"SECTION 2. AMENDMENT. Section 40-62-02 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

40-62-02. Determination of necessity. The resolution determining the necessity of the improvement shall designate the portions of streets to be included within the mall or crossed by skyways and shall state the reason or reasons why such designation is deemed necessary. It is recognized by state policy that such necessity may exist in a city of substantial size for one or more of the following reasons:

1. Increases in population and in automobile usage and parking may create conditions of traffic congestion in the central business district during part or all of normal business hours which may be alleviated by a pedestrian mall or skyways.
2. Continued unlimited use of the designated street or streets may constitute a hazard to the safety of pedestrians and may impede necessary movement of police and fire equipment, ambulances, and other emergency vehicles.
3. Certain streets may be improved to their maximum width for sidewalk and roadway purposes, and may be incapable of further widening without taking buildings and improvements or substantially impeding the movements of pedestrians using the facilities of the central business district.
4. Orderly plans for urban renewal, rehabilitation, and redevelopment may require or may be facilitated by such an improvement.
5. Pedestrian use may be the highest and best use of such the designated streets, and the limitation of the use thereof by vehicles may be in the best interest of the city and of the optimum benefit to the properties in the improvement district, if:
 - a. Reasonably convenient alternate routes exist for vehicles going through the central business district to other parts of the city and the state;
 - b. The designated streets are not federal, state, or county highways, or, if they are, the making of the improvement is conditioned upon the relocation of such highways in the manner provided by law; and

- c. Properties abutting on the designated streets can reasonably and adequately receive and deliver merchandise and materials either from other streets or alleys, or by providing for limited use of the designated streets for this purpose.

6. Construction of skyways may alleviate the conflict between pedestrian and motor vehicle traffic.

SECTION 3. AMENDMENT. Section 40-62-03 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

40-62-03. Plans and specifications. The plans and specifications shall provide for improvement of the designated streets or construction of skyways in a manner designed for use primarily for the free movement, safety, convenience, and enjoyment of pedestrians, whether or not part of the mall is made available for emergency or other permitted vehicles. A mall improvement may provide for and include space for seating, cafe tables, shelters, trees, flower plantings, sculptures, newsstands, telephone booths, traffic signs, kiosks, fire hydrants, street lighting, ornamental lights, trash receptacles, display cases, marquees, awnings, canopies, overhead and underground radiant heating devices, walls, barriers, and all such other fixtures, equipment, facilities, and appurtenances as will in the governing body's judgment enhance the free movement, safety, convenience, and enjoyment of pedestrians and benefit the adjoining properties and the central business district and the city. Sidewalks may be constructed of concrete, bricks, asphalt tiles, blocks, granite sets, or such other materials or combinations of materials as the governing body may approve. The governing body may in its discretion narrow any roadway to be kept and maintained in the mall, may cause any street vaults to be reconstructed or removed, may construct crosswalks at any point within or at the ends of blocks, and may cause any roadway to curve and meander within the limits of the street, if deemed desirable to enhance the usefulness or appearance of the mall, regardless of any nonuniformity of street width or any curve or absence of curve in the centerline of the street. A skyway may be open or enclosed, heated or unheated, and may include any fixtures, equipment, facilities, and appurtenances the governing body determines will enhance the free movement, safety, convenience, and enjoyment of pedestrians and benefit the adjoining properties and the central business district and the city.

SECTION 4. AMENDMENT. Section 40-62-04 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

40-62-04. Jurisdiction to improve and regulate. Upon hearing of any protests made by the owners of property within the improvement district in the time and in the manner provided by law, if the governing body shall determine the protests to be insufficient, it may proceed with the improvement as in the case of other special improvements; provided, that before so proceeding a certified transcript of the resolution of necessity shall be recorded in the office of the register of deeds, and any person aggrieved thereby may appeal therefrom to the district court of the county within twenty days after such recording, but only on the ground that the establishment of the mall or construction of the skyway in accordance with the resolution will unreasonably and arbitrarily obstruct the public use of and interest in the designated street or streets, or that such resolution has been adopted in a manner contrary to law. Notwithstanding the establishment of a mall or skyway, or the improvement of any street or any portion thereof as a part of such mall or skyway, or any limitation of the use thereof by vehicles, the city and the governing body shall retain at all times their police powers and other powers and rights pertaining thereto, and no such action shall constitute a vacation, in whole or in part, of any portion of a city street.

SECTION 5. AMENDMENT. Section 40-62-05 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

40-62-05. Regulations Use of mall or skyways. The jurisdiction of the city to make a pedestrian mall improvement or to construct skyways, when established in the manner provided by law, shall include jurisdiction to establish by ordinance and from time to time amend reasonable regulations for the use of the mall or skyways, conforming to the following provisions:

1. Vehicles shall be permitted to cross the mall at all street intersections except those of two streets each forming part of the mall.
2. The owners and occupants of all properties abutting upon the mall which have access to no other street or alley for delivery or receipt of merchandise and materials shall be permitted to use the mall during such days and hours, which need not be ordinary business days or hours, and in such manner and over such distance, as the governing body shall find to be reasonably adequate for this purpose and to be possible

without interfering with use by pedestrians and by emergency and other vehicles for which use is permitted.

3. The regulations may permit use for any purpose or activity which will enhance the freedom of movement, safety, convenience, or enjoyment of pedestrians, including but not limited to, seating, sidewalk cafes, displays of merchandise, exhibits, advertising, telephones, transit, transit stops and shelters, newstands, plantings, ornaments, protection from the elements, emergency vehicles, and police and fire equipment.
4. The governing body may adopt a use plan prepared by city officers or consultants, providing for the location and distribution within the mall of furniture, sculpture, pedestrian traffic control devices, trees, flowers, lighting or heating facilities, and any other equipment or properties placed or installed in the mall, whether owned by the city or others, and may license and regulate the operation and maintenance thereof.
5. Any furniture, structure, facility, or use located or permitted pursuant to such a plan shall not, by reason of such location or use, be deemed a nuisance or unlawful obstruction or condition, and neither the city nor any user acting under permit shall be liable for any injury to person or property therefor unless directly caused by its own negligence or that of its employees in the construction, maintenance, or operation of such furniture, structure, facility, or use.
6. The regulations for skyways may establish reasonable hours for use, permit closure during hours of nonuse, prohibit use of the skyway for nonpublic purposes, and provide methods necessary to prevent vandalism and other unauthorized use of the skyway.

And renumber the lines, sections, and pages accordingly
 PERRY GROTEBERG, Secretary
