Minutes: 11 members present, 2 members absent (Rep. Boehning, Rep. Wrangham).

Chairman DeKrey: We will open the hearing on HB 1235.

Rep. Klemin: Introduced the bill (see attached testimony).

Chairman DeKrey: Thank you.

Ken Sorenson, Assistant A.G.: Support. HB 1235 does not address all felonies, only violent felonies.

Rep. Delmore: How can someone's DNA get into the database by mistake.

Mr. Sorenson: You may have an offense that doesn't warrant a DNA test, but a law enforcement officer ran a DNA test.

Rep. Delmore: If it is in the DNA database by mistake, can it still be used later to solve a crime.

Mr. Sorenson: Yes.

Chairman DeKrey: Thank you. Any testimony in support? Any testimony in opposition? We will close the hearing. What are the committee's wishes.

FISCAL NOTE
 Requested by Legislative Council
 01/13/2003

Bill/Resolution No.: HB 1235

1A. State fiscal effect: Identify the state fiscal effect and the fiscal effect on agency appropriations compared to funding levels and appropriations anticipated under current law.

	2001-2003 Biennium		2003-2005 Biennium		2005-2007 Biennium	
	General Fund	Other Funds	General Fund	Other Funds	General Fund	Other Funds
Revenues	\$0	\$0	\$0	\$0	\$0	\$0
Expenditures	\$0	\$0	\$0	\$0	\$0	\$0
Appropriations	\$0	\$0	\$0	\$0	\$0	\$0

1B. County, city, and school district fiscal effect: Identify the fiscal effect on the appropriate political subdivision.

2001-2003 Biennium			2003-2005 Biennium			2005-2007 Biennium		
Counties	Cities	School Districts	Counties	Cities	School Districts	Counties	Cities	School Districts

2. Narrative: Identify the aspects of the measure which cause fiscal impact and include any comments relevant to your analysis.

This bill will not change the required practices of the DOCR regarding the collection of blood or other body fluids for the purpose of DNA identification. As a result there is no fiscal impact when compared to funding levels and appropriations anticipated under current law.

3. State fiscal effect detail: For information shown under state fiscal effect in 1A, please:

A. Revenues: Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.

This bill will not change the required practices of the DOCR regarding the collection of blood or other body fluids for the purpose of DNA identification. As a result there is no fiscal impact when compared to funding levels and appropriations anticipated under current law.

B. Expenditures: Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.

This bill will not change the required practices of the DOCR regarding the collection of blood or other body fluids for the purpose of DNA identification. As a result there is no fiscal impact when compared to funding levels and appropriations anticipated under current law.

C. Appropriations: Explain the appropriation amounts. Provide detail, when appropriate, of the effect on the biennial appropriation for each agency and fund affected and any amounts included in the executive budget. Indicate the relationship between the amounts shown for expenditures and appropriations.

This bill will not change the required practices of the DOCR regarding the collection of blood or other body fluids for the purpose of DNA identification. As a result there is no fiscal impact when compared to funding levels and appropriations anticipated under current law.

Minutes: Senator John T. Traynor, Chairman, called the meeting to order. Roll call was taken and not all committee members present. Sen. Traynor requested meeting starts with testimony on the bill:

Testimony in Support of HB 1235

Rep Lawrence Klemin- House Rep for district 47 (meter 5.7) Introduced the bill. Read

Testimony - Attachment #1

Senator John T. Traynor, Chairman asked if this bill had a fiscal impact. This bill did in the onset and the funds were covered from a federal grant. We still will be covered until 2004 with another grant coming from a federal mandate by President Bush.

Sen. Dever asked if there has been anyone contesting this legislation? Yes and the bill in its new state should clarify these issues. (meter 8.2) In both cases the Supreme Court upheld our legislation.

The micrographic images on this film are accurate reproductions of records delivered to Modern Information Systems for microfilming and were filmed in the regular course of business. Page 2
Senate Judiciary Committee
Bill/Resolution Number HB 1235
Hearing Date 03/18/03

Sen. Traynor questioned why the sunset clause? The startup (meter 9.2) costs and the backlog of information that had to be done was very expensive and we were still waiting for the federal grant moneys to be appropriated.

