CHAPTER 48.1-09-02 IMPORTATION REQUIREMENTS

Section

48.1-09-02-01 Importation Requirements

48.1-09-02-01. Importation requirements.

Nontraditional livestock may be imported into North Dakota only after the owner of the nontraditional livestock:

- 1. Obtains a certificate of veterinary inspection. The certificate of veterinary inspection must include specific disease test results, vaccinations, and health statements required by this chapter.
- 2. Obtains an importation permit number from the office of the state veterinarian. The state veterinarian may deny a request for an importation permit number if the state veterinarian has information that an animal:
 - a. Has not met the disease testing, vaccination, or identification requirements set forth in North Dakota Century Code title 36 or this title, or as otherwise required by the state veterinarian;
 - b. Has not met any pre-entry quarantine conditions imposed by law;
 - c. Has been exposed to, may have been exposed to, is infected with, or may be infected with any contagious or infectious disease;
 - d. Is or may originate from an area or premises under quarantine or other form of official or regulatory action relating to contagious or infectious disease; or
 - e. May be a threat to the health and well-being of the human or animal population of the state, or both.

History: Effective July 1, 2016.
