67.1-02-04-01. Alternative access licenses for teacher shortages.

Alternative access licenses will be issued under the following conditions:

1. Consideration for alternative access licenses will not be granted until after July first in any year.
2. Alternative access licenses may be issued only in areas where documented shortages of regularly licensed teachers exist as determined by the board. Shortage areas must be determined by the board based upon the ratio of regularly licensed teachers in the state who are qualified for the position to the number of schools with open positions requesting alternative access licensure. In cases where near shortages exist, the board must give additional consideration to whether the hiring school has made a diligent effort to attract and hire regularly licensed teachers.
3. The request for an alternative access license must be initiated by a school. The school board or administration must make the request in writing to the board for consideration of an alternative access license, indicating intent to offer a contract if licensure can be arranged. The request must document that a diligent effort has been made to employ a regularly licensed teacher to fill the position. Documentation of a diligent effort to employ qualified personnel should include information on how and how long the position was advertised, whether schools of education have been contacted in search of applicants, how many qualified applicants applied, how many applicants were interviewed, whether increases in salary or other incentives were offered in an attempt to attract qualified applicants, and whether these incentives are comparable to those offered by other schools of similar size and means.
4. The candidate must write a letter indicating willingness to accept the position if offered and complete all of the application requirements and fees prior to receiving the alternative access license.
5. Complete official college or state-approved alternative program transcripts must be sent to the board.
6. Renewal of alternative access licenses will be reviewed each year and will depend upon the supply of and demand for teachers as evidenced by documented efforts to obtain a licensed person for the position. The alternate access license will be issued only once to complete all testing requirements for regular licensure.
7. Renewal of the alternative access license, if permitted, is contingent upon presentation of at least one-third completion of the requirements for regular licensure as stated in section 67.1-02-02-02 and the North Dakota standards for teacher education program.

8. The fee for the alternative access license is one hundred five dollars for each year the license is issued.
9. Alternative access licensure is to address documented shortage areas only. Alternative access licensure may not be issued to applicants who have failed to meet the deadlines or conditions of their regular licensure renewal.
10. Initial applicants for alternative access licensure must also submit to the fingerprint background check as stated in subsection 9 of section 67.1-02-02-02.
11. Upon completion of all of the requirements for regular licensure stated in section 67.1-02-02-02, an individual holding an alternative access license may apply for a regular two-year initial license and begin accruing the eighteen months of successful teaching time required to move into the five-year cycle according to sections 67.1-02-02-02 and 67.1-02-02-04.

The applicant must complete all of the application requirements, fees, and submit to the fingerprint background check as stated in subsection 9 of section 67.1-02-02-02 prior to receiving the interim substitute license. 1. The applicant requesting the clinical practice option must hold a valid regular license, alternative access license or trade, industry, technical, and health occupations interim license and be employed under contract by an approved school during the clinical practice. The clinical practice option is not intended to be used by applicants who are not under contract and would not need release time from those contracts to complete a regular student teaching experience.
2. The clinical practice option must be approved by the board before it begins as part of the applicant's program of study toward regular licensure and must be conducted under the supervision of a state-approved college of teacher education. Criteria and evaluations for successful completion of the clinical experience must parallel and meet or exceed those the college of teacher education applies to student teaching experiences and the clinical practice must be at the appropriate grade levels for the licensure sought.
3. The school employing the applicant and the applicant must submit letters to the board requesting the clinical practice option and verifying their support of the agreement.
4. The clinical practice option must require a minimum of ten weeks of close supervision (five weeks of close supervision if the applicant has already been prepared as a teacher), which includes an equitable combination of daily meetings with or observations of the applicant at the beginning of the experience, by an onsite teacher meeting the qualifications for cooperating teachers under section 67.1-02-01-02 and by the school building principal or other supervisor responsible for evaluations of teachers under North Dakota Century Code sections 15.1-15-01 and 15.1-15-04 and must include onsite visits by college supervisors which meet or exceed the requirements for student teacher supervision under section 67.1-02-01-03.

The mentoring occurs outside of the applicant's regular teaching assignment time and meets or exceeds the contact that would occur in a ten-week, full-time student teaching experience.
6. Upon completion of the clinical practice option, documentation of evaluations and transcripts verifying successful completion of the clinical practice will be provided through the college of teacher education to the board.
7. Applicants holding valid alternative access licensure under section 67.1-02-04-01 or trade, industry, technical, and health occupations interim licensure under section 67.1-02-04-06 who
