### **2019 HOUSE POLITICAL SUBDIVISIONS**

HB 1229

## **2019 HOUSE STANDING COMMITTEE MINUTES**

**Political Subdivisions Committee** 

Prairie Room, State Capitol

1/24/2019 HB 1229 Job # 31456 □ Subcommittee □ Conference Committee

Committee Clerk: Carmen Hickle

### Explanation or reason for introduction of bill/resolution:

Relating to county notification requirements

Minutes:

1,2,3,4,5,6,7,8,9,10,11,12,13

Chairman J. Dockter: Opens the hearing on HB 1229.

Vice Chairman Pyle: (Handouts 1,2,3,4,5,6) Introduced HB 1229 and read her testimony.

Rep. Longmuir: What is the projected savings if you do this?

**Vice Chairman Pyle**: I am going to have other people respond to this. I do know it's at least \$1000 per month for the bigger cities.

**Rep. Ertelt**: How do you deal with a situation where the information is not available on line? How long is the information to be kept?

**Vice Chairman Pyle**: They could be printed off the website. As far as the notice on the website for an ordinance change if you look at small town ordinance books they shove them in the back of a binder. It takes a lot to revamp an entire ordinance book. To put it in a chapter format it takes months.

**Rep. Magrum**: Do you know if they are archiving information through the web so people can find this information later?

**Vice Chairman Pyle**: That is always a possibility. As technology improves everything is going digital communication style. That would be something I would recommend League of Cities or Association of Counties to have their auditors start looking at.

Donnell Preskey: ND Associations of Counties (Handouts 7,8). She read her testimony.

**Rep K. Koppelman**: The interim judiciary committee didn't recommend this bill, correct? This was something you advanced as a result of that committee not forwarding a bill that would have removed the requirements for publication?

House Political Subdivisions Committee HB 1229 1/24/2019 Page 2

### Ms. Preskey: Yes.

**Rep. Magrum**: Could you tell the committee what was forwarded from the interim committee study? What was in the bill and what was forwarded?

**Ms. Preskey**: In Senate bill 2035 are the notice of elections for commodity groups with county representatives. It's been the expense of the county to list that notice of the election and the proposal is to make that requirement to be paid for by the commodity group instead of the county. The other thing is changing a date for the notice of financial statements.

**Rep. Magrum**: Do you believe this would increase transparency in government or reduce it?

**Ms. Preskey**: That information is in the county auditor's office, it could be on line. As for listing every expense this would reduce transparency.

(19:56) Michael Montplaisir: Cass County Auditor; (Handout 9). Read his testimony.

Rep. Johnson: Can you export the check information?

### Mr. Montplaisir: Yes.

**Erica Johnsrud**: Auditor and Treasurer in McKenzie County. In the past 5 months we have an average cost that print our minutes of \$800. About half of that is our bills. So over a year we are looking at \$4800 in savings. Our minutes in McKenzie County are available on line which include our bills from 1996 to current. We publish them on the website the day our minutes are approved. They are not available in our newspaper for at least another week.

Rep. Ertelt: How long are records required to be retained by the county in hardcopy?

**Ms. Johnsrud**: Our vouchers, which is the actual detail are required to be kept current year plus 3 years. Our minutes are required to be forever.

**Stephanie Dassinger**: Deputy Director and Attorney for League of Cities. (Handout 10). Read her testimony.

**Steve Andrist**: Executive Director if ND Newspaper Association. (Handout 11). Read his testimony.

**Rep. Johnson**: Regarding the first survey 70% would most likely not read public notice, was that coupled with the question are you interested in public notices? Maybe 70% would not read them at all no matter where they are published.

**Mr. Andrist**: The survey did not ask the question. We do not know at this point how many people read public notices. I can send it to you the details on that survey.

Rep. Johnson: The bill passed in Judiciary last week, what public notices?

House Political Subdivisions Committee HB 1229 1/24/2019 Page 3

**Mr. Andrist**: The bill specifies any public notices that are published in the newspaper needs to also be published to this site centralized website.

Rep. Longmuir: In your survey's did you do you anything age specific?

Mr. Andrist: We do have some age/sex data that is associated with the survey.

Rep. Fegley: How many newspapers have gone to electronic websites?

**Mr. Andrist**: There are 88 newspapers in the state and most of them have something on the website. Some more sophisticated than others.

**Rep. Magrum**: Could you explain the bill we passed through the house and what the newspaper association is planning on doing with that?

