds become available, the department must spend the federal funds in place of the special funds appropriated for the program; the special funds appropriation for the program must then be used in place of general fund moneys appropriated for other programs.
- Section 10, which amends North Dakota Century Code (NDCC) Section 12-59-02 to increase the compensation rate for Parole Board members from \$62.50 per day to \$75 per day.
- Section 12, which creates a new section to NDCC Chapter 54-23.3 to require the department to report to the Legislative Assembly or the Budget Section before establishing any new correctional program.
- Sections 11 and 13, which amend NDCC Sections 12.1-32-08 and 54-23.4-12 to provide that if crime victims compensation is awarded, the department has the right of subrogation to initiate a claim for relief to recover funds from a collateral source.

- Add a section to the bill to provide a conditional exemption for state property from city special assessments for flood control (Section 17).
- Create a new section to the North Dakota Century Code (NDCC) which requires the Office of Management and Budget, in conjunction with the Information Technology Department, to complete a cost-benefit analysis for each new building construction project requested in state agency budget requests and report on the cost-benefit analysis for those projects included in the Governor's budget to the Legislative Assembly (Section 28).

This amendment also adds the following provisions:

- Section 2 provides a \$125,000 general fund appropriation to the Department of Human Services for the Indian county allocation.
- Section 16 provides a transfer of \$160,000 from the state contingency appropriation of the Emergency Commission to the Adjutant General for expenses relating to 2001 spring flood prevention.
- Section 18 provides that members of the Legislative Assembly may receive additional lodging reimbursement for each calendar day the 2001 Legislative Assembly is in session during the month of April 2001.
- Section 19 authorizes Devils Lake levee protection funding.
- Section 20 provides for the elimination of deputy positions in any agency with fewer than 30 FTE positions in the 2003-05 biennium.
- Section 21 allows the University of North Dakota to forgive the amount of debt owed by the Fargo Family Healthcare Center of \$385,000 with Budget Section approval.
- Section 22 provides for a Legislative Council study of health insurance company benefit limitations.
- Section 23 amends NDCC Section 6-08.3-13 relating to interstate banking.
- Section 24 creates a new section to Chapter 15-10 of the NDCC relating to local fund sources for capital construction projects.
- Section 25 amends NDCC Section 50-01.2-03.2 to provide that funds be allocated at 90 percent of the affected county's administrative expenses for economic assistance programs that are in excess of the statewide average.
- Section 26 amends NDCC Section 54-16-01 relating to the membership of the Emergency Commission.
- Section 27 amends NDCC Section 54-23.2-09 relating to the provision of 911 services by the State Radio Communications Division of the Office of Management and Budget.
- Section 29 creates a new section to Chapter 55-04 of the NDCC relating to the establishment of a state entities workers' compensation account.
- Section 30 repeals Section 16 of Chapter 37 of the 1995 Session Laws and Section 12 of Chapter 15 of the 1997 Session Laws relating to the provision of 911 services by the State Radio Communications Division of the Office of Management and Budget.

Engrossed HB 1015 was placed on the Seventh order of business on the calendar.

CONSIDERATION OF CONFERENCE COMMITTEE REPORT

SEN. G. NELSON MOVED that the conference committee report on Engrossed HB 1015 be adopted.

REQUEST

SEN. COOK REQUESTED a recorded roll call vote on the motion to adopt the conference committee report on Engrossed HB 1015, which request was granted.

ROLL CALL

The question being on the motion to adopt the conference committee report on Engrossed HB 1015, the roll was called and there were 45 YEAS, 0 NAYS, 0 EXCUSED, 4 ABSENT AND NOT VOTING.

YEAS: Bercler; Christenson; Christmann; Cook; Dever; Erbele; Espgaard; Evers; Fischer; Flakoll; Freborg; Grimborg; Heitkamp; Holmberg; Keish; Kizer; Kluntz; Kuntzer; Krebsbach; Kringstad; Kroeplin; Lee; Lindaa; Lysen; Mathem, D.; Mathem, T.; Muech; Nelson, C.; Nelson, G.; Nething; Nichols; O'Connell; Polovitz; Robinson; Schabinger; Solberg; Steneheim; Thane; Tollefson; Tomac; Traynor; Treibsch; Urtacher; Warzok; Wardner

ABSENT AND NOT VOTING: Andrist; Bowman; Tallackson; Waite

The conference committee report on Engrossed HB 1015 was adopted.

Engrossed HB 1015, as amended, was placed on the Fourteenth order.

SECOND READING OF HOUSE BILL

HB 1015: A BILL for an Act to provide an appropriation for defraying the expenses of the various divisions under the supervision of the director of the office of management and budget; to provide other appropriations; to provide for various transfers and financial transactions; to provide an exemption from the provisions of section 54-44.1-11 of the North Dakota Century Code; to provide statements of legislative intent; to provide a conditional exemption for certain state property from special assessments for flood control; to provide for additional lodging reimbursement for members of the legislative assembly; to provide levee protection funding authority; to provide for forgiveness of the Fargo family healthcare center debt; to provide for a legislative council study; to create and enact a new section to chapter 15-10, a new section to chapter 54-44.1, and a new section to chapter 65-04 of the North Dakota Century Code, relating to local fund sources for capital construction projects, new building construction cost-benefit analyses, and a state entities workers' compensation account; to amend and repeal section 6-08.3-13, subsection 3 of section 50-01.2-03.2, section 54-16-01, and section 54-23.2-09 of the North Dakota Century Code, relating to interstate banking, county reimbursements, membership of the emergency commission, and provision of 911 services by the state radio communications division; to repeal section 18 of chapter 37 of the 1995 Session Laws and section 12 of chapter 15 of the 1997 Session Laws, relating to the provision of 911 services by the state radio communications division; to provide an expiration date; and to declare an emergency.

ROLL CALL

The question being on the final passage of the amended bill, which has been read, the roll was called and there were 45 YEAS, 0 NAYS, 0 EXCUSED, 4 ABSENT AND NOT VOTING.

YEAS: Bercler; Christenson; Christmann; Cook; Dever; Erbele; Espgaard; Evers; Fischer; Flakoll; Freborg; Grimborg; Heitkamp; Holmberg; Keish; Kizer; Kluntz; Kuntzer; Krebsbach; Kringstad; Kroeplin; Lee; Lindaa; Lysen; Mathem, D.; Mathem, T.; Muech; Nelson, C.; Nelson, G.; Nething; Nichols; O'Connell; Polovitz; Robinson; Schabinger; Solberg; Steneheim; Thane; Tollefson; Tomac; Traynor; Treibsch; Urtacher; Warzok; Wardner

ABSENT AND NOT VOTING: Andrist; Bowman; Tallackson; Waite

Engrossed HB 1015, as amended, passed, the title was agreed to, and the emergency clause was declared carried.

MESSAGE TO THE HOUSE FROM THE SENATE (WILLIAM R. HORTON, SECRETARY)
MR. SPEAKER: The Senate has adopted the conference committee report, subsequently passed, and the emergency clause carried: HB 1015.

REPORT OF CONFERENCE COMMITTEE

SB 2016, as engrossed: Your conference committee (Sen. Nething, Kringstad, Robinson and Reps. Sweedjan, Deizer, Warner) recommends that the HOUSE REPEAL the House amendments on SJ pages 1205-1213, adopt amendments as follows, and place SB 2016 on the Seventh order.

That the House recede from its amendments as printed on pages 1205-1213 of the Senate Journal and pages 1293-1301 of the House Journal and that Enrolled Senate Bill No. 2016 be amended as follows:

Page 1, line 2, replace the second "and" with "to provide legislative intent."

Page 1, line 3, after "study" insert "; to create and enact a new section to chapter 54-23.3 of the North Dakota Century Code, relating to the establishment of new programs by the director of the department of corrections and rehabilitation; and to amend and reenact section 12-59-02, subsection 1 of section 12.1-32-08, and subsection 2 of section 54-23.4-12 of the North Dakota Century Code, relating to compensation of parole board members, indigent defense costs and expenses, and crime victims compensation subrogation"

Page 1, line 13, replace "1,281,357" with "1,155,357"

Page 1, line 15, replace "80,850" with "65,750"

Page 1, line 16, replace "1,533,654" with "1,382,554"

Page 1, line 18, replace "1,522,494" with "1,381,394"

Page 1, line 21, replace "10,819,873" with "10,647,498"

Page 1, line 22, replace "5,031,382" with "4,917,407"

Page 1, line 23, replace "217,050" with "148,700"

Page 2, line 2, replace "21,189,929" with "20,835,229"

Page 2, line 3, replace "7,863,275" with "7,825,075"

Page 2, line 4, replace "13,326,654" with "13,010,154"

Page 2, line 8, replace "4,460,612" with "3,863,128"

Page 2, line 9, replace "11,755,705" with "11,353,873"

Page 2, line 10, replace "28,600,319" with "21,514,202"

Page 2, line 11, replace "4,086,082" with "3,778,761"

Page 2, line 12, replace "25,092,023" with "24,977,530"

Page 2, line 13, replace "10,849,840" with "10,842,290"

Page 2, line 14, replace "88,268,147" with "79,753,347"

Page 2, line 15, replace "18,649,184" with "17,296,864"

Page 2, line 16, replace "69,618,963" with "62,456,483"

Page 2, line 17, replace "84,468,111" with "77,048,031"

Page 2, line 18, replace "26,523,619" with "25,133,099"

Page 2, line 19, replace "110,890,730" with "102,181,130"

Page 2, remove lines 23 through 26

Page 3, replace lines 4 through 12 with:

"SECTION 4. DEPARTMENT OF CORRECTIONS AND REHABILITATION - LEGISLATIVE COUNCIL STUDY AND REPORTS. During the 2001-02 interim, the legislative council shall consider studying wages paid to inmates sentenced to the state correctional system and the various deductions from those wages, including methods used to determine rates of pay; actual wages paid to inmates; deductions from inmate wages; and the effect deductions for incarceration costs, facility operation costs, and capital improvement costs have on inmate payments for child support and restitution. The legislative council shall report its findings and recommendations, together with any

legislation required to implement the recommendations, to the fifty-eighth legislative assembly.

SECTION 5. DEPARTMENT OF CORRECTIONS AND REHABILITATION - FACILITY AND OPERATIONS - LEGISLATIVE COUNCIL STUDY. The legislative council shall study, during the 2001-02 interim, the facilities and operations of the department of corrections and rehabilitation and report its findings and recommendations, together with any legislation required to implement the recommendations, to the fifty-eighth legislative assembly. The study must include the use of consultant services as determined by the legislative council. The study must include the following:

1. An analysis and evaluation of all facilities currently used by the department of corrections and rehabilitation and all facilities currently used by the state hospital which may at some time be used by the department, including:
 - a. The age, condition, and adequacy of each facility.
 - b. The operational efficiency of each facility, including utility costs and staffing needs.
 - c. Modifications, if any, required to allow the department to meet the various needs of adult offenders.
2. An analysis and evaluation of future facility needs, including:
 - a. The types of facilities needed to serve adult offenders.
 - b. The most appropriate location for the department's various facilities, considering:
 - (1) The operational inefficiencies of maintaining multiple facilities.
 - (2) The administrative benefits of having multiple facilities in which to place offenders.
 - (3) The availability of education, treatment, and work programs for inmates.
3. An analysis and evaluation of the staffing needs of the department, including:
 - a. Current staff utilization and needs at each facility.
 - b. Availability of potential employees in each region in which the department operates or may operate a correctional facility.
4. An analysis and evaluation of the anticipated need for additional prison beds, considering the following:
 - a. The impact of changes in sentencing laws.
 - b. The impact of programs that provide alternatives to conventional incarceration.
 - c. Trends in occurrence and types of crime committed in the state.
 - d. The utilization and availability of existing and proposed county or regional correctional facilities.
 - e. The utilization and availability of existing and proposed private correctional facilities.
5. A cost-benefit analysis of the department's current and proposed programs, considering:
 - a. The effect on recidivism.
 - b. The necessity and effectiveness of providing rehabilitation and treatment services.

- c. The availability of rehabilitation and treatment services which could be provided by entities or agencies other than the department, including regional human service centers.

SECTION 6. APPROPRIATION. There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$200,000, or so much of the sum as may be necessary, to the legislative council for the biennium beginning July 1, 2001, and ending June 30, 2003, for the purpose of contracting with a consultant to conduct the study as provided in section 5 of this Act.

SECTION 7. FEDERAL FUNDING REDUCTIONS - BUDGET SECTION APPROVAL. If, during the biennium beginning July 1, 2001, and ending June 30, 2003, the federal government reduces funding below the level anticipated by the fifty-seventh legislative assembly for any programs administered by the department of corrections and rehabilitation, the department may not supplant the federal funds with general or special fund moneys without first obtaining the approval of the budget section of the legislative council. The department's budget request for the biennium beginning July 1, 2003, and ending June 30, 2005, must identify any programs for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.

SECTION 8. OPERATION OF "PRERELEASE" AND "DUI OFFENDER TREATMENT" PROGRAMS - REPORT TO THE FIFTY-EIGHTH LEGISLATIVE ASSEMBLY. During the biennium beginning July 1, 2001, and ending June 30, 2003, the department of corrections and rehabilitation shall monitor the operation of the programs known as the "prerelease center" and the "DUI offender treatment center" authorized by the fifty-seventh legislative assembly. The department shall present a report to the appropriations committees of the fifty-eighth legislative assembly regarding the operation of the programs, including the impact of the programs on recidivism rates; the cost-effectiveness of the programs; the success of the programs; the ability to collect fees, if any, from the participating inmates; and a comparison of the costs and benefits of the "prerelease center" and the "DUI offender treatment center" to other forms of treatment or incarceration.

SECTION 9. LEGISLATIVE INTENT - FUNDING FOR DRUG COURT PROGRAM. It is the intent of the fifty-seventh legislative assembly that the department of corrections and rehabilitation seek federal funding to support the drug court program during the biennium beginning July 1, 2001, and ending June 30, 2003. If federal funds do not become available to the department to support the program, special funds derived from other income of the department may be used to fund the program. If federal funds become available during the biennium, the department must use the federal funds, and any required matching funds to be provided from special funds, to fund the program for the remainder of the biennium before funds from any other source are used for this purpose. Special fund moneys not used for the drug court program pursuant to this section must be used in place of general fund moneys appropriated by the fifty-seventh legislative assembly for other programs operated by the department.

SECTION 10. AMENDMENT. Section 12-59-02 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

12-59-02. Meetings - Compensation - Rules. The governor shall appoint a member of the parole board to be chairman. The chairman of the parole board shall designate three members of the parole board for each meeting of the parole board. Meetings of the parole board must be held in accordance with rules established by the parole board and must be held as often as required to properly conduct the business of the board, but in any event not less than six times per year. The parole board may only take action upon the concurrence of at least two members who participated in the same meeting. The final decision of at least two parole board members who participated in the same parole board meeting constitutes the decision of the parole board. Members are entitled to be compensated at the rate of ~~sixty-two~~ ~~seventy-five~~ ~~dollars and fifty cents~~ per day for each day actually and necessarily spent in the performance of their duties as board members plus the same mileage and expenses as are authorized for state officials and employees. The director of the division of parole and probation, or the director's designee, is the clerk for the parole board.

SECTION 11. AMENDMENT. Subsection 1 of section 12.1-32-08 of the North Dakota Century Code is amended and reenacted as follows:

1. ~~Prior to Before~~ imposing restitution or reparation as a sentence or condition of probation, the court shall hold a hearing on the matter with notice to the prosecuting attorney and to the defendant as to the nature and amount thereof. The court, when sentencing a person adjudged guilty of criminal activities which ~~the~~ have resulted in pecuniary damages, in addition to any other sentence it may impose, shall order that the defendant make restitution to the victim or other recipient as determined by the court, unless the court states on the record, based upon the criteria in this subsection, the reason it does not order restitution or orders only partial restitution. In determining whether to order restitution, the court shall take into account:

- The reasonable damages sustained by the victim or victims of the criminal offense, which damages ~~must be~~ ~~are~~ limited to those directly related to the criminal offense and expenses actually incurred as a direct result of the defendant's criminal action. This can include an amount equal to the cost of necessary and related professional services and devices relating to physical, psychiatric, and psychological care. The defendant may be required as part of the sentence imposed by the court to pay the prescribed treatment costs for a victim of a sexual offense as defined in chapters 12.1-20 and 12.1-27.2.
- The ability of the defendant to restore the fruits of the criminal action or to pay monetary reparations, or to otherwise take action to restore the victim's property.
- The likelihood that attaching a condition relating to restitution or reparation will serve a valid rehabilitational purpose in the case of the particular offender considered.

The court shall fix the amount of restitution or reparation, which may not exceed an amount the defendant can or will be able to pay, and shall fix the manner of performance of any condition or conditions of probation established pursuant to this subsection. The court may ~~shall~~ order restitution be paid to the division of parole and probation ~~adult services~~ for any benefits ~~if the division has paid or may pay under chapter 54-23.4 unless the court, on the record, directs otherwise.~~ Any payments made pursuant to ~~such~~ the order must be deducted from damages awarded in a civil action arising from the same incident. An order that a defendant make restitution or reparation as a sentence or condition of probation may, unless the court directs otherwise, be filed, transcribed, and enforced by the person entitled to the restitution or reparation or by the division of adult services in the same manner as civil judgments rendered by the courts of this state may be enforced.

SECTION 12. A new section to chapter 54-23.3 of the North Dakota Century Code is created and enacted as follows:

~~Reports regarding new programs. Notwithstanding the powers granted under section 54-23.3-04, the director of the department of corrections and rehabilitation may not authorize any new program to serve adult or juvenile offenders, including programs that provide alternatives to conventional incarceration and programs operated on a contract basis, if the program is anticipated to cost in excess of one hundred thousand dollars during the biennium in which the program is implemented or any subsequent biennium without first reporting to the legislative assembly or, if the legislative assembly is not in session, the budget section of the legislative council.~~

SECTION 13. AMENDMENT. Subsection 2 of section 54-23.4-12 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

2. ~~Prior to Before~~ bringing an action to recover damages related to criminally injurious conduct for which compensation is claimed or awarded, the claimant shall give the division written notice of the proposed action. If a claimant brings an action for the recovery of damages related to criminally injurious conduct for which compensation is claimed or awarded, the division is subrogated to the rights of the claimant up to the total amount the division has paid. When there has been a recovery of damages, the costs of the action, to be paid by the division from the recovery, exclusive of attorney's fees, must be prorated and adjusted on the percentage of the total subrogation interest of the division recovered to the total recovery. If

there is a recovery, the division shall pay attorney's fees to the claimant's attorney from the recovery in the amount of twenty-five percent of the subrogation interest recovered. For purposes of this section, recovery includes proceeds paid pursuant to a settlement, confession of judgment, or judgment of a court. The division may intervene in the action to recover compensation awarded. The division has a lien on a recovery to the extent it has paid compensation. The division is not liable for costs or attorney's fees when the claimant has not provided the division prior written notice of the commencement of an action. If a claimant does not bring an action for damages within six months from the date the division awarded benefits, the division may bring an action or claim for relief in the division's name and may retain as the division's subrogation interest the full amount the division has paid in compensation and benefits to a claimant. The division may bring an action within two years from the date the division first awarded benefits, notwithstanding any other statute of limitation. This section does not limit the claimant's right to bring an action to recover for other damages."

Renumber accordingly

STATEMENT OF PURPOSE OF AMENDMENT:

Total change from Senate version	(1,000)	(28,250)			(29,250)

Compared to the House version, the amendment reduces \$150,000 from the general fund to the I-90 toll.

7. The support services line item is reduced to reflect the following changes:

GENERAL FUND	OTHER FUNDS	TOTAL
Temporary salaries		(2,000)
Temporary salaries - other		30,000
Temporary salaries - other		91,375
Other support services		(100,000)
Capital improvements - Infrastructure		(400,178)
Capital improvements - Infrastructure		(100,000)
Total change from Senate version	(400,178)	(\$400,178)

8. The security and safety fee item is reduced to reflect a \$3,000 reduction in operating expenses.

9. Funding is removed for the following capital projects:

GENERAL FUND	OTHER FUNDS	TOTAL
Midwest Blue Correctional Center		(\$1,900,000)
Ford Avenue Building		(2,320,000)
Women's unit		(3,720,000)
Total change from Senate version		(\$8,000,000)

10. Contingent funding of \$3.66 million is added for construction of the women's unit (see footnote 11 below).

11. Funding is removed for the proposed women's unit as follows:

GENERAL FUND	OTHER FUNDS	TOTAL
Salaries and wages		(\$565,657)
Operating expenses		(427,815)
Equipment		(50,728)
Total change from Senate version		(\$1,044,200)

11. The Senate version includes 22,452,275 for housing services at county or out-of-state correctional facilities. The amendment increases the amount to \$2,503,915. The House has increased the Senate version by \$196,162.

1. The Senate version includes one FTE security officer for the Youth Correctional Center and one FTE administrative assistant for the Juvenile Community Services Division. This amendment reduces the amount of the general fund by \$1,000 (\$12,000 for Juvenile Community Services and \$30,000 for the Youth Correctional Center) to reflect an anticipated reduction in the need for temporary employees as a result of the new position. The figure is the House version.

2. The Juvenile Services Division operating expenses line item is reduced to reflect the following changes:

GENERAL FUND	OTHER FUNDS	TOTAL
Juvenile Community Services (JCS)		(655,000)
Divisional Vehicle Expenses		(41,475)
JCS Division - Juvenile Transportation costs (200,220) with House amendment		(7,500)
JCS - Administration		(10,000)
VCC - Education		(113,975)
Total change from Senate version		\$0
The House has reduced these items by \$139,475.		

3. This amendment reduces the amount appropriated to the Youth Correctional Center for "other" equipment from \$54,728 to \$49,728. The House has reduced this by \$5,000.

4. The Senate version for the Juvenile Services Division included \$291,175 for salary adjustments, in addition to the enclosed budget compensation package, to increase teacher salaries pursuant to a comparable salary schedule developed by the General Personnel Division. This amendment reduces this amount to \$280,000, the same as the House version.

5. The Senate version for the Juvenile Services Division included funding for the purchase of 50 new desktop computers and three new laptop computers, budgeted at a price of \$2,200 per desktop and \$1,000 per laptop. This amendment reduces the budgeted prices to \$1,400 per desktop and \$1,750 per laptop, the same as the House version.

6. The total number of desktop computers budgeted to be purchased by the Department of Corrections and Rehabilitation is reduced by approximately 27 percent, from 104 to 77, the same as the House version. The number of budgeted desktop computer purchases is reduced from 30 to 26 for the Juvenile Services Division, the same as the House version.

This amendment does not reduce funding for heating, plant improvements at the Youth Correctional Center, The House version had reduced this item by \$36,320 from the general fund.

This amendment removes the following sections included in the House amendment:

- The section which provided that any moneys budgeted by the Youth Correctional Center for teacher contracts for the summer education program but not spent for that purpose must be returned to the general fund at the end of the 2001-03 biennium.
- The section which authorized the department to transfer funds between the subdivisions and program line items included in the bill for the purpose of providing for computer purchases.
- The section which provided that any moneys budgeted for the operation of the pre-release center but not spent for that purpose may not be used for any other purpose except contracting for inmate housing.

The amendment also adds the following sections:

- Section 4, which directs the Legislative Council to consider studying issues relating to inmate wages and various deductions from those wages.
- Section 5, which directs the Legislative Council to consider studying the facility needs of the Department of Corrections and Rehabilitation.
- Section 6, which provides an appropriation of \$200,000 to the Legislative Council for a study.

• Section 7, which provides that if federal funding is reduced during the 2001-03 biennium, the department may not replace the federal funds with general or special funds. The department may also identify any programs included in its 2003-05 biennium budget request for which general or special fund appropriation authority is requested to replace federal funds previously available for the program.

• Section 8, which amends the department to report to the Appropriations Committee of the Fifty-ninth Legislative Assembly on the effectiveness of the permanent and DUI offender treatment programs.

• Section 9, which provides legislative intent that the department seek federal funding for the drug court program. If federal funds become available, the department must spend the federal funds in place of the special funds appropriated for the program; the special funds appropriation for the program must then be used in place of general fund moneys appropriated for other programs.

• Section 10, which amends North Dakota Century Code (N.D.C.C.) Section 12-59-02 to increase the compensation rate for Parole Board members from \$62.50 per day to \$75 per day.

• Section 12, which creates a new section to N.D.C.C. Chapter 54-23.3 to require the department to report to the Legislative Assembly or the Budget Section before establishing any new correctional program.

• Sections 11 and 13, which amend N.D.C.C. Sections 12.1-32-08 and 54-23.4-12 to provide that a crime victims compensation is awarded, the department has the right of subrogation to submit a claim for relief to recover funds from a collateral source.

Expressed SB 2016 was placed on the Seventh order of business on the calendar.

CONSIDERATION OF CONFERENCE COMMITTEE REPORT

SEN. ROBINSON MOVED that the conference committee report on SB 2016 be adopted, which motion prevailed on a voice vote.

SB 2016, as amended, was placed on the Eleventh order.

SECOND READING OF SENATE BILL

SB 2016: A BILL for an Act to provide an appropriation for defraying the expenses of the department of corrections and rehabilitation, to provide for the same purposes, to provide legislative intent; to provide for a legislative council study; to create and enact a new section to chapter 54-23.3 of the North Dakota Century Code, relating to the establishment of new programs by the director of the department of corrections and rehabilitation; and to amend and reenact section 12-59-02, subsection 1 of section 12.1-32-08, and subsection 2 of section 54-23.4-12 of the North Dakota Century Code, relating to compensation of parole board members, indigent defense costs and expenses, and crime victims compensation subrogation.

ROLL CALL

The question being on the final passage of the amended bill, which has been read, the roll was called and there were 45 YEAS, 0 NAYS, 0 EXCUSED, 4 ABSENT AND NOT VOTING.

YEAS: Bierler, Christenson, Christmann, Cook, Dever, Ebele, Espigset, Eddy, Fisher, Flakoll, Freiborg, Grindberg, Heikcarp, Holmberg, Kelleh, Kizer, Kusan, Krauter, Krebsbach, Kriststad, Kroeflin, Lee, Lindhaus, Lyson, Mathem, D., Mathem, T., Moch, Nelson, C., Nelson, G., Neshing, Nichols, O'Connor, Polowitz, Robinson, Scholinger, Solberg, Stenethjen, Thane, Tolleson, Tomac, Traynor, Trebbelst, Utcher, Warzner.

ABSENT AND NOT VOTING: Anorist, Bowman, Tallackson, Wayne

Reengrossed SB 2016 passed and the title was agreed to.

MESSAGE TO THE HOUSE FROM THE SENATE (WILLIAM R. HORTON, SECRETARY)
 MR. SPEAKER: The Senate has adopted the conference committee report and subsequently passed: SB 2016.

2001 TESTIMONY

SB 2016

Department 530 - Department of Corrections and Rehabilitation
Senate Bill No. 2018

	FTE Positions	General Fund	Other Funds	Total
2001-03 Schafer Executive Budget	638.68	\$84,467,999	\$26,422,619	\$110,890,618
1999-2001 Legislative Appropriations	572.68	62,425,829	22,812,461	85,238,290
Increase (Decrease)	66.00	\$22,042,170	\$3,610,158	\$25,652,328

2001-03 Hoeven Executive Budget	638.68	\$84,467,999	\$26,422,619	\$110,890,618
Hoeven Increase (Decrease) to Schafer	0.00	\$0	\$0	\$0

The 1999-2001 appropriation amounts include \$557,366, of which \$501,598 is from the general fund, for the agency's share of the \$5.4 million funding pool appropriated to the Office of Management and Budget (OMB) for special market equity adjustments for classified employees and \$16,629, of which \$14,862 is from the general fund, for the agency's share of the \$1.4 million funding pool appropriated to OMB for assisting agencies in providing \$35 per month minimum salary increases in July 1999 and July 2000. The 1999-2001 appropriation amounts do not include additional federal funds spending authority of \$28,479 authorized by the Emergency Commission during the 1999-2001 biennium and additional spending authority of \$691,845, of which \$318,922 is from the general fund, carried over from the 1997-99 biennium, for capital projects.

Major Schafer Recommendations Affecting the Department of Corrections and Rehabilitation 2001-03 Budget

	General Fund	Other Funds	Total
Central Office			
1. Provides funding for an equity salary increase of \$182 per month for the director effective January 1, 2002 (the amount included in the executive budget is \$112 less than the required amount of \$3,831).	\$3,719		\$3,719
2. Provides funding for salary adjustments, in addition to the executive budget compensation package, to address equity and salary compression issues within the department.	\$125,000		\$125,000
3. Adds 2 FTE data processing coordinator I positions and provides the following amounts for information technology support for the department:			
Salaries and wages	\$158,972		\$158,972
Operating expenses	16,770		16,770
Equipment	4,200		4,200
Total recommended appropriation	\$179,942		\$179,942
4. Deletes a 1 FTE human services program administrator V, the department's director of treatment programs, a currently vacant position.	(\$115,200)		(\$115,200)
Juvenile Services - Youth Correctional Center			
5. Increases funding for operating expenses by 10.5 percent, from \$1,963,599 to \$2,170,300, to reflect the following changes:			
Funding source change from the general fund to other funds	(\$143,030)	\$143,030	\$0
Increases funding for utility costs by 11.7 percent, from \$301,731 to \$338,908, due in part to the Pine Cottage addition completed during the 1999-2001 biennium	35,177		35,177
Provides funding to contract for a full-time psychiatric nurse		69,056	69,056
Increases funding for operating fees and services by 82.3 percent, from \$96,000 to \$175,000, for contractual services provided to juveniles (e.g., haircuts, coaching fees, etc.)		79,000	79,000
Other	(4,219)	27,687	23,468
Total recommended changes	(\$112,072)	\$318,773	\$206,701

	General Fund	Other Funds	Total
6. Decreases funding for capital improvements by \$1,883,180 compared to the 1999-2001 biennium appropriation of \$2,049,500 to reflect the completion of the Pine Cottage addition during the 1999-2001 biennium.	\$91,820	(\$1,975,000)	(\$1,883,180)
7. Provides funding for the following capital improvements at the Youth Correctional Center:			
Fire suppression systems in Brown and Maple Cottages	\$101,000		\$101,000
Extraordinary repairs	65,320		65,320
Total capital projects recommendation	<u>\$166,320</u>		<u>\$166,320</u>
8. Provides funding for bond repayments for projects completed during previous bienniums. (The bond repayment amounts will be transferred to the Industrial Commission.)	\$541,427		\$541,427
9. Adds 1 FTE security officer I position to provide additional night security.	\$56,665		\$56,665
10. Provides funding for salary adjustments, in addition to the executive budget compensation package, to increase salaries to new pay range minimums established by Central Personnel.	\$6,481	\$331	\$6,812
11. Provides funding for salary adjustments, in addition to the executive budget compensation package, to increase teacher salaries pursuant to the salary schedule prepared by Central Personnel.	\$291,375		\$291,375
Juvenile Services - Juvenile Community Services Division			
12. Removes spending authority for the delinquency prevention consortium, a cooperative effort of the Department of Corrections and Rehabilitation, the Department of Human Services, and the Department of Public Instruction established by the 1997 Legislative Assembly to study and implement programs to prevent crime and delinquency and reduce the incarceration of juveniles.		(\$200,000)	(\$200,000)
13. Increases funding for operating expenses by 15.9 percent, from \$2,380,775 to \$2,760,082, to reflect increases in information technology, telecommunications, and other costs.	\$163,013	\$216,294	\$379,307
14. Increases funding for equipment from \$7,000 to \$97,700 for the purchase of computers and filing systems.	(\$7,000)	\$97,700	\$90,700
15. Provides funding for salary adjustments, in addition to the executive budget compensation package, to increase salaries to new pay range minimums established by Central Personnel.	\$3,239	\$6,768	\$10,007
16. Increases funding for grants by 53.7 percent, from \$2,870,900 to \$4,413,877, to reflect additional federal funds available from the United States Department of Justice for grants to state and local entities for programs to serve juvenile offenders.		\$1,542,977	\$1,542,977
17. Adds 1 FTE administrative assistant I position and reduces temporary salaries as follows:			
Adds salaries and wages	\$42,601		\$42,601
Reduces temporary salaries	(12,693)		(12,693)
Total recommended change	<u>\$29,908</u>		<u>\$29,908</u>
Adult Services - Field Services Division (formerly Parole and Probation)			
18. Increases funding for grants by 35.2 percent, from \$2,426,403 to \$3,280,619 to reflect additional federal and other funds available for crime victims compensation and assistance programs.	(\$129,164)	\$983,380	\$854,216
19. Decreases funding for equipment by 42.9 percent, from \$110,601 to \$63,102.	(\$44,924)	(\$2,575)	(\$47,499)

	General Fund	Other Funds	Total
20. Adds 1 FTE parole and probation officer III and provides the following amounts for the establishment of a prerelease center. (The center will be operated on a contract basis and will house up to 50 inmates who are within six months of release. The center will provide counseling, job skills training, cognitive restructuring, and alcohol and drug abuse treatment services.)			
Salaries and wages	\$98,813		\$98,813
Operating expenses	1,401,648		1,401,648
Equipment	5,000		5,000
Total recommended appropriation	<u>\$1,505,461</u>		<u>\$1,505,461</u>
21. Provides funding for operating expenses to allow the department to contract with the State Hospital for the operation of a DUI treatment program. (The program will provide treatment services to DUI offenders with three or more offenses and will have a maximum occupancy of 25 inmates.)	\$2,139,284		\$2,139,284
22. Decreases general fund spending authority and increases other funds spending authority for operating expenses to reflect the collection of additional supervision fees.	(\$203,636)	\$203,636	\$0
23. Provides \$1,369,655 (\$1,009,655 from the general fund; \$360,000 from other funds) for the operation of the Tompkins Rehabilitation and Corrections Unit, an increase of \$288,455 compared to the 1999-2001 biennium appropriation. (The 1999 Legislative Assembly authorized the program to allow the department to contract with the Stutsman County jail for inmate cells and with the State Hospital for treatment services.)	\$288,455		\$288,455
24. Adds 4 FTE parole and probation officer II positions and provides the following amounts for additional parole and probation officers to serve the Devils Lake, Fargo, and Grand Forks areas:			
Salaries and wages	\$315,020		\$315,020
Operating expenses	64,744		64,744
Equipment	10,000		10,000
Total recommended appropriation	<u>\$389,764</u>		<u>\$389,764</u>
25. Provides \$452,000 (\$313,760 from the general fund; \$138,240 from other funds) for the last chance program, an increase of \$260,000 compared to the 1999-2001 biennium appropriation. (The 1999 Legislative Assembly authorized the program, which is an eight-bed residential facility providing cognitive restructuring, treatment, and other services to offenders in the Fargo area who would otherwise face revocation of parole or probation status and return to a Department of Corrections and Rehabilitation facility.)	\$204,760	\$55,240	\$260,000
26. Adds 1 FTE parole and probation officer III position and provides the following amounts for the establishment of a South Central Judicial District drug court, to be funded from supervision fees collected by the department:			
Salaries and wages		\$98,813	\$98,813
Operating expenses		140,470	140,470
Total recommended appropriation		<u>\$239,283</u>	<u>\$239,283</u>
Adult Services - Prisons Division (support services, program services, security and safety, and Roughrider Industries line items)			
27. Increases funding for capital projects by \$2,657,428 compared to the 1999-2001 biennium appropriation of \$4,302,980 (support services and Roughrider Industries).	\$3,370,959	(\$713,531)	\$2,657,428

	General Fund	Other Funds	Total
28. Provides funding for the following capital improvements (support services and Roughrider Industries):			
Extraordinary repairs	\$604,270	\$250,000	\$854,270
Food service/multipurpose building - Missouri River Correctional Center	1,983,000		1,983,000
Women's unit - James River Correctional Center	2,320,000	1,400,000	3,720,000
Parking lot - Penitentiary	403,118		403,118
Total adult services capital improvements	<u>\$5,310,388</u>	<u>\$1,650,000</u>	<u>\$6,960,388</u>
29. Provides funding for bond repayments for projects completed during previous bienniums; the bond repayment amounts will be transferred to the Industrial Commission (support services).	\$2,250,168		\$2,250,168
30. Increases funding for utility costs by 8.1 percent, from \$1,733,319 to \$1,873,442 (support services).	\$140,123		\$140,123
31. Increases funding for food and clothing by 34 percent, from \$1,975,850 to \$2,647,657, due primarily to an anticipated increase in food costs at the Missouri River Correctional Center and Penitentiary, an anticipated decrease in government commodities received by the department, and a reallocation of costs between cost centers (support services).	\$671,807		\$671,807
32. Increases funding for institutional medical fees and medical, dental, and optical costs by 36.6 percent, from \$2,206,419 to \$3,013,599, due to increased medical costs for the treatment of inmate medical needs (support services).	\$807,180		\$807,180
33. Provides funding for salary adjustments, in addition to the executive budget compensation package, to increase salaries to new pay range minimums established by Central Personnel (\$140 included in support services; \$87,437 included in security and safety; \$17,672 included in Roughrider Industries).	\$87,577	\$17,672	\$105,249
34. Adds 22.5 FTE positions and provides the following amounts for the operation of the proposed James River Correctional Center women's unit for the last nine months of the 2001-03 biennium:			
.5 FTE registered nurse II (support services)	\$17,557		\$17,557
1 FTE office assistant II (support services)	16,974		16,974
1 FTE instructor (program services)	25,855		25,855
14 FTE correctional officer II (security and safety)	343,154		343,154
1 FTE criminal investigator II (security and safety)	24,511		24,511
1 FTE correctional unit manager (security and safety)	33,183		33,183
1 FTE correctional unit case manager (security and safety)	29,799		29,799
3 FTE correctional caseworker (security and safety)	78,645		78,645
Total FTE positions - 22.5 FTE	<u>\$569,678</u>		<u>\$569,678</u>
Temporary salaries (\$941 included in support services and \$14,838 included in security and safety)	\$15,779		\$15,779
Operating expenses (\$345,165 included in support services and \$76,650 included in program services)	421,815		421,815
Equipment (support services)	33,795		33,795
Total recommended appropriation	<u>\$1,041,067</u>		<u>\$1,041,067</u>
35. Adds 28 FTE positions and provides the following amounts for the operation of the proposed seriously mentally ill (SMI) unit at the James River Correctional Center:			
1 FTE pharmacist I (support services)	\$99,278		\$99,278
3 FTE registered nurse II (support services)	227,079		227,079
1 FTE office assistant II (support services)	41,357		41,357
1 FTE licensed psychologist II (program services)	136,878		136,878
3 FTE social worker II (program services)	188,142		188,142

	General Fund	Other Funds	Total
19 FTE correctional officer II (security and safety)	1,125,921		1,125,921
Total FTE positions - 28 FTE	\$1,818,655		\$1,818,655
Temporary salaries (\$7,133 included in support services and \$33,653 included in security and safety)	\$40,786		\$40,786
Operating expenses (\$545,206 included in support services and \$15,500 included in program services)	560,706		560,706
Equipment (support services)	17,650		17,650
Total recommended appropriation	<u>\$2,437,797</u>		<u>\$2,437,797</u>
36. Adds .5 FTE stores clerk for the Penitentiary (support services).	\$26,904		\$26,904
37. Adds 1 FTE office assistant II and provides the following amounts for the medical department at the Penitentiary (support services):			
Salaries and wages	\$47,631		\$47,631
Operating expenses	3,195		3,195
Equipment	2,300		2,300
Total recommended appropriation	<u>\$53,126</u>		<u>\$53,126</u>
38. Increases funding for housing state inmates at county or out-of-state correctional facilities by 35.3 percent, from \$1,812,491 to \$2,452,275 (security and safety).	\$639,784		\$639,784
39. Provides funding for salary adjustments, in addition to the executive budget compensation package, for correctional officer positions (security and safety).	\$222,528		\$222,528
40. Adds 2 FTE correctional officer II positions and provides the following amounts for the Penitentiary (security and safety):			
2 FTE correctional officer II positions	\$134,186		\$134,186
Temporary salaries	3,720		3,720
Operating expenses	1,850		1,850
Total recommended appropriation	<u>\$139,756</u>		<u>\$139,756</u>
41. Provides funding for producing a general issue of license plates during the 2001-03 biennium (Roughrider Industries).		\$2,500,000	\$2,500,000
42. Provides funding for expansion of work programs at the James River Correctional Center (Roughrider Industries).		\$500,000	\$500,000
43. Adds 3 FTE positions for the operation or expansion of inmate work programs (Roughrider Industries):			
1 FTE storekeeper I		\$53,809	\$53,809
2 FTE industrial production assistant II		145,230	145,230
Total recommended appropriation		<u>\$199,039</u>	<u>\$199,039</u>

Major Hoeven Recommendations Affecting the Department of Corrections and Rehabilitation 2001-03 Budget Compared to the Bill as Introduced (Schafer Budget)

The Hoeven budget recommendation does not change the Schafer executive budget recommendation for this agency.

