RULES OF THE COUNCIL.

ORDER OF DAILY BUSINESS.

After calling the House to order, the following order shall govern:

1. Prayer by the Chaplain.
2. Calling the Roll.
3. Reading of Journal.
4. Petitions or memorials to be offered.
5. Notice of Bills.
6. Introduction of Bills.
7. Resolutions.
8. Reports of Committees.
9. Communications on the President's table.
10. Reports in possession of the Council which offer grounds for a bill.
11. Bills or other matters before the Council, and unfinished the preceding day.
12. The general file of bills, and other papers, agreeable to their introduction.

RULES.

1. The President shall take the chair at the hour to which the Council is adjourned, and call the members to order; and, if a quorum be present, he shall direct the journals of the preceding day to be read, and mistakes, if any, corrected. He shall preserve order and decorum, and decide all questions of order, subject to an appeal to the Council.

2. One-fourth of the members may have a call of the Council, and absent members be sent for.

3. Questions shall be put in this form, viz: "As many as are of the opinion that (as the case may be) say 'aye.'" And after the affirmative voice is expressed, "As many as are of the contrary opinion, say 'no.'" If the President doubts, or a division be called for, the Council shall divide—those in the affirmative of the question shall first rise from their seats, and afterwards those in the negative.

4. All motions, (except to adjourn, postpone or commit,) shall be reduced to writing, if required by any member of the Council. Any motion may be withdrawn before it is amended by the Council.

5. Every member present, when a question is put, shall vote, unless he shall, for special cause, be excused, by a vote of the Council; but no member shall vote on any question in the event of which he is directly and personally interested, or in any case where he was not present when the question was put.

6. When a member is about to speak in debate, or deliver any matter to the Council, he shall rise from his seat, and respectfully address himself to Mr. President, and shall confine himself to the question under debate; avoid personalities, and the imputation of improper motives.

7. When a question is under debate, no motion shall be received but to adjourn, to lie on the table, for the previous question, to postpone to a day certain, to commit or amend, to postpone indefinitely; which several motions shall have precedence in the order in which they are named; and no motion to postpone to a day certain, to commit, or to postpone indefinitely, being decided shall be allowed on the same day, and at the same stage of the bill or proposition.

8. The previous question shall be in this form: "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the members present, and its effects shall be to put an end to all debate, and bring the Council to a direct vote upon amendments reported by a committee, if any; then upon pending amendments, and then upon the main question.

9. A motion to adjourn, to lay on the table, and for the previous question, shall be decided without debate; and all incidental questions, of order arising after a motion is made for the previous question, and pending such motion, shall be decided—whether an appeal or otherwise—without debate.

10. Any member may call for a division of the question, which shall be divided, if it comprehends propositions in substance so distinct, that on being taken away, a substantive proposition shall remain for the decision of the Council. A

motion to strike out and insert shall be deemed indivisible, but a motion to strike out being lost, shall preclude neither amendments nor a motion to strike out and insert.

11. Every bill shall be introduced on the report of a committee, or by motion for leave, on giving at least one day's previous notice. Every bill shall receive three several readings previous to its passage, but no bill shall have its second and third readings on the same day, without a suspension of this rule.

12. The first reading of a bill shall be for information, and if objections be made to it, the question shall be, "Shall the bill be rejected?" If no objections be made, or the question to reject be lost, the bill shall go to its second reading without further question.

13. Upon the second reading of a bill or resolution, the President shall state it as ready for commitment or engrossment, and if committed, then the question shall be, whether to Select or Standing Committee, or Committee of the Whole. If to a Committee of the Whole, the Council shall determine on what day. But if the Bill be ordered to be engrossed, the Council shall appoint the day when it shall be read the third time. No bill or Resolution requiring the concurrence of both houses shall be committed or amended until it shall have been twice read.

14. When a question is lost on engrossing a Bill for a third reading on a particular day, it shall not preclude a question to engross it for a third reading on a different day. On a third reading of a Bill or Resolution, no amendment (except to fill blanks) shall be received, except by unanimous consent of the members present.

15. A Bill or Resolution may be committed at any time previous to its passage.

16. In filling blanks, the largest sum and longest time shall be first put.

17. When a motion or question has been decided in the affirmative or negative, any member having voted with the majority, may move a reconsideration the same or the day following.

18. Before acting on Executive business, the Council Chamber shall be cleared, by direction of the President, of all persons except members, the Secretary and Sergeant-at-Arms; the members enjoined to observe secrecy, and the Secretary and Sergeant-at-Arms to be sworn.

19. No standing rule or order of the Council shall be rescinded or suspended, except by a vote of two-thirds of the members present.

20. The rules of parliamentary practice comprised in Cushing's Manual, shall govern the Council in all cases to which they are applicable, and in which they are not inconsistent with the standing rules or orders of the Council and the joint rules of the Council and House of Representatives.

21. When the ayes and noes shall be called for by two of the members present, each member called upon shall, unless for special reason he be excused by the Council, declare openly and without debate his assent or dissent to the question. In taking the ayes and noes and upon the call of the House the names of the members shall be taken alphabetically.

22. On the final passage of all Bills the ayes and noes shall be taken. And there shall be the following Standing Committees:

THIRD DAY.

COUNCIL CHAMBER, }

Wednesday, Dec, 9, 1863. }

Council met pursuant to adjournment, at 10 o'clock, A. M., and was called to order by the President in the chair.

Prayer by the chaplain.

Roll called.

The following members answered to their names, to wit:

Messrs. Bothun, Compton, Gregory, Kingsbury, Taylor, Thompson and Mr. President.

The journal of the 8th was then read and approved.

Mr. Kingsbury, chairman of committee on elections, to whom was referred the certificates of election of Messrs. M. M. Rich, John Mathers, J. O. Taylor, George Stickney, A. Cristy and

Charles Labmach, contestants for seats in the Council, belonging to the first Council district, submitted the following report :

MR. PRESIDENT :—Your committee on elections, to whom was referred the respective credentials of the gentlemen from Cole county, claiming seats in this body, have given to the matter a candid and impartial investigation, allowing full and satisfactory time to the claimants of each opposing party, to present all evidence deemed by them necessary to establish their respective rights to membership in this Council, and after listening patiently and with due attention, to the evidence produced by each party, have candidly, and without undue prejudice, arrived at the following conclusions :

That on the 7th of September, 1863, an election was held in Cole county, Dakota Territory, for members of the Legislative Assembly now in session. That such election was held at different places in said county, and conducted pursuant to orders, notices and proceedings of two different boards of county officers, both claiming a legal existence.

