Minutes:

Senator Karen Krebsbach, Chairman opens SB 2248. All senators present.

Cory Fong, Deputy Secretary of State (Testimony attached)

Senator Krebsbach : What has changes that has not been practiced in the past?

Fong: Most all of it.

Senator Brown: I have a sister who is legally blind, does not have a driver's license, and needs help in the voting booth, how does she vote?

Fong: Currently the law says that she can receive assistance from both election judges or your sister can receive assistance from a person of her choice, but that person can not be an employer, agent of their union or a candidate or relative of a candidate. Her daughter could help her.

Mike Montplaisier, Cass County City Auditor (Testimony attached)

Most counties would not use this. We probably wouldn't use these in primary elections but would in general elections.

Senator Krebsbach : This would be a separate voting place but would still have voting available at the courthouse?

Montplaisier: Early voting would be at the courthouse.

Senator Nelson: would you have 9 different machines, 1 for each district or would you be able to program for each person?

Montplaisier: The current ballot wouldn't change and we could use a scanner and total the votes correctly.

Senator Brown: In a general election how many absentee ballots came back?

Montplaisier: Almost 100%.

Senator Dever : Would you restrict campaigning within the confines of the voting place?

Montplaisier: We usually do not allow campaigning in the courthouse.

Dave Kemnitz, President of the AFL/CIO : We put returned postage to get back the ballots and we have to get them returned to our facility. We did return them to the auditor's office for our members. We support the amendments from the Secretary of State.

Cory Fong, deputy Secretary of State, (Testimony and new amendments attached replacing old ones)

Senator Nelson : the government controlled facilities; can that be schools, etc.

Fong: I believe they kept it broad so that they could be in schools etc. It would take out churches, malls, and clubs. this is just for early voting precinct.

Senator Dever : Is it a problem that absentee ballots do not get forwarded.

Fong: That is still a concern. The parties feel that to do their work they need to be able to receive them. If they didn't forward them it would be a violation.

FISCAL NOTE
Requested by Legislative Council
04/16/2003

Amendment to: SB 2248

1A. State fiscal effect: Identify the state fiscal effect and the fiscal effect on agency appropriations compared to funding levels and appropriations anticipated under current law.

	2001-2003 Biennium		2003-2005 Biennium		2005-2007 Biennium

Expenditures	\$0	\$0	\$0	\$0	\$0	\$0
Appropriations	\$0	\$0	\$0	\$0	\$0	\$0

1B. County, city, and school district fiscal effect: Identify the fiscal effect on the appropriate political subdivision.

2001-2003 Biennium			2003-2005 Biennium			2005-2007 Biennium		
Counties	Cities	School Districts	Counties	Cities	School Districts	Counties	Cities	School Districts
\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0

2. Narrative: Identify the aspects of the measure which cause fiscal impact and include any comments relevant to your analysis.

The amendments approved by the conference committee do not change anything from that which was conveyed in the first fiscal note dated January 20, 2003.

//////////

Traditionally, the expense of conducting elections has been and continues to be a county expense. However, the fiscal impact to the counties under this bill is unknown. It will vary and will depend on whether or not a county chooses to open an early voting precinct according to Section 5 of the bill, the number of days the precinct would be open, and the hours of voting. The fiscal impact of opening an early voting precinct, staffed by a paid election board, is also uncertain due to the potential savings that may be ultimately gained in printing/ordering fewer absentee applications and absentee ballot envelopes, along with reduced mailing costs associated with the increased interest in absentee voting during recent elections. This bill allows each county to make that decision for themselves.

3. State fiscal effect detail: For information shown under state fiscal effect in 1A, please:

A. Revenues: Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.

None

B. Expenditures: Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.

None, on the part of the state. See narrative for county impact.

C. Appropriations: Explain the appropriation amounts. Provide detail, when appropriate, of the effect on the biennial appropriation for each agency and fund affected and any amounts included in the executive budget. Indicate the relationship between the amounts shown for expenditures and appropriations.

None

It will vary and will depend on whether or not a county chooses to open an early voting precinct according to Section 5 of the bill, the number of days the precinct would be open, and the hours of voting. REPORT OF STANDING COMMITTEE

SB 2248: Government and Veterans Affairs Committee (Sen. Krebsbach, Chairman) recommends **AMENDMENTS AS FOLLOWS** and when so amended, recommends **DO PASS** (6 YEAS, 0 NAYS, 0 ABSENT AND NOT VOTING). SB 2248 was placed on the Sixth order on the calendar.