Major Legislation Affecting the Department of Corrections and Rehabilitation

As of the date of this report, no major legislation has been introduced which affects this agency.

**Department 530 - Department of Corrections and Rehabilitation
 Senate Bill No. 2016**

	FTE Positions	General Fund	Other Funds	Total
2001-03 Schafer Executive Budget	638.68	\$84,467,999	\$26,422,619	\$110,890,618

2001-03 Hoeven Executive Budget	638.68	\$84,467,999	\$26,422,619	\$110,890,618
Hoeven Increase (Decrease) to Schafer	0.00	\$0	\$0	\$0

¹ The 1999-2001 appropriation amounts include \$557,366, of which \$501,598 is from the general fund, for the agency's share of the \$5.4 million funding pool appropriated to the Office of Management and Budget (OMB) for special market equity adjustments for classified employees and \$16,829, of which \$14,862 is from the general fund, for the agency's share of the \$1.4 million funding pool appropriated to OMB for assisting agencies in providing \$35 per month minimum salary increases in July 1999 and July 2000. The 1999-2001 appropriation amounts do not include additional federal funds spending authority of \$28,479 authorized by the Emergency Commission during the 1999-2001 biennium and additional spending authority of \$691,845, of which \$318,922 is from the general fund, carried over from the 1997-99 biennium for capital projects.

Major Schafer Recommendations Affecting the Department of Corrections and Rehabilitation 2001-03 Budget

	General Fund	Other Funds	Total
Central Office			
1. Provides funding for an equity salary increase of \$182 per month for the director effective January 1, 2002 (the amount included in the executive budget is \$112 less than the required amount of \$3,831). (The Senate increased this amount by \$112.)	\$3,719		\$3,719
2. Provides funding for salary adjustments, in addition to the executive budget compensation package, to address equity and salary compression issues within the department.	\$125,000		\$125,000
3. Adds 2 FTE data processing coordinator I positions and provides the following amounts for information technology support for the department:			
Salaries and wages	\$158,972		\$158,972
Operating expenses	16,770		16,770
Equipment	4,200		4,200
Total recommended appropriation	\$179,942		\$179,942
4. Deletes a 1 FTE human services program administrator V, the department's director of treatment programs, a currently vacant position.	(\$115,200)		(\$115,200)
Juvenile Services - Youth Correctional Center			
5. Increases funding for operating expenses by 10.5 percent, from \$1,863,869 to \$2,170,300, to reflect the following changes (the Senate added \$101,000 from the general fund for additional operating costs associated with Senate Bill No. 2220):			
Funding source change from the general fund to other funds	(\$143,030)	\$143,030	\$0
Increases funding for utility costs by 11.7 percent, from \$301,731 to \$336,906, due in part to the Pine Cottage addition completed during the 1999-2001 biennium	35,177		35,177
Provides funding to contract for a full-time psychiatric nurse		69,056	69,056

	General Fund	Other Funds	Total
Increases funding for operating fees and services by 82.3 percent, from \$96,000 to \$175,000, for contractual services provided to juveniles (e.g., haircuts, coaching fees, etc.)		79,000	79,000
Other	(4,219)	27,687	23,468
Total recommended changes	(\$112,072)	\$318,773	\$206,701
8. Decreases funding for capital improvements by \$1,883,180 compared to the 1999-2001 biennium appropriation of \$2,049,500 to reflect the completion of the Pine Cottage addition during the 1999-2001 biennium. (The Senate changed the funding source for the \$101,000 Brown and Maple Cottage fire suppression project from the general fund to the Penitentiary land fund.)	\$91,820	(\$1,975,000)	(\$1,883,180)
7. Provides funding for the following capital improvements at the Youth Correctional Center:			
Fire suppression systems in Brown and Maple Cottages (The Senate changed the funding source for this project from the general fund to the Penitentiary land fund.)	\$101,000		\$101,000
Extraordinary repairs	65,320		65,320
Total capital projects recommendation	\$166,320		\$166,320
8. Provides funding for bond repayments for projects completed during previous bienniums. (The bond repayment amounts will be transferred to the Industrial Commission.)	\$541,427		\$541,427
9. Adds 1 FTE security officer I position to provide additional night security.	\$56,665		\$56,665
10. Provides funding for salary adjustments, in addition to the executive budget compensation package, to increase salaries to new pay range minimums established by Central Personnel.	\$6,481	\$331	\$6,812
11. Provides funding for salary adjustments, in addition to the executive budget compensation package, to increase teacher salaries pursuant to the salary schedule prepared by Central Personnel.	\$291,375		\$291,375
Juvenile Services - Juvenile Community Services Division			
12. Removes spending authority for the delinquency prevention consortium, a cooperative effort of the Department of Corrections and Rehabilitation, the Department of Human Services, and the Department of Public Instruction established by the 1997 Legislative Assembly to study and implement programs to prevent crime and delinquency and reduce the incarceration of juveniles.		(\$200,000)	(\$200,000)
13. Increases funding for operating expenses by 15.9 percent, from \$2,380,775 to \$2,760,082, to reflect increases in information technology, telecommunications, and other costs. (The Senate added \$101,000 to partially fund anticipated increased transportation costs for juvenile offenders as a result of Senate Bill No. 2220.)	\$163,013	\$216,294	\$379,307
14. Increases funding for equipment from \$7,000 to \$97,700 for the purchase of computers and filing systems.	(\$7,000)	\$97,700	\$90,700
15. Provides funding for salary adjustments, in addition to the executive budget compensation package, to increase salaries to new pay range minimums established by Central Personnel.	\$3,239	\$6,768	\$10,007
16. Increases funding for grants by 53.7 percent, from \$2,870,900 to \$4,413,677, to reflect additional federal funds available from the United States Department of Justice for grants to state and local entities for programs to serve juvenile offenders.		\$1,542,977	\$1,542,977
17. Adds 1 FTE administrative assistant I position and reduces temporary salaries as follows:			
Adds salaries and wages	\$42,601		\$42,601

	General Fund	Other Funds	Total
Reduces temporary salaries	(12,693)		(12,693)
Total recommended change	\$29,908		\$29,908
Adult Services - Field Services Division (formerly Parole and Probation)			
18. Increases funding for grants by 35.2 percent, from \$2,426,403 to \$3,280,619 to reflect additional federal and other funds available for crime victims compensation and assistance programs.	(\$129,164)	\$983,380	\$854,216
19. Decreases funding for equipment by 42.9 percent, from \$110,601 to \$63,102.	(\$44,924)	(\$2,675)	(\$47,499)
20. Adds 1 FTE parole and probation officer III and provides the following amounts for the establishment of a prerelease center. (The center will be operated on a contract basis and will house up to 50 inmates who are within six months of release. The center will provide counselling, job skills training, cognitive restructuring, and alcohol and drug abuse treatment services.)			
Salaries and wages	\$98,813		\$98,813
Operating expenses	1,401,648		1,401,648
Equipment	5,000		5,000
Total recommended appropriation	\$1,505,461		\$1,505,461
21. Provides funding for operating expenses to allow the department to contract with the State Hospital for the operation of a DUI treatment program. (The program will provide treatment services to DUI offenders with three or more offenses and will have a maximum occupancy of 25 inmates.)	\$2,139,284		\$2,139,284
22. Decreases general fund spending authority and increases other funds spending authority for operating expenses to reflect the collection of additional supervision fees.	(\$203,636)	\$203,636	\$0
23. Provides \$1,369,655 (\$1,009,655 from the general fund; \$360,000 from other funds) for the operation of the Tompkins Rehabilitation and Corrections Unit, an increase of \$288,455 compared to the 1999-2001 biennium appropriation. (The 1999 Legislative Assembly authorized the program to allow the department to contract with the Stutsman County jail for inmate cells and with the State Hospital for treatment services.)	\$288,455		\$288,455
24. Adds 4 FTE parole and probation officer II positions and provides the following amounts for additional parole and probation officers to serve the Devils Lake, Fargo, and Grand Forks areas:			
Salaries and wages	\$315,020		\$315,020
Operating expenses	64,744		64,744
Equipment	10,000		10,000
Total recommended appropriation	\$389,764		\$389,764
25. Provides \$452,000 (\$313,760 from the general fund; \$138,240 from other funds) for the last chance program, an increase of \$260,000 compared to the 1999-2001 biennium appropriation. (The 1999 Legislative Assembly authorized the program, which is an eight-bed residential facility providing cognitive restructuring, treatment, and other services to offenders in the Fargo area who would otherwise face revocation of parole or probation status and return to a Department of Corrections and Rehabilitation facility.)	\$204,760	\$55,240	\$260,000
26. Adds 1 FTE parole and probation officer III position and provides the following amounts for the establishment of a South Central Judicial District drug court, to be funded from supervision fees collected by the department:			
Salaries and wages		\$98,813	\$98,813

	General Fund	Other Funds	Total
Operating expenses		140,470	140,470
Total recommended appropriation		\$239,283	\$239,283
Adult Services - Prisons Division (support services, program services, security and safety, and Roughrider Industries line items)			
27. Increases funding for capital projects by \$2,657,428 compared to the 1999-2001 biennium appropriation of \$4,302,860 (support services and Roughrider Industries).	\$3,370,959	(\$713,531)	\$2,657,428
28. Provides funding for the following capital improvements (support services and Roughrider Industries):			
Extraordinary repairs	\$604,270	\$250,000	\$854,270
Food service/multipurpose building - Missouri River Correctional Center	1,983,000		1,983,000
Women's unit - James River Correctional Center	2,320,000	1,400,000	3,720,000
Parking lot - Penitentiary	403,118		403,118
Total adult services capital improvements	\$5,310,388	\$1,650,000	\$6,960,388
29. Provides funding for bond repayments for projects completed during previous bienniums; the bond repayment amounts will be transferred to the Industrial Commission (support services).	\$2,250,163		\$2,250,168
30. Increases funding for utility costs by 8.1 percent, from \$1,733,319 to \$1,873,442 (support services).	\$140,123		\$140,123
31. Increases funding for food and clothing by 34 percent, from \$1,975,850 to \$2,647,657, due primarily to an anticipated increase in food costs at the Missouri River Correctional Center and Penitentiary, an anticipated decrease in government commodities received by the department, and a reallocation of costs between cost centers (support services).	\$671,807		\$671,807
32. Increases funding for institutional medical fees and medical, dental, and optical costs by 36.6 percent, from \$2,206,419 to \$3,013,599, due to increased medical costs for the treatment of inmate medical needs (support services).	\$807,180		\$807,180
33. Provides funding for salary adjustments, in addition to the executive budget compensation package, to increase salaries to new pay range minimums established by Central Personnel (\$140 included in support services; \$87,437 included in security and safety; \$17,672 included in Roughrider Industries).	\$87,577	\$17,672	\$105,249
34. Adds 22.5 FTE positions and provides the following amounts for the operation of the proposed James River Correctional Center women's unit for the last nine months of the 2001-03 biennium:			
.5 FTE registered nurse II (support services)	\$17,557		\$17,557
1 FTE office assistant II (support services)	16,974		16,974
1 FTE instructor (program services)	25,855		25,855
14 FTE correctional officer II (security and safety)	343,154		343,154
1 FTE criminal investigator II (security and safety)	24,511		24,511
1 FTE correctional unit manager (security and safety)	33,183		33,183
1 FTE correctional unit case manager (security and safety)	29,799		29,799
3 FTE correctional caseworker (security and safety)	78,645		78,645
Total FTE positions - 22.5 FTE	\$569,678		\$569,678
Temporary salaries (\$941 included in support services and \$14,838 included in security and safety)	\$15,779		\$15,779
Operating expenses (\$345,165 included in support services and \$76,650 included in program services)	421,815		421,815

	General Fund	Other Funds	Total
Equipment (support services)	33,795		33,795
Total recommended appropriation	<u>\$1,041,067</u>		<u>\$1,041,067</u>
35. Adds 28 FTE positions and provides the following amounts for the operation of the proposed seriously mentally ill (SMI) unit at the James River Correctional Center:			
1 FTE pharmacist I (support services)	\$99,278		\$99,278
3 FTE registered nurse II (support services)	227,079		227,079
1 FTE office assistant II (support services)	41,357		41,357
1 FTE licensed psychologist II (program services)	136,878		136,878
3 FTE social worker II (program services)	188,142		188,142
19 FTE correctional officer II (security and safety)	1,125,921		1,125,921
Total FTE positions - 28 FTE	\$1,818,655		\$1,818,655
Temporary salaries (\$7,133 included in support services and \$33,653 included in security and safety)	\$40,786		\$40,786
Operating expenses (\$545,206 included in support services and \$15,500 included in program services)	560,706		560,706
Equipment (support services)	17,650		17,650
Total recommended appropriation	<u>\$2,437,797</u>		<u>\$2,437,797</u>
36. Adds .5 FTE stores clerk for the Penitentiary (support services).	\$26,904		\$26,904
37. Adds 1 FTE office assistant II and provides the following amounts for the medical department at the Penitentiary (support services):			
Salaries and wages	\$47,631		\$47,631
Operating expenses	3,195		3,195
Equipment	2,300		2,300
Total recommended appropriation	<u>\$53,126</u>		<u>\$53,126</u>
38. Increases funding for housing state inmates at county or out-of-state correctional facilities by 35.3 percent, from \$1,812,491 to \$2,452,275 (security and safety).	\$639,784		\$639,784
39. Provides funding for salary adjustments, in addition to the executive budget compensation package, for correctional officer positions (security and safety).	\$222,528		\$222,528
40. Adds 2 FTE correctional officer II positions and provides the following amounts for the Penitentiary (security and safety):			
2 FTE correctional officer II positions	\$134,186		\$134,186
Temporary salaries	3,720		3,720
Operating expenses	1,850		1,850
Total recommended appropriation	<u>\$139,756</u>		<u>\$139,756</u>
41. Provides funding for producing a general issue of license plates during the 2001-03 biennium (Roughrider Industries).		\$2,500,000	\$2,500,000
42. Provides funding for expansion of work programs at the James River Correctional Center (Roughrider Industries).		\$500,000	\$500,000
43. Adds 3 FTE positions for the operation or expansion of inmate work programs (Roughrider Industries):			
1 FTE storekeeper I		\$53,809	\$53,809
2 FTE industrial production assistant II		145,230	145,230
Total recommended appropriation		<u>\$199,039</u>	<u>\$199,039</u>

**Major Hoeven Recommendations Affecting the Department of Corrections and Rehabilitation 2001-03 Budget
Compared to the Bill as Introduced (Schafer Budget)**

The Hoeven budget recommendation does not change the Schafer executive budget recommendation for this agency.

Major Legislation Affecting the Department of Corrections and Rehabilitation

House Bill No. 1206 - This bill requires that certain offenders in the department's custody after July 31, 2001, provide a blood or body fluid sample for the purpose of obtaining a DNA sample to be included in law enforcement identification data bases.

House Bill No. 1218 - This bill authorizes a drug court program for repeat DUI offenders.

House Bill No. 1270 - This bill enacts a new interstate compact for the supervision of adult offenders on parole or probation status.

House Bill No. 1334 - This bill eliminates minimum mandatory sentences for certain first-time drug offenses.

House Bill No. 1367 - This bill requires that most drug offenders serve at least 85 percent of the court-imposed sentence.

Senate Bill No. 2135 - This bill allows the department to collect unpaid parole and probation supervision fees in the same manner as civil judgments rendered by district court and allows the department to employ a licensed collection agency in the collection of the unpaid fees.

Senate Bill No. 2220 - This bill increases state costs for the transportation of juvenile offenders. Under current law, if a juvenile is in the legal custody of a state agency, that agency must pay the state mileage rate for the juvenile's transportation for medical examinations and treatment ordered by the court. This bill increases state costs by providing that the county reimbursement must include an additional 50 cents per mile.

Senate Bill No. 2446 - This bill requires the Department of Corrections and Rehabilitation to conduct a risk assessment of sexual offenders under the control of the department or on supervised probation.

Summary of Legislative Changes to Bill as Introduced

See attached Statement of Purpose of Amendment.

SB 2016

Department of Corrections and Rehabilitation

**Prepared for the
Senate Appropriations Committee
Senate Bill Number 2016**

**Senator David E. Nething
Chairman**

January 16, 2001

**By Elaine Little, Director
DOCR**

01-03 EQUIPMENT LIST	GF Equip.

PROGRAM NARRATIVE

808 DEPT OF CORRECTIONS & REHABILITATION
Version: 2001-0530-B-01

Page 5 of 7
Date: 9/29/2000
Time: 13:48:14

Program: SUPPORT SERVICES	Reporting Level: 01-530-500-03-54-00-00
----------------------------------	--

3011 Lease/Rentals/Equipment - costs per month for copier rental and one-time rental of other building/maintenance equipment.

3013 Dues and Professional Development - The maintenance of professional growth ensures safe, competent health care for the Prisons Division inmates. Professional development for support staff contributes towards efficient operations.

3014 Operating Fees and Services - the majority of the costs pertain to contracting for food services at JRCC. Also, the Prisons Division is accredited by the American Correctional Association (ACA). The audit is done every three years. The next audit is Oct. 2003 and therefore, costs are not included in this budget.

3016 Repairs - costs reflect a 3 percent annual increase in materials used to repair and maintain facility equipment and for service contract projected increases.

3018 Professional Services - the majority of the costs are attributed to Medical Services and Institutional Medical Fees. The increase in the inmate population, medical procedures, pharmacy drug costs, dental costs, etc, has resulted in this line to increase each year. Medical services at JRCC, such as, psychiatric, dietary, X-ray, and lab are contracted with the State Hospital. ~~Architect and engineering costs associated with capital projects are also part of this line.~~

3019 Insurance - costs are solely for the Risk Management Fund contribution.

3021 Office Supplies - The increased volume of inmates has reflected on needs for additional supplies. An inflation factor of 5 percent was used for the second year.

3025 Professional Supplies and Materials - Federal and state regulations require inmate access to training and education related to safety.

3027 Food and Clothing - The "per meal" cost remained constant the first year. The increase in the second year is slightly less than 5 percent based on vendor-projected increases. We continue to see a loss in receiving government commodities.

MRCC			
FY 2002	150 inmates x 365 days	^(1.08/meal) 3 meals/day	$\times 3.24/\text{day} = \$177,390$
FY 2002	25 staff x 261 days		$\times 2.16/\text{day} = \$14,094$
	TOTAL	$=$	$\frac{2 \text{ meals/day}}{\text{day}} \quad \$191,484$
FY 2003	150 inmates x 365 days	^(1.13/meal)	$\times 3.39/\text{day} = \$185,603$
FY 2003	25 staff x 261 days		$\times 2.28/\text{day} = \$14,747$

Program: SUPPORT SERVICES	Reporting Level: 01-530-500-03-54-00-00
---------------------------	---

TOTAL	=		\$200,350
NDSE			
FY 2002		515 inmates x 365 days x 3.15/day =	\$592,121
FY 2002		146 staff x 261 days x 2.10/day =	\$80,023
		TOTAL	\$672,144
FY 2003		515 inmates x 365 days x 3.30/day =	\$620,318
FY 2003		146 staff x 261 days x 2.20/day =	\$83,833
		TOTAL	\$704,151

3029 Medical, Dental, and Optical - Costs are directly correlated with the number of inmates served. The more inmates needing services, the costs go up. The number of chronic medical health care needs of inmates is also rising. Examples - HIV, AIDS, TB, cancer, hepatitis, etc. We have seen a large increase in the number of inmates entering our system that have used meth. These are all high maintenance expenditures.

3030 Buildings, Grounds, Vehicle Maintenance Supplies - Costs incurred during the normal day-to-day operations of the physical plant. Vendor projected increases of 3 percent are necessary to maintaining aging buildings and equipment necessary to support 100 percent facility occupancy.

Due to the continued overcrowding of the Prisons Division, it is not feasible to board federal or out-of-state prisoners at our institution. This is consistent with the previous biennium.

3-6-01

March 1, 2001

Presentation for the House Appropriations Committee

Overview of Senate Bill No. 2016 Department of Corrections and Rehabilitation

The Department of Corrections and Rehabilitation has experienced a tremendous growth in inmate population, from under 500 inmates in the early 1990s to 1080 inmates today. The largest contributor to this increase in population has been the significant increases in drug offender admissions and violent offender admissions. The number of drug offender admissions has increased from 41 in 1993 to 252 in 2000; the number of violent offender admissions has increased from 74 in 1993 to 149 in 2000. The department estimates that the inmate population will continue to grow at a 7% rate each year of the next biennium. The cost of housing the additional inmates has increased commensurately. The Department's general fund budget in 1995 was \$22 million. The general fund appropriation for the Department for the current biennium is \$62.7 million. The executive budget includes a general fund budget of \$84 million for the 2001-2003 biennium.

There are a number of reasons for the increase in inmate population;

- Less parole and pardon releases (Inmates serving more of their sentences)
- Longer sentences by the courts
- Large increase in the number of drug offenders
- Mandatory-minimum sentencing
- Passage of Truth-in-sentencing
- Change of good-time law in 1991
- Call to get-tough-on-crime by public
- Direction of resources to "war on drugs"

In light of the large increase in inmate population one might ask the question as to whether the State has done/or is doing anything to address this situation. With the Legislature's approval the past two biennia the Department of Corrections has implemented several "alternative to incarceration" programs without which ND would be looking at an even larger inmate population. Some of the "alternatives" that are currently being utilized include:

- The Thompkins Rehabilitation and Corrections Unit (formerly known as the revocation center) located at the Combined Law Enforcement Center in Jamestown
- The Last Chance Program in Fargo
- The Community Service and Restitution Programs located all across the State
- Community Placement Program (DOCR places certain inmates in community last 6 months of their sentence
- Treatment including alcohol and drug and cognitive restructuring programming
- Other alternatives including electronic monitoring, house arrest, group homes, on-site drug testing, day reporting and intensive supervision in the community

The proposed budget for the Department of Corrections and Rehabilitation for the 2001-2003 biennium includes additional alternatives. It includes a pre-release work/treatment program (to be located in the Bismarck area) for 50 offenders who are within 6 months of release, a DUI treatment program (housed at the State Hospital) for 25 DUI offenders and a pilot Drug Court program in Burleigh/Morton counties that is estimated to divert another 10 offenders from prison. These programs will free up another 85 prison beds on a daily basis. Without all of the "Alternative to Incarceration" programs operated by the Department of Corrections, the State of North Dakota would be facing the construction of another major prison facility or contracting out the housing of another 300+ inmates. Warren Emmer will present more detailed information on the various alternatives to incarceration for you.

Let's move to the charts for a more detailed analysis of what has happened to our inmate population.

DOCR Prisons Division Inmate Population Information

Population on December 31, 2000

SB 2016

Testimony on SB 2016

Department of Corrections and Rehabilitation

Central Office

**Senate Appropriations Committee
Senator Nething, Chairman**

January 16, 2001

**By Elaine Little
Director**

The DOCR Central Office budget for the 2001-2003 biennium includes funding for 8.0 current FTEs and the associated administrative expenses. In addition, the budget includes funding for two new FTE's to address information technology needs within all Divisions of the Department of Corrections and Rehabilitation (DOCR). Also included is funding to cover costs for the inspection of local jails, for the training of county correctional officers and jail administrators, and funding to continue the support of the DOCR's automation network and systems.

Salaries and Wages - \$ 1,281,245

- 8.0 FTEs - \$ 933,765 (current staff)
- 2.0 FTEs - \$ 150,765 (new technology positions)
- Temporary Salaries - \$1,650
- Executive Recommendation for Salary/Benefit Funding - \$ 58,065
- Retirement Costs - \$12,000
- Salary Equity Funding - \$ 125,000

Justification of the two new technology positions:

The DOCR has close to 300 computer users and currently has two full-time and one part-time student intern dedicated to information technology (I.T.) support. Also, the Division of Juvenile Services contracts with the ND Association of Counties for IT support. The need for additional staff support is critical in all areas including:

- Desktop support
- Software troubleshooting services
- Network troubleshooting services
- Hardware support services
- User training services
- Report developments
- Application development, and
- Repair services.

Presently, the two Central Office staff are responsible for all of the DOCR automation systems. One of the new positions will be assigned to facilitate and problem solve the IT needs for Field Services, Division of Juvenile Services (DJS) statewide offices, the Missouri River Correctional Center (MRCC), and the James River Correctional Center (JRCC). The other new position will be assigned to the Youth Correctional Center.

Operating Expenses - \$ 171,447

- Data Processing/Telecommunications - \$ 24,506
- Travel - \$42,840
Expenses include motor pool in-state mileage, and lodging costs related to the inspection of jails within the state, the training of county jail administrators and correctional officers, and management and technology

staff travel (\$14,508). Also includes out-of-state travel costs for management staff to attend national conferences, meetings and training seminars, and for information technology staff training (\$28,332).

- Lease of Equipment - \$ 4,440
Monthly rental costs for copier.
- IT Software Supplies - \$ 24,244
Funding to update Adult Services Network servers to version 5.1. Upgrade Novell master server to facilitate E-Publishing capabilities, upgrade Tapeback system software, and purchase intranet server software.
- IT Contractual Services - \$ 4,000
Funding to upgrade/replace network wiring infrastructure to facilitate new network connections.
- Dues and Professional Development - \$ 21,600
Registration and conference fees, national association dues, management training fees and information technology staff training as required to support DOCR automation systems.
- Operating Fees and Services - \$ 20,751
Funding included to provide training to corrections management staff and county jail administrators - \$11,160 Federal Funds/\$4,340 General Fund. Also includes funding for freight charges, advertising services, audit fees, legal fees and employee awards.
- Insurance - \$ 1,406
Premiums paid to the State Fire and Tornado Fund for contents coverage and contributions to the Risk Management Fund.
- Professional Supplies and Materials - \$ 6,000
Includes funding for subscriptions, correctional publications, personnel, fiscal and technology updates, video library tapes and training materials.
- Other Expenses - \$ 21,660
Postage, repairs, office supplies, printing costs and miscellaneous equipment items costing less than \$750.

Equipment - \$ 80,850

- Funding to replace Oracle server hardware (\$25,000), JRCC server hardware (\$14,000), purchase and install intranet server to host services for ITAG (Inmate

information system) and centralized report generation (\$14,000), and upgrade/replace network wiring infrastructure to facilitate new network connections (\$4,000). Also includes funding to purchase PCs for new technology positions (\$4,200) and for PC and printer replacement needs (\$19,650).

TOTAL CENTRAL OFFICE BUDGET - \$1,533,542

Funding Source

General Fund - \$ 1,522,382
Federal Funds - \$ 11,160

E-RATE

- On May 7, 1997, the Federal Communications Commission (FCC) adopted a Universal Service order implementing the Telecommunications Act of 1996. The Order was designed to ensure that all eligible schools and libraries have affordable access to modern telecommunication and information services.
- Dollars are available to provide eligible schools and libraries with discounts, often referred to as the "E-Rate" for authorized services. The level of discount is based on percentage of students eligible for the National School Lunch Program.
- Once a funding request has been accepted and approved, the school or library will receive the applicable discount on internet access and/or internal connections, and pay the remaining portion of the costs to the service providers. The universal service fund pays the service provider.
- E-Rate applied for and approved:
 - 1999: \$19,400
 - 2000: 15,084
 - Total Cost \$34,484
- ITD bills us at 10%
- Application for the E-Rate has been made for 2001; however, approval is pending

**DEPARTMENT OF CORRECTIONS AND REHABILITATION
SALARY INCREASES - 2001-03 BIENNIUM
EXECUTIVE BUDGET RECOMMENDATION**

The Schafer and Hoeven executive budget recommendations for the Department of Corrections and Rehabilitation (DOCR) include the following amounts for salary adjustments in addition to the executive budget compensation package of three percent the first year of the biennium and two percent the second year of the biennium:

	General Fund	Other Funds	Total
Provides funding for an equity salary increase of \$182 per month for the director effective January 1, 2002 (the amount included in the executive budget is \$112 less than the required amount of \$3,831).	\$3,719		\$3,719
Provides funding for salary adjustments, in addition to the executive budget compensation package, to address equity and salary compression issues within the department.	125,000		125,000
Provides funding for salary adjustments, in addition to the executive budget compensation package, to increase salaries to new pay range minimums established by Central Personnel.	97,297	\$24,771	122,068
Provides funding for salary adjustments, in addition to the executive budget compensation package, to increase teacher salaries pursuant to the salary schedule prepared by Central Personnel.	291,375		291,375
Provides funding for salary adjustments, in addition to the executive budget compensation package, for correctional officer positions.	222,528		222,528
Total	\$739,919	\$24,771	\$764,690

In addition to the amounts reflected above, the Schafer and Hoeven budget recommendations for the Office of Management and Budget include \$5.4 million (\$2.7 million from the general fund; \$2.7 million from other funds) for market equity compensation adjustments for classified state employees. The 1999 Legislative Assembly also appropriated \$5.4 million to the Office of Management and Budget for similar compensation adjustments to be distributed during the 1999-2001 biennium. The 1999-2001 biennium funding pool was allocated to state agencies, including the DOCR, which received \$557,366 (\$501,598 from the general fund; \$55,768 from other funds).

DOCR COMPENSATION ADJUSTMENTS

In Table One you will see the compensation adjustments requested for the divisions within the DOCR. The proposed adjustment will generally affect different staff.

The \$291,375 salary adjustment is to place the teachers at the NDYCC on the composite salary schedule that was developed in conjunction with Central Personnel and based on a review of salaries and benefits received by teachers in public schools. This review looked at schools located in areas surrounding the NDYCC, the School for the Blind and the School for the Deaf. The Public Schools selected for the survey were Bismarck, Devils Lake, Fargo, Grand Forks, Mandan and Minot. Crookston and Moorhead were also selected for the survey because of the proximity to the NDSB and the NDSB. East Grand Forks did not respond to the survey. The composite schedule is calculated at 95% of market just like the calculations that are done by Central Personnel for classified positions. This adjustment will ensure that the teachers at the NDYCC are compensated at a level commensurate with the teachers at the NDSB and NDSB. Currently the salaries at the other schools are above those of comparable teachers at NDYCC. The teachers at the NDYCC are not classified and are not included in the proposed salary market/equity adjustment of \$5.4 million through the Central Personnel Division.

The \$222,528 salary adjustment for Correctional Officers will be used to increase the entry-level salaries for new and recently hired temporary and regular salaried Correctional Officers (Table Two).

In 1999, the OMB Central Personnel Division provided a salary adjustment package for classified employees similar to the one that has currently been requested for the next biennium. The DOCR portion of the 1999 adjustments was \$557,189 in salary and benefits. Table Three shows examples of the individual positions and how they were adjusted. Included are the positions, the years of service, the salary/benefit increases and the quartile after the adjustment. When Central Personnel converted the salary ranges from 44 to 20, the DOCR received a large portion of the dollars, due in part, to the need to ensure that the existing staff would at least be at the new entry salaries for the pay ranges. Overall about 55% of classified employees were eligible for the adjustment. In the DOCR about 81% were eligible for the adjustment. Even with this adjustment, 89% of our staff were below midpoint compared to 65% for employees statewide.

Salary data for the year 2000 presented by Central Personnel (Table Four) with their request for \$5.4 million in market/equity indicates that 21.8% of all classified employees had salaries in the first quartile of their pay grades, for DOCR employees the figure was 52%; 41% statewide in the second quartile, 35% for DOCR; 27.2% statewide in the third quartile, 12% for DOCR and 9.8% statewide in the fourth quartile, 1% for DOCR. In 2000 the percentage of all classified employees below the midpoint of their salary range was 63% and in the DOCR that figure was 87%.

The salary adjustments that are included in the proposed market/equity adjustments by OMB/Central Personnel would be used to adjust the salaries of existing classified staff within our department. In the market/equity proposal by Central Personnel the entry levels of the pay ranges would be increased. Some of our existing staff is at the entry salary in their current pay ranges. The \$97,657 will be used to increase these salaries so that these employees will not be below the entry level of the new pay range. The other portion of the market/equity dollars will be used to move existing staff into their respective pay ranges. Since the salaries of our staff are so compressed within the first two quartiles, any adjustments from this will have a limited affect on moving existing staff into their pay ranges.

In 1999 the *compa- ratio for classified employees was .96 with an average of 12 years of service. The average c ratio for all the employees within the DOCR was .89 with an average of 9 years of service. Using the 1999 standard of .96 at 12 years as a guide, we reviewed each division within the DOCR to determine where they were in relation to compa- ratio and years of service. We then looked at where they should be in 2000. In order to bring the DOCR salaries more in line with the statewide average, still using the 1999 standard, we determined that the cost would be \$753, 246 in salaries and benefits for the next biennium. **In discussions with Central Personnel staff they advised that generally the compa- ratio would increase by one tenth of a point each year and the average years of services will increase by 4 to 6 months. Using that data and aging it with the 1999 data, we then applied this to the DOCR divisions and their staff salaries. We determined that if the compa- ratio for our affected divisions increased by two to three tenths over the next two years and the years of service increased by one year between a 1999 and 2002 the requested adjustment would be about \$1.5 million in salaries and benefits for the next biennium (Table Five). With this increase and using the 2000 pay ranges; about 75% of our staff will be below the midpoint.

The \$125,000 salary adjustment recommended by the OMB and included in the budget would be used to adjust the salaries of existing classified staff by a portion of the request (Table Five and Six). This would be done by factoring the relationship between the years of service and placement in the pay ranges. In recent discussions with the Central Personnel Division they think that this adjustment would compliment the market/equity adjustment that they have proposed for classified employees as it would it would move our employees into their pay ranges and bring them somewhat in line with the placement of other classified state employees in the pay ranges.

* Comparison of the employee's base salary to the dollar value at the midpoint of the pay range--with 1.00 representing a base salary at midpoint

** In 2000 the average compa- ratio for classified state employees was .97 with 12.6 years of service

* Since Rough Rider Institute operates with self-generated revenue, a prime consideration in filling these positions is making sure that the funds are there to support the new positions hired. With the increased prison population JRS is working to find employment for more inmates. As inmate job numbers grow, JRS will fill the above positions to provide supervision and security as necessary.

Total FTE -- 27.50

**DEPARTMENT OF CORRECTIONS AND REHABILITATION -
2001-03 BUDGETED AMOUNT FOR
TRAINING COUNTY CORRECTIONAL OFFICERS**

The following amounts are included in the Schafer and Hoeven executive budget recommendations, and Engrossed Senate Bill No. 2016, for costs anticipated to be incurred by the Department of Corrections and Rehabilitation for providing training to county correctional officers during the 2001-03 biennium:

	General Fund	Other Funds	Total
Central office - Operating expenses object code			
Travel	\$4,400		\$4,400
Professional development	360		360
Printing	1,000		1,000
Training workshops	4,340	\$11,160 ¹	15,500
Total	\$10,100	\$11,160	\$21,260

¹ Federal Edward Byrne grant program.

Questions asked by the House Sub-committee 3/6/01

1. Rep. Delzer. What amount did the salary increase in FY01 for CO's come to?

We have not begun paying officers at the proposed new rates. Last July, I did increase the salary of 12 Correctional Officers at Jamestown by \$27.00/month, and 9 correctional Officers at Bismarck by \$17.00/month to raise their monthly pay over the \$1900/month level that I planned to pay the new CO II's. I didn't want existing officers with more experience being paid at a lower level than the new COII officers. The total for these raises is \$5,724. However, we did not increase the salaries yet for the new hires, people moving from temporary to COI openings, or those staff that have earned the COII status since July.

