An offender's completion of a period of five years after final discharge or release from any term of probation, parole, or other form of community corrections or imprisonment, without subsequent charge or conviction, is prima facie evidence of sufficient rehabilitation.
2. The department has determined that the offenses enumerated in subdivisions a and b of subsection 1 have a direct bearing on the applicant's, operator's, emergency designee's, substitute staff member's, director's, supervisor's, or staff member's ability to serve the public as an operator, emergency designee, substitute staff member, director, supervisor, or staff member.

 4. The operator shall establish written policies, and engage in practices that conform to those policies, to effectively implement this section before hiring any staff member.
 5. An owner shall submit an application for a fingerprint-based criminal history record check at the time of application and within five years from the date of initial approval and at least once every five years thereafter. The owner shall ensure that each staff member submits an application for a fingerprint-based criminal history record check upon hire and within five years from the date of initial approval and at least once every five years thereafter. The department may excuse an individual from providing fingerprints if usable prints have not been obtained after two sets of prints have been submitted and rejected. providing fingerprints, the department shall submit a request to the bureau of criminal investigation for a nationwide name-based criminal history record check.