**Mr. Andrist**: The website is fully searchable that loads all public notices that are published in any newspaper in ND. If a newspaper publishes public notices it is required by state law to upload those notices onto this website. You can get this at ndpublicnotices.com Left written testimony #12 from Terry Schwartzenberger.

Paul Erdelt: Editor and Publisher of Steele Ozone and Kidder County Press: (Handout 13).

**Rep K. Koppelman**: Is there any way to facilitate this in areas where it makes no sense because of the testimony we heard and preserve it in areas like yours where it may make some sense? Do you think the counties in your area would continue to publish because it does make sense?

**Mr. Erdelt**: I believe so. We get phone calls about public notices one a month which is significant.

Chairman J. Dockter: Closed the hearing

## 2019 HOUSE STANDING COMMITTEE MINUTES

**Political Subdivisions Committee** 

Prairie Room, State Capitol

HB 1229 1/24/2019 Job # 32025

□ Subcommittee □ Conference Committee

Committee Clerk Signature Carmen Hickle

### Explanation or reason for introduction of bill/resolution:

Relating to county notification requirements

Minutes:

Chairman J. Dockter: Opened for committee work.

**Rep. Longmuir**: Made a do not pass motion.

Rep. Simons: Second the motion.

**Rep. Longmuir**: A majority of my constitutes are not computer people nor have access to get to websites. In elections whether to publish minutes in the paper carries by over 85% of the people. In my district they would then lose the benefit of knowing what is happening.

**Rep. Guggisberg**: I am going to resist this motion, I realize in some communities it might be important to them and if they decide to they can still continue to do this but by putting this type of law in state statute it's an unfunded mandate. We are telling them what to do and not providing resources for it.

Vice Chairman Pyle: It's an option and it's not mandated that it has to be one of the other, it can be both.

**Rep K. Koppelman**: It is a revenue source for the newspapers. But should the state be forcing tax dollars to help private businesses thrive?

**Rep. Ertelt**: There are constitutes that don't use on line services. This is a transparency issue and it's less than \$10,000 per county to publish this information.

**Rep. Guggisberg:** This is the state telling them they have to do something without the state providing resources. If we were to put an appropriation on to the counties and cities to pay for it, I would be fine with it.

Vote: yes 6, no 8, absent 0. Failed

House Political Subdivisions Committee HB 1229 1/24/2019 Page 2

**Rep. Johnson**: Made a do pass motion.

Rep. Adams: Second the motion.

**Rep. Simons**: I ran to make government more transparent, but my constitutes will not understand.

**Rep. Magrum:** I represent the most elderly population in the state and they do read the minutes. In the newspaper it's printed and archived. This is the way of the future but we are not there yet.

**Chairman J. Dockter**: This bill gives them an option. So if people in your areas want to have them published they can, but it's an option.

Vote yes, 9, no 5, no 0.

Rep. Adams: Will carry the bill.

Date: 2-1-19 Roll Call Vote #: 1

### REPORT OF STANDING COMMITTEE

HB 1229: Political Subdivisions Committee (Rep. Dockter, Chairman) recommends DO PASS (9 YEAS, 5 NAYS, 0 ABSENT AND NOT VOTING). HB 1229 was placed on the Eleventh order on the calendar. **2019 TESTIMONY** 

HB 1229

Testimony HB 1229 Political Sub 1.24.17

Good afternoon Chairman Dockter and Political Subdivisions committee. For the record my name is Brandy Pyle and I represent district 22. I am here today to present HB 1229 for your consideration. HB1229 would change language in chapter 11-11-35 to allow the option for counties not to publish the orders and vouchers for payment of moneys in the official news paper if it is made available otherwise on the County's official website.

In your packet you will see scans of the orders and vouchers also known as the bills for payment. This is an excerpt from the City of West Fargo, but illustrates how the orders and vouchers are printed.

The bill also amends chapter 16.1 15-32 adds language for the county to publish the vote by precincts for each officer and proposition voted for any primary, special or general election on the official county website. I have also passed out the Cass County results of the 2018 election.

You will also see in the email that I sent the committee the link to the Cass County orders and Vouchers. This website offers more information regarding the expenses than that what is printed in a newspaper, and the information is available for a longer period.

With the ever-changing way people choose to inform themselves, and our local governments working to lower property taxes, this change in legislation will benefit the residents of our cities and counties.

I also have an amendment that I have passed out that would include cities in these proposed changes.

Thank you, chairman and members of the committee. I stand for questions.

