Hearing Date: 01-23-2007

Recorder Job Number: 1729

Committee Clerk Signature

Joan M Thomas

Minutes:

Chairman Keiser opened the hearing on HB 1475. HB 1475 relates to the creation of the beginning again ND pilot program.

Rep. Myxter, introduced the bill.

Rep. Myxter: HB 1475 is an economic development bill aimed at smaller communities. It advocates a pilot program implemented by the commerce department and provides a way for smaller communities to promote businesses. In section one, the bill requires that three cities be selected for the pilot program. One city with fewer than five hundred people, one city with between five hundred and fifteen hundred people and the third between fifteen hundred and three thousand people. Section two requires that the commerce department collect data for many and all available sources about these three cities and this information is compiled and resources are found in and around those cities is used to consider possible business development. Section three provides that the information assembled shall be used to assist the city in producing a strategic plan of development. *Rep. Myxter goes on to read the bill aloud to the committee. See the bill and read to obtain the remainder.*

Rep. Ekstrom, spoke in support of the bill. *See written testimony.*

Rep. Thorpe: How do you determine which three cities are chosen?

Rep. Ekstrom: The small communities would apply for this in the form of a grant.

Rep. Keiser: Where is the appropriation section?

Rep. Ekstrom: They just put a fiscal note on it.

Rep. Keiser: We need it on the bill.

Rep. Ekstrom: This got kicked out as a do pass and recommended to appropriations.

Rep. Keiser: That is correct, but if it coming from the general fund, there should be a fiscal note on the bill. I think we need an amendment.

Rep. Keiser: In 2005, was there some type of participation requirement?

Rep. Ekstrom: I don't recall but we may have.

Rep. Kasper: I'm trying to figure out what we do with the ones we develop and a data base of skills and residence, what type of data are you looking for?

Rep. Ekstrom: This is based on a program out of the University of Nebraska. They have already detailed questionnaires that they use.

There were no further questions. The hearing was closed. No action was taken at this time.

Hearing Date: January 31, 2007

Recorder Job Number: 2489

Committee Clerk Signature

Minutes:

Chair Keiser opened the hearing on HB 1475, relating to the eligibility to receive workforce 20/20 training for the soft skills training. It just expands the eligibility to receive workforce 20/20 funding to the soft skills training market. The fiscal note is \$500,000, it's the ND pilot program, they report to Legislative Council, it provides a continuing appropriation, and has an expiration date.

See proposed amendment.

Rep. Keiser: I don't know that it would have a material change in the fiscal note. The fiscal note again \$45,000 to develop 3 strategic plans, \$90,000 to report to Legislative Council, and no expenditures total for the biennium \$135,000. What the amendments does is expands the number of communities that could be involved going from \$500 to \$1,500 on the lower end, and then \$3,000 on the upper end, and also the department may charge a fee for the services provided to the community, and this fee may not exceed 25% of the value of the services offered.

Rep. Amerman: I move to adopt the amendment.

Rep. Thorpe: Second.

Voice vote taken, amendment adopted.

Rep. Kasper: I move do not pass, as amended.

Rep. Ruby: Second.

Rep. Thorpe: I realize this is the second session that we address this, but I do think it has some merit. It would deal with the renaissance zone for the larger metropolitan areas, and I think this kind of opens up some possibilities to some smaller communities.

Rep. Zaiser: What does this bill do?

Rep. Keiser: This bill creates a profile where small communities looking at their strengths, weaknesses, and their resources in a somewhat scientific way, and compiles a profile for small communities that then could be used to go out and look for markets, or targeted industries, or something like that.

Rep. Zaiser: I think I agree with Rep. Thorpe, but I'm also concerned with over studying something, and data collection where it is different than the rest on zone.

Roll call vote was taken. 9 Yeas, 2 Nays, 3 Absent, Carrier: Rep. Thorpe

Hearing closed.

FISCAL NOTE
 Requested by Legislative Council
 02/06/2007

Amendment to: HB 1475

1A. **State fiscal effect:** *Identify the state fiscal effect and the fiscal effect on agency appropriations compared to funding levels and appropriations anticipated under current law.*

	2005-2007 Biennium		2007-2009 Biennium		2009-2011 Biennium	
	General Fund	Other Funds	General Fund	Other Funds	General Fund	Other Funds
Revenues						
Expenditures			\$90,000			
Appropriations						

1B. **County, city, and school district fiscal effect:** *Identify the fiscal effect on the appropriate political subdivision.*

2005-2007 Biennium			2007-2009 Biennium			2009-2011 Biennium		
Counties	Cities	School Districts	Counties	Cities	School Districts	Counties	Cities	School Districts

2A. **Bill and fiscal impact summary:** *Provide a brief summary of the measure, including description of the provisions having fiscal impact (limited to 300 characters).*

This bill requires the Department of Commerce to implement and administer the Beginning Again North Dakota pilot program.

B. **Fiscal impact sections:** *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

B. **Expenditures:** *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

The expiration date for the pilot program is July 31, 2009. Because of the limited tenure of the program, it is implied that contracting for the service would be more economical and efficient than hiring an FTE.

The primary expenditures associated with this bill would consist of gathering data for the two communities. It is assumed that strategic plans for the two communities will then be completed incorporating the asset data. The estimated cost of the two strategic plans has been incorporated into this fiscal note.

The estimated expenditures associated with the pilot program are as follows:

Assemble and compile asset information: \$30,000 (\$15,000 per community)
 Develop two strategic plans: \$60,000 (\$30,000 per community)
 Report to the Legislature: No additional expenditures
 Biennium Total: \$90,000

*It is assumed that an electronic data base would not be developed during the pilot period due to the fact that data from only two communities would be involved in the program. If the program became successful and additional communities were added, it would be economical to appropriate funds for the development of a specific data base. If the pilot program expanded to cover additional communities, expenditures would increase to cover the expanded

scope of the program.