That no evidence has been produced before your committee, showing that the board of county officers, composed in part of Thomas Watson, Archibald Christie and Sherman Clyde, as county commissioners, Henry S. Carpenter, as Register of Deeds, and William Searls, Judge of Probate, were never properly qualified to act as such, and that all elections which have been held in compliance with the proceedings of the above named gentlemen, claiming to represent the respective offices before mentioned, are, and of right should be, null and illegal, and consequently of no effect.

That the board of county officers consisting in part of William Frisbie, William Mathers and Jno. R. Wood, as county commissioners, N. J. Wallace, Register of Deeds, and A. R. Phillips, Judge of Probate, were duly appointed, pursuant to law, to these respective positions by the Governor of this Territory, and under the law which created the power and named the manner of their appointment, they are made to hold their respective offices until their successors are elected and qualified. In the opinion of your committee, the last named officers, (with the exception of N. J. Wallace, whose commission as Register

of Deeds was revoked, and a second commission issued to M. M. Rich, by the Governor of this Territory, which last named gentleman, your committee believe to have been the rightful Register of Deeds of Cole county, since his appointment as such,) were the only legally constituted officers of Cole county, in their respective positions, who could act as such during the time comprised in the proceedings out of which this contest has grown; and that the election held on the 7th of September, 1863, pursuant to the proceedings of William Frisbie and William Mathers, as county commissioners, and M. M. Rich, as Register of Deeds, was the only one, in the opinion of your committee possessing the sanction of legality.

Your committee would wish to remove any impression in the minds of your honorable body, and the citizens of Dakota, that the board of county officers first mentioned in this report, and the gentlemen assuming to be elected members of this Council under their proceedings, have evinced any desire in their several acts, other than that apparently prompted by a sincere wish for justice and equity, and their evidence produced and the conduct of the gentlemen before your committee has been of that courteous, candid and straight forward character, which deserves and receives our unqualified esteem and warmest sympathy.

The evidence upon which your committee base their conclusions, is herewith presented in part, though not in such concise form as will be readily accessible, owing to a lack of time since our investigation was concluded.

Finally, in consideration of the facts and conclusions set forth in the foregoing report, based upon full, complete and satisfactory evidence, your committee believe that they have discharged their whole duty to the parties opposed in this contest, to the citizens of the first Council district, and to this honorable body, and feel assured, that from this statement, you will be enabled to arrive at an equitable conclusion respecting the conflicting claims herein presented.

All of which is respectfully submitted.

Signed, COUNCIL CHAMBER,
YANKTON, D. T., December 8, 1863. }

GEO. W. KINGSBURY, Ch'n,
HUGH COMPTON,
JOHN J. THOMPSON.

Committee on Elections.

Mr. Kingsbury, chairman of the committee on elections, to whom was referred the certificates of election of Messrs. D. P. Bradford and John H. Shober, contestants for the seat in this Council, belonging to the 4th Council district, submitted the following report:

MR. PRESIDENT:—Your committee on elections, to whom was referred the credentials of D. P. Bradford, and John H. Shober, opposing claimants for a seat in this Council from the 4th Council district, have given to the subject a full and complete investigation, and a candid and impartial consideration, and have arrived at the following conclusions, the evidence supporting said conclusions, in part accompanying this report.

That the office of Register of Deeds of Bon Homme county, at the time of the holding of the election on the 7th of September, 1863, was rightfully held by Laban H. Litchfield, and no certificate of election under the laws of this Territory, issued to any individual resident of Bon Homme county pursuant to an election held on the 7th of September, 1863, would be valid, unless subscribed by said Laban H. Litchfield, as Register of Deeds.

That at the election held in Bon Homme county on the 7th of September, 1863, your committee are satisfied that Daniel P. Bradford received a majority of the legal votes cast, for the office of Councilman of the 4th Council district, that the proper canvass of said votes was made, and a certificate of election to this body issued to the said Daniel P. Bradford, by the rightful Register of Deeds of Bon Homme county, Laban H. Litchfield.

In consideration of these facts, your committee would recommend that the said Daniel P. Bradford be admitted to a seat in this Council on an equality with the representatives from other districts.

Signed, COUNCIL CHAMBER,
YANKTON, D. T., December 8, 1863. }

GEO. W. KINGSBURY, Ch'n.

HUGH COMPTON.

JOHN J. THOMPSON.

MR. PRESIDENT:—I am instructed to inform your honorable body that the House has appointed Messrs. Bottolfson, Reed, and Kegan a joint-committee to act with a like committee on the part of the Council to wait upon his Excellency the Governor and inform him that the two houses will meet in joint convention this afternoon, at 2 o'clock for the purpose of hearing any communication he may have to make.

A recess was had until half-past one o'clock, this afternoon.

At half-past one o'clock the Council was called to order by the President.

Mr. Kingsbury submitted the following report :

MR. J. SHAW GREGORY,

B. A. HILL,

Committee.

Immediately after which a messenger from his Excellency appeared and presented a communication, which was read to the convention, as follows :

GOVERNOR'S MESSAGE.

Gentlemen of the Council and House of Representatives :

A year has elapsed since you last assembled in this hall to deliberate and enact laws for the government and welfare of our people. A year of great trial to our country ; a year of intestine war and bloody feuds ; a year in which our loyal and patriotic citizen soldiers have, by their bravery, indomitable energy and perseverance, obtained great and important victories over our enemies ; a year in which whole States have been conquered and reclaimed from the possession and control of the traitors, who have, for more than two years and a half, been

engaged in murdering and plundering our fellow citizens, and devastating our once happy, united and peaceful country; a year of border war with the relentless, implacable, and heartless savages of our own Territory—and still we have a country and government left us, of which we may all be proud, and which should be the pride and boast of every true, patriotic and loyal American citizen, whether such by birth or naturalization.

While all this has been transpiring within our country the past year, we have every reason to feel thankful for the blessings that have been bestowed upon us by an all-wise over-ruling Providence, and should fervently thank Him for his continued mercies vouchsafed to us.