2. Rep. Delzer. Can you provide a copy of the Extraordinary Repairs list?

A copy of the list is provided (A).

3. Rep. Delzer. What is the cost of WU renovation vs. construction? What would the cost be in contracting bed space if the unit is not built? What would we save if we placed the Women's Unit at the MRCC? What are the savings if we combine construction of the MRCC Food Service building with the new Women's Unit?

A copy of the costs to renovate the Employee Apartment building (B) and estimates for the new building (C) are attached. There is documentation comparing the costs spent for contracting bed space versus the costs for constructing the new unit (D). Documents from Prison's Division Director of Plant Services Dick Frohlich, which address the costs of building at the MRCC, and savings generated by combining the two buildings, are also attached (E).

4. Rep. Warner. Has a female inmate become pregnant from a male inmate at JRCC recently?

No female inmate has been impregnated by a male inmate at JRCC. It's possible that your source was describing a situation where a female inmate was released from prison and became pregnant from her boyfriend, who was also an ex-inmate. She was only out for a short period of time, before she came back into the prison on a parole violation.

5. Rep. Delzer. What is the average length of stay for female? What is the breakdown by custody levels?

The average sentence, including probation time, is 27 months; 19 months incarceration, and 8 months of subsequent probation. The average length of stay in the prison is 14 months. We presently have 63 women in our system. There are 3 maximum custody, 32 medium custody, and 28 minimum custody female prisoners.

6. Rep. Delzer. What is the breakdown (salary, operating, equipment) for the SMI unit?

A copy of the optional adjustment package is attached (F).

7. Rep. Delzer. What would happen to the employees that are presently working in the unit that is proposed to become the SMI Unit?

The Officer working in the control room on each shift would remain. I answered incorrectly though regarding the other two officers. In checking with the Warden at the JRCC, he informed me that the staffing plan for the unit would require 5 additional Correctional Officers, along with the two that are presently working there, for a total of 7 officers per each day shift.

8. Rep. Delzer. Population projections: What is the breakdown of useable bed space? Temporary Bedspace? Can we project 10 cells in the 100 unit as "useable beds?"

A copy of the bed space breakdown (memo of 7/20/00) is attached (G).

9. Rep. Delzer. Optional Adjustment detail for the \$222, 528 request for Correctional Officer salary increases.

A copy of the working papers used to arrive at the \$222,528 is attached (H).

JRCC Women's Unit Construction Cost Comparison

D

Costs for 2001-2003 (9 months)

Salaries & Wages (22.5 FTE)	\$	585,457
Operating/Equipment		<u>455,610</u>
Total	\$	1,041,067

W. U. Construction Costs \$ 3,720,000 (2,320,000 general funds)

Costs for 2003-2005 (Full Blen.)

Salaries & Wages (22.5 FTE)	\$	1,553,937 (salaries as of 6/30/03, without any increase)
Operating/Equipment		<u>1,152,410</u>
Total	\$	2,706,347

Cost to contract out 94 male inmates from 11/02 - 6/03 @ \$50 per day, if the WU is not built - \$1,137,400

Cost to contract out 94 male inmates for a biennium @ \$50 per day, if the WU is not built - \$3,431,000

- If the Women's Unit (WU) is built, we will be able to use the entire second floor for male inmates (80 beds).

We will also be able to house 14 more men at the MRCC because the women will be housed in the WU.

<u>Cost Savings</u>	<u>WU</u>	<u>Contract Housing</u>	<u>Savings</u>
Expenditures 2001-2003 (9 mo.)	1,041,067	1,137,400	96,333
Expenditures 2003-2005	2,706,347	3,431,000	724,653
Expenditures 2005-2007	2,706,347	3,431,000	724,653
Expenditures 2007-2009	2,706,347	3,431,000	724,653
	<u>\$ 9,160,108</u>	<u>\$ 11,430,400</u>	<u>\$ 2,270,292</u>

The savings of \$2,270,292 by building the Women's Unit will offset the construction of \$2,320,000 within 7 years.

2001-2003 JRCC WOMEN'S UNIT BUDGET

PROGRAM SERVICES		
Salaries (1 FTE)	25,322	25,322
Operating:		
inmate pay	76,650	76,650
Total	101,972	101,972
SECURITY & SAFETY		
Salaries	623,287	516,960
	(25 FTE)	(20 FTE)
Adjustment		9,610
GRAND TOTAL	1,213,890	1,041,067
SALARIES	684,990	585,457
OPERATING	495,105	421,815
EQUIPMENT	33,795	33,795
GRANT TOTAL	1,213,890	1,041,067

Cost to Build Women's Unit at MRCC:

1. 2,500 cubic yards engineer fill, to raise building above 100 year flood plain

$$\begin{array}{r} 2500 \text{ c.y.} \\ \times \underline{\$9.50 \text{ per yard}} \\ \$23,750 \text{ includes overhead} \end{array}$$

2. Replace 13,000 feet of 2" high-pressure sewer line with 3" line. Existing 2" would be too small for additional inmate load.

$$\begin{array}{r} 13000 \text{ ft. } 3 \text{ " line} \\ \times \underline{\$4.50 \text{ includes materials and excavating}} \\ \$58,500 \end{array}$$

3. Fire Protection - Hydrants

$$2 \text{ Hydrants} \times \$5800 \text{ each} = \$11,600$$

4. If inmates were served meals at approximately the same time, additional equipment would be required:

$$2 \text{ ovens, } 1 \text{ steamer} = \$20,000 \text{ equipment}$$

5. Additional square footage requirement:

200 s.f. in Kitchen, Multi-Purpose Building

$$\begin{array}{r} 200 \text{ s.f.} \\ \times \underline{\$125 \text{ s.f.}} \\ \$25,000 \end{array}$$

Additional mechanical room, space to accommodate boiler and chiller equipment will be needed. Note: At JRCC a boiler and chiller were not required because we purchase steam and chilled water from the State Hospital. At MRCC we would need the boiler and chiller. At JRCC we would not need them.

$$\begin{array}{r} 150 \text{ s.f. addition mechanical room space} \\ \times \underline{\$180 \text{ s.f.}} \\ \$12,000 \end{array}$$

6. Boiler, hot water with domestic hot water heater coil - \$65,000

Central chiller system and cooling tower

Chiller	\$32,500
Condenser or tower	<u>\$32,000</u>
	\$64,500

7. Building demolition would be slightly less at MRCC, but because of flood plain concerns, we may need to do demolition at MRCC as well, but could use inmate labor.

TOTAL NOS. 1 - 6 ADDITIONAL CONSTRUCTION COST: \$270,350

As always, because these are construction costs, architects would receive their percentage of the total above. Somewhere around 7% or \$21,628 in Fees.

Savings if we combine construction of Women's Unit and MRCC Food Service:

The Women's Unit, Dining and Multi-Purpose space square footage is 1333 s.f.
The Pantry (kitchen) is 363 s.f.

	1333 s.f.	
	<u>363 s.f.</u>	
	1696 s.f. Total	
x	<u>\$125 s.f.</u>	
	\$212,000	
x	<u>16,960</u>	8% Fee
SAVINGS OF	\$228,960	

If the MRCC Multi-Purpose building footprint remains the same, the only place the Women's Unit could be attached is on the north end of the Multi-Purpose building. If you recall, the grade is lower in that area, and I think it would cost more to raise the grade to 100 year flood plain than we would save by sharing 60' of block wall. I would suggest staying out of the low wooded area as much as possible. There is a good possibility utilities would have to be re-routed as well, in which case we would need to add perhaps another \$20,000 to estimates given for building the Women's Unit at MRCC. The good news is that the present generator is large enough.

1. A 5% deduction is to account for inmate movement, not always being able to fill AS beds, not having enough women in the system to fill their general housing beds, etc.

We cannot count on our Temporary Beds as being always available to house the right mix of inmates.
2. We plan to increase the available bed space by 75 beds with the addition of the JRCC Women's Unit building in 11/02.

SB 2016

**TESTIMONY ON SB2016
SENATE APPROPRIATIONS COMMITTEE**

**ROUGH RIDER INDUSTRIES
DENNIS FRACASSI, DIRECTOR
JANUARY 16, 2001**

Rough Rider Industries represents 12% of the budget for Adult Services or \$10,849,840 (\$10,850,000). The funding source for this line item request is comprised entirely of special funds. All salaries, equipment, capital improvements and operating expense are funded through self-generated revenues from products and services we provide to eligible customers..

We currently have over 160 inmates working each day in the industry program. This has a huge impact on maintaining peace and order within the prison cell houses. It gives the inmates an outlet to release energy and frustration and simultaneously allows them to provide for their own livelihood while incarcerated. Inmates will think twice before acting out when they know that inappropriate conduct either at work or in the cell house will cost them their job. It also saves state taxpayers several hundred thousand dollars each year that would otherwise be needed for additional staff and other forms of programming.

We are requesting an increase of \$3,222,616 for the RRI budget from the current biennium. Approximately 1.7 million is targeted for raw materials in anticipation of a new general issue of license plates. Some of the remaining 1.5 million will be used to

cover additional labor and overhead for the general issue, but the majority of these dollars are targeted towards continued efforts to build relationships with the private sector.

I am excited and encouraged by the progress RRI has made in working with private sector companies to create new inmate jobs in order to provide more work for our escalating prison population. In the past two and a half years, RRI has done business with over 70 North Dakota private sector businesses, reaching sales of 1.7 million dollars and providing work for an additional 50 - 60 inmates. Efforts to communicate on both the part of RRI and ND business have enabled us to find common grounds that allows for our presence in the marketplace. Business fears of losing private sector jobs to prison inmates have been significantly reduced. In fact, many businesses are starting to look to us as a potential source of labor rather than a competitive adversary. This is not to say that all ND businesses accept our presence or like what we do, but for those who have worked with us, they are finding that we can work together to achieve common goals.

The partnership arrangements that offer the greatest potential to achieve our goals in a non-threatening manner with the private sector are those under the auspice of the Prison Industry Enhancement Program (PIE). We are currently working with 3 different private sector partners at our industry program in Jamestown. The companies are Acceleration Products, Inc. and Global Electric Motors both of Fargo, and Soaring Eagle Outwear of Minot. All three of these companies have needs for cut and sew products and they have all experienced frustrations trying to find someone in North Dakota to provide for their needs. In this program inmates are paid minimum or local prevailing wages and agree to

deductions of up to 80% of their gross earnings for state and federal income taxes; a 5% deduction to a victims reparation fund, deductions for fines, restitution, child and family support; and institutional costs that are used to help defray the cost of incarceration.

For the eighteen months ending December 31, 2000, a total of \$310,193 has been paid to inmates in the PIE program. From these earnings the following deductions have been made:

Victims Reparation:	\$ 20,249
Federal Income Tax:	\$ 30,532
State Income Tax	\$ 4,274
Fines, Child Support, Restitution:	\$ 18,883
Institutional Costs:	\$162,756

Institutional costs may appear to be excessive or out of line with other deductions, but one of the intents of the PIE program is to make the inmate contribute to their own cost of incarceration. The institutional costs are currently retained by RRI to help defray the cost of startup for the Jamestown operation. As with any new startup business, it often takes several years to become profitable and financially stable. Once this is achieved, our hope would be to use the deductions to help defray the cost of incarceration in the form of partial repayment for room and board. But for now, it makes sense to let the inmates who benefit from this program share in the responsibility of building the business.

In closing, I want to assure you that Rough Rider Industries will continue to work hard to provide as many inmate jobs as possible by working with the private sector, and to do so without using general fund dollars. Part of our success in working with the private sector can be attributed to opening our factories for public tours. I invite you, your spouses, friends and constituents to call us at any time for a personal tour of our operations. We would also be happy to present a 15-minute video presentation to any chamber group or civic club in your district. In the interim, I would appreciate your support for the appropriation request as presented to you in the budget.

**TESTIMONY ON SB2016
HOUSE APPROPRIATIONS COMMITTEE
HUMAN RESOURCES DIVISION
REPRESENTATIVE KEN SVEDJAN, CHAIRMAN**

**ROUGH RIDER INDUSTRIES
DENNIS FRACASSI, DIRECTOR
MARCH 5, 2001**

Rough Rider Industries represents 12% of the budget for Adult Services or \$10,849,840 (\$10,850,000). The funding source for this line item request is comprised entirely of special funds. All salaries, equipment, capital improvements and operating expense are funded through self-generated revenues from products and services we provide to eligible customers.

We currently have over 160 inmates working each day in the industry program. That's 160 bodies that are removed from an already congested cell house environment, who are trained, supervised and put to work at no cost to ND taxpayers. This gives the inmates an outlet to release energy and frustration and to provide for their own livelihood while incarcerated. Taking these inmates off the hands of prison security staff helps to maintain peace and order within the cell houses. The bottom line is that Rough Rider Industries plays a significant role in reducing inmate idleness that leads to unrest, and simultaneously saves state taxpayers several hundred thousand dollars each year that would otherwise be needed for additional staff and other forms of programming.

We are requesting an increase of \$3,222,616 for the RRI budget from the current biennium. Approximately 1.7 million is targeted for raw materials in anticipation of a new general issue of license plates. Some of the remaining 1.5 million will be used to cover additional labor and overhead for the general issue, but the majority of these dollars are targeted towards continued efforts to build relationships with the private sector.

While RRI provides a cost effective and invaluable service to the ND State Penitentiary and to many inmates who have taken advantage of our program, it's no secret that private sector businesses with whom we compete have not always accepted our presence in the marketplace. However, efforts to communicate on both the part of RRI and ND business have enabled us to find common ground to work together and significantly reduce business fears of losing private sector jobs to prison inmates. In fact, many businesses are starting to look to us as a potential source of labor rather than a competitive adversary. This is not to say that all ND businesses accept our presence or like what we do, but for those who have worked with us, they are finding that we can work together to achieve common goals. In the past two and a half years, RRI has done business with over 70 North Dakota private sector businesses, reaching sales of 1.7 million dollars and providing work for an additional 50 - 60 inmates.

The working arrangements that offer the greatest potential to achieve our goals in a non-threatening manner with the private sector are those under the auspice of the Prison Industry Enhancement Program (PIE) sponsored by the U.S. Bureau of Justice. We are currently working with 3 different private sector partners at our industry program in

Jamestown. The companies are Acceleration Products, Inc. and Global Electric Motors both of Fargo, and Soaring Eagle Outerwear of Minot. All three of these companies have needs for cut and sew products and they have all experienced frustration trying to find someone in North Dakota to provide for their needs. In this program inmates are paid minimum or local prevailing wages and agree to deductions of up to 80% of their gross earnings. These deductions include state and federal income taxes; a 5% deduction to a victims reparation fund, deductions for fines, restitution, child and family support; and institutional costs that are used to help defray the cost of incarceration.

For the eighteen months ending December 31, 2000, a total of \$310,193 has been paid to inmates in the PIE program. From these earnings the following deductions have been made:

Victims Reparation:	\$ 20,249
Federal Income Tax:	\$ 30,532
State Income Tax	\$ 4,274
Fines, Child Support, Restitution:	\$ 18,883
Institutional Costs:	\$162,756

Institutional costs may appear to be excessive or out of line with other deductions, but one of the intents of the PIE program is to make the inmate contribute to their own cost of incarceration. The institutional costs are currently retained by RRI to help defray the cost of startup for the Jamestown operation. As with any new startup business, it often takes several years to become profitable and financially stable. Once this is achieved, our hope

would be to use that deduction to help defray the cost of incarceration in the form of partial repayment for room and board. But for now, it makes sense to let the inmates who benefit from this program share in the responsibility of building the business.

Appropriation breakdown:

Revenues:	\$10,849,840	100% Special funds (generated from sale of products and services).
Salaries and Benefits:	\$2,978,140	These dollars represent our current workforce of 27 FTE's with 4 vacant FTE positions. It also includes a request for 3 new FTE's to ensure that staff are available if we are successful in attracting new private sector partners.
IT Expense:	\$ 123,366	This is what we anticipate our needs will be to maintain our cost-accounting software, telephones, access to the state Wide Area Network, payments for leased equipment, and computer upgrades.
Operational Expense:	\$7,285,334	The majority of this expense is for raw materials (\$5,800,000) or 53% of our entire budget. The balance is used for travel, training, utilities, insurance, repairs and maintenance and other such expense necessary to operate a business.
Equipment:	\$ 213,000	These dollars are targeted towards equipment replacement for existing machinery and additional health and safety equipment such as air filtration systems.
Capital Improvements:	\$ 250,000	No new construction is planned, however extraordinary repairs which are capitalized, are often necessary to maintain existing structures or retrofit buildings to accommodate new business.

SB 2012

SENATE BILL 2016
Department of Corrections and Rehabilitation Appropriation Request
Testimony on Prisons Division Funding
Senate Appropriation Committee 1/16/01
Tim Schuetzle, Prisons Division Director

The Prisons Division consists of the three secure facilities, the North Dakota State Penitentiary and Missouri River Correctional Center in Bismarck, and the James River Correctional Center in Jamestown. Our prison population has continued to increase throughout this biennium, and therefore the Executive Recommendation budget for the Prisons Division is \$57.7 million dollars for the 2001-2003 biennium.

I. 1999-2001 Biennium Highlights

The prison's division is experiencing a very successful biennium. We continue to meet our mission of protecting the public, and providing a safe environment for staff and inmates to work and live. There hasn't been an escape from any of our secure facilities, and the number of assaults on staff, or other inmates, continues to be one of the lowest in the nation. In October of 1999, inmate Kyle Bell escaped from a prisoner transport bus in New Mexico, but he was recaptured and is currently serving his sentence as a state transfer in the federal prison system. Unfortunately, in November of 1999 we did experience our first suicide in over ten years, but there were no other un-natural inmate deaths.

We are also meeting the second part of our mission, which is provide rehabilitative programs for the inmates so they can learn to be successful when released to society. We continue to emphasize addiction treatment, as about 80% of the people entering prison have a chemical addiction diagnosis. We were able to hire two new addiction counselors at JRCC, and now provide addiction therapy at all three facilities. We expanded our anger management therapy, and have implemented cognitive restructuring treatment at all three prisons. Due to this rehabilitative programming, our recidivism rate fell to 20% for 1999, again one of the best in the nation.

a. Current Population Levels

Our average daily population for December was 1,069 inmates, which meant we needed to place 180 inmates in county jails, the private prison in Appleton Minnesota, and through the Community Placement Program. The number of inmates housed outside the facility is higher than we projected, due to the fact that the 5th and 6th floor construction at the JRCC did not open in November of 2000 as we originally anticipated. The number of inmates in the system is somewhat below what our projected prison population would be, thanks in large part to the success of the alternative sentencing options like the Tompkins Rehabilitation and Corrections Unit, which has diverted many of the inmates with probation revocations from entering the prison system.

*Note
with
exception of
pages that
follow this is
same testimony given
to House on
3-6-01*

There was \$121,000 in our budget for security improvements to the JRCC, including running plumbing and electricity to cells in the High Security unit, and more cameras and fence electronics. We expanded the recreation yard in Jamestown. In addition, the parking lot and Entrance Building for the JRCC will be completed this spring, as will the fire suppression/sprinkling system in the JRCC gymnasium and High Security Unit.

e. Staffing and Salaries

It is becoming more difficult to attract and retain workers at the three facilities, particularly Correctional Officers, Addiction Counselors, Nurses, and Clerical staff. We are discovering that we are becoming a training ground for other correctional facilities in our region, and are losing many of our younger security staff to other states and even county correctional facilities in North Dakota because we cannot pay a comparable wage. It took 17 months of the biennium to fill three addiction counselor positions, and in order to attract people, it meant bringing them on board at a higher salary than what current staff, with years of dedicated service to the department, were making. In July of 2000, we increased the salaries of our existing nurses, clerical personnel, and addiction counselors to bring some equity with what more recent hires were making. We also increased the starting wages for new correctional officers with the hope of increasing our ability to attract more applicants.

II. 2001-2003 Biennial Budget

The 2001-2003 governor's budget for the Prisons Division includes a \$13.2 million increase over this biennium's funding. Capital projects increased by \$2.5 million over last biennium. The two main construction projects that are funded are a \$1.9 million food service/multi-purpose building at the Missouri River Correctional Center, and \$3.7 million for a new Women's Unit at the James River Correctional Center. There are two new program areas that add to this increase-the staffing and operations of this women's unit, and a new program for the seriously mentally ill. Finally, we have been given \$2.25 million in bond repayment money that used to be included in the Industrial Commission budget.

a. MRCC Food Service/ Multi-purpose Building (\$1.983 million)

Construction of a new kitchen and dining hall that can double as recreation and program space is our top priority for the next two years. This is the third biennium we have requested this building, and I believe most of you are familiar with the need to replace the present kitchen. It was constructed over 60 years ago to feed a population of 40 inmates, and lacks a fire suppression system. We also need more programming and indoor recreation space for the 150 inmates that now live there. A copy of the proposed floor plan is attached at the end of this document.

b. Women's Unit at the JRCC (3.7 million)

We have experienced problems trying to operate the women's unit floor inside the mostly male, medium security prison at Jamestown. Concerns for the women's safety, and the need to keep the sexes separated has meant we have had to split the time available for the use of the programming areas (gymnasium, library, yard) between the two sexes. This means that neither group has as much access to these areas as the inmates in the penitentiary. Of greater concern though, was the under-utilization of bed space on the women's floor. We have averaged 47 women living on a floor designed to house 80 people. This means that 33 beds have been left open at a time when we are paying to house over 130 males in county jails and private prisons. It became clear that we needed to correct this inefficient use of state resources, as well as find a solution to being able to provide more programming for the JRCC inmates. Our solution is to construct a new Women's Unit outside the current fence line at the JRCC, and make it for both medium and minimum security women. This means we can house the 14 women from the MRCC at this new facility, returning those beds back to being used for male inmates. This will raise our average count of females in Jamestown to 61 women.

We had originally requested money to renovate the 35,000 square foot "employee apartment building", an existing building adjacent to the JRCC fence, to be used as a separate women's unit for the Prisons Division. The cost for this renovation was estimated at 2 million dollars, but the plan had some major drawbacks. The building's roof and walls leak, and it is not energy efficient. The windows all need replacing, which was not part of the planned renovation, and the "hotel-like" design did not lend itself to good visibility into the living units—a must in a correctional setting. The building was more than large enough, with space on the 4 floors to at least house two, and in some cases 3 people per room, or up to 126 inmates. The building design, however, would have been very staff intensive to operate and provide adequate supervision.

Because of these drawbacks, we requested a new building as an alternate in our budget. We estimated that the new windows, which we had originally planned to request in the 2003-2005 biennium, would cost \$300,000. Utility costs to heat the apartment building were estimated at an additional \$75,000 a biennium, and we also determined that a new building, with proper visibility and lines of sight, would enable us to reduce our staffing request by 5 officers. This would produce a biennial savings of \$375,000 in our costs to operate the building, and when we include the cost to replace the windows, it means the \$1.7 million additional up front expense of the proposed new building would pay for itself in less than 8 years.

The \$3.7 million dollar, 20,000 square foot building would be partially funded with \$1.4 million federal dollars from the crime bill money, and will house 75 women. We expect construction to be completed in November of 2002, and therefore are asking for salaries and operating expenses of \$1,031,457 for only the last 9 months of the biennium. Staffing for this new unit is 22.5 positions. These include 15 Correctional Officer II's (3 per shift), 3 Caseworkers, 1 Case Manager, 1 Unit Manager, 1 Office Assistant, 1 LD instructor, and a half-time nurse to hold sick call in the unit each day. A proposed floor plan for this unit is attached after the last page of this testimony.

housed over the following 24 months. We have estimated a growth of 7 inmates per month throughout the biennium. The Executive Recommendation continues funding to the Division of Field Service's programs at the Tompkins Rehabilitation and Corrections Unit, and proposes funding for the Drug Court, Pre Release Center, and the DUI program at the State Hospital. There is \$1,812,491 in our base budget to house inmates outside our system, and by using these population projections, we will need another \$639,784 to pay for bed spaces during these two years, making the total \$2,452,275 for external housing.

e. Increased Medical Expenses (\$808,480)

As previously noted, we will be about \$590,000 deficient with our medical expenses this biennium. We are requesting an additional \$808,480 for the next biennium to cover known increases in our medical contract with Med Center One, increased pharmaceutical costs, increases to the number of inmates in our system, and increases in professional service contracts, particularly with dental services.

f. Correctional Officers Starting Salaries (\$222,528)

We needed to raise the starting pay level for correctional officers in order to attract qualified candidates. Historically, new hires came into our system as temporary employees, at a starting wage of \$1350/month, with no state benefits. After three to six months on the job, they would promote to a Correctional Officer I position, which had become available through the normal attrition of staff. At this point they would begin receiving state benefits, and would receive a salary of \$1530/month. After a one-year apprenticeship, they became a Correctional Officer II, with a salary of \$1830/month.

To compete with other correctional employers, we need to raise the starting pay for these new temporary employees from \$1350 to \$1600 per month, especially considering that they won't earn state benefits until they can slide into an authorized FTE. This then increases the Correctional Officer I salary from \$1530 to \$1750/month, and the CO II salary from \$1830 to \$1900/month. We project that we will hire 40 new correctional officers during the next biennium, and have analyzed that we will need \$222,528 to cover these salary increases over the next two years.

g. Additional Positions, Capital Improvements, and Equipment

Along with the new positions for the Women's Unit, and the SMI Unit, the governor's budget includes 3.5 FTE's for the Penitentiary. These include two CO II's, one for our orientation unit and another for a second daytime driver for hospital and clinic runs. There is one full time clerical position for our infirmary, and a ½ time Store Clerk for the Prison's Division warehouse.

The Executive Recommendation includes \$403,000 for improvements to the NDSP parking lot, \$531,230 for extraordinary repairs and \$439,688 for equipment purchases for the next two years.

**Missouri Department of Corrections and Rehabilitation Budget
Prison's Division Request
Testimony to Full House Appropriation Committee
March 1, 2001**

The 2001-2003 governor's budget for the Prisons Division includes a \$13.2 million increase over this biennium's funding. Capital projects increased by \$2.5 million over last biennium. The two main construction projects that are funded are a \$1.9 million food service/multi-purpose building at the Missouri River Correctional Center, and \$3.7 million for a new Women's Unit at the James River Correctional Center. There are two new program areas that add to this increase-the staffing and operations of the proposed women's unit, and a new program for the seriously mentally ill. Finally, our budget now includes \$2.25 million in bond repayment money that was previously part of the Industrial Commission budget.

a. MRCC Food Service/ Multi-purpose Building (\$1.983 million)

Construction of a new kitchen and dining hall that can double as recreation and program space is our top priority for the next two years. This is the third biennium we have requested this building, and I believe most of you are familiar with the need to replace the present kitchen. It was constructed over 60 years ago to feed a population of 40 inmates, and lacks a fire suppression system. Prison standards require we provide adequate indoor recreation space for the 150 inmates that now live there, plus we need more space for the treatment groups and education classes that are a vital part of the inmate's rehabilitation. A copy of the proposed floor plan is attached at the end of this document.

b. Women's Unit at the JRCC (3.7 million)

We have experienced problems trying to operate the women's unit floor inside the mostly male, medium security prison at Jamestown. Concerns for the women's safety, and the need to keep the sexes separated has meant we have had to split the time available for the use of the programming areas (gymnasium, library, yard) between the two sexes. This means that neither group has as much access to these areas as the inmates in the penitentiary. Of greater concern though, was the under-utilization of bed space on the women's floor. We have averaged 47 women living on a floor designed to house 80 people. This means that 33 beds have been left open at a time when we are paying to house over 130 males in county jails and private prisons. It became clear that we needed to correct this inefficient use of state resources, as well as find a solution to being able to provide more programming for the JRCC inmates. Our solution is to construct a new Women's Unit outside the current fence line at the JRCC, and make it for both medium and minimum security women. This means we can house the 14 women from the MRCC at this new facility, returning those beds back to being used for male inmates. This will raise our average count of females in Jamestown to 61 women.

We had originally requested money to renovate the 35,000 square foot "employee apartment building", an existing building adjacent to the JRCC fence, to be used as a separate women's unit for the Prisons Division. The cost for this renovation was estimated at 2.656 million dollars, but the plan had some major drawbacks. The building's roof and walls leak, and it is not energy efficient. The windows all need replacing and the "hotel-like" design did not lend itself to good visibility into the living units-a must in a correctional setting. The building is more than large enough, with space on the 4 floors to at least house two, and in some cases 3 people per room, or up to 126 inmates. However, the building design, with five total floors, and no visibility into the cells, would be very staff intensive to operate and provide adequate supervision.

Because of these drawbacks, we explored construction of a new building, and included this option as an alternate in our budget. A drawing of the new building is included at the end of this testimony, and would cost \$1,084,000 dollars more than renovation of the old building, but would be more staff and energy efficient to operate. Most of the building would be constructed on one level, with only the cell area split into two levels. This design provides much greater visibility and better lines of sight, meaning that we could reduce the number of officers needed to supervise the inmates from four per shift, to three per shift, a total decrease of 5 FTE's. The new building would also be more energy efficient than renovating the apartment building. Annual savings from the utilities (\$33,200), and the need for less staff (\$163,275) means that the payback on funding the new building rather than renovation would be 5.42 years.

The \$3.7 million dollar, 20,000 square foot building would be partially funded with \$1.4 million federal dollars from the crime bill money, and will house 75 women. We expect construction to be completed in November of 2002, and therefore are asking for salaries and operating expenses of \$1,031,457 for only the last 9 months of the biennium. Staffing for this new unit is 22.5 positions. These include 15 Correctional Officer II's (3 per shift), 3 Caseworkers, 1 Case Manager, 1 Unit Manager, 1 Office Assistant, 1 LD Instructor, and a half-time nurse to hold sick call in the unit each day.

c. Seriously Mentally Ill (SMI) Unit (\$2.349 million)

Our third priority for this biennium is to hire staff specifically trained to work with the mentally ill inmates that are inundating our prison system. We have over 300 inmates in our system that have an Axis I (DSM-IV) diagnosis, and/or are on some type of psychotropic medication. Our employees often function like mental health workers rather than correctional officers. Appropriate mental health care is a constitutional right, and while I believe we have a very caring staff that treats inmates humanely, we need additional staff who are properly trained to deal with the special needs these people have. Many mentally ill offenders are management problems in general population. They are unpredictable and violent towards themselves and others, and often their aberrant behavior makes them vulnerable to attacks by other inmates. We need to ensure adequate treatment for the mentally ill offenders.

To do this, we plan to convert the High Security Unit at the JRCC into an "SMI Unit". We project this 24 bed mini-unit will be able to treat and stabilize inmates when they are in crisis, usually occurring when they are refusing to take the medications prescribed by the contract psychiatrists. The vast majority of the 300+ inmates on psychotropic medication

take their medications regularly, and successfully control their mental illnesses. However, at any given time, we will have 8 to 10 inmates that are in a crisis stage, and another 10 to 15 inmates that are transitioning back into medication compliance that still require special monitoring. These inmates in crisis are extremely staff intensive, because they can be suicidal, self-destructive, assaultive, and destructive of state property. We presently try to control them in our observation units, or segregation areas, but we don't have enough space and human resources to treat them effectively.

The Executive Recommendation includes \$123,000 to remodel parts of the High Security unit (the old forensic unit building). Remodeling will include changing the wooden doors to steel security doors, adding a smoke detector system, more security cameras, and the construction a suicide watch cell. Staffing for this unit will require 28 new positions. Since this will be an intensive treatment unit for a population of inmates at risk for violent and destructive behavior, we are requesting one psychologist, who will manage the unit and develop treatment plans for the inmates. A total of 19 more officers will be needed, to staff the unit with 5 officers per shift during the day shifts, 2 officers at night, and a shift relief factor. These officers will provide security for inmate movement to and from their programming, and assist the treatment staff with the inmate behavioral plan. There will be 3 nurses, and 3 social workers, one for each of the three, day shifts. We will also hire a pharmacist, and an office assistant for clerical functions in the unit. We will contract with the State Hospital for psychiatric services, a half-time Occupational Therapist, and a half-time Recreational Therapist. By establishing this unit we will be able to provide a safer, more humane environment for both staff and inmates.

d. External Housing of Inmates (\$639,784)

Despite our requests for new construction, and alternative sentencing measures implemented by the Division of Field Services, we will still need to house many of our state inmates at North Dakota county jails, and the private prison. We project we will have 1118 inmates on July 1, 2001. The Office of Management and Budget Analyst has compiled a spreadsheet (attached) that illustrates how and where these inmates will be housed over the following 24 months. We have estimated a growth of 7 inmates per month throughout the biennium. The Executive Recommendation continues funding to the Division of Field Service's programs at the Tompkins Rehabilitation and Corrections Unit, and proposes funding for the Drug Court, Pre Release Center, and the DUI program at the State Hospital. There is \$1,812,491 in our base budget to house inmates outside our system, and by using these population projections, we will need another \$639,784 to pay for bed spaces during these two years, making the total \$2,452,275 for external housing.

e. Increased Medical Expenses (\$808,480)

We are currently about \$590,000 deficient in our medical-related line items, and this causes us concerns that we will have enough funding remaining to finish this biennium on budget. One of the reasons for the shortfall in medical costs include a \$312,000 shortage over what was projected for inmate hospitalization, caused in part by a three-month hospital stay for an inmate that generated a \$150,000 hospital bill. There was also a \$205,000 increase in our pharmaceutical costs, and \$73,000 increase in dental

services. We are requesting an additional \$808,480 for the next biennium to cover known increases in our medical contract with Med Center One, increased pharmaceutical costs, increases to the number of inmates in our system, and increases in professional service contracts, particularly with dental services.

f. Correctional Officers Starting Salaries (\$222,528)

It is becoming more difficult to attract and retain workers at the three facilities, particularly Correctional Officers, Addiction Counselors, Nurses, and Clerical staff. We are discovering that we are becoming a training ground for other correctional facilities in our region, and are losing many of our younger security staff to other states and even county correctional facilities in North Dakota because we cannot pay a comparable wage.

We need to raise the starting pay level for correctional officers in order to attract qualified candidates. Historically, new hires came into our system as temporary employees, at a starting wage of \$1350/month, with no state benefits. After three to six months on the job, they would promote to a Correctional Officer I position, which had become available through the normal attrition of staff. At this point they would begin receiving state benefits, and would receive a salary of \$1530/month. After a one-year apprenticeship, they became a Correctional Officer II, with a salary of \$1830/month.

To compete with other correctional employers, we need to raise the starting pay for these new temporary employees from \$1350 to \$1600 per month, especially considering that they won't earn state benefits until they can slide into an authorized FTE. This then increases the Correctional Officer I salary from \$1530 to \$1750/month, and the CO II salary from \$1830 to \$1900/month. We project that we will hire 40 new correctional officers during the next biennium, and have analyzed that we will need \$222,528 to cover these salary increases over the next two years.

g. Additional Positions, Capital Improvements, and Equipment

Along with the new positions for the Women's Unit, and the SMI Unit, the governor's budget includes 3.5 FTE's for the Penitentiary. These include two CO II's, one for our orientation unit and another for a second daytime driver for hospital and clinic runs. There is one full time clerical position for our infirmary, and a ½ time Store Clerk for the Prison's Division warehouse.

The Executive Recommendation includes \$403,000 for improvements to the NDSP parking lot, \$531,230 for extraordinary repairs and \$439,688 for equipment purchases for the next two years. The parking lot is especially important due to safety concerns for the staff and inmate visitors, who currently must walk in the roadway to gain access to the facility. The present lot has 111 spaces for vehicles, but on any given day there are 125 vehicles parked in the lot and along the adjacent roadway, old Highway 10. The proposed lot would maximize the space available to provide 162 parking spaces, include pedestrian walkways, ADA improvements, and improve the lighting in the area.

SENATE BILL 2016
Department of Corrections and Rehabilitation Appropriation Request
Testimony on Prisons Division Funding
House Appropriation, Human Resources Sub-committee 3/5/01
Tim Schuetzle, Prisons Division Director

The Prisons Division consists of the three secure facilities, the North Dakota State Penitentiary and Missouri River Correctional Center in Bismarck, and the James River Correctional Center in Jamestown. Our prison population has continued to increase throughout this biennium, and therefore the Executive Recommendation budget for the Prisons Division is \$57.7 million dollars for the 2001-2003 biennium.

I. 1999-2001 Biennium Highlights

The prison's division is experiencing a very successful biennium. We continue to meet our mission of protecting the public, and providing a safe environment for staff and inmates to work and live. There hasn't been an escape from any of our secure facilities, and the number of assaults on staff, or other inmates, continues to be one of the lowest in the nation. In October of 1999, inmate Kyle Bell escaped from a prisoner transport bus in New Mexico, but he was recaptured and is currently serving his sentence as a state transfer in the federal prison system. Unfortunately, in November of 1999 we did experience our first suicide in over ten years, but there were no other un-natural inmate deaths.

