

CHAPTER 69-05.2-07
PERMIT APPLICATIONS - EXTENDED MINING PLAN - REQUIREMENTS FOR
INFORMATION ON ENVIRONMENTAL RESOURCES

Section

69-05.2-07-01	Permit Applications - Extended Mining Plan - General Requirements
69-05.2-07-02	Permit Applications - Extended Mining Plan - Amendment
69-05.2-07-03	Permit Applications - Extended Mining Plan - General Map Requirements
69-05.2-07-04	Permit Applications - Extended Mining Plan - General Requirements for Description of Hydrology [Repealed]
69-05.2-07-05	Permit Applications - Extended Mining Plan - Alluvial Valley Floors [Repealed]
69-05.2-07-06	Permit Applications - Extended Mining Plan - Soil Resources Information [Repealed]
69-05.2-07-07	Permit Applications - Extended Mining Plan - Geologic Description [Repealed]
69-05.2-07-08	Permit Applications - Extended Mining Plan - Fish and Wildlife Information [Repealed]

69-05.2-07-01. Permit applications - Extended mining plan - General requirements.

Each application must contain an extended mining plan identifying the lands subject to surface coal mining over the estimated life of the operation. Extended mining plans must be complete, accurate, and updated annually.

History: Effective August 1, 1980; amended effective June 1, 1983; May 1, 1990.

General Authority: NDCC 38-14.1-03

Law Implemented: NDCC 38-14.1-15

69-05.2-07-02. Permit applications - Extended mining plan - Amendment.

The permittee shall annually advise the commission by January twenty-fifth of the status of the extended mining plan and submit two copies of any plan amendments or additional data.

History: Effective August 1, 1980; amended effective June 1, 1983; May 1, 1990.

General Authority: NDCC 38-14.1-03

Law Implemented: NDCC 38-14.1-15

69-05.2-07-03. Permit applications - Extended mining plan - General map requirements.

The applicant shall provide a 1:24,000 scale topographic map which shows:

1. The scale, date, location, company name, legal subdivision boundaries, an appropriate contour interval, and legend.
2. The extended mining plan boundaries and a legal description, to the nearest quarter section, of the lands within them.
3. The size, sequence, and timing of individual permits over the estimated life of the extended mining plan.
4. The estimated crop and recovery lines.

The information may be shown on one map or on separate maps along with appropriate narratives.

History: Effective August 1, 1980; amended effective June 1, 1983; May 1, 1990.

General Authority: NDCC 38-14.1-03

Law Implemented: NDCC 38-14.1-14, 38-14.1-15

69-05.2-07-04. Permit applications - Extended mining plan - General requirements for description of hydrology.

Repealed effective June 1, 1983.

69-05.2-07-05. Permit applications - Extended mining plan - Alluvial valley floors.

Repealed effective June 1, 1983.

69-05.2-07-06. Permit applications - Extended mining plan - Soil resources information.

Repealed effective June 1, 1983.

69-05.2-07-07. Permit applications - Extended mining plan - Geologic description.

Repealed effective June 1, 1983.

69-05.2-07-08. Permit applications - Extended mining plan - Fish and wildlife information.

Repealed effective June 1, 1983.