In the progress of the war for the preservation of our Government, the enforcement of just laws, and the maintenance of our national domain, it behooves us to mention some of the causes which have led to our calamities, in order that, on the recurrence of peace—which, judging from the progress made by our armies the past season, must, ere long, return to our distracted country—we may, if possible, in the future avoid them.

Whatever is loose in the foundation of the fabric of our glorious Government, must be made fast; whatever has become corrupted must be lopped off; whatever is not built on the broad basis of public utility, equality, justice and freedom to all, must be thrown to the ground. Liberty and equal rights must be our watchword, and must be extended and guaranteed to all classes of American citizens, not even excepting the poor benighted African, who has, to the present time, in this country, been the victim of hard, implacable avarice,

The great mainspring of human action will forever be emulation, and it is only in a just, well ordered, and well regulated government, that we shall be able to prevent in the future, that emulation from degenerating into dangerous ambition, destructive factions, and, worse than all, bloody civil wars, as evinced in our present national difficulties.

A people become tumultuous and unmanageable when made to believe that they are oppressed;—although naturally of a peaceable temper, if circumvented or misled by those they have

trusted, are easily led astray, over-run the bounds of justice and honesty, ruining all before them, and, unhappily, for their own good, frequently rebel, and undertake to overthrow the most beneficent, just, and liberal government, and insist upon being misled by the most artful, knavish, and ambitious of the land, as witnessed in the persons of the leaders of this great rebellion.

A great majority of the people are too fond of ease and peace to trouble themselves about public affairs, and this gives an opportunity for the ambitious, profligate, and dissolute, to have more of influence than they ought in public affairs, and enables them to set before the people such idols as will flatter and seduce them from the path of rectitude, and lead them to become careless and heedless in the discharge of their duties as good citizens.

Emulation, envy, pride, and lust for power, are so natural in the human heart, that wherever men are to be found and however connected, we see its effects. They are not more affected by it as individuals than they are in communities. There are rivalries between trades and professions; between congregations, parishes and churches; between colleges and universities; between villages, cities, provinces, states, and nations. Hence, the great struggle in which we, as a nation, find ourselves engaged. Ambition, pride, envy, and emulation, are among the leading causes which have led to our present national calamities. These feelings have been nursed and fostered by us as a people, by a process so subtle, slow and diversified, that the fires of rebellion were kindled and brightly burning over nearly one-half our country, ere we could awake ourselves to a realizing sense of our danger or be brought to the thinking point on the subject of the necessity of prompt and vigorous action, if we would preserve our institutions and republican form of government.

Ambition, pride, jealousy, and emulation, caused the South to secede, and have enabled them to maintain a contest unparalleled in the history of nations, or the annals of warfare, for two years and eight months, with a tenacity and strength worthy a better and more patriotic cause; and it grieves me to be obliged to confess, that the men engaged in this rebellion—

the instigators of it—have been vastly aided and strengthened, and doubtless advised and counseled with, by a large number of influential citizens of the North, who have, in this manner, contributed, in no small degree, in prolonging the war beyond the conception of the most sagacious statesmen of our land. This deplorable state of affairs has been brought upon our country simply because one set of men saw power, patronage and position slipping from their grasp, never to return to them, for reason of their lack of fidelity, faithfulness, patriotism, and love of country.

A large majority of our loyal countrymen have become thoroughly convinced of the necessity of thrusting from power and place, men who have betrayed their confidence, proved themselves untrustworthy, and have, during the pending of our great national struggle, contributed and are now engaged in fostering and strengthening the rebels for the gratification of their selfish and personal ends. The evidence of the truthfulness of this statement is found in the triumphs of our combined loyal voters, over traitors and rebel sympathizers in the States which have recently held elections, where the result has been so decided and overwhelming as to astonish even the most sagacious and ardent patriot in the country. These results have gladdened and warmed the heart of every truly loyal and patriotic citizen of our Territory, and the effect will be only to nerve and encourage every such man to renewed exertion and determination never to cease their laudable efforts until every official position in our Territory is in the hands of men who truly love their whole country, and will hold themselves in readiness at all times to do battle, if need be, in defense and for the preservation of our free institutions.

SIoux WAR.

Two expeditions have been fitted out the present season by the government, at great expense and at a time of great peril to our whole country, when the aid of every able-bodied man was needed by the government for its protection against armed traitors—one from the state of Minnesota, the other from the State of Iowa—both of which have, by long and tedious marches westward, traversed nearly the entire breadth of our Territory, having for their object the punishment of the In-

Indians engaged in the massacre of the whites, our neighbors in the State of Minnesota, and for depredations committed by them in that State, and in our own Territory, within the past eighteen months; and though ample force was provided by the Government in both cases, and both succeeded in coming up with the Indians and inflicting some punishment upon them, I am sorry to say that in neither case has the punishment been of that severe and decided character as will be likely to end this bloody, expensive and harrassing war; and there will doubtless be a necessity for another expedition next season. This circumstance is greatly to be regretted, from the effect that a border war of this character, has upon the settlement and development of our new Territory and the increased burthens to the general government caused thereby. While I would censure no one for these failures, who have been connected with either of these expeditions, I feel that I would not be discharging my whole duty without expressing the opinion that the plan of these campaigns was on a much larger and more expensive scale than was necessary to accomplish the object, and was not organized on a basis to insure dispatch and thereby success. In connection with this subject, I believe it to be due to Brigadier General Sully, who had command of the Expedition up the Missouri river, to mention some of the obstacles which surrounded him in the execution of his part of the campaign.

It is well known that in consequence of the unprecedented low stage of water in the Missouri river, the boats chartered to accompany the expedition, were delayed much beyond the expectations of the officer in command, and when they arrived at headquarters, (Sioux City,) were found to be almost useless for the purpose for which they were chartered. The failure to furnish animals for land transportation, also caused much delay, and when they were finally furnished, many were in such a condition as to be entirely useless. The unprecedented drought, which destroyed the prairie grass, made it necessary for a much larger amount of land transportation than would have been necessary had the season been an average one. These obstacles, doubtless, prevented General Sully from moving his command in time to meet General Sibley,

as was contemplated in the original design of the campaign.