We are also meeting the second part of our mission, which is provide rehabilitative programs for the inmates so they can learn to be successful when released to society. We continue to emphasize addiction treatment, as about 80% of the people entering prison have a chemical addiction diagnosis. We were able to hire two new addiction counselors at JRCC, and now provide addiction therapy at all three facilities. We expanded our anger management therapy, and have implemented cognitive restructuring treatment at all three prisons. Due to this rehabilitative programming, our recidivism rate fell to 20% for 1999, again one of the best in the nation.

a. Current Population Levels

Our average daily population for December was 1,069 inmates, which meant we needed to place 180 inmates in county jails, the private prison in Appleton Minnesota, and through the Community Placement Program. The number of inmates housed outside the facility is higher than we projected, due to the fact that the 5th and 6th floor construction at the JRCC did not open in November of 2000 as we originally anticipated. The number of inmates in the system is somewhat below what our projected prison population would be, thanks in large part to the success of the alternative sentencing options like the Tompkins Rehabilitation and Corrections Unit, which has diverted many of the inmates with probation, revocations from entering the prison system.

b. Current Budget Forecast

We are currently about \$590,000 deficient in our medical-related line items, and this causes us concerns that we will have enough funding remaining to finish this biennium on budget. Some of the causes for the shortfall in medical costs include a \$312,000 shortage over what was projected for inmate hospitalization, caused in part by a three-month hospital stay for an inmate that generated a \$150,000 hospital bill. There was also a \$205,000 increase in our pharmaceutical costs, and \$73,000 increase in dental services. We are hopeful that we will be able to recover some of this debt through savings generated in other line items, but there are still areas beyond our control that may jeopardize our ability to recover all of the deficiency. Utility expenses for heat and power for our 3 physical plants could be a problem. We currently have adequate funding thanks to last year's relatively mild winter, but the rates have increased, and we don't know what the weather will be like in the months ahead. Another potential problem area will be if we receive more inmates into the system than projected over the next 6 months. If our population exceeds our projections, we will need more money to rent bedspace outside the system. We are carefully watching all of our expenditures, and will be able to give a more accurate update when we present our budget request to the House Appropriation Committee in 6 to 8 weeks.

c. Delay in 5th and 6th floor construction

There were some unexpected changes to our plan for the past two years, most notably the time delay by the federal government in providing funding from the crime bill. We did not receive the crime bill money in October of 1999 as anticipated, in fact, it wasn't until September of 2000 before the funds became available. This pushed back our beginning construction date for remodeling the 5th and 6th floors almost one year, and meant that we were not able to open those floors in November of 2000 as projected in our budget. Because we don't have the additional 110 beds, we were forced to contract more bed space, and for a longer period of time than we had originally planned. We are paying for these contracted beds with the salary and operating expenses intended to open and operate the 5th and 6th floors at JRCC, but since contracted bed space is more expensive than managing the prisoners in our own system, we may be over budget in this area. The renovation at the JRCC is now underway, and we expect to have those 110 beds on the top two floors available by June 30, 2001.

d. Capital Construction during 1999-2001

Thanks to money for two capital projects you approved last session, our facility is a safer, more secure place. We received \$198,000 to construct a fence around the north - *Building A* side of the facility. This project was the final step to completely enclose the state penitentiary with a double fence, and was completed in August of 1999. We also received \$ 245,000 to renovate the first floor west side of the West Cell House, making it into 20 fully enclosed cells for Administrative Segregation. Our AS unit now stands at 40 beds, giving us the flexibility to segregate those unruly, predatory inmates from the rest of the population. This renovation was completed in January of 2000.

There was \$121,000 in our budget for security improvements to the JRCC, including running plumbing and electricity to cells in the High Security unit, and more cameras and fence electronics. We expanded the recreation yard in Jamestown. In addition, the parking lot and Entrance Building for the JRCC will be completed this spring, as will the fire suppression/sprinkling system in the JRCC gymnasium and High Security Unit.

e. Staffing and Salaries

It is becoming more difficult to attract and retain workers at the three facilities, particularly Correctional Officers, Addiction Counselors, Nurses, and Clerical staff. We are discovering that we are becoming a training ground for other correctional facilities in our region, and are losing many of our younger security staff to other states and even county correctional facilities in North Dakota because we cannot pay a comparable wage. It took 17 months of the biennium to fill three addiction counselor positions, and in order to attract people, it meant bringing them on board at a higher salary than what current staff, with years of dedicated service to the department, were making. In July of 2000, we increased the salaries of our existing nurses, clerical personnel, and addiction counselors to bring some equity with what more recent hires were making. We also increased the starting wages for new correctional officers with the hope of increasing our ability to attract more applicants.

II. 2001-2003 Biennial Budget

The 2001-2003 governor's budget for the Prisons Division includes a \$13.2 million increase over this biennium's funding. Capital projects increased by \$2.5 million over last biennium. The two main construction projects that are funded are a \$1.9 million food service/multi-purpose building at the Missouri River Correctional Center, and \$3.7 million for a new Women's Unit at the James River Correctional Center. There are two new program areas that add to this increase—the staffing and operations of this women's unit, and a new program for the seriously mentally ill. Finally, our budget now includes \$2.25 million in bond repayment money that was previously part of the Industrial Commission budget.

a. MRCC Food Service/ Multi-purpose Building (\$1.983 million)

Construction of a new kitchen and dining hall that can double as recreation and program space is our top priority for the next two years. This is the third biennium we have requested this building, and I believe most of you are familiar with the need to replace the present kitchen. It was constructed over 60 years ago to feed a population of 40 inmates, and lacks a fire suppression system. Prison standards require we provide adequate indoor recreation space for the 150 inmates that live there now, plus we need more space for the treatment groups and education classes that are a vital part of the inmate's rehabilitation. A copy of the proposed floor plan is attached at the end of this document.

b. Women's Unit at the JRCC (3.7 million)

We have experienced problems trying to operate the women's unit floor inside the mostly male, medium security prison at Jamestown. Concerns for the women's safety, and the need to keep the sexes separated has meant we have had to split the time available for the use of the programming areas (gymnasium, library, yard) between the two sexes. This means that neither group has as much access to these areas as the inmates in the penitentiary. Of greater concern though, was the under-utilization of bed space on the women's floor. We have averaged 47 women living on a floor designed to house 80 people. This means that 33 beds have been left open at a time when we are paying to house over 130 males in county jails and private prisons. It became clear that we needed to correct this inefficient use of state resources, as well as find a solution to being able to provide more programming for the JRCC inmates. Our solution is to construct a new Women's Unit outside the current fence line at the JRCC, and make it for both medium and minimum security women. This means we can house the 14 women from the MRCC at this new facility, returning those beds back to being used for male inmates. This will raise our average count of females in Jamestown to 61 women.

We had originally requested money to renovate the 35,000 square foot "employee apartment building", an existing building adjacent to the JRCC fence, to be used as a separate women's unit for the Prisons Division. The cost for this renovation was estimated at 2.656 million dollars, but the plan had some major drawbacks. The building's roof and walls leak, and it is not energy efficient. The windows all need replacing and the "hotel-like" design did not lend itself to good visibility into the living units—a must in a correctional setting. The building was more than large enough, with space on the 4 floors to at least house two, and in some cases 3 people per room, or up to 126 inmates. However, the building design, with 5 total floors and no visibility into the cells would be very staff intensive to operate and provide adequate supervision.

Because of these drawbacks, we explored construction of a new building, and included this option as an alternate in our budget. A drawing of the new building is included at the end of this testimony, and would cost \$1,064,000 dollars more than renovation of the old building, but would be more staff and energy efficient to operate. Most of the building would be constructed on one level, with only the cell area split into two levels. This design provides much greater visibility and better lines of sight, meaning the we could reduce the number of officers needed to supervise the inmates from four per shift, to three per shift, a total decrease of 5 FTE's. The new building would also be more energy efficient than renovating the apartment building. Annual savings from the utilities (\$33, 200), and the need for less staff (\$163, 275) means that the payback on funding the new building rather than renovation would be 5.42 years.

The \$3.7 million dollar, 20,000 square foot building would be partially funded with \$1.4 million federal dollars from the crime bill money, and will house 75 women. We expect construction to be completed in November of 2002, and therefore are asking for salaries and operating expenses of \$1,031,457 for only the last 9 months of the biennium. Staffing for this new unit is 22.5 positions. These include 15 Correctional Officer II's (3 per shift), 3 Caseworkers, 1 Case Manager, 1 Unit Manager, 1 Office Assistant, 1 LD instructor, and a half-time nurse to hold sick call in the unit each day.

c. Seriously Mentally Ill (SMI) Unit (\$2.349 million)

Our third priority for this biennium is to hire staff specifically trained to work with the mentally ill inmates that are inundating our prison system. We have over 300 inmates in our system that have an Axis I (DSM-IV) diagnosis, and/or are on some type of psychotropic medication. Our staff often feel more like mental health workers than correctional officers. Appropriate mental health care is a constitutional right, and while I believe we have a very caring staff that treats inmates humanely, we need additional staff who are properly trained to deal with the special needs these people have. Many mentally ill offenders are management problems in general population. They are unpredictable and violent towards themselves and others, and often their aberrant behavior makes them vulnerable to attacks by other inmates. We need to ensure adequate treatment for the mentally ill offenders.

To do this, we plan to convert the High Security Unit at the JRCC into an "SMI Unit". We project this 24 bed mini-unit will be able to treat and stabilize inmates when they are in crisis, usually occurring when they are refusing to take their medications. The vast majority of the 330 inmates on psychotropic medication take their medications regularly, and successfully control their mental illnesses. However, at any given time, we will have 8 to 10 inmates that are in a crisis stage, and another 10 to 15 inmates that are transitioning back into medication compliance who still require special monitoring. These inmates in crisis are extremely staff intensive, because they can be suicidal, self-destructive, assaultive, and destructive of state property. We presently try to control them in our observation units, or segregation areas, but we don't have enough space and resources to treat them effectively.

The Executive Recommendation includes \$123,000 to remodel parts of the High Security unit (the old forensic unit building). Remodeling will include changing the wooden doors to steel security doors, adding a smoke detector system, more security cameras, and to construct a suicide watch cell. Staffing for this unit will require 28 new positions. Since this will be an intensive treatment unit for a population of inmates at risk for violent and destructive behavior, we are requesting one psychologist, who will manage the unit and develop treatment plans for the inmates. A total of 19 more officers will be needed, to staff the unit with 5 officers per shift during the day shifts, 2 officers at night, and a shift relief factor. These officers will provide security for inmate movement to and from their programming, and assist the treatment staff with the inmate behavioral plan. There will be 3 nurses, and 3 social workers, one for each of the three, day shifts. We will also hire a pharmacist, and an office assistant for clerical functions in the unit. The State Hospital will provide a contract psychiatrist, a half-time Occupational Therapist, and a half-time Recreational Therapist. By establishing this unit we will be able to provide a safer, more humane environment for both staff and inmates.

d. External Housing of Inmates (\$639,784)

Despite our requests for new construction, and alternative sentencing measures implemented by the Division of Field Services, we will still need to house many of our state inmates at North Dakota county jails, and the private prison. We project we will have 1118 inmates on July 1, 2001. The Office of Management and Budget Analyst has compiled a spreadsheet (attached) that illustrates how and where these inmates will be

housed over the following 24 months. We have estimated a growth of 7 inmates per month throughout the biennium. The Executive Recommendation continues funding to the Division of Field Service's programs at the Tompkins Rehabilitation and Corrections Unit, and proposes funding for the Drug Court, Pre Release Center, and the DUI program at the State Hospital. There is \$1,812,491 in our base budget to house inmates outside our system, and by using these population projections, we will need another \$639,784 to pay for bed spaces during these two years, making the total \$2,452,275 for external housing.

e. Increased Medical Expenses (\$808,480)

As previously noted, we will be about \$590,000 deficient with our medical expenses this biennium. We are requesting an additional \$808,480 for the next biennium to cover known increases in our medical contract with Med Center One, increased pharmaceutical costs, increases to the number of inmates in our system, and increases in professional service contracts, particularly with dental services.

f. Correctional Officers Starting Salaries (\$222,528)

We need to raise the starting pay level for correctional officers in order to attract qualified candidates. Historically, new hires came into our system as temporary employees, at a starting wage of \$1350/month, with no state benefits. After three to six months on the job, they would promote to a Correctional Officer I position, which had become available through the normal attrition of staff. At this point they would begin receiving state benefits, and would receive a salary of \$1530/month. After a one-year apprenticeship, they became a Correctional Officer II, with a salary of \$1830/month.

To compete with other correctional employers, we need to raise the starting pay for these new temporary employees from \$1350 to \$1600 per month, especially considering that they won't earn state benefits until they can slide into an authorized FTE. This then increases the Correctional Officer I salary from \$1530 to \$1750/month, and the CO II salary from \$1830 to \$1900/month. We project that we will hire 40 new correctional officers during the next biennium, and have analyzed that we will need \$222,528 to cover these salary increases over the next two years.

g. Additional Positions, Capital Improvements, and Equipment

Along with the new positions for the Women's Unit, and the SMI Unit, the governor's budget includes 3.5 FTE's for the Penitentiary. These include two CO II's, one for our orientation unit and another for a second daytime driver for hospital and clinic runs. There is one full time clerical position for our infirmary, and a 1/2 time Store Clerk for the Prison's Division warehouse.

The Executive Recommendation includes \$403,000 for improvements to the NDSP parking lot, \$531,230 for extraordinary repairs and \$439,688 for equipment purchases for the next two years. The parking lot is especially important due to safety concerns for the staff and inmate visitors, who currently must walk in the roadway to gain access to

the facility. The present lot has 111 spaces for vehicles, but on any given day there are 125 vehicles parked in the lot and along the adjacent roadway, old Highway 10. The proposed lot would maximize the space available to provide 162 parking spaces, include pedestrian walkways, ADA improvements, and improve the lighting in the area.

III. Future Concerns

a. More Space Needs due to Growth at JRCC

By the start of the 2003-2005 biennium, the James River Correctional Center will have 400 permanent and 58 temporary cells – roughly the same size as the State Penitentiary was 10 years ago. Yet we will still be operating with the same size kitchen, program space, and visiting room that are overcrowded today with 200 inmates. We will need more food preparation, visiting, and programming space for these inmates, and must explore possible options for additional space in the next biennium.

b. More Staff for the Prison's Division

The Governor's budget includes 54 new positions out the 96.25 that we requested for the Prison Division. These are much appreciated. Employee needs for future biennia exist in the clerical, nursing, and plant maintenance fields. With the projected growth to the physical plant at JRCC, more than the 1 maintenance person currently on staff will be needed. A Training Position is also needed at JRCC, as we will need to provide 120 hours of pre-employment training for the 70 new positions scheduled to be hired over the next two years, and then provide 40 hours of annual training to the 167 employees every year after that. There are still no vocational instructors at the Jamestown facility, and as the population there grows, we will need this type of educational programming for inmate rehabilitation.

c. Staff Retention and Salaries

I am concerned about our ability to retain trained, long-term employees at both the penitentiary, and at JRCC. Last year our turnover rate at NDSP more than doubled to 14% and JRCC had a turnover rate of 28%. In exit interviews with these staff, many are leaving because of pay and pay equity issues. As previously discussed, we have money in the budget to raise the starting pay for officers to be competitive with other agencies, but we don't have money to increase the salaries of those employees with 3 or more years experience. This has caused pay compression problems at the bottom range of the scale.

Of greater concern are pay equity issues at the penitentiary. Central Personnel uses a mathematical formula called the "C ratio" to illustrate how far into a pay range an employee has moved compared to the employees length of service. In 1999, the average C ratio for all state employees was .96 (with a 1.00 being at the middle of the pay range), with an average of 11.5 years of service. That same year, the average C ratio for Penitentiary employees was .90, with an average of 10.5 years of service. We believe the low pay for Penitentiary employees is effecting our turnover rate. Of the 68 penitentiary employees with more than 15 years of experience, 33 of them are not even

to the midpoint of their pay range. We hope that in the next few years this pay inequity issue will be addressed so that we can retain these long-term, well-trained employees.

d. Biomass Energy Grant

The Penitentiary applied for a federal grant to conduct an energy study where we combine "biomass" (wood chips and other wood products) from the Bismarck City landfill with coal in our coal-fired boiler. The idea behind the study is to save on heating fuel costs, and decrease the amount of usable fuel taking up space in the landfill. The study also suggests that we operate our boiler year round, at maximum capacity to produce more steam, which can then be converted into electricity for use at the prison and sold back to the local electric utility. The grant was for \$168,000 to complete a pilot study this winter, but we also have grant authority for another \$1.8 million to implement the project on a larger scale should the pilot study demonstrate this idea is economically feasible. The larger project would mean jobs creation for inmates, who would be needed to convert wood products into wood chips to be burned in the boiler. The study being conducted will include cost projections for the equipment, building, and staff needed to implement this on a larger scale, and will include a time estimate of when we could recoup our investment. We estimate that the equipment and building would run around 2.3 million, and that this project may take 6 more Boiler Operators. This means there will be a need for additional general funds, but we would only request to proceed if it appeared the state would save money even with the general fund investment. We are proud to have been chosen as the pilot site for this project, and are encouraged that we may be able to reduce the utility expense burden for the state taxpayers.

¹ "Gross population" is the estimated population before adjustments for alternatives, as presented to the 1999 Legislative Assembly.

² Includes beds saved through the following alternative programs—last chance program, jailed parole violators, house arrest, halfway house placements, three-day parole hold, day reporting, and DOCR rooms. The total number of inmates included in columns B, E, and F is the total "adjustment for alternatives," as presented to the 1999 Legislative Assembly by the DOCR.

³ The department indicated that to effectively manage the inmate population, a minimum of 15 inmate beds are needed each month at county jails. Consequently, the department's budget included funding to contract for at least 15 inmate beds each month.

COUNTY CORRECTIONAL FACILITIES HOUSING STATE INMATES - RATES AND BEDS AVAILABLE

The Department of Corrections and Rehabilitation contracts with various county and regional correctional facilities in this state to house state inmates. The local facilities shown on the following table have a current contract to house state inmates at times requested by the department, within the limits of available space at each facility. The following table shows for each facility the current daily contract rate and the number of beds available, as well as each facility's estimate of the requested daily rate and number of beds available for the 2001-03 biennium:

Facility	Average Number of Beds Available for the 1999-2001 Biennium	Current Daily Contract Rate for the 1999-2001 Biennium	Estimated Number of Beds Available for the 2001-03 Biennium	Estimated Daily Rate to Be Requested From the State for the 2001-03 Biennium
Barnes County	10	\$45	10	\$45
Bottineau County	2-3	\$40	2-3	Anticipate increase
Burleigh County	0	\$45	0	Unsure
Grand Forks County	3-5	\$55	3-5	\$60
Lake Region	10-12	\$45	12 or more	\$45
Morton County ¹	0	\$45	0	N/A
Pierce County	2	\$35	2	Anticipate increase
Richland County	2-4	\$45	2-4	\$45
Rolette County	4	\$35	4	\$35
Stark County	12-15	\$45	12-15	\$45
Stutsman County	10-15	\$45	10-15	\$45
Traill County	7-11	\$35	7-11	\$35
Walsh County	3-4	\$40	3-4	\$40
Ward County	5-6	\$45	5-6	Unsure
Williams County	2	\$45	2	\$45
Total	72-93		74-93	

¹ The jail administrator indicated that the county does not plan to accept state inmates because the contract rate is not adequate and the facility has limited space.

JOB DESCRIPTION
ADMINISTRATIVE ASSISTANT I
JUNE 2000

RESPONSIBILITY:

A. Receptionist Duties:

1. Greet offenders and other people coming into the office. Direct them to the proper officer or handle situation personally.
2. Respond to offender's daily questions regarding their supervision status and conditions of probation or parole.
3. Answer telephone and direct calls to proper officer. Attempt to assist the caller in the absence of the officer. Direct the calling party to the appropriate agency or official if our office is unable to assist the caller.
4. Maintain appointment schedule for the officers.
5. Type correspondence for the officers (forms, memos, letters). Compose letters or memos on the officer's behalf.
6. Responsible for processing incoming and outgoing mail. Pickup incoming mail at the post office, open and stamp with date received, distribute to proper officer or process personally. Prepare and post outgoing mail and deliver to post office.
7. Create and revise forms as needed.

B. Computer Data Entry:

1. Review all legal documents for accuracy on information being data entered.
2. Responsible for all data entry from the offender files for the district office.
3. Submit requests for record checks on new offenders.
4. Updates are received from central office in Bismarck on a weekly basis and uploaded onto district computer.
5. Print jail list daily from computer.

C. Assist Officer with Supervision of Offenders:

1. Monitor monthly contact sheets, send reminder notices monthly to offenders not reporting as required.
2. Photograph new offenders in absence of officer.
3. Issue travel permits to offenders using discretion in the absence of officer.
4. Fingerprint new offenders, compile and type necessary information on fingerprint card, and submit to central office in Bismarck for further processing.
5. Collect urine samples from female offenders, when necessary.

6. Monitor court-ordered financial obligations by verifying balance with clerk of court. This is done on a needed or requested basis.
7. Assist in maintaining current chronological logs on offenders.
8. Express concerns to the officer when anything unusual is noticed about an offender.
9. In absence of the officer, answer questions posed by law enforcement officials, states attorneys, defense attorneys, district and county judges.
10. Assist in compiling information for pre-sentence investigations, type report, obtain officer's signature, photocopy and distribute to the court and entitled personnel.
11. Collect and distribute financial payments by offenders to agencies. This would include supervision fee payments to be collected.

D. Maintenance of Offender Files:

1. Assemble new offender files. This involves receipt of intake material from the officer, typing appropriate forms and gathering necessary documents for the file (records check, criminal information or complaint and judgment).
2. Input data into computer.
3. Verify offender has repayment schedule if financial obligation is ordered by the court.
4. Contact necessary agency to obtain information relevant to offender which is deemed appropriate for the file or requested by the officer.
5. Purge files as required.
5. Maintain offender supervision fee remittance report, submit payments to central office in Bismarck.
6. Complete supervision fee waivers, PSI and EMS debit reports.

E. Monthly Reports:

1. Keep track of expenses incurred during the month by the officers, review with officer, type expense voucher, obtain officer's signature and submit to central office in Bismarck for further processing.
2. Compile list of offenders being supervised by the district offices, along with their offenses, and mail to various law enforcement agencies.
3. Print out reassessment and discharge reports from the computer.
4. Maintain record of contact with all offenders on a monthly contact sheet, total at end of each month and prepare new contact sheet for upcoming month with new offenders added, and expired or terminated offenders deleted.

5. Compile monthly caseload worksheets to be attached to completed monthly contact sheet and submit to Regional Supervisor.
6. Compile vehicle mileage of state units and submit to Central Office.
7. Maintain offender supervision fee balance records on monthly basis or as needed.
8. Review all time sheets for accuracy for supervisor's signature.

F. Miscellaneous:

1. Responsible for maintaining the stock of supplies on hand and ordering supplies from central office when necessary.
2. Submit inventory list to central office in Bismarck on an annual basis.
3. Responsible for maintaining supply of designed forms for use within the office.
4. Maintain correctional training requirements.

JOB DESCRIPTION
BUSINESS OFFICER
(JANICE YOUNG)
MAY 2000

A. Administrative Liaison for the Division Director and Regional Supervisors

1. Serve as liaison to members of various boards served by the Director.
2. Provide administrative contacts to division employees relating to benefits, department programs, memberships, professional development and various personnel issues.
3. Coordinate the Director's activities with judicial, law enforcement, human service and other state agencies.
4. Interpret and implement policy and procedures on the administration, organization and management of the division.
5. Interact with Department of Corrections staff to accomplish the department's mission.
6. Provide direction to administrative staff by assessing and developing appropriate recommendations on administrative issues.
7. Respond to inquiries from the general public, media and correction agencies from other states about current/previous offenders on parole or probation.

B. Business Officer for the Division

1. Perform office management functions for the Division's Central Office and 17 state district offices.
2. Provide supervision to Administrative Secretary II, and temporary office staff to include training, professional development, evaluating employee performance reviews, assigning duties and planning workflow.
3. Conduct fiscal studies and prepare reports relating to budget issues.
4. Make recommendations to management regarding proposed changes or enhancements to the operation of the Central Office.
5. Coordinate meetings and staff training to include agenda, travel and accommodations.
6. Maintain control of sensitive information flowing through the Central Office.
7. Purchase supplies for division.
8. Maintain division's forms inventory and order printing when necessary.
9. Maintain accurate records of mileage, gas slips and maintenance for 32 state vehicles.

C. Technical Support

1. Provide maintenance support and advice on purchasing various types of office equipment.
2. Provide technical assistance on the operation of Microsoft Word, e-mail and parole/probation database.
3. Analyze computer operations and recommend improvements for use in the district offices.
4. Plan and conduct word processing training for users.
5. Review and edit errors from the database "root" files.
6. Attend computer training to maintain knowledge necessary to perform this duty.
7. Maintain equipment inventory online for division.

D. Supervise "Supervision Fee" Program

1. Ensure that the operation of the "supervision fee" program is conducted properly utilizing accounting practices and procedures.
2. Oversee the payment of cash transactions to individual accounts in the automated accounting system.
3. Balance deposit revenue received by the division with the state treasurer.
4. Investigate cash payment transactions that appear to conflict with statewide remittance lists.
5. Supervise the production of quarterly non-compliance notices.
6. Investigate discrepancies on offender's accounts.

E. Administer Personnel and Payroll

1. Responsible for additions, changes and deletions to monthly payroll.
2. Advise new and current employees with additions and changes to life, dental and health insurance, flex comp and retirement issues.
3. Accountable that the correct salaries are paid to division employees.
4. Verify employee's timesheets on required hours worked in specific timeframe.
5. Analyze and submit supplement payroll for temporary staff.
6. Maintain personnel/payroll records and related documents per OMB guidelines.
7. Maintain accurate records of annual, sick, and compensatory for employees.

F. Accounts Payable

1. Verify and code vouchers/invoices for payment.
2. Verify abstract and submit to OMB for processing.
3. Process checks to appropriate vendors.
4. Prepare and input interdepartmental billings (IDB's) and journal vouchers.

G. North Dakota Pardon Advisory Board

1. Contact sentencing judge and states attorney to solicit comments on Pardon Board petitioners.
2. Coordinate agenda.
3. Research files to determine accurate facts and provide board members with necessary information.
4. Record meetings and type minutes.
5. Maintain inmate records for Pardon Board appearances and results in Dbase.
6. Respond to inquiries regarding application procedure.

 4. Assist with the evaluation of low risk worksites and personnel (worksite monitors).
 5. Supervise interns and temporary employees.
 6. Assist supervisor in the evaluation of temporary employees and interns work performance.
 7. Coordinate communication between the school advisor and the Field Services Division regarding the intern program.
- E. Conduct Investigations**
1. Conduct offender pre-sentence investigations and provide court with a report.
 2. Conduct post-sentence investigations and provide the appropriate party(s) a report.
- F. Manage Cognitive Restructuring Groups**
3. Develop and deliver cognitive programming to offenders.
 4. Maintain appropriate records as to program effectiveness.
- G. Provide referral information and respond to crime victim needs and interests throughout a specified region.**
1. Monitor and assist with the collection of restitution for crime victims.
 2. Ensure crime victims receive referral services to assist them in recovering from injuries and losses.
 3. Provide victim information services.
 4. Inform crime victims of their rights.
 5. Report victim needs and issues to the Parole Board.
 6. Provide consultation for crime victims.
 7. Assist with victim/offender mediation training.
- H. Analyze Information and Submit Periodic Statistic Reports to Supervising Program Manager**
1. Submit accurate, timely reports.
 2. Analyze and categorize statistical data.
 3. Compare, count statistics, differentiates, measures, and assembles copies and records data and information.
 4. Collect and distribute program costs, supervision fees and restitution funds.

I. Communicate Low Risk Offender Progress and Victim Assistance with Various Local, State and Federal Officials

1. Report offender compliance to parole/probation officer, courts, corrections board, parole board and/or states attorney.
2. Submit accurate reports to the supervising program manager.
3. Prepare and conduct presentations regarding low risk offender information and victim information to various organizations.
4. Attend and participate in required staff meetings.

J. Perform Administrative Support Duties

1. Operate personal computer and related software for offender and victim data input.
2. Develop and monitor general accounting and record keeping practices concerning both victims and offenders by ledger or computer data program.
3. As required, greet offenders, answer telephone and direct calls.
4. As required, process incoming and outgoing mail.

JOB DESCRIPTION
CRIME VICTIM SPECIALIST
(PAUL COUGHLIN)
MAY, 1994

RESPONSIBILITY:

A. Determine initial eligibility and validity of claims by conducting investigations and responsible for the overall administration and management of the statewide program.

- 1. Receive incoming claims, prepare files, initiate investigations to obtain reports from prosecutors, medical providers and law enforcement.
- 2. Interview claimants, employers and witnesses, and attend criminal hearings to gather the information necessary to make decisions related to the findings of the investigation and compensability of the claim.
- 3. Responsible for the overall administration and management, and accountable for the statewide Crime Victims Reparations Program. This involves approximately \$750,000 of state and federal money governed by complex state and federal laws which need to be reviewed, interpreted, implemented and adhered to.
- 4. Responsible for continued training, public relations and public information; and development and management of policies and procedures to meet the goals and objectives of the statewide program.

B. Responsible for the administration and management of the state crime victims, federal Victims of Crime Act and Native American Victims of Crime Act grants.

- 1. Responsible for the overall administration, management, review and operation of the statewide crime victim grant programs which involves 55 participating government and private agencies; and \$950,000 in state and federal grants.
- 2. Responsible for accessing these grants on behalf of the state.
- 3. Organize and coordinate the grant review committee and manage the grant review process.
- 4. Provide technical assistance and monitor all grants to ensure financial and statistical reporting requirements are met related to state and federal requirements.
- 5. Compile financial reports and statistics to provide mandatory reports to the federal government.
- 6. Monitor budget to ensure funds are properly distributed and spent according to state and federal guidelines.
- 7. Work with accountant, computer programmer and data

processor to develop and manage systems for reporting to comply with state and federal regulations to properly administer and manage the statewide crime victim grant programs.

8. Work with state victim groups and associations to provide technical advice and consultation related to victim issues. This involves supervision of all grant activities of 55 agencies and 173 employees who provide services to over 8,000 victims of crime.

C. Authorize medical benefit payments and determine continued liability.

1. Authorize benefit payments on accepted claims.
2. Review and interpret medical records and medical bills.
3. Determine whether medical charges are related, reasonable, customary and necessary; clarify any discrepancies.
4. Authorize medical bill payments, investigate whether or not claimant has insurance or other collateral sources available such as Medicare, Medicaid, veteran's benefits, etc.
5. Confer with medical experts on medical issues that arise and monitor medical records to determine future liability.
6. Verify restitution balance with court before final payment is authorized.

D. Authorize economic loss benefits and other allowable benefits; and determine continued liability.

1. Interpret and review medical records to determine if disability occurred as a result of injuries sustained.
2. Investigate employment to determine work lost, wage rate, sick/annual leave or other benefits available through employment.
3. Verify possible collateral sources such as worker's compensation, social security, etc.
4. Calculate and authorize lost wage benefits; monitor disability and verify on continued basis; and authorize funeral expenses in homicide cases.
5. Determine eligibility for economic loss benefits in homicide/permanent injury cases.
6. Investigate thoroughly collateral sources such as life insurance, disability insurance, social security, etc.
7. Determine need, calculate benefits and amount to be paid.
8. Monitor all payments to ensure caps are not exceeded and monitor fund balances.

E. Data collection for financial and statistical reporting for state and federal grant regulations and state laws.

1. Operate computer to implement program to track and input financial and statistical data. Design, create and implement files.
2. Enter benefit payments into Crime Victim Reparations host system; enter data for statistical reporting requirements; and ensure data collections are current with any changes/revisions in state and federal regulations.
3. Implement tickler system to track files and necessary follow-up.
4. Study state policies/regulations and federal grant regulations.
5. Work closely with accountant, computer programmer, and data processor to carry out functions; compile data and prepare required reports.

F. Provide information to promote public awareness. Provide contact and referral services to interested parties. Draft legal documents and correspondence.

1. Receive incoming calls on 1-800 telephone line and any program inquiries.
2. Provide program information to caller/inquirer, explain eligibility requirements, program benefits, application process, etc.
3. Provide information routinely to law enforcement, prosecutors and medical providers.
4. Refer victims to other programs or appropriate service agencies.
5. Draft legal orders on claims when reducing or denying a claim/benefits.
6. Draft necessary correspondence in connection with claims adjudication.

JOB DESCRIPTION
PAROLE OFFICER I (5101)
May, 1999

TO ENSURE THAT APPROPRIATE DECISIONS ARE BEING MADE, THE OFFICER WILL STAFF DIFFICULT CASES WITH REGIONAL SUPERVISOR AND/OR LEAD OFFICER IN THEIR DISTRICT OFFICE ON A WEEKLY BASIS.

RESPONSIBILITY:

A. Offender Supervision:

1. Meet with offender as supervision standards dictate.
2. Monitor conduct, progress and employment history of offender.
3. Refer offender to appropriate agencies and staff progress with the agencies as required.
4. Assist offender in finding and maintaining employment.
5. Assist offender with career decision making.
6. Maintain collateral contact with other appropriate people concerning the progress of the offender.
7. Conduct unscheduled/scheduled home visits with offender either day or night.
8. Search offender's home, vehicle, or person as needed for firearms, dangerous weapons, drug paraphernalia, stolen property or any other forbidden contraband.
9. Responsible for transportation of all parole violators from within, or outside, the State of North Dakota.
10. Arrange, refer, or approve community service sites and monitor adherence.
11. Notify sex offenders of their mandated responsibilities to register with law enforcement agencies and ensure that they do the same.
12. Perform arrests, which may require the officer to verbally and physically restrain offenders, as warranted.
13. Transport offenders to correctional centers, penitentiary, halfway houses, or home confinement as warranted.

B. Case Management:

1. Maintain chronological log of all offenders.
2. Prepare necessary monthly reports for assigned cases.
3. Interview offenders to include preparing necessary Admission to Caseload forms, assessing the offender's individual needs and probable risk to society, prepare other case assessment instruments, as well as the case provision plan for all offender
4. Reassess all offenders' needs and potential risk to society every six months. Should problems develop, reassess risk immediately and move to higher security/supervision status.

5. Issue travel permits, prepare waiver of extradition forms as required, provide for travel and/or transfer of offender as provided by Interstate Compact for adult offenders.

C. Interact with appropriate courts, parole and pardon boards:

1. Testify in courts and before the parole/pardon board.
2. Prepare petitions to revoke probation violators.
3. Prepare petitions to dismiss and terminate probation when appropriate.
4. Provide information to judges, states attorneys, and defense counselors concerning the progress of the offender. This information would include recommendations for sentencing.
5. Monitor payment of court costs, attorney fees, court fees, fines, restitution, administrative fees and supervision fees by the offender.
6. Complete investigations as ordered by the court or parole board to include the development of pre-release plans for offenders requesting placement on community confinement.
7. Ensure that all issues concerning victims are dealt with appropriately.
8. Testify at all necessary preliminary hearings, administrative hearings and disciplinary hearings concerning possible violations of parole.
9. Transport all adjudicated parole violators to the appropriate place of confinement.
10. Prepare annual and final reports concerning the progress and conduct of all appropriate offenders.
11. Make sentencing recommendations when and if requested by the Court.

D. Prepare presentence and post-sentence investigation reports:

1. Interview offenders, victims, and collateral sources to determine the nature of the offense, the damage caused to the victim(s), and information concerning the offender's past experiences and future plans.
2. Complete a full criminal records check to determine offender's prior record.
3. Prepare a formal victim impact statement on behalf of the victim with such statement to be included with the investigative report.
4. Prepare the sentencing report to include all appropriate information provided by the offender's collateral contacts and criminal information check.

E. Other professional responsibilities appropriate to the duties of a parole/probation officer:

1. Assist law enforcement investigations concerning offenders including locating the offender, assisting in arrest or facilitating searches.
2. Assist with the maintenance of handling of all evidence concerning criminal activity perpetrated by offenders.
3. Maintain licensing requirements as provided by the Criminal Justice Training Division of the ND Attorney General's office.
4. Maintain Firearms Certification.
5. Continue to grow professionally by developing the skills appropriate to the duties of a Parole/Probation Officer I.
6. As a representative of the Department of Corrections, maintain a professional demeanor.

JOB DESCRIPTION
PAROLE OFFICER II
FEBRUARY 2001

19

RESPONSIBILITY:

A. Provide Offender Supervision:

1. Complete an extensive assessment tool to gauge the risk to the community and the needs of the offender. This is then reflected in the individual offender case plan.
2. Determine initial/on-going referrals including but not limited to: social service agencies, chemical, mental, emotional, financial, sexual treatment agencies, and/or various self-help groups.
3. Maintain continuous communication between various treatment agencies to monitor offender progress and conduct.
4. Conduct on-site drug/alcohol testing to determine offender usage.
5. Provide and complete offender registration forms to comply with court mandated offenders for compliance with NDCC.12.1-32-15. Monitor offender's current residence and employment and update the change of address forms when needed. Initiate and follow through with court proceedings if they fail to comply.
6. Initiate and maintain contacts with those individuals who are acquainted with or have an impact on the offender's life. This may include employer, spouse, significant others, family members, neighbors, friends and/or clergy.
7. Initiate unscheduled/scheduled home visits with criminal offenders for the purpose of determining the compliance of community supervision rules and to observe life skills.
8. Initiate, command, and conduct warrantless/warranted searches of offender homes, vehicles, or person(s) based on collateral information obtained and discretion of supervising officer.
9. Collect restitution for crime victims as well as other court ordered financial obligations.
10. Transport offenders as deemed appropriate. This may be in a custodial or non-custodial situation.
11. Determine if a higher level of community constraint, up to and including arrest, is appropriate in response to a violation.
12. Be accessible to offenders and others outside normal working hours, which may include officers being contacted at home, at all hours of the day or night. This may include the officer being called out for duty during the night, weekends, and on holidays.
13. Conduct the DNA testing on a sex offender and complete appropriate paperwork for compliance with NDCC 31-13-03.
14. Handle and maintain evidence in accordance with evidentiary law.

B. Management/Supervision of Programs:

1. In the absence of the District Supervisor, PO II's are designated as acting supervisors and are responsible for making independent decisions that would otherwise be demonstrated by PO III's.
2. Chair and oversee various committees both permanent and temporary.