Prepared by the Legislative Council staff for Representative Pyle January 16, 2019

#5 1-24-19 HB1229

### PROPOSED AMENDMENTS TO HOUSE BILL NO. 1229

Page 1, line 1, replace the second "and" with a comma

Page 1, line 1, after "16.1-15-32" insert ", and 40-01-13"

Page 1, line 2, replace "county" with "political subdivision"

Page 2, after line 2, insert:

"SECTION 3. AMENDMENT. Section 40-01-13 of the North Dakota Century Code is amended and reenacted as follows:

### 40-01-13. Payment of accounts by municipality.

No account or claim shallmay be paid by a municipality unless the sameaccount or claim has been audited and allowed by the governing body thereof. Approval by the governing body shallmust be recorded in the record of its proceedings and this shall be, which is sufficient to indicate approval without requiring a majority of the members of the governing body to sign or initial the voucher or order for payment. No moneys shallmay be drawn from the treasury of a municipality except upon a warrant from the auditor thereof, which is signed by the executive officer of the municipality and attested by itsthe municipality's auditor or clerk. Accounts or claims for payment of moneys from the treasury are not required to be published in the minutes or report of the official proceedings if otherwise made available on the municipality's official website."

Renumber accordingly

### PROPOSED AMENDMENTS TO HOUSE BILL NO. 1229

Page 1, line 1, replace the second "and" with a comma

Page 1, line 1, after "16.1-15-32" insert ", and 40-21-13"

Page 1, line 2, after "county" insert "and city"

Page 2, after line 2, insert:

"SECTION 3. AMENDMENT. Section 40-21-13 of the North Dakota Century Code is amended and reenacted as follows:

# 40-21-13. Municipal elections to be governed by rules applicable to county elections - Absent voting.

The manner of conducting, voting at, keeping poll lists, and canvassing votes at municipal elections, recounts, and contests of the results of the elections is governed, as nearly as possible and except as otherwise provided in this chapter, by the laws of this state applicable to elections and contests in the case of county officers. Absent voters' ballots must be available in municipal elections in accordance with chapter 16.1-07. If a municipality is required to publish election results in a newspaper under this section, the municipality may satisfy the requirement by publishing the election results on the official website of the municipality."

Renumber accordingly

Testimony Prepared for the House Political Subdivisions January 23, 2019 By: Donnell Preskey, NDACo

### **RE: Support for HB 1229**

Good morning Chairman Dockter and committee members, I'm Donnell Preskey with the North Dakota Association of Counties. In that capacity, I serve as Executive Director for the Auditors and Treasurers Associations which are in support of this bill.

This bill comes before you today as a result of discussion initiated from the interim during the Interim Judiciary committee's work studying publication requirements. During this, we were requested to provide information regarding publication requirements. We identified 142 various notices, documents and listings which counties are required to publish (generally in their official county newspaper) as mandated by state law. After surveying our counties on their 2018 budget for publications, we estimate \$450,000 was spent by counties in 2018 on meeting publication requirements.

HB 1229 represents two items identified by County Auditors as some of the most concerning that should be addressed which are: the listing of expenditures and the publication of official election results.

The biggest chunk of the cost to publish minutes is the inclusion of checks & expenditures. 11-11-37 in the Century Code is where counties are mandated to publish minutes. A 2012 Attorney General's opinion cites that expenditures are part of the minutes and therefore counties should publish the expenditure report. Our auditors question whether the listing of this information is truly meaningful. I can tell you that the expenditure data is available to citizens who want it. In fact, some counties have made it very available to them online through the use of transparency portals. Five of our counties are using Open Gov or Socrata which is essentially an open checkbook for citizens to view expenditures and budget information via the county's website.

We support the clarification that is provided in this bill and the option to publish this information online instead of in a newspaper. Often times this information is in very minute print and takes up a large amount of space making it a very expensive publication and one that is of interest to very few citizens. We know of papers who do not wish to publish this information due to the space it would require. This bill would allow for a county to avoid publishing this information online if it is available on the county's website.

412 1227

As for publishing election results – Auditors say by the time the official election results are printed in the paper, they already known by the general public. Elections are news worthy at all levels and the results are available and reported by the media and the Secretary of State's Election website. Often times, the official results appear in the daily papers weeks after the election. Therefore, we support at the very least the repeal of this requirement, if counties list the results on their websites.

It is important to note that advertising rates are negotiated and set every biennium by OMB. Although this mechanism is efficient, local governments have little direct control of this cost.

During our last survey of our 53 counties, only six do not have websites.