Jonathan Byers - Attorney Generals Office (meter 10.2) We are in support of this bill. Discussed the two challenges to the bill (meter 10.2) one was a non sex crime and the other the criminal was in custody when the bill was past and he thought he would be exempt.

Additional discussion of fiscal impact. Discussion of the data bank and if it has yet solved a crime. Discussion of the process being a "cotton swab" or an oral swab taken from the inside of the mouth and this can be used to match; blood, semen, saliva on the end of a cigarette but...
more DNA discussion (meter 13.9)

**HOUSE BILL 1235
TESTIMONY OF REP. LAWRENCE R. KLEMIN
HOUSE JUDICIARY COMMITTEE
FEBRUARY 4, 2003**

Mr. Chairman and members of the House Judiciary Committee. I am Lawrence R. Klemin, Representative from District 47 in Bismarck. I am here today to testify in support of House Bill 1235.

In the 2001 Legislative Session, I sponsored a bill to significantly expand the requirements for DNA testing to include persons convicted of most major felonies. The law had previously applied only to sex offenders. The law that was passed in the 2001 Session included a sunset clause and the law now expires on July 31, 2004. One purpose of House Bill 1235 is to remove the sunset clause so that the law will not automatically expire.

Another purpose of House Bill 1235 is to expand the DNA testing requirements to include persons convicted of all felonies. The bill also makes clarifications in the law to confirm the original intent that the DNA testing would be required of persons already in prison for conviction of felonies, not just those newly convicted.

Finally, the bill makes it clear that convictions will not be reversed simply because DNA samples may have been placed in the data base by mistake. This does not mean that convictions can't be reversed for other reasons, but eliminates a technicality.

The DNA data base is used as part of a national program to identify offenders of unsolved crimes. It can also be used to exonerate persons previously convicted of crimes they did not commit as evidence becomes available.

Mr. Chairman and members of the Committee, I urge you to give a "do pass" recommendation to House Bill 1235.

The micrographic images on this film are accurate reproductions of records delivered to Modern Information Systems for microfilming and were filmed in the regular course of business. The photographic process meets standards of the American National Standards Institute (ANSI) for archival microfilm. NOTICE: If the filmed image above is less legible than this Notice, it is due to the quality of the document being filmed.

HOUSE BILL 1235 TESTIMONY OF REP. LAWRENCE R. KLEMM SENATE JUDICIARY COMMITTEE MARCH 18, 2003

Mr. Chairman and members of the Senate Judiciary Committee. I am Lawrence R. Klemm, Representative from District 47 in Bismarck. I am here today to testify in support of House Bill 1235.

In the 2001 Legislative Session, I sponsored a bill to significantly expand the requirements for DNA testing to include persons convicted of most major felonies. The law had previously applied only to sex offenders. The law that was passed in the 2001 Session included a sunset clause and the law now expires on July 31, 2004. One purpose of House Bill 1235 is to remove the sunset clause so that the law will not automatically expire.

Another purpose of House Bill 1235 is to make a clarification in the law to confirm the original intent that the DNA testing would be required of persons already in prison for conviction of felonies, not just those newly convicted. This is the reason for changing the word "and" to "or" in Section 1 on page 1, line 17. Another clarification is in Section 2 to confirm that the DNA data base applies to all applicable criminal offenses, not just to sex related crimes.

Finally, the bill makes it clear that convictions will not be reversed simply because DNA samples may have been placed in the data base by mistake. This does not mean that convictions can't be reversed for other reasons, but eliminates a technicality.

The DNA data base is used as part of a national program to identify offenders of unsolved crimes. It can also be used to exonerate persons previously convicted of crimes they did not commit as evidence becomes available.

Mr. Chairman and members of the Committee, I urge you to give a "do pass" recommendation to House Bill 1235.

The micrographic images on this film are accurate reproductions of records delivered to Modern Information Systems for microfilming and were filmed in the regular course of business. The photographic process meets standards of the American National Standards Institute (ANSI) for archival microfilm. NOTICE: If the filmed image above is less legible than this Notice, it is due to the quality of the document being filmed.