3. Monitor and evaluate volunteer programs associated with the Division of Field Services, e.g. VISTA (Volunteers in Service to America), Green Thumb, college and high school students.
4. Develop job descriptions. Hire, evaluate, and supervise contract employees, e.g. part-time parole/probation surveillance officers, pre-sentence investigation writers, transport officers, and continuously monitor standards, qualifications, and certifications.
5. Interview, hire, evaluate, and provide supervision to college level interns completing undergraduate or graduate degrees in criminal justice, social work, or other human service-related fields.
6. Develop policy and provide supervision to community service/restitution programs throughout the state. Serve as a representative to Community Service Advisory Boards.
7. In areas of the state where Parole Officer III's are not immediately available, Parole Officer II's are "lead officers." The officers are responsible for the day-to-day duties conducted within the district office to include assigning work to other staff and the management of local contract programs.
8. PO II's are certified firearms instructors and are responsible for the training, development, and certification of all parole officers in the Division of Field Services, as well as assisting in training of personnel from other agencies. This includes continuous monitoring and researching of laws, standards, and training techniques.
9. PO II's are certified armorers and oversee maintenance, performance, and repairs of all Department issued firearms.
10. PO II's are certified as Pressure Point Control Tactics (PPCT) instructors and are in charge of training the Field Service's Division employees, as well as other Departments or agencies.
11. PO II's are cognitive restructuring group facilitators and provide groups to all types of offenders in the criminal justice system. These facilitators provide a designed atmosphere to educate and assist offenders with their criminal thinking process.
12. PO II's are cognitive restructuring trainers and provide training to all types of agencies. (Human Service Center employees, correctional officers, law enforcement personnel, treatment personnel). The Field Services Division is an extensive trainer for the state of ND.
13. PO II's manage and coordinate the intensive supervision program (ISP). This program allows for the Parole Board and the Department of Corrections and Rehabilitation to release higher risk offenders in the community.

C. Community Policing:

1. Assist residents in the community by meeting with them individually or in groups to aid in the safety of the community.
2. Maintain a community partnership, which promotes residents to share information concerning offenders.
3. Conduct presentations to civic and community groups to inform others of parole officer duties and the overall mission of the Department of Corrections and Rehabilitation; promote a

line of communication between parole officers and residents in the community.

4. Establish and maintain satellite field offices within the community in which officers are accessible to offenders and to the community.
5. Participate on the Community Policing Advisory Committee to identify community problems.

D. Provide Case Management of Offenders:

1. Maintain chronological records of criminal offenders based on offender case plan.
2. Interview offenders to assess the offender's needs and probable risk to society. This includes completing sophisticated assessment tools, LSI-R (Life Skills Inventory - Revised), MnSOST (Minnesota Sex Offender Screening Tool - Revised), and admission to caseload forms. Develop a case supervision plan on each offender based upon the LSI-R assessment and Court ordered conditions, which would address the offenders' risk and needs to ensure safety to the community.
3. Reassess all offenders' needs and potential risk to society on a six-month basis. This reassessment can occur at any time based on the offender's most recent development to include drug use, criminal activity, loss of employment, loss of residence, or other significant personal development. Case supervision plans will be adjusted according to developments in offender's supervision.
4. Assess and determine whether travel permits to other states are appropriate based on offender's past behavior, potential risk to society and rehabilitation.
5. Coordinate and assess services with offenders for appropriate treatment/resources that will address the offender's needs and risk. Maintain contact with treatment staff to monitor compliance of court ordered or referred treatment.
6. Determine if the implementation of an intermediate sanction is appropriate when a violation of supervision occurs and monitor compliance of the sanction.
7. Administer the MnSOST-R (Minnesota Sex Offender Screening Tool - Revised) on sex offenders.

E. Interact with Appropriate Agencies:

1. Testify before municipal courts, district courts, federal courts, community placement hearings, the North Dakota Parole Board, and the North Dakota Pardon Advisory Board. Provide testimony in probable cause and revocation of probation/parole hearings as well as community placement revocation hearings.
2. Make informed decisions to develop and prepare petitions to dismiss, terminate and modify probation supervision judgments.
3. Provide pertinent and necessary information to the Governor's Office, Pardon Advisory Board, Parole Board, judges, states attorneys, and defense counselors concerning the progress of offenders. This information includes sentencing recommendations, sentencing alternatives, and offender's progress while on supervision.

4. To ensure compliance with fiscal obligations, monitor and distribute payments for restitution, administrative fees, court costs, attorney fees, fines, supervision fees, and victim/witness fees.
5. Initiate contact and assist human service/mental health centers in determining treatment and placement plans of criminal offenders.
6. Assist local drug task forces specializing in the detection, surveillance, and arrest of drug offenders.
7. Testify before the North Dakota Legislature regarding bills that would affect the Division of Field Services as well as the Department of Corrections and Rehabilitation.
8. Serve as co-facilitator with human service staff in sex offender treatment groups.
9. Interview victims during the pre-sentence phase to determine crime impact. This information is used to assist in making sentencing recommendations to the court.
10. Provide victims with post-sentencing information to include changes of offender status and other necessary developments.
11. Refer victims to services as deemed appropriate.

F. Maintain Licensing Requirements:

1. Maintain ND Peace Officer Licensure.
2. Maintain firearm instructor/armorer certification and provide certification to officers within the Division of Field Services.
3. Provide certified instruction to students of the ND Peace Officers Training Program (Bismarck and Devils Lake).
4. Represent the Department of Corrections and Rehabilitation and maintain a professional demeanor while on and off duty.
5. Obtain licensure and certification in the following areas: Correctional Officer, Minnesota Sex Offender Screening Tool-Revised, Life Skills Inventory-Revised, Pressure Point Control Tactics Instructor, Cognitive Restructuring Facilitator, On-site Drug Testing.
6. Receive continuing education as required by the Division of Field Services.
7. Maintain firearm certification as required by the ND Post Board and the ND DOC&R, Field Services Division.

G. Prepare Investigation Reports:

1. Interview criminal offenders, victims, and collateral sources with skills acquired through specialized interviewing techniques.
2. Complete an extensive criminal records check to determine offender's prior record to include juvenile history.
3. Investigate an offender's social, mental, and chemical history and compile it into formal reports. The officer's investigation determines the appropriateness of the offender's community placement plan and the level of risk the offender would present to the community. Recommendations are made by the officer based on the above factors.
4. Report and assist in the investigation of possible child abuse/neglect related to the offender's home life.
5. Investigations are conducted by the officer including community placement plans, parole plans, interstate compact

- investigation reports, pre-sentence investigations, sentencing reports, and pardon advisory board reports.
6. Conduct specialized investigations to complete a sex offender-screening tool. This screening tool will aid the officer in making treatment recommendations and assist the officer in providing information to law enforcement for public notification.
 7. Initiate and conduct drug enforcement investigations that may lead to the discovery of methamphetamine labs or evidence of drug manufacturing. Make contact with appropriate agencies for proper disposal of the drug operations.
 8. Assess and investigate an offender's involvement in committing a new criminal offense and initiate the criminal compliant process with the prosecuting attorney that has jurisdiction.

H. Implement Intermediate Measures Program:

1. Parole Officers exercise their authority in the implementation of an intermediate sanction based on the officer's professional judgement and other pertinent assessment information.
2. Determine whether placing an offender in community service, day reporting, curfew, home confinement, house arrest, halfway house, intensive supervision, or electronic monitoring programs would be more appropriate than possible revocation of parole/probation in hopes of bringing about corrected offender behavior as well as reducing jail and prison populations.
3. Maintain accurate records of intermediate measures usage in order to gain statistical data for use by the Division of Parole/Probation and other state agencies.

JOB DESCRIPTION
PAROLE OFFICER III
JUNE 1997

RESPONSIBILITY:

A. Management of Parole/Probation Staff Within Region/Program:

1. Complete employee work performance appraisals and monitor employee's progress toward desired performance appraisal results. This may include progressive discipline including recommendations for the termination of employees.
2. Investigate and respond to all regional employee grievances.
3. Investigate and respond to all complaints lodged against regional personnel and submit reports regarding same to the Division of Parole/Probation director.
4. Review and approve all employee time sheets, vouchers, and wellness points to ensure compliance with division policies.
5. Conduct and lead all regional staff meetings.
6. Responsible for contacting the division director with staff concerns.
7. Ensure that parole, probation, community placement cases; presentence, post-sentence, placement and special investigations; and parole plans are assigned to personnel within the region.
8. Conduct case plan audits of officer's case files. These audits include reviewing chronological histories, field files, assessments, pre-sentence investigations, parole plans and community placed files.
9. Manage division budget for region/program.

B. Provide Offender Supervision:

1. Meet with criminal offenders based on risk and needs reflected in individual offender case plan.
2. Make appropriate referrals to agencies; staff offender's progress and conduct with other agencies.
3. Assist offender in seeking and maintaining employment. Maintain collateral contact with other agencies and individuals concerning the progress of criminal offenders. Conduct employment checks to ensure a satisfactory job placement.
4. Conduct unscheduled/scheduled home visits with criminal offenders to ensure compliance with parole/probation/community placement agreement.
5. Conduct warranted/warrantless searches of homes, vehicles, or persons of criminal offenders as needed to determine possession of firearms, dangerous weapons, drugs, drug paraphernalia, stolen property, or evidence of any other criminal behavior.
6. Determine if arrest or higher level of detention is needed which may include transportation to jail, correctional center, halfway house, detox center, treatment center, and/or house arrest.

7. Responsible for the transportation of criminal offenders listed as parole or community placement violators as well as criminal offenders found in violation of their district court probation. This may include travel outside the State of North Dakota.
8. Collect supervision fees per NDCC 12.1-32-37.6. Arrange, approve, and monitor community service sites for criminal offenders.
9. Notify court-mandated sex offenders of their responsibility to register with local law enforcement and monitor their adherence to this statute.
10. Conduct on-site drug/alcohol testing to determine offender's drug/alcohol ingestion.
11. Perform criminal investigations and supervise other agencies conducting investigations on parole/probation/community placement offenders.

C. Manage Programming Within Region/Program:

1. Determine which offenders enter the intermediate measures program.
2. Operate as a member of the intensive supervision program in conjunction with the intensive program coordinator and the intensive supervision officer.
3. Responsible for community placement offenders in the designated region.
4. Authorize electronic monitoring provided within region.
5. Ensure that all programs managed by parole/probation officer II's are in compliance with the DOCR and division missions.

D. Provide Case Management of Offenders:

1. Maintain chronological records of criminal offenders based on offender case plan.
2. Interview offenders to include preparing necessary admission to caseload forms, assessing the offender's individual needs, and probable risk to society, preparing other case assessment instruments, as well as case supervision plan on all offenders.
3. Reassess all offenders' needs and potential risk to society on a six-month basis. This reassessment can occur at any time based on the offender's most recent development to include drug use, criminal activity, loss of employment, loss of residence, or other significant personal development.
4. Assess and determine whether travel permits to other states are appropriate based on offender's past behavior, potential risk to society and rehabilitation.

E. Serve as Division's Field Liaison with Appropriate Agencies:

1. Maintain personal contacts with all district/county judges and criminal justice agencies in the region to facilitate the division's mission.
2. Provide information to local media, community service groups, and schools pertaining to division policy and procedures.

3. Serve as the division's regional representative on various community task forces and related boards.
4. Serve as the division's representative on various state or multi-state community task forces and related boards.

F. Regional Staff Hiring, Orientation and On-Going Training:

1. Responsible for developing job description, job listing, screening of applications and participating in the interview process of regional personnel.
2. Assist new employees in the orientation of the policy and procedures of the Division of Parole/Probation.
3. Assist new and existing employees in the on-going staff training in order to assure each employee receives minimal training requirements.
4. Provide expertise to subordinate officers who may be responsible for the management and supervision of any programs within the division.

G. Act as Division Hearing Officer:

1. Serve as Morrissey Hearing Officer for parole revocation hearings, provide findings of fact, and make recommendations to the Parole Board.
2. Serve as Adjustment Committee Hearing Officer for community placement offenders.
3. Act as disinterested third party in approving negotiated sanctions of line officer and parole violator.
4. Serve as hearing officer for the implementation of intermediate measures in the region.
5. Prepare and complete documentation of all hearings regarding parole violations and community placement hearings.

H. Maintain Licensing Requirements:

1. Maintain firearm certification.
2. Maintain firearm instructor/armorer certification and provide certification to officers within the Division of Parole/Probation.
3. Provide certified instruction to students of the ND Peace Officers Training Program (Bismarck and Devils Lake).
4. Provide instruction to high schools, colleges, and fraternal organizations regarding duties and responsibilities of ND parole/probation officers.
5. Represent the Department of Corrections and maintain a professional demeanor while on and off duty

JOB DESCRIPTION
Intensive Programs Supervisor
April 26, 1999

RESPONSIBILITIES:

**A. SUPERVISE COMMUNITY PROGRAMMING RELATIVE TO
ADDITIONAL TREATMENT AND INTERMEDIATE CONDITIONS FOR HIGH
AND LOW RISK CRIMINAL OFFENDERS.**

- 1. Assist North Dakota communities with new creative treatment options and intermediate conditions for both low and high-risk criminal offenders.
- 2. Consult with appropriate federal, state, county and municipal entities to determine alternative sanctions that have been used in other jurisdictions which may be appropriately modified for North Dakota.
- 3. Identify and develop plans for the creation of new correction programs and intermediate conditions for low and high-risk criminal offenders.
- 4. Develop and/or update goals, objectives, procedures, policy manuals, guidelines, standards and an appraisal system as may be appropriate for community programs.

**B. ENSURES THAT EXISTING TREATMENT AND CORRECTIONS
SERVICES ARE MOST EFFECTIVELY UTILIZED BY THE CRIMINAL
JUSTICE SYSTEM RELATIVE TO CRIMINAL OFFENDERS.**

- 1. Assist current parole/probation staff and community correctional centers with the coordination and allocation of community services available to criminal offenders.
- 2. Assist local political sub-divisions with the coordination and allocation of community correction services available to criminal offenders.
- 3. Assist the parole board by providing recommendations on community and department resources for effective offender supervision.

4. Serve as department representative to the Seriously Mentally Ill Program (SMI) to enhance and promote the continuum of care and access to community resources.

C. OBTAIN PUBLIC INPUT INTO THE DEVELOPMENT AND ENHANCEMENT OF COMMUNITY CORRECTIONS PROGRAMS.

1. Make public appearances in support of correctional programs as a representative of the Division.
2. Provides technical assistance to the Community Correction Programs and Advisory Boards.

D. ASSISTS IN THE PREPARATION AND JUSTIFICATION FOR BUDGET REQUESTS.

1. Research and prepare grant requests as directed.
2. Assist local community correction boards and other organizations with grant writing that will support the Mission of the Division.
3. Assist the Community Corrections Program Manager with all joint powers agreements, contracts and other agreements to ensure they are renewed on a timely basis.
3. Compile quarterly reports from community correction programs and provide this information to the Community Corrections Program Manager.

E. SUPERVISES AND PROVIDES TRAINING RELATIVE TO THE NEEDS OF COMMUNITY CORRECTIONS PROGRAMS.

1. Assists and provides community corrections training as needed for community corrections program.
2. Assists with the development and implementation of a computer software program and training necessary to implement this program.

F. PROVIDES FOR AND SUPPORTS THE MISSION OF THE DIVISION.

1. Make public appearances on behalf of and in support of the Division's Director.
2. Work with political subdivisions, the judiciary and communities in support of the Department of Corrections and Community Corrections programs.
3. Act as the Division's liaison to local corrections boards, universities, victim groups and all other organizations, agencies or departments.
4. Serve on boards and committees that will enhance the mission of the Division.
5. Prepares legislation and submits testimony before the North Dakota Legislature as required.

G. Manage Drug Testing and Electronic Surveillance Programs

1. Develop and manage contracts with vendors.
2. Develop and manage contracts with criminal justice agencies.
3. Review and modify programs as needed concerning technological advances.
3. Provide training and support services for the application of these tools.

H. Intensive Supervision Program Management

1. Manage the operation and continued development of the ISP program.
2. Directly supervise the ISP officer.
3. Gather data and analyze in order to provide for positive evolutionary changes to the ISP program.

Mr. Chairman, I would like to offer an amendment to the Department of Corrections Appropriation Bill, SB 2016 that deals with a health care issue.

The Department had in its original budget request an item for \$123,000 to purchase Hepatitis B vaccine with the purpose being to immunize the inmate population. Data from the Center for Disease Control (CDC) and the American Medical Association, indicate that this investment will reduce not only the incidence of a preventable disease but the costs associated with its treatment.

WHY?

- Hepatitis B is a highly contagious, blood borne pathogen, which causes liver disease, liver failure and death.
- The Hepatitis B virus kills 5,000 people annually.
- The Hepatitis B virus is 100 times more virulent than the AIDS virus and can live up to 30 days under ideal conditions.
- Prison populations have a higher percentage of Hept. B and Hept. C cases than the non-incarcerated population, primarily due to higher incidences of injecting drug use and sexual contact.
- One liver transplant costs approximately \$250,000; the cost of vaccinating all inmates is only \$123,000.
- A high percentage of inmates will eventually be released into the general population at some time in the near future. If we protect the inmate population against acquiring Hept. B while incarcerated we also protect the general population when inmates are released back into society.

The vaccine that protects against Hept. B has been referred to as the first vaccine against **CANCER**. This is due to the fact that approximately 10 percent of the Hept. B cases will eventually result in cancer of the liver.

- The CDC estimates that there are 3 million cases of Hepatitis B in the U.S. The sad fact is that there are estimated to be over 1 million people that are carriers of the disease.
- Medical costs for a single case of Hept. B related cirrhosis of the liver is estimated to average \$87,000.
- Other State Department of Corrections studies confirm that up to 40 percent of inmates are infected with Hepatitis C.

- **The California Department of Corrections study tested over 5,000 prisoners for Hepatitis C and found that approximately 34 percent were positive for the disease.**
- **The Rhode Island Department of Corrections estimates that 80 percent of prisoners who tested HIV positive also tested positive for Hept. C.**
- **The Canadian Department of Corrections estimates that between 28 percent and 40 percent of Canadian prisoners test positive for Hepatitis C. Approximately 25 percent test positive for Hepatitis B.**
- **The Michigan Department of Corrections found that of the 1,110 prisoners tested for Hepatitis B, 16 percent of the men had past or present Hept.B infection and 27 percent of the women were or had been infected.**

Incidentally, the 1999 legislative session enacted a law requiring that children entering school be protected against Hepatitis B. Some 45 states now have such a requirement.

Therefore, I move that we add \$123,000 to the Dept. of Correction's budget to be used to vaccinate the North Dakota inmate population against Hepatitis B.

VACCINATION AGAINST HEPATITIS A AND B PREVENTS SERIOUS LIVER COMPLICATIONS THROUGH CO-INFECTION WITH HEPATITIS C

Hepatitis C (HCV)—The Underlying Virus

- Most common blood-borne infection in the United States and is referred to as the "silent epidemic of the new millennium".
- Highly contagious primarily through direct contact with contaminated blood.
- Prisoners are especially susceptible to contracting hepatitis C (HCV) because of their previous high risk behaviors (i.e. intravenous drug use, unprotected sex with multiple partners, sharing needles, close living conditions).
- Nearly 4 million Americans are infected with HCV.
- 135,000-180,000 new cases each year, approximately 25% to 30% of which are diagnosed.
- Causes liver disease, liver failure and death (8,000-10,000 deaths annually).
- Deaths caused by hepatitis C are projected to triple by the year 2010.
- 50-70% of those who get hepatitis C will develop chronic HCV (often leading to cirrhosis, liver failure or death), but many will have mild or no symptoms until 10-20 years following infection.
- Leading cause of liver transplants in the U.S.
- Post-infection treatment costs are very expensive (approximately \$10,000-\$15,000 per treatment).

Hepatitis A and B — Sources of Dangerous Co-infection

I. Hepatitis A (HAV)

- Transmitted through person-to-person contact, use of injection drugs, or ingestion of contaminated food or water.
- Prisoners are at heightened risk because of personal contact with infected persons in a confined environment, living in a closed community subject to cyclical outbreaks, unprotected sex and poor personal hygiene.
- Each year over 140,000 Americans are infected with hepatitis A.
- Hepatitis A has a long incubation period (15-50 days) before symptoms appear, if at all, thereby facilitating the transmission of the disease.
- Up to 20% of infected adults require hospitalization at an average cost of about \$2,000; if corrections staff are infected, lost productivity averages five weeks absence from work.
- According to the CDC, hepatitis A has an average societal cost of \$200 million per year.

II. Hepatitis B (HBV)

- Incidence of hepatitis B is ten times higher in prisons than in the general population (1.0-1.5%)¹.

¹ Prisoners are at increased risk because of histories of intravenous drug use, unprotected sex with multiple partners, sharing needles, close living conditions (i.e. 50% of all incarcerated persons in 1993 were charged with a drug offense, 80% of people in prison today have a history of substance abuse, 80% of all inmates will leave the prison system and return to the community).

- Transmitted through contact with contaminated blood, injecting-drug use, sexual contact.
- Nearly 300,000 people are infected with hepatitis B each year in the United States.
- An estimated 1,000,000 to 1,250,000 people have chronic hepatitis B infection and are potentially infectious to others. Hepatitis B virus carriers have a 12- to 300-fold increased risk of primary liver cancer.
- 100 times more contagious than HIV.
- 4,000-5,000 people die each year due to hepatitis B related liver cancer and cirrhosis.
- Medical costs for a single case of hepatitis B related cirrhosis of the liver are estimated to average \$87,000; for a liver transplant \$159,000.
- The CDC estimates that \$700 million is spent each year on medical expenses and lost work productivity associated with HBV infection.

Prevalence of Hepatitis B and C in Prisons

- State Department of Corrections studies confirm that up to 40% of inmates are infected with hepatitis C.
- A California Department of Corrections study tested over 5,000 prisoners for hepatitis B and found that approximately 34% were positive for the disease.
- The Rhode Island Department of Corrections estimates that 80% of prisoners who tested positive for HIV also tested positive for hepatitis C.
- The Canadian Department of Corrections estimates that between 28% and 40% of Canadian prisoners test positive for hepatitis C. Approximately 25% test positive for hepatitis B.
- The Michigan Department of Corrections found that of the 1,110 prisoners tested for hepatitis B, 16% of men had past or present hepatitis B infection and 27% of women were or had been infected.

State Programs

- In 1993, the Michigan Legislature allocated \$4 million to conduct hepatitis B vaccination among prisoners in Michigan correctional facilities. Program benefits include: (i) protection of participating prisoners against hepatitis B infection and complications; (ii) reduced risk of hepatitis B acquisition for correctional health care workers and corrections officers; (iii) reduced risk of co-infection for prisoners infected with hepatitis C.
- Several states currently have vaccination programs in place to protect inmates against the transmission of hepatitis B.
- The New York State Department of Corrections has established protocols for the vaccination of inmates with hepatitis C, including protection against hepatitis A and B.

Clinical Studies Warn of Fatal Co-infection

- A study in the *New England Journal of Medicine*² found that the co-infection of hepatitis C patients with hepatitis A led to serious medical consequences: a 41% rate of fulminant liver failure and a 35% fatality rate.

²Verna, Sandro M.D. ET AL., "Fulminant Hepatitis Associated with Hepatitis A Virus Superinfection in Patients with Chronic Hepatitis C." *The New England Journal of Medicine*, 338: 286-290 (January 29, 1998).

- The authors recommended that chronic carriers of hepatitis C who are at risk for hepatitis A infection should be vaccinated against hepatitis A, since superinfection with this virus may place them at risk to severe, life-threatening acute liver damage.
- A study in *Hepatology*³ found that the hepatitis A vaccine was well tolerated and induced a satisfactory immune response in patients with chronic hepatitis B, chronic hepatitis C, and miscellaneous chronic liver diseases.
- The authors recommended that individuals should be vaccinated against hepatitis A in view of the apparent risk posed by acute hepatitis A infections in patients with chronic liver disease.
- A study in *Gut*⁴ found that HBV infection is highly correlated with liver cancer, liver cirrhosis and chronic liver disease in patients with hepatitis C. Of 2000 Japanese patients infected with hepatitis C, almost half (49.9%) tested positive for HBV at various clinical stages of liver disease development (i.e., chronic hepatitis, liver cirrhosis, liver carcinoma); this rate is higher than that observed in the general Japanese population.
- The authors concluded that co-infection with hepatitis B virus may play an important role in chronic hepatitis C-liver related disease, particularly with respect to the development of liver cancer.

Recommendations of Public Health Agencies/Organizations

- The National Institutes of Health (NIH) recommends hepatitis A and B vaccination for all hepatitis C positive patients.
- The Centers for Disease Control and Prevention (CDC) recommend the hepatitis A and B vaccines for at risk HCV positive patients.
- The Advisory Committee on Immunization Practices (ACIP) recommends the hepatitis B vaccine for adults living in high-risk settings (e.g., correctional facilities).
- National Commission on Correctional Health Care recommends vaccinating inmates against Hepatitis B.

Conclusions

- Based on high incidences of hepatitis B and C among prisoners, the serious ramifications of co-infection, and the wealth of public policy support for the vaccination of HCV positive patients against co-infection, a program targeting vaccination against hepatitis A and B will help prevent serious liver complications leading to expensive liver transplants for prisoners suffering from hepatitis C.
- Vaccination programs for inmates with hepatitis C will also protect citizens against the spread of two highly contagious diseases — hepatitis A and B — when prisoners are released into the community at large for parole or at the end of their prison terms.
- A prison vaccination program will also protect the offspring of incarcerated, HBV infected pregnant mothers from getting the disease and, as potential chronic carriers, that offspring then infecting other children in the community at large.

Vaccinating Prisoners for Hepatitis B Protects Public Health and Reduces Health Care Spending

Hepatitis B in US Correctional Facilities

- **All prisoners should be vaccinated against hepatitis B, as recommended by the CDC. Each \$26.10 vaccination can protect innocent lives and save up to \$96,000 in state prisoner healthcare costs.**
- **Vaccinating 100,000 prisoners costs \$2.6 million. The same population of 100,000 prisoners will harbor 33,700 cases of hepatitis B, which will cost \$330 million to treat.**
- **Out of every 100,000 inmates in state correction institutes, there will be . . .**
 - **\$329 million spent treating the consequences of their hepatitis B infections. Some 23% of that cost (\$76 million) might be saved if vaccinations were required of all inmates.**
- **Vaccination can prevent hepatitis B, cut spending on treatment, and block the spread to additional victims outside the prison . . .**
 - **Health care, corrections, and law-enforcement personnel.**
 - **Post release contacts (including future victims).**
 - **Families, household members, and partners.**

HOUSE APPROPRIATIONS COMMITTEE
REPRESENTATIVE MIKE TIMM, CHAIRMAN
MARCH 1, 2001

WARREN R. EMMER, DIRECTOR
DEPARTMENT OF CORRECTIONS AND REHABILITATION
FIELD SERVICES DIVISION
PRESENTING TESTIMONY RE: **SB 2016**

OVERVIEW OF ALTERNATIVES PROGRAM

I. CURRENT BIENNIUM

A. 1999 Legislative Session

1. Legislature was briefed as to how we thought we might save prison beds and how we would calculate our savings
2. Mandated that we save 125 additional prison beds
3. Approved our Alternatives Program

B. Current Alternatives Program

1. Tompkins Rehabilitation and Corrections Unit
 - a. 100 day intensive alcohol/drug/cognitive program
 - b. Has saved 37,547 prison days through December 31, 2000
 - c. Has cost \$878,872; daily rate \$23.41
2. Halfway House Program
 - a. Has saved 7,489 prison days through December 31, 2000
 - b. Has cost \$223,547; daily rate \$29.85
3. Day Reporting Program
 - a. Has saved 9,627 prison days through December 31, 2000
 - b. Has cost \$13,767; daily rate \$1.43
4. Electronic Monitoring Program
 - a. Has saved 1,932 prison days through December 31, 2000
 - b. Has cost \$5,410; daily rate \$2.80
5. Jail Parole Violators
 - a. Has saved 8,113 prison days through December 31, 2000
 - b. Has cost \$243,552; daily rate \$30.02
6. 3-Day Hold Program
 - a. Has saved 73 prison days through December 31, 2000
 - b. Has cost \$2,927; daily rate \$40.10
7. DOCR Room Program
 - a. Has saved 3,859 prison days through December 31, 2000
 - b. Has cost \$34,114; daily rate \$8.84
8. Community Placement Program
 - a. Has saved 6,725 prison days through December 31, 2000
 - b. Has cost \$17,955.75; daily rate \$2.67

9. **House Arrest Program**
 - a. Has saved 326 prison days through December 31, 2000
 - b. Has cost \$870.42; daily rate \$2.67
10. **Last Chance Program**
 - a. Has saved 4,281 prison days through December 31, 2000
 - b. Has cost \$137,506; daily rate \$32.12
11. **All Other Programs**
 - a. Includes all other treatment programs and community service
 - b. Have saved 60,460 prison days through December 31, 2000
 - c. Have cost \$161,428; daily rate \$2.67
 - d. Arguably some of the "other programs" savings is subjective
 - (1) Although these people violated the conditions of supervision, it is really impossible to know what the court might have done.
 - (2) The court may not have sentenced all of the probationers returned on violations to confinement.
 - (3) We believe that most would have been confined.
12. **Total Savings From All Alternative Programs**
 - a. Minimum savings (excluding any "other programs")
 - (1) Have saved 79,972 prison days through December 31, 2000
 - (2) Have cost \$1,719,948; daily rate \$21.50
 - (3) Have saved an average of 147 prison beds per day and \$2,279,202
 - b. Days saved including half of all "other programs"
 - (1) Have saved 110,402 prison days through December 31, 2000
 - (2) Have cost \$1,719,948; daily rate \$15.58
 - (3) Have saved an average of 203 prison beds per day and \$3,800,037
 - c. Days saved including all "other programs"
 - (1) Have saved 140,432 prison days through December 31, 2000
 - (2) Have cost \$1,719,948; daily rate \$12.25
 - (3) Have saved an average of 256 prison beds per day and \$5,301,308
 - d. Have realized additional savings
 - (1) Approximately \$600,000 will be returned to the general fund.
 - (2) In the past two fiscal years, we have also generated \$5,740,200 in supervision fees, court fees, court costs, court fines, restitution and community service.

II. NEEDS FOR 2001-2003

- A. Four line officers to accommodate growth in offender population in Devils Lake (1), Grand Forks (1) and Fargo (2).
- B. Maintain Drug Court pilot program
 - 1. Court supervised
 - 2. Treatment orientated
 - 3. Targets non-violent offenders with a substance abuse problem
 - 4. Requires one FTE parole officer
 - 5. Will save 10 prison beds per day
 - 6. Utilizes no general fund dollars
- C. Cooperative DUI program (State Hospital and DOC&R)
 - 1. Structured 100 day treatment program
 - 2. Includes aftercare component at human services
 - 3. Requires staff supervision of offender
 - 4. For chronic (3 or more) DUI offender
 - 5. Will save 25 prison beds per day, **without factoring in any rehabilitative effect.**
 - 6. Transfer of \$2,139,284 from State Hospital to DOC&R
- D. Pre-Release Program
 - 1. Program designed to transition people from prison to the community
 - 2. Inmates will typically be eligible six months prior to presumptive parole date
 - 3. Will utilize alcohol/drug programming, release planning, cognitive programming, work release, living skills training, and relapse programming
 - 4. Offenders in the community are also eligible for the program at the time of violation of condition(s) of supervision
 - 5. Will require one FTE parole officer
 - 6. Will save 50 prison beds each day, **without factoring in any rehabilitative effect**
 - 7. Will require \$1,500,000 additional general fund dollars. The Prison Division will require the identical sum of money for the housing of inmates, in the event that the prerelease programming is not funded

ALTERNATIVES TO INCARCERATION: The Division of Field Services operates numerous programs and provides referrals to other programs that are used as intermediary steps to help offenders reduce risk with the goal of diverting them from occupying a prison bed. Division of Field Services operated or managed Alternatives to Incarceration programs include: Tompkins Rehabilitation and Correctional Unit, Last Chance, Community Placement Program, Halfway Houses, Day Report, Electronic Monitoring, Cognitive Restructuring, Drug Court, Community Service, Life Skills, Jailed Parole Violators, Three Day Holds, DOCR Rooms, Home Confinement, Program Costs, Fines, Fees and Restitution, and the Intensive Supervision Program. Other community programs not operated by the Division of Field Services but utilized as Alternatives to Incarceration are: Chemical Addiction Treatment, AA/NA, Anger Management, Psychological and Psychiatric Services, and Sex Offender Treatment.

COMMUNITY PLACEMENT PROGRAM:

By authority of the DOCR Director an offender sentenced to the Prisons Division may be eligible for community release as an inmate within 6 months of their sentence expiration. There is a PreRelease Team designated to manage the screening and determine appropriate candidates. Inmates may be approved by the Director for release upon an investigation of a verified plan to reintegrate into their community. At any given time this program has between 20 and 40 offenders.

TOMPKINS REHABILITATION AND CORRECTIONS UNIT

A major addiction treatment strategy that was introduced as a pilot program in January 1999 and identified in the budget during this biennium. This program is the Tompkins Rehabilitation and Corrections Unit (TRCU) in Jamestown, ND. This program is a collaboration of three public agencies with independent budgets. This collaboration includes the DOCR Field Services Division, Stutsman County Correctional Center and the North Dakota State Hospital. A contractual agreement between these three agencies provides payment from the DOCR to Stutsman County Correctional Center for facility and housing offenders in a jail environment to provide addiction treatment services. The contract otherwise establishes operating procedures and a commitment of staff resources, supplies and equipment to support program delivery. TRCU provides up to 30 beds to offenders in residence and an additional 30 to 40 offenders are in the community as successful graduates of the program that otherwise would be incarcerated by the DOCR Prisons Division. The target offender population referred includes, but not limited to, non-violent, chemically dependent offenders who are revoked or would otherwise be revoked from community supervision or are first time prison sentenced offenders. To ensure program integrity and accountability evaluations were conducted in February and December, 2000.

THE LAST CHANCE PROGRAM

The Last Chance Program was designed and implemented in October 1999. This program was designated to serve up to 20 offenders in Cass County. The offenders identified for the program are on community supervision and reported in violation of probation conditions. The offender would otherwise be revoked and sentenced to prison if not for this program. The target population is primarily non-violent, chemically dependent offenders. As an addiction treatment

program, the Last Chance Program was evaluated with the assistance of the North Dakota State Hospital director of addiction treatment services. Subsequently, the program was redirected implementing changes and leading to a strategic planning in January 2000. The Last Chance Program also provides a measure of rehabilitative effect to the date that the offender would otherwise have been incarcerated.

DRUG COURT:

Drug Court is a national trend that began in the mid 1980's as a result of the crack cocaine epidemic. Drug court combines judicial supervision with chemical addiction treatment and other services to stop the revolving door syndrome. During the past 2 years the North Dakota Division of Field Services has lead a group of representatives from both the public and private sector to plan and implement a pilot drug court in the South Central Judicial District. The South Central Judicial District Drug Court became operational on January 5, 2001. It is a court-supervised treatment-oriented program and targets non-violent participants whose major problems stem from substance abuse. The Drug Court is a voluntary program, which includes regular court appearances before the Drug Court Judge. Treatment, which includes drug testing, individual and group counseling, and regular attendance at 12-step meetings (Alcoholics Anonymous and Narcotics Anonymous). The probation and the treatment team may also assist with obtaining education and skills assessments and will provide referrals for vocational training, education and/or job placement services. The program length, determined by the participant's progress, will be no less than 1 year. Successful completion and "graduation" from the Drug Court Program may result in having the original charges dismissed or probation terminated early.

COGNITIVE RESTRUCTURING:

Cognitive Restructuring is a program and strategy that we began piloting in February 1999, and implemented during the course of the '99-'01 biennium. Cognitive restructuring is a correctional education program that teaches offenders to manage and reduce their own risk by learning how their thinking, feelings, and beliefs drive behavior that is hurtful, harmful, dangerous or destructive to themselves or someone else. The goal of cognitive restructuring is long term reduction of risk by the offender. Cognitive restructuring is a philosophical approach adopted by the DOCR and all staff are being trained in utilizing cognitive techniques. The Division of Field Services currently operates 10 cognitive restructuring groups across the state and all staff have been trained in cognitive restructuring techniques.

COMMUNITY POLICING:

Community policing is a national trend that is based upon the premise that law enforcement alone cannot do the job of keeping society safe. The Division of Field Services recognizes the power of involving the community in supervising offenders and reducing the risk to the community. The Division of Field Services has adopted measures to facilitate the process of moving officers into the community. The division has provided training on community policing to all staff, we have begun to decentralize our officers by locating offices in different areas of the community to make them more visible and accessible, the division has incorporated a philosophy of directly involving ourselves in the community to develop partnerships, and in December 2000

we formed a community policing team to develop a strategic plan to implement community policing concepts. As the community policing team develops the strategic plan it is one of our goals to involve community members, business leaders, and other community leaders into a community policing advisory team for the Division of Field Services.

LIFE SKILLS:

Life skills is a program that has recently been developed and implemented in the state by VISTA Volunteers. The program provides offenders with an opportunity to learn new techniques and develop new skills. The primary focus of the program is to identify the offender's barriers to employment while assisting the offender in securing and maintaining suitable employment. Skills taught include self-management, self-esteem, conflict management, cognitive skills, stress management, health awareness, and employment skills.

LEVELS OF SERVICES INVENTORY - REVISED

During the second year of this biennium, we implemented the Level of Services Inventory - Revised. This is a third generation assessment tool to effectively evaluate offender risk and needs to develop a case supervision strategy. Utilizing the LSI-R the case plan will more effectively match resources with identified risks and needs. This instrument incorporates the principles of risk, needs, responsivity, and professional discretion supporting the Division's cognitive behavioral theory and approach. The LSI-R supports the "what works model" of supervision and is research based.

PROPOSED ALTERNATIVE PROGRAMS:

This biennium has provided an opportunity to identify future program development and alternatives for specific offender populations. Two of these programs are the 25-bed Multiple DUI offender program requiring addiction treatment, and a 40-50 bed Pre-Release Center providing a menu of services, including addiction treatment. During this biennium, we have evaluated the DUI offender population in the DOCR corrections system as well as the need for transitional services.