After garrisoning the several military posts in the Indian country, and distributing at proper points along the frontier, a sufficient force to protect the settlements, I am of opinion that one full regiment of cavalry, well armed and provided with pack mules, sufficient for their necessities, under the command of active, energetic and determined officers, who have no feeling but a desire to punish and thoroughly subdue these Indians, would accomplish all these ends in one campaign, and that a short one.

With all the vigilance exercised by our officers along this frontier, (and I most cheerfully accord to them the exercise of this cardinal military virtue) the Indians have made frequent raids upon our isolated settlers, have committed several most atrocious and cold-blooded massacres, stolen many horses, and much other valuable property; and none engaged in these raids have, to my knowledge, been in the slightest degree punished. Why this is so, I am unable to say, but am irresistibly led to the conclusion that the system adopted is radically wrong. If so—and experience and results would seem to establish the position—then why not change it and try some other?

Long and rapid marches must be performed; quick and heavy blows must be given; severe and ample punishment must be inflicted upon these Indians, to effect the object desired; and it is to be hoped that such a policy will in future be adopted by the Government as will speedily insure a lasting and permanent peace, and bring quiet and tranquility to our harassed citizens.

ORGANIZATION OF DAKOTA.

Two years and eight months have now elapsed since Congress saw fit to construct the machinery for putting into operation our territorial government; and, on a change of administration which occurred only two days thereafter, and as soon as our present excellent Chief Magistrate had fairly got the reins of Government in hand, our first Governor, his Excellency, William Jayne, was appointed, and very soon thereafter, repaired to the post of official duty, and proceeded to put the wheels of our territorial government in motion. The task was a most delicate, arduous and difficult one, and most faithfully was it accomplished.

As an evidence of the favor with which our people have looked upon and appreciated this selection of the President's, and as a just reward for constant courtesy, fairness, and uniform kindness, and the impartial manner with which he discharged the trusts imposed upon him; our people, within little more than fifteen months after his arrival in our Territory, with great unanimity, selected him to represent them at the National Capital. He, by the choice of our citizens, thus becomes our second Delegate in Congress.

Important results have been anticipated by our citizens in connection with this selection; not only from the fact of his intimate personal relations with the President, his earnest, hearty and cordial sympathy and identity with the Administration, his fidelity, patriotism and love of country, but also for his condemnation of rebels and rebel sympathizers wherever they are found.

EDUCATION.

I would call your attention to the importance and necessity of inaugurating a thorough and complete system of common schools in this Territory, for the benefit of rising generations. Congress has, by its munificence, understanding well the importance to American citizens, set apart two sections of the public domain in our Territory to every six miles square, as a basis on which to found a permanent and enduring school system, which, if properly cared for, will, in time, enable us to establish a system of free schools, with such an endowment, as will cause the burthens of such a system to fall lightly upon our citizens.

The importance of having a common head in our school system, it appears to me must be patent to all. The plan adopted at your last session, of county superintendents, may be well so far as it goes; but it appears you have in this inaugurated just so many independent school systems as there are organized counties in the Territory. Such a system must, in a short time, lead to almost inextricable confusion, the result of which, will be to bring the whole plan into disrepute.

Wise and judicious modes of education, patronized and supported by communities, will draw together the children of all grades of society, among whom it makes no distinction. It

will cultivate the natural genius, elevate the soul, excite laudable emulation to excel in knowledge and benevolence, and it will reward its benefactors by shedding its benign influence on the public mind and morals. Education inures men to thinking and reflection, to reasoning and demonstration, and enables them to discover the moral and religious duties they owe to God and their country. It leads our youth to the study of human nature, society and universal history, and causes the mind to be interested in discovering truth, and will at least induce a large majority to array themselves on the side of and in the defence of truth.

I would recommend such an amendment of our school law as will make these county superintendents amenable and subordinate to a territorial superintendent, who shall be elected by the people, who shall have the general supervision of our school system. It appears to me that our common school system will be very imperfect and ineffective until this is done. I deem it of the utmost importance in inaugurating a system of the magnitude that this will ultimately become in this Territory to future generations, that we start on a firm, sure, and perfect basis.

ELECTION LAW.

Our Election Law needs amending in many particulars.—Its workings have demonstrated the necessity of more stringent provisions to prevent illegal voting; for the protection of the voters and ballot-box at the polls, and for the protection and safety of the persons of the judges and clerks of election.

It is desired by all that every actual bona fide resident of Dakota, of lawful age, who is a citizen of the United States, and has resided the requisite time in this Territory, should be permitted to exercise the privileges of the elective franchise, and especially is this the feeling on the part of our citizens, in relation to persons in the military service of the Government, who were actual residents and entitled to vote at the time they entered the military service. While this is the feeling it is at the same time important that every possible safeguard should be thrown around the ballot-box to preserve its purity, in order that the actual wishes of our citizens may be arrived at, as expressed through that medium, and at the same time the law.

should be so guarded that no one, not actually entitled to exercise the right of suffrage, whether in the military service or not, shall be permitted to vote at any election in this Territory, without incurring such fines and penalties as shall deter all such persons from offering to vote.

I would recommend a change in the time of holding our annual elections from the first Monday in September, to the first Tuesday after the first Monday in October in each year, and the enactment of a law making it a high crime for any person or persons, except the judges of election, or those whose duty it is made by law, to interfere in any manner with the ballot-box or the ballots, and attach such fines and penalties in such case as will be likely to deter in future all efforts at interference by outsiders, in such cases.

IMMIGRATION.

The subject of fostering and promoting immigration into our new Territory, is a matter of vital importance to our whole people, and cannot well be over-estimated. The individual efforts of some of our citizens in this respect very justly deserves your attention and commendation, and should receive that encouragement at your hands that the importance of the subject would seem to indicate.

The efforts made by Surveyor-General Hill in this direction, though, as yet, attended with no very decided results, would seem to have laid the foundation for a large and flourishing settlement from the Empire State; and when made, as in this instance, from an earnest desire to promote our growth and increase our material wealth and importance as a people, full credit and co-operation should be given him, as far as possible, on your part.