In lieu of the amendments to Senate Bill No. 2248 as printed on pages 478-480 of the Senate Journal, Senate Bill No. 2248 is amended as follows:

Page 1, line 1, replace "a" with "three" and replace "section" with "sections"

Page 1, line 2, after the first "to" insert "providing absentee voting information to military and overseas voters, rejecting absentee ballots cast by military and overseas voters, and creating", after the semicolon insert "and", and after "reenact" insert "subsection 2 of section 16.1-07-01 and"

Page 1, line 3, after "to" insert "absentee voting for federal offices by citizens who have never lived in the United States,"

Page 1, line 4, after "ballots" insert a comma

Page 1, after line 5, insert:

"SECTION 1. AMENDMENT. Subsection 2 of section 16.1-07-01 of the North Dakota Century Code is amended and reenacted as follows:

2. A qualified elector who is a citizen of the United States and lives outside the United States or a citizen of the United States who is eighteen years of age or older and has never lived in the United States and whose parent is a qualified elector of the state may vote absentee in this state pursuant to this chapter if the individual:
 - a. Does not maintain a domicile;
 - b. Is not registered to vote;
 - c. Is not voting in any other state, territory, or possession of the United States; and
 - d. Possesses a valid passport or card of identity and registration issued under the authority of the secretary of state of the United States.

Such an elector may vote only in federal elections, which means any election held solely or in part for the purpose of electing or nominating any candidate for the office of president, vice president, presidential elector, member of the United States senate, or member of the United States house of representatives."

Page 1, line 9, remove "directly"

Page 2, replace lines 4 through 9 with:

Minutes: Chairman Klein: called the hearing to order on SB 2248. All committee members were present.

Cory Fong, Deputy Secretary of State: appeared in support of SB 2248 and gave a statement

(SEE ATTACHED TESTIMONY).

Representative Klein: one of the things I think they are trying to address is the Navy people out to sea, when the mail only comes once in several weeks, that was some of the problems they had in the last election.

Representative Kasper: bottom of page 7, Sec. 7, where you are talking about the absentee ballots for military, in your testimony it says the Secretary of State will be the single office in the State providing information regarding absentee voting, are you prohibiting political parties from getting information from the Secretary of State that has already been pre-approved

and your not allowing them to send any information that has to come to the Secretary of States Office or what is the intent there?

Cory Fong: no we should be a resource for military and overseas voters for learning about absentee voting, but that is not going to prohibit political parties or associations from doing what they currently do.

Representative Haas: did I hear you say that in the given precinct the early precinct is established and that could cross district lines?

Cory Fong: that is correct, it would be one place for all voters in that particular county to come during the early voting hours designated by the county in which they could cast a vote as a voter does on election day.

Representative Sitte: the votes being cast are decreasing and this is the national trend, but it seems that the more we open up the system and the more we have the early voting, the fewer people get excited about coming up to vote, is this true just here or what is the national take on this?

Cory Fong: its a interesting question and an on going debate, in other states registration laws have opened up a process, voting has become easier and yet turnout has continually declined.

Representative Winrich: I'm concerned about the agent, Sec. 5 on page 4, where we are talking about the agent actually receiving the absent voters ballot, we have a agent getting the ballot but then the new language in Sec. 2, lines 23-27, talks about someone collecting a number of absent voter applications and submitting them, is one person going to be able to act as a agent for several voters and get a whole bunch of ballots for these voters under that section or are these ballots going to be mailed out to the voters from the county auditor?

Cory Fong: that information is restricted and can only ask a agent for 4 voters, they actually carry the ballots, they might be a spouse, a daughter of an elderly mother, go to the auditor and have the authorized form, they can only do that for 4 individuals.

Michael Montplaisir, Cass County Auditor: appeared in support of SB 2248 and provided a written statement **(SEE ATTACHED TESTIMONY)**.

Kevin Glatt, Burleigh County Auditor: appeared in support of SB 2248. I would like to see early voting being allowed anywhere not just in a government building. If I want to designate Gateway or Kirkwood Mall for the early morning precinct of Burleigh county, I would like that opportunity, I think the goal of this bill is make it convenient, lets go where we have parking. Government buildings in most cases are tough. Are we making it to easy for the public? that's tough for me to say, my job is to get people out to vote. I think we should go back to requiring a reason for voter absentee or let's just open it up all the way and go to a bona fide mail.