Also, Mr. Chairman for your information, the interim judiciary did move forward a bill that addressed two of our concerns brought forward during the review of the publication requirements. SB 2035 addresses the notice of elections for commodity group's county representatives and the date for notice of financial statements. That has passed the senate unanimously.

**Review Cow, Calf Vaccination Plans Now** 

preventing infectious diseases. Now would be a good time for cattle produc-ers to review their animal vaccination plans, according to Gerald Stokka, North Dakota Stote

cows with lesions due to the cowpox virus were significantly less likely to contract the highly contagious and serious human disease known as smallpox," Stokka adds. "Vaccination just refers to the act or procedure of administering a vac-

Preventing infectious disease through plant vaccination strategies is critical to every cattle operation, he says. Producers should develop vaccination strategies in consultation with their veterinarian, and those strategies should be risk-based, researched and reviewed annually

based, researched and reverved annually Here are three principles producers should con-sider when implementing vaccination protocols. •Neccessity 1s the trisk of exposure high enough that elimical disease and palnogen trans-mission will become a health and well-being issue beyond their expectations for the herd?

issue beyond their expectations for the herd? -fefficas, - Does scientific evidence or observational experiênce indicate that vaccine selection for specific pathogens is effective for the level of exposure and stress of the herd? -Statety - Does evidence indicate that the vaccination will not cause harm through local or systemic reactions? "The result of considering these principles is that vaccination noticous become relatively

is that vaccination protocols become relatively short, can be defended and are used in the proper suotic cour ue acrenied and are used in the proper circumstances at the proper time." Stokka savs. Vaccination of beef cakes weined carly this summer and fall should adhere to these principles. What's Necessary in Calf Vaccination Protocols?

"Viral vaccines are necessary because no other management tools are available to treat or prevent virus intections that contribute to respiratory disease in beef calves," Stokka says.

In northern Plains beef herds, the viruses BRSV (bovine respiratory syncytial virus), IBR (infectious bovine rhinotracheitis) and PI3 (para-

Branch accination strategies are criticates in source of the second strategies and strategies are criticated subcurated subcurated

The BVDV (bovine virus diarrhea virus) patho-The BVDV (bovine virus diarrhea virus) patho-gen is a concern, but in beet herds that practice annual cow herd vaccination, the risk to young calves is reduced and vaccination can be delayed until wearing. The second dose, which should be given prior to use it thereing each schedule and the second second

to or at weaning, can be administered parenterally (labeled as subcutaneous or intramuscular). It will booster the response to the viruses that previously pneumonia) were administered intranasally

annual viral vaccinations should include pre-beceding (30 days prior to breeding) modified live vaccines containing IBR, BRSV and BVDV along with a five-way leptospirosis fraction and campylobacter (vibrio). Stokka recommends that if these are admin-stered in the fail at pregnancy checking time, producers should use an inactivated virus vaccine with (Swame), lentrenizoid: If administration and with five-way leptospirosis. If administering a modified live virus viactine to pregnant cows, producers should check with their veterinarian to make sure the vaccine is being used according to

#8 HB 1229 1-24-19

Written Testimony To THE HOUSE POLITICAL SUBDIVISIONS COMMITTEE January 24, 2019 by Michael Montplaisir, Cass County Auditor Cass County Government

#9 1-24-19

### **REGARDING HOUSE BILL 1229**

Mr. Chairman and members of the House Political Subdivisions Committee, I am Michael Montplaisir, Cass County Auditor. House Bill 1229 removes some publishing requirements for bills approved by the County Commission and for publishing of the tabular Election Abstract if these items are available on the county's website.

### **Publishing Bills**

We publish minutes from each County Commission meeting in the legal section of our official newspaper, and we publish our agendas as a display ad before each meeting. Publishing the minutes is required by law, but we also publish the agendas because we want to alert county citizens about items on our agenda. Our publishing bill for minutes is around \$10,000 a year and our publishing bill for agendas is around \$6,500. These costs, we believe, are reasonable and necessary expenses to keep our citizens abreast of county business. The county, while including the bills as an attachment to the board minutes, has not published the bills.

Publishing a detailed listing of bills would be extremely costly – the cost to publish the bills would greatly exceed the cost to publish the minutes. The listing of bills that the County Commission reviews and approves at each meeting can exceed 80 pages. A quick download of transactions for the month of December 2018 showed that we had about 1,800 bills for the month. This information is readily available on our web site; agendas on our web site include a listing of bills. The subsequent minutes also includes a listing of the bills, and we have all of our detail transactions on our OpenGov site.

