

JOURNAL OF THE SENATE

Fifty-first Legislative Assembly

* * * * *

Bismarck, February 10, 1989

The Senate convened at 12:30 p.m., with President Omdahl presiding.

The prayer was offered by Pat Safer, Forward Foundation, Oriska.

O Captain, our Captain . . . the journey is not done.
This ship of state to weather the stretch until . . . the prize is won!

The port is near, the bells we hear, the people all exulting vision
beckons within our hearts, although we see some stalking.

We plead with You to keep our eyes upon a steady keel, and if You
please to humble us, cause us, O Father, to kneel.

The prize You have aspires our daring, for we seek to stand where you
are caring.

To the rock that is higher, O Captain, we cry Your refuge and strong
tower - in Jesus - not "I"!

And when this ship comes into port, we'll know that You who've kept the
score,
Will bring the victory - abundant in life, emancipating glory that all
might see Christ!

The roll was called and all Senators were present, except Senator Nething.

A quorum was declared by the President.

SECTION 1. AMENDMENT. Subsection 17 of section 38-14.1-24 of the North Dakota Century Code is hereby amended and reenacted to read as follows:

17. Restore lands affected by the surface coal mining operation which have been designated for postmining agricultural purposes to the level of productivity equal to or greater, under equivalent management practices, than nonmined agricultural lands of similar soil types in the surrounding area. For those lands which are to be rehabilitated to native grasslands, a diverse, effective and permanent vegetative cover must be established of the same seasonal variety native to the area to be affected and capable of self-regeneration, plant succession, and at least equal in extent of cover and productivity to the natural vegetation of the area. The level of productivity and cover attained on disturbed lands within the permit area must be demonstrated by the permittee using comparisons with similar lands in the surrounding area having equivalent historical management practices and that are undisturbed by mining, or comparable disruptive activities. The productivity of the land must be determined based upon samples taken from or tests conducted on a representative sampling of the reclaimed land. If

available, harvest yields verified by the permittee must be used to determine the productivity of the land. If the yield verified by the permittee does not accurately reflect the productivity of the land, then the representative sampling procedures must be used."