- C. **Appropriations:** *Explain the appropriation amounts. Provide detail, when appropriate, for each agency and fund affected. Explain the relationship between the amounts shown for expenditures and appropriations. Indicate whether the appropriation is also included in the executive budget or relates to a continuing appropriation.*

No appropriations have been attached to this bill. As amended, this bill allows the Department of Commerce to charge the communities a fee of up to 25% of the value of the services offered. If the Department charges the fee to cover 25% of the cost, an additional \$67,500 will need to be appropriated for the 2007-2009 biennium in order to implement this program.

	General Fund	Other Funds	General Fund	Other Funds	General Fund	Other Funds
Revenues						
Expenditures			\$135,000			
Appropriations						

1B. **County, city, and school district fiscal effect:** *Identify the fiscal effect on the appropriate political subdivision.*

2005-2007 Biennium			2007-2009 Biennium			2009-2011 Biennium		
Counties	Cities	School Districts	Counties	Cities	School Districts	Counties	Cities	School Districts

2A. **Bill and fiscal impact summary:** *Provide a brief summary of the measure, including description of the provisions having fiscal impact (limited to 300 characters).*

Development and implementation of the Beginning Again North Dakota pilot program.

B. Fiscal impact sections: *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

B. **Expenditures:** *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

The expiration date for the pilot program is July 31, 2009. Therefore, because of the limited tenure of the program, it is implied that contracting for the service would be more economical and efficient than hiring an FTE.

The primary expenditures associated with this bill would consist of gathering data for the three communities. It is assumed that strategic plans for the three communities will then be completed incorporating the asset data. The estimated cost of the three strategic plans has been incorporated into this fiscal note.

The estimated expenditures associated with the pilot program are as follows:

Assemble and compile asset information: \$45,000 (\$15,000 per community)
Develop three strategic plans: \$90,000 (\$30,000 per community)
Report to the Legislature: No additional expenditures
Biennium Total: \$135,000

*It is estimated that the data for the three communities could be compiled and the corresponding strategic plans could be completed within the next biennium. Therefore, the preceding expenditures only pertain to the 2007-2009 biennium.

*In addition, it is assumed that an electronic data base would not be developed during the pilot period due to the fact that data from only three communities would be involved in the program. If the program became successful and additional communities were added, it would be economical to appropriate funds for the development of a specific data base. If the pilot program expanded to cover additional communities, expenditures would increase to cover the expanded scope of the program.

- C. **Appropriations:** *Explain the appropriation amounts. Provide detail, when appropriate, for each agency and fund affected. Explain the relationship between the amounts shown for expenditures and appropriations. Indicate whether the appropriation is also included in the executive budget or relates to a continuing appropriation.*

No appropriations have been attached to this bill. It is estimated that to implement the program, \$135,000 will need to be appropriated for the next biennium.

2007 TESTIMONY

HB 1475

#1

HB 1475/Beginning Again ND
Industry Business and Labor
Representative George Keiser, Chairman
January 23, 2007 / 2:00 PM / Peace Garden Room

Mr. Chairman and members of the IBL committee, for the record, my name is Mary Ekstrom and I represent District 11 in south central Fargo.

I hope you will not treat this bill unfavorably simply because of my defection from this committee. In truth, Mr. Chairman and committee it is a delight to back before you again. Yes, this is the same concept that I presented to you in the 2005 session which this committee voted out with a Do Pass recommendation.

Last session this concept bore a fiscal note of \$68,800 – this time the price has gone up to \$135,000 – so we are paying for our lack of action.

I have to ask you. What are you willing to try, to promote economic development?

Beginning Again North Dakota is a concept to encourage small business development in smaller places.

We, as a State, are a community of 640,000 people – it's been said – that we just have very long streets. The big four, Fargo, Grand Forks, Bismarck, and Minot probably have the critical mass necessary in terms of population for long term sustainability.

This bill is aimed at communities of fewer than 3500. That means that exactly 13 cities **do not** qualify to apply for this pilot program. That's right, if your town is smaller than Beulah than your town is on the list. I have included a list of cities by their population with my testimony.

This concept says that we look at the human and physical assets of a community. All of us have attended meetings where we discuss (endlessly) the needs of our communities. What do our communities NEED(?): literally everything – infrastructure, day care, arts and entertainment facilities and more businesses that pay good wages.

Beginning Again is a bottom up approach that will tell us what we **have**, not what we need – that tells us what we can do with what we have.

Small businesses are hard to find – new ideas are in even shorter supply.

This bill says we believe in the inherent worth, the values, skills and talents that already exist within our people and it says we can invest in the ideas of our people to provide economic development, good jobs and hope.

I have suggested that the Department of Commerce administer this program as a pilot. I suggest that we try this in three small communities in North Dakota – one with a

population of not more than 500, one with a population of 500 but not more than 1500, and one with a population greater than 1500 but not more than 3000.

I have long believed that there are two things we need to change if we are to grow as a state. The first is attitude, that is: what do we believe about ourselves? The second is image – what does the rest of the world believe about North Dakota? A program like Beginning Again North Dakota will showcase the talents and gifts of our citizens for ourselves as well as the rest of the world.

There is a shining example of what one small entrepreneur has been able to do. Samsara Cues is located in Rugby, North Dakota (population 2,900). This small business makes custom pool cues, employs 10 people and exports their product all around the world. This is the kind of business I would hope would come out of this proposal.

I would respectfully ask for a Do Pass recommendation.

Mr. Chairman, I thank the committee for your time and I will take any questions, you have.