I would recommend that you memorialize Congress for an allowance of one thousand dollars, to be placed at the disposal of three commissioners of immigration, to be by them used in such manner as will be deemed most likely to secure the desired object. I have no doubt that this sum, judiciously expended, would accomplish results that would be entirely satisfactory to our citizens; even though it should be necessary for us to have this sum annually deducted from the appropriation by

Congress for Legislative purposes in our Territory, and if necessary to secure it, I would recommend that you ask that this amount be deducted from year to year, to be so applied.

With a view of securing the services of able and competent men, who will carefully guard this expenditure, make it accomplish as much as possible, who can afford to serve gratuitously, I would recommend that our Chief Justice, Secretary, and Surveyor-General, constitute said commissioners.

ROUTE TO THE GOLD MINES.

The recent discoveries of rich deposits of gold in our neighboring Territory, Idaho, has very justly attracted a large share of attention, not only in our own Territory, but in all the northwestern States and Territories, and the question of most importance among the numerous persons who have had their attention directed to this new Eldorado, and who are desirous of making a pilgrimage thereto, seems to be, "how to get there," and "which way to go."

But two routes have thus far been available to the numerous persons who have left our Territory for this auriferous region. The shortest, most practicable, and expeditious route at present is, via the Missouri river, (when the stage of water is such as to admit of it) to Fort Benton, by steamer, thence overland by teams or pack mules, to the gold fields. The other is by a long and tedious journey overland, by way of Omaha, Forts Kearney, and Laramie, to Salt Lake City; thus traveling, in taking the latter route, over six hundred miles farther than necessary to reach the desired point; provided, an overland route was opened through our own Territory, and protection afforded to those desiring to visit the gold mines of Idaho. The importance of opening a direct route to these mines through our own Territory, and turning the tide of emigration this way, cannot well be over-estimated, either to the emigrant, or to the interests of our people. To the emigrant, as a means of shortening his long and tedious marches, by reducing the distance over six hundred miles, and by saving from three to four weeks time—to our own citizens, by affording to our farmers a ready market for all their surplus produce at their own doors, thus saving the necessity of cartage and necessary ab-

sence from the fields of their labor, and to our merchants and business men; from the increased demands made upon their stocks and business occasioned by the emigration flowing constantly past their doors, making it necessary for them to establish large and extensive depots of supplies in the way of mining implements, provisions and other articles necessary to supply the wants of a people about to engage in such a business. The shortest, best, and most practicable route to the gold fields of Idaho, from any of the Northwestern States, is undoubtedly through the settled portion of our Territory, to the mouth of the Niobrara river or Fort Randall, from thence along the divide between the Niobrara and White rivers; thence under the base of the Black Hills, passing the sources of the Yellow Stone to the forks of the Missouri. I trust our delegate in Congress will, at an early day, urge this matter upon the attention of Congress in such a manner and with such force, as will secure an appropriation sufficient to open the route and secure protection to all who may desire to avail themselves of the shortest route to these mines.

This matter is also of vast and vital importance in another point of view, from the fact that this route would pass through the very heart of the Indian country, and its effect in my opinion, would be, in a very short time, to satisfy the Indians of the folly of their efforts to exterminate the whites, and would soon cause them to come forward, make treaties of peace and at no very distant day, lead them to locate upon reservations, and by judicious management cause them to abandon their present mode of life and turn their attention to agriculture and the arts, ultimately civilize and enlighten them, and finally become, as they are undoubtedly capable of becoming, in the course of time, respected and esteemed citizens—no longer a terror to defenseless women and children, and a barrier to the advancement of settlement and civilization.

PACIFIC RAILROAD ROUTE.

The subject of the location of the northern branch of the Pacific Railroad is very justly attracting a large share of the attention of our citizens, and its importance to our people cannot well be over-estimated when we take into consideration the very important fact, which is susceptible of positive demonstra-

tion, that the shortest and indeed only practicable route for this road, from Sioux City westward, is through our own Territory along the valley of the Missouri river, to the mouth of the Niobrara; thence up the valley of that stream to or near Fort Laramie; thence to the South Pass.

The saving of distance in adopting this route cannot be much less than one hundred and fifty miles, to say nothing about the difference in the cost of construction, which may be estimated at many millions of dollars, as in following the valleys of these streams a grade is already virtually established, timber and water in abundance is at hand to construct the road and supply it for years; while in the other case, in adopting the route contemplated in the bill, as passed by Congress, the road would run for a long distance over the most hilly and broken country to be found in Nebraska, at right angles, or nearly so, with the general range of the divides between the streams of that Territory and through a country for several hundred miles entirely destitute of timber, and, I suppose, for long distances, of water also; with the additional expense to the company of maintaining and operating an extra one hundred and fifty miles of railroad of the importance of the one under consideration. It appears to me that it is only necessary to call the attention of members of Congress to this subject, to cause them at once to take such action as will secure to our people a fair participation in the benefits to be derived from the construction and operation of this road.

I would recommend that you memorialize Congress on this subject, setting forth the advantages of adopting the line of route indicated, and praying Congress to authorize the Missouri and Niobrara Valley Railroad Company to construct a railroad and telegraph line from the Big Sioux river, near Sioux City, Iowa, by the most direct and feasible route to such point as will connect said railroad with the Union Pacific Railroad, in the direction of the South Pass of the Rocky Mountains, on the same terms as is provided for the construction of the Union Pacific Railroad by act of Congress approved July 1st, 1862.

PUBLIC DOMAIN.

None of the public domains in our Territory having, as yet,

been brought into market by the General Government—a fact which happily accords with the present desire of our citizens, who all feel that in this matter the Government has consulted the best interest of our actual settlers,—we have inaugurated no system of taxation, and as a consequence, have no means at hand of showing, by actual and reliable returns, the favorable condition of our citizens engaged in agriculture, manufacture or the arts, or the large and important interests of our stock growers. While this would be a matter of pride and boast to our citizens, when compared with other sections of the country, taking into consideration our population, and the recent purchase and redemption of our Territory from the Indians, we all feel that it would not be compensated for, by placing the public lands in a position to be entered by speculators or non-residents, to be held for years at a largely enhanced price, to the great detriment of our Territory and our actual bona fide settlers.

We cannot but feel thankful to the Government for its liberality to us in this respect, particularly when we consider the enormous amount of money required, and the great relief that would be afforded by large sales of the public domain.

