SCR 4014

2019 SENATE STANDING COMMITTEE MINUTES

Human Services Committee
Red River Room, State Capitol

SCR 4014
2/6/2019
Job # 32277

- Subcommittee
 Conference Committee

Committee Clerk Signature: Justin Velez

Explanation or reason for introduction of bill/resolution:

A concurrent resolution directing the Legislative Management to consider studying the implementation of the recommendations of the Human Services Research Institutes study of North Dakotas behavioral health system

Minutes:

No Attachments

Madam Chair Lee: Opens the hearing on SCR 4014.

Senator Kathy Hogan, District 21. Introduces SCR 4014 and gives a brief description.

Senator K. Roers: I struggle with it saying to consider studying because it sounds like you're doing another study. I just want to make sure this isn't a new study.

Senator Hogan: The other option is a mandate to do that. This will go in the big pot and legislative management committee will decide which one is considered. Its monitoring the implementation of the previous studies.

Madam Chair Lee: It's the implementation word that is important here because the recommendations are already in place.

Senator Hogan: Some of these studies come in and we talk about them every meeting. It varies from study to study based in large part by what the committee wants.

Madam Chair Lee: They get to pick and choose we want them to pick this.

Senator Hogan: We will lobby for this one. It is quite honestly since we started this, we probably introduced about 40 pieces of legislation but this ensures it is a coordinated process.

Madam Chair Lee: I really like to know how it's going and is there something that we need to do for the parties that are implementing it.

Senator Hogan: When you come into session you have a base of how did these eight bills that drove you crazy the first couple of weeks, how do they fit together? You have a better sense of how that all works so it is pretty coordinated.

Madam Chair Lee: Any further discussion on SCR 4014?

Senator Hogan: I move a **DO PASS**.
Seconded by Senator Anderson

ROLL CALL VOTE TAKEN
4 YEA, 2 NAY, 0 ABSENT
MOTION CARRIES DO PASS
Senator Hogan will carry SCR 4014 to the floor.

Madam Chair Lee ends the hearing on SCR 4014.

Committee Clerk: Nicole Klaman by Donna Whetham

Explanation or reason for introduction of bill/resolution:

A concurrent resolution directing the Legislative Management to consider studying the implementation of the recommendations of the Human Services Research Institute's study of North Dakota's behavioral health system.

Attachment 1

Minutes:

Chairman Weisz: Opened hearing on SCR 4014.

Senator Kathy Hogan: Introduced SCR 4014. **(See Attachment 1).**

Rep. Rohr: I thought we had a strategic plan on implementation?

Senator Hogan: This is the master plan, we do not have a plan for implementation and that would now be studied. We have pieces of it and we know everything we have asked for will not be implemented but some pieces can be done administratively and others through legislation or action and many pieces may be done at the local level. With monitoring all of the implementation, this is more of the implementation side than the planning process.

Chairman Weisz: Any further support of SCR 4014? Any opposition? Seeing none we will close the hearing on SCR 4014.

SCR 4014

#1
SCR 4014
3-19-19

Senate Bill 4041
House Human Services Committee
March 19, 2019
Senator Kathy Hogan

Chairman Weisz and members of the House Human Services Committee, for the record my name is Kathy Hogan and I represent District 21

Over the last four years, ND has been studying behavioral health issues. We have begun many new and innovative evidence-based pilot projects that are beginning to address some of these complex issues.

In April 2018 a comprehensive study and detailed implementation plan for addressing these many challenges was released. It is called the Human Service Research Institute (HSRI) study. This plan which includes 13 broad target areas and 65 detailed action steps. Attached is a one-page overview of the HSRI Study and a detailed matrix of the behavioral health initiatives that are being considered this session.

This resolution will affirm our commitment to these recommendations and it requests legislative management to consider the study of the actual implementation of those recommendations through regular monitoring reports.

I am more than willing to answer any questions.

North Dakota Behavioral Health System Study

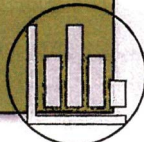

BEHAVIORAL HEALTH SYSTEM STUDY TIMELINE

#1 SCR 4014
3-19-19

Behavioral Health Division in contract with HSRI to conduct an in-depth review of North Dakota's behavioral health system.

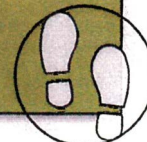

Final report released April 2018

**1/1/2017 TO
6/30/2018**

Behavioral Health Division in contract with HSRI to initiate and facilitate the implementation of a strategic plan based off the recommendations from the comprehensive study of ND's behavioral health system published April 2018.

**8/1/2018 TO
6/30/2019**

APRIL 2018 BEHAVIORAL HEALTH SYSTEM STUDY

Served as a component of interim legislative committee studies during the 65th Legislative Interim.

This report presents the findings from the North Dakota Comprehensive Behavioral Health Systems Analysis, conducted by the Human Services Research Institute (HSRI) for the North Dakota Department of Human Services' Behavioral Health Division.

The 250-page report provides more than 65 recommendations in 13 categories. This set of recommendations is intentionally broad and far-reaching; it is not expected, nor suggested, that stakeholders in North Dakota endeavor to implement all these recommendations at once.

1. **Develop a comprehensive implementation plan**
2. **Invest in prevention and early intervention**
3. **Ensure all North Dakotans have timely access to behavioral health services**
4. **Expand outpatient and community-based service array**
5. **Enhance and streamline system of care for children and youth**
6. **Continue to implement/refine criminal justice strategy**
7. **Engage in targeted efforts to recruit/retain competent behavioral health workforce**
8. **Expand the use of tele-behavioral health**
9. **Ensure the system reflects its values of person-centeredness, cultural competence, trauma-informed approaches**
10. **Encourage and support the efforts of communities to promote high-quality services**
11. **Partner with tribal nations to increase health equity**
12. **Diversify and enhance funding for behavioral health**
13. **Conduct ongoing, system-side data-driven monitoring of needs and access**

IMPLEMENTATION

HSRI is continuing to support the North Dakota Behavioral Health Division (in contract through June 2019) and the North Dakota Behavioral Health Planning Council to engage in coordinated, data-driven system transformation activities based on the recommendations from the 2018 Behavioral Health System Study.

Working with stakeholders - including service users and families, advocates, providers, administrators, and other North Dakotans – HSRI is helping the state set its course for ongoing system monitoring, planning, and improvements in the long term.

Based on the original 13 recommendations, HSRI has drafted a list of 140 strategic goals to enhance and improve all aspects of the state's behavioral health system in the years to come.
