Minutes:

Chairman Johnson: Opened HB 1085.

Rep Solberg: Representing District 2. I am sponsoring HB 1185 which amends the existing ND Century code that deals with dry pea and lentils assessment. This bill obviously is at the request of the Dry Pea and Lentil Association and will eliminate the problem of doubling up on the assessment which is 1% of the net value of commodities which is peas and lentils. As the amendment states the requirement of this section 4.10.7.09 does not apply to any dry peas and lentils grown in the state or province and are levied and imposed its own assessment on that crop. This is a common sense request that we ask that the outside committee give a DO PASS.

Sen. Oconnel: I am for the support of the bill.

Eric Bartsch: Administration for the ND Dry Pea and Lentil Council. See printed Testimony in favor of the bill.

Chairman Johnson: Erik, the assessments are returned to ND going into Regina, are they assessing in Regina?

Eric Bartsch: It my understanding that Regina does assess ND check off. Saskatchewan is accessec.

Steve Straege: With the Grain Dealers Association. Calling to the committee's attention what he feels is a problem in collecting the check off assessment. The language in this bill could allow no collection at all. I know of elevators right now on the Montana Line that some of them are collecting only ND assessments. We question if the state of Montana still has authority to order the ND elevator to collect on these assessments in Montana. I have a letter here from the Montana Dept. of Agriculture says that they must. Our check off in ND is collected on the Quarterly basis. Montana is telling our elevators there check off is collected monthly. We don't think this is fair. I went into the century code and I pulled out Dean's references to the various check offs that are collected by ND elevators. ND Elevators collect a check of for almost everything possible. That is why we have to keep coming back here every year. There might be some compliance problems, but elevators do what they can to stay in line. If this bill passes, some elevators will tell Montana to take a hike.

I talked to Neil Fischer from the Wheat Commission. He said that at one time they had gone against Minnesota elevators to collect the ND check off. I share Rep. Solberg's wisdom; let's make it as simple as possible. Make sure we do collect some.

Closed hearing on HB1185.

Testimony of Eric Bartsch
North Dakota Dry Pea and Lentil Council
House Bill 1185
House Agriculture Committee
Peace Garden Room
January 19, 2007

Chairman Johnson and members of the committee, my name is Eric Bartsch and I am the Administrator for the North Dakota Dry Pea and Lentil Council. I am here to comment on HB 1185 which addresses the double assessment of peas, lentils and chickpeas that originate from out of state.

For many years producers from surrounding states sold their peas, lentils and chickpeas in North Dakota and due to state assessment laws the dry pea, lentil and chickpea assessment has been deducted and remitted to the North Dakota Dry Pea and Lentil Council. Over the past year, the states of Montana and South Dakota enacted an assessment for dry peas, lentils and chickpeas which requires an assessment on all peas, lentils and chickpeas that originate in those states. Currently producers from Montana and South Dakota who deliver into North Dakota are having the North Dakota and Montana or South Dakota assessments deducted on their peas, lentils and chickpeas.

HB 1185 would prevent a double assessment on peas, lentils and chickpeas that are delivered into North Dakota if the product originates in a state or province that has a checkoff law.

Chairman Johnson and committee members, I would be happy to answer any questions you may have.

February 22, 2007

Chairman Flakoll and members of the Senate Agriculture committee, for the record my name is Eric Bartsch and I am the Administrator for the North Dakota Dry Pea and Lentil Council. I am here to comment on HB 1185 which would give the Council the authority to enter into a reciprocal agreement with another state or province to return and receive assessment dollars for peas, lentils and chickpeas that are traded across state borders.

For many years producers from surrounding states sold their peas, lentils and chickpeas in North Dakota and due to state assessment laws the dry pea, lentil and chickpea assessment has been deducted and remitted to the North Dakota Dry Pea and Lentil Council. Over the past year, the states of Montana and South Dakota enacted an assessment for dry peas, lentils and chickpeas which requires an assessment on all peas, lentils and chickpeas that originate in those states. TO: Members of the Senate Agriculture Committee
FROM: Steve Strege, North Dakota Grain Dealers Association
RE: HB 1185 - hearing February 22

The North Dakota Grain Dealers Association supports engrossed HB 1185. We had opposed its original form because it put ND grain elevators in the position of determining state of origin and supposedly having to pay the other state's checkoff to that other state. Amendments changed that.

Background:

North Dakota grain elevators collect checkoffs for seven different commodity promotion commissions/councils on 15 crops:

spring wheat	corn	dry beans
durum	flax	dry peas
barley	canola	lentils
sunflowers	safflower	chickpeas
soybeans	crambe	garbanzo

Some are based on a percentage of value (¼, ½ or 1%). Some are different amounts per bushel or per hundredweight (1, 1½, 2, 3, 10¢). Collecting only the ND checkoff and remitting to only the ND checkoff council provides at least some consistency. ND checkoff remittances are quarterly. Montana was demanding ND elevators collect the Montana checkoff on dry peas and lentils grown in Montana and remit it to Helena monthly.