A third proposed program specific to an addiction treatment strategy to enhance effectiveness is the Life Management Skills Program for chemically addicted offenders in recovery. To follow are brief summaries of the programs:

PRERELEASE CENTER

A proposed 50 bed male offender facility located in the city of Bismarck or Mandan. Designed for the purpose of reducing costs and commitments to the North Dakota State Penitentiary by units of local and federal government. The facility provides for individualized offender treatment, counseling and supervision under a structured environment. The program is designed to include citizen participation in the policymaking and program planning related to the community corrections facilities and programs through the formation of a local community corrections board. The Pre-Release

Center houses offenders for six months, but this may be extended to provide offenders with additional programming to best reduce risk in the community.

LIFE MANAGEMENT PROGRAM

A proposed interactive, experimental program based on the principles of cognitive restructuring and behavior modification. The purpose of the program is to reduce relapse and recidivism through the learning of New Life Skills. The program adds the concept of accountability, focuses on life issues and addresses core problems to create lasting life changes with offenders. This program is designed to continue support and aftercare services beyond primary addiction treatment. The Life Management Program is supported through a private, non-profit and Bush Foundation grant that will provide training to deliver this program. It is anticipated that the Division may partner with other state agencies to provide training and establish strategically placed programming within the state.

MULTIPLE DUI OFFENDER PROGRAM

The North Dakota State Hospital Chemical Dependency Services and Division of Adult Field Services of the Department of Corrections and Rehabilitation are collaborating to design and implement a 25 bed Addiction Day Treatment and Therapeutic Community Program. (The ND State Hospital Executive Board in December 2000 endorsed the proposal and recommended to proceed.)

The proposal is a treatment strategy for DUI offenders who have three or more DUI's. This population of offenders in the Department of Corrections and Rehabilitation (DOCR) includes over 40 DUI offenders in the penitentiary.

In North Dakota we have the largest per capita arrest rate in the nation. Multiple DUI offenders are arguably the most potentially harmful offenders that are released from jail and prison and these offenders typically receive short sentences. Their addiction treatment needs require a new and more effective strategy to reduce this risk of harm.

Bed Days Saved Computation
Community Placement Program, Tompkins Rehabilitation and Corrections Unit,
and the Last Chance Program.

During the 99-01 biennium the data reported for the 3 programs; CPP, TRCU, and LC Program, was managed and retained in an attached program to the Field Services DOCSTAR System. The input and management of this data was limited to individuals directly responsible for these programs.

The Bed Days Saved for each program are managed and reported quarterly as follows:

- A CPP offender is an inmate placed in the community to complete their sentence of incarceration. The bed days saved is day for a day from the date placed into the community up to their otherwise good time release date from prison. If the offender returns to NDSP prior to completion of their CPP the days credited ends on the day they return to custody. (TRCU graduates discharged on CPP are excluded from the other CPP data and included as rehabilitative effect for TRCU.)

Example 1: CPP case released on 07-01-2000 and expires on 09-30-2000 would equal 92 bed days saved.

Example 2: CPP Case released on 07-01-2000 and expires on 09-30-2000 but was revoked on 07-25-2000 would equal 25 bed days saved.

- TRCU is a minimum 100-day addiction treatment program located at the Stutsman County Jail. A TRCU offender who would otherwise be incarcerated calculates both the day for a day TRCU placement and includes a rehabilitative effect for those successful offenders returning to the community. If the offender is arrested and returned to NDSP prior to the date for achieving the rehabilitative effect the days credited ends on the day they return to custody. Offenders at TRCU are either inmate or community placed (probation or parole) status:
 - Inmates at TRCU calculate the day for a day while they are at the TRCU. A rehabilitative effect is indicated only if the offender is successfully discharged to the community. These days are counted after TRCU discharge up to their otherwise predetermined Parole Eligibility Date.

Example 1: Inmate case goes to TRCU on 07-01-2000 and is released 100 days later on 10-08-2000. Their parole eligibility date is 12-15-2000. Total actual days saved is 168 (100 days TRCU + 68 rehabilitative days in the community)

Example 2: Inmate case goes to TRCU on 07-01-2000 and is released 100 days later on 10-08-2000. Their parole eligibility date is 12-15-2000. The offender is arrested and returned to custody on 11-12-2000. The rehabilitative effect through 12-15-2000 was not achieved. Actual days saved reported is 135 (100 days TRCU + 35 rehabilitative days in the community)

- Community offenders at TRCU, after violation of probation or parole and placed by the authority of the Court or the Parole Board, calculate a day for a day while they are in treatment at TRCU. A rehabilitative effect is indicated only if the offender is successfully discharged to the community. The rehabilitation days are counted after the offender's TRCU discharge up to 150 days from their admission date to TRCU for a misdemeanor offender and 300 days from their admission to TRCU for a felony offender.

Possible Days saved = Felony case - 300 days
Misd. case - 150 days

Example 1: Petition to modify probation is granted on a Felony case effective 01-01-2000 to the TRCU. Probation supervision will expire on 01-05-01. Case is assigned 300 days upon admission to TRCU, which is to 10-27-2000. The offender completes the 100 days at TRCU, is released to the community and completes supervision. Bed days reported is 300 days.

Example 1.1: Using the same scenario above if the case is revoked within 300 days of being sent to the TRCU and sentenced to a DOCR institution on 06-01-2000 bed days reported are 151 days.

- The Last Chance Program is up to a 180-day addiction treatment program alternative in Cass County. Offenders, after violation of probation, are placed in the Last Chance as an alternative to incarceration by authority of the Court. This offender is credited day for a day while they are in treatment in the Last Chance Program. A rehabilitative effect applies if the offender is discharged successful from the Program to continue supervision in the community. The rehabilitation days are counted after the offender's discharge from Last Chance Program up to 150 days from their admission date for a misdemeanor offender and 300 days from their admission for a felony offender. If the offender is arrested and incarcerated prior to the date for achieving the rehabilitative effect the days credited ends on the day they return to custody.

Example: For probation cases sent to the Last Chance Program by way of agreed to Intermediate Sanction or a petition to modify the same rule applies as listed with the TRCU, Community Offender.

The 150 days for misdemeanors and 300 days for felons is based on history of sentences for offenders who were imprisoned as a result of a revocation of their probation.

Bed Days Saved
July 1, 1999 through December 31, 2000

TRCU, LC, CPP Programs	Expenditures	Days	Average Per Day Cost
Halfway House	\$95,012.55	3,183	\$29.85
Day Reporting	\$4,593.16	3,212	\$1.43
Electronic Monitoring	\$271.60	97	\$2.80
Jailed Parole Violators	\$3,722.48	124	\$30.02
3-Day Parole Holds	\$0.00	0	\$40.10
DOCR Room	\$10,157.16	1,149	\$8.84
CPP	\$17,955.75	6,725	\$2.67
TRCU	\$878,872.00	37,547	\$23.41
House Arrest	\$0.00	0	\$2.67
Last Chance	\$137,505.72	4,281	\$32.12
Other Programs	\$14,572.86	5,458	\$2.67
Total	\$1,162,663.28	61,776	\$18.82

Beds Saved 113

All Other Programs	Expenditures	Days	Average Per Day Cost
Halfway House	\$128,534.10	4,306	\$29.85
Day Reporting	\$9,173.45	6,415	\$1.43
Electronic Monitoring	\$5,138.00	1,835	\$2.80
Jailed Parole Violators	\$239,829.78	7,989	\$30.02
3-Day Parole Holds	\$2,927.30	73	\$40.10

SB 2016

**SENATE APPROPRIATIONS COMMITTEE
SENATOR DAVID E NETHING, CHAIRMAN
JANUARY 16, 2001**

**WARREN R. EMMER, DIRECTOR
DEPARTMENT OF CORRECTIONS AND REHABILITATION
FIELD SERVICES DIVISION
PRESENTING TESTIMONY RE: SB 2016**

I. Introduction

- A. Overview of Division
- B. Accomplishments and Challenges During 1999-2001
- C. Needs for 2001-2003

II. Overview of Division

- A. We supervise 3,265 offenders outside of prison
 - 1. 86% are felons
 - 2. Parolees
 - 3. Probationers
 - 4. CPP inmates
 - 5. All are prison eligible
 - a. Three times the current prison population
 - b. Has grown "by one prison" since 1993
- B. We conduct 1,660 investigations per year
 - 1. Pre-sentence reports to the court
 - 2. Reports to the Parole Board and Pardon Advisory Board
- C. We support both the Parole Board and Pardon Advisory Board
 - 1. Manage over 1,100 Parole Board reviews each year
 - 2. Conduct all Morrissey hearings for the Parole Board
- D. We manage victim programs
 - 1. The Crime Victim Compensation Program
 - 2. The Victim of Crime Act Program
 - 3. The Crime Victim Account Grant Program
 - 4. We anticipate expending over \$3.2 million to and for victims of crime
 - 5. We do victim advocacy for Adult Services

Field Services

III. Accomplishments and Challenges During 1999-2001

A. Accomplishments

1. Developed a model correctional treatment program known as the Tompkins Rehabilitation and Corrections Unit
 - a. Intense 100 day alcohol/drug/cognitive program
 - b. Program is a cooperative effort with the Department of Human Services and Stutsman County
 - c. Costs **\$28.54** per day
2. Aggressively utilized other alternatives to incarceration to reduce prison overcrowding
3. Mandated to save 166 prison beds each day of the biennium; 194 actual prison beds saved each day
4. We have been good stewards of the money entrusted to us by the legislature. We accomplished more than expected while spending **\$600,000** less than expected in general fund dollars.
5. We have developed a strong cooperative working relationship with the Department of Human Services and the State Hospital
6. We have collected **\$5,740,200** in supervision fees, court fees, court costs, court fines and restitution in the last two fiscal years.
7. Our officers are out of their offices working with offenders on the streets. They are using cognitive programming with offenders and are assessing offenders' risk better by utilizing state-of-the-art assessment tools. Officers are making a difference.

B. Challenges

1. Offenders are getting tougher
 - a. More drugs
 - b. More violent
2. Sentences are getting longer
3. Parole Boards are more conservative
4. Crime Victims Compensation medical expense are exceeding the budget by over **\$250,000**

IV. Needs for 2001-2003

- A. Four line officers to accommodate growth in offender population in Devils Lake (1), Grand Forks (1) and Fargo (2).
- B. Maintain Drug Court pilot program
 1. Court supervised
 2. Treatment orientated
 3. Targets non-violent offenders with a substance abuse problem
 4. Requires one FTE parole officer
 5. Will save 10 prison beds per day
 6. Utilizes no general fund dollars

- C. Cooperative DUI program (State Hospital and DOC&R)
 - 1. Structured 100 day treatment program
 - 2. Includes aftercare component at human services
 - 3. Requires staff supervision of offender
 - 4. For chronic (3 or more) DUI offender
 - 5. Will save 25 prison beds per day, *without factoring in any rehabilitative effect.*
 - 6. Transfer of **\$2,139,284** from State Hospital to DOC&R

- D. Pre-Release Program
 - 1. Program designed to transition people from prison to the community
 - 2. Inmates will typically be eligible six months prior to presumptive parole date
 - 3. Will utilize alcohol/drug programming, release planning, cognitive programming, work release, living skills training, and relapse programming
 - 4. Offenders in the community are also eligible for the program at the time of violation of condition(s) of supervision
 - 5. Will require one FTE parole officer
 - 6. Will save 50 prison beds each day, *without factoring in any rehabilitative effect*
 - 7. Will require \$1,500,000 additional general fund dollars. The Prison Division will require the identical sum of money for the housing of inmates, in the event that the prerelease programming is not funded

V. Conclusion

- A. The division is achieving its mission.
- B. It is providing public safety.
- C. It is holding offenders accountable.
- D. It is diverting offenders from beds within the Prisons Division.

VI. Special Request

The Division of Field Services respectfully requests that it be allowed to continue to operate as a Performance Based budget in 2001-2003. This action would allow us the flexibility to direct programming where it will provide the best service for the state of North Dakota

Werner
Emmer
Chuck Plouffe

**HOUSE APPROPRIATIONS COMMITTEE
HUMAN RESOURCES DIVISION
REPRESENTATIVE KEN SVEDJAN, CHAIRMAN
MARCH 5, 2001**

**WARREN R. EMMER, DIRECTOR
DEPARTMENT OF CORRECTIONS AND REHABILITATION
FIELD SERVICES DIVISION
PRESENTING TESTIMONY RE: SB 2016**

I. Introduction

Field Services Division is the community side of the Department of Corrections and Rehabilitation (DOCOR). It is "the quiet company", rarely talked about and often misunderstood. When one thinks of the DOCOR, it is prisons that we think about. Ironically the Field Services Division manages over three times as many offenders in a much less secure environment, "the community".

- A. Overview of Division
- B. Accomplishments and Challenges During 1999-2001
- C. Needs for 2001-2003

II. Overview of Division

- A. Community Offender Services Program
- B. Institutional Offender Services Program
- C. Victim Services Program

COMMUNITY OFFENDER SERVICES PROGRAM (COSP)

FTE'S

- Base Budget: Increased by 0.95 FTE (total 62.75)
 - 0.5 from victims and 0.45 from IOSP
- Governor's Recommended Budget: Increase of 5 FTE's (total 67.75)
 - 1 PO III for Drug Court
 - 4 PO II's for supervision

Salaries and Benefits

- Base Budget: Increased by \$321,798
 - \$124,262 temporary and overtime increases; currently we have 1.45 FTE's of straight temporary overtime being utilized as follows: Williston PO II = 0.25 FTE, Williston CCA = 0.25 FTE, Wahpeton CCA = 0.45 FTE, Devils Lake CCA = 0.5 FTE. These 1.45 FTE's represent \$110,545 of \$124,262.
 - \$197,536 represents the increase of 0.95 FTE and salary adjustments and a PO II funded for two years
- Governor's Recommended Budget: Increase of \$695,798
 - \$303,389 general salary and benefits
 - \$392,409 1 FTE PO III and 4 FTE's PO II's

Operating

- Base Budget: Increased by \$158,299
 - \$125,474 increase in data processing
 - \$2,497 increase in telephone
 - \$2,518 increase in travel
 - (\$466) decrease in IT software/supplies
 - \$1,800 increase in utilities
 - \$27,676 increase in rent
 - (\$1,200) decrease in dues & professional development
 - (\$12,000) decrease in professional services
 - \$12,000 increase in risk management insurance
- Governor's Recommended Budget: Increase of \$740,686
 - \$275,472 for contracting with State Hospital assigned to TRCU
 - \$260,000 for contracting at Last Chance
 - \$69,559 for 5 new FTE's
 - \$135,655 for Drug Court

Equipment

- Base Budget: Decreased by \$41,499
 - Zeroed out computer replacement
- Governor's Recommended Budget: Increased by \$10,000
 - Office equipment for 5 new FTE's

A. Community Offender Services Program (continued)

1. Supervises 3,265 offenders outside of prison
2. 86% are felons
3. Parolees
4. Probationers
5. CPP inmates - *community placement program? CPP*
6. All are prison eligible
 - a. Three times the current prison population
 - b. Has grown "by one prison" since 1993
7. Supervision means:
 - a. Managing offenders cases by utilizing risk reduction programming
 - (1) Cognitive self change programming
 - (2) Alcohol/drug treatment
 - (3) Life skills training
 - b. Surveillance
 - (1) Home visits
 - (2) Drug tests
 - (3) Warrantless Searches?
 - c. Connecting to the community
 - (1) Out of the office and "on the street"
 - (2) Connecting with offender's families and other contacts in the offender's community
 - (3) Non-traditional office settings
 - d. Holding offenders accountable
 - (1) Intermediate sanctions
 - (2) Arrest

INSTITUTIONAL OFFENDER SERVICES PROGRAM (IOSP)

FTE'S <ul style="list-style-type: none">• Base Budget: Reduction of 0.45 FTE (7 FTE's proposed)• Governor's Recommended Budget: Includes 1 new FTE
Salaries and Benefits <ul style="list-style-type: none">• Base Budget: Decrease of \$25,306• Governor's Recommended Budget: Increase of \$132,737<ul style="list-style-type: none">- \$93,997 PO III for Pre-Release Program- \$38,740 general salary and benefits
Operating <ul style="list-style-type: none">• Base Budget: Saw no change• Governor's Recommended Budget: Increase of \$3,540,932<ul style="list-style-type: none">- \$1,401,648 for Pre-Release Program- \$2,139,284 DUI Program
Equipment <ul style="list-style-type: none">• Base Budget: Decreased by \$21,000• Governor's Recommended Budget: Increase of \$5,000<ul style="list-style-type: none">- Office furniture, printer, computer

B. Institutional Offender Services Program

1. Conducts 1,660 investigations per year
 - a. Pre-sentence reports to the court
 - b. Reports to the Parole Board and Pardon Advisory Board
2. Supports both the Parole Board and Pardon Advisory Board
 - a. Manage over 1,100 Parole Board reviews each year
 - b. Conduct all Morrissey hearings for the Parole Board
3. Assigning offenders to alternatives to incarceration
 - a. TRCU
 - b. CPP
 - c. Last Chance

VICTIM SERVICES PROGRAM

FTE'S <ul style="list-style-type: none">● Base Budget: Reduced by 0.5 FTE (1 FTE proposed)
Salaries and Benefits <ul style="list-style-type: none">● Base Budget: Decrease of \$40,534 (loss of 0.5 FTE)● Balance constitutes salary and benefits for 1 FTE
Operating <ul style="list-style-type: none">● Reduction in operating of \$1,423
Equipment <ul style="list-style-type: none">● Is zero
Grants <ul style="list-style-type: none">● Increased \$329,216 in federal, over current adjusted grant line of \$2,951,403● Grants are:<ul style="list-style-type: none">VOCA \$2,854,216 - <i>Fed</i>CVA \$200,000CVC - <i>Fed</i> \$426,403 <p><i>Both Fed + special</i></p>

C. Victim Services Program

1. Manages victim programs for the State of North Dakota
2. The Crime Victim Compensation Program
3. The Victim of Crime Act Program
4. The Crime Victim Account Grant Program
5. We anticipate expending over \$3.2 million to and for victims of crime
6. We do victim advocacy for Adult Services

III. **Accomplishments and Challenges During 1999-2001**

A. **Accomplishments**

1. Developed a model correctional treatment program known as the Tompkins Rehabilitation and Corrections Unit
 - a. Intense 100 day alcohol/drug/cognitive program
 - b. Program is a cooperative effort with the Department of Human Services and Stutsman County

- c. Costs **\$23.41** per day. TRCU incurred **\$878,872** in expenditures for the first 18 months of this biennium. We project that this program will expend **\$1,242,460**, plus **\$275,472** for State Hospital contracting, for the 2001-2003 biennium.
2. Aggressively utilized other alternatives to incarceration to reduce prison overcrowding. The other alternatives incurred **\$841,076** in expenditures for the first 18 months of this biennium. We project that this program will expend **\$1,812,000** for "other alternatives", plus an additional **\$260,000** for Last Chance Program contracting, for the 2001-2003 biennium.
3. Mandated to save an additional 125 prison beds each day of the biennium. We have accomplished this.
 - a. Alternative programming utilizes the expertise of field officers
 - b. Alternative programming utilizes the expertise of staff managers
 - c. Alternative programming utilizes the expertise of other professionals
4. We have been good stewards of the money entrusted to us by the legislature. We accomplished more than expected while spending **\$600,000** less than expected in general fund dollars.
5. We have developed a strong cooperative working relationship with the Department of Human Services and the State Hospital
6. We have collected **\$5,740,200** in supervision fees, court fees, court costs, court fines, community service and restitution in the last two fiscal years. **\$3,161,023** of total was collected in cash.
7. Our officers are out of their offices working with offenders on the streets. They are using cognitive

programming with offenders and are assessing offenders' risk better by utilizing state-of-the-art assessment tools. Officers are making a difference.

B. Challenges

1. Offenders are getting tougher
 - a. More drugs
 - b. More violent
2. Sentences are getting longer
3. Parole Boards are more conservative
4. Crime Victims Compensation medical expense are exceeding the budget by over **\$250,000**. We are now part of HB 1026. We still will turn back approximately \$600,000 to the general fund. We are asking for \$250,000 in special fund authority to pay medical bills.

IV. Needs for 2001-2003

- A. Four line officers; found in COSP**
Additional officers required to accommodate growth in offender population in Devils Lake (1), Grand Forks (1) and Fargo (2). (**\$373,607 general fund**)
- B. Maintain Drug Court pilot program; found in COSP**
1. Court supervised
 2. Treatment orientated
 3. Targets non-violent offenders with a substance abuse problem
 4. Requires one FTE parole officer
 5. Will save 10 prison beds per day
 6. Utilizes no general fund dollars (**\$234,467 special fund**)

- C. **Cooperative DUI program; found in IOSP**
1. **Structured 100 day treatment program**
 2. **Includes aftercare component at human services**
 3. **Requires staff supervision of offender**
 4. **For chronic (3 or more) DUI offender**
 5. **Will save 25 prison beds per day, *without factoring in any rehabilitative effect.***
 6. **Transfer of \$2,139,284 from State Hospital to DOC&R**
- D. **Last Chance Alternative Program; found in COSP.**
In lieu of five FTE's, we are contracting for residential care for up to 14 offenders per day. **\$260,000** in general fund monies will be required to fund this program.
- E. **Pre-Release Program, found in IOSP**
1. **Program designed to transition people from prison to the community**
 2. **Inmates will typically be eligible six months prior to presumptive parole date**
 3. **Will utilize alcohol/drug programming, release planning, cognitive programming, work release, living skills training, and relapse programming**
 4. **Offenders in the community are also eligible for the program at the time of violation of condition(s) of supervision**
 5. **Will require one FTE parole officer**
 6. **Will save 50 prison beds each day, *without factoring in any rehabilitative effect***
 7. **Will require \$1,401,648 additional general fund dollars; \$200,000 for this program is currently in the base budget. The Prison Division will require the identical sum of money for the housing of inmates, in the event that the prerelease programming is not funded**

V. Conclusion

- A. The division is achieving its mission.
- B. It is providing public safety.
- C. It is holding offenders accountable.
- D. It is diverting offenders from beds within the Prisons Division.

**HOUSE APPROPRIATIONS COMMITTEE
HUMAN RESOURCES DIVISION
REPRESENTATIVE KEN SVEDJAN, CHAIRMAN
MARCH 8, 2001**

**WARREN R. EMMER, DIRECTOR
DEPARTMENT OF CORRECTIONS AND REHABILITATION
FIELD SERVICES DIVISION
PRESENTING TESTIMONY RE: SB 2016**

**QUESTIONS ASKED BY THE HOUSE APPROPRIATION
SUB-COMMITTEE OF THE FIELD SERVICES DIVISION**

1. FTE Flow Chart
 - a. See FTE Flow Chart ←

2. Amount of Temporary Salaries for Last Chance Program
 - a. Through January 31, 2001, the Last Chance Program expended \$38,540. We project expending an additional \$23,425 through the end of the biennium. The projected total would then be \$61,965. We still anticipate utilizing the \$61,965 so that we may expand the Last Chance Program related Life Skills Program.

3. Explain Drug Court Budget
 - a. See detailed outline of proposed Drug Court Budget ←

4. How many Parole Officers, caseloads and maximum number of offenders per officer?
 - a. 38 FTE Direct Service Parole Officers ←
 - b. Current Average Parole Officer caseloads are 65
 - c. The Division feels the maximum number of enhanced risk scored offenders a Parole Officer can effectively supervise is 60.

5. Prison Projections by Program or Placement ←

6. March 1, 2001 Bed Days Saved Chart
 - a. See March 1, 2001 spreadsheet ←

7. Actual daily TRCU incarceration rate versus daily rate that includes rehabilitative days included CHART ←
 - a. TRCU bed days saved between July 1, 1999 through December 31, 2000, factoring in the rehabilitative days, were 37,547. This resulted in a daily cost of \$23.41. The actual incarcerated days were 12,825, which would result in a daily rate of \$68.53.

8. DUI Program Budget Breakout ←
- a. OMB will provide information
 - b. See State Hospital's explanation of costs. Comparing it to the actual incarceration, costs at TRCU would be \$77.00 a day. This will be explained in greater detail during our hearing.

9. How many Morrissey hearings held?
- a. The Division has conducted approximately one Morrissey hearing per month this past biennium. We have attempted to encourage offenders to waive this and the hearing that follows with the Office of Administrative Hearings due to the expense. It is a legal requirement that the Division utilize the services of the Office of Administrative Hearings.

10. Reason for the lack of victim services program not having a greater reduction in operating lines? ← *Next week*
- a. Since we have been a program-based budget, we have been able to adjust our expenditures at the end of the biennium and actually spend more money on the Crime Victim Services grants than what was budgeted.
 - b. See Crime Victims Compensation expenditures spreadsheet

11. How much money was granted to Domestic Violence programs? ←
- a. In it's latest grant cycle, the Division was awarded \$1,269,663 in VOCA funds. Domestic Violence/Sexual Assault programs received \$844,261 (66%); Victim Advocates received \$315,191 (25%); other programs received \$110,211 (9%).
 - b. See Federal VOCA Grant Awards chart

12. Recidivism rates at TRCU versus Non-TRCU offenders.
- a. See TRCU Statistical Information worksheet ←

13. Division Populations Over Time
- a. See Offenders on Community Supervision chart ←

14. January 31, 2001 Budget Correlation
- a. See Field Services and related three programs budget correlation spreadsheets. ←

#10 REASON FOR THE LACK OF VICTIM SERVICES PROGRAM
 NOT HAVING A GREATER REDUCTION IN OPERATING LINES

CRIME VICTIMS COMPENSATION EXPENDITURES - 1/26/01

Biennium	95 - 97	97 - 99	99 - 01 thru 12/31/00
General	51,570.09	102,401.15	105,935.40
Federal	156,000.00	101,000.00	102,886.52
Special	276,758.91	251,328.59	310,083.74
Total	484,329.00	454,729.74	518,905.66
Appropriated	426,403.00	426,403.00	426,403.00
CVA Transfer		30,047.00	100,000.00
Amount unpaid and carried forwarded into new biennium	59,000.00	34,000.00	56,000.00

The Division is requesting an amendment to SB 2016 increasing the 99 - 01 biennium's Crime Victim Services special fund authority by \$250,000. This additional authority would give the Division the ability to pay Crime Victim's compensation bills that are presented since November 2000 and June 30, 2001.

The Division would attempt to monitor it's special fund collections and expenditures in the 01-03 biennium to address any potential expenditures over the Governor's recommended \$426,403 in the 01-03 biennium.

The Division feels that with increasing medical costs at a time of trending increases of crime victims utilizing the program, the Division will be faced with a deficiency situation in the 01-03 biennium. We would propose increasing our special fund authority by \$300,000 for the 01-03 biennium. The Division feels that with increased collections of supervision fees and restitution payments to the Crime Victim Fund this increased special fund authority could be met.

W.E.

TRCU STATISTICAL INFORMATION:

As we measure effect and success using a rehabilitative model we are more critically assessing success or failure than corrections systems have used historically to report success or failure. Offenders in TRCU are offenders that otherwise would be incarcerated. TRCU serves a higher risk offender group than the overall population that this information is often compared to in the DOCR or nationally.

We have not had a control group to date in our study (to assure we are comparing apples to apples) but we are developing that piece of our analysis on a historical bases as well as for future research of the program effectiveness.

Recidivism in the Parole population during this time has been reported over 20% while probation revocation rates have been over 30%. (The year prior to program implementation the parole revocation rate was 27% and probation revocation rates were 35%).

TRCU through June 30, 2000:

There were 209 offenders placed in the program. On June 30, 2000 there were 28 offenders in residence at TRCU. Of the 181 offenders discharged (209 - 28=181) there were 161 released to the community and 20 returned to prison unsuccessful prior to completion of treatment.

Of the 161 offenders discharged to the community there were 121 (75%) successful and 40 (25%) returned to prison unsuccessful.

#13 DIVISION POSITIONS OVER TIME

Offenders on Community Supervision
ND DOCR Field Services Division
One Day Counts on December 31 of Each Year

Supervision Type	1993	1994	1995	1996	1997	1998	1999	2000
Probation	1981	2032	2320	2590	2695	2701	2756	2745
Parole	91	95	112	100	117	175	152	115
Interstate Compact	311	312	296	250	184	158	264	377
Community Placement Program	6	3	31	11	6	3	34	28
Total	2389	2442	2759	2951	3002	3037	3206	3265

NOTE: Some offenders may be on multiple types of supervision at the same time. When this occurs, the offender is first counted if on parole, then if on probation, then if on interstate compact and finally community placement. Otherwise the totals are artificially inflated by about ten percent.

#3

HOUSE APPROPRIATIONS COMMITTEE
HUMAN RESOURCES DIVISION
REPRESENTATIVE KEN SVEDJAN, CHAIRMAN
MARCH 19, 2001

WARREN R. EMMER, DIRECTOR
DEPARTMENT OF CORRECTIONS AND REHABILITATION
FIELD SERVICES DIVISION
PRESENTING TESTIMONY RE: SB 2016

On March 14, your committee requested that we provide the committee with information concerning recidivism as it relates to the pre-release programming in Montana. Montana's Department of Corrections Statistics Bureau Chief has informed us that for the fiscal years 1997-2000, offenders directly released to parole were four times more likely to be returned to incarcerated status than those who were released to parole *after serving part of their sentence in a pre-release center.*

I hope this information is helpful to your committee.

H:\Legislature\SB2016(house)2.doc

SB 2016

**COST-SAVINGS ANALYSIS - CONSTRUCTION OF DEPARTMENT OF CORRECTIONS
AND REHABILITATION WOMEN'S UNIT**

2001-03 Biennium - Operating Cost-savings

Estimated additional contracting costs WITHOUT construction of women's unit (November 1, 2002, to June 30, 2003) \$1,137,400 ¹¹

Less women's unit operating costs - Salaries and wages, operating expenses, and equipment (November 1, 2002, to June 30, 2003) 1,041,067

2001-03 biennium savings (excluding construction costs) resulting from constructing women's unit \$96,333

2003-05 Biennium and Subsequent Bienniums - Operating Cost-savings

Estimated additional contracting costs WITHOUT construction of women's unit \$3,431,000 ¹²

Less women's unit operating costs - Salaries and wages, operating expenses, and equipment 2,706,347 ¹³

2003-05 biennium savings (excluding construction costs) resulting from constructing women's unit \$724,653

Time Required to Recoup Capital Construction Costs Through Estimated Savings in Operating Expenses

Operating expenses savings estimated as follows:

2001-03 biennium	\$96,333
2003-05 biennium	724,653
2005-07 biennium	724,653
2007-09 biennium	724,653
2009-11 biennium	724,653

Net estimated operating savings through June 30, 2011 \$2,994,945

Construction costs (general fund share only; excludes \$1.4 million of costs paid with federal funds) 2,320,000

Net estimated savings through June 30, 2011, including construction costs \$674,945

¹¹ The estimated additional cost to contract for inmate beds resulting from not constructing the women's unit is based on the need to contract for an additional 94 inmate beds per month, as indicated by the Department of Corrections and Rehabilitation. The 94 beds are based on the women inmates vacating the 80-bed floor currently occupied at the James River Correctional Center and 14 beds at the Missouri River Correctional Center; the beds will subsequently be made available to house male inmates. However, the executive budget reduced the number of contract inmate beds by only 75 beds per month for the last eight months of the 2001-03 biennium to reflect the construction of the women's unit.

¹² The estimated additional cost to contract for inmate beds resulting from not constructing the women's unit is based on the need to contract for an additional 94 inmate beds per month for each month of the biennium at a rate of \$50 per day. Consequently, this analysis does not consider inflationary increases in the contracting rate.

¹³ The estimated operating costs for the women's unit, as determined by the Department of Corrections and Rehabilitation, are based on the continuation of salaries at the June 30, 2003, level and no inflationary increases in operating expenses.

Reasons the Women's Unit Should be Built during 2001-2003

It is critical that a new Women's Unit be added to the prison system in the next biennium.

Economic Reasons

Presently the women are housed on the second floor of the ET housing unit at the JRCC. On any day there are approximately 45-50 women housed there; since each floor can house 80 inmates, 30-35 beds are vacant each day. While these beds are vacant we are housing male inmates out of our system at \$50 dollars per day per inmate or at a cost of \$45,000 per month for these vacant 30 bed spaces. We need to move the women so that this floor can be filled with male inmates. During a biennium the cost of having 30 vacant bed spaces is \$1,095,000. Also, by moving all women to a women's unit, 14 bed spaces will be vacated at the MRCC for additional male inmates to be housed there.

Management Reasons

Three years ago the Department transferred the women inmates to the JRCC since the small women's unit at the Penitentiary was not adequate to house the growing number of women inmates. Also, since the women's unit was a self-contained secure unit comprised of single cells it was an appropriate unit to utilize as the system's orientation unit for all new arrivals.

Housing the men and women together in the ET building at the JRCC requires excessive staff time in order to assure the separation of the men and women. Also, the sharing of space at the facility between the women and men does not provide adequate time and access to the space, for either the men or women inmates. We must separate the men and women by housing them in separate buildings. This is a very serious concern and must be addressed as soon as possible.

Bed Spaces Added by Construction of the Women's Unit are Needed Now

It has been suggested that a study be conducted before building the new women's unit to assure that the State does not overbuild the prison system for future years. The concern expressed is that if the alternatives to incarceration program works well, the inmate population may begin to decrease significantly in the next few years. Data does not support this concern. When analyzing the sentences of the current inmate population along with the conservative approach utilized to provide early release to

inmates, a decrease in inmate population will not occur any time soon. It is still the Department's goal to try to stabilize (not reduce) the population through the alternatives to incarceration program. Even with the construction of the Women's Unit the Department will still need to contract out 94 inmates to jails and a private prison by June 30, 2003. If the Women's Unit is not built the department will be forced to contract out over 150 inmates by the end of the next biennium. Contracting out so many inmates causes many problems for the prison system including not only the question of bed space availability but also legal questions about equal programming, visitation and work opportunities. Also, the State certainly provides much more programming for virtually the same cost per day than is provided to inmates through contract facilities. It is critical that the State does not delay the construction of the Women's Unit yet another biennium.

Appropriate Location for a New Women's Unit?

It has also been suggested that before additional cells are added to the prison system, a study be conducted to determine whether the JRCC is the appropriate place for any new housing unit, including the women's unit. This study has already been done. The Department conducted an in-depth strategic planning process January through July, 2000 through which this issue was addressed. The study showed that a new housing facility would most appropriately be placed at the JRCC since, at both the MRCC and at the State Penitentiary, the infrastructure would need to be expanded if additional housing facilities were added. Such areas as utilities, program space and food service facilities would need to be expanded if additional beds were added to the facility. Also, it would not be wise to add a women's unit at the MRCC which is an open campus for primarily male minimum custody inmates. It is our intent to bring about greater separation of the genders, not to increase their contact. The strategic planning process proposed that any additional beds, for male or female, would most appropriately be added at the medium custody JRCC.

INFORMATION TECHNOLOGY DEPARTMENT - ESTIMATED SPECIAL FUND REVENUE FOR 2001-03

The Information Technology Department is responsible for wide area network planning and implementation, computer support services, software development, statewide communication services, and technology training. The department is primarily funded through the billing of state agencies, departments, and institutions for services provided. The department reviews the actual cost for providing each service and determines an appropriate billing rate to recover costs and to provide for ongoing operations. To provide funding for administrative expenses such as administrative personnel salaries, office space rent, audit fees, and insurance, the department charges each agency, on their monthly billing, an administrative fee of 4.9 percent of total bill charges except miscellaneous charges.

For the 2001-03 biennium, the Information Technology Department anticipates receiving special fund revenue from state agencies, departments, and institutions of approximately \$71.3 million. The following

provides special fund revenue information by service category:

Service Category	Estimated Revenue
Telephone	\$11,051,043
Data processing	18,936,308
Application development	24,929,741
Network services	13,395,391
Overhead	3,015,270
Total ¹	\$71,327,753

¹ The amount shown differs from the special fund appropriation provided to the Information Technology Department in Engrossed Senate Bill No. 2022 of \$71,185,087 by \$142,666. As the result of an error in the calculation of the recommended state employee salary increases, the department's general fund appropriation should be reduced by \$142,666 to \$25,575,766 and the special fund appropriation should be increased by \$142,666 to \$71,327,753.

Explanation of Terms:

New – Indicates new computer deployment

Used – Indicates used computer deployment

Offline – Computer hardware is placed "Offline" when it can no longer adequately perform agency operational tasking. Offline computers are used to support non-critical agency operations such as education, parts cannibalization, temporary hot spares and in any other capacity that best utilizes the remaining value of this resource. Offline computers are not connected to the network unless they are used as a temporary hot spare.

Surplus – Computer hardware is sent to surplus when any one of the following criteria is met:

- The machine has been fully cannibalized and can no longer be used to provide spare parts.
- The cost of repair/parts replacement exceeds the value of the equipment.
- The machine is so outdated and obsolete that it provides no useable functionality by any division within the agency.

The Information Systems Administrator designates what machines are sent to surplus. Computer components such as screens, keyboards, mouse are not sent to surplus if still in working order.

Agency Replacement/Deployment Summary Totals:

Total New Computers: 83
 Total Redeployed/Used Computers: 39
 Total Offline: 44
 Total Surplus/Depot: 7

(122,800) Prisons Division Support Services Hepatitis B vaccine House Amend

SubTotal \$ 6,400,000
Less: 1,400,000 Federal Funds (Women's Unit)
TOTAL \$ 5,000,000 General Funds [3]

[1] Based on today's estimated price of \$11,000 per server, this amount will allow the department to purchase two servers by adding \$8,000 to the \$14,000 remaining in engrossed SB2016.

[2] This restores the amount included for contracting for inmate housing to the Executive Budget recommendation. It also assumes the construction of the Women's Unit. It's critical that the additional bed days saved, added by the House, for the Drug Court Program (5) and the 15 bed days saved for HB1364 be removed.

[3] We also continue our request that Sections 5, 6, 7, 10, 13, and 14 be deleted. These sections micromanage the department and remove flexibility for funding of programs.

