Major Related Legislation

Senate Bill No. 2021 - Transfers - Section 4 of the bill authorizes the Office of Management and Budget to make transfers of funds between line items of the Information Technology Department as may be requested by the Chief Information Officer as necessary for the development and implementation of the Medicaid management information system. Any increase in FTE positions needed for the project must be reported to the Office of Management and Budget.

Senate Bill No. 2021 - Financing arrangements - Section 5 of the bill allows the Information Technology Department to enter into an agreement to finance the purchase of software, equipment, or implementation services for a period not to exceed five years and allows the department to receive financing approval for those agreements in excess of \$1 million from either the Budget Section or the Legislative Assembly.

Senate Bill No. 2037 - Information technology statutory provisions - This bill provides that the State Board of Higher Education is responsible for managing and regulating information technology planning and services for institutions under its control; excludes certain policies, standards, and guidelines of the Information Technology Department from the Administrative Agencies Practice Act; authorizes the Information Technology Committee to review information technology projects of the legislative branch in addition to major information technology projects of the executive and judicial branches; requires the Information Technology Department to develop policies, standards, and guidelines using the enterprise architecture process and advice from state agencies and institutions; and provides the Oil and Gas Division and the Geological Survey of the Industrial Commission, the Public Service Commission, and the Water Commission an exemption to the information technology functional consolidation process.

House Bill No. 1024 - 2003-05 deficiency appropriation - This bill provides the Information Technology Department a \$1,070,142 general fund deficiency appropriation for the 2003-05 biennium. The appropriation represents the estimated amount needed for department operating costs to restore an undesignated general fund budget reduction made by the 2003 Legislative Assembly (\$1,000,000) and receiving less than anticipated revenues from special funds agency information technology reductions (\$70,142).
