The research must have as a purpose, the development and dissemination of technology important to the production and utilization of food, feed, fiber, and fuel from crop and livestock enterprises. The research must provide for an enhancement of the quality of life, sustainability of production, and protection of the environment. The research station shall keep detailed records of all research activities and publish the information that will be of value to the residents of this state.

Dickinson research center. The Dickinson research center must be located at or near Dickinson in Stark County. The center shall conduct research on increasing the carrying capacity of native rangeland, with emphasis on conservation and preservation for future generations. The center shall conduct research on grass production to determine how to best compensate for the vagaries of the weather as it influences forage production in the dryland agriculture of western North Dakota. The

center shall conduct research at the ranch location in Dunn County with beef cattle and swine breeding, feeding, management, and disease control for the benefit of livestock producers of western North Dakota and the entire state. The center shall conduct research designed to increase productivity of all agricultural products of the soil by maintaining or improving the soil resource base in the dryland agricultural region of southwestern North Dakota by the identification of adapted crop species and superior crop cultivars; propagation and distribution of selected seedstock; and development of profitable cropping systems that achieve the necessary balance between profitability and conservation of all natural resources. The center shall disseminate research results and information for the benefit of this state.

Williston research center. The Williston research center must be located at or near Williston in Williams County. The center shall conduct research designed to increase productivity of all agricultural products of the soil while maintaining or improving the soil resource base in the dryland agricultural region of northwestern North Dakota by the identification of adapted crop species and superior crop cultivars; propagation and distribution of selected seedstocks; and development of profitable cropping systems that achieve the necessary balance between profitability and conservation of all natural resources. The center shall disseminate research results and information for the benefit of this state.

Langdon research center. The Langdon research center must be located at or near Langdon in Cavalier County. The center shall conduct research designed to increase productivity of all agricultural products of the soil while maintaining or improving the soil resource base in the dryland agricultural region of northeastern North Dakota by the identification of adapted crop species and superior crop cultivars; propagation and distribution of selected seedstocks; and development of profitable cropping systems that achieve the necessary balance between profitability and conservation of all natural resources. The center shall disseminate research results and information for the benefit of this state.

Central grasslands research center. The central grasslands research center must be located within an area bounded by the Missouri River on the west and the James River on the east. The center shall conduct research designed to fulfill needs within an area bounded by the Missouri River on the west and the James River on the east. Research objectives must be to increase the range-carrying capacity of native range, with emphasis on conservation and preservation for future generations; stabilization of grass production to discover how to best compensate for the vagaries of the weather and precipitation as it influences forage production in a dryland agriculture; identification of the impact of different management systems upon beef production in the central region of the state; and exploration of increased use of crop residues and byproducts for the maintenance of the cowherd.

Carrington research center. The Carrington research center must be located at or near Carrington in Foster County. The center shall conduct research designed to determine the potential of irrigated agriculture in the region proposed for irrigation development in the state which must be related to both crop and livestock production. The center shall conduct research designed to increase productivity of all

agricultural products of the soil while maintaining or improving the soil resource base in the dryland and irrigated agricultural region of east central North Dakota by the identification of adapted crop species and superior crop cultivars; propagation and distribution of selected seedstocks; and development of profitable cropping and integrated crop and livestock systems that achieve the necessary balance between profitability and conservation of all natural resources. The center shall disseminate research results and information for the benefit of this state.

Hettinger research center. The Hettinger research center must be located at or near Hettinger in Adams County. The center shall develop the best available technology in breeding, feeding, management, and disease control pertinent to the production of sheep in the state. The center shall conduct research designed to increase productivity of all agricultural products of the soil while maintaining or improving the soil resource base in southwestern North Dakota by the identification of adapted crop species and superior crop cultivars; propagation and distribution of selected seedstocks; and development of profitable cropping systems that achieve the necessary balance between profitability and conservation of all natural resources. The center shall disseminate research results and information for the benefit of this state.