38	(8,400)	Field Services	COSP		Desktops (6)	OA
39	(7,000)	DJS - YCC	Equipment		Desktops (5)	Base
40	(2,800)	Central Office	Equipment		Desktops (2)	OA
41	(8,000)	DJS Community Svcs	Salaries		Temporary salaries	Base
42	(55,000)	DJS Community Svcs	Operating		ITD shared ports & CPU time	Base
43	(1,400)	Prisons Division	RRI		Desktop (1)	Base
44	122,800	Prisons Division	Support Services		Hepatitis B vaccine	House Amendment
45	(539,284)	Field Services	IOP	[2]	DUI Program - State Hospital overhead	House Amendment
46	60,000	Field Services	Increase in Estimated Income		Supervision fee collections	House Amendment
47	(41,475)	DJS Community Svcs	Operating	[3]	HB2220 reimbursement to counties	House Amendment

[1 This reflects a net addition to contracting for inmate housing. It's critical that the additional bed days saved, added by the House, for the Drug Court Program (5) and at least 10 of the bed days saved for HB1364 be removed, which would require an addition of \$547,500 to contracting for housing, or a total of \$743,605 needs to be added (if the Women's Unit is not restored).

[2 This reduction does not affect the DOCR, but might significantly affect the State Hospital.

[3 We strongly suggest that Sections 5, 6, 7, 10, 13, and 14 be deleted. These sections micromanage the department and remove flexibility for funding of programs.

#3 EXPLAIN DRUG COURT BUDGET

DUI CRIMINAL PENALTIES

The following table describes criminal penalties for driving while under the influence as contained in North Dakota Century Code Section 39-08-01:

	Class of Offense	Minimum Sentence ¹	Maximum Sentence
Offense within five years			
First	B misdemeanor	\$250 and addiction evaluation ²	\$1,000 and 30 days' imprisonment
Second	B misdemeanor	\$500, either five days with 48 consecutive hours imprisonment or minimum security placement or 30 days' community service, and addiction evaluation ²	\$1,000 and 30 days' imprisonment
Third	A misdemeanor	\$1,000, 60 days with 48 consecutive hours imprisonment or minimum security placement, and addiction evaluation ²	\$2,000 and one-year imprisonment
Offense within seven years			
Fourth	A misdemeanor	\$1,000 and 180 days with 48 consecutive hours imprisonment or minimum security placement	\$2,000 and one-year imprisonment
Fifth or more	C felony	\$1,000 and 180 days with 48 consecutive hours imprisonment or minimum security placement	\$5,000 and five-years' imprisonment

¹ No suspended or deferred sentences permitted.

² If addiction evaluation indicates need for treatment, the court may order treatment and the time in treatment is counted against imprisonment or placement.

PROPOSAL

NORTH DAKOTA STATE HOSPITAL CHEMICAL DEPENDENCY SERVICES & DEPARTMENT OF CORRECTIONS AND REHABILITATION

Kerry Wicks - October 11, 2000

The increase in prison population in North Dakota is projected to continue for the next several years. North Dakota reports over 1000 prisoners in the Department of Corrections and Rehabilitation. Over 80% of the current population is estimated to have committed crimes involved with alcohol or other drugs and have a diagnosis of substance abuse. The current prison programs in Bismarck and Jamestown are able to treat a limited number of inmates with chemical dependency problems but with the expansion of the prison system to Jamestown there is an increased demand for the treatment of offenders. Part of our response to this growing need was to develop a day treatment program (the Tompkins Rehabilitation and Corrections Unit/TRCU) at the Law Enforcement Center in Jamestown for offenders who have alcohol and drug problems and are in the process of being revoked due to alcohol or other drug abuse. This program has been extremely effective and has saved 60 bed days per day in the penitentiary. The cost savings has been excellent, over \$1,000,000.00 and the outcomes for people in this program have been very good.

We are now proposing a service for DUI offenders who have three or more DUI's. This population of offenders in the Department of Corrections and Rehabilitation (DOCR) includes over 40 DUI offenders in the penitentiary. It also includes an undetermined number who are serving their sentences in county jails (see attached document).

In North Dakota, the problem of drinking and driving is very serious. We have the largest per capita arrest rate in the nation. We had 3,500 arrests and 3,100 convictions in 1999. In North Dakota, the percentage of traffic fatality directly related to the use of alcohol is 48% (1997 data). In North Dakota, 46% of 9-12 graders have been involved in binge drinking in the last 30 days (the national average is 33%) and motor vehicle crashes are the leading cause of death for 10-24 year-olds in the state. Multiple DUI offenders are arguably the most potentially harmful offenders that are released from jail and prison and these offenders typically receive short sentences.

A predictable increase in DUI arrests and convictions would occur if the blood alcohol limit is reduced to .08.

At the same time this prison population is increasing, the chemical dependency population at the North Dakota State Hospital is decreasing. With funding shifted to the regional Human Service Centers, treatment for alcohol and drug dependent citizens is being offered in the community whenever possible. The current trend in admissions has decreased approximately 30%. We have been at about a 60% to 65% occupancy for the last two months. We would need to assure that

the number of admissions for Chemical Dependency Services does not exceed 25 beds. To make that assurance, I am proposing that each of the eight regions have a given number of beds assigned in the NDSH Chemical Dependency program based on population. In order to admit a new patient, the region would have to have a bed available or take the most stable patient and place him/her in the community or 'borrow' a bed from a region that has excess beds here.

The current proposal addresses the treatment need for these individuals with the hope of creating the same successful outcomes as the TRCU. This proposal is a logical next step to shift treatment services to the Department of Corrections and Rehabilitation to assist in treating the nonviolent DUI offender.

The Chemical Dependency Services (CDS) at the ND State Hospital is able to offer a complete addiction program that is already highly developed for the offender population. We have typically treated DUI offenders and other offenders at the State Hospital for years. 70% of the last 1,200 admissions to CD Services had a criminal history. As a result, the staff at the CDS have a wealth of experience in treating individuals who have poor motivation for treatment, are often difficult to treat due to co-occurring personality disorders, and who are often resistant to change. With the additional expertise of running the TRCU, we are very well suited to provide a level of care unavailable in North Dakota at this time.

A new program could be up and running in a short time given the amount of experience the staff at the Chemical Dependency Service has. I would recommend that services be provided by staff at the ND State Hospital so there is a direct connection with other treatment staff that may be able to provide a certain number of program hours without having to deal with the complexity of being DOCR or NDSH employees.

The program would be designed to offer a set number of hours of service per day at a day treatment licensure level and staff would be designated from the CDS to provide those services and the supervision of the program. I would recommend that the program would be a cooperative agreement between the ND State Hospital and the Department of Corrections and Rehabilitation Field Services Division.

The current research clearly indicates that providing mental health and addiction services is cost effective. I believe the Department of Human Services' strategic plan should reflect these outcomes in the provision of services to a wider population. Treatment provided to DUI offenders will reduce costs over time by reducing prison beds and reducing repeat offenses. For the state taxpayers, it is money well spent and for the Department of Human Services, it is a direction that addresses the heart of many of our state's social problems.

Please see attachments for program descriptions, staffing requirements and budget.

THE MULTIPLE OFFENDER DUI PROGRAM

Benefits

- To learn specific new skills to prevent relapse into drinking, a behavior that has led to drinking and driving problems.
- Complete a major step toward driving legally again by completing Level II education and therapy credits while you are in this new treatment program.
- Learn problem-solving skills including cognitive restructuring skills. Research has shown these methods to be very successful.
- Group with other individuals working on some of the same problems. Support can be very helpful in the change process.
- Meets needs of a population in a highly focused program.

This program should facilitate recovery therefore helping the state reduce:

- a) overall treatment costs
- b) costs of law enforcement
- c) costs of emergency care for clients to the communities (DT's and risk of seizures and other aggravated physical problems)
- d) costs of clients continuing on disability when the disability could be remediated
- e) costs of clients on unemployment when clients could be employable
- f) costs of imprisonment
- g) costs of social services such as child support payments, emergency aid, etc.

The Multiple Offender DUI Program

The program is designed for individuals who have three or more Driving Under the Influence charges (DUI's). The court order would clearly state that the defendant will be on supervised probation for a minimum of one year. The order would impose conditions necessary for supervision of the defendant. The mandatory period of confinement required by statute would be made a condition of the suspended sentence. The program is one year in length, has three phases, and requires alcohol and drug free status throughout the year.

Phase I - The first phase is 90 days in intensive residential/day treatment. Clients participate in the treatment program seven days a week, 24 hours a day in a therapeutic community environment. They live in the same unit as the other clients and working on the common goal of sobriety. Prior to promotion to Phase II, clients must successfully complete the treatment expectations spelled out in the treatment plan. This may include starting Antabuse (unless medically contraindicated).

Phase II - The second phase is 90 days. Dependent on the conditions of the court order, the defendant may be required to participate in a day reporting program (locally) four days per week. Participation in cognitive restructuring groups and addiction counseling continuing care group would be mandatory. Offenders are under the supervision of the DOCR Field Services Division and violation of policy will be reviewed by Field Services staff and could result in incarceration. Cooperation with the treatment plan expectations are required. This may include Antabuse, Rivia, random urinalysis (UA's), weekly schedules, accountability for whereabouts at all times, case management and monitoring.

Phase III - Clients will be on supervised probation and subject to conditions imposed by the court would attend continuing care and cognitive restructuring once a week in this phase. Random UA's are required for Phase III.

Expectations of Clients

- Take responsibility for behavior.
- Participate fully in all aspects of the program, e.g. practice exercises.
- Attend all treatment sessions and be on time.
- Remain sober from alcohol and drugs throughout the program

Program Components

1. Addiction counseling and cognitive restructuring - education, individual and group.
2. Work Adjustment -- 20 to 30 hours per week, \$2 per hour and 30% towards the patient's hospitalization.
3. Activity Therapy -- skills building for sober living
4. Job seeking skills.
5. Appropriate medical coverage for maintenance stabilization and possibly improvement.
6. AA both in the community and the hospital two to three times weekly.
7. Use of volunteers to promote interpersonal relationships and ties with the community.

Other Program Criteria and Considerations

1. Duration for complete program - 100 days residential - one year total.
2. One week evaluation period following detoxification (where indicated) in closed setting with individualized privileges. This screening or evaluation process will involve admission and screening by treatment staff and DOCR staff.
3. Contraband such as alcohol or other drugs would be criterion for referral to more intensive and restrictive setting.
4. When discharged for reasons other than medical or for successful completion of the program, clients will not be reconsidered for admission.
5. Spot breath tests, Naltrexone (Rivia) and Antabuse may be vital tools in helping keep an alcohol free environment.
6. Progress in the treatment program should be documented weekly for the first month and on a monthly basis thereafter.
7. Number of beds needed is estimated to be 25.

Treatment Staff and Components:

Addiction Counselor's (3) - Provide Individual and Group Counseling Sessions, Multi-disciplinary treatment planning, Family Counseling, Family Program (educational component), Relapse Prevention Group, Separate treatment approaches (Cognitive-Behavioral/Big Book, Insight-Motivational, Solution Focused, Cognitive Restructuring).

Adult Education (4 hours per week) - GED Course Work, Computer Skills, Money Management, Assertiveness Training, Parenting Classes, Stress Management.

Chaplaincy (4 hours per week) - Spiritual Assessment, Spirituality Issues, Self Forgiveness, Grief Issues, Values Clarification, 5th Step Work.

RN (4 hours per day) - Smoking Cessation Classes, Alcohol Awareness, Cognitive Restructuring, Personal Hygiene, Activities of Daily living, Medication Teaching, Teaching Healthiness in a Chemical Free Lifestyle, Domestic Violence, Depression Group.

Mental Health Care specialists (8-10) - Ward milieu, supervision, Cognitive Restructuring groups

Occupational Therapy (4 hours per week) - Groups on Self Esteem/Self Awareness Issues, Communication Skills, Motor Skills and Everyday Living Skills, Children's Programming (as part of Family Program), Task Groups.

Psychiatric Services (Consult 1 hour a week) - Medication management, Therapy, Teaching, Support,

Psychological Services (Consult 1 hour a week) - Psychological Testing and Evaluation.

Social Work (4 hours a week) - Provide discharge planning and arrangement of specialized community services, Community Resource Referencing.

Therapeutic Recreation (8 hours a week) - Exploring Healthy Leisure Options, Leisure Planning, Leisure Skills Building, Socialization Skills, Coping Skills, Community Reintegration, Anger Management, Children's Programming (as part of Family Program).

Vocational Rehabilitation (4 hours a week) - Building Job Skills, Exploring Job Options/Career Choices, Employment Services while in Treatment, Work Habit Evaluations and Vocational Discharge Planning

This menu of services is available to all treatment levels based on needs assessments. All Day Treatment Clients would be assessed to determine needs and priority placement in the above mentioned programs. All levels of treatment are included in ongoing research.

SB 2016

Testimony on SB 2016

Division of Juvenile Services

Overview

Senate Appropriations Committee
Senator Nething, Chairman

January 16, 2001

By Alton Lick
Director

Overview

Commitments

Attachment #1 details the changes in our population:

<u>Date</u>	<u>Commitments to DJS</u>
4-1-93	418
1-1-96	525
8-1-97	475
6-1-99	525
1-1-01	442

Just looking at this data can be misleading.

- In 1990 – North Dakota juvenile population was 175,400; so 418 commitments would mean we had 2.4 percent of young people age 0-18 in our system.
- In 2000 – the number of young people age 0-18 dropped to 162,400; which means we now have 2.7 percent of this age group in our custody.

Problem Areas

Along with the dynamics of these population changes, the type of youngster being committed to DJS has changed drastically. Division data shows that, about 75 percent of commitments fit within the DSM IV designation. Mixing the problem of mental illness

with the drug/alcohol usage among young people, has created a very difficult, hard to manage population.

These more difficult to treat young people have caused us to change and rethink many of the methods we have used in the past for treatment and rehabilitation. We have had to change our training curriculum so that we include methods and philosophy in how to manage and treat troubled adolescents with co-occurring conditions (mental health and drug/alcohol). In February, at our next quarterly training session, we will bring in Lindsay Hayes, a nationally recognized expert in juvenile suicides and suicide prevention. In November, our training will be centered on managing mental health juveniles in corrections. Lisa Boesky, another nationally known expert from the state of Washington, will be the presenter.

In order to serve the more mentally ill youth that we now receive at YCC, we have recently contracted for child psychiatry and child psychology services from a local hospital. Many more youth require medications than in the past. Through a federal grant, we have added a second licensed addiction counselor. There is also a new position for a psychiatric nurse in this budget from federal funds. These positions and contract services are all included in the Youth Correctional Center budget. In the Community, DJS youth receive services from the Human Service Centers and, because of the common foster care system, the Residential Treatment Centers used by the county social services for placements are also available to us. There are also eight (8) long-term mental health beds available to us at the State Hospital.

The Division remains committed to maintaining public safety. You can easily imagine the pressures created when the services available in North Dakota's local communities vary greatly. That is one of the reasons we maintain about ten (10) percent fewer commitments in the Community than in the past.

Prevention -- Grants

The Division remains very involved with tribal courts and tribal social services within the state. Data supports our involvement with the tribes since Native American young people make up 5-6 percent of the children's population, but make up 28 percent of our juvenile corrections population in North Dakota. Through federal grants, we have funded juvenile probation officers on each of the reservations. This is the only youth population in North Dakota that is projected to grow in the coming years. We are including the appropriate staff from each of the reservations in our training. The parties, which meet on a regular basis are: tribal social services, tribal courts, North Dakota Children and Family Services (Dept. of Human Services); and federal Parole and Probation.

Recidivism

As has been the tradition in the past, DJS again contracted with Toucan Research to conduct a recidivism rate study for youth committed to the Division the past two years. As you can see by looking at Attachment #2, we have done well in maintaining our low recidivism rates. In 1997-98, we dropped to a new low of 9.6 percent, but then jumped to 17.0 percent for 1998-99. The research firm we use did not seem concerned and

stated random fluctuations from year to year should be expected. They felt the data did not demonstrate any trend change in the rates. It is quite evident looking at the study that we do not feed the adult system with any significant numbers.

Attachment #3 gives you a comparison as to how North Dakota's recidivism rate compares to other states who use the same definition and time period. Once again we are able to maintain these standards of recidivism, because of the high rates of graduation from North Dakota schools. As I have mentioned in the past, absence from school is a major contribution to young people being involved with juvenile corrections. Also in comparison to large urban states, we are able to maintain a more structured family system.

Arrest Data

The last attachment (#4) shows that there has been a decrease in juvenile arrests over the past three years. There was a 6.2 percent decrease from 1997 to 1998 and an 8.1 percent overall decrease in juvenile arrests from 1998 to 1999. The increases in arrests regarding drug and alcohol offenses is not a surprise since, as mentioned earlier, usage is a big problem with troubled adolescents. Please do not conclude that we are by any means satisfied or willing to accept what is happening. Occasionally, we all need to step back and do a "gut check" about what is happening around us. Based upon conversations with my counterparts around the United States, some other states are experiencing decreases in juvenile arrests and juvenile corrections numbers.

2000 North Dakota Division of Juvenile Services Recidivism Study

RECONVICTION

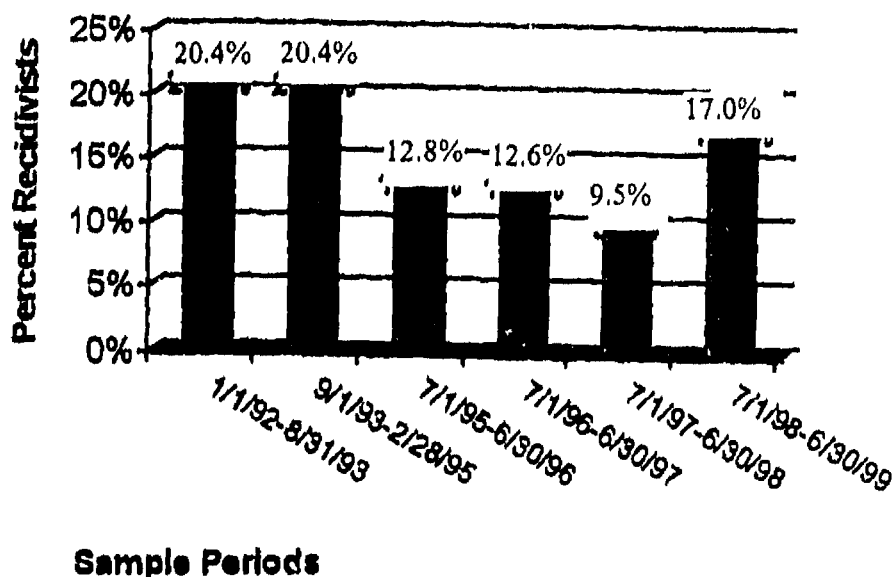

12 Months Follow-up

Data for the latest two years of the study reveal a reduction in the recidivism rate to 9.5 percent for the 97-98 cohort and an increase to 17.0 percent for the 98-99 cohort. Combining the last two years indicates that an average of 13.3 percent of youths were reconvicted within twelve months after release from DJS. Some random fluctuations in rates from year to year should be expected when conducting repeated measures. The numbers presented below do not demonstrate any trend change in the rates.

As presented in Figure 1 below, these proportions are similar to those reported in previous studies. In the initial release sample (1/1/92-8/31/93), 45 of the 221 juveniles were reconvicted (20.4 percent). In the subsequent sample (9/1/93-2/28/95), 66 youths of 324 recidivated (20.4 percent). In the third sample (7/1/95-6/30/96) 36 of 282 youths were reconvicted (12.8 percent), and in the fourth (7/1/96-6/30/97) 36 of 285 youths were reconvicted (12.6 percent). The most recent study showed that in the fifth sample (7/1/97-6/30/98) 26 of 273 youths were reconvicted (9.5 percent) and in the sixth (7/1/98-6/30/99) 47 of 277 youths were reconvicted (17.0 percent).

Figure 1

Percent Reconvicted

Of the 73 young people reconvicted in the most recent two years of the latest study, 26 were recommitted to DJS (4.7 percent), and 44 were placed on adult probation or sentenced prison (8.0 percent).

2000 North Dakota Division of Juvenile Services Recidivism Study

Comparative Recidivism Rates

Previous recidivism reports noted that the North Dakota juvenile recidivism rate compared favorably to other states that have published results of recidivism studies.¹ A more recent survey of state recidivism methods², conducted by the Texas Youth Commission in 1997, supports the conclusion that North Dakota has the lowest reported statewide recidivism rate in the nation.

The Texas Youth Commission study found that 27 of the 43 states responding to the survey measure recidivism following release from the juvenile justice system, and 21 provided summary statistics. Of these seven use an unstandardized follow-up period, four use a follow-up of greater than 24 months and six defined recidivism as other than reconviction. Only two states reporting data (Colorado and Washington), track recidivism in a manner similar to the North Dakota study. In addition Texas reports a 12-month reinstitutionalization rate of 28.9% and Wisconsin reports a 24-month reinstitutionalization rate of 42.4% for 1992.

Figure 2

Comparative Recidivism Rate Reconviction Within Twelve Months

*The Texas definition of recidivism excludes probation sentences.

**The Wisconsin definition of recidivism excludes probation sentences and uses a 24-month follow-up period.

Division of Juvenile Services

Community Services Budget Detail

**Alton Lick
Director**

Salaries and Wages

\$2,640,214

The new administrative assistant position in the budget allows the Division to have full-time administrative assistant staff in Williston, Devils Lake, and Dickinson. We started in the late 1980's thinking we could manage the regional offices with half-time administrative support, especially in the smaller regions. This is not the case and this position would staff us at the levels we need.

Operating Expenses

\$2,760,082

- A major increase in this category is ITD's projected rates for the new biennium. Data processing costs increased by \$136,929 over the current biennium's budget. That is a 146 percent increase.
- Operating Fees and Services make up \$1,544,030 of this line item total.
 1. \$577,800 – Tracker fees
 2. \$135,480 – State match for seven (7) Intensive In-Home projects
 3. \$480,000 – Five (5) Day Treatment Programs throughout the state
- Professional Fees - \$250,400
 1. \$245,000 – Diversified Occupations Programs

Equipment

\$97,700

- \$79,200 – replacements for personal computers and printers in our regional offices (federal funds)
- \$18,500 – open-face filing systems in regional offices (federal funds)

Grants

\$4,413,877

The Division is the receiving agency for about 4.7 million dollars in federal funds. There are two (2) types of grants received.

- Approximately 1.7 million dollars from the Office of Juvenile Justice and Delinquency Prevention for a two-year period.
- About one (1) million dollars is passed through to the counties and private providers for the Non-Secure Holdover Program. That program supervises approximately 2,500 adolescents in a two-year period.

The balance of these funds is granted to State and local governments and tribes to keep troubled adolescents out of the juvenile justice system. The distribution of these dollars is granted by a State advisory group appointed by the Governor.

The remaining three (3) million dollars is Juvenile Accountability and Incentive Block Grant dollars. Twenty-five (25) percent is passed through to counties and cities, the balance of the dollars is distributed through a plan the Division submits to the Governor. The Governor has final approval on the expenditure of these funds. There are 14 program areas for which these dollars can be expended. The two areas the State has emphasized are programs that keep adolescents in school, and programs that assist the reservations in dealing with troubled adolescents.

Overview of Juvenile Corrections

**House Appropriations Committee
Representative Timm, Chairman**

March 1, 2001

**By Alton Lick
Director**

Mr. Chairman and members of the full House Appropriations Committee, for the record, I am Al Lick, Director of the Division of Juvenile Services.

Before I get into specific testimony, I want to take a minute to thank the committee for the changes we have been able to make the past two biennia. The renovation in the gymnasium has saved the building and allowed us to really maximize its usage. The addition and renovation of Pine Cottage was completed the first of January this year, and we really appreciate how that has enhanced the total operation of the facility. But the most important improvement, which has had a direct effect upon the lives of young people committed to us, is the twelve-month school year. This past summer school issued 111 high school credits: Eight (8) students completed their GED, four (4) seventh graders were promoted to the eighth grade, and five (5) eighth graders were promoted to the ninth grade. Keeping students current in education increases their chances of success when they return to their local communities. I'm sure our low recidivism rate to juvenile corrections is partly attributable to success in school.

Commitments

<u>Date</u>	<u>Commitments to DJS</u>
4-1-93	418
1-1-96	525
8-1-97	475
6-1-99	525
2-1-01	446

The decrease in commitments of juveniles from 1999 to 2001 is something that will probably continue. However, just looking at numbers can be somewhat deceiving.

- In 1990, the North Dakota juvenile population of young people ages 0-18 was 175,400; so 418 commitments meant we had 2.4 percent of young people in our system.
- In 2000, the total number of young people age 0-18 dropped to 162,400; which means we now have 2.7 percent of this age in our custody.

Major Problem Area

Mixed with the dynamic of the population change is the drastic change in the type of young person we are receiving in juvenile corrections. Data indicates that, about 75 percent of our commitments fit the DSM IV designation. Mixing the problem of mental illness with acting out behavior and/or drug and alcohol usage, has created a very difficult, hard-to-manage population. This is not just a problem in our state, but is a national problem in even larger proportions than we are experiencing in North Dakota. I don't want to leave you with the impression that 75 percent of our caseload consists of these difficult to manage troubled adolescents with co-occurring conditions. Conduct disorders are included in the DSM IV designation, which are your typical behavioral related correctional young person. However, it should be noted that approximately 30 percent of our caseload is made up of hard-to-manage young people with co-occurring conditions.

These more difficult to treat young people have caused us to rethink and change many of our methods and resources we have used in the past for treatment and rehabilitation. The first thing we have done is change our training curriculum. Our last quarterly training in February included a day-long training session from a nationally recognized expert in suicides and suicide prevention. In November, our training will be devoted to managing mental health juveniles in a correctional system. We have contracted with a nationally recognized expert in dealing with mental health problems with juvenile corrections clients.

In order to serve the more difficult and complicated mental health population at the Youth Correctional Center, we contract for child psychiatry and child psychology services. Through a federal grant, we have added a second licensed addiction counselor. There is also a new position for a psychiatric nurse in this budget funded from federal funds. These positions and contract services are all included in the YCC (Youth Correctional Center) budget. In the Community, our commitments receive mental health services from the Human Service Centers. Because we are part of the common foster care system, we are also eligible to place youngsters at the residential treatment centers in North Dakota.

There are also eight long-term mental health beds for adolescents available at the State Hospital. We also have, at any given time, six (6) to eight (8) placements out-of-state.

One of our missions is to provide public safety. You can easily see the pressures created when we have communities where local services vary greatly. This is one of the reasons we now manage about 10 percent fewer commitments in the community than in the past.

Recidivism

As has been the tradition in the past, we contracted with Toucan Research to conduct a recidivism rate study for youth committed to the Division the past two years. As you can tell by looking at Attachment #2, we have done well in maintaining our low recidivism rates. In 1997-98, we dropped to a low of 9.6 percent, but then jumped to 17.0 percent for 1998-99. The research firm we use did not seem concerned and stated random fluctuations can be expected because of the low number of recidivists we have.

Attachment #3 gives you a comparison as to how North Dakota's recidivism rate compares to other states who use the same definition and time period. It is quite evident we are not feeding the large increase in the adult population.

Arrest Data

Attachment #4 indicates there has been a decrease in juvenile arrests over the past three years. There was a 6.2 percent decrease in juvenile arrests from 1997 to 1998 and an 8.1 percent decrease from 1998 to 1999. The increase in arrests regarding drug and alcohol offenses is not a surprise since, as mentioned earlier, drug and alcohol usage is a big problem with troubled adolescents.

Budget Item

I would like to mention one budget item to the full committee. About four years ago, the teachers at the Youth Correctional Center, Deaf School, and Blind School, through an Attorney General's opinion, were removed from the state classification system. This group of employees was placed on a state teacher salary schedule for all three institutions. The teachers at YCC have fallen behind the teachers at the Deaf and Blind Schools. There is an amount of \$292,000, in YCC's budget request to get our teachers back on the same level as the teachers at the Deaf School and Blind School. We had also requested this equity adjustment for the teachers for the current biennium, however it was not funded.

**Division of Juvenile Services
Presentation**

House Appropriations Sub-Committee
Human Resources
Representative Svedjan, Chairman

March 5, 2001

**DIVISION OF JUVENILE SERVICES/COMMUNITY
2001-2003 FUNDING REQUESTS INCLUDED IN THE
GOVERNOR'S EXECUTIVE RECOMMENDATIONS**

Salaries and Wages \$2,640,214

Outside of salary support for all Community staff, including the Governor's salary/benefit funding, the additional dollars are to support one full-time administrative support position. We have attempted to staff the smaller offices with half-time office support, but that has not been adequate for our mission. This position will give us full-time support in Williston, Dickinson, and Devils Lake. We have decreased temporary and overtime salaries with the additional FTE support positions. (\$20,000 decrease in part-time temporary.)

Operating Expenses \$2,861,082

▪ Data Processing/Telecommunications - \$298,452 (See Schedule)

Includes funding for data processing and telecommunications for DJS/Community, based on ITD's projected rates for 2001-2003. Data processing costs increased by \$136,929, a 146 percent increase over the current biennium's budget of \$93,915. Also includes funding for cellular phones for the Director, two (2) regional managers, and one phone for each of the nine (9) regional offices.

▪ Travel - \$242,546

Includes funding for motor pool expenses. Allows for an average of 16,550 miles/month x 24 months @ \$.26/mile, and 1,500 miles/month x 24 months @ \$.39/mile - \$117,305. Also includes funding for in-state and out-of-state travel expenses for Director, regional managers, and case managers - \$76,541; travel costs for the interstate compact coordinator for ongoing training and administrative support - \$5,000; mileage costs for the return of runaways - \$2,000; family mileage reimbursement - \$3,000; mileage paid to trackers statewide who provide aftercare to youth transitioning back into the community - \$24,600; travel costs for juvenile trainers and consultants - \$10,800; and diversified occupations program - \$3,300.

- Lease/Rentals - \$203,696

Funding included covers office space costs and parking fees at nine (9) regional offices - \$165,644. Also includes monthly copier rental and maintenance agreement costs at the regional offices to include an increase in funding to upgrade the copier at the Minot regional office during the upcoming biennium - \$38,052.

- IT Software/Supplies - \$6,748

Funding to purchase, upgrade, and maintain software as needed.

- IT Contractual Services - \$83,675

Funding to continue technology support for the regional offices and to expand the offender management system to incorporate additional modules to provide access to real-time data and efficiencies in case management.

- Dues and Professional Development - \$22,550

Registration and conference fees, presenter fees for DJS quarterly meetings, staff development training for regional services staff, national association dues. (\$19,200 FF Technology Plan.)

▪ Operating Fees and Services - \$ 1,645,030

1. Includes funding for tracker fees - \$577,800
2. Funding for tracker training costs - \$ 104,000 (50%General/50%Federal)
3. Continuation funding for State match for seven Intensive In-home projects - \$135,480
4. Ongoing funding for Victims Advocacy Program in Fargo - \$ 84,000 (80% Federal/20% General)
5. Continuation funding to support two ND Partnership care coordinators (case managers) out posted in Bismarck and Fargo DJS offices - \$72,000
6. Day Treatment programs located at five sites around state - \$480,000
7. Sheriff transportation fees - \$161,000
8. Miscellaneous: Safe beds for youth - \$2,250, electronic monitoring fees - \$6,000, ACA accreditation fees - \$4,500, and juvenile training and consultant fees - \$18,000

Bismarck level

(Fed. money)

▪ Professional Services - \$242,200

State funding for the Diversified Occupational Programs - \$ 236,800, and other miscellaneous professional services - \$5,400

▪ Medical/Dental/Optical - \$10,700

Funding to purchase drug testing kits and adulteration strips.

▪ Other Expenses - \$105,485

Funding for postage - \$40,100, repairs - \$9,600, office supplies - \$23,200, insurance - \$8,535, printing costs - \$9,100, miscellaneous equipment under \$750 - \$10,000 and other miscellaneous expenses - \$4,950.

Equipment

\$97,700

- \$79,200 – replacement of the computers and printers in all of our regional offices. Federal funds cover all of these costs.

- \$18,500 – State law dictates we must save the juvenile records we accumulate for 10 years after the age of 18. With that law in place, we need to instate an open-faced filing system in each regional office in order to save space. These costs are also supported by federal funds.

Grants

\$4,413,877

The Division is the receiving agency for approximately 4.7 million dollars in federal funds. There are two distinct types of grants received.

- 1). Approximately 1.7 million dollars is received from the Office of Juvenile Justice and Delinquency Prevention (OJJDP) for a two-year period.

- About one million dollars is passed through to the counties and private providers for the Non-Secure Holdover Program. The program supervises about 2,500 adolescents in a biennium.
- The balance of these funds is granted to State and local units of government, private providers, and Tribes to keep troubled adolescents out of the juvenile justice system.

2). The remaining three million dollars is Juvenile Accountability and Incentive Block Grant (JAIBG) dollars.

- Twenty-five (25) percent is passed through to the cities and counties and they must spend it within twelve prescribed program areas.
- The balance of the dollars is expended through a plan the Division submits to the Governor for approval. We must stay within the twelve programs and we emphasize programs to keep young people in school and assist the Reservations in dealing with troubled adolescents.

TOTAL DJS-COMMUNITY BUDGET - \$10,012,873

Funding Sources:	General Funds	\$ 4,481,920
	Federal Funds	\$ 5,503,553

MEMO

TO: Al Lick, Director
FROM:  Susan H. Wagner, LSW
DATE: March 6, 2001
RE: Vocational Funds

On Monday, March 5, 2001, I contacted Wanda Geier, regional director of Vocational Rehabilitation regarding programs/funding for services for youth. Wanda advised me that normally their involvement with youth is in joint planning with other agencies involved with the youth and maybe career exploration and/or training if that's appropriate. There is no funding available from their division until a youth graduates from school. Wanda indicated that the costs for services for youth in school is the responsibility of the school. I asked Wanda if there was new program emphasis or new money targeted for youth and she said she wasn't aware of anything. She did refer me to Gene Hysjulien, the state administration of Vocational Rehabilitation, for more information.

I contacted Gene but he wasn't available so I left a message. He called back to say that in order to qualify for vocational rehabilitation, the disability must prevent the individual from employment. Behavioral/correctional issues alone no longer qualify an individual for services.

One important factor here is that not all the kids in DO programming meet eligibility requirements for vocational rehabilitation services or have the kind of disability that falls within the realm of vocational rehabilitation services. In fact, DO was initially developed for adjudicated youth who were in trouble not disabled in the sense that vocational rehabilitation is appropriate.

January 16, 2001

NORTH DAKOTA YOUTH CORRECTIONAL CENTER
2001- 2003 BUDGET PRESENTATION
January 16, 2001

Senate Appropriations Committee
Chairman: Senator Dave Nething
Vice Chairman: Senator Ken Solberg

Introduction

- A. Mr. Chairman and members of the Senate Appropriations Committee. I thank you for the opportunity to meet with you this morning to review NDYCC's 2001-2003 Budget Proposal as recommended by the Governor.

Highlights for the 1999-2001 Biennium

- A. **ACA Accreditation** – Commission of Accreditation through the American Correctional Association – August 1999.
- B. **North Central Accreditation – (NCA)**
Public declaration to educational improvements on an annual basis. It's an ongoing commitment to provide the best educational services possible.
- C. **12 Month Extended School Schedule**
NDYCC has just completed 2 years of the extended school schedule. The extended school program went from 180 days as required for other school districts to 230 school days. The extended school program gives students an opportunity to complete more educational credits while placed at NDYCC. On average juveniles referred to our facility are 8.2 credits behind.
- D. **Drug and Alcohol Program –**
Licensed as an Intensive Outpatient Treatment Program by the Division of Mental Health and Substance Abuse/Department of Human Services.
- E. **Medical Service Agreement – MedCenter One Health Systems**
- | | |
|---------------------|---|
| Medical Director | Medical Waste |
| Physician | Dietary Services |
| (1) Additional RN | Pharmacy |
| Hospital Services | Psychiatry (16 hours/month) |
| Laboratory Services | Psychological Services (32 hours/month) |
- F. **Capital Improvements**
Pine Cottage – Renovation and Addition -- \$1.9
- G. **Extraordinary Repairs**
Renovation of staff supervision areas in Hickory, Maple and Brown Cottages. -- \$11,600
Installation of a Dust Collector System located in the Tech Educational Shop in the Administration/School building. -- \$20,000
- H. **Equipment**
- Security Camera in Brown, Hickory and Maple Cottages -- \$16,164
 - Bobcat = \$14,000

Closing Remarks

I again want to thank-you for your time and support. We need to continually view our population not as just children at risk but children of promise. We extend an invitation for you to visit NDYCC at your convenience. I will be glad to answer any questions, you may have.

LC

YOUTH CORRECTIONAL CENTER - TEACHER SALARY COMPARISON

The 1995 Legislative Assembly (Senate Bill No. 2211) removed teachers at the Youth Correctional Center, School for the Blind, and School for the Deaf from the state classified personnel system. North Dakota Century Code (NDCC) Section 15-47-27.2 directs the Superintendent of Public Instruction and the director of the Department of Corrections and Rehabilitation to develop personnel policies for teachers employed by their respective departments.

Pursuant to NDCC Section 15-47-27.2, the Central Personnel Division conducted a salary study on behalf of the Department of Public Instruction and the Department of Corrections and Rehabilitation. The study included a survey of selected public schools to develop a comparison of teacher salaries at the Youth Correctional Center, School for the Blind, and School for the Deaf and teacher salaries at various public schools. Selected schools were Bismarck, Devils

Lake, Fargo, Grand Forks, Mandan, and Minot, North Dakota; and Crookston and Moorhead, Minnesota. As a result of the study, the Central Personnel Division developed a proposed salary schedule for teachers in the three agencies. A copy of the summary report and proposed salary schedule is attached as an appendix.

The summary report indicates that the target salary schedules prepared by the Central Personnel Division would place teacher salaries at the three state agencies approximately eight percent below the teacher salaries at the surveyed public schools. The report also indicates that teacher pay at the three agencies lagged the market by a similar percentage at the time the teachers were removed from the central personnel system in 1995.