Here, free homes are offered by our beneficent Government to actual settlers, in a country unsurpassed in salubrity and purity of climate, and where whole townships, and even counties, of vacant lands are found, as productive as the savannas of the South. There are to-day thousands of men in the Eastern and Middle States that have constantly toiled from year to year for a subsistence for themselves and families, on a few acres of well-worn rented land, and paying, in many cases, a price per acre for the use of such lands per annum, as would secure in our Territory a homestead of one hundred and sixty acres of as fine lands as the sun ever shone upon, every foot of which is susceptible of the highest state of cultivation, at less cost in labor than in any country to be found in the Eastern or Middle States. The small farmers in these States, have only to see these lands and all the surrounding advantages, to appreciate the liberality of the Government, and the great advantage of seeking a home in our Territory, where but a few years of the same industry and economy practiced by them in their

Eastern homes, from childhood, would be requisite to make them all comparatively independent, in a pecuniary point of view.

LEGISLATIVE EXPENSES.

Through the courtesy of Secretary Hutchinson, who has performed the double duties of Acting Governor and Secretary for the last nine months, and who, so far as I am able to judge, has discharged these double duties to the general satisfaction of our citizens, and from a desire to furnish information not only interesting to you, but also to the people, I am enabled to lay before you a statement of the condition of the several appropriations made by Congress to defray the Legislative expenses in this Territory from its organization to the present time, which includes two Legislative appropriations or years :

First Session, Appropriation,	\$20,000 00
Expended,	18,813 94
	<hr/>
Unexpended balance,	\$1,186 06
Second Session, Appropriation	\$20,000 00
Expended,	13,270 80
	<hr/>
Unexpended balance,	\$6,729 20

It was to be expected that the expenditure the first year would exceed that of any other year, from the fact that the first Legislature had necessarily to create and perfect as far as possible a system of laws for the government of our people. The amount of labor performed by that industrious and honorable body in a session of sixty days, can but be a source of gratification to those gentlemen.

Subsequent legislatures have only to improve and perfect the system then adopted, by wise and judicious amendments, such as usage and the light of experience would seem to indicate, and make such alterations as are demanded by the improved condition of our citizens, and the necessities of the times in which we live. The reduction of expenditures under this head, of five thousand five hundred and forty-three dollars and fourteen cents at the second session, is the best commentary that can be made on the action of the members of that body, and is an

example in this respect well worthy of imitation on your part, and it is to be hoped that you may still further reduce our legislative expenses, (notwithstanding our decided increase of representation) without prejudice to the interests of the public service.

AUDITOR'S REPORT AND MILITIA SERVICE.

I transmit herewith the full and very able report of our Territorial Auditor, to whom much credit is due for the fidelity with which he has discharged his laborious and arduous duties. Incorporated in the report of the Auditor, is that of Hon. James Tufts, Special Commissioner by act of our last Legislative Assembly, approved January 9th, 1863, to pass upon claims of our citizens for military services under the proclamation of my predecessor, issued on the 30th day of August, 1862, calling out the "entire militia of the Territory," for the protection of the lives and property of our citizens.

With great promptness and unanimity our citizens responded to the call of the Governor; remained in service and afforded ample and perfect protection until the immediate danger was over, and until relieved by a force of volunteers regularly mustered into the service of the United States.

The best commentary on the faithfulness and fidelity of Commissioner Tufts, in the discharge of his delicate duties is shown in the aggregate of these claims, which only amounts to \$28,137 17, twenty-eight thousand one hundred and thirty-seven dollars and seventeen cents, for two months services of our militia, including rations, forage, transportation, &c. These figures can but compare favorably with claims of like character which have accrued in other Territories under similar circumstances. I would renew the recommendation of my predecessor in his last annual message, that you memorialize Congress for an appropriation sufficient to refund to the Territory all the expenses incurred by her in providing for the maintenance of the militia on the occasion referred to.

ADJUTANT GENERAL'S REPORT.

I transmit herewith the report of Adjutant General C. P. Booge, which shows the present status of military affairs in the

Territory, so far as returns have been made to his office; but which, owing to the negligence of some of the company officers, and the imperfection of the law creating our militia system, are necessarily very imperfect and unsatisfactory in their details.

In case injustice is done to individuals, it is caused by the negligence of the officers in not making the proper returns to the Adjutant General.

The reforms recommended by General Booge are such as experience have shown to be necessary; and I hope you will provide an efficient law, and a suitable place to store the arms and property of the Territory.

MILITARY POSTS.

The subject of military protection is one in which all our citizens take a deep interest, and it is one of vital importance to us, as, unless ample protection is afforded by the Government, we cannot expect our isolated settlements will flourish and expand.

I am fully convinced that a line of military posts, extending from the Minnesota State line, across the southeastern portion of this Territory, intersecting the Missouri river near the mouth of Crow creek, under the command of officers who will make themselves active in the discharge of their duties, will afford our settlers, and those of northwestern Iowa and southwestern Minnesota, better protection, at less cost to the Government, than can be afforded in any other way. Should the Government see fit to establish military posts at Lake Shetek, in Minnesota; at or near Sioux Falls, and at the crossing of Dakota river, near the mouth of Flint creek, in this Territory; with proper energy and activity on the part of the troops at these several stations, I believe full, ample and perfect protection could be afforded to all the frontier settlers of Minnesota, Iowa and Dakota.

COUNTY CONTROVERSIES.

An unfortunate controversy has existed in two of our organized counties, from the time of their organization under the laws passed at the first session of the Legislature, to the present, and to all appearance, is no nearer a satisfactory solution

than when first inaugurated. This controversy has been a source of much anxiety and regret to our citizens generally, and has had a most damaging and deleterious effect upon the prosperity and development of the counties wherein it exists ; and, what is more to be regretted, has been the cause of fostering and keeping alive an ill feeling among neighbors and those who would otherwise be warm personal and political friends. I hope, in your wisdom, you will devise some means of settling and disposing of these unfortunate controversies, which shall have the merit of being strictly just to all the citizens of Bon Homme and Cole counties, and rely on time and strict justice, to heal the unfortunate differences and ill feeling which now exist in those counties.

CONCLUSION.

Hoping that your deliberations may be characterized by such courtesy, forbearance and justice as to give no ground of complaint on the part of any one, I solicit from you your counsel, and hearty co-operation in all measures calculated to promote the well being of Dakota.

