B. Fiscal impact sections: *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

There are approximately 28,100 registered farm vehicles, 20 year old and older. The estimated average registered weight of such vehicles is 42,000 lbs. The current annual registration fee at this weight for a vehicle older than 20 years is \$103.00. The proposed annual registration fee at this weight is \$51.00.

The following figures are biennium figures:

28,100 x \$103.00 x 2 = \$5,788,600 (current fee)

Minus

28,100 x \$51.00 x 2 = \$2,866,200 (proposed fee)= \$2,922,400 Rev.loss

Based on this, the loss of biennium revenue to the highway tax distribution fund under the current Highway Tax Distribution Fund allocation formula for each receiving entity is:

2009 TESTIMONY

SB 2339

January 29, 2009

SB 2339
Senate Transportation Committee

Chairman Lee and members of the Senate Transportation Committee,

My name is Tom Schmidt and I am from St. Anthony, North Dakota. I am here to testify in support of Senate Bill 2339, a bill that would reduce registrations on older farm trucks.

As a producer, transportation is an important part of my operation. I have multiple vehicles on my farm that are used for different reasons, and each is a necessity. They are used for transporting supplies and commodities to and from the farm. The way we use farm trucks has changed over the last decade. The farm trucks that will be affected by this bill are used only seasonally, and may not even get 1000 miles a year put on them. SB 2339 will help reduce some of the costs of registration for producers, and I hope that you will support the bill.

Thank you.

SENATE TRANSPORTATION COMMITTEE

**North Dakota Department of Transportation
Tim Horner, Deputy Director for Business Support**

SB 2339

Good morning, Mr. Chairman and members of the committee. I'm Tim Horner, Deputy Director for Business Support for the North Dakota Department of Transportation (NDDOT).

The Department of Transportation is very supportive of measures that help our agricultural industries, including our hardworking farmers and ranchers. One of the most important ways that we, along with our transportation partners across the state, can contribute to their success is to provide a transportation system that safely moves people and goods.

A major focus during this legislative session is to provide an increased level of funding for transportation at all levels statewide so that we can progressively and responsibly meet the challenges we are facing. This committee has already considered one major proposal in this arena, Senate Bill 2177. The Department is committed to working with the legislature and our transportation partners to provide an appropriate level of funding to meet the transportation challenges ahead of us.

Unfortunately, this bill would reduce the funds available for transportation by nearly \$3 million dollars each biennium. As such, the bill is contradictory to a number of transportation funding proposals currently being considered by this legislature, including Senate Bill 2177, Senate Bill 2012, and House Bill 1407. For this reason, the Department of Transportation is opposed to this piece of legislation and we urge you to give this bill a "Do Not Pass" recommendation.

Mr. Chairman, I will be happy to answer any questions at this time. Thank you.