### Election Abstract

Publishing the election abstract is not a great expense but the timing of the publication makes it old news. On election night, election results are uploaded to the Secretary of State's Office by every county. Individuals and the media use the Secretary of State site on election night and the days after to review and analyze the election results.

Six days after the election, the County Canvassing Board meets and counts any uncounted absentee ballots, and the county again uploads the additional results to the Secretary of State web site so updated results are available to both individuals and the media. We also create an abstract in an Excel spreadsheet and post that to our web site either the day of the County Canvassing or the following day. The earliest the publication would be in our official newspaper would be 13 days after the election, and in some cases it would be 20 days following the election.

I urge you to support and give a Do Pass recommendation to HB 1229.

1-24-19 HB1229

January 24, 2019

House Political Subdivisions Committee HB 1229

Chairman Dockter and members of the committee, my name is Stephanie Dassinger and I am the deputy director and attorney for the North Dakota League of Cities. I appear before you today to express the League's support of HB 1229 with the offered amendments.

Under NDCC 40-01-09.1 city electors vote every four years on whether a city should publish its minutes in the city's official newspaper. Most cities are required to publish their meeting minutes each month. One of the items that cities are required to include in their minutes is a list of the checks. I have attached a few examples of published city minutes that include this list of checks.

Placing a list of these expenditures online for citizens to review would be a more accessible and useful way to provide citizens with information about city expenditures and that is precisely what this bill does.

Under the offered amendments to HB 1229 a city could place a list of its checks online, in lieu of printing them in the newspaper. Please note, if a city does not have a website, the city would still be required to print the list of checks in its minutes.

The League of Cities respectfully requests a DO PASS recommendation on HB 1229.

HAGENDL

-24-19

Chairman Dockter and members of the committee: My name is Steve Andrist, and as executive director of the North Dakota Newspaper Association I represent the 78 weekly and 10 daily newspapers in the state.

HB 1229 proposes two changes to North Dakota law, both of which have the effect of reducing long-standing government transparency. These changes are proposed as a way to reduce the cost of government, which they would do. But the savings they would achieve would be barely noticeable to most counties, and would come with the added cost of reduced transparency.

How a county spends the tax dollars it collects from citizens is precisely the type of information those citizens want and need to know. Eliminating the list of bills paid from the minutes that are published in the official county newspaper reduces access to this important information. It's true that this information would be available on line to those who want to take the time to search for it. But searching the local county website isn't part of a daily or weekly routine for most of us. On the other hand, many of us still regularly read our local newspaper. When we do, it can be a serendipitous experience -- we find interesting, useful and important information that we weren't necessarily looking for, and when we find it we stop to read it. I'd be pretty surprised if there are many citizens browsing a county web site to see if they'll find anything of interest or import.

Then there's the cost issue. Last year, to provide information for the Interim Judiciary Committee, NDNA conducted a survey of its members to determine how much is spent on public notices. We found that in a one-year period from July 1, 2016 to June 30, 2017, the 53 counties spent about \$480,000 on ALL public notices. That's an average of less than \$10,000 per county, though of course Cass County spent considerably more than Billings County.

1435 Interstate Loop • Bismarck, North Dakota 58503-0567 • phone: 701-223-6397 • fax: 701-223-8185 www.ndna.com #11 1-24-19 HB 1229

That \$10,000 per county average includes minutes, bids, meeting notices, public hearings, budget reports, election notices and more. The list of bills makes up a only a small portion of only one of those public notices -- the minutes. Accordingly, the list of bills constitutes an almost imperceptible portion of any county's annual budget, which suggests the savings achieved by eliminating them from the minutes would be almost imperceptible.

The same cost-saving analysis would also apply to the second change proposed by this bill -- removing the requirement for publishing the abstract of votes in the official county newspaper. In most cases, the cost of publishing results of an election is less than the cost of health insurance for one commissioner for one month. (See chart.)

We recognize that election results are widely and immediately publicized online. But there are many citizens in our state who still don't have or use the internet. There are many others who don't have a sufficient stake in the process to take the time to browse to online sources. Many of those same people may very well be motivated to look at precinct-by-precinct results as they come across them in their official county newspaper.

So once again, it is our view that the result of changing this law would be a very small cost savings in exchange for noticeable loss of transparency.

There are three other points I'd like to offer for your consideration:

1) A few years ago, a survey conducted by Newton Marketing and Research revealed, among other things, that 70 percent of North Dakota adults would likely not read public notices if they were available only on government web sites.