I deem it my duty, and it will be a pleasure to me, to furnish you all the information within my reach, calculated to aid you in your deliberations, in arriving at just and equitable conclusions on all subjects, and I shall most cheerfully and heartily co-operate with you in all measures calculated to promote our growth and increase our material wealth and prosperity.

In conclusion, allow me to express the hope that ere the return of the next annual meeting of the Legislature, we may, through the aid of Divine Providence, look upon a re-united, peaceful, happy, and free country.

MR. PRESIDENT:—Your committee to whom was referred C. B. No. 2, An act granting to Abram Van Osdel and his heirs and assigns the right to keep and maintain a ferry on the Dakota river, have had the same under consideration and beg leave to report the same back without amendment and recommend its passage.

FRANKLIN TAYLOR, Ch'n.

Mr. Kingsbury, chairman of the special committee to whom was referred C. B. No. 6, submitted the following report :

MR. PRESIDENT:— A majority of your special committee to whom was referred council bill No. 6, entitled An act repealing certain acts and parts of acts therein named, have had the same under consideration, and beg leave to submit the following report, embodying, in part, the reasons which will influence their action upon the important subject herein considered.

Your committee conclude that at the time when the section of country comprised in the present counties of Kittson, Chippewa, Sheyenne, and Stevens, was erected into a Council and Representative District, the understanding possessed by a majority of that Legislature concerning that section of our Territory was largely derived from speculation, and that but an imperfect and doubtful opinion existed respecting the political rights belonging to individuals resident of that portion of Dakota. An accommodating disposition was, doubtless, largely prevalent, and as all public matters concerning the Territory, were, at that time, taking preliminary degrees, each representative of a local interest was indulged according to his own representations and desires, as near as could be, without that strict regard for justice and legality, which time and mature reflection would suggest.

Subsequent to the passage of the acts creating the counties before named and apportioning to them members of this Legislative Assembly, more thoughtful consideration has been given the subject, and unsophisticated reasoning has given rise to a knowledge which denies the justice and legality of that action, and calls for immediate redress on the part of citizens of other organized legislative districts of our Territory.

The fact that the counties of Kittson, Chippewa, Sheyenne, and Stevens, were created out of domain from which the Indian title had never been extinguished, and consequently not under the executive or judicial jurisdiction of our local Territorial laws and courts, is of sufficient importance to demand their obliteration, and the repeal of the acts creating them. The fact that representatives from the districts named when residing within the territory comprised in these counties are not amenable to the very laws they themselves aid in enacting, is a sufficient cause to justly deny them any participation in the creation of such laws. The fact that they enjoy a total immunity from taxation, and from the provisions of all general laws enacted by our Territorial Legislature, of itself, denies the justice and equity of their claims to representation in this Legislature on an equality with the members from other districts.

Your committee are furthermore, apprehensive that some of the citizens of the ceded portions of our Territory, have long indulged erroneous opinions regarding the number and character of the occupants of the Territory comprised in the aforementioned counties. From circumstances and reports of an authentic character, we are forced to believe that with the exception of a few licensed traders, and philanthropic Missionaries, together with the custom-house officer and his assistants at Pembina, the resident occupants of that country are composed of Indians, half-breeds, and, until within the past eighteen months a few Canadian and Scotch farmers that had strayed across the boundary line from the Selkirk settlement in the British Possessions, and who were not naturalized citizens of the United States, and who were tolerated by the Indian owners of that soil, until the breaking out of the present Indian war, in August, 1862, which event rendered their situa-

tion so perilous that they were compelled to remove from the country.

Aside from these considerations, your committee is sensible that the great diversity of interests, socially, politically, and commercially, which exists between the ceded portions of Dakota and the Red River of the North, demands an early recognition, and while we would not desire to do an act which though just, would entail injury upon the political and commercial prospects of that section of our Territory, we feel that the passage of the Act now under consideration will be a step toward facilitating such action on the part of those persons interested in the prosperity of that country, and the General Government as will result in the extinguishment of the Indian titles, and the opening of that rich and fertile country to civilization and settlement. Our affirmative action in this matter, will forcibly bring to the attention of the proper authorities the condition of that portion of our Territory, and its wants will find more speedy alleviation, and some of the obstacles which now prevent it from the enjoyment of local political and judicial advantages, will be sooner removed.

Concerning the other portions of the bill under consideration, your committee deem it necessary for the public interests, and essential to the ends of justice, and a proper precaution against fraud and deception, that such disposition should be made of them, as is suggested by the bill itself.

In conclusion, your committee would recommend the passage of the bill without amendment.

GEO. W. KINGSBURY, Ch'n.

M. M. RICH.

After mature reflection, we have come to the conclusion that the expense was necessary and unavoidable for the protection of the lives and property of our people during the Indian troubles of 1862. Your committee has therefore agreed upon, and herewith report a bill of the following title: "A memorial to Congress asking for an appropriation to defray the military expenses incurred in this Territory in 1862;" and we unite in the recommendation that the same do pass.

JOHN MATHERS, Chairman.

Mr. Taylor, J. O., chairman of the committee on federal relations, submitted the following report :

MR. PRESIDENT :—Your committee on federal relations have had under consideration the subject of public property of the Territory, and we find that the buildings now occupied by the Legislative Assembly and the several Federal Officers of the Territory, are leased of private individuals, and are temporary wooden structures, in all respects unsuitable and unfit for the uses to which they are applied. That the Legislative, Executive, and Judicial records, files, libraries, furniture, and other valuables of the Territory, should have a secure place or places for safe keeping is obvious to every one, and it has been the

uniform custom of Congress to make appropriations for that purpose to the organized Territories. We have therefore agreed upon, and herewith report the following bill, entitled: "Memorial and joint resolution, praying for an appropriation to erect a Capital building for Dakota Territory," and recommend that the same do pass.

J. O. TAYLOR, Chairman.

MAHLON GORE,
Chief Clerk.

Mr. Kingsbury chairman of the committee on judiciary, submitted the following report:

MR. PRESIDENT:—Your committee on judiciary, to whom was referred C. B. No. 55, entitled An act changing the time of holding the United States District Court in the 1st judicial district of Dakota Territory, have had the same under consideration, and report the bill back, with the recommendation that it be referred to the committee of the whole, this P. M. at 3 1-2 o'clock.