Representative Sitte: If we went back to having a reason for absentee we wouldn't need to have the 2 weeks early notice.

Kevin Glatt: Since we "let the jeannie out of the bottle" or what ever you want to call it, absentee balloting has increased, has voter turn out has increased, not necessarily.

Jim Coats: appeared in support of SB 2248, I like the contents of this bill, it would allow every voter the right to vote on his initiative, I would only see one draw back, Morton County might not go along with this bill, because it voluntary and Burleigh County might, and that might be discriminatory.

John Jacobson, North Dakota Coordinating Council Legislative Committee: appeared in support of SB 2248. I never know where I'll be from day to day, as a retired veteran of the military, I feel

TO: Senator Karen Krebsbach and Members of the Senate Government and Veteran's Affairs Committee

FR: Cory G. Fong, Deputy Secretary of State

RE: Senate Bill No. 2248 – Absentee and Early Voting

The Secretary of State's office strongly supports Senate Bill No. 2248. The legislation incorporates additional security and integrity measures into our absentee voting laws intended to address concerns that were brought to the forefront during the 2002 election cycle. Senate Bill No. 2248 also brings efficiencies to the administration of absentee voting that takes place at the county auditors offices during the last days before the election by officially introducing an early voting option for counties to voluntarily adopt.

Before I explain the highlights of Senate Bill No. 2248, the Secretary of State's office is proposing some amendments to the bill. Some of the amendments are technical corrections and others are related to putting North Dakota in compliance with the Help America Vote Act of 2002 (HAVA). My explanation of the bill will also include discussion of these proposed amendments.

The bill with the proposed amendments accomplishes the following:

- Requires a completed absentee ballot application to be returned directly to an election official and not through an intermediary (e.g. a political party, association, etc.). (Section 1)
- Requires absentee ballot applications provided by election officials to be prescribed by the Secretary of State. (Section 2)
- Requires absentee ballot applications provided and distributed by anyone other than an election official (e.g. a political party, association, etc.) to be approved by the Secretary of State and to include a statement disclosing the person, as defined in section 16.1-08.1-01, or political party, responsible for paying for distribution of the application. (Section 2)
- Requires absentee ballot applications to require a space for voters to include their precinct or voting location, if known. (Section 2)
- Provides a process for persons who cannot sign an absentee ballot application to mark an (X) and have it witnessed. (Section 2)
- Provides the same restriction for whom may provide assistance to an individual voting an absentee ballot as a voter voting a ballot in the polling location on Election Day. An absentee voter who cannot read English or may have a disability that prevents them from reading or marking the ballot could not receive assistance from the absentee voter's

- Authorizes counties, as a voluntary option, to establish an early voting precinct on business days during the 15 days immediately preceding the election that would process early voters like a traditional election board. The early voting precinct election board would be comprised of an independent person to act as the Inspector and equal representation of each political party represented on the election board. Results from the early voting precinct may not be counted, canvassed, and released until the closing of the polls on Election Day. The early voting precinct must operate according to all existing laws governing the conduct of election boards, precincts, the opening and closing of the polls, and the counting and canvassing procedures. Senate Bill 2248

Chairman Krebsbach and members of the Senate Government and Veterans Affairs Committee

I am Michael Montplaisir, Cass County Auditor and am here in support of Senate Bill 2248.

Senate Bill 2248 is a bill that changes some of the absentee voter application requirements and allows for an early voting precinct.

Absentee voting has really taken off over the past few years. Besides the applications for absentee ballots that counties publish in the papers, applications are available on state and county web sites, political parties and other groups mail applications to potential voters, and political candidates hand out applications as they go door to door campaigning. The whole effort is geared toward getting the public out to vote.

In Cass County, we have seen more interest in voting absentee, particularly in the general elections. The chart below shows the number of people applying for absentee ballots since 1996.

	Primary	General	
1996		3,236	Presidential
1998	428	2,065	
2000	296	6,427	Presidential
2002	968	5,080	

The increase can be attributed to a number of factors, including convenience, fear of the weather in November, and our busy 21st century life style. If our goal is to increase the voter participation, an early voting precinct would seem to be the next logical step for the November elections.

