## OTHER DUTIES OF THE GOVERNMENT FINANCE COMMITTEE - BACKGROUND MEMORANDUM

### MONITORING THE STATUS OF THE STATE BUDGET

Beginning with the 1975-76 interim, a Legislative Management interim committee has been assigned the responsibility to review state budget information, including the monitoring of state revenues and the status of major state agency and institution appropriations. The Government Finance Committee has been assigned this responsibility for the 2021-22 interim.

As in previous bienniums, the committee's review could place emphasis on expenditures of major state agencies and other appropriations the committee might select. Budget areas the committee may wish to review include:

- Status of expenditures of major agency programs;
- Status of the issuance of bonds for major building projects;
- Potential one-time funding items to be considered by the Legislative Assembly in 2021;
- Federal funding received and anticipated to be received by state agencies;
- Projected revenues, expenditures, and fund balances of major state funds;
- Revised 2021-23 biennium revenue forecasts and preliminary 2023-25 biennium revenue forecasts; and
- Other key budget issues for the 2023 legislative session.

A report on the status of agency compliance with legislative intent has been completed and presented each interim since 1987-88. This report includes the status of state agencies' and institutions' implementation of budget and programmatic changes, the status of legislative directives contained in appropriation bills and other legislation, and the identification of agency budget issues. These reports are also provided to members of the Budget Section for their information.

The type of reporting outlined above will provide the committee with early information on areas needing legislative consideration and action or may be the basis for legislation to be introduced to the Legislative Assembly in 2023.