G. W. KINGSBURY, Ch'n.

Mr. Rich, chairman of the committee on education, submitted the following report:

MR. PRESIDENT:—Your committee on education, to whom was referred that portion of the governor's message relating to common schools, have to report that we have had the subject under consideration, and after a careful examination of chapter 81 of the general laws of 1862, entitled An act for the regulation and support of common schools, approved May 13, 1862, we have come to the conclusion that the above entitled

act provides a thorough school system within each organized county—a system that, if carried into practicable operation, would be an ornament, as well as a blessing to the Territory. We find that under the truly admirable provisions of said act, the operation of common schools may be just as general and expensive or as local and economical as the condition and wants of the people of each county may require. And while each school district is under and subject to the general supervision of the county superintendents of public instruction, it is nevertheless a miniature school system complete in itself, enjoying all the rights, powers and franchises of an independent corporation, and may provide for its own support.

We have duly considered his Excellency's suggestions in favor of an amendment to the present law, providing for the election or appointment of a territorial superintendent of public instruction, thus centering the educational system of the Territory in one common head. And had we the population and wealth at this time that in a few years will be ours, we should at once see the wisdom of his Excellency's suggestions, and the necessity of an amendment to the school law, providing for the election of a territorial superintendent, and requiring county superintendents to report to him. But owing to the fact that most of our settlements are isolated from each other, and, generally, too weak to support more than one school; and as the official business of many of our counties is managed without any regard to a uniform system—as is universally the case in all new territories—we are convinced that, for the present at least, our public schools must be conducted and supported by the several school districts, independent of a territorial supervision and of each other.

Therefore, while we are deeply impressed with the seeming plausibility of arguments in favor of a change, we are nevertheless fully convinced that the present wants of our people do not demand a law providing for a territorial superintendent, nor does the financial condition of the Territory warrant the addition expense thereby incurred.

All of which is respectfully submitted.

M. M. RICH. Ch'n.

Mr. Rich chairman of the committee on education submitted the following report:

MR. PRESIDENT:—Your committee on education to whom was re-committed C. B. No. 51, An act to amend chapter 38, of the general laws of 1862-3, have to report that we have carefully examined the same and have arrived at the conclusion that the increased representation therein provided for, is, at the present time, unnecessary, if not unjust. PRESIDENT:—Your committee who were appointed to wait upon Secretary Hutchinson, and obtain from him an abstract of the returns made to his office of the general election held in this Territory for Delegate to Congress, Sept. 1, 1862, which were properly returned and acted upon by the Territorial canvassers, beg leave to report that they have discharged that duty, and find that returns were duly and properly made within the time prescribed by law for receiving returns, as follows; to wit:

Number of votes cast for William Jayne:

Elk Point and Willow precinct, 18; Brule Creek precinct, 63; Clay County, first precinct, 33; Clay County, second precinct, 33; Yankton county, 66; Todd county, 18; Charles Mix county, 138; Dakota Cavalry, 11.—875.

Number of votes cast for J. B. S. Todd:

Elk Point and Willow precinct, 50; Brule Creek precinct, 8; Clay county, first precinct, 40; Clay county second precinct, 24; Yankton county, 66; Bon Homme county, 22; Todd county, 24; Charles Mix county, 7; Dakota Cavalry, 9—250.

Yankton county, J. B. S. T. received one vote.

DAKOTA TERRITORY, SECRETARY'S OFFICE,
YANKTON, Jan. 12, 1864.

I hereby certify that the foregoing is a correct list of the votes cast for J. B. S. Todd and William Jayne for Delegate to Congress at the general election held Sept. 1, 1862, according to the returns to this office prior to the canvass made by the board of canvassers.

Witness my hand and the great seal of the Territory,
[L. S.] at Yankton, this day and year above written,

JOHN HUTCHINSON,

Secretary.

The returns above quoted, show William Jayne to have received three hundred and seventy-five votes, and J. B. S. Todd to have received two hundred and fifty votes, and J. B. S. T. to have received one vote. They further show that William Jayne received one hundred and twenty-five votes more than J. B. S. Todd received at said election for delegate to Congress.

and in the opinion of your committee, William Jayne should have been declared to have received one hundred and twenty-five majority, in accordance with the returns on file in the Secretary's office, in compliance with section 33, of chapter 32, of the laws of Dakota Territory, of 1862, which provides as follows, to wit :

And it shall be the duty of the Secretary of the Territory, with the Chief Justice and the Governor, or a majority of them, to proceed within fifty days after the election, and sooner, if all the returns be received, to canvass the votes given for Delegate to Congress and other Territorial officers, and the Governor shall grant a certificate of election to the person having the highest number of votes, and shall also issue a proclamation declaring the election of such person.

The twenty-two votes in the above abstract, returned as having been cast for J. B. S. Todd, in Bon Homme county, your committee are of the opinion should not have been received or acted upon by the board of Territorial canvassers, for the reason that the board of canvassers and nearly every voter of the Territory were possessed of the knowledge that the regular election in that county was broken up by a mob and the ballots destroyed after the polls of the regular election had been properly proclaimed closed. And further, the returns were not made by the legally constituted Register of Deeds of said county. Indeed, the person certifying to the returns, as Register, was never Register of said county, as appears of record. Your committee are therefore of the opinion that the vote for J. B. S. Todd, should be reduced by deducting the vote of Bon Homme county, thereby making William Jayne's majority one hundred and forty-seven votes.

Your committee believe that great injustice was done to William Jayne, by the board of Territorial canvassers in declaring him elected by only sixteen majority. And your committee have been unable to see by what process the result was arrived at by said board of canvassers, in the discharge of their duty as such, under the law quoted above.

There is no doubt in the mind of your committee about the election of William Jayne by a decided majority of legal votes, at the general election held on the first day of September, 1862.

B. 1862, and as it does not appear, by the law quoted above, that the certificate needs to be attested by the Secretary of the Territory, your committee are of the opinion that the certificate of election issued by William Jayne, as Governor, to himself, should have been considered sufficient to admit him to a seat as such delegate, when backed, as it was by the proclamation, of acting Governor Hutchinson, declaring him duly elected a delegate in the thirty-eighth Congress of the United States.

MAH of which is respectfully submitted.