Teacher salaries at the Youth Correctional Center compare with teacher salaries in the Bismarck and Mandan area and the rest of the state, as follows:

	Average Teacher Salary - 2000-01 School Year	Projected Average Teacher Salary - 2002-03 School Year
Youth Correctional Center	\$29,196 ¹	\$34,279 ¹
Comparison to Bismarck/Mandan		
Bismarck Public Schools	\$34,724 ²	\$38,224 ³
Mandan Public Schools	\$28,878 ²	\$32,378 ³
Average of Bismarck/Mandan	\$31,801	\$35,301
Youth Correctional Center percentage above (below)		
Bismarck Public Schools	(18.9%)	(11.5%)
Mandan Public Schools	1.1%	6.6%
Average of Bismarck/Mandan	(8.9%)	(3.0%)
Comparison to statewide average		
All North Dakota public schools	\$30,891 ²	\$34,391 ³
Youth Correctional Center percentage above (below) statewide average	(5.8%)	(0.3%)

¹ The amount shown is the salary amount excluding benefits, as provided by the Youth Correctional Center. The 2002-03 amount is based on the distribution of additional teacher salary increases, pursuant to the attached salary schedule, for which funding is included in the Schafer and Hoeven budget recommendations and Senate Bill No. 2016, as passed by the Senate.

² The amount shown is the salary amount excluding benefits, as provided by the North Dakota Education Association.

³ The amount shown is based on the 2000-01 amount adjusted to reflect salary increases of \$1,750 per year during the 2001-03 biennium, as included in House Bill No. 1344, as passed by the House.

Pursuant to NDCC Section 15-47-27.2, the Central Personnel Division conducted a salary study on behalf of the Department of Public Instruction and the Department of Corrections and Rehabilitation. The

study included a survey of selected public schools to develop a comparison of teacher salaries at the Youth Correctional Center, School for the Blind, and School for the Deaf and teacher salaries at various public schools. Selected schools were Bismarck, Devils Lake, Fargo, Grand Forks, Mandan, and Minot, North Dakota; and Crookston and Moorhead, Minnesota. As a result of the study, the Central Personnel Division developed a proposed "composite salary schedule" for teachers in the three agencies.

Teacher salaries at the Youth Correctional Center compare with teacher salaries in the Bismarck and Mandan area and the rest of the state as follows:

	Average Teacher Salary - 2000-01 School Year	Projected Average Teacher Salary - 2002-03 School Year (Based on Funding Included in House Version of SB 2016)
Youth Correctional Center	\$29,196 ¹	\$33,675 ¹
Comparison to Bismarck/Mandan		
Bismarck Public Schools	\$34,724 ²	\$38,224 ³
Mandan Public Schools	\$28,878 ²	\$32,378 ³
Average of Bismarck/Mandan	\$31,801	\$35,301
Youth Correctional Center percentage above (below)		
Bismarck Public Schools	(18.9%)	(13.5%)
Mandan Public Schools	1.1%	3.9%
Average of Bismarck/Mandan	(8.9%)	(4.8%)
Comparison to statewide average		
All North Dakota public schools	\$30,891 ²	\$34,391 ³
Youth Correctional Center percentage above (below) statewide average	(5.8%)	(2.1%)

¹ The amount shown is the salary amount, excluding benefits, as provided by the Youth Correctional Center. The 2002-03 amount is based on the distribution of \$200,000 for teacher salary increases during the 2001-03 biennium in addition to the executive budget compensation package of three percent the first year of the biennium and two percent the second year. The cost to fully fund the salary increases indicated on the composite salary schedule developed by Central Personnel is \$291,375. The amount provided in Senate Bill No. 2016 (with House amendments) is \$200,000 plus the executive budget compensation package of three percent the first year of the 2001-03 biennium and two percent the second year.

² The amount shown is the salary amount, excluding benefits, as provided by the North Dakota Education Association.

³ The amount shown is based on the 2000-01 amount adjusted to reflect total salary increases of \$5,250 per teacher during the 2001-03 biennium. For the purpose of this analysis, the public schoolteacher salary increases are assumed to be distributed \$1,750 the first year of the biennium and an additional \$1,750 the second year, for a total increase of \$3,500 during the 2001-03 biennium, compared to the 2000-01 salary level. Actual salary increases received by public schoolteachers may be different than the amounts shown. House Bill No. 1344, as passed by the Senate, provides for teacher bonus payments of \$1,300 per year and legislative intent that 70 percent of the amount received for foundation aid be used to provide teacher compensation.

YOUTH CORRECTIONAL CENTER - TEACHER SALARY COMPARISON

The 1995 Legislative Assembly (Senate Bill No. 2211) removed teachers at the Youth Correctional Center, School for the Blind, and School for the Deaf from the state classified personnel system. North Dakota Century Code (NDCC) Section 15-47-27.2 directs the Superintendent of Public Instruction and the director of the Department of Corrections and Rehabilitation to develop personnel policies for teachers employed by their respective departments.

Pursuant to NDCC Section 15-47-27.2, the Central Personnel Division conducted a salary study on behalf of the Department of Public Instruction and the Department of Corrections and Rehabilitation. The

study included a survey of selected public schools to develop a comparison of teacher salaries at the Youth Correctional Center, School for the Blind, and School for the Deaf and teacher salaries at various public schools. Selected schools were Bismarck, Devils Lake, Fargo, Grand Forks, Mandan, and Minot, North Dakota; and Crookston and Moorhead, Minnesota. As a result of the study, the Central Personnel Division developed a proposed "composite salary schedule" for teachers in the three agencies.

Teacher salaries at the Youth Correctional Center compare with teacher salaries in the Bismarck and Mandan area and the rest of the state as follows:

	Average Teacher Salary - 2000-01 School Year	Projected Average Teacher Salary - 2002-03 School Year (Based on Funding Included in House Version of SB 2016)
Youth Correctional Center:	\$29,196 ¹	\$33,675 ¹
Comparison to Bismarck/Mandan		
Bismarck Public Schools	\$34,724 ²	\$37,724 ³
Mandan Public Schools	\$28,878 ²	\$31,878 ³
Average of Bismarck/Mandan	\$31,801	\$34,801
Youth Correctional Center percentage above (below)		
Bismarck Public Schools	(18.9%)	(12.0%)
Mandan Public Schools	1.1%	5.3%
Average of Bismarck/Mandan	(8.9%)	(3.3%)
Comparison to statewide average		
All North Dakota public schools	\$30,891 ²	\$33,891 ³
Youth Correctional Center percentage above (below) statewide average	(5.8%)	(.6%)

¹ The amount shown is the salary amount, excluding benefits, as provided by the Youth Correctional Center. The 2002-03 amount is based on the distribution of \$200,000 for teacher salary increases during the 2001-03 biennium in addition to the executive budget compensation package of three percent the first year of the biennium and two percent the second year. The cost to fully fund the salary increases indicated on the composite salary schedule developed by Central Personnel is \$291,375. S B 2016

YOUTH CORRECTIONAL CENTER - FUNDING FOR ADDITIONAL TEACHER COMPENSATION PAYMENTS

House Bill No. 1344 as passed by the Senate included an appropriation for bonus payments of \$1,300 per year for teachers in public schools. The bill also contained legislative intent that school districts use 70 percent of the state foundation aid payments for the purpose of teacher compensation. The intent was that teachers be provided additional compensation of at least \$5,250 during the 2001-03 biennium.

Funding is included in Senate Bill No. 2016, with House amendments, to partially fund the teacher composite salary schedule developed by Central Personnel and to provide Youth Correctional Center teachers the executive compensation package salary increases of three percent the first year and two percent the second year. If an additional \$5,250 is provided for each teacher and instructional personnel at the Youth Correctional Center, the cost for the 2001-03 biennium is as follows:

Position	FTE ¹	Cost of Additional \$5,250 Compensation
Instructional program coordinator	0.71	\$3,728
Guidance counselor	1.70	8,925
Instructional programmer	0.50	2,625
Library media specialist	0.86	4,515
Teacher	18.23	95,708
Total	22.00	\$115,501

¹ The number of FTE is based on personnel reported to the Department of Public Instruction (DPI). The Department of Public Instruction compiles personnel information for public school districts and the Youth Correctional Center, School for the Deaf, and School for the Blind, which are approved schools. For DPI reporting purposes, a nine-month teacher position is a one FTE, whereas a nine-month position reported to the Office of Management and Budget for a state agency is considered a .75 FTE. The information included in this memorandum reflects the DPI reporting model and is consistent with similar information reported for public school districts.

YOUTH CORRECTIONAL CENTER - TEACHER SALARY COMPARISON

The 1995 Legislative Assembly (Senate Bill No. 2211) removed teachers at the Youth Correctional Center, School for the Blind, and School for the Deaf from the state classified personnel system. North Dakota Century Code (NDCC) Section 15-47-27.2 directs the Superintendent of Public Instruction and the director of the Department of Corrections and Rehabilitation to develop personnel policies for teachers employed by their respective departments.

Pursuant to NDCC Section 15-47-27.2, the Central Personnel Division conducted a salary study on behalf of the Department of Public Instruction and the Department of Corrections and Rehabilitation. The

study included a survey of selected public schools to develop a comparison of teacher salaries at the Youth Correctional Center, School for the Blind, and School for the Deaf and teacher salaries at various public schools. Selected schools were Bismarck, Devils Lake, Fargo, Grand Forks, Mandan, and Minot, North Dakota; and Crookston and Moorhead, Minnesota. As a result of the study, the Central Personnel Division developed a proposed salary schedule for teachers in the three agencies. A copy of the summary report and proposed salary schedule is attached as an appendix.

Teacher salaries at the Youth Correctional Center compare with teacher salaries in the Bismarck and Mandan area and the rest of the state, as follows:

	Average Teacher Salary - 2000-01 School Year	Projected Average Teacher Salary - 2002-03 School Year (Based on Funding Included in House Version of SB 2016)
Youth Correctional Center	\$29,196 ¹	\$32,706 ¹
Comparison to Bismarck/Mandan		
Bismarck Public Schools	\$34,724 ²	\$38,224 ³
Mandan Public Schools	\$28,878 ²	\$32,378 ³
Average of Bismarck/Mandan	\$31,801	\$35,301
Youth Correctional Center percentage above (below)		
Bismarck Public Schools	(18.9%)	(16.9%)
Mandan Public Schools	1.1%	1.0%
Average of Bismarck/Mandan	(8.9%)	(7.9%)
Comparison to statewide average		
All North Dakota public schools	\$30,891 ²	\$34,391 ³
Youth Correctional Center percentage above (below) statewide average	(5.8%)	(5.2%)

¹ The amount shown is the salary amount excluding benefits, as provided by the Youth Correctional Center. The 2002-03 amount is based on the distribution of \$200,00 for additional teacher salary increases during the 2001-03 biennium. The cost to fully fund the salary increases indicated on the attached salary schedule is \$291,375. The amount provided in Senate Bill No. 2016 is \$200,000. Consequently, the salary schedule increases were reduced by approximately 31 percent to arrive at the average amount shown on this memorandum.

² The amount shown is the salary amount excluding benefits, as provided by the North Dakota Education Association.

³ The amount shown is based on the 2000-01 amount adjusted to reflect salary increases of \$5,250 per teacher during the 2001-03 biennium, as provided for in House Bill No. 1344, as passed by the Senate. For the purpose of this analysis, the public schoolteacher salary increases are assumed to be distributed \$1,750 the first year of the biennium and an additional \$1,750 the second year. Actual salary increases received by public schoolteachers may be different than the amounts shown.

ATTACH:1

SUMMARY REPORT OF TEACHER STUDY
Conducted by Central Personnel Division
March, 2000

Purpose of Study

At the request of the Superintendent of Public Instruction and the Director of the Department of Corrections, to conduct a comparison of public school teacher salaries and benefits with teacher salaries and benefits at North Dakota School for the Deaf (NDSD), North Dakota School for the Blind (NDSB), and the Youth Correctional Center (YCC).

Scope of Study

Public Schools selected for the survey were: Bismarck, Devils Lake, Fargo, Grand Forks, Mandan, and Minot in North Dakota; and Crookston and Moorhead in Minnesota. Those schools in Minnesota were selected because of the proximity to the NDSD and NDSB. Information was also requested of East Grand Forks, Minnesota; however, they did not respond.

Results Overview – Composite Salary Schedule

A Composite Salary Schedule was developed using 1999-2000 data (attached at the end of this report). At the time of data collection, some schools were still in the midst of their negotiation process for the next year and did not have 2000-2001 salary schedules prepared.

Discussion and Analysis of Composite Schedule

Since the time teachers were removed from the classified service, target salary schedules have been developed that somewhat mirror the pay line of the classified service in relationship to the market. The classified service pay lagged market pay by about eight percent at comparable grade levels, and the target salary schedules were set about eight percent below the surveyed market.

The target salary schedules are step systems, like school districts use, that place employees at a designated step on the schedule. They are very difficult to fund – not only because of the lock-step increase for each additional year of service, but also because employees can move across the schedule by gaining additional credentials. Furthermore, it is difficult to predict, when budgeting nearly three years in advance, the number of teachers that will reach another lane during a biennium, much less to predict at what lane a new teacher coming into the system will be placed. Therefore, the Central Personnel Division is proposing another concept – the composite salary schedule.

The Composite Salary Schedule, like target salary schedules in the past, advances cross based on credentials, while it advances down based on years of service. The amount of the increments for credentials is greater than that for years of service, thereby recognizing the value of additional education in the profession.

Specifically, the salary schedule advances \$850 to the second lane (i.e. Bachelor's + 15), \$925 from the second to the third lanes, \$950 from the third to the fourth, \$975 from the fourth to the fifth, and \$1000 to each of the lanes beyond. As we have indicated in the past, the primary advantage of graduating amounts is that there is an incentive and reward for teachers to obtain more education in their field.

The schedule advances \$725 per step within each lane. This figure was arrived at by evenly distributing the difference from step 0 to the maximum and considering points in between in relation to the market. Flat amounts from step to step versus graduating amounts reflect that additional experience alone does not increase the value of an employee, but that experience together with additional credentials makes an employee more valuable to the organization.

The Composite Salary Schedule would be in place for one biennium, whereas we previously developed a target schedule for each year of the biennium.

The other piece of the Composite Salary Schedule approach is a model designed to award the largest percentage of available salary dollars to those furthest behind their corresponding point on the composite schedule.

Advantages of Composite Salary Schedule approach:

- a. Composite provides a market snapshot every two years.
- b. Provides a means to measure teachers' pay against market pay (depending on legislative funding, schools may not ever be on target).
- c. Flexibility in prioritizing salary adjustments based on various factors, i.e. equity, special project assignments, performance, etc.

Disadvantages of Composite Salary Schedule approach:

- a. No lock-step for teachers targeted pay
- b. Administrators may need to monitor internal teacher pay equity more closely
- c. No predetermined relationship to market

Lanes

In 1998, we added an eighth lane, for a Master's plus 60 graduate credits or a doctorate in education. This lane was added to recognize a teacher for achieving the next educational milestone. The following table shows the lanes that each of the surveyed schools recognize:

District	BA	BA + 15	BA + 30	BA + 45	BA + 60	MA	BA + 75	MA + 15	BA + 90	MA + 30	BA + 105	MA + 45	MA+60/EDO
Bismarck	X	X	X	X		X		X		X			X
Crookston	X	X	X	X	X	X		X		X			
D. Lake	X	X (16)	X (32)	X (48)		X		X (16)		X (32)			
Fargo	X	X	X	X		X		X		X		X	
G. Forks	X	X	X			X		X		X			
Mandan	X	X (16)	X			X		X (16)		X			
Minot	X	X (16)	X	X		X		X (16)		X		X	
Moorhead	X	X	X	X	X	X	X	X	X	X	X	X	

Steps

The following table indicates the number of steps that each of the surveyed schools has in the corresponding lane:

District	BA	BA + 15	BA + 30	BA + 45	BA + 60	MA	BA + 75	MA + 15	BA + 90	MA + 30	BA + 105	MA + 45	MA+60/EDO
Bismarck	13	21	23	23		25		25		25			25
Crookston	16	16	16	16	16	16		16		16			
D. Lake	13	17	20	25		30		30		30			
Fargo	10	10	12	12		12		13		14		15	
G. Forks	17	19	21			23		24		25			
Mandan	18	21	21			22		22		22			
Minot	12	12	21	21		22		22		23		23	
Moorhead	18	18	18	18	19	19	19	19	19	19	19	19	

There is one teacher in the State's three schools who is in the Lane VIII (MA+60/EDD).

Credit on Salary Schedule for Outside Prior Teaching Experience

Bismarck	Bachelors up to 7 yrs Masters up to 6 yrs
Devils Lake	Full credit up to 7 yrs
Fargo	Year-for-year for first 7 yrs, then one year for every two to a maximum of 10 yrs
Grand Forks	Full credit up to 5 yrs
Mandan	Credit for each year of experience if experience is in relation to position
Minot	No outside service credit
Crookston	Negotiated - up to 10 yrs
Moorhead	99-00: full credit up to 7 yrs with discretion up to step 10 w/o regard to prior teaching experience 00-01+: full credit up to 2 yrs with discretion up to step 10 w/o regard to prior teaching experience

Results Overview - Benefits

The table of Teacher Benefit Information is also included at the end of this Summary. The purpose of this information is to show the cost of the various benefits that are provided by the schools surveyed, not to compare the value or quality of benefits in one school to those of another.

Recommendation/Action

The Central Personnel Division recommends that the Composite Salary Schedule approach be adopted.

The Division is also recommending that a review of market pay be conducted biennially to develop a revised Composite Salary Schedule and to the develop models to distribute available salary dollars using the Composite Salary Schedule as a guide. The timing of the market review should coincide with the pay plan development for inclusion in the biennial budget request, as is currently the case. The Central Personnel Division continues to be available to do the market review and develop pay models.

Questions pertaining to this document or the study may be directed to Virginia Rivinius at the Central Personnel Division at 328-3374.

Professional Services – Object Code 3018

With the increase in train traffic on the BNSF the main entrance into the North Dakota Youth Correctional Center is blocked frequently due to traffic and switching of railroad cars. In an effort to reduce concerns a new entrance was proposed coming into the Youth Correctional Center from the south.

The South Entrance Road was a venture that was started with the involvement of the North Dakota National Guard and the North Dakota Highway Department. The National Guard was going to supply the equipment and personnel to clear the area and to build the new entrance road into the facility. The Highway Department was going to supply the blacktop to surface the new road. The North Dakota Youth Correctional Center was to be responsible for the fuel for the equipment and to arrange for the engineering costs for the project. The engineering costs are as follows:

Toman Engineering	\$4,879
University of North Dakota (archeological study)	850
KBM, Inc. (aerial study)	<u>1,560</u>
Total Costs	\$7289

- The National Guard is no longer an option.
- Federal easement has been approved through USDA.
- Funding for the project did not make DOCR's prioritization list at this time.

Mr. Manchester,

This is in response to your request for a bid on the conducting of an archeological survey for the North Dakota Youth Correctional Center Road near Mandan, North Dakota. based upon the maps supplied to me, UNDAR-West would submit a bid of \$850.00. I am also mailing a hard copy of this bid letter to you.

Thank you for asking UNDAR-West to submit a bid for this project. If you have any questions or comments, please contact me.

Sincerely,

Duane Klinner

State Industrial School
701-16th Ave. SW
Mandan, ND 58554

Dear Keith:

This is a recap of the meeting that was held on June 1, 1995.

New bathroom facilities are being added to resident rooms in Brown Cottage, and two bath rooms will share ventilation. Dampers would be required if the building is not provided with a complete automatic sprinkler system. Brown Cottage is required to be sprinklered, but due to budgetary constraints this cannot be done until at least 1997. X

This office would approve the above project without dampers, with the assurance that the sprinkler system will be installed in 1997. The reason this will be acceptable for this period of time is that several safety features are already present so the lack of the sprinkler system should not present a hazard to life and safety for a short time. The facility has electric door locks (operated from a remote location), smoke detection in each resident room, an intercom system, and visual inspections are done at least every 30 minutes. Y

Again, this is acceptable only if the complete automatic sprinkler system is installed in 1997, otherwise the dampers will need to be installed.

Sincerely,

Barb Skogen
Deputy State Fire Marshal

RE: DRESSER DRAWERS IN THE ROOMS OF THE COTTAGES

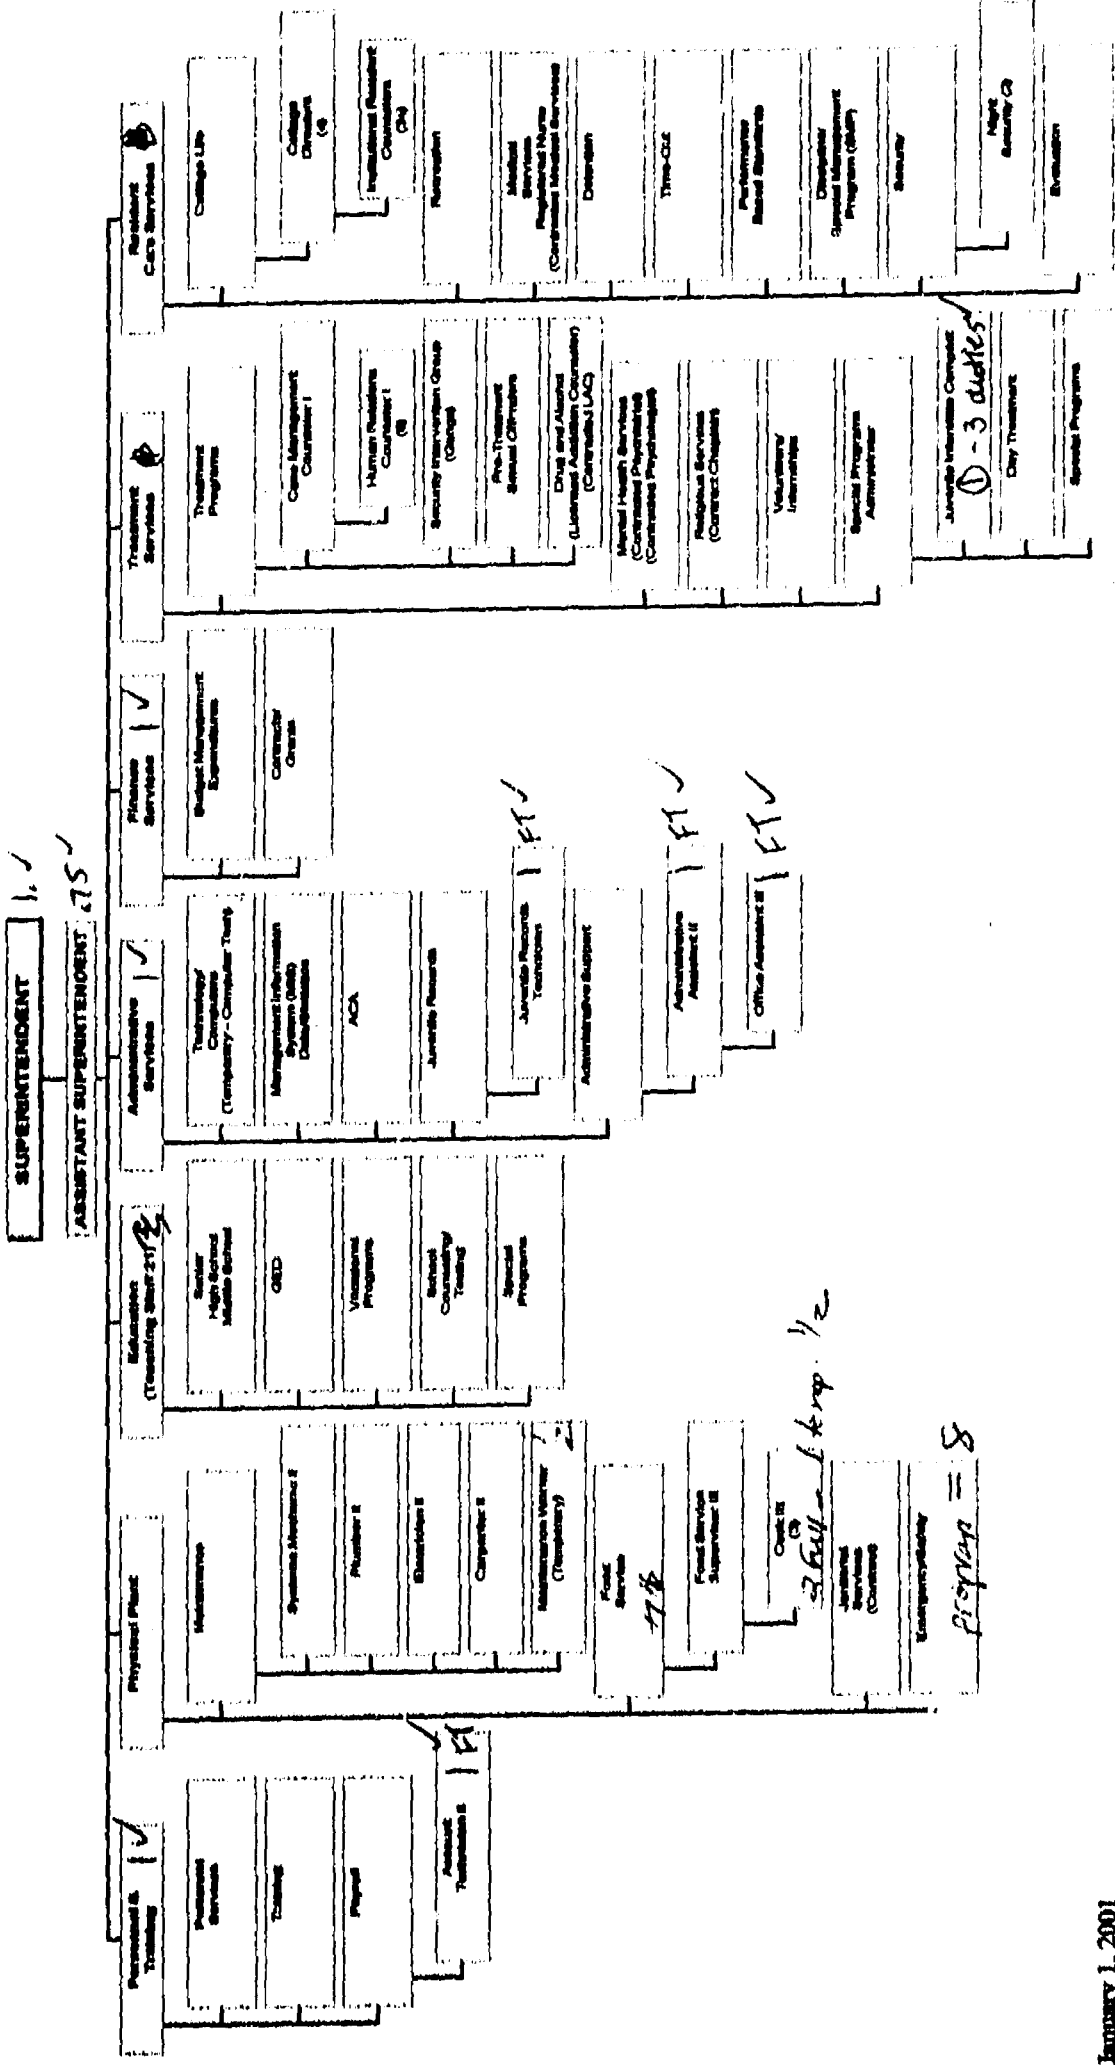

IT WAS BROUGHT TO OUR ATTENTION THERE WAS A PROBLEM WITH HAVING WOOD DRESSER DRAWERS OR CARDBOARD DRESSER DRAWERS IN PINE COTTAGE. THIS WAS NOT A ISSUE FOR US THAT THE DRESSER DRAWERS OF WOOD OR CARDBOARD IN PINE COTTAGE ARE BEING USED FOR THE RESIDENT IN THE ROOM.

YOUR COTTAGES ALL HAVE FIRE ALARM SYSTEMS AND SMOKE DETECTORS IN EVERY ROOM. ONE OF THE COTTAGES HAD A FULL SPRINKLER SYSTEM INSTALLED RECENTLY AND HOPEFULLY THIS WILL BE DONE IN ALL THE COTTAGES.

Juvenile Accountability Incentive Block Grant Program

Background

In Fiscal Year (FY) 1998, Public Law 105-119, Making Appropriations for the Departments of Commerce, Justice and State, the Judiciary, and Related Agencies for Fiscal Year Ending September 30, 1998, and for other purposes (Appropriations Act) appropriated \$250 million for the Juvenile Accountability Incentive Block Grant (JAIBG) program as described in Title III of H.R. 3, as passed by the House of Representatives on May 8, 1997. Although Congress has still not passed authorizing legislation, a third appropriation in the amount of \$238 million was made for juvenile justice purposes in FY 2000, of which \$1.47 million was allocated to North Dakota and its local governments pursuant to the block grant formula.

The Appropriations Act directed the Attorney General to establish guidelines, in consultation with Congress, to assist States in determining whether they may certify eligibility for JAIBG funds. Eligibility is based on certification that the State has formally considered legislation, policies, or practices in four specific areas; and further certified that it has in-place "a policy of testing appropriate categories of juveniles within the juvenile justice system for use of controlled substances."

The four policy areas for eligibility are in general: 1) waiver into adult court of juveniles 15 years old and older for serious violent crime; 2) a system of graduated sanctions; 3) a system of record keeping to pass certain juvenile records into the federal system; and 4) to ensure that state law does not prohibit juvenile courts from issuing orders against parents with regard to supervision. The ND Department of Corrections believes that all four areas were addressed by the Juvenile Justice Task Force in 1994 and the Legislature in 1995. In addition, juveniles in State custody (i.e. Division of Juvenile Services) are already subject to testing for controlled substances.

Funding Allocation

The federal appropriation language contains a "default" allocation formula that states: "Absent a waiver, each State shall distribute not less than 75 percent of the State's allocation received among all units of local government in the State. In making such distribution, the State shall allocate to each unit of local government an amount, by formula, based on a combination of law enforcement expenditures for each unit of local government and the average number of UCR part 1 violent crimes reported by each unit of local government for the three most recent calendar years for which data are available."

The federal appropriation language goes on to state that a "waiver may be requested by a State for the 75 percent pass-through to units of local government if the State demonstrates that it bears the primary financial burden (more than 50 percent) for the administration of juvenile justice within the State." Since the Juvenile Court and the services of the Division of Juvenile Services are state-funded, a comparison of state and local government (city and county) costs for the administration of juvenile justice suggests that close to 80% of the costs are currently borne by the State. Therefore, the State requested and received a waiver of the requirement for FY 2000 to pass-through only 25% of the FY 2000 JAIBG funds to local government. Table 1 details the program allocation of the "State-share" of the funding.

Allocations are made to individual units of local government based on arrest and law enforcement expenditure data. Per the JAIBG guidelines, jurisdictions whose allocation is less than \$5,000 are not eligible for a direct award of JAIBG funds and must join together to exceed this amount to receive their allocation, or the State is required to expend the balance for the benefit of other local jurisdictions. **Table 2** details the programs in which the counties and cities have dedicated the FY 2000 pass-through funding.

Program Guidelines

The purpose of the JAIBG program is to provide states and units of local government with funds to develop programs to promote greater accountability in the juvenile justice system. Twelve program purpose areas have been established for expending JAIBG program funds. **Table 3** provides a description for each of the JAIBG purpose areas.

The JAIBG program requires that, other than the funds set aside for administration, not less than forty-five percent (45%) be allocated to program purpose areas 3 through 9 and not less than thirty-five percent (35%) allocated to program purpose areas 1, 2 and 10. Up to 10 percent (10%) of the JAIBG funds awarded can be used for administrative costs related to the JAIBG program. However, all funds used for administrative costs are subject to the match requirement.

The JAIBG program provides that Federal funds may not exceed ninety percent (90%) of total program costs, including administrative costs. Therefore, matching contributions need to be made for ten percent (10%) of total program costs, with the exception of construction of permanent corrections facilities, which requires a fifty percent (50%) match. The total program costs is comprised of the Federal award amount plus the cash match.

JAIBG program funds cannot be used to supplant state or local funds. They must increase the amount of funds that would otherwise be available from state and/or local sources. JAIBG program funds received but not expended by the end of the grant period must be repaid. The grant period is a two-year period that starts September 1st of the applicable fiscal year and runs through the second subsequent year ending October 30th.

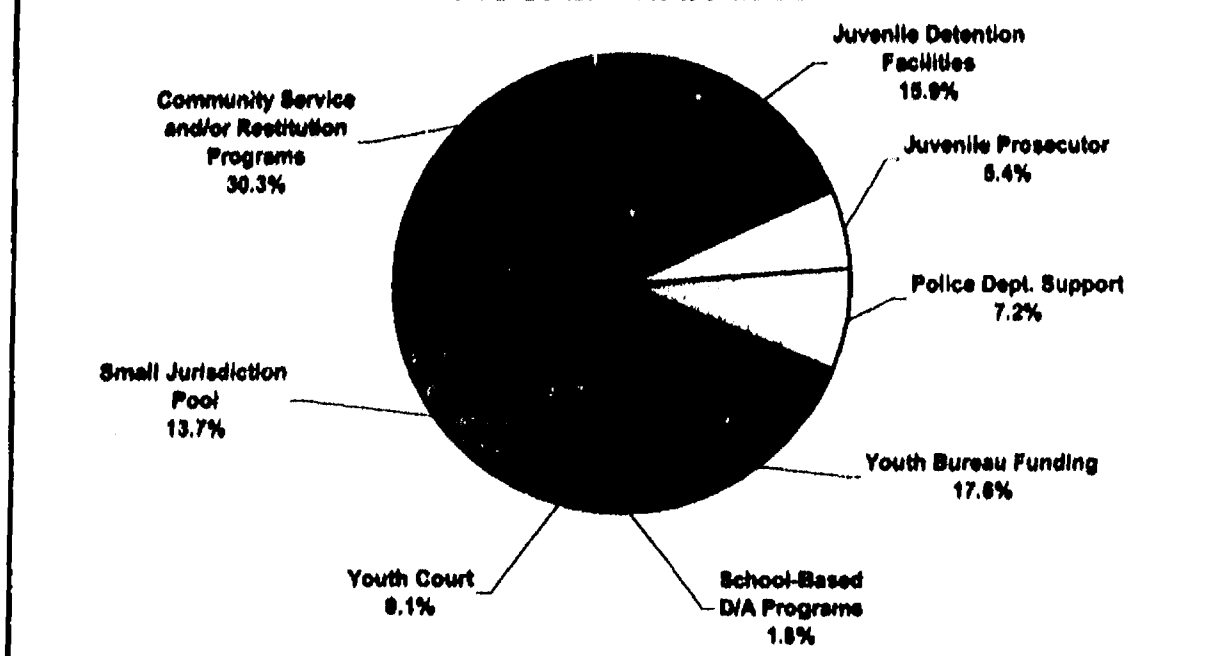

The State and eligible units of local government are required to establish a local Juvenile Crime Enforcement Coalition (JCEC) and develop a coordinated enforcement plan for reducing juvenile crime. The JCEC must include, unless impracticable, individuals representing: (1) police; (2) sheriff; (3) prosecutor; (4) State or local probation services; (5) juvenile court; (6) schools; (7) business; and (8) religious affiliated, fraternal, nonprofit, or social service organizations involved in crime prevention. Additional representation may be added as appropriate. Prevention Policy Boards or other existing groups that focus on youth in lieu of establishing a local JCEC, provided that the membership of such meets the preceding membership requirements.

A coordinated enforcement plan must be developed for reducing juvenile crime. The plan should be based upon an analysis of juvenile justice system needs. The analysis should determine the most effective use of funds within the twelve purpose areas to achieve the greatest impact on reducing juvenile delinquency, improving the juvenile justice system, and increasing accountability for juvenile offenders.

Juvenile Accountability Incentive Block Grant Program FY2000 Program Allocations

Juvenile Accountability Incentive Block Grant (JAIBG) Program Program Purpose Areas

The purpose of the JAIBG Program is to provide States and units of local government with funds to develop programs to promote greater accountability in the juvenile justice system. Funds are available for the following eleven program purpose areas, as enumerated in H.R. 3. In addition, the Appropriations Act provides a twelfth area for which funds may be expended: the implementation of a State or local policy of controlled substance testing for appropriate categories of juveniles within the juvenile justice system.

Purpose Area 1 - building, expanding, renovating, or operating temporary or permanent juvenile correction or detention facilities, including training of correctional personnel;

Purpose Area 2 - developing and administering accountability-based sanctions for juvenile offenders;

Purpose Area 3 - hiring additional juvenile judges, probation officers, and court-appointed defenders, and funding pre-trial services for juveniles, to ensure the smooth and expeditious administration of the juvenile justice system;

Purpose Area 4 - hiring additional prosecutors, so that more cases involving violent juvenile offenders can be prosecuted and backlogs reduced;

Purpose Area 5 - providing funding to enable prosecutors to address drug, gang, and youth violence problems more effectively;

Purpose Area 6 - providing funding for technology, equipment, and training to assist prosecutors in identifying and expediting the prosecution of violent juvenile offenders;

Purpose Area 7 - providing funding to enable juvenile courts and juvenile probation offices to be more effective and efficient in holding juvenile offenders accountable and reducing recidivism;

Purpose Area 8 - the establishment of court-based juvenile justice programs that target young firearms offenders through the establishment of juvenile gun courts for the adjudication and prosecution of juvenile firearms offenders;

Purpose Area 9 - the establishment of drug court programs for juveniles so as to provide continuing judicial supervision over juvenile offenders with substance abuse problems and to provide the integrated administration of other sanctions and services;

Purpose Area 10 - establishing and maintaining interagency information-sharing programs that enable the juvenile and criminal justice system, schools, and social services agencies to make more informed decisions regarding the early identification, control, supervision, and treatment of juveniles who repeatedly commit serious delinquent or criminal acts;

Purpose Area 11 - establishing and maintaining accountability-based programs that work with juvenile offenders who are referred by law enforcement agencies, or which are designed, in cooperation with law enforcement officials, to protect students and school personnel from drug, gang, and youth violence; and,

Purpose Area 12 - implementing a policy of controlled substance testing for appropriate categories of juveniles within the juvenile justice system.