An early voting precinct would operate very much like any other precinct on Election Day. An election board would be established through the same political process other election boards are nominated, the days and hours the poll would be open would be set by the County Commission; again, the same as they do for regular polling sites.

Some of the differences between a regular polling site and the early voting site might be in the level of technology. Because of the proximity to the county auditor's office, we would have the possibility of the poll workers using computers to record the voters. With new technology available, we may be able to use either direct recording devices for voting or precinct scanners which would speed up election reporting on Election Day.

An early voting precinct would give us one more tool to serve the voters in North Dakota, without significantly increasing the cost of elections. I estimate that an election board operating the same hours as the courthouse would cost the county about \$350 per day.

I urge you to support Senate Bill 2248

**TESTIMONY TO THE
SENATE GOVERNMENT & VETERANS AFFAIRS COMMITTEE
Prepared by Kevin J. Glatt, Burleigh County Auditor**

SENATE BILL 2248

ABSENT VOTER'S BALLOTS

Madam Chair and members of the committee, I am here today to raise some concerns I have regarding absent voter ballots and to make a plea to allow counties to conduct all elections by MAIL.

Current law only authorizes MAIL ballot elections for Primary elections. However, both political parties have circumvented this through their attempts to get out the vote. Please note the attached GOP and DEMO\NPL mailings. Other groups have quickly followed (attached).

**If in fact we want a vote by mail system then allow vote by mail and
lets call a duck a duck.**

I have been an advocate of voter turnout during my entire tenure. I have opened my office on Saturdays to accommodate college students and those who work out of town. I have spent many hours at local high schools explaining voting procedures and encouraging and **challenging** young people to vote.

I understand the goal of all the political party mailings – increased voter turnout. I understand the previous legislation to remove the requirement to state a reason for voting absentee – increased voter turnout. *I do not think the present system increases participation, only shifts voting methods from traditional precinct balloting to mail balloting.*

I understand the attempt to make voting more convenient as a means to increase participation. However, we as citizens need be responsible. We need to realize how important our vote is. I am a firm believer that two (2) of the most important things I did in the year 2002 were voting on June 11 and November 4. I agree that voting is a right and a privilege. Moreover, it is my DUTY and REPSONSIBILITY.

The effect of the present absent voter system is placing an administrative and fiscal burden on counties. There is no easy way to handle absentee ballots. The political party mailings compound this burden by increasing the number of absent voters. From my visits with people returning absent voter ballots to my office, their only reason for voting absentee was the convenience, and if they had not received an absent voter application they would have voted on election day at their normal precinct. I received several duplicate applications for absent voter ballot from the same elector – 1 from each party and the AFLCIO. I received many, many incomplete applications which required follow

up by a phone call or mail (all of which must be done on a very timely basis). My records show that the combined staff of the Burleigh County Auditor, Treasurer and Director of Tax Equalization basically shut down everyday between October 15th thru November 3rd from 7:00AM until 3:00PM to process the applications for absentee ballots and get the ballots in the mail for delivery to the electors.

Presently county auditors have to prepare for two (2) types of elections: traditional polling places and vote by mail. County auditors have no way of knowing how many people will vote "absentee" and how many will show up on election day. County auditors need to staff polling places and order enough ballots for both the traditional and mail election. I estimate that this increases costs in Burleigh County by at least 15%.

Madam Chair and members of the Committee, please consider these items when deliberating over this bill.

Thank You.

Absentee voters more numerous

Numbers in Burleigh County easily should exceed the 6,000 who voted in 2000

TONY SPILDE
Bismarck Tribune

The latest trend in North Dakota voting could be a lot like an elfin work stoppage at Santa's toy factory. Smaller turnout at the polls. County auditors, who saw a record num-

ber of absentee ballots in the 2000 election, said they're getting even more this year.

"We certainly can't see that number going down," said Lee Ann Oliver, election specialist for the secretary of state's office. "It's a matter of convenience for people. In talking to the auditors, they're all seeing more absentee ballots."

The reason for the increase, auditors say, is a target-marketing campaign by the state's political parties and other interest groups. They've mailed ballot applications to voters they consider sympathetic to their cause, in an attempt to generate more support.

Those who wish to vote prior to the Nov. 5 election simply send a request to their county auditor, who mails them a ballot. Completed ballots are eventually returned to the auditor's office.