North central research center. The north central research center must be located at or near Minot in Ward County. The center shall conduct research designed to increase productivity of all agricultural products of the soil while maintaining or improving the soil resource base in the dryland agricultural region of north central North Dakota by the identification of adapted crop species and superior crop cultivars; propagation and distribution of selected seedstocks; and development of profitable cropping systems which achieve the necessary balance between profitability and conservation of all natural resources. The center shall disseminate research results and information for the benefit of this state.

Board of visitors - Members - Inspection - Expenses - Duties. The boards of county commissioners of Renville, Bottineau, Rolette, Benson, Ward, McHenry, Pierce, McLean, Mountrail, Sheridan, Burke, and Wells Counties shall name two farmers operating farms in their respective counties to serve as a board of visitors to the north central research center. A member of the board of visitors shall serve for three years and is not eligible for reappointment until after a lapse of three years following each term of office. The board of county commissioners of the county from which a vacancy occurs shall fill the vacancy. The board of visitors shall make an annual inspection of the north central research center upon call of the director. At least one inspection a biennium must be during the growing season. The board of visitors is entitled to a fee for each visit, plus mileage at the same rate as provided by law for other state officials for every mile [1.61 kilometer] actually traveled to and from the farm. The board of visitors shall inspect the work of the north central research center and counsel and advise with the officials in charge. The board of visitors shall name one of its members to serve as chairman and another to serve as secretary. The chairman and the secretary shall make a written report to the director.

Mandan experiment station. The Mandan experiment station is an agricultural, grass, and tree experiment station. The station must be maintained on the grounds of the state industrial school and operated in connection with the North Dakota state university of agriculture and applied science. The Mandan experiment station is under the direction of the state board of higher education."

STATEMENT OF PURPOSE OF AMENDMENT:

The section relating to the development of the NDSU-Extension Service's area resource centers is amended to provide that the NDSU-Extension Service shall not change the manner in which extension services are provided to a county without the approval of that county's board of county commissioners.

Section 13 of the bill provides that the Legislative Council is to replace, in the North Dakota Century Code, the varying names of the Extension Division with North Dakota State University Extension Service.

Section 14 of the bill revises Chapter 4-05 which relates to the Agricultural Experiment Station and includes changing the names of the branch experiment stations to research centers. The major change from the Senate version is the reference to the NDSU Main Research Station and the role of the North Dakota Agricultural Experiment Station which was clarified to include the NDSU Main Research Station and all of the research centers including the Agronomy Seed Farm.

Other changes are shown on the attached schedules.

¹ Provides annual salary increases for faculty of eight percent the first year of the biennium and seven percent the second year and support staff salary increases in accordance with legislative compensation policy contained in House Bill No. 1005.

² Provides a salary increase for faculty on July 1, 1989, of 12.6 percent and support staff salary increases in accordance with legislative compensation policy contained in House Bill No. 1005.

³ Funding for the development of the NDSU-Extension Service's area resource centers is reduced by \$292,500 from the general fund from \$585,000 to \$292,500. The extension service anticipated creating 16 to 18 area resource centers. The \$292,500 of general fund support remaining is to be used to develop a plan for the establishment of area resource centers and to establish two area resource center pilot projects. The reductions are as follows:

GENERAL FUND

Salaries and wages	\$ 1234,000
Operating expenses	<u>158,500</u>
Total	\$ 1292,500

⁴ Funding for the NDSU-Main Research Station is increased by \$292,500 from the general fund for foliar disease research in cereal grains. The additional funding will permit the NDSU-Main Research Station to hire two scientists (\$90,000 each) and two technicians (\$50,000 each). Because the NDSU-Main Research Station has unfilled positions, no additional authorized FTE positions are necessary. The increases are as follows:

GENERAL FUND

Salaries and wages	\$ 280,000
Operating expenses	<u>12,500</u>
Total	\$ 292,500

⁵ The Dickinson Experiment Station bond payments of \$2,558,068 from the general fund are deleted because an appropriation for the bond payments is included in House Bill No. 1037. In addition, the section exempting the bond payments from budget reductions caused by an initiated or referred measure is removed.
