REP. HEDSTROM: Mr. Speaker: I rise on a point of personal privilege and request that my remarks be printed in the Journal.

David Hilliard, a senior at Lakota High School, just recently earned his fifth state championship. David has been a member of our varsity wrestling team for six seasons. He qualified for the state all six years but did not place as an eighth grader. It should also be noted that David wrestled in a different weight class each year, thus his state championships are all in different weight classes.

REP. HEDSTROM INTRODUCED David Hilliard to the Assembly.

REP. RIEHL MOVED that the report be adopted, which motion prevailed.

POINT OF PERSONAL PRIVILEGE

REP. MERTENS: Mr. Speaker: I rise on a point of personal privilege and request that my remarks be printed in the Journal.

Mr. Speaker and members of the Assembly: I think another important part you have to worry about in capping these transportation payments is that it really does an injustice to the school district that has tried to hold their transportation payments down. It locks the more efficient school districts in on their transportation and they may not be as successful the next year.

The Department of Public Instruction said that there really isn't any exact science as far as distributing the funds for transportation. They continually try to do it on a fair and equitable basis. Well, when you start going into a cap on those transportation payments, you do an injustice to those that have been remarkably efficient in the last few years. And, also the argument that you put it on foundation payments; I hope the rural areas will realize that you may indeed have decreases in the number of

students attending schools, and yet you have the same bus routes--probably more inefficient bus routes--so that's no trade-off at all.

Now, I think we should defeat the amendments to House Bill No. 1002 because it has about three specific amendments. It establishes a salaries-and-wages package that a number of people in this body do not agree with. A number of people in this body do not agree with the foundation aid payments, and the transportation issue is not agreeable. By adopting these amendments, you would be saying "yes" to all three of those. I think this is a dangerous precedent. I hope you will vote "no" against the amendments.