Burleigh County Auditor Kevin Glatt said he received about 6,000 absentee ballots in the 2000 election. He expects to easily exceed that total this year. The county has more than 1,000 back already, and voters still have until Nov. 4 to return their ballots. Election workers mailed another 1,000 ballots Tuesday alone.

Absentee: Voting at leisure a plus

FROM 1A

It's wonderful that we're having this response," Glatt said. "It's just handy for people."

In Morton County, auditor Paul Trauger said they're about on pace with the absentee numbers from 2000.

He said another reason many counties are seeing increases is "absentee" voters needn't be absent any longer. Trauger said a state law passed in 1997 removed the requirement that voters provide a reason for their absence from their precinct on election day.

That's allowed voters such as Juleen Cunningham of Bismarck to vote at their leisure.

"It was icy this morning. If it had been like that on election day, maybe I wouldn't have voted," Cunningham, 79, said Tuesday. "For me, it's about convenience. Plus, it's good for seniors because we have a tendency to forget things sometimes."

Glatt said the early voting shouldn't be called absentee balloting anymore.

"We no longer have absentee balloting in North Dakota, we have vote-by-mail," Glatt said. "Essentially, that's what it is."

Glatt and others tried to legalize a vote-by-mail effort at the last legislative session. It's currently used only in the June primary elections.

Glatt said lawmakers balked at the idea because they thought it opened the door to fraud, that it would be too easy to vote more than once or mark a ballot for someone else.

But he said those problems already exist, though the instances are few. Glatt didn't think that changing the name would dramatically increase the cases of voter fraud.

"We would be able to take care of the application process instead of the parties (doing it)," Glatt said.

"We could use our voter database from the last election (for the mailings), and get the busy work done ahead of time, instead of waiting for the ballots to come in."

Currently, absentee ballots are taken — still sealed — to the voter's home precinct on election day.

The name on the outside of the envelope is compared with a checklist at the precinct, and crossed off so the citizen cannot vote more than once.

To vote prior to Nov. 5, request a ballot from your county courthouse or download them from the secretary of state's Web site, www.state.nd.us/sec.

RE: Amendments to Senate Bill No. 2248 – Absentee and Early Voting

Since the hearing of Senate Bill 2248, the Secretary of State's office has worked with the various interested parties to address concerns about the legislation.

As a result of our work, I am providing the committee with a new and improved set of amendments to Senate Bill No. 2248. The changes in the new set of amendments accomplish the following:

- Allows completed absentee ballot applications to be returned to an intermediary (e.g. a political party, association, etc.) as long as the intermediary submits all completed applications received from applicants to the appropriate election officials in a timely manner.
- No longer requires absentee ballot applications provided and distributed by anyone other than an election official (e.g. a political party, association, etc.) to be approved by the Secretary of State as long as the application meets the requirements of the law.
- No longer requires absentee ballot applications to include a statement disclosing the person, as defined in section 16.1-08.1-01, or political party, responsible for paying for distribution of the application.
- Provides the same restriction for whom may provide assistance to an individual voting an absentee ballot as a voter voting a ballot in the polling location on Election Day. An absentee voter who cannot read English or may have a disability that prevents them from reading or marking the ballot could not receive assistance from the absentee voter's employer, officer or agent of the voter's union, or a candidate for any office, or a relative of a candidate for any office.
- Requires early voting precincts to be in government-controlled facilities.
- Allows a U.S. citizen who is 18 years of age or older who has never lived in the United States and whose parent is a qualified elector of the state, to vote absentee in North Dakota for federal offices only.
- Establishes the Secretary of State's office as the single office in the state for providing information regarding absentee voting by military and overseas citizens who are eligible to vote in the state according to HAVA.

RE: Senate Bill No. 2248 – Absentee and Early Voting

Senate Bill No. 2248 incorporates additional security and integrity measures into our absentee voting laws intended to address concerns that were brought to the forefront during the 2002 election cycle. Senate Bill No. 2248 brings efficiencies to the administration of absentee voting that takes place at the county auditors offices during the last days before the election by officially introducing an early voting option for counties to voluntarily adopt. Senate Bill No. 2248 also attempts to make changes intended to put North Dakota in compliance with parts of the new federal election reform bill, the Help America Vote Act of 2002.

