

CHAPTER 61.5-03-03
VERIFICATION OF COMPLIANCE

Section

61.5-03-03-01 Verification of Compliance

61.5-03-03-01. Verification of compliance.

1. At the January license renewal deadline immediately following their two-year continuing competence cycle, registrants shall provide attestation to completing the continuing competence activities taken and indicating compliance with the required twenty-five units of continuing competence. The board, in its discretion, may require additional evidence necessary from a licensee to verify compliance.
2. The board shall periodically select a sample of ten percent of licensees each year for evidence of continuing competence to which they have attested. Documentation may come directly from the licensee or from state or national organizations that maintain those types of records.
3. A person who claims extenuating circumstances in not being able to meet the continuing competence requirements shall petition the board for consideration of those special conditions.
4. Licensees applying for licensure in North Dakota for the first time from other states or countries who do not have twenty-five units of continuing competence within the last two years will be required to complete thirteen units of continuing competence within a year of their initial licensure in North Dakota, and will thereafter be on the two-year continuing competence cycle provided in these rules.

History: Effective April 1, 1992; amended effective July 1, 2004; April 1, 2006; January 1, 2016.

General Authority: NDCC 43-26.1-03(5)