2) A 2017 survey by Pulse Research of Portland, OR., reveals 58% of ND adults prefer to get public notices in the newspaper, while 33% prefer web sites. That result suggests a need to offer both options.

3) Newspapers offer both options. Several years ago NDNA established a state-wide public notice web site. That site has recently been upgraded, and the House Judiciary Committee last week passed a bill to require newspapers to post all their public notices to it. We believe a third-party site that aggregates all public notices to one web site is more useful than publishing them on hundreds of different government web sites.

Thanks for your time and attention. I'd be happy to try to answer any questions you might have about this bill or about our statewide public notice web site.

Thank you.

January 23, 2019

HB 122.9

1-24-1

Chairman Dockter and members of the House Political Subdivision Committee.

My name is Terry Schwartzenberger, editor/publisher of the official Logan County Newspaper in Napoleon.

I am urging you to vote no on HB 1229 and here are a few reason why.

What can you get that costs less than \$1.00 per year?

Well, if you live in Logan County the cost of publishing the list of Logan County bills from January 2018 through December of 2018 was 93 cents for each eligible voter (1,502) for the entire year. That is less than \$1.00 for an entire year to be able to read and view the list in either printed or in electronic format, which ever the taxpayer/reader may want to access. Yes, those bill listings are currently in print format, something which can be trusted and not manipulated or hacked and can be accessed for years and years. As an added bonus those same public notices are also now being posted on the NDNA public notices web site.

I don't believe there is a magical number which states how much government transparency should cost, but in 2018 the county of Logan spent \$1,404.15 to have the listing of their bills published in the Napoleon Homestead. That was the total cost for the entire year. Now for the cost of less than \$1.00 per year per eligible voter and to have the opportunity to be able to read where county tax dollars are being spent – that's a bargain.

I believe transparency in all forms of government and this is one of the best ways to build a good, trusting relationship with those footing the tax bill – that being the tax paying citizen, who would not be left in the dark. They could be well informed by being able to read those notices in their community paper.

I also broke down the cost of both the Primary and General Election official abstract of votes for Logan County voters. In the primary election there were 598 voters from across the county who took the time to cast a ballot. The Primary Abstract of votes cost \$306.24 which breaks out to 51 cents per person who cast a ballot in Logan County. For the General Election the cost of publishing the official abstract was \$447.12. At this election there were 1,006 who voted and this breaks out to 44 cents per voter. Once again these figures are both well under \$1.00 per voter.

What can you get for a \$1.00? Well in these instances with a no vote on HB 1229 you will continue to offer voters across the state the ability to be informed citizens at a cost which is very affordable.

Thanks for your time and consideration.

Terry Schwartzenberger Editor/Publisher

# Steele Ozone & Kidder County Press

#13 HB1229 1-24-19

Ph: 475-2513 115 1<sup>st</sup> Ave SE, Steele, ND 58482-0350 email: sop@bektel.com

Testimony of Paul Erdelt Publisher, The Steele Ozone and Kidder County Press Before the North Dakota House Political Subdivisions Committee In Opposition to HB 1229

Chairman Dockter and members of the committee: My name is Paul Erdelt. I'm the publisher of the local community newspaper in Steele, home of the Coffee Cup, Caribou Coffee, and the World's Largest Sandhill Crane, and I'm the current president of the North Dakota Newspaper Association.

If the point of House Bill 1229 is to save money for counties, it doesn't do a very good job of it. I'll explain that point by giving you some information about monetary savings in Kidder County...In 2018, Kidder County spent just over \$700 to publish the lists of their bills in my newspaper. That's about \$59 a month, and if you look at the line items, mine would be among the smallest on the list. It's less than what they've spent on flowers for a funeral, or mileage to Bismarck. It's far less than what they pay Verizon for cell phone service, hotel rooms, or boarding prisoners.

Most will argue, this \$59 a month is as important or more than cell phones or flowers or travel. It's simple, this is an inexpensive way for the county to tell its citizens how their tax dollars are being spent, and to allow them to find these expenditures where they always have been able to...in their hometown paper. To me, changing the law to save that \$59 is penny wise and pound foolish, and I encourage you to vote "no" on HB 1229. Looking for ways to better spend the taxpayer's dollars is the responsible thing to do...but the bang for your buck just isn't here. I can find hundreds of Kidder County residents that read these notices religiously in their newspaper that do agree with me.