The bill accomplishes the following:

- ① Allows completed absentee ballot applications to be returned to an intermediary (e.g. a political party, association, etc.) as long as the intermediary submits all completed applications received from applicants to the appropriate election officials in a timely manner to allow a voter to receive, vote, and mail an absentee ballot before the day of the election. (Section 2)
- ② Requires absentee ballot applications provided by election officials to be prescribed by the Secretary of State. (Sections 3 and 4)
- ③ Provides that absentee ballot applications distributed by anyone other than an election official (e.g. a political party, association, etc.) be approved by the Secretary of State unless the application meets the requirements set out by law. (Section 3)
- ④ Requires absentee ballot applications to require a space for voters to include their precinct or voting location, if known. (Section 3)
- Provides a process for persons who cannot sign an absentee ballot application to mark an (X) and have it witnessed. (Section 3)
- Provides the same restriction for whom may provide assistance to an individual voting an absentee ballot as a voter voting a ballot in the polling location on Election Day. An absentee voter who cannot read English or may have a disability that prevents them from reading or marking the ballot could not receive assistance from the absentee voter's employer, officer or agent of the voter's union, or a candidate for any office, or a relative of a candidate for any office. (Section 5)

- Prevents election officials from providing a ballot to anyone acting as an agent who cannot provide a signed, written, authorization form. (Section 5)
- Authorizes counties, as a voluntary option, to establish an early voting precinct on business days during the 15 days immediately preceding the election that would process early voters like a traditional election board. The early voting precinct election board would be comprised of an independent person to act as the inspector and equal representation of each political party represented on the election board. Results from the early voting precinct may not be counted, canvassed, and released until the closing of the polls on Election Day. The early voting precinct must operate according to all existing laws governing the conduct of election boards, precincts, the opening and closing of the polls, and counting and canvassing procedures. The bill requires early voting precincts to be in government-controlled facilities. (Section 6)
- Clarifies that only those members of the Armed Forces living outside the United States and other qualified electors living outside the United States may receive ballots and return ballots by fax and request absentee ballots without completing and submitting an application. (Sections 2 and 3)
- Allows a U.S. citizen who is 18 years of age or older who has never lived in the United States and whose parent is a qualified elector of the state, to vote absentee in North Dakota for federal offices only. (Section 1)
- Establishes the Secretary of State's office as the single office in the state for providing information regarding absentee voting by military and overseas citizens who are eligible to vote in the state according to the Help America Vote Act of 2002. (Section 7)
- Directs the Secretary of State to develop uniform procedures for county auditors to follow when transmitting and receiving voting materials to and from military and overseas voters. (Section 7)
- Directs the Secretary of State to establish uniform procedures for county auditors to follow when notifying military or overseas voters that their ballot was rejected. (Section 8)

Senate Bill 2248

Chairman Klein and members of the House Government and Veterans Affairs Committee

I am Michael Montplaisir, Cass County Auditor and am here in support of Senate Bill 2248.

Senate Bill 2243 is a bill that changes some of the absentee voter application requirements and allows for an early voting precinct.

Absentee voting has really taken off over the past few years. Besides the applications for absentee ballots that counties publish in the papers, applications are available on state and county web sites, political parties and other groups mail applications to potential voters, and political candidates hand out applications as they go door to door campaigning. The whole effort is geared toward getting the public out to vote.

In Cass County, we have seen more interest in voting absentee, particularly in the general elections. The chart below shows the number of people applying for absentee ballots since 1996.

	Primary	General	
1996		3,236	Presidential
1998	428	2,065	
2000	296	6,427	Presidential
2002	968	5,080	

The increase can be attributed to a number of factors, including convenience, fear of the weather in November, and our busy 21st century life style.

An early voting precinct would operate very much like any other precinct on Election Day. An election board would be established through the same political process other election boards are nominated, the days and hours the poll would be open would be set by the County Commission; again, the same as they do for regular polling sites.

One of the differences between a regular polling site and the early voting site might be in the level of technology. Because of the proximity to the county auditor's office, we have the possibility of the poll workers using computers to record the voters in the poll book. With new technology available, we may be able to use either direct recording devices for voting or precinct scanners which would speed up election reporting on Election Day. I estimate that an election board operating the same hours as the courthouse would cost the county about \$350 per day.

If our goal is to increase voter participation, an early voting precinct would be beneficial to both the voters and the election administrators. This early voting precinct would give us one more tool to serve the voters in North Dakota, without significantly increasing the cost of elections.

I urge you to support Senate Bill 2248
